**PART III NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Rambus Inc. (the Company) plans to file its Quarterly Report on Form 10-Q for the quarter ended June 30, 2007 (Form 10-Q) as soon as practicable, but does not expect that it will be filed on or before the fifth calendar day following the required filing date as prescribed in Rule 12b-25.

The Company is completing its restatement of prior financials to reflect the findings of the Audit Committee of the Board of Directors independent investigation into the Company's historical stock option granting practices.

As described in the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission (the SEC) on April 25, 2007, the Company expects that the pre-tax, non-cash charges related to incorrectly dated stock option grants and other related charges will be approximately \$190 million.

The Company's Board of Directors and management have indicated that they will continue to work with appropriate legal and accounting advisors to develop recommendations and to implement remedial measures to ensure that proper procedures are followed with respect to awards of equity compensation. Additionally, the Company continues to evaluate its internal control over financial reporting as of December 31, 2006. Although the Company has not yet completed all of its analysis on its internal control over financial reporting, it has determined that it is highly likely that the Company had one or more material weakness in internal control over financial reporting as of December 31, 2006. A material weakness is a control deficiency, or a combination of control deficiencies, that result in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Upon the Company's conclusion that one or more material weaknesses existed as of December 31, 2006, the Company would expect to receive an adverse opinion on internal control over financial reporting from its independent registered public accounting firm. As the restatement of the Company's historical financial reports has not yet been completed, the Company will be unable to prepare and file its Form 10-Q. The Company intends to file its Form 10-Q as soon as practicable after the completion of the accounting, tax and legal analyses required as a result of the investigation.

- (2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If the answer is no, identify report(s).    Yes     No

The Company has not filed its Quarterly Reports on Form 10-Q for the quarters ended June 30, 2006, September 30, 2006 and March 31, 2007 and its Annual Report on Form 10-K for the year ended December 31, 2006.

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?     Yes     No

## Edgar Filing: RAMBUS INC - Form NT 10-Q

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As described in its Current Report on Form 8-K filed with the SEC on October 19, 2006, the Audit Committee of the Company's Board of Directors has concluded that the Company's previously issued financial statements for the fiscal years 2003, 2004 and 2005, which are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, the Quarterly Reports on Form 10-Q filed with respect to each of these fiscal years and the financial statements included in the Company's Quarterly Reports on Form 10-Q for the first quarter of fiscal year 2006, should no longer be relied upon and will be restated. In addition, the restatement will affect financial statements for prior fiscal years and the Company will reflect those adjustments as a part of the opening balances in the financial statements in the earliest year of the restatement period. The Company's preliminary estimates indicate that the aggregate pre-tax, non-cash stock-based compensation charges in connection with its stock options investigation and other related charges will be approximately \$190 million, of which \$170 million will be attributed to the period from the Company's initial public offering in May 1997 to December 31, 2005. As the restatement of the Company's historical financial reports has not yet been completed, the Company cannot provide a reasonable estimate and comparison of the results of its operations from the corresponding period for the last fiscal year at this time.
