Operating and Financial Review

The following is a discussion of the financial condition and results of operations for the three month periods ended March 31, 2015 and 2014 of Navios Maritime Partners L.P. (referred to herein as we, us or Navios Partners). All of the financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (US GAAP). You should read this section together with the consolidated financial statements and the accompanying notes included in Navios Partners' 2014 Annual Report filed on Form 20-F with the Securities and Exchange Commission.

This report contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward looking statements are based on Navios Partners' current expectations and observations. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, changes in the demand for dry bulk vessels, fluctuation of charter rates, competitive factors in the market in which Navios Partners operates, risks associated with operations outside the United States, and other factors listed from time to time in the Navios Partners' filings with the Securities and Exchange Commission.

Recent Developments

On April 22, 2015, Navios Partners took delivery of the MSC Cristina, a 2011 South Korean-built Container vessel of 13,100 TEU for a purchase price of \$147.8 million. The acquisition was financed with cash on its balance sheet and bank debt. The vessel is chartered-out for 12 years at a rate of \$60,275 net per day, with Navios Partners' option to terminate after year seven. Navios Partners entered into a credit facility of \$79.8 million, which bears interest at LIBOR plus 275 basis points (bps) per annum.

On February 11, 2015, Navios Partners completed its public offering of 4,000,000 common units at \$13.09 per unit and raised gross proceeds of approximately \$52.4 million to fund its fleet expansion. The net proceeds of this offering, including the underwriting discount and excluding offering costs of \$0.2 million were approximately \$50.1 million. Pursuant to this offering, Navios Partners issued 81,633 general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$1.1 million. On the same date, Navios Partners completed the exercise of the option previously granted to the underwriters in connection with the offering and issued 600,000 additional common units at the public offering price less the underwriting discount. As a result of the exercise of the option, Navios Partners raised additional gross proceeds of \$7.9 million and net proceeds, including the underwriting discount, of approximately \$7.5 million and issued 12,245 additional general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$0.2 million. In addition, Navios Partners completed a private placement of 1,120,547 common units and 22,868 general partner units at \$13.09 per unit to Navios Maritime Holdings Inc. (Navios Holdings), raising additional gross proceeds of \$15.0 million. Following the public offering and the private placement, Navios Holdings currently owns a 20.1% interest in Navios Partners, which includes the 2.0% interest through Navios Partners' general partner which Navios Holdings owns and controls.

Overview

Navios Partners is an international owner and operator of dry cargo vessels, formed on August 7, 2007 under the laws of the Republic of the Marshall Islands by Navios Holdings, a vertically integrated seaborne shipping and logistics

company with over 60 years of operating history in the drybulk shipping industry. Navios GP L.L.C. (the General Partner), a wholly owned subsidiary of Navios Holdings, was also formed on that date to act as the general partner of Navios Partners and received 2.0% general partner interest in Navios Partners.

As of May 4, 2015, there were outstanding 83,079,710 common units and 1,695,509 general partnership units. Navios Holdings owns a 20.1% interest in Navios Partners, which includes the 2.0% general partner interest.

Fleet

Our fleet consists of 12 Panamax vessels, eight Capesize vessels, three Ultra-Handymax vessels and eight Container vessels.

In general, the vessels in our fleet are chartered-out under time charters, which range in length from one to twelve years at inception. From time to time, we operate vessels in the spot market until the vessels have been chartered under long-term charters.

(1) Daily charter-out rate per day, net of commissions or settlement proceeds, where applicable.

Edgar Filing: Navios Maritime Partners L.P. - Form 6-K

- (2) Profit sharing 50% on actual results at the end of the charter period. Any adjustment by the charters for hire expense/loss will be settled accordingly at the end of the charter period.
- (3) The charter rate is based on the Supramax Time Charter Index plus 10% with a minimum rate of \$9,500 net per day.

- (4) In January 2011, Korea Line Corporation (KLC) filed for receivership. The charter was affirmed and will be performed by KLC on its original terms, following an interim suspension period until April 2016 during which Navios Partners trades the vessel directly. Rate assumes amortization of payment \$13.3 million received upfront covering the interim suspension period.
- (5) Profit sharing 50% above \$37,500/ day based on Baltic Exchange Capesize TC Average.
- (6) Profit sharing 50% above \$38,500/ day based on Baltic Exchange Capesize TC Average.
- (7) The charterer has been granted an option to extend the charter for two optional years, the first at \$22,325 (net) per day and the second at \$25,650 (net) per day.

Our Charters

We generate revenues by charging our customers for the use of our vessels to transport their dry cargos. In general, the vessels in our fleet are chartered-out under time charters, which range in length from one to twelve years at inception. From time to time, we operate vessels in the spot market until the vessels have been chartered under long-term charters.

For the three month period ended March 31, 2015, our most significant counterparties were Hyundai Merchant Marine Co., Ltd., Navios Corporation and Yang Ming Marine Transport Corporation, which accounted for approximately 24.5%, 11.3% and 11.0%, respectively, of total revenues. For the year ended December 31, 2014, our most significant counterparties were Hyundai Merchant Marine Co., Ltd and Navios Corporation, which accounted for approximately 24.4% and 11.0%, respectively, of total revenues. We believe that the combination of the long-term nature of most of our charters (which provide for the receipt of a fixed fee for the life of the charter) and our management agreement with the Manager, a wholly-owned subsidiary of Navios Holdings (which provides for a fixed management fee until December 31, 2015), provides us with a strong base of stable cash flows.

Our revenues are driven by the number of vessels in the fleet, the number of days during which the vessels operate and our charter hire rates, which, in turn, are affected by a number of factors, including:

the duration of the charters;

the level of spot and long-term market rates at the time of charter;

decisions relating to vessel acquisitions and disposals;

the amount of time spent positioning vessels;

the amount of time that vessels spend undergoing repairs and upgrades in drydock;

the age, condition and specifications of the vessels; and

the aggregate level of supply and demand in the dry cargo shipping industry.

Time charters are available for varying periods, ranging from a single trip (spot charter) to long-term which may be many years. In general, a long-term time charter assures the vessel owner of a consistent stream of revenue. Operating the vessel in the spot market affords the owner greater spot market opportunity, which may result in high rates when vessels are in high demand or low rates when vessel availability exceeds demand. We intend to operate our vessels in the long-term charter market. Vessel charter rates are affected by world economics, international events, weather conditions, strikes, governmental policies, supply and demand and many other factors that might be beyond our control. Please read **Risk Factors** in our 2014 Annual Report on Form 20-F for a discussion of certain risks inherent in our business.

We could lose a customer or the benefits of a charter if:

the customer fails to make charter payments because of its financial inability, disagreements with us or otherwise;

the customer exercises certain rights to terminate the charter of the vessel;

the customer terminates the charter because we fail to deliver the vessel within a fixed period of time, the vessel is lost or damaged beyond repair, there are serious deficiencies in the vessel or prolonged periods of off-hire, or we default under the charter; or

Table of Contents

a prolonged force majeure event affecting the customer, including damage to or destruction of relevant production facilities, war or political unrest prevents us from performing services for that customer. Under some of our time charters, either party may terminate the charter contract in the event of war in specified countries or in locations that would significantly disrupt the free trade of the vessel. Some of the time charters covering our vessels require us to return to the charterer, upon the loss of the vessel, all advances paid by the charterer but not earned by us.

Trends and Factors Affecting Our Future Results of Operations

We believe the principal factors that will affect our future results of operations are the economic, regulatory, political and governmental conditions that affect the shipping industry generally and that affect conditions in countries and markets in which our vessels engage in business. Please read **Risk Factors** in our 2014 Annual Report on Form 20-F for a discussion of certain risks inherent in our business.

Table of Contents

The accompanying interim condensed consolidated financial statements of Navios Partners are unaudited, but, in the opinion of management, contain all adjustments necessary to present a fair statement of results, in all material respects, Navios Partners' condensed consolidated financial position as of March 31, 2015 and the condensed consolidated results of operations for the three months ended March 31, 2015 and 2014. The footnotes are condensed as permitted by the requirements for interim financial statements and, accordingly, do not include information and disclosures required under US GAAP for complete financial statements. All such adjustments are deemed to be of a normal, recurring nature. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in Navios Partners' Annual Report on Form 20-F for the year ended December 31, 2014.

Table of Contents**Period over Period Comparisons****For the Three Month Period ended March 31, 2015 compared to the Three Month Period ended March 31, 2014**

Time charter and voyage revenues: Time charter and voyage revenues for the three month period ended March 31, 2015 decreased by \$0.7 million or 1.2% to \$56.8 million, as compared to \$57.5 million for the same period in 2014. The decrease was mainly attributable to the decrease in TCE to \$18,625 per day for the three month period ended March 31, 2015, from \$20,785 per day for the three month period ended March 31, 2014. The above decrease in time charter and voyage revenues was partially mitigated by an increase in revenue due to the delivery of the YM Utmost and the YM Unity in the second half of 2014 which was primarily due to the decline in the freight market during 2015, as compared to the same period in 2014. As a result of the vessel acquisitions, available days of the fleet increased to 2,952 days for the three month period ended March 31, 2015, as compared to 2,668 days for the three month period ended March 31, 2014.

Time charter and voyage expenses: Time charter and voyage expenses for the three month period ended March 31, 2015 decreased by \$1.0 million or 21.9% to \$3.5 million, as compared to \$4.4 million for the three month period ended March 31, 2014. The decrease was mainly attributable to termination of charter-in contracts of the Navios Prosperity and the Navios Aldebaran. On February 11, 2015, Navios Partners and Navios Holdings entered into a novation agreement whereby the rights to the time charter contracts of the Navios Aldebaran and the Navios Prosperity was transferred to Navios Holdings as of February 28, 2015 and March 5, 2015, respectively.

Management fees: Management fees for the three month period ended March 31, 2015, increased by \$1.4 million or 11.6% to \$13.4 million, as compared to \$12.0 million for the same period in 2014. The increase was mainly attributable to the increased fleet.

Pursuant to the Management Agreement, the Manager, a wholly owned subsidiary of Navios Holdings, provides commercial and technical management services to Navios Partners' vessels for a daily fee of: (a) \$4,000 daily rate per Ultra-Handymax vessel; (b) \$4,100 daily rate per Panamax vessel; (c) \$5,100 daily rate per Capesize vessel; (d) \$6,500 daily rate per Container vessel of TEU 6,800; (e) \$7,200 daily rate per Container vessel of more than TEU 8,000; and (f) \$8,500 daily rate per very large Container vessel of more than TEU 13,000 through December 31, 2015. Drydocking expenses under this agreement will be reimbursed by Navios Partners at cost at occurrence.

General and administrative expenses: General and administrative expenses amounted to \$1.9 million for each of the three month periods ended March 31, 2015 and 2014.

Depreciation and amortization: Depreciation and amortization amounted to \$18.1 million for the three month period ended March 31, 2015 compared to \$43.7 million for the three month period ended March 31, 2014. The decrease of \$25.6 million was attributable to: (a) a \$22.0 million accelerated amortization of the Navios Pollux favorable lease intangible due to a change in its useful life in the first quarter of 2014; and (b) a decrease in amortization expense of \$4.7 million due to write-offs of favorable lease of the Navios Orbiter, the Navios Hyperion and the Navios Pollux in the first quarter of 2014. The above decrease was partially mitigated by an increase in depreciation expense of \$1.2 million due to the increased number of vessels that were delivered into our owned fleet. Depreciation of vessels is calculated using an estimated useful life of 25 and 30 years for drybulk and container vessels, respectively, from the date the vessel was originally delivered from the shipyard. Intangible assets are amortized over the contract periods, which range from one to eight years.

Interest expense and finance cost, net: Interest expense and finance cost, net for the three months ended March 31, 2015 increased by \$1.5 million or 20.9% to \$8.5 million, as compared to \$7.0 million for the three months ended March 31, 2014. The increase was due to the increase in the average outstanding loan balance to \$582.9 million for the three months ended March 31, 2015 from \$537.5 million for the three months ended March 31, 2014 mitigated by the lower weighted average interest rate of 4.56% for the three months ended March 31, 2015, compared to 4.67% for the same period in 2014. As of March 31, 2015 and 2014, the outstanding loan balance under Navios Partners credit facilities was \$529.7 million and \$524.0 million, respectively.

Other income: Other income for the three months ended March 31, 2015 amounted to \$0.5 million compared to \$30.0 million for the three months ended March 31, 2014. The decrease was attributable to the compensation received from our third-party insurer for the termination of the credit default insurance in the first quarter of 2014. (See Note 15 of our condensed notes to the condensed consolidated financial statements).

Other expense: Other expense for the three months ended March 31, 2015 amounted to \$0.5 million compared to \$0.1 million for the three months ended March 31, 2014.

Net income: Net income for the three months ended March 31, 2015 amounted to \$10.9 million compared to \$18.4 million for the three months ended March 31, 2014. The decrease in net income of \$7.5 million was due to the factors discussed above.

Operating surplus: Navios Partners generated operating surplus for the three month period ended March 31, 2015 of \$27.6 million, compared to \$56.8 million for the three month period ended March 31, 2014. Operating Surplus is a non-GAAP financial measure used by certain investors to assist in evaluating a partnership's ability to make quarterly cash distributions (See Reconciliation of EBITDA to Net Cash from Operating Activities, Operating Surplus and Available Cash for Distribution contained herein).

Table of Contents

Seasonality: Since Navios Partners' vessels generally operate under long-term charters, the results of operations are not generally subject to the effect of seasonable variations in demand.

Liquidity and Capital Resources

In addition to distributions on our units, our primary short-term liquidity needs are to fund general working capital requirements, cash reserve requirements as per our credit facilities and debt service, while our long-term liquidity needs primarily relate to expansion and investment capital expenditures and other maintenance capital expenditures and debt repayment. Expansion capital expenditures are primarily for the purchase or construction of vessels to the extent the expenditures increase the operating capacity of or revenue generated by our fleet, while maintenance capital expenditures primarily consist of drydocking expenditures and expenditures to replace vessels in order to maintain the operating capacity of or revenue generated by our fleet. Investment capital expenditures are those capital expenditures that are neither maintenance capital expenditures nor expansion capital expenditures.

We anticipate that our primary sources of funds for our short-term liquidity needs will be cash flows from operations. We believe that cash flows from operations will be sufficient to meet our existing short-term liquidity needs for at least the next 12 months. In addition, we filed a shelf registration statement on November 1, 2013, which was declared effective on January 15, 2014, under which we may sell any combination of securities (debt or equity) for up to a total of \$500.0 million, approximately \$330.4 million of which is currently available.

Generally, our long-term sources of funds derive from cash from operations, long-term bank borrowings and other debt or equity financings. Because we distribute our available cash, we expect that we will rely upon external financing sources, including bank borrowings and the issuance of debt and equity securities, to fund acquisitions and expansion and investment capital expenditures, including opportunities we may pursue under the Omnibus Agreement. We cannot assure you that we will be able to raise the size of our credit facilities or obtaining additional funds on favorable terms.

Cash deposits and cash equivalents in excess of amounts covered by government provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Partners does maintain cash deposits and equivalents in excess of government provided insurance limits. Navios Partners also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

Credit Facilities

Term Loan B facility

In June 2013, Navios Partners completed the issuance of the \$250.0 million Term Loan B facility. The Term Loan B facility bears an interest rate of LIBOR plus 425 bps and has a five-year term with 1.0% amortization profile and was issued at 98.0% (at a discount of \$5.0 million). Navios Partners used the net proceeds of the Term Loan B facility to: (i) prepay \$101.6 million of the July 2012 Credit Facility; (ii) fully repay the outstanding balance of \$41.2 million of the August 2012 Credit Facility; (iii) deposit \$98.2 million to be held in escrow, to partially finance part of the acquisition of four new vessels, of which \$47.0 million was released in September 2013 for the acquisition of the Navios Joy and \$17.8 million was released in October 2013 for the acquisition of the Navios Harmony; and (iv) cover fees and expenses. The refinancing of the August 2012 Credit Facility was accounted for as a debt extinguishment in accordance with ASC470 Debt and the remaining unamortized balance of \$0.7 million was written-off from the deferred financing fees.

On November 1, 2013, Navios Partners completed the issuance of a \$189.5 million add-on to its existing Term Loan B facility. The add-on to the Term Loan B facility bears the same terms as Term Loan B facility and was issued at 100%. Navios Partners used the net proceeds to partially finance the acquisition of five Container vessels.

On March 30, 2015, Navios Partners prepaid \$21.0 million of the Term Loan B facility. The prepayment was fully applied to the balloon payment. Following this prepayment an amount of \$0.3 million was written off from the deferred financing fees.

The Term Loan B facility is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral and is guaranteed by each subsidiary of Navios Partners. The Term Loan B Agreement requires maintenance of a loan to value ratio of 0.8 to 1.0, and other restrictive covenants customary for facilities of this type (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Term Loan B Agreement also provides for customary events of default.

As of March 31, 2015, the outstanding balance of the Term Loan B facility including the add-on was \$408.1 million, net of discount of \$3.2 million, and it is repayable in 13 quarterly installments of \$1.1 million, with a final payment of \$397.0 million, in June 2018.

Table of Contents***ABN AMRO facility***

On September 22, 2014, Navios Partners entered into a term loan facility with ABN AMRO Bank N.V. (the September 2014 Credit Facility) of up to \$56.0 million (divided into two tranches) in order to finance a portion of the purchase price payable in connection with the acquisition of the YM Utmost and the YM Unity. Each tranche of the September 2014 Credit Facility was repayable in 20 equal quarterly installments of approximately \$0.7 million, with a final balloon payment of \$14.3 million on the last repayment date. The maturity date of each tranche was five years after the drawdown date of such tranche. The tranches of the September 2014 Credit Facility bear interest at LIBOR plus 300 bps per annum. On March 30, 2015, Navios Partners prepaid \$21.3 million. On April 8, 2015, Navios Partners entered into a supplemental agreement (the First Supplemental Agreement) to its September 2014 Credit Facility with ABN AMRO Bank N.V. following the release and discharge of Fairy Shipping Corporation and the YM Utmost from its obligations and liabilities under the September 2014 Credit Facility pursuant to a deed of release dated March 30, 2015. The First Supplemental Agreement amended the outstanding balance of the loan to \$32.6 million, and is repayable in 19 consecutive quarterly installments, the first 14 of which are \$1.1 million and the next five are \$0.7 million, with a final balloon payment of \$14.3 million on the last repayment date. The First Supplemental Agreement is attached as exhibit 10.2 to this report and is incorporated herein by reference.

Commerzbank/DVB facility

On March 27, 2015, Navios Partners prepaid \$2.3 million of the July 2012 Credit facility and the prepayment was applied to 2015 installments. As of March 31, 2015, the outstanding balance of the July 2012 Credit facility was \$95.2 million, and it is repayable in nine installments of \$3.5 million and one installment of 5.9 million with a final balloon payment of \$58.2 million.

HSH facility

On April 16, 2015, Navios Partners, through certain of its wholly-owned subsidiaries, entered into a term loan facility agreement of up to \$164.0 million (divided into two tranches) with HSH Nordbank AG (the April 2015 Credit Facility), in order to finance a portion of the purchase price payable in connection with the acquisition of the MSC Cristina and one more super-post-panamax 13,100 TEU container vessel. The first tranche of the term loan facility, related to the MSC Cristina, is repayable in 28 equal consecutive quarterly installments of \$1.5 million, with a final balloon payment of \$38.4 million on the last repayment date and the second tranche will be repayable in 28 equal consecutive quarterly installments of \$1.5 million, with a final balloon payment of \$41.0 million on the last repayment date. The final maturity date is May 29, 2022. The tranches of the April 2015 Credit Facility bear interest at LIBOR plus 275 bps per annum. The April 2015 Credit Facility also requires compliance with certain financial covenants. Among other events, it will be an event of default under this credit facility if the financial covenants are not complied with. The April 2015 Credit Facility agreement is attached as Exhibit 10.1 to this report and is incorporated herein by reference.

As of March 31, 2015, the total borrowings under the Navios Partners credit facilities were \$529.7 million, net.

Amounts drawn under the July 2012 Credit Facility are secured by first preferred mortgages on certain Navios Partners vessels and other collateral and are guaranteed by the respective vessel-owning subsidiary. Amounts drawn under the September 2014 Credit Facility are secured by first preferred mortgages on certain Navios Partners vessels and other collateral and are guaranteed by Navios Partners. The July 2012 Credit Facility and the September 2014 Credit Facility contain a number of restrictive covenants that prohibit or limit Navios Partners from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels; changing the flag, class, management or ownership of Navios Partners vessels; changing the commercial

and technical management of Navios Partners' vessels; selling or changing the beneficial ownership or control of Navios Partners' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels, including the fixed daily fee payable under the management agreement.

The July 2012 Credit Facility and the September 2014 Credit Facility also require compliance with a number of financial covenants, including: (i) maintain a required security amount of over 140%; (ii) minimum free consolidated liquidity of at least the higher of \$25.0 million and the aggregate of interest and principal falling due during the previous six months; (iii) maintain a ratio of EBITDA to interest expense of at least 5.00 : 1.00; (iv) maintain a ratio of total liabilities to total assets (as defined in our credit facilities) of less than 0.65 : 1.00; and (v) maintain a minimum net worth to \$250.0 million. It is an event of default under the loan facilities if such covenants are not complied with.

Table of Contents

As of March 31, 2015, Navios Partners was in compliance with the financial covenants of all of its credit facilities.

	Three Month Period Ended March 31, 2015 (\$ 000) (Unaudited)	Three Month Period Ended March 31, 2014 (\$ 000) (Unaudited)

Cash provided by operating activities for the three month period ended March 31, 2015 as compared to the cash provided for the three month period ended March 31, 2014:

Net cash provided by operating activities decreased by \$8.9 million to \$27.3 million for the three month period ended March 31, 2015, as compared to \$36.3 million for the same period in 2014.

Net income decreased by \$7.5 million to \$10.9 million for the three month period ended March 31, 2015, from \$18.4 million in the three month period ended March 31, 2014. In determining net cash provided by operating activities for the three month period ended March 31, 2015 net income was adjusted for the effects of certain non-cash items, including \$18.1 million depreciation and amortization, \$1.4 million amortization and write-off of deferred financing costs and \$0.5 million amortization of deferred drydock and special survey costs. For the three month period ended March 31, 2014, net income was adjusted for the effects of certain non-cash items, including \$43.7 million depreciation and amortization and \$0.7 million amortization and write-off of deferred financing costs.

Accounts receivable increased by \$4.0 million, from \$13.3 million at December 31, 2014, to \$17.3 million at March 31, 2015 due to the increase in amounts due from charterers.

Accounts payable increased by \$0.2 million, from \$3.8 million at December 31, 2014, to \$4.1 million at March 31, 2015.

Accrued expenses decreased by \$0.6 million from \$3.6 million at December 31, 2014, to \$3.0 million at March 31, 2015.

Deferred voyage revenue primarily relates to cash received from charterers prior to it being earned. Deferred voyage revenue, net of commissions increased by \$0.4 million from \$4.3 million at December 31, 2014, to \$4.7 million at March 31, 2015.

Amounts due to related parties increased by \$1.9 million, from \$1.9 million at December 31, 2014, to \$3.8 million at March 31, 2015. The increase was mainly attributable to an increase in other payables for drydock and special survey expenses of \$1.4 million and other payables of \$0.5 million.

Payments for drydock and special survey costs incurred at March 31, 2015 and December 31, 2014 were \$0.8 million and \$8.7 million, respectively and related to drydock and special survey costs incurred for certain vessels of the fleet.

Cash used in investing activities for the three month period ended March 31, 2015 as compared to the three month period ended March 31, 2014:

Net cash used in investing activities increased to \$14.8 million for the three month period ended March 31, 2015, as compared to \$3.6 million for the same period in 2014.

Cash used in investing activities of \$14.8 million for the three month period ended March 31, 2015 related to a deposit of \$14.8 million paid for the acquisition of the MSC Cristina, which was delivered in April 22, 2015.

Cash used in investing activities of \$3.6 million for the three month period ended March 31, 2014 was due to:
(i) \$36.9 million paid for the acquisition of the Navios La Paix and the Navios Sun in January 2014 of which \$33.4 million was released from escrow; and (ii) a \$0.2 million loan granted to Navios Europe Inc. (Navios Europe).

EBITDA

EBITDA represents net income plus interest and finance costs plus depreciation and amortization including accelerated amortization of time charters and income taxes.

EBITDA is presented because Navios Partners believes that EBITDA is a basis upon which liquidity can be assessed and present useful information to investors regarding Navios Partners' ability to service and/or incur indebtedness, pay capital expenditures, meet working capital requirements and pay dividends. EBITDA is a non-GAAP financial measure and should not be considered a substitute for net income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity.

While EBITDA is frequently used as a measure of operating results and the ability to meet debt service requirements, the definition of EBITDA used here may not be comparable to that used by other companies due to differences in methods of calculation.

Table of Contents

EBITDA decreased by \$31.1 million to \$38.0 million for the three month period ended March 31, 2015, as compared to \$69.0 million for the same period in 2014. The decrease in EBITDA was due a \$0.7 million decrease in revenue, a \$1.4 million increase in management fees due to the increased number of vessels, a \$29.6 million decrease in other income attributable to the compensation received from a third-party insurer for the termination of the credit default insurance in the first quarter of 2014 and a \$0.4 million increase in other expense. The above decrease was partially mitigated by a \$0.1 million decrease in general and administrative expenses and a \$1.0 million decrease in time charter and voyage expenses.

Operating Surplus

Operating Surplus represents net income adjusted for depreciation and amortization expense, non-cash interest expense and estimated maintenance and replacement capital expenditures. Maintenance and replacement capital expenditures are those capital expenditures, estimated by the board of directors to be required to maintain over the long term the operating capacity of, or the revenue generated by, Navios Partners' capital assets.

Operating Surplus is a quantitative measure used in the publicly-traded partnership investment community to assist in evaluating a partnership's ability to make quarterly cash distributions. Operating Surplus is not required by accounting principles generally accepted in the United States and should not be considered a substitute for net income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity.

Available Cash

Available Cash generally means, for each fiscal quarter, all cash on hand at the end of the quarter:

less the amount of cash reserves established by the board of directors to:

provide for the proper conduct of Navios Partners' business (including reserve for maintenance and replacement capital expenditures);

comply with applicable law, any of Navios Partners' debt instruments, or other agreements; or

provide funds for distributions to the unitholders and to the general partner for any one or more of the next four quarters;

plus all cash on hand on the date of determination of available cash for the quarter resulting from working capital borrowings made after the end of the quarter. Working capital borrowings are generally borrowings that are made under any revolving credit or similar agreement used solely for working capital purposes or to pay distributions to partners.

Available Cash is a quantitative measure used in the publicly traded partnership investment community to assist in evaluating a partnership's ability to make quarterly cash distributions. Available Cash is not required by accounting principles generally accepted in the United States and should not be considered a substitute for net income, cash flow

from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity.

Borrowings

Navios Partners' long-term third party borrowings are reflected in its balance sheet as Long-term debt, net and Current portion of long-term debt, net. As of March 31, 2015 and December 31, 2014, total debt, net amounted to \$529.7 million and \$576.0 million, respectively. The current portion of long-term debt, net amounted to \$16.0 million at March 31, 2015 and \$16.4 million December 31, 2014, respectively.

Capital Expenditures

Navios Partners finances its capital expenditures with cash flow from operations, owners' contribution, equity raisings and bank borrowings. Capital expenditures the three month period ended March 31, 2015 and 2014 were \$14.8 million and \$3.4 million, respectively. The reserve for estimated maintenance and replacement capital expenditures for the three month period ended March 31, 2015 was \$3.2 million. The reserve for estimated maintenance and replacement capital expenditures for the three month period ended March 31, 2014 was \$5.9 million.

Maintenance for our vessels and expenses related to drydocking expenses are now reimbursed at cost by Navios Partners to our Manager under the amended management agreement. In October 2011, Navios Partners extended the duration of its existing Management Agreement with the Manager until December 31, 2017 and fixed the rate for shipmanagement services of its owned fleet

Table of Contents

through December 31, 2013. The management fees, including drydocking expenses were: (a) \$4,650 daily rate per Ultra-Handymax vessel; (b) \$4,550 daily rate per Panamax vessel; and (c) \$5,650 daily rate per Capesize vessel. In each of October 2013, August 2014 and February 2015, Navios Partners amended its existing management agreement with the Manager to fix the fees for ship management services of its owned fleet excluding drydocking expenses which are reimbursed at cost by Navios Partners at: (a) \$4,000 daily rate per Ultra-Handymax vessel; (b) \$4,100 daily rate per Panamax vessel; (c) \$5,100 daily rate per Capesize vessel; (d) \$6,500 daily rate per Container vessel of TEU 6,800; (e) \$7,200 daily rate per Container vessel of more than TEU 8,000; and (f) \$8,500 daily rate per very large Container vessel of more than TEU 13,000 through December 31, 2015.

Maintenance and Replacement Capital Expenditures Reserve

We estimate that our annual replacement reserve for the year ending December 31, 2015, will be approximately \$13.7 million, for replacing our vessels at the end of their useful lives.

The amount for estimated maintenance and replacement capital expenditures attributable to future vessel replacement was based on the following assumptions: (i) current market price to purchase a five year old vessel of similar size and specifications; (ii) a 25-year useful life for drybulk vessels and a 30-year useful life for container vessels; and (iii) a relative net investment rate.

Our Board of Directors, with the approval of the conflicts committee, may determine that one or more of our assumptions should be revised, which could cause our Board of Directors to increase or decrease the amount of estimated maintenance and replacement capital expenditures. The actual cost of replacing the vessels in our fleet will depend on a number of factors, including prevailing market conditions, charter hire rates and the availability and cost of financing at the time of replacement. We may elect to finance some or all of our maintenance and replacement capital expenditures through the issuance of additional common units which could be dilutive to existing unitholders.

Off-Balance Sheet Arrangements

Navios Partners has no off-balance sheet arrangements that have or are reasonably likely to have, a current or future material effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations and Contingencies

The following table summarizes Navios Partners' long-term contractual obligations as of March 31, 2015:

	Payments due by period (Unaudited)				Total
	Less than 1 year	1-3 years	3-5 years	More than 5 years	
	(In thousands of U.S. dollars)

Total contractual obligations	\$ 151,999	\$ 102,139	\$ 417,947	\$	\$ 672,085

- (1) The amount identified does not include interest costs associated with the outstanding July 2012 Credit Facility which are based on LIBOR plus the costs of complying with any applicable regulatory requirements and a margin ranging from 1.80% to 2.05% per annum.
- (2) The amount identified does not include interest costs associated with the outstanding Term Loan B facility which are based on 4.25% per annum plus LIBOR with a floor of 1.0%.
- (3) The amount identified excludes the discount associated with the outstanding Term Loan B facility.
- (4) The amount identified does not include interest costs associated with the outstanding September 2014 Credit Facility which are based on 3.0% per annum plus LIBOR.
- (5) Contractual obligation for the acquisition of the MSC Cristina, which was delivered in April 2015.

Navios Holdings, Navios Acquisition and Navios Partners will make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24.1 million to fund working capital requirements (collectively, the Navios Revolving Loans). As of March 31, 2015, the amounts undrawn from the Navios Revolving Loans was \$9.1 million, of which Navios Partners was committed to fund \$0.5 million (See Note 13 for the Investment in Navios Europe and respective ownership interests).

Table of Contents**Fleet Employment Profile**

The following table reflects certain key indicators indicative of the performance of Navios Partners and its core fleet performance for the three month period ended March 31, 2015 and 2014.

	Three Month Period ended March 31, 2015 (\$ 000) (unaudited)	Three Month Period ended March 31, 2014 (\$ 000) (unaudited)
Available Days (1)	2,952	2,668
Operating Days (2)	2,949	2,665
Fleet Utilization (3)	99.92%	99.88%
Time Charter Equivalent (per day) (4)	\$ 18,625	\$ 20,785
Vessels operating at period end	30	30

- (1) Available days for the fleet represent total calendar days the vessels were in Navios Partners' possession for the relevant period after subtracting off-hire days associated with scheduled repairs, dry dockings or special surveys. The shipping industry uses available days to measure the number of days in a relevant period during which a vessel is capable of generating revenues.
- (2) Operating days is the number of available days in the relevant period less the aggregate number of days that the vessels are off-hire due to any reason, including unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a relevant period during which vessels actually generate revenues.
- (3) Fleet utilization is the percentage of time that Navios Partners' vessels were available for revenue generating available days, and is determined by dividing the number of operating days during a relevant period by the number of available days during that period. The shipping industry uses fleet utilization to measure efficiency in finding employment for vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs, drydockings or special surveys.
- (4) TCE rates: TCE rates are defined as voyage and time charter revenues less voyage expenses during a period divided by the number of available days during the period. The TCE rate is a standard shipping industry performance measure used primarily to present the actual daily earnings generated by vessels on various types of charter contracts for the number of available days of the fleet.

Cash Distribution Policy**Rationale for Our Cash Distribution Policy**

Our cash distribution policy reflects a basic judgment that our unitholders are better served by distributing our cash available (after deducting expenses, including estimated maintenance and replacement capital expenditures and reserves) rather than retaining it. Because we believe we will generally finance any expansion capital expenditures from external financing sources or through equity raising, we believe that our investors are best served by our distributing our available cash. Our cash distribution policy is consistent with the terms of our partnership agreement, which requires that we distribute all of our available cash quarterly (after deducting expenses, including estimated maintenance and replacement capital expenditures and reserves).

Limitations on Cash Distributions and Our Ability to Change Our Cash Distribution Policy

There is no guarantee that unitholders will receive quarterly distributions from us. Our distribution policy is subject to certain restrictions and may be changed at any time.

Our ability to make distributions to our unitholders depends on the performance of our subsidiaries and their ability to distribute funds to us. The ability of our subsidiaries to make distributions to us may be restricted by, among other things, the provisions of existing and future indebtedness, applicable partnership and limited liability company laws and other laws and regulations.

Table of Contents**Minimum Quarterly Distribution**

We intend to distribute to the holders of common units and subordinated units on a quarterly basis at least the minimum quarterly distribution of \$0.35 per unit, or \$1.40 per unit per year, to the extent we have sufficient cash on hand to pay the distribution after we establish cash reserves and pay fees and expenses. The amount of available cash from operating surplus needed to pay the minimum quarterly distribution for four quarters on all units outstanding and the related distribution on the 2.0% general partner interest is approximately \$118.7 million. There is no guarantee that we will pay the minimum quarterly distribution on the common units and subordinated units in any quarter. Even if our cash distribution policy is not modified or revoked, the amount of distributions paid under our policy and the decision to make any distribution is determined by our board of directors, taking into consideration the terms of our partnership agreement. We are prohibited from making any distributions to unitholders if it would cause an event of default, or an event of default exists, under our existing credit facilities.

On January 26, 2015, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2014 of \$0.4425 per unit. The distribution was paid on February 13, 2015 to all holders of record of common and general partner units on February 11, 2015, including unitholders of February 2015 offering (See Note 8 Issuance of Units). The aggregate amount of the declared distribution was \$38.1 million.

On April 28, 2015, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended March 31, 2015 of \$0.4425 per unit. The distribution is payable on May 14, 2015 to all holders of record of common and general partner units on May 13, 2015. The aggregate amount of the declared distribution is anticipated to be \$38.1 million.

Incentive Distribution Rights

Incentive distribution rights represent the right to receive an increasing percentage of quarterly distributions of available cash from Operating Surplus after the minimum quarterly distribution and the target distribution levels have been achieved. Our general partner currently holds the incentive distribution rights, but may transfer these rights separately from its general partner interest, subject to restrictions in the partnership agreement. Except for transfers of incentive distribution rights to an affiliate or another entity as part of our general partner's merger or consolidation with or into, or sale of substantially all of its assets to such entity, the approval of a majority of our common units (excluding common units held by our general partner and its affiliates), voting separately as a class, generally is required for a transfer of the incentive distribution rights to a third party prior to December 31, 2017.

The following table illustrates the percentage allocations of the additional available cash from Operating Surplus among the unitholders and our general partner up to the various target distribution levels. The amounts set forth under Marginal Percentage Interest in Distributions are the percentage interests of the unitholders and our general partner in any available cash from Operating Surplus we distribute up to and including the corresponding amount in the column Total Quarterly Distribution Target Amount, until available cash from Operating Surplus we distribute reaches the next target distribution level, if any. The percentage interests shown for the unitholders and our general partner for the minimum quarterly distribution are also applicable to quarterly distribution amounts that are less than the minimum quarterly distribution. The percentage interests shown for our general partner assume that our general partner maintains its 2.0% general partner interest and assume our general partner has not transferred the incentive distribution rights.

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
		Common Unitholders	General Partner
Minimum Quarterly Distribution	\$0.35	98%	2%
First Target Distribution	up to \$0.4025	98%	2%
Second Target Distribution	above \$0.4025 up to \$0.4375	85%	15%
Third Target Distribution	above \$0.4375 up to \$0.525	75%	25%
Thereafter	above \$0.525	50%	50%

The terms of these charters are at a net daily rate of \$12,000 plus 50% profit sharing on actual results at the end of the charter period. Any adjustment by the charterers for hire expense/loss will be settled accordingly at the end of the charter period.

Share Purchase Agreements: On February 4, 2015, Navios Partners entered into a share purchase agreement with Navios Holdings pursuant to which Navios Holdings made an investment in the Company by purchasing common units, and general partnership interests, in order to maintain at least a 20% partnership interest in the Company.

Registration Rights Agreement: On February 4, 2015, in connection with the share purchase agreement as discussed above, Navios Partners entered into a registration rights agreement with Navios Holdings pursuant to which Navios Partners provide Navios Holdings with certain rights relating to the registration of the common units.

Revolving Loans to Navios Europe: Navios Holdings, Navios Maritime Acquisition Corporation (Navios Acquisition) and Navios Partners will make available to Navios Europe Inc. (Navios Europe) (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24.1 million to fund working capital requirements (collectively, the Navios Revolving Loans). See Note 13 for the Investment in Navios Europe and respective ownership interests.

The Navios Revolving Loans earn a 12.7% preferred distribution and are repaid from Free Cash Flow (as defined in the loan agreement) to the fullest extent possible at the end of each quarter. There are no covenant requirements or stated maturity dates.

As of March 31, 2015, Navios Partners' portion of the outstanding amount relating to portion of the investment in Navios Europe (5.0% of the \$10.0 million) was \$0.5 million, under the caption Investment in affiliates and the outstanding amount relating to the Navios Revolving Loans capital is \$0.8 million, under the caption Loans receivable from affiliates. As of March 31, 2015 and December 31, 2014, the amounts undrawn from the Navios Revolving Loans was \$9.1 million, of which Navios Partners was committed to fund \$0.5 million.

Others: Navios Partners has entered into an omnibus agreement with Navios Holdings (the Partners Omnibus Agreement) in connection with the closing of Navios Partners' IPO governing, among other things, when Navios Holdings and Navios Partners may compete against each other as well as rights of first offer on certain drybulk carriers. Pursuant to the Partners Omnibus Agreement, Navios Partners generally agreed not to acquire or own Panamax or Capesize drybulk carriers under time charters of three or more years without the consent of an independent committee of Navios Partners. In addition, Navios Holdings has agreed to offer to Navios Partners the opportunity to purchase vessels from Navios Holdings when such vessels are fixed under time charters of three or

more years.

Navios Partners entered into an omnibus agreement with Navios Acquisition and Navios Holdings (the Acquisition Omnibus Agreement) in connection with the closing of Navios Acquisition's initial vessel acquisition, pursuant to which, among other things, Navios Holdings and Navios Partners agreed not to acquire, charter-in or own liquid shipment vessels, except for container vessels and vessels that are primarily employed in operations in South America, without the consent of an independent committee of Navios Acquisition. In addition, Navios Acquisition, under the Acquisition Omnibus Agreement, agreed to cause its subsidiaries not to acquire, own, operate or charter drybulk carriers subject to specific exceptions. Under the Acquisition Omnibus Agreement, Navios Acquisition and its subsidiaries granted to Navios Holdings and Navios Partners, a right of first offer on any proposed sale, transfer or other disposition of any of its drybulk carriers and related charters owned or acquired by Navios Acquisition. Likewise, Navios Holdings and Navios Partners agreed to grant a similar right of first offer to Navios Acquisition for any liquid shipment vessels it might own. These rights of first offer will not apply to a (i) sale, transfer or other disposition of vessels between any affiliated subsidiaries, or pursuant to the terms of any charter or other agreement with a counterparty, or (ii) merger with or into, or sale of substantially all of the assets to, an unaffiliated third party.

In connection with the Navios Maritime Midstream Partners L.P (Navios Midstream) initial public offering and effective November 18, 2014, Navios Partners entered into an omnibus agreement with Navios Midstream, Navios Acquisition and Navios Holdings pursuant to which Navios Acquisition, Navios Holdings and Navios Partners have agreed not to acquire or own any VLCCs, crude oil tankers, refined petroleum product tankers, LPG tankers or chemical tankers under time charters of five or more years and also providing rights of first offer on certain tanker vessels.

As of March 31, 2015, Navios Holdings held a total of 15,344,310 common units, representing a 18.1% common unit interest in Navios Partners and a general partner interest of 2.0%.

Quantitative and Qualitative Disclosures about Market Risks

Foreign Exchange Risk

Our functional and reporting currency is the U.S. dollar. We engage in worldwide commerce with a variety of entities. Although our operations may expose us to certain levels of foreign currency risk, our transactions are predominantly U.S. dollar denominated. Transactions in currencies other than U.S. dollars are translated at the exchange rate in effect at the date of each transaction. Differences in exchange rates during the period between the date a transaction denominated in a foreign currency is consummated and the date on which it is either settled or translated, are recognized.

Interest Rate Risk

Borrowings under our credit facilities bear interest at rate based on a premium over U.S.\$ LIBOR. Therefore, we are exposed to the risk that our interest expense may increase if interest rates rise. For the three month period ended March 31, 2015, we paid interest on our outstanding debt at a weighted average interest rate of 4.56%. A 1% increase in LIBOR would have increased our interest expense for the three month period ended March 31, 2015 by \$1.5 million. For the three month period ended March 31, 2014, we paid interest on our outstanding debt at a weighted average interest rate of 4.67%. A 1% increase in LIBOR would have increased our interest expense for the three month period ended March 31, 2014 by \$1.3 million.

Concentration of Credit Risk

Financial instruments, which potentially subject us to significant concentrations of credit risk, consist principally of trade accounts receivable. We closely monitor our exposure to customers for credit risk. We have policies in place to ensure that we trade with customers with an appropriate credit history.

For the three month period ended March 31, 2015, our most significant counterparties were Hyundai Merchant Marine Co., Ltd., Navios Corporation and Yang Ming Marine Transport Corporation, which accounted for approximately 24.5%, 11.3% and 11.0%, respectively, of total revenues. For the year ended December 31, 2014, our most significant counterparties were Hyundai Merchant Marine Co., Ltd and Navios Corporation, which accounted for approximately 24.4% and 11.0%, respectively, of total revenues. No other customers accounted for 10% or more of total revenue for any of the years presented. Navios Partners has insurance on certain long-term charter-out contracts of drybulk vessels for credit default occurring until the end of 2016, through an agreement with Navios Holdings up to a maximum cash payment of \$20.0 million.

Inflation

Inflation has had a minimal impact on vessel operating expenses, drydocking expenses and general and administrative expenses. Our management does not consider inflation to be a significant risk to direct expenses in the current and foreseeable economic environment.

Recent Accounting Pronouncements

In April 2015, the FASB issued the ASU 2015-06, an update for Earnings per Share (Topic 260), Effects on Historical Earnings per Unit of Master Limited Partnership Dropdown Transactions . This update requires that for purposes of calculating historical earnings per unit under the two-class method, the earnings (losses) of a transferred business before the date of a dropdown transaction should be allocated entirely to the general partner. In that circumstance, the

previously reported earnings per unit of the limited partners (which is typically the earnings per unit measure presented in the financial statements) would not change as a result of the dropdown transaction. Qualitative disclosures about how the rights to the earnings (losses) differ before and after the dropdown transaction occurs for purposes of computing earnings per unit under the two-class method also are required. The ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. An entity should apply the new guidance on a retrospective basis. The adoption of this update is not expected to have a material impact on Navios Partners' results of operations, financial position or cash flows, to the extent that no drop down transactions occurs.

In April 2015, the FASB issued the ASU 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, in order to simplify presentation of debt issuance costs. This update requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. An entity should apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Navios Partners early adopted the new standard. (See Note 2 - *Basis of Presentation*).

In February 2015, the FASB issued the ASU 2015-02, *Consolidation (Topic 810) Amendments to the Consolidation Analysis*, which amends the criteria for determining which entities are considered VIEs, amends the criteria for determining if a service provider possesses a variable interest in a VIE and ends the deferral granted to investment companies for application of the VIE consolidation model. The ASU is effective for interim and annual periods beginning after December 15, 2015. Early application is permitted. We do not expect the adoption of this ASU to have a material impact on the Company's results of operations, financial position or cash flows, except if Navios Partners were to enter into new arrangements in 2015 that fall into the scope prior to adoption of this standard.

Table of Contents

In January 2015, the FASB issued ASU 2015-01, Income Statement Extraordinary and Unusual Items. This standard eliminates the concept of extraordinary and unusual items from U.S. GAAP. The new standard is effective for annual and interim periods after December 15, 2015. Early adoption is permitted. Navios Partners plans to adopt this standard effective January 1, 2016. The adoption of the new standard is not expected to have a material impact on Navios Partners' results of operations, financial position or cash flows.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. This standard requires management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosures in certain circumstances. Before this new standard, no accounting guidance existed for management on when and how to assess or disclose going concern uncertainties. The amendments are effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. Early application is permitted. We plan to adopt this standard effective January 1, 2017. The adoption of the new standard is not expected to have a material impact on Navios Partners' results of operations, financial position or cash flows.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, clarifying the method used to determine the timing and requirements for revenue recognition on the statements of income. Under the new standard, an entity must identify the performance obligations in a contract, the transaction price and allocate the price to specific performance obligations to recognize the revenue when the obligation is completed. The amendments in this update also require disclosure of sufficient information to allow users to understand the nature, amount, timing and uncertainty of revenue and cash flow arising from contracts. The new accounting guidance was originally effective for interim and annual periods beginning after December 15, 2016. In April 2015, the FASB proposed a one-year deferral of the effective date for the new revenue standard. Under the proposal, the standard would be effective for public entities for annual reporting periods beginning after December 15, 2017 and interim periods therein. Early adoption is not permitted. We are currently reviewing the effect of ASU No. 2014-09 on our revenue recognition.

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements and Property, Plant and Equipment changing the presentation of discontinued operations on the statements of income and other requirements for reporting discontinued operations. Under the new standard, a disposal of a component or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results when the component meets the criteria to be classified as held-for-sale or is disposed. The amendments in this update also require additional disclosures about discontinued operations and disposal of an individually significant component of an entity that does not qualify for discontinued operations. The new accounting guidance is effective for interim and annual periods beginning after December 15, 2014. The adoption had no impact to Navios Partners' results of operations, financial position or cash flows.

Critical Accounting Policies

Our financial statements have been prepared in accordance with US GAAP. The preparation of these financial statements requires us to make estimates in the application of our accounting policies based on the best assumptions, judgments and opinions of management. Following is a discussion of the accounting policies that involve a higher degree of judgment and the methods of their application that affect the reported amount of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. Other than as described below, all significant

accounting policies are as described in Note 2 to the Notes to the consolidated financial statements included in the Company's Annual Report on Form 20-F for the year ended December 31, 2014 filed with the Securities and Exchange Commission on March 13, 2015.

NOTE 1 DESCRIPTION OF BUSINESS

Navios Maritime Partners L.P. (Navios Partners or the Company), is an international owner and operator of dry cargo and container vessels, formed on August 7, 2007 under the laws of the Republic of the Marshall Islands. Navios GP L.L.C. (the General Partner), a wholly owned subsidiary of Navios Maritime Holdings Inc. (Navios Holdings), was also formed on that date to act as the general partner of Navios Partners and received a 2.0% general partner interest in Navios Partners.

Navios Partners is engaged in the seaborne transportation services of a wide range of dry cargo commodities including iron ore, coal, grain, fertilizer and also containers, chartering its vessels under medium to long-term charters. The operations of Navios Partners are managed by Navios ShipManagement Inc., a subsidiary of Navios Holdings (the Manager), from its offices in Piraeus, Greece, Singapore and Monaco.

Pursuant to the initial public offering (IPO) on November 16, 2007, Navios Partners entered into the following agreements:

- (a) a management agreement with the Manager (the Management Agreement), pursuant to which the Manager provides Navios Partners commercial and technical management services;
- (b) an administrative services agreement with the Manager (the Administrative Services Agreement), pursuant to which the Manager provides Navios Partners administrative services; and
- (c) an omnibus agreement with Navios Holdings (the Omnibus Agreement), governing, among other things, when Navios Partners and Navios Holdings may compete against each other as well as rights of first offer on certain drybulk carriers.

As of March 31, 2015, there were outstanding: 83,079,710 common units and 1,695,509 general partnership units. As of March 31, 2015, Navios Holdings owned a 20.1% interest in Navios Partners, which includes a 2.0% general partner interest.

NOTE 2 BASIS OF PRESENTATION

The accompanying interim condensed consolidated financial statements are unaudited, but, in the opinion of management, reflect all adjustments for a fair statement of Navios Partners consolidated financial positions, statement of partner s capital, statements of income and cash flows for the periods presented. The results of operations for the interim periods are not necessarily indicative of results for the full year. The footnotes are condensed as permitted by the requirements for interim financial statements and accordingly, do not include information and disclosures required under United States generally accepted accounting principles (U.S. GAAP) for complete financial statements. All such adjustments are deemed to be of a normal recurring nature. These interim financial statements should be read in conjunction with the Company s consolidated financial statements and notes included in Navios Partners 2014 annual report filed on Form 20-F with the Securities and Exchange Commission (SEC).

Change in Accounting Principle

The Company historically presented deferred debt issuance costs, or fees related to directly issuing debt, as long-term assets on the consolidated balance sheets. During the first quarter of 2015, the Company adopted guidance codified in ASU 2015-03 Interest - Imputation of Interest (Subtopic 835-30), Simplifying the Presentation of Debt Issuance Costs. The guidance simplifies the presentation of debt issuance costs by requiring debt issuance costs to be presented as a deduction from the corresponding liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected. Therefore, these costs will continue to be amortized as interest expense using the effective interest method pursuant to ASC 835-30-35-2 through 35-3. Upon adoption, the Company applied the new guidance retrospectively to all prior periods presented in the financial statements. The Company elected to early adopt the requirements of ASU 2015-03 effective beginning the first quarter ending March 31, 2015 and applied this guidance retrospectively to all prior periods presented in the Company's financial statements.

The reclassification does not impact net income as previously reported or any prior amounts reported on the Statements of Income, or the Consolidated Statements of Cash Flows. The effect of the retrospective application of this change in accounting principle on the Company's Consolidated Balance Sheets as of December 31, 2014 resulted in a reduction of Total non-current assets and Total assets in the amount of \$7,305, with a corresponding decrease of \$5,102 in Long-term debt, net and Total non-current liabilities and a decrease of 2.203 in Current portion of long-term debt net and Total current liabilities.

Cash and cash equivalents consist of the following:

	March 31, 2015	December 31, 2014
Cash on hand and at banks	\$ 89,756	\$ 79,103
Short term deposits and highly liquid funds	10,167	20,392
Total cash and cash equivalents	\$ 99,923	\$ 99,495

Short term deposits and highly liquid funds relate to amounts held in banks for general financing purposes. As of March 31, 2015, Navios Partners held money market funds of \$10,167 with duration of less than three months. As of December 31, 2014, Navios Partners held time deposits of \$19,000 and money market funds of \$1,392 with duration of less than three months.

Cash deposits and cash equivalents in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Partners does maintain cash deposits and equivalents in excess of government-provided insurance limits. Navios Partners also reduces exposure to credit risk by dealing with a diversified group of major financial institution.

Restricted cash, at each of March 31, 2015 and December 31, 2014, included \$1,038 and \$954, respectively, which related to amounts held in retention accounts as required by certain of Navios Partners credit facilities.

2017	13,389
2018	13,389
2019	12,348
2020	8,955

2021 and thereafter	5,886
---------------------	-------

\$ 69,400

During the three month period ended March 31, 2014, Navios Partners accelerated \$22,010 of amortization of the Navios Pollux favorable lease intangible due to a change in its useful life following the termination of the credit default insurance policy (Refer to Note 15 Other Income for further details). The additional amount of \$53 of accelerated amortization incurred through March 31, 2014, relates to the expiration of the intangible assets associated with two vessels of our fleet.

Intangible assets subject to amortization are amortized using straight line method over their estimated useful lives to their estimated residual value of zero. The weighted average useful lives are 8.7 years for favorable lease terms charter out.

NOTE 6 BORROWINGS

UNAUDITED CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands of U.S. dollars except unit prices and amounts)

In June 2013, Navios Partners completed the issuance of the \$250,000 Term Loan B facility. The Term Loan B facility bears an interest rate of LIBOR plus 425 basis points (bps) and has a five-year term with 1.0% amortization profile and was issued at 98.0% (at a discount of \$5,000). Navios Partners used the net proceeds of the Term Loan B facility to: (i) prepay \$101,614 of the July 2012 Credit Facility; (ii) fully repay the outstanding balance of \$41,225 of the August 2012 Credit Facility; (iii) deposit \$98,179 to be held in escrow, to partially finance part of the acquisition of four new vessels, of which \$47,000 was released in September 2013 for the acquisition of the Navios Joy and \$17,750 was released in October 2013 for the acquisition of the Navios Harmony; and (iv) cover fees and expenses. The refinancing of the August 2012 Credit Facility was accounted for as a debt extinguishment in accordance with ASC470 Debt and the remaining unamortized balance of \$707 was written-off from the deferred financing fees.

On November 1, 2013, Navios Partners completed the issuance of a \$189,500 add-on to its existing Term Loan B facility. The add-on to the Term Loan B facility bears the same terms as Term Loan B facility and was issued at 100%. Navios Partners used the net proceeds to partially finance the acquisition of five Container vessels.

On March 30, 2015, Navios Partners prepaid \$21,000 of the Term Loan B facility. The prepayment was fully applied to the balloon payment. Following this prepayment an amount of \$256 was written off from the deferred financing fees.

The Term Loan B facility is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral and is guaranteed by each subsidiary of Navios Partners. The Term Loan B Agreement requires maintenance of a loan to value ratio of 0.8 to 1.0, and other restrictive covenants customary for facilities of this type (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Term Loan B Agreement also provides for customary events of default.

As of March 31, 2015, the outstanding balance of the Term Loan B facility including the add-on was \$408,082, net of discount of \$3,210, and it is repayable in 13 quarterly installments of \$1,097, with a final payment of \$397,028, in June 2018.

On September 22, 2014, Navios Partners entered into the September 2014 Credit Facility of up to \$56,000 (divided into two tranches) with ABN AMRO Bank N.V. in order to finance a portion of the purchase price payable in connection with the acquisition of the YM Utmost and the YM Unity. Each tranche of the September 2014 Credit Facility was repayable in 20 equal quarterly installments of approximately \$688, with a final balloon payment of \$14,250 on the last repayment date. The maturity date of each tranche was five years after the drawdown date of such tranche. The tranches of the September 2014 Credit Facility bear interest at LIBOR plus 300 bps per annum. On March 30, 2015, Navios Partners prepaid \$21,312. On April 8, 2015, Navios Partners entered into a supplemental agreement (the First Supplemental Agreement) to its September 2014 Credit Facility with ABN AMRO Bank N.V. following the release and discharge of Fairy Shipping Corporation and the YM Utmost from its obligations and liabilities under the September 2014 Credit Facility pursuant to a deed of release dated March 30, 2015. The First Supplemental Agreement amended the outstanding balance of the loan to \$32,625, and is repayable in 19 consecutive

quarterly installments, the first 14 of which are \$1,067 and the next five are \$688, with a final balloon payment of \$14,250 on the last repayment date.

On March 27, 2015, Navios Partners prepaid \$2,346 of the July 2012 Credit facility and the prepayment was applied to 2015 installments. As of March 31, 2015, the outstanding balance of the July 2012 Credit facility was \$95,194, and it is repayable in nine installments of \$3,456 and one installment of \$5,868 with a final balloon payment of \$58,223.

As of March 31, 2015, the total borrowings, net under the Navios Partners credit facilities were \$529,716.

Amounts drawn under the July 2012 Credit Facility are secured by first preferred mortgages on certain Navios Partners vessels and other collateral and are guaranteed by the respective vessel-owning subsidiary. Amounts drawn under the September 2014 Credit Facility are secured by first preferred mortgages on certain Navios Partners vessels and other collateral and are guaranteed by Navios Partners. The July 2012 Credit Facility and the September 2014 Credit Facility contain a number of restrictive covenants that prohibit or limit Navios Partners from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels; changing the flag, class, management or ownership of Navios Partners vessels; changing the commercial and technical management of Navios Partners vessels; selling or changing the beneficial ownership or control of Navios Partners vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels, including the fixed daily fee payable under the management agreement.

(Expressed in thousands of U.S. dollars except unit prices and amounts)

The July 2012 Credit Facility and the September 2014 Credit Facility also require compliance with a number of financial covenants, including: (i) maintain a required security amount of over 140%; (ii) minimum free consolidated liquidity of at least the higher of \$25,000 and the aggregate of interest and principal falling due during the previous six months; (iii) maintain a ratio of EBITDA to interest expense of at least 5.00 : 1.00; (iv) maintain a ratio of total liabilities to total assets (as defined in our credit facilities) of less than 0.65 : 1.00; and (v) maintain a minimum net worth to \$250,000. It is an event of default under the loan facilities if such covenants are not complied with.

As of March 31, 2015, Navios Partners was in compliance with the financial covenants of all of its credit facilities.

The maturity table below reflects the gross principal payments due under its credit facilities for the 12-month periods ended March 31:

Year	Amount
2016	\$ 19,024
2017	24,892
2018	77,248

NOTE 7 FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value amounts of many of Navios Partners' financial instruments, including cash and cash equivalents, restricted cash, accounts receivable and accounts payable and amounts due to related parties approximate their fair value due primarily to the short-term maturity of the related instruments.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits and money market funds approximate their fair value because of the short maturity of these investments.

Other long-term debt: The carrying amount of the floating rate loans approximates its fair value, excluding the effect of any deferred finance costs.

Term Loan B facility: The fair value of the Company's debt is estimated based on currently available debt with similar contract terms, interest rate and remaining maturities, as well as taking into account our creditworthiness, excluding the effect of any deferred finance costs.

The estimated fair values of the Navios Partners financial instruments are as follows:

	March 31, 2015		December 31, 2014	
	Book Value	Fair Value	Book Value	Fair Value
Cash and cash equivalents	\$ 99,923	\$ 99,923	\$ 99,495	\$ 99,495
Restricted cash	\$ 1,038	\$ 1,038	\$ 954	\$ 954
Loans receivable from affiliates	\$ 750	\$ 750	\$ 750	\$ 750
Amounts due to related parties	\$ (3,769)	\$ (3,769)	\$ (1,880)	\$ (1,880)

Fair Value Measurements

The estimated fair value of our financial instruments that are not measured at fair value on a recurring basis, categorized based upon the fair value hierarchy, are as follows:

Level I: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets that we have the ability to access. Valuation of these items does not entail a significant amount of judgment.

Level II: Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.

Level III: Inputs that are unobservable. The Company did not use any Level 3 inputs as of March 31, 2015 and December 31, 2014.

NOTE 9 SEGMENT INFORMATION

Navios Partners reports financial information and evaluates its operations by charter revenues. Navios Partners does not use discrete financial information to evaluate operating results for each type of charter or by sector. As a result, management reviews operating results solely by revenue per day and operating results of the fleet and thus Navios Partners has determined that it operates under one reportable segment.

The following table sets out operating revenue by geographic region for Navios Partners reportable segment. Revenue is allocated on the basis of the geographic region in which the customer is located. Drybulk and container vessels operate worldwide. Revenues from specific geographic region which contribute over 10% of total revenue are disclosed separately.

Revenue by Geographic Region

Vessels operate on a worldwide basis and are not restricted to specific locations. Accordingly, it is not possible to allocate the assets of these operations to specific countries.

NOTE 10 INCOME TAXES

Marshall Islands, Malta and Liberia do not impose a tax on international shipping income. Under the laws of Marshall Islands, Malta and Liberia, the countries of the vessel-owning subsidiaries incorporation and vessels registration, the vessel-owning subsidiaries are subject to registration and tonnage taxes which have been included in vessel operating expenses in the accompanying consolidated statements of income.

In accordance with the currently applicable Greek law, foreign flagged vessels that are managed by Greek or foreign ship management companies having established an office in Greece are subject to duties towards the Greek state

which are calculated on the basis of the relevant vessel's tonnage. The payment of said duties exhausts the tax liability of the foreign ship owning company and the relevant manager against any tax, duty, charge or contribution payable on income from the exploitation of the foreign flagged vessel.

Pursuant to Section 883 of the Internal Revenue Code of the United States, U.S. source income from the international operation of ships is generally exempt from U.S. income tax if the company operating the ships meets certain incorporation and ownership requirements. Among other things, in order to qualify for this exemption, the company operating the ships must be incorporated in a country which grants an equivalent exemption from income taxes to U.S. corporations. All the vessel-owning subsidiaries satisfy these initial criteria. In addition, these companies must meet an ownership test. The management of Navios Partners believes that this ownership test was satisfied prior to the IPO by virtue of a special rule applicable to situations where the ship operating companies are beneficially owned by a publicly traded company. Although not free from doubt, management also believes that the ownership test will be satisfied based on the trading volume and ownership of Navios Partners' units, but no assurance can be given that this will remain so in the future.

NOTE 11 COMMITMENTS AND CONTINGENCIES

Navios Partners is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where Navios Partners believes that a liability may be probable, and for which the amounts are reasonably estimable, based upon facts known at the date the financial statements were prepared. Management believes, the ultimate disposition of these matters will be immaterial individually and in the aggregate to Navios Partners' financial position, results of operations or liquidity.

Others: Navios Partners has entered into an omnibus agreement with Navios Holdings (the Partners Omnibus Agreement) in connection with the closing of Navios Partners' IPO governing, among other things, when Navios Holdings and Navios Partners may compete against each other as well as rights of first offer on certain drybulk carriers. Pursuant to the Partners Omnibus Agreement, Navios Partners generally agreed not to acquire or own Panamax or Capesize drybulk carriers under time charters of three or more years without the consent of an independent committee of Navios Partners. In addition, Navios Holdings has agreed to offer to Navios Partners the opportunity to purchase vessels from Navios Holdings when such vessels are fixed under time charters of three or more years.

Navios Partners entered into an omnibus agreement with Navios Acquisition and Navios Holdings (the Acquisition Omnibus Agreement) in connection with the closing of Navios Acquisition's initial vessel acquisition, pursuant to which, among other things, Navios Holdings and Navios Partners agreed not to acquire, charter-in or own liquid shipment vessels, except for container vessels and vessels that are primarily employed in operations in South America, without the consent of an independent committee of Navios Acquisition. In addition, Navios Acquisition, under the Acquisition Omnibus Agreement, agreed to cause its subsidiaries not to acquire, own, operate or charter drybulk carriers subject to specific exceptions. Under the Acquisition Omnibus Agreement, Navios Acquisition and its subsidiaries granted to Navios Holdings and Navios Partners, a right of first offer on any proposed sale, transfer or other disposition of any of its drybulk carriers and related charters owned or acquired by Navios Acquisition. Likewise, Navios Holdings and Navios Partners agreed to grant a similar right of first offer to Navios Acquisition for any liquid shipment vessels it might own. These rights of first offer will not apply to a (i) sale, transfer or other disposition of vessels between any affiliated subsidiaries, or pursuant to the terms of any charter or other agreement with a counterparty, or (ii) merger with or into, or sale of substantially all of the assets to, an unaffiliated third party.

In connection with the Navios Maritime Midstream Partners L.P. (Navios Midstream) initial public offering and effective November 18, 2014, Navios Partners entered into an omnibus agreement with Navios Midstream, Navios Acquisition and Navios Holdings pursuant to which Navios Acquisition, Navios Holdings and Navios Partners have agreed not to acquire or own any VLCCs, crude oil tankers, refined petroleum product tankers, LPG tankers or chemical tankers under time charters of five or more years and also providing rights of first offer on certain tanker vessels.

As of March 31, 2015, Navios Holdings held a total of 15,344,310 common units, representing a 18.1% common unit interest in Navios Partners and general partner interest of 2.0%.

NOTE 13 INVESTMENT IN NAVIOS EUROPE INC.

On October 9, 2013, Navios Holdings, Navios Acquisition and Navios Partners established Navios Europe and have ownership interests of 47.5%, 47.5% and 5.0%, respectively. On December 18, 2013, Navios Europe acquired ten vessels for aggregate consideration consisting of (i) cash consideration of \$127,753 (which was funded with the proceeds of a \$117,753 senior loan facilities (the Senior Loans) and loans aggregating \$10,000 from Navios Holdings, Navios Acquisition and Navios Partners (in each case, in proportion to their ownership interests in Navios Europe) (collectively, the Navios Term Loans) and (ii) the assumption of a junior participating loan facility (the Junior Loan) with a face amount of \$173,367 and fair value of \$71,929 as of December 31, 2013. In addition to the Navios Term Loans, Navios Holdings, Navios Acquisition and Navios Partners will also make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24,100 to fund working capital requirements (collectively, the Navios Revolving Loans).

On an ongoing basis, Navios Europe is required to distribute cash flows (after payment of operating expenses, amounts due pursuant to the terms of the Senior Loan and repayments of the Navios Revolving Loans) according to a defined waterfall calculation. Navios Partners evaluated its investment in Navios Europe under ASC 810 and concluded that Navios Europe is a variable interest entity (VIE) and that they are not the party most closely associated with Navios Europe and, accordingly, is not the primary beneficiary of Navios Europe. Navios Partners further evaluated its investment in the common stock of Navios Europe under ASC 323 and concluded that it has the ability to exercise significant influence over the operating and financial policies of Navios Europe and, therefore, its investment in Navios Europe is accounted for under the equity method.

As of March 31, 2015, the estimated maximum potential loss by Navios Partners in Navios Europe would have been \$1,271, which represents the Company's carrying value of the investment of \$521 plus the Company's balance of the Navios Revolving Loans of \$750 and does not include the undrawn portion of the Navios Revolving Loans.

As of March 31, 2015, the Navios Partners' portion of the Navios Revolving Loan outstanding was \$750. For the three month periods ended March 31, 2015 and 2014, Navios Europe had minimal operations and therefore, the Company did not record any equity method investee income/(loss).

NOTE 14 CASH DISTRIBUTIONS AND EARNINGS PER UNIT

The partnership agreement of Navios Partners requires that all available cash is distributed quarterly, after deducting expenses, including estimated maintenance and replacement capital expenditures and reserves. Distributions may be restricted by, among other things, the provisions of existing and future indebtedness, applicable partnership and limited liability company laws and other laws and regulations. The amount of the minimum quarterly distribution is \$0.35 per unit or \$1.40 per unit per year and is made in the following manner:

First, 98% to all unitholders;

Thereafter there is incentive distribution rights held by the General Partner, which are analyzed as follows:

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
		Common Unitholders	General Partner
Minimum Quarterly Distribution	\$0.35	98%	2%
First Target Distribution	up to \$0.4025	98%	2%
Second Target Distribution	above \$0.4025 up to \$0.4375	85%	15%
Third Target Distribution	above \$0.4375 up to \$0.525	75%	25%
Thereafter	above \$0.525	50%	50%

On January 26, 2015, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2014 of \$0.4425 per unit. The distribution was paid on February 13, 2015 to all holders of record of common and general partner units on February 11, 2015, including unitholders of February 2015 offering (See Note 8-Issuance of units). The aggregate amount of the declared distribution was \$38,097.

Navios Partners calculates earnings per unit by allocating reported net income for each period to each class of units based on the distribution waterfall for available cash specified in Navios Partners' partnership agreement, net of the

unallocated earnings (or losses). Basic earnings net income per unit is determined by dividing net income by the weighted average number of units outstanding during the period. Diluted earnings per unit is calculated in the same manner as net income per unit, except that the weighted average number of outstanding units increased to include the dilutive effect of outstanding unit options or phantom units. Net loss per unit undistributed is determined by taking the distributions in excess of net income and allocating between common units and general partner units on a 98%-2% basis. There were no options or phantom units outstanding during the three months ended March 31, 2015 and 2014.

The calculations of the basic and diluted earnings per unit are presented below.

	Three Month Period Ended

The Company has no future requirement to repay any of the lump sum cash payment back to the insurance company or provide any further services.

NOTE 16 RECENT ACCOUNTING PRONOUNCEMENTS

In April 2015, the FASB issued the ASU 2015-06, an update for Earnings per Share (Topic 260), Effects on Historical Earnings per Unit of Master Limited Partnership Dropdown Transactions. This update requires that for purposes of calculating historical earnings per unit under the two-class method, the earnings (losses) of a transferred business before the date of a dropdown transaction should be allocated entirely to the general partner. In that circumstance, the previously reported earnings per unit of the limited partners (which is typically the earnings per unit measure presented in the financial statements) would not change as a result of the dropdown transaction. Qualitative disclosures about how the rights to the earnings (losses) differ before and after the dropdown transaction occurs for purposes of computing earnings per unit under the two-class method also are required. The ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. An entity should apply the new guidance on a retrospective basis. The adoption of this update is not expected to have a material impact on Navios Partners' results of operations, financial position or cash flows, to the extent that no drop down transactions occurs.

In April 2015, the FASB issued the ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, in order to simplify presentation of debt issuance costs. This update requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. An entity should apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Navios Partners early adopted the new standard (see Note 2 Basis of Presentation).

In February 2015, the FASB issued the ASU 2015-02, Consolidation (Topic 810) Amendments to the Consolidation Analysis, which amends the criteria for determining which entities are considered VIEs, amends the criteria for determining if a service provider possesses a variable interest in a VIE and ends the deferral granted to investment companies for application of the VIE consolidation model. The ASU is effective for interim and annual periods beginning after December 15, 2015. Early application is permitted. We do not expect the adoption of this ASU to have

a material impact on the Company's results of operations, financial position or cash flows, except if Navios Partners were to enter into new arrangements in 2015 that fall into the scope prior to adoption of this standard.

In January 2015, the FASB issued ASU 2015-01, Income Statement Extraordinary and Unusual Items. This standard eliminates the concept of extraordinary and unusual items from U.S. GAAP. The new standard is effective for annual and interim periods after December 15, 2015. Early adoption is permitted. Navios Partners plans to adopt this standard effective January 1, 2016. The adoption of the new standard is not expected to have a material impact on Navios Partners' results of operations, financial position or cash flows.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern. This standard requires management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosures in certain circumstances. Before this new standard, no accounting guidance existed for management on when and how to assess or disclose going concern uncertainties. The amendments are effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. Early application is permitted. We plan to adopt this standard effective January 1, 2017. The adoption of the new standard is not expected to have a material impact on Navios Partners' results of operations, financial position or cash flows.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, clarifying the method used to determine the timing and requirements for revenue recognition on the statements of income. Under the new standard, an entity must identify the performance obligations in a contract, the transaction price and allocate the price to specific performance obligations to recognize the revenue when the obligation is completed. The amendments in this update also require disclosure of sufficient information to allow users to understand the nature, amount, timing and uncertainty of revenue and cash flow arising from contracts. The new accounting guidance was originally effective for interim and annual periods beginning after December 15, 2016. In April 2015, the FASB proposed a one-year deferral of the effective date for the new revenue standard. Under the proposal, the standard would be effective for public entities for annual reporting periods beginning after December 15, 2017 and interim periods therein. Early adoption is not permitted. We are currently reviewing the effect of ASU No. 2014-09 on our revenue recognition.

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements and Property, Plant and Equipment changing the presentation of discontinued operations on the statements of income and other requirements for reporting discontinued operations. Under the new standard, a disposal of a component or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results when the component meets the criteria to be classified as held-for-sale or is disposed. The amendments in this update also require additional disclosures about discontinued operations and disposal of an individually significant component of an entity that does not qualify for discontinued operations. The new accounting guidance is effective for interim and annual periods beginning after December 15, 2014. The adoption had no impact to Navios Partners' results of operations, financial position or cash flows.

NOTE 17 SUBSEQUENT EVENTS

(a) On April 28, 2015, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended March 31, 2015 of \$0.4425 per unit. The distribution is payable on May 14, 2015 to all holders of record of common and general partner units on May 13, 2015. The aggregate amount of the declared distribution is anticipated to be \$38,097.

(b) On April 22, 2015, Navios Partners took delivery of the MSC Cristina, a 2011 South Korean-built Container vessel of 13,100 TEU for a purchase price of \$147,750. The acquisition was financed with cash on its balance sheet and bank debt. On April 16, 2015, Navios Partners, through certain of its wholly-owned subsidiaries, entered into a term loan facility agreement of up to \$164,000 (divided into two tranches) with HSH Nordbank AG (the April 2015 Credit Facility), in order to finance a portion of the purchase price payable in connection with the acquisition of the MSC Cristina and one more super-post-panamax 13,100 TEU container vessel. The first tranche of the term loan facility, related to the MSC Cristina, is repayable in 28 equal consecutive quarterly installments of \$1,480, with a final balloon payment of \$38,379 on the last repayment date and the second tranche will be repayable in 28 equal consecutive quarterly installments of \$1,500, with a final balloon payment of \$41,000 on the last repayment date. The final maturity date is May 29, 2022. The tranches of the April 2015 Credit Facility bear interest at LIBOR plus 275 bps per annum. The April 2015 Credit Facility also requires compliance with certain financial covenants. Among other events, it will be an event of default under this credit facility if the financial covenants are not complied with.
