**CARRAMERICA ANNOUNCES FIRST QUARTER 2006 FINANCIAL RESULTS**

Washington D.C.    May 1, 2006    CarrAmerica Realty Corporation (NYSE:CRE) today reported first quarter 2006 diluted earnings per share of \$0.23 on net income of \$17.5 million, compared to diluted earnings per share of \$1.54 on net income of \$95.0 million for the first quarter of 2005. First quarter 2005 net income included gains from the disposition of real estate of \$88.1 million (\$1.46 per diluted share) compared to gains from the disposition of properties in the first quarter of 2006 of \$17.6 million (\$0.30 per diluted share).

For the first quarter of 2006, diluted funds from operations available to common shareholders (Diluted FFO) were \$35.9 million or \$0.61 per share compared to \$41.4 million or \$0.69 per share for the first quarter of 2005. The gains associated with the disposition of real estate had no impact on reported Diluted FFO or Diluted FFO per share.

Included in our operating results for the first quarter of 2006 are \$1.7 million of transaction costs for the merger transaction described below.

**Proposed Merger with an Affiliate of The Blackstone Group**

On March 5, 2006, CarrAmerica, along with its subsidiaries, CarrAmerica Realty Operating Partnership, L.P., a Delaware limited partnership (the Operating Partnership), Carr Realty Holdings, L.P., a Delaware limited partnership ( CRH ), and CarrAmerica Realty, L.P., a Delaware limited partnership ( CAR ), entered into an Agreement and Plan of Merger with certain affiliates of The Blackstone Group ( Blackstone ) pursuant to which two of the affiliates of Blackstone will merge with and into CRH and CAR, respectively, and CarrAmerica will merge with and into another affiliate of Blackstone. In the CarrAmerica merger, holders of CarrAmerica's common stock (other than CarrAmerica, its subsidiaries and the Blackstone affiliate with

which CarrAmerica would merge) will receive \$44.75 in cash, without interest, for each share of common stock issued and outstanding immediately prior to the effective time of the merger, and holders of CarrAmerica's 7.5% Series E cumulative redeemable preferred stock will receive one share of 7.5% Series E cumulative redeemable preferred stock of the surviving corporation of the CarrAmerica merger on substantially the same terms as CarrAmerica's existing Series E preferred stock, for each share of Series E preferred stock issued and outstanding immediately prior to the effective time of the merger. As promptly as practicable following the merger effective time, the surviving corporation will be liquidated into Nantucket Parent LLC, a Blackstone affiliate. In the liquidation, shares of the surviving corporation's Series E preferred stock will be canceled and the holders thereof will receive a cash distribution from the surviving corporation of \$25.00 per share plus any accrued and unpaid dividends.

In addition, in connection with the mergers of CRH and CAR, limited partners of those partnerships will receive \$44.75 in cash, without interest, for each unit of partnership interest that they own in CRH or CAR, or in lieu of such cash consideration, limited partners that satisfy certain criteria may elect to receive newly issued 6% Class A preferred units in the applicable surviving partnership on a one-for-one basis.

The consummation of the mergers is subject to customary closing conditions including, among other things, the approval of the CarrAmerica merger by the affirmative vote of holders of at least two-thirds of CarrAmerica's outstanding common stock. The closing of the mergers is not subject to a financing condition.

**Portfolio Report**

Occupancy for consolidated stabilized properties was 90.5% at March 31, 2006, up from 89.4% at December 31, 2005 and up from 88.6% at March 31, 2005. Same store property operating income for the first quarter of 2006 decreased 2.7% on a GAAP basis over the same period in 2005 due primarily to higher property operating expenses. The average occupancy rate for same store properties was 89.8% in the first quarter, compared to 87.7% for the first quarter 2005.

For the first quarter, rental rates decreased 5.0% on average on the leases executed during the quarter compared to expiring leases. The Company leased 648,000 square feet of office space in the first quarter of 2006.

**Acquisitions**

In the first quarter of 2006, CarrAmerica acquired 7000 West Lantana, comprised of two office buildings totaling 133,817 square feet in Austin, Texas, for \$22.3 million. The property is 100% leased and is expected to provide a year one GAAP yield of 8.8%.

Also in the first quarter, CarrAmerica closed on the acquisition of the Casey Family Building, a 77,759-square-foot office building, and adjacent land parcels expected to support the additional development of approximately 600,000 square feet of office and retail space in Seattle, Washington, for \$52.0 million.

**CarrAmerica Release of May 1, 2006**

**Page Three**

The Casey Family building, which was acquired for \$22.0 million, is 100% leased, and is expected to provide a year one GAAP and stabilized GAAP return of approximately 7.6%. The development of the adjacent land parcels is expected to occur over a three to five year period, and to provide a stabilized GAAP return approximately 100-200 basis points higher than that of the Casey Family Building.

Also in the first quarter, CarrAmerica closed on the acquisition of 3553 North First Street in San Jose, California, an 85,585-square-foot office building, for \$10.3 million. The property is expected to provide a year one GAAP return of approximately 2.2%, and a stabilized GAAP return of approximately 9.3%. These expected returns reflect a four-month leaseback to NetIQ and CarrAmerica's estimates as to the leasing of the building thereafter.

In early April, a joint venture in which CarrAmerica is a 20% partner acquired Sherry Lane Place, a 286,426 square foot, 20-story, Class A office tower in the Preston Center submarket of Dallas, Texas for \$62.5 million. CarrAmerica expects to receive a year one unleveraged GAAP return on its investment of 7.1%.

**Dispositions**

In the first quarter of 2006, CarrAmerica sold a 258,058 square foot building in Reston, Virginia for \$51.9 million and recognized a gain of approximately \$17.5 million. The building was approximately 17% leased at the time of sale.

**Development**

During the first quarter, CarrAmerica commenced construction of a 79,000 square foot office building in Salt Lake City. Total project costs are expected to be \$11.8 million and the project is expected to produce a year one stabilized GAAP return of 9.3%.

Also during the first quarter, CarrAmerica commenced construction on a 40,000 square foot office building in San Diego, California. Total project costs are expected to be \$14.5 million and a year one GAAP return of 9.3%.

**CarrAmerica Announces First Quarter Dividend**

The Board of Directors of CarrAmerica today declared a first quarter dividend for its common stock of \$0.50 per share. The dividend will be payable to shareholders of record as of the close of business May 19, 2006. CarrAmerica's common stock will begin trading ex-dividend on May 17, 2006 and the dividend will be paid on May 31, 2006. The company also declared a dividend on its Series E preferred stock. The Series E Cumulative Redeemable preferred stock dividend is \$.46875 per share. The Series E preferred stock dividends are payable to shareholders of record as of the close of business on May 19, 2006. The preferred stock will begin trading ex-dividend on May 17, 2006 and the dividends will be paid on May 31, 2006. Under the terms of the merger agreement, pending the merger, CarrAmerica may not declare or pay any additional common stock dividends in the future without the prior written approval of Nantucket Parent LLC, an affiliate of The Blackstone Group.

Solely for purposes of satisfying U.S. federal income tax withholding obligations under section 1.1445-8 of the federal income tax regulations with respect to payments to certain affected non-U.S. stockholders, the Company will characterize a portion of each of the first quarter dividends described above paid to certain affected non-U.S. stockholders as a capital gain dividend to reflect the taxable composition of its aggregate dividend payment to stockholders in 2005.

Accordingly, the Company will characterize as a capital gain dividend \$0.357016 per share of the dividend for its common stock and \$0.334702 per share of the dividend for its Series E preferred stock. This characterization is relevant only for purposes of withholding on payments to certain affected foreign stockholders and has no effects on U.S. stockholders.

## CARRAMERICA REALTY CORPORATION

## Funds From Operations

Funds from operations ( FFO ) and funds available for distribution ( FAD ) are used as measures of operating performance for real estate companies. We provide FFO and FAD as a supplement to net income calculated in accordance with accounting principles generally accepted in the United States of America ( GAAP ). Although FFO and FAD are widely used measures of operating performance for equity REITs, they do not represent net income calculated in accordance with GAAP. As such, they should not be considered an alternative to net income as an indication of our operating performance. In addition, FFO or FAD does not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor are they indicative of funds available to fund our cash needs, including our ability to make cash distributions. The National Association of Real Estate Investment Trusts (NAREIT) defines FFO as net income (computed in accordance GAAP), excluding gains (losses) on sales of property, plus depreciation and amortization of assets uniquely significant to the real estate industry and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis.

We believe that FFO and FAD are helpful to investors as a measure of our performance because they exclude various items included in net income that do not relate to or are not indicative of our operating performance, such as gains and losses on sales of real estate and real estate related depreciation and amortization, which can make periodic analyses of operating performance more difficult to compare. FAD deducts various capital items and non-cash revenue from diluted FFO available to common shareholders. Our management believes, however, that FFO and FAD, by excluding such items, which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates, can help compare the operating performance of a company's real estate between periods or as compared to different companies. Our FFO or FAD may not be comparable to FFO or FAD reported by other REITs. These REITs may not define FFO in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently than us. They may include or exclude items which we include or exclude from FAD.

\* POI is Property Operating Income Property operating revenue less property operating expenses and real estate taxes. POI is the performance measure used to assess the results of our real estate property operations segment. We believe that the presentation of property operating income is helpful to investors as a measure of the operating performance of our office properties because it excludes items that do not relate to or are not indicative of operating performance of the properties (including interest, depreciation and amortization) and which can make periodic comparison of operating performance more difficult.

- (a) Minority partnership units are included in market value computation.
- (b) Excluding capitalized interest. See page 25 for computation.
- (c) Including capitalized interest. See page 25 for computation.
- (d) Represents diluted Funds from Operations (FFO). Funds from operations is defined as net income (loss), excluding gains (losses) on sales of property, plus depreciation and amortization of assets and after adjustments for unconsolidated partnerships and joint ventures in accordance with the NAREIT definition. Diluted funds from operations is computed as FFO attributable to common shareholders adjusted to reflect all operating partnership units as if they were converted to common shares for any period in which they are not antidilutive. In the first quarter 2006, minority units were antidilutive. See page 22 for a reconciliation of diluted FFO to net income.
- (e) Excludes impairment charges and prepayment penalties on debt. See page 23 for reconciliation of EBITDA to net income.
- (f) Excludes bond issue costs and discounts and the fair value of interest rate swaps.
- (g) Refer to page 6 for definition.
- (h) Market value based on end of period stock price.
- (i) Property operating income - Property operating revenue less property operating expenses and real estate taxes (see page 1). See page 25 for reconciliation to net income.
- (j) See page 24 for reconciliation of funds available for distribution to net income, definition and computation of ratio.

- (1) FFO is a widely used measure of operating performance for real estate companies. We provide FFO as a supplement to net income calculated in accordance with GAAP. Although FFO is a widely used measure of operating performance for equity REITs, FFO does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. In addition, FFO does not represent cash generated from operating activities in accordance with GAAP, nor does it represent cash available to pay distributions and should not be considered as an alternative to cash flow from operating activities, determined in accordance with GAAP as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions. We believe that FFO is helpful to investors as a measure of our performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as gain and losses on sales of real estate and real estate related depreciation and amortization, which can make periodic analyses of operating performance more difficult to compare. Our management believes, however, that FFO, by excluding such items, which can vary among owners of similar assets in similar condition based on historical cost accounting and useful life estimates, can help compare the operating performance of a company's real estate between periods or as compared to different companies. Our FFO may not be comparable to FFO reported by other REITs.

- (1) Fund from operating is defined as net income, excluding gains on sales of property, plus depreciation and amortization of assets and after adjustments for unconsolidated partnerships and joint ventures. Diluted funds from operations is computed as FFO attributable to common shareholders adjusted to reflect all operating partnership units as if they were converted to common shares for any period in which they are not antidilutive.
- (2) Operating partnership units are considered to be converted to common shares for any period in which they are not antidilutive. Diluted FFO per share may include operating partnership units in periods which operating partnership units are antidilutive for EPS purposes.

- (1) EBITDA is a non-GAAP financial measure and we believe it is helpful to investors due to the significance of our long-lived assets and their associated significant depreciation expense. This data should not be considered as an alternative to net income, operating profit, cash flow from operations or any other operating or liquidity performance measure prescribed by GAAP. In addition, we may calculate EBITDA differently from other companies and our EBITDA may not be comparable to similarly titled measures reported by other companies. Interest expense, depreciation and amortization, taxes, impairment losses, minority interests, net gain on sales of real estate and preferred dividends are not reflected in the presentation of EBITDA. We caution investors that these excluded items are significant components in understanding and assessing our financial performance.

- (1) FFO and FAD are widely used measures of operating performance for real estate companies. We provide FFO and FAD as supplements to net income calculated in accordance with GAAP. Although FFO and FAD are widely used measures of operating performance for equity REITs, FFO and FAD do not represent net income calculated in accordance with GAAP. As such, they should not be considered an alternative to net income as an indication of our operating performance. In addition, FFO and FAD do not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to cash flow from operating activities, determined in accordance with GAAP as a measure of our liquidity, nor are they indicative of funds available to fund our cash needs, including our ability to make cash distributions. Our FFO and FAD may not be comparable to FFO and FAD reported by other REITs.
- (2) Common dividends and distributions include distributions to minority unitholders. For the quarter ended 3/31/06, minority units were antidilutive for the computation of Diluted FFO and FFO allocable to minority unitholders reduces Diluted FFO. FFO allocable to minority unitholders is added back for the computation of the FAD coverage ratio as the minority distributions are included in the calculation.
- (3) Amortization associated with above/below market leases and lease incentives.

\* Property operating income is the performance measure used to assess the results of our real estate property segment. Although property operating income is a widely used measure of operating performance for equity REITs, property operating income does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. We believe that the presentation of property operating income is helpful to investors as a measure of the operating performance of our office properties because it excludes items that do not relate to or are not indicative of operating performance of the properties (including interest and depreciation and amortization) and which can make periodic comparison of operating performance more difficult.
