REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of the
Employee Savings and Stock Ownership Plan
of General Re Corporation and Its Domestic Subsidiaries
Stamford, CT

We have audited the accompanying statements of net assets available for benefits of the Employee Savings and Stock Ownership Plan of General Re Corporation and Its Domestic Subsidiaries (the Plan) as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in conformity with U.S. generally accepted accounting principles.

The supplemental Schedule H, Part IV, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Plan s financial statements. The supplemental schedule is the responsibility of the Plan s management. Our audit procedures included determining whether the information presented in the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the financial statements as a whole.

EMPLOYEE SAVINGS AND STOCK OWNERSHIP PLAN OF

GENERAL RE CORPORATION AND ITS DOMESTIC SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2015 AND 2014 AND FOR THE YEAR ENDED DECEMBER 31, 2015

1. DESCRIPTION OF THE PLAN

The following description of the Employee Savings and Stock Ownership Plan of General Re Corporation and Its Domestic Subsidiaries (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering employees of General Re Corporation and Its Domestic Subsidiaries (the Company) who are regularly scheduled to complete at least one thousand hours of service (Company Service) per year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Stock Ownership Plan - In July 1989, the Company established a leveraged Employee Stock Ownership Plan (ESOP) which is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of ERISA, as amended. The Plan entered into a \$150,000,000 term loan agreement (the Loan) with the Plan sponsor, General Re Corporation. The Loan provided for annual payments of principal and interest and was initially to be repaid in full by 2014, with an interest rate of 9.25%. The proceeds of the Loan were used by the Plan to purchase 1,754,386 shares of 7-1/4% cumulative convertible preferred stock of the Company (Preferred Stock).

On December 21, 1998, the Company merged with Berkshire Hathaway Inc. At that time, the Plan trustee, State Street Bank and Trust Company (State Street), converted 1,686,721 shares of Preferred Stock, which was the amount outstanding as of December 21, 1998, into 177,106 shares of Berkshire Hathaway Class B common stock (Berkshire Common Stock). The Berkshire Common Stock then became the collateral for the Loan.

Effective January 1, 1999, the Company changed the original terms of the Loan. The revised agreement provides that the loan is due upon maturity in 2034 with interest payments at an annual rate of 6.5% and annual principal prepayment as required. As a result the Company contributed 4,057 shares of Berkshire Common Stock into the Plan between 1999 and 2012.

The Company will continue to make annual cash contributions necessary to repay the Loan which will allow for the allocation of Berkshire Common Stock to Plan participants. The Loan is guaranteed by the Plan sponsor. The Plan's investment in the Berkshire B ESOP Fund consists solely of Berkshire Common Stock shares.

Effective January 21, 2010 Berkshire Common Stock was split 50 for 1. All appropriate allocations were made to the records of State Street, Fidelity Management Trust Company (Fidelity) and the Company. The impact of the stock split was retroactively applied to all share numbers included in the Plan's financial statements.

The lender (the Company) has no rights against shares of Berkshire Common Stock once they are allocated to participants. During the year ended December 31, 2015, the Company contributed additional funds of \$5,365,675 to support the Plan's debt service, including \$2,327,747 in interest expense. In 2015 the Plan allocated 168,649 shares of Berkshire Common Stock to participants and 293,130 shares were retired. The Plan held 2,588,275 allocated shares and 2,322,555 unallocated shares as of December 31, 2015. As of December 31, 2014, the Plan held 2,722,247 allocated shares and 2,492,934 unallocated shares.

Table of Contents

The Loan balance was \$32,773,557 and \$35,811,485 at December 31, 2015 and 2014 respectively. It had an estimated fair value of \$37,834,295 and \$44,163,690 at December 31, 2015 and 2014 respectively, based on a combination of observable and non-observable inputs.

Contributions - The Plan allows employees of the Company to make after-tax contributions as well as tax-deferred contributions to the Plan as permitted under IRC Section 401(k). Participants may contribute up to 16% of their annual base salary, subject to IRC limitations for 401(k) contributions, which was \$18,000 for 2015. Participant contributions may be allocated among any of the Plan's investment funds, at the participant's discretion, with the exception of the Berkshire B ESOP Fund. The Company contributes an amount equal to 100% of a participant's contribution up to 6% of the participant's base salary except for United States Aviation Underwriters, Inc. participants who are matched at 50% of a participant's contribution up to 2% of their base salary. In 2015, the Company contributed \$8,635,142 in matching contributions using allocated shares of Berkshire Common Stock.

Effective January 1, 2006, the Company makes additional contributions based on age and total compensation. A contribution based on bonus is made as well as a contribution based on salary. These range from 3% - 6%. Additional Company contributions are also made based on underwriting profits and range from 0% - 4% of total compensation. These contributions are made entirely in shares of Berkshire Common Stock. In 2015, the Company contributed \$15,059,467 resulting from these additional contributions to participant accounts in the form of allocated shares of Berkshire Common Stock. Refer to the Interfund Transfer section for information on participants' rights to diversify Company contributions out of the Berkshire Common Stock.

The Company has auto enrollment and auto percentage escalation provisions that are applied annually. Those who are not participating are enrolled at 1% and any participant under 6% is increased by 1% until they have reached 6%. Employees can opt out at any time.

Payment of Benefits - Upon termination, participants are required to receive a lump sum distribution to the extent that their vested account balance is \$1,000 or less. If a participant's account balance is greater than such amount, distributions will be made either in a lump sum or on a periodic basis, as defined in the Plan agreement. Active participants may withdraw Pre-Tax and Catch-Up contributions beginning at age 59 ½ without penalty.

Participant Accounts - Each participant's account is credited with the participant's contributions, which includes amounts transferred from other plans (rollovers), Company contributions, Plan earnings and forfeitures of terminated participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant accounts are valued daily.

Vesting - All participant contributions become vested immediately. Participants are not allowed to withdraw Company contribution amounts that have not been in their account for at least two years. While actively employed, employees become 50%, 75%, and 100% vested in the value of the Company contributions after two, three and four years, respectively, of Company service.

Forfeited Accounts - Forfeited nonvested accounts are allocated at the Company's discretion to other participants accounts based on terms as defined in the Plan agreement. As of December 31, 2015 and 2014, forfeited nonvested accounts totaled \$175,063 and \$247,384, respectively. During the year ended December 31, 2015 and 2014, no forfeitures were allocated to participant accounts.

Table of Contents

Interfund Transfers - Participants are permitted to change the investment of their interests in any of the participant directed funds on a daily basis subject to certain limits, with the exception of the Fidelity Managed Income Portfolio, which may be changed on a monthly basis. As a result of the Pension Protection Act of 2006, effective January 1, 2007, participants may, at their discretion, diversify out of the Berkshire B ESOP Fund to any other participant directed funds offered in the Plan. This includes both the Company match amounts and additional contributions. There are no service, age or vesting restrictions on a participant's ability to divest and participants will have sole discretion regarding the amount of shares to divest and the timing of these divestiture elections.

Participant Loans - The Plan allows participants to borrow from the before-tax and rollover portions of their respective accounts. Loans may not exceed the lesser of one-half of the participant's vested account balance or \$50,000. Non-residence loans are written for periods of 6 to 60 months. The Plan also allows loans granted for purchases of principal residences to be repaid over a 30-year period. A fixed interest rate of the prime rate plus one percent calculated at the inception of the loan is charged over the life of the loan. The interest rate for new loans was 4.25% in 2015 and 2014. Interest and principal repayments are credited directly to the borrower's respective account and are repaid in monthly installments by payroll deductions. Loan notes receivable balances outstanding are reflected as assets of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The financial statements are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risk and Uncertainties - The Plan utilizes various investment instruments, including common stock, mutual funds, and a collective trust fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements. Such changes could also materially affect participant account balances.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for a description of the fair value methodology.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. Delinquent notes receivable are recorded as distributions based on the terms of the Plan document. Notes receivable are measured with no allowance for credit losses since repayment of principal and interest are received through payroll deductions and the notes are collateralized by the individual participant's account

balances.

Table of Contents

Expenses - The management and service fees of the Fidelity Group of Mutual Funds are charged to operations of the respective funds. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. State Street fees and administrative expenses, primarily consulting and auditing fees, are paid by the Company through the allocation of unallocated shares. These amounted to \$236,521 for 2015.

Payment of Benefits - Benefit payments to participants are recorded upon distribution. All amounts allocated to accounts of participants who have elected to withdraw from the Plan have been paid as of December 31, 2015 and 2014.

Adoption of ASU 2015-07 and ASU 2015-12

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. The adoption of this standard had no effect on the Plan's net assets available for benefits or changes therein.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management elected to early adopt the provisions of Part I and II of this new standard. Part III is not applicable to this Plan. The adoption of this standard had no effect on the Plan's net assets available for benefits or changes therein.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels at the actual date of the event or change in circumstances that caused the transfer at the end of the reporting period.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

Table of Contents

The following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Berkshire Common Stock Valued at the closing price reported on the active market on which the individual securities are traded.

Berkshire B Unitized Stock Fund Represents a unitized employer stock fund comprised of underlying Berkshire Common Stock and a short-term cash component. A unitized fund is not a registered security. The value of the unit reflects the combined market value of the underlying stock and market value of the short-term cash position. The market value of the common stock portion of the Berkshire B Unitized Stock Fund is based on the closing market price of the Berkshire Common Stock on the New York Stock Exchange multiplied by the number of shares held in the fund. The carrying amount of the short-term cash component approximates fair value.

Mutual Funds Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price.

Collective Trust Fund This consists of the Managed Income Portfolio (MIP), which is a common collective trust fund sponsored by Fidelity. The MIP's fair value is measured at net asset value per share as reported by the fund manager. The redemption frequency is monthly and there are no restrictions or notice period required.

Invested assets, measured at fair value in the financial statements, are summarized below as of December 31, 2015 and 2014 with fair values shown according to the fair value hierarchy. Notes receivable from participants and the Loan payable to the Company are not reported at fair value. Investments measured at net asset value are not required to be classified according to the fair value hierarchy. The Net Asset Value investment is included to permit reconciliation to the Statement of Net Assets. For the year ended December 31, 2015, there were no significant transfers in or out of Levels 1, 2 or 3.

	2015 Total	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Berkshire B ESOP Fund	\$ 648,425,996	\$ 648,425,996	\$ -	\$ -

Table of Contents

4. PLAN TERMINATION

The Company intends to continue and operate the Plan, but reserves the right to suspend contributions temporarily or to amend or terminate the Plan. If the Plan were to be terminated, all participants would become fully vested, and all the Plan assets would be used solely to provide the benefits payable to participants and their beneficiaries, in accordance with the provisions of ERISA.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and are managed by Fidelity Investments Institutional Operations Company, Inc. (FIIO) or Fidelity Management and Research Company (FMR). Fidelity Management Trust Company (FMTC) manages the Collective Trust and is the administrator as defined by the Plan and these transactions qualify as exempt party-in-interest transactions. FIIO, FMR and FMTC are affiliated entities. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. The fees are also considered a party-in-interest transaction.

The Berkshire B ESOP Fund and the Berkshire B Unitized Stock Fund consist of Berkshire Common Stock shares issued by Berkshire Hathaway Inc., the ultimate parent of the Plan sponsor.

Shares of Berkshire Common Stock in the Berkshire B ESOP Fund have fair values of \$648,425,996 and \$783,059,534 as of December 31, 2015 and 2014, respectively. This investment depreciated in value during the year ended December 31, 2015 by \$91,513,359.

Shares of Berkshire Common Stock and cash in the Berkshire B Unitized Stock Fund had fair values of \$50,743,764 and \$63,371,466 as of December 31, 2015 and 2014, respectively. The stock investment portion of this fund depreciated in value during the year ended December 31, 2015 by \$7,140,600.

Notes receivable from participants are also considered party-in-interest transactions.

Certain administrative functions may be performed by officers and employees of the Company and these officers and employees may also be participants of the Plan. The Company pays the salaries of these officers and employees on behalf of the Plan.

6. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 25, 2015 that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Therefore, no provision for income taxes has been included in the Plan s financial statements.

GAAP requires Plan management to evaluate tax provisions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.
