(the Company), a Delaware corporation, in connection with the solicitation by the Board of Directors of the Company (the Board) of proxies to be voted at the Annual Meeting of Stockholders of the Company (the Meeting) to be held at 1:00 p.m. (local time) on Thursday, May 15, 2008, at the Houston Racquet Club, 10709 Memorial Drive, Houston, Texas 77024 and at any adjournments thereof.

The Notice of Meeting, this Proxy Statement and the accompanying form of proxy are first being mailed to the stockholders on or about April 22, 2008. The Annual Report of the Company for the year 2007 has been furnished to stockholders with this Proxy Statement.

In determining whether this proposal has received the requisite number of affirmative votes, abstentions and broker non-votes will have the same effect as votes against the proposal.

If the enclosed form of proxy is properly executed and returned to the Company prior to or at the Meeting and is not revoked prior to its exercise, all shares of Common Stock represented thereby will be voted at the Meeting and, where instructions have been given by a stockholder, will be voted in accordance with such instructions.

Any stockholder executing a proxy which is solicited hereby has the power to revoke it prior to its exercise. Revocation may be made by attending the Meeting and voting the shares of Common Stock in person or by delivering to the Secretary of the Company at the principal executive offices of the Company located at 2930 W. COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis provides an explanation of Flotek's cash and equity compensation philosophy, and of the policies and practices with respect to our chief executive, financial and technical officers, who are collectively referred to as the named executive officers.

Our compensation philosophy is based on pay-for-performance and contains two primary components—a Performance Pay Plan (PPP) that provides annual cash bonuses and an Equity Incentive Plan (EIP), some of the grants from EIP have been for retention purposes. PPP provides cash payments annually to executives when certain Company, business segment and for the CEO and CFO, individual goals or objectives determined by the Board or Committee are achieved. The EIP has primarily taken the form of stock options and restricted stock.

Table of Contents

Our executive compensation programs are designed to achieve the following objectives:

Attract and retain talented and experienced executives with the skills necessary to run and grow our existing business segments;

Attract and retain talented and experienced executives that can grow our Company through acquisitions and the successful integration of those acquisitions;

Align the interests of our executive officers with those of shareholders to increase shareholder value;

Motivate and reward executives whose knowledge, skills and performance are critical to our success;

Demonstrate fairness among the executive management team by recognizing the contributions each executive makes to Flotek's success;

Provide accountability for the executives' performance to the Board;

Encourage a shared commitment among executives by coordinating Company and individual business unit targets and objectives; and

Encourage executives to meet non-financial goals that the Board believes are necessary for the success of the Company.

Executive Officer Compensation

Principal Components of Compensation of Our Named Executive Officers

Historically, the compensation package offered to our executive officers consisted of:

Base salary;

Cash bonus incentive compensation under the terms of the Company's PPP; and

Equity compensation generally in the form of stock option or restricted stock grants.

Historically, Mr. Dumas, our President and Chief Executive Officer, and Mrs. Meier, our Chief Financial Officer and Senior Vice President, have participated in deliberations with the Compensation Committee of the Board of the Company, which was comprised of all the outside Directors for most of 2007 (the "Committee"), and sometimes the Board concerning senior executive officer compensation and other employees covered under the Company's PPP and EIP. In July 2007, the Committee retained a compensation consultant to review the existing compensation packages for Mr. Dumas and Mrs. Meier and recommend a retention package for each of them. In addition, the Committee reviewed the proxy statements of multiple public oil field service companies for comparison.

Allocation of Compensation Among the Principal Components

Edgar Filing: FLOTEK INDUSTRIES INC/CN/ - Form DEF 14A

The Committee reviews compensation structures at industry comparables, historical compensation for the participant, participant's responsibilities, participant's performance on both financial metrics and individual goals and objectives provided by the Committee, and the individual circumstances of its senior executives when determining the mix of base salary, cash bonus percentages, and annual or retention equity awards to be paid or awarded to our senior executive officers. Our historical practice has been to award a greater percentage of the compensation on the basis of operational performance.

Base Salary

Chief Executive Officer

Mr. Dumas has been Chairman and CEO since 1998. Due to increasing operational responsibilities stemming from multiple acquisitions, increasing shareholder relations obligations, the growth in market capitalization, and a more competitive employment environment, the Committee increased Mr. Dumas' annual

salary in February 2007 to \$360,000 from \$335,000 and in July 2007 to \$450,000. Historically, Mr. Dumas has expressed no need for an employment contract and did not have an employment agreement in 2007. The Company does not currently have an employment agreement with Mr. Dumas, but Mr. Dumas was granted an equity based retention grant in July 2007 that promotes retention over a five year period.

Chief Financial Officer

Mrs. Meier has been our CFO since April 2004 and Senior Vice President since July 2007. Due to increasing operational responsibilities stemming from multiple acquisitions, increased shareholder relations obligations, a more competitive employment environment, increased compliance responsibilities under the Sarbanes Oxley Act, and to bring Mrs. Meier in line with her peers, the Committee increased Mrs. Meier's salary from \$200,000 to \$210,000 in February 2007 and to \$250,000 in July 2007. The Company does not have an employment agreement with Mrs. Meier, but Mrs. Meier was granted an equity based retention grant in July 2007 that promotes retention over a five year period.

Annual Bonus Compensation - Flotek's PPP

In the fourth quarter, the Company produces a budget for the upcoming year which forms the basis for the computation of the annual cash bonuses. The budget is vetted by the Board and formally approved after any requested changes are reflected, including acquisitions made throughout the year. This budget provides the financial targets used in the PPP. For 2007, the primary financial metric was Pre-tax Income as it eliminates the impact of the financing structure employed, the difficulty in forecasting interest rates, and the impact the estimation of taxes could impose on bonuses. The Pre-tax Income in the budget approved by the Board is used as the target Pre-tax Income on which target bonuses are computed.

A target bonus (TB) percentage is established for each employee eligible to participate in the PPP. The TB percentage varies depending on the employee's position and responsibilities. The bonus calculation is based on the individual's average year to date base salary. In addition to the TB, there is a threshold bonus percentage to lessen the penalty of slightly missing the Pre-tax Income target. Challenge bonus percentage provides an incentive to outperform the budget and lessens the incentive to delay performance to the following year.

Threshold % = 90% of Target Pre-tax Income

Target % = Target Pre-tax Income, the budget approved by the Board and modified during the year for acquisitions

Challenge % = 140% of Target Pre-tax Income

Subject to some modifications, eligible participants at the division level have 75% of their bonus based on divisional performance objectives and 25% based on Flotek's corporate consolidated results. In order to receive payment for the portion of the bonus tied to corporate results, the division performance target objectives first must be met. Eligible participants at the corporate level receive bonuses based on corporate and divisional financial performance. This approach incentivizes management to focus on all business units. The TB levels for the executives in 2007 were increased to the following remaining in line with the pay for performance philosophy:

Mr. Dumas 110%

Mrs. Meier 60%

Flotek has not historically paid any signing or retention bonuses to our executive officers. However, we have in the past paid merit bonuses when the Committee felt an accomplishment or workload merited such a bonus. No merit bonuses were paid in 2007.

Equity Compensation – Flotek’s EIP

The historical practice of the Committee has been to grant restricted stock and/or options to attract, retain, motivate and reward employees and executive officers, and to encourage ownership in Flotek. Through 2007, such grants have consisted of incentive stock options, non-qualified stock options and restricted stock. Generally, the Committee has granted awards of stock options to our executive officers upon their appointment as executive officers or at the end of a fiscal year, or shortly thereafter for the upcoming fiscal year, and the equity grants typically have vested over three or four years. The EIP for 2007 had both a restricted stock and an option component, split almost equally by fair market value. The restricted stock portion of the 2007 EIP grant vests evenly over four years and has a performance condition that required the Company to reach 90% of Pre-Tax Income for the option to vest in that year in addition to the service condition. The option portion of the 2007 EIP grant also vests evenly over four years and only has a service condition.

The 2007 EIP grant to Mr. Dumas made in March 2007 was for 22,222 shares of restricted stock and options to purchase 54,348 shares at \$13.81 per share of Common Stock. The 2007 EIP grant to Mrs. Meier made in March 2007 was for 11,038 shares of restricted stock and options to purchase 26,998 shares of Common Stock at \$13.81 per share. All share amounts have been adjusted to reflect the stock split in July 2007. The grants to Mr. Dumas and Mrs. Meier vest immediately if there is a change of control; this condition only applies to one other employee of the Company.

On March 28, 2008 an EIP grant was made to Mr. Dumas for 10,556 shares of restricted stock and options to purchase 27,776 shares of Common Stock at \$22.75 per share and an EIP grant was made to Mrs. Meier for 6,236 shares of restricted stock and options to purchase 16,404 shares of Common Stock at \$22.75 per share. The grants to Mr. Dumas and Mrs. Meier vest immediately if there is a change of control; this condition only applies to one other employee of the Company.

All equity-based awards the Committee awarded have been reflected in our consolidated financial statements based upon the applicable accounting guidance. In December 2004, the Financial Accounting Standards Board (FASB) published FASB Statement No. 123 (revised 2004), *Share-Based Payment* (FAS 123R or the Statement). FAS 123R requires us to recognize in our financial statements the compensation cost relating to share-based payment transactions, including grants of employee stock options. We have to measure the cost based on the fair value of the equity or liability instruments issued. FAS 123R, which replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related interpretive guidance, covers a wide range of share-based compensation arrangements including stock options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. To date, we have only awarded stock options and restricted stock awards under our stock awards plan. Additionally, FAS 123R requires us to measure the cost of employee services received in exchange for stock options based on the fair value of the award on the grant date, and to recognize the cost over the period the employee is required to provide services for the award. FAS 123R permits us to use any option-pricing model that meets the fair value objective in the Statement. We adopted FAS 123R on a prospective basis beginning January 1, 2006, for stock-based compensation awards granted after that date and for unvested awards outstanding at that date using the modified prospective transition method. We recognize the fair value of stock-based compensation awards as compensation expenses in our statement of operations on a straight line basis over the vesting period.

Severance and Change of Control Payments

In 2007 the Company did not make any severance or change of control payments to our employees. We currently are not making any severance payments to any of our former executive officers.

Equity Retention Grants

Given the shareholder value created by the management team and the desire to retain that team, the Committee decided to investigate equity based retention packages for Mr. Dumas and Mrs. Meier. The purpose of the equity grant was to incentivize management to remain with Flotek and continue to create shareholder value in the future.

Table of Contents

To provide the time necessary to interview compensation consultants and keep management focused on operations, the Committee approved a stop gap retention grant to Mr. Dumas and Mrs. Meier in May 2007. This grant consisted of 13,200 and 4,400 shares of restricted stock and options to purchase 66,600 and 22,200 shares of Common Stock, to Mr. Dumas and Mrs. Meier, respectively. Both the restricted stock and the options vest over a one year period.

The Compensation Committee retained a compensation consulting firm to provide assistance in determining appropriate levels of compensation that reward future performance and recognize past services of these two executives and are at the same time reasonable and balanced to protect the interests of shareholders. The study conducted by the compensation consulting firm included 14 peer companies and Flotek's historical performance in arriving at its conclusions. The Committee reviewed a suite of recommendations by the compensation consultant and the practices of peers which included a mixture of signing bonuses, employment agreements with evergreen features, severance protection, and restricted stock grants. The Committee chose to make a restricted stock grant that vested evenly over the next five years to address the issue of retention. In July 2007, the Committee awarded 180,000 and 60,000 shares of restricted stock to Mr. Dumas and Mrs. Meier, respectively.

Other Benefits

We believe that establishing competitive benefit packages for our employees is an important factor in attracting and retaining highly qualified personnel. Executive officers are eligible to participate in all of our employee benefit plans, including Company-paid medical, and accidental death and dismemberment insurance and our 401(k) plan, on the same basis as other employees. Additionally, we currently provide a matching contribution up to 0.75% on a 3.0% employee contribution under our 401(k) plan. We do not offer pension or retirement benefits. Our international employees may have slightly different employee benefit plans than those we offer domestically, typically based on certain legal requirements in that specific country.

Perquisites

We do not have a formal process to review regularly the perquisites received by members of senior management. The perquisites received by each senior executive are determined by past practices. The specific perquisites our named executives are currently receiving or have received in the past include:

Reimbursement for all reasonable travel, entertainment and other expenses incurred in connection with the performance of their duties and obligations;

A monthly automobile, fuel, and maintenance allowance or Company owned vehicle; and

Paid membership for the CEO in a country club of the executive's choice.

Board Process

On at least an annual basis, the Compensation Committee or our full Board approves all compensation and awards to our CEO, CFO, the managers of our business segments and the Board. With respect to equity compensation awarded to other employees, the Compensation Committee grants awards generally based on the recommendation of the CEO and CFO.

Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis and, based on such review and discussion, has recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Table of Contents**PROPOSAL 2: RATIFICATION OF THE APPOINTMENT OF UHY LLP**

The firm of UHY LLP, independent public accountants (UHY), audited our consolidated financial statements for the year ended December 31, 2007, and has advised us that it will have a representative available at the 2008 Annual Meeting to respond to appropriate questions. Such representative will be permitted to make a statement if he or she so desires.

UHY acts as our principal independent registered public accounting firm. Through and as of March 17, 2008, UHY had a continuing relationship with UHY Advisors, Inc. (Advisors) from which it leased auditing staff who were full time, permanent employees of Advisors and through which UHY's partners provide non-audit services. UHY has only a few full time employees. Therefore, few, if any, of the audit services performed were provided by permanent full-time employees of UHY. UHY manages and supervises the audit services and audit staff, and is exclusively responsible for the opinion rendered in connection with its examination.

The Audit Committee has selected UHY as its independent certified public accountants to audit its fiscal year 2008 financial statements. The Board recommends a vote FOR ratification of that selection.

UHY has billed the Company and its subsidiaries fees as set forth in the table below for (i) the audits of the Company's 2007 and 2006 annual financial statements, the audits of the 2007 and 2006 report on internal control over financial reporting, reviews of quarterly financial statements, and review of other documents filed with the Securities and Exchange Commission, (ii) assurance and other services reasonably related to the audit or review of the Company's financial statements, and (iii) services related to tax compliance. There were no other fees billed.

Fiscal Year 2007	980,856	410,447	326,868
Fiscal Year 2006	1,452,126		156,101

The Audit Committee of the Board has adopted policies regarding the pre-approval of auditor services. All additional services must be pre-approved on a case-by-case basis. All of the services provided by UHY during fiscal year 2007 and 2006 were approved by the Audit Committee.

OTHER MATTERS

The Board is not aware of any other matters that may come before the Meeting. However, the proxies may be voted with discretionary authority with respect to any other matters that may properly come before the Meeting.
