The Fund s investments are reported at fair value. Fair value is defined as the price that the Fund would receive upon selling an asset or would pay upon satisfying a liability in an orderly transaction between market participants at the measurement date.

Accounting standards establish a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity s own assumptions about the factors that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Reoccurring fair value measurements of Level 3 securities shall include a reconciliation of the beginning to ending balances for reported fair market values. A fair value hierarchy and Level 3 reconciliation, if applicable, have been included in the Notes to Schedule of Investments for the Fund.

An individual investment s fair value measurement is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized as follows:

Level 1 Observable input such as quoted prices, available in active markets, for identical assets or liabilities.

Level 2 Significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs.

Level 3 Significant unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, which may include assumptions made by the Board or persons acting at their direction that are used in determining the fair market value of investments.

The following table is a summary of the valuation of the Fund s investments by the fair value hierarchy levels as of June 30, 2015:

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Corporate Debt Securities	\$	\$ 322,311	\$
Loans		64,744	17,541
Short-Term Securities		7,129	
Total	\$	\$ 394,184	\$ 17,541
Forward Foreign Currency Contracts	\$	\$ 45	\$
Liabilities			
Forward Foreign Currency Contracts	\$	\$ 30	\$
Payable for Borrowing	\$	\$ 134,500	\$

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	•	
	Debt Securities	Loans
Beginning Balance 10-1-14	\$ 286	\$ 45,648
Net realized gain (loss)		(2,110)
Net change in unrealized appreciation (depreciation)		1,389
Purchases		6,709
Sales		(18,734)
Amortization/Accretion of premium/discount		113
Transfers into Level 3 during the period		2,431
Transfers out of Level 3 during the period	(286)	(17,905)
Ending Balance 6-30-15	\$	\$ 17,541
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 6-30-15	\$	\$ (984)

Transfers from Level 2 to Level 3 occurred primarily due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred primarily due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the values as of the beginning of the reporting period. During the period ended June 30, 2015, there were no transfers between Levels 1 and 2.

Information about Level 3 fair value measurements:

Fair Value at

	6-30-15	Valuation Technique(s)	Unobservable Input(s)
Assets			
Loans	\$ 17,541	Third-party valuation service	Broker quotes

The following acronym is used throughout this schedule:

REIT = Real Estate Investment Trust

For Federal income tax purposes, cost of investments owned at June 30, 2015 and the related unrealized appreciation (depreciation) were as follows:

Cost	\$ 433,851
Gross unrealized appreciation Gross unrealized depreciation	2,889 (25,015)
Net unrealized depreciation	\$ (22,126)
