Integration Guidelines

Guiding Principles for Integration

Continue to act as independent
companies until transaction close

Keep focus and protect current
business momentum in our

respective companies

Plan for integration now to be
ready for Day 1 post-close

Focus on creating lasting value
beyond stated cost synergies

Frequent, open communication
on key decisions

will,
possible,
potential,
predict,
project,
or other

similar words, phrases or expressions. It is important to note that these goals and expectations are not predictions of actual performance that will differ materially from current expectations depending upon a number of factors affecting New Medtronic's business, Medtronic's business and operations associated with the proposed transactions. These factors include, among others, the inherent uncertainty associated with financial results and the connection with, and successful close of, the Covidien acquisition; subsequent integration of the Covidien acquisition and the realization of synergies and benefits of the Covidien acquisition; the risk that the required regulatory approvals for the proposed transactions may be subject to conditions that are not anticipated; the anticipated size of the markets and continued demand for Medtronic's and Covidien's competitive products and pricing; access to available financing (including financing for the acquisition or refinancing of Medtronic and Covidien on reasonable terms; the risks of fluctuations in foreign currency exchange rates; the risks and uncertainties normally incident to operating in, including competition in the medical device industry; product liability claims; the difficulty of predicting the timing or outcome of government investigations; variability of trade buying patterns; the timing and success of product launches; the difficulty of predicting the timing or outcome of product development efforts and regulatory agency approvals or actions, if any; potential for adverse pricing movement; costs of intellectual property rights; difficulties or delays in manufacturing; reduction or interruption in supply; product quality problems with third party sourced products and materials; risks associated with self-insurance and commercial insurance; successful compliance with applicable laws and regulations.
