POWERSHARES DB MULTI-SECTOR COMMODITY TRUST

PowerShares DB Agriculture Fund	115,972,875	Common Units of Beneficial Interest
--	--------------------	--

PowerShares DB Multi-Sector Commodity Trust, or the Trust, is organized in seven separate series as a Delaware statutory trust, one of which is offered pursuant to this Prospectus. PowerShares DB Agriculture Fund, or the Fund, is a series of the Trust. The Fund issues common units of beneficial interest, or Shares, which represent units of fractional undivided beneficial interest in and ownership of the Fund.

Authorized Participants may sell the Shares they purchase from the Fund in blocks of 200,000 Shares, called Baskets, to other investors at prices that are expected to reflect, among other factors, the trading price of the Shares on the NYSE Arca, Inc., or the NYSE Arca, and the supply of and demand for Shares at the time of sale and are expected to fall between net asset value, or NAV, and the trading price of the Shares on the NYSE Arca at the time of sale.

The Shares trade on the NYSE Arca under the symbol DBA.

The Fund trades exchange-traded futures contracts on the commodities comprising the DBIQ Diversified Agriculture Index Excess Return , or the Index, with a view to tracking the Index over time. The Fund also earns interest income from United States Treasury Securities, or Treasury Income, and dividends from its holdings in money market mutual funds (affiliated or otherwise), or Money Market Income. Additionally, the Fund also gains an exposure to United States Treasury Securities through an

investment in exchange-traded funds (affiliated or otherwise) that track indexes that measure the performance of U.S. Treasury Obligations with a maximum remaining maturity of up to 12 months, or T-Bill ETFs, and the Fund may receive dividends or distributions of capital gains from such investment in T-Bill ETFs, or T-Bill ETF Income.

The Index, which is comprised of one or more underlying commodities, or Index Commodities, is intended to reflect the agricultural sector. The Index Commodities consist of Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The common units of beneficial interest of five of the other six series of the Trust (PowerShares DB Energy Fund, PowerShares DB Oil Fund, PowerShares DB Precious Metals Fund, PowerShares DB Gold Fund and PowerShares DB Base Metals Fund) are offered pursuant to a separate prospectus. The common units of beneficial interest of the sixth series of the Trust, PowerShares DB Silver Fund, is offered pursuant to a separate prospectus.

Except when aggregated in Baskets, the Shares are not redeemable securities.

Invesco PowerShares Capital Management LLC serves as the Managing Owner, commodity pool operator and commodity trading advisor of the Fund.

INVESTING IN THE SHARES INVOLVES SIGNIFICANT RISKS. PLEASE REFER TO THE RISKS YOU FACE BEGINNING ON PAGE 21.

Futures trading is volatile and even a small movement in market prices could cause large losses.

The success of the Fund's trading program depends upon the skill of the Managing Owner and its trading principals.

You could lose all or substantially all of your investment.

The Index is concentrated in a small number of commodities. Concentration may result in greater volatility.

Investors pay fees in connection with their investment in the Shares, including asset-based fees of 0.85% per annum. Additional charges include brokerage fees of approximately 0.04% per annum in the aggregate.

Authorized Participants may offer to the public, from time-to-time, Shares from any Baskets they create. Shares offered to the public by Authorized Participants will be offered at a per-Share offering price that will vary depending on, among other factors, the trading price of the Shares on the NYSE Arca, the NAV per Share and the supply of and demand for the Shares at the time of the offer. Shares initially comprising the same Basket but offered by Authorized Participants to the public at different times may have different offering prices. Authorized Participants will not receive from the Fund, the Managing Owner or any of their affiliates, any fee or other compensation in connection with their sale of Shares to the public.

An Authorized Participant may receive commissions or fees from investors who purchase Shares through their commission or fee-based brokerage accounts. In addition, the Managing Owner pays a distribution services fee to Invesco Distributors, Inc. and pays a marketing services fee to Deutsche Bank Securities Inc. without reimbursement from the Trust or the Fund. For more information regarding items of compensation paid to FINRA members, please see the Plan of Distribution section on page 113.

These securities have not been approved or disapproved by the Securities and Exchange Commission or any state securities commission nor has the Securities and Exchange Commission or any state securities commission passed upon the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offense. The Fund is not a mutual fund or any other type of investment company within the meaning of the Investment Company Act of 1940, as amended, and the Fund is not subject to regulation

thereunder.

THE COMMODITY FUTURES TRADING COMMISSION HAS NOT PASSED UPON THE MERITS OF PARTICIPATING IN THIS POOL NOR HAS THE COMMISSION PASSED ON THE ADEQUACY OR ACCURACY OF THIS DISCLOSURE DOCUMENT.

COMMODITY FUTURES TRADING COMMISSION

RISK DISCLOSURE STATEMENT

YOU SHOULD CAREFULLY CONSIDER WHETHER YOUR FINANCIAL CONDITION PERMITS YOU TO PARTICIPATE IN A COMMODITY POOL. IN SO DOING, YOU SHOULD BE AWARE THAT COMMODITY INTEREST TRADING CAN QUICKLY LEAD TO LARGE LOSSES AS WELL AS GAINS. SUCH TRADING LOSSES CAN SHARPLY REDUCE THE NET ASSET VALUE OF THE POOL AND CONSEQUENTLY THE VALUE OF YOUR INTEREST IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL.

FURTHER, COMMODITY POOLS MAY BE SUBJECT TO SUBSTANTIAL CHARGES FOR MANAGEMENT, AND ADVISORY AND BROKERAGE FEES. IT MAY BE NECESSARY FOR THOSE POOLS THAT ARE SUBJECT TO THESE CHARGES TO MAKE SUBSTANTIAL TRADING PROFITS TO AVOID DEPLETION OR EXHAUSTION OF THEIR ASSETS. THIS DISCLOSURE DOCUMENT CONTAINS A COMPLETE DESCRIPTION OF EACH EXPENSE TO BE CHARGED THIS POOL AT PAGE 60 AND A STATEMENT OF THE PERCENTAGE RETURNS NECESSARY TO BREAK EVEN, THAT IS, TO RECOVER THE AMOUNT OF YOUR INITIAL INVESTMENT, AT PAGE 16.

THIS BRIEF STATEMENT CANNOT DISCLOSE ALL THE RISKS AND OTHER FACTORS NECESSARY TO EVALUATE YOUR PARTICIPATION IN THIS COMMODITY POOL. THEREFORE, BEFORE YOU DECIDE TO PARTICIPATE IN THIS COMMODITY POOL, YOU SHOULD CAREFULLY STUDY THIS DISCLOSURE DOCUMENT, INCLUDING A DESCRIPTION OF THE PRINCIPAL RISK FACTORS OF THIS INVESTMENT, AT PAGES 21 THROUGH 33.

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY POOL MAY TRADE FOREIGN FUTURES OR OPTIONS CONTRACTS. TRANSACTIONS ON MARKETS LOCATED OUTSIDE THE UNITED STATES, INCLUDING MARKETS FORMALLY LINKED TO A UNITED STATES MARKET, MAY BE SUBJECT TO REGULATIONS WHICH OFFER DIFFERENT OR DIMINISHED PROTECTION TO THE POOL AND ITS PARTICIPANTS. FURTHER, UNITED STATES REGULATORY AUTHORITIES MAY BE UNABLE TO COMPEL THE ENFORCEMENT OF THE RULES OF REGULATORY AUTHORITIES OR MARKETS IN NON-UNITED STATES JURISDICTIONS WHERE TRANSACTIONS FOR THE POOL MAY BE EFFECTED.

THIS PROSPECTUS DOES NOT INCLUDE ALL OF THE INFORMATION OR EXHIBITS IN THE REGISTRATION STATEMENT OF THE TRUST. YOU CAN READ AND COPY THE ENTIRE REGISTRATION STATEMENT AT THE PUBLIC REFERENCE FACILITIES MAINTAINED BY THE SEC IN WASHINGTON, D.C.

THE FUND FILES QUARTERLY AND ANNUAL REPORTS WITH THE SEC. YOU CAN READ AND COPY THESE REPORTS AT THE SEC PUBLIC REFERENCE FACILITIES IN WASHINGTON, D.C. PLEASE CALL THE SEC AT 1-800-SEC-0330 FOR FURTHER INFORMATION.

THE FILINGS OF THE TRUST ARE POSTED AT THE SEC WEBSITE AT [HTTP://WWW.SEC.GOV](http://www.sec.gov).

REGULATORY NOTICES

NO DEALER, SALESMAN OR ANY OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATION NOT CONTAINED IN THIS PROSPECTUS, AND, IF GIVEN OR MADE, SUCH OTHER INFORMATION OR REPRESENTATION MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE TRUST, THE FUND, THE MANAGING OWNER, THE AUTHORIZED PARTICIPANTS OR ANY OTHER PERSON.

Table of Contents

THIS PROSPECTUS DOES NOT CONSTITUTE AN OFFER OR SOLICITATION TO SELL OR A SOLICITATION OF AN OFFER TO BUY, NOR SHALL THERE BE ANY OFFER, SOLICITATION, OR SALE OF THE SHARES IN ANY JURISDICTION IN WHICH SUCH OFFER, SOLICITATION, OR SALE IS NOT AUTHORIZED OR TO ANY PERSON TO WHOM IT IS UNLAWFUL TO MAKE ANY SUCH OFFER, SOLICITATION, OR SALE.

THE BOOKS AND RECORDS OF THE FUND ARE MAINTAINED AS FOLLOWS: ALL MARKETING MATERIALS ARE MAINTAINED AT THE OFFICES OF INVESCO DISTRIBUTORS, INC., 11 GREENWAY PLAZA, SUITE 1000, HOUSTON, TEXAS 77046-1173; TELEPHONE NUMBER (800) 983-0903; BASKET CREATION AND REDEMPTION BOOKS AND RECORDS, ACCOUNTING AND CERTAIN OTHER FINANCIAL BOOKS AND RECORDS (INCLUDING FUND ACCOUNTING RECORDS, LEDGERS WITH RESPECT TO ASSETS, LIABILITIES, CAPITAL, INCOME AND EXPENSES, THE REGISTRAR, TRANSFER JOURNALS AND RELATED DETAILS) AND TRADING AND RELATED DOCUMENTS RECEIVED FROM FUTURES COMMISSION MERCHANTS ARE MAINTAINED BY THE BANK OF NEW YORK MELLON, 2 HANSON PLACE, BROOKLYN, NEW YORK 11217, TELEPHONE NUMBER (718) 315-7500. ALL OTHER BOOKS AND RECORDS OF THE FUND (INCLUDING MINUTE BOOKS AND OTHER GENERAL CORPORATE RECORDS, TRADING RECORDS AND RELATED REPORTS AND OTHER ITEMS RECEIVED FROM THE FUND'S COMMODITY BROKERS) ARE MAINTAINED AT THE FUND'S PRINCIPAL OFFICE, C/O INVESCO POWERSHARES CAPITAL MANAGEMENT LLC, 3500 LACEY ROAD, SUITE 700, DOWNERS GROVE, ILLINOIS 60515; TELEPHONE NUMBER (800) 983-0903. SHAREHOLDERS WILL HAVE THE RIGHT, DURING NORMAL BUSINESS HOURS, TO HAVE ACCESS TO AND COPY (UPON PAYMENT OF REASONABLE REPRODUCTION COSTS) SUCH BOOKS AND RECORDS IN PERSON OR BY THEIR AUTHORIZED ATTORNEY OR AGENT. MONTHLY ACCOUNT STATEMENTS FOR THE FUND CONFORMING TO COMMODITY FUTURES TRADING COMMISSION (THE CFTC) AND THE NATIONAL FUTURES ASSOCIATION (THE NFA) REQUIREMENTS ARE POSTED ON THE MANAGING OWNER'S WEBSITE AT [HTTP://WWW.INVESCOPOWERSHARES.COM](http://www.invescopowershares.com). ADDITIONAL REPORTS ARE POSTED ON THE MANAGING OWNER'S WEBSITE IN THE DISCRETION OF THE MANAGING OWNER OR AS REQUIRED BY REGULATORY AUTHORITIES. THERE WILL SIMILARLY BE DISTRIBUTED TO SHAREHOLDERS OF THE FUND, NOT MORE THAN 90 DAYS AFTER THE CLOSE OF THE FUND'S FISCAL YEAR, CERTIFIED AUDITED FINANCIAL STATEMENTS AND (IN NO EVENT LATER THAN MARCH 15 OF THE IMMEDIATELY FOLLOWING YEAR) THE TAX INFORMATION RELATING TO SHARES OF THE FUND NECESSARY FOR THE PREPARATION OF SHAREHOLDERS' ANNUAL FEDERAL INCOME TAX RETURNS.

THE DIVISION OF INVESTMENT MANAGEMENT OF THE SECURITIES AND EXCHANGE COMMISSION REQUIRES THAT THE FOLLOWING STATEMENT BE PROMINENTLY SET FORTH HEREIN: NEITHER POWERSHARES DB MULTI-SECTOR COMMODITY TRUST NOR ANY SERIES THEREOF IS A MUTUAL FUND OR ANY OTHER TYPE OF INVESTMENT COMPANY WITHIN THE MEANING OF THE INVESTMENT COMPANY ACT OF 1940, AS AMENDED, AND IS NOT SUBJECT TO REGULATION THEREUNDER.

AUTHORIZED PARTICIPANTS MAY BE REQUIRED TO DELIVER A PROSPECTUS WHEN TRANSACTING IN SHARES. SEE PLAN OF DISTRIBUTION.

ORGANIZATION CHART	20
THE RISKS YOU FACE	21
<i>(1) The Value of the Shares Relates Directly to the Value of the Futures Contracts and Other Assets Held by the Fund and Fluctuations in the Price of These Assets Could Materially Adversely Affect an Investment in the Shares.</i>	21
<i>(2) NAV May Not Always Correspond to Market Price and, as a Result, Baskets May be Created or Redeemed at a Value that Differs from the Market Price of the Shares.</i>	21
<i>(3) Regulatory and Exchange Position Limits and Other Rules May Restrict the Creation of Baskets and the Operation of the Fund.</i>	22
<i>(4) The Fund's Performance May Not Always Replicate Exactly the Changes in the Level of its Index.</i>	24
<i>(5) The Fund Is Not Actively Managed and Tracks its Index During Periods in Which the Index Is Flat or Declining as Well as When the Index Is Rising.</i>	24
<i>(6) The NYSE Arca May Halt Trading in the Shares Which Would Adversely Impact Your Ability to Sell Shares.</i>	24

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

<u>(7) The Lack of Active Trading Markets for the Shares May Result in Losses on Your Investment at the Time of Disposition of Your Shares.</u>	
<u>(8) The Shares Could Decrease in Value if Unanticipated Operational or Trading Problems Arise.</u>	24
<u>(9) As the Managing Owner and its Principals have a Limited History of Operating an Exchange-Traded Fund that Invests in a Broad Range of Commodity Futures Contracts, their Experience May be Relatively Inadequate or Unsuitable to Manage the Fund.</u>	24
<u>(10) You May Not Rely on Past Performance or Index Results in Deciding Whether to Buy Shares.</u>	25
<u>(11) Fewer Representative Commodities May Result In Greater Index Volatility.</u>	25
<u>(12) Price Volatility May Possibly Cause the Total Loss of Your Investment.</u>	25
<u>(13) Unusually Long Peak-to-Valley Drawdown Periods With Respect To the Index May Be Reflected in Equally Long Peak-to-Valley Drawdown Periods with Respect to the Performance of the Shares.</u>	25
<u>(14) Fees and Commissions are Charged Regardless of Profitability and May Result in Depletion of Assets.</u>	25
<u>(15) You Cannot Be Assured of the Managing Owner's Continued Services, Which Discontinuance May Be Detrimental to the Fund.</u>	26
<u>(16) Possible Illiquid Markets May Exacerbate Losses.</u>	26
<u>(17) You May Be Adversely Affected by Redemption Orders that Are Subject To Postponement, Suspension or Rejection Under Certain Circumstances.</u>	26
<u>(18) Because the Futures Contracts Have No Intrinsic Value, the Positive Performance of Your Investment Is Wholly Dependent Upon an Equal and Offsetting Loss.</u>	26

Table of Contents

<u>(19) Failure of Commodity Futures Markets to Exhibit Low to Negative Correlation to General Financial Markets Will Reduce Benefits of Diversification and May Exacerbate Losses to Your Portfolio.</u>	26
<u>(20) Shareholders Will Not Have the Protections Associated With Ownership of Shares in an Investment Company Registered Under the Investment Company Act of 1940.</u>	26
<u>(21) Trading on Commodity Exchanges Outside the United States is Not Subject to U.S. Regulation.</u>	27
<u>(22) Various Actual and Potential Conflicts of Interest May Be Detrimental to Shareholders.</u>	27
<u>(23) Shareholders Will Be Subject to Taxation on Their Allocable Share of the Fund's Taxable Income, Whether or Not They Receive Cash Distributions.</u>	27
<u>(24) Items of Income, Gain, Loss and Deduction With Respect to Shares could be Reallocated if the IRS does not Accept the Assumptions or Conventions Used by the Fund in Allocating Such Items.</u>	27
<u>(25) The Current Treatment of Long-Term Capital Gains Under Current U.S. Federal Income Tax Law May Be Adversely Affected, Changed or Repealed in the Future.</u>	28
<u>(26) Failure of Futures Commission Merchants or Commodity Brokers to Segregate Assets May Increase Losses; Despite Segregation of Assets, the Fund Remains at Risk of Significant Losses Because the Fund May Only Receive a Pro-Rata Share of the Assets, or No Assets at All.</u>	28
<u>(27) The Effect of Market Disruptions and Government Intervention Are Unpredictable and May Have an Adverse Effect on the Value of Your Shares.</u>	28
<u>(28) Regulatory Changes or Actions, Including the Implementation of the Dodd-Frank Act, May Alter the Operations and Profitability of the Fund.</u>	28
<u>(29) Lack of Independent Advisers Representing Investors.</u>	29
<u>(30) Possibility of Termination of the Fund May Adversely Affect Your Portfolio.</u>	29
<u>(31) Shareholders Do Not Have the Rights Enjoyed by Investors in Certain Other Vehicles.</u>	29
<u>(32) An Investment in Shares May Be Adversely Affected by Competition From Other Methods of Investing in Commodities.</u>	29
<u>(33) Competing Claims Over Ownership of Intellectual Property Rights Related to the Fund Could Adversely Affect the Fund and an Investment in Shares.</u>	29
<u>(34) Backwardation or Contango in the Market Prices of the Index Commodities Will Affect the Value of Your Shares.</u>	30
<u>(35) The Value of the Shares Will be Adversely Affected if the Fund is Required to Indemnify the Trustee or the Managing Owner.</u>	30
<u>(36) The NAV Calculation of the Fund May Be Overstated or Understated Due to the Valuation Method Employed When a Settlement Price is not Available on the Date of NAV Calculation.</u>	30
<u>(37) Although the Shares are Limited Liability Investments, Certain Circumstances such as Bankruptcy of the Fund or Indemnification of the Fund by the Shareholders will Increase a Shareholder's Liability.</u>	31
<u>(38) An Insolvency Resulting From Another Series in the Trust or the Trust Itself May Have a Material Adverse Effect On the Fund.</u>	31
<u>(39) The Fund may Potentially Lose Money on its Holdings of Money Market Mutual Funds.</u>	31
<u>(40) Due to the Increased use of Technologies, Intentional and Unintentional Cyber Attacks Pose Operational and Information Security Risks.</u>	31
<u>(41) The Fund is Subject to Extensive Regulatory Reporting and Compliance.</u>	32
<u>(42) Current Discussions between the SEC and PricewaterhouseCoopers LLP regarding PricewaterhouseCoopers LLP's Independence Could Have Potentially Adverse Consequences for the Fund.</u>	32

SUMMARY

*This summary of material information contained or incorporated by reference in this Prospectus is intended for quick reference only and does not contain all of the information that may be important to you. For ease of reference, any references throughout this Prospectus to various actions taken by the Fund are actually actions that the Trust has taken on behalf of the Fund. The remainder of this Prospectus contains more detailed information. You should read the entire Prospectus, including the information incorporated by reference in this Prospectus, before deciding to invest in Shares. Please see the section *Incorporation by Reference of Certain Documents* on page 117 for information on how you can obtain the information that is incorporated by reference in this Prospectus. This Prospectus is dated March 10, 2017.*

The Trust and the Fund

PowerShares DB Multi-Sector Commodity Trust, or the Trust, was formed as a Delaware statutory trust, in seven separate series, or funds, on August 3, 2006. PowerShares DB Agriculture Fund, or the Fund, is a series of the Trust. The Fund issues common units of beneficial interest, or Shares, which represent units of fractional undivided beneficial interest in and ownership of the Fund. The term of the Trust and the Fund is perpetual (unless terminated earlier in certain circumstances). The principal offices of the Trust and the Fund are located at c/o Invesco PowerShares Capital Management LLC, 3500 Lacey Road, Suite 700, Downers Grove, IL 60515, and its telephone number is (800) 983-0903.

The Trust was organized in separate series as a Delaware statutory trust rather than as separate statutory trusts in order to achieve certain administrative efficiencies. The interests of investors are not adversely affected by the choice of form of organization. As of the date of this Prospectus, the Trust consists of the following seven series – PowerShares DB Energy Fund, PowerShares DB Oil Fund, PowerShares DB Precious Metals Fund, PowerShares DB Gold Fund, PowerShares DB Silver Fund, PowerShares DB Base Metals Fund and PowerShares DB Agriculture Fund. This Prospectus is for the Fund only and not for the first 6 funds listed in the prior sentence, or the Sectors Funds. The Sectors Funds, which are series of the Trust, are not being offered by this Prospectus. Information regarding both the Fund and the Sectors Funds (and any other

additional series of the Trust, as applicable) is available at www.invescopowershares.com.

Shares Listed on the NYSE Arca

The Shares are listed on the NYSE Arca under the symbol DBA.

Secondary market purchases and sales of Shares will be subject to ordinary brokerage commissions and charges.

Purchases and Sales in the Secondary Market on the NYSE Arca

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Individual Shares may be purchased and sold only on the NYSE Arca. Because the Shares will trade at market prices, rather than the net asset value, or NAV, of the Fund, Shares may trade at prices greater than NAV (at a premium), at NAV, or less than NAV (at a discount).

Baskets may be created or redeemed directly with the Fund only by Authorized Participants. It is expected that Baskets will be created when the market price per Share is at a premium to the NAV per Share. Similarly, it is expected that Baskets will be redeemed when the market price per Share is at a discount to the NAV per Share. Retail investors seeking to purchase or sell Shares on any day are expected to effect such transactions in the secondary market, on the NYSE Arca, at the market price per Share, rather than in connection with the creation or redemption of Baskets.

The market price of the Shares may not be identical to the NAV per Share, but these valuations are expected to be very close. Investors are able to use the intra-day indicative value, or IIV, per Share to determine if they want to purchase in the secondary market via the NYSE Arca. The IIV per Share is based on the prior day's final NAV, adjusted four times per minute throughout the trading day to reflect the continuous price changes of the Fund's futures positions, which provides a continuously updated estimated NAV per Share.

Retail investors may purchase and sell Shares through traditional brokerage accounts. Purchases or sales of Shares may be subject to customary brokerage commissions. Investors are encouraged to review the terms of their brokerage accounts for applicable charges.

Table of Contents

Pricing Information Available on the NYSE Arca and Other Sources

The following table lists additional NYSE Arca symbols and their meanings with respect to the Fund and the Index:

DBA	Market price per Share on NYSE Arca
DBA.IV	Indicative intra-day value per Share
DBA.NV	End of day net asset value of the Fund
DBAGIX	Intra-day Index closing level
DBLCDBAE	End of day Index closing level as of close of NYSE Arca

The intra-day data in the above table is published once every fifteen seconds throughout each trading day.

The Index Sponsor calculates and publishes the closing level of the Index daily. The Managing Owner publishes the NAV of the Fund and the NAV per Share daily. Additionally, the Index Sponsor calculates and publishes the intra-day Index level, and the Index Sponsor calculates, and the Managing Owner publishes, the IIV per Share (quoted in U.S. dollars) once every fifteen seconds throughout each trading day.

All of the foregoing information is published as follows:

The intra-day level of the Index (symbol: DBAGIX) and the IIV per Share (symbol: DBA.IV) (each quoted in U.S. dollars) are published once every fifteen seconds throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The current trading price per Share (symbol: DBA) (quoted in U.S. dollars) is published continuously as trades occur throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The most recent end-of-day Index closing level (symbol: DBLCDBAE) is published as of the close of business for the NYSE Arca each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published as of the close of business on Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto. In addition, the most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published the following morning on the consolidated tape.

All of the foregoing information with respect to the Index, including the Index's history, is also published at <https://index.db.com>.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The Index Sponsor obtains information for inclusion in, or for use in the calculation of, the Index from sources the Index Sponsor considers reliable. None of the Index Sponsor, the Managing Owner, the Fund or any of their respective affiliates accepts responsibility for or guarantees the accuracy and/or completeness of the Index or any data included in the Index.

CUSIP Number

The CUSIP number of the Fund is 73936B408.

Risk Factors

An investment in the Shares is speculative and involves a high degree of risk. The summary risk factors set forth below are intended merely to highlight certain risks of the Fund. The Fund has additional risks that are set forth elsewhere in this Prospectus.

Past performance is not necessarily indicative of future results; all or substantially all of an investment in the Fund could be lost.

The trading of the Fund takes place in very volatile markets.

The Fund is subject to the fees and expenses described herein (in addition to the amount of any commissions charged by the investor's broker in connection with an investor's

Table of Contents

purchase of Shares) and will be successful only if significant losses are avoided.

The Fund is subject to fees and expenses in the aggregate amount of approximately 0.89% per annum as described herein and will be successful only if its annual returns from futures trading (held for investment purposes), plus its annual Treasury Income, and any Money Market Income and T-Bill ETF Income (held for margin and/or cash management purposes), exceed such fees and expenses of approximately 0.89% per annum. The Fund is expected to earn Treasury Income equal to 0.49% per annum, based upon the yield of 3-month United States Treasury Securities as of January 31, 2017, or a maximum of \$0.12 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn Money Market Income equal to 0.45% per annum as of January 31, 2017, or a maximum of \$0.11 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn T-Bill ETF Income equal to 0.56% per annum as of January 31, 2017, or a maximum of \$0.14 per annum per Share at \$25.00 as the NAV per Share. Because the Fund invests a portion of its assets in Treasury Securities, the money market mutual funds and T-Bill ETFs, its expected income from each of its holdings will be approximately \$0.09, \$0.01 and \$0.03, respectively, for an aggregate amount of approximately \$0.13 per Share at \$25.00 as the NAV per Share. Therefore, based upon the difference between the sum of the Treasury Income plus the Money Market Income plus the T-Bill ETF Income, on the one hand, and the annual fees and expenses, on the other hand, the Fund will be required to earn approximately 0.39% per annum, or \$0.10 per annum per Share at \$25.00 as the NAV per Share, in order for an investor to break-even on an investment during the first twelve months of an investment. Actual Treasury Income, Money Market Income and T-Bill ETF Income, as applicable, could be higher or lower than the current levels.

As of the date of this Prospectus, the CFTC and/or commodity exchange rules impose speculative position limits on market participants trading in all eleven commodities included in the Index (Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs, or the Affected Index Commodities). Because the Fund is subject to position limits, its ability to issue new Baskets or its ability to reinvest income in additional futures contracts corresponding to the Affected Index Commodities may be impaired or limited to the extent that these activities would cause the Fund to exceed its applicable position limits. Limiting the size of the Fund to stay within those position limits may affect the correlation between the price of its Shares, as traded on the NYSE Arca, and its NAV. The inability to create additional Baskets could result in Shares trading at a premium or discount to NAV of the Fund.

If the Managing Owner determines in its commercially reasonable judgment that it has become impracticable or inefficient for any reason for the Fund to gain full or partial exposure to any Index Commodity by investing in a specific futures contract that comprises the Index, the Fund may invest in a futures contract referencing the particular Index Commodity other than the specific contract that comprises the Index or, in the alternative, invest in other futures contracts not based on the particular Index Commodity if, in the commercially reasonable judgment of the Managing Owner, such futures contracts tend to exhibit trading prices that correlate with a futures contract that comprises the Index.

There can be no assurance that the Fund will achieve profits or avoid losses, significant or otherwise.

Performance of the Fund may not track the Index during particular periods or over the long term. Such tracking error may cause the Fund to outperform or underperform the Index.

Certain potential conflicts of interest exist between the Managing Owner, the Commodity Broker (as defined herein) and their affiliates and the Shareholders. For example, the Commodity Broker may have a conflict of interest between its execution of trades for the Fund and for its other customers. More

Table of Contents

specifically, the Commodity Broker will benefit from executing orders for other clients, whereas the Fund may be harmed to the extent that the Commodity Broker has fewer resources to allocate to the Fund's accounts due to the existence of such other clients. Allocation of resources among the Commodity Broker's clients adds to the potential conflict. Proprietary trading by the affiliates of the Managing Owner and the Commodity Broker may create conflicts of interest from time-to-time because such proprietary trades may take a position that is opposite of that of the Fund or may compete with the Fund for certain positions within the marketplace. Additionally, certain potential conflicts of interest exist because the Fund invests in affiliated money market mutual funds and T-Bill ETFs. See **Conflicts of Interest** for a more complete disclosure of various conflicts. Although the Managing Owner has established procedures designed to resolve certain of these conflicts equitably, the Managing Owner has not established formal procedures to resolve all potential conflicts of interest. Consequently, investors may be dependent on the good faith of the respective parties subject to such conflicts to resolve them equitably. Although the Managing Owner attempts to monitor these conflicts, it is extremely difficult, if not impossible, for the Managing Owner to ensure that these conflicts will not, in fact, result in adverse consequences to the Fund.

The Trustee

Wilmington Trust Company, or the Trustee, a Delaware trust company, is the sole trustee of the Trust. The Trustee delegated to the Managing Owner all of the power and authority to manage the business and affairs of the Trust and the Fund and has only nominal duties and liabilities to the Trust and the Fund.

Investment Objective

The Fund seeks to track changes, whether positive or negative, in the level of the DBIQ Diversified Agriculture Index Excess Return, or the Index, over time, plus the excess, if any, of the sum of the Fund's Treasury Income, Money Market Income and T-Bill ETF Income, over the expenses of the Fund. For the avoidance of doubt, the Fund invests in futures contracts

in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only.

The Shares are designed for investors who want a cost-effective and convenient way to invest in commodity futures on U.S. and non-U.S. markets.

Advantages of investing in the Fund include:

Ease and Flexibility of Investment. The Shares trade on the NYSE Arca and provide institutional and retail investors with indirect access to commodity futures markets. The Shares may be bought and sold on the NYSE Arca like other exchange-listed securities. Retail investors may purchase and sell Shares through traditional brokerage accounts.

Margin. Shares are eligible for margin accounts.

Diversification. The Shares may help to diversify a portfolio because historically the Index has tended to exhibit low to negative correlation with both equities and conventional bonds and positive correlation to inflation.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Optimum Yield . A portion of the Index utilizes an Optimum Yield methodology, which seeks to minimize the effects of negative roll yield that may be experienced by conventional commodities indexes.

Transparency. The Shares provide a more direct investment in commodities than mutual funds or exchange-traded funds that invest in commodity-linked notes or otherwise gain indirect exposure to commodities, which may have implicit imbedded costs, credit risk and other potentially opaque features.

Investing in the Fund does not insulate Shareholders from certain risks, including price volatility.

The Fund pursues its investment objective by investing in a portfolio of exchange-traded futures on the commodities comprising the Index.

Table of Contents

The Index, which is comprised of one or more underlying commodities, or Index Commodities, is intended to reflect the agricultural sector. The Index Commodities consist of Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs.

If the Managing Owner determines in its commercially reasonable judgment that it has become impracticable or inefficient for any reason for the Fund to gain full or partial exposure to any Index Commodity by investing in a specific futures contract that comprises the Index, the Fund may invest in a futures contract referencing the particular Index Commodity other than the specific contract that comprises the Index or, in the alternative, invest in other futures contracts not based on the particular Index Commodity if, in the commercially reasonable judgment of the Managing Owner, such futures contracts tend to exhibit trading prices that correlate with a futures contract that comprises the Index.

The Index Sponsor calculates the Index on both an excess return basis and a total return basis. The excess return basis calculation reflects the change in market value over time, whether positive or negative, of the applicable underlying commodity futures only. The total return basis calculation reflects the sum of the change in market value over time, whether positive or negative, of the applicable underlying commodity futures plus the return on 3-month U.S. Treasury bills. The Fund seeks to track changes, whether positive or negative, in the level of the Index over time, plus the excess, if any, of the sum of the Fund's Treasury Income, Money Market Income and T-Bill ETF Income, over the expenses of the Fund. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs, as applicable, for margin and/or cash management purposes only. The Shares are designed for investors who want a cost-effective and convenient way to invest in a diversified index of commodity futures.

The Fund will make distributions at the discretion of the Managing Owner. To the extent that the Fund's actual and projected Treasury Income, the Fund's actual and projected Money Market Income and the Fund's actual and projected T-Bill ETF Income exceeds the actual and projected fees and expenses of the Fund, the Managing Owner expects periodically to make distributions of the amount of such excess. The Fund

currently does not expect to make distributions with respect to capital gains. Depending on the Fund's performance for the taxable year and your own tax situation for such year, your income tax liability for the taxable year for your allocable share of the Fund's net ordinary income or loss and capital gain or loss may exceed any distributions you receive with respect to such year.

The Fund also holds United States Treasury Securities for deposit with the Fund's Commodity Broker as margin and United States Treasury Securities, cash and money market mutual funds (affiliated or otherwise) on deposit with the Custodian (for cash management purposes). Additionally, the Fund gains an exposure to United States Treasury Securities, with a maximum remaining maturity of up to 12 months, through its holdings of T-Bill ETFs (affiliated or otherwise). Such holdings of T-Bill ETFs are on deposit with the Custodian (for cash management purposes) and may be held by the Fund's Commodity Broker as margin, to the extent permissible under CFTC rules.

General

Each of the DBIQ Optimum Yield Index Excess Return, or DBIQ-OYER, and the DBIQ Index Excess Return, or DBIQ ER (DBIQ-OYER and DBIQ ER, collectively, DBIQ or DBIQ ER), is intended to reflect the changes in market value, positive or negative, in certain sectors of commodities, or an index. The Index is calculated on an excess return, or unfunded basis. The Index is rolled on both an Optimum Yield™ and non-Optimum Yield™ basis. The Optimum Yield™ rolling methodology is aimed at potentially maximizing the roll benefits in backwardated markets and minimizing the losses from rolling in contangoed markets. The non-Optimum Yield™ portion of the Index is rolled to the next to expire futures contract as provided below under Contract Selection (Non-OY Single Commodity Indexes only). The Index is comprised of one or more underlying commodities, or Index Commodities. Each Index Commodity is assigned a weight, or Index Base Weight, which is intended to reflect the proportion of such Index Commodity relative to the Index.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The Index has been calculated back to a base date, or Base Date. On the Base Date of January 18, 1989, the closing level of the Index, or Closing Level, was 100.

The sponsor of the Index is Deutsche Bank Securities Inc., or Index Sponsor.

Table of Contents

Composition of the Index

The Index is composed of notional amounts of each of the underlying Index Commodities. The notional amount of each Index Commodity included in the Index is intended to reflect the changes in market value of each such Index Commodity within the Index. The Closing Level of the Index is calculated on each Index Business Day (as defined below) by the Index Sponsor based on the closing price of the futures contracts for each of the underlying Index Commodities and the notional amounts of such Index Commodities.

The Index is rebalanced annually in November to ensure that each of the Index Commodities is weighted in the same proportion that such Index Commodities were weighted on the Base Date.

The composition of the Index may be adjusted in the event that the Index Sponsor is not able to calculate the closing prices of the Index Commodities.

The Index includes provisions for the replacement of futures contracts as they approach maturity. This replacement takes place over a period of time in order to lessen the impact on the market for the futures contracts being replaced. With respect to each Index Commodity, the Fund employs a rule-based approach when it rolls from one futures contract to another. The Index is comprised of OY Single Commodity Indexes and non-OY Single Commodity Indexes. The Index Commodities that underlie the OY Single Commodity Indexes are Corn, Soybeans, Wheat, Kansas City Wheat and Sugar. The Index Commodities that underlie the non-OY Single Commodity Indexes are Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs. The OY Single Commodity Indexes are rolled to the futures contract which generates the best possible implied roll yield. The futures contract with a delivery month within the next thirteen months which generates the best possible implied roll yield will be included in each OY Single Commodity Index. As a result, each OY Single Commodity Index is able to potentially maximize the roll benefits in backwarddated markets and minimize the losses from rolling in contangoed markets.

Each of the non-OY Single Commodity Indexes rolls only to the next to expire futures contract as provided below under Contract Selection (Non-OY Single Commodity Indexes only).

In general, as a futures contract approaches its expiration date, its price will move towards the spot price in a contangoed market. Assuming the spot price does not change, this would result in the futures contract price decreasing and a negative implied roll yield. The opposite is true in a backwarddated market. Rolling in a contangoed market will tend to cause a drag on an Index Commodity's contribution to the Fund's return while rolling in a backwarddated market will tend to cause a push on an Index Commodity's contribution to the Fund's return.

The futures contract price for each Index Commodity will be the exchange closing price for such Index Commodity on which the New York Mercantile Exchange (NYMEX) is open for business, or Index Business Days. If a weekday is not an Exchange Business Day (as defined in the following sentence) but is an Index Business Day, the exchange closing price from the previous Index Business Day will be used for each Index Commodity. Exchange Business Day means, in respect of an Index Commodity, a day that is a trading day for such Index Commodity on the relevant exchange (unless either an Index disruption event or force majeure event has occurred).

Contract Selection (OY Single Commodity Indexes only)

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

On the first Index Business Day, or Verification Date, of each month, each Index Commodity futures contract will be tested in order to determine whether to continue including it in the applicable OY Single Commodity Index. If the Index Commodity futures contract requires delivery of the underlying commodity in the next month, known as the Delivery Month, a new Index Commodity futures contract will be selected for inclusion in such OY Single Commodity Index. For example, if the first Index Business Day is May 1 of the current year, and the Delivery Month of the Index Commodity futures contract currently in such OY Single Commodity Index is June of the current year, a new Index Commodity futures contract with a later Delivery Month will be selected.

For each underlying Index Commodity of an OY Single Commodity Index, the new Index Commodity futures contract selected will be the Index Commodity futures contract with the best possible implied roll yield based on the closing price for each eligible Index Commodity futures contract. Eligible Index Commodity futures contracts are any Index Commodity futures

Table of Contents

contracts having a Delivery Month (i) no sooner than the month after the Delivery Month of the Index Commodity futures contract currently in such OY Single Commodity Index, and (ii) no later than the 13th month after the Verification Date. For example, if the first Index Business Day is May 1 of the current year and the Delivery Month of an Index Commodity futures contract currently in an OY Single Commodity Index is therefore June of the current year, the Delivery Month of an eligible new Index Commodity futures contract must be between July of the current year and June of the following year. The implied roll yield is then calculated and the futures contract on the Index Commodity with the best possible implied roll yield is then selected. If two futures contracts have the same implied roll yield, the futures contract with the minimum number of months prior to the Delivery Month is selected.

After selection of the replacement futures contract, each OY Single Commodity Index will roll such replacement futures contract as provided in the sub-paragraph Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes.

[Remainder of page left blank intentionally.]

Table of Contents

Contract Selection (Non-OY Single Commodity Indexes only)

On the first Index Business Day of each month, each non-OY Single Commodity Index will select a new futures contract to replace the old futures contract as provided in the following schedule.

Contract	Exchange (Symbol)	Month											
		Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Cocoa	ICE-US (CC)	H	K	K	N	N	U	U	Z	Z	Z	H	H

April	J
May	K
June	M
July	N
August	Q
September	U
October	V
November	X
December	Z

After selection of the replacement futures contract, each non-OY Single Commodity Index will roll such replacement futures contract as provided in the sub-paragraph Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes.

[Remainder of page left blank intentionally.]

Table of Contents

Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes

After the futures contract selection with respect to both OY Single Commodity Indexes and non-OY Single Commodity Indexes, the monthly roll for each Index Commodity subject to a roll in that particular month unwinds the old futures contract and enters a position in the new futures contract. This takes place between the 2nd and 6th Index Business Day of the month.

On each day during the roll period, new notional holdings are calculated. The calculations for the old Index Commodities that are leaving the Index and the new Index Commodities are then calculated.

On all days that are not monthly index roll days, the notional holdings of each Index Commodity future remains constant.

The Index is re-weighted on an annual basis on the 6th Index Business Day of each November.

The calculation of the Index is expressed as the weighted average return of the Index Commodities.

There can be no assurance that the Fund will achieve its investment objective or avoid substantial losses.

Shares Should Track Closely the Value of its Index

The Shares are intended to provide investment results that generally correspond to changes, positive or negative, in the levels of the Index, over time.

The value of the Shares is expected to fluctuate in relation to changes in the value of its portfolio. The market price of the Shares may not be identical to the NAV per Share, but these two valuations are expected to be very close.

The Fund holds a portfolio of long futures contracts on the Index Commodities which comprise its Index, each of which are traded on various commodity futures markets in the United States and abroad. The Fund also holds United States Treasury Securities for deposit with the Fund's Commodity Broker as margin and United States Treasury Securities, cash and money market mutual funds (affiliated or otherwise) on deposit with

the Custodian (for cash management purposes). Additionally, the Fund gains an exposure to United States Treasury Securities with a maximum remaining maturity of up to 12 months through its holdings of T-Bill ETFs (affiliated or otherwise). Such holdings of T-Bill ETFs are on deposit with the Custodian (for cash management purposes) and may be held by the Fund's Commodity Broker as margin, to the extent permissible under CFTC rules.

The Fund's portfolio is traded with a view to tracking the changes in its Index over time, whether the Index is rising, falling or flat over any particular period. The Fund is not managed by traditional methods, which typically involve effecting changes in the composition of a portfolio on the basis of judgments relating to economic, financial and market considerations with a view to obtaining positive results.

The Managing Owner

Invesco PowerShares Capital Management LLC, a Delaware limited liability company, serves as Managing Owner of the Trust and the Fund. The Managing Owner was formed on February 7, 2003. The Managing Owner is an affiliate of Invesco Ltd. The Managing Owner was formed to be the managing owner of investment vehicles such as exchange-traded funds and has been managing non-commodity futures based exchange-traded funds since 2003 and a commodity futures based exchange-traded fund since 2014. The Managing Owner serves as the commodity pool operator and commodity trading advisor of the Trust and the Fund. The Managing Owner is registered as a commodity pool operator, commodity trading advisor and swap firm with the Commodity Futures Trading Commission, or the CFTC, and is a member of the National Futures Association, or the NFA. As a registered commodity pool operator and commodity trading advisor, with respect to both the Trust and the Fund, the Managing Owner must comply with various regulatory requirements under the Commodity Exchange Act and the rules and regulations of the CFTC and the NFA, including investor protection requirements, antifraud prohibitions, disclosure requirements, and reporting and recordkeeping requirements. The Managing Owner also is subject to periodic inspections and audits by the CFTC and NFA.

An investment in the Shares is speculative and involves a high degree of risk.

Table of Contents

The principal office of the Managing Owner is located at 3500 Lacey Road, Suite 700, Downers Grove, IL 60515. The telephone number of the Managing Owner is (800) 983-0903.

PowerShares® is a registered service mark of Invesco PowerShares Capital Management LLC.

The Fund pays the Managing Owner a Management Fee, monthly in arrears, in an amount equal to 0.85% per annum of the daily NAV of the Fund.

The Management Fee is paid in consideration of the Managing Owner's commodity futures trading advisory services.

The Fund may, for cash management purposes, invest in money market mutual funds and/or T-Bill ETFs that are managed by affiliates of the Managing Owner. The indirect portion of the management fee that the Fund may incur through such investments are in addition to the Management Fee paid to the Managing Owner. The Managing Owner has contractually agreed to waive the fees that it receives in an amount equal to the indirect management fees that the Fund incurs through its investments in affiliated money market mutual funds and/or affiliated T-Bill ETFs through June 20, 2018.

The Commodity Broker

A variety of executing brokers execute futures transactions on behalf of the Fund. Such executing brokers give-up all such transactions to Morgan Stanley & Co. LLC, a Delaware limited liability company, which serves as the Fund's clearing broker, or Commodity Broker. In its capacity as clearing broker, the Commodity Broker executes and clears each of the Fund's futures transactions and performs certain administrative services for the Fund. The Commodity Broker is registered with the CFTC as a futures commission merchant and is a member of the NFA in such capacity.

The Fund pays to the Commodity Broker all brokerage commissions, including applicable exchange fees, NFA fees, give-up fees, pit brokerage fees and other transaction related fees and expenses charged in connection with trading activities. On average, total charges paid to the Commodity Broker are expected to be less than \$7.00 per round-turn trade, although the

Commodity Broker's brokerage commissions and trading fees are determined on a contract-by-contract basis. The Managing Owner estimates the brokerage commissions and fees will be approximately 0.04% of the NAV of the Fund in any year, although the actual amount of brokerage commissions and fees in any year or any part of any year may be greater.

A round-turn trade is a completed transaction involving both a purchase and a liquidating sale, or a sale followed by a covering purchase.

The Administrator, Custodian and Transfer Agent

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The Bank of New York Mellon is the administrator, or the Administrator, of the Fund and has entered into an Administration Agreement in connection therewith. The Bank of New York Mellon serves as custodian, or Custodian, of the Fund and has entered into a Global Custody Agreement, or Custody Agreement, in connection therewith. The Bank of New York Mellon serves as the transfer agent, or Transfer Agent, of the Fund and has entered into a Transfer Agency and Service Agreement in connection therewith.

The Bank of New York Mellon, a banking corporation organized under the laws of the State of New York with trust powers, has an office at 2 Hanson Place, Brooklyn, N.Y. 11217. The Bank of New York Mellon is subject to supervision by the New York State Banking Department and the Board of Governors of the Federal Reserve System. Information regarding the NAV of the Fund, creation and redemption transaction fees and the names of the parties that have executed a Participant Agreement may be obtained from The Bank of New York Mellon by calling the following number: (718) 315-7500. A copy of the Administration Agreement is available for inspection at The Bank of New York Mellon's office identified above.

Pursuant to the Administration Agreement, the Administrator performs or supervises the performance of services necessary for the operation and administration of the Fund (other than making investment decisions), including receiving and processing orders from Authorized Participants to create and redeem Baskets, NAV calculations, accounting and other fund administrative services. The Administrator retains, separately for the Fund, certain financial books and records, including: Basket creation and redemption books and records, Fund accounting records, ledgers

Table of Contents

with respect to assets, liabilities, capital, income and expenses, the registrar, transfer journals and related details and trading and related documents received from futures commission merchants, c/o The Bank of New York Mellon, 2 Hanson Place, Brooklyn, New York 11217, telephone number (718) 315-7500.

The Administration Agreement is continuously in effect unless terminated on at least 90 days' prior written notice by either party to the other party. Notwithstanding the foregoing, the Administrator may terminate the Administration Agreement upon 30 days' prior written notice if the Fund has materially failed to perform its obligations under the Administration Agreement.

The Administration Agreement provides for the exculpation and indemnification of the Administrator from and against any costs, expenses, damages, liabilities or claims (other than those resulting from the Administrator's own bad faith, negligence or willful misconduct) which may be imposed on, incurred by or asserted against the Administrator in performing its obligations or duties under the Administration Agreement. Key terms of the Administration Agreement are summarized under the heading "Material Contracts."

The Administrator's monthly fees are paid on behalf of the Fund by the Managing Owner out of the Management Fee.

The Administrator and any of its affiliates may from time-to-time purchase or sell Shares for their own account, as agent for their customers and for accounts over which they exercise investment discretion.

The Transfer Agent receives a transaction processing fee in connection with orders from Authorized Participants to create or redeem Baskets in the amount of \$500 per order. These transaction processing fees are paid directly by the Authorized Participants and not by the Fund.

The Fund is expected to retain the services of one or more additional service providers to assist with certain tax reporting requirements of the Fund and the Shareholders.

Invesco Distributors, Inc.

Invesco Distributors, Inc., or Invesco Distributors, assists the Managing Owner with certain functions and duties relating to distribution and marketing, including reviewing and approving marketing materials. Invesco Distributors retains all marketing materials at c/o Invesco Distributors, Inc., 11 Greenway Plaza, Suite 1000, Houston, Texas 77046-1173. Investors may contact Invesco Distributors toll-free in the U.S. at (800) 983-0903. The Fund has entered into a Distribution Services Agreement with Invesco Distributors. Invesco Distributors is affiliated with the Managing Owner.

The Managing Owner, out of the Management Fee, pays Invesco Distributors for performing its duties on behalf of the Fund and may pay Invesco Distributors additional compensation in consideration of the performance by Invesco Distributors of additional services. Such additional services may include, among other services, the development and implementation of a marketing plan and the utilization of Invesco Distributors resources, which include an extensive broker database and a network of internal and external wholesalers.

Index Sponsor

The Managing Owner, on behalf of the Fund, has appointed Deutsche Bank Securities Inc. to serve as the index sponsor, or the Index Sponsor. The Index Sponsor calculates and publishes the daily index levels and the indicative intraday index levels. Additionally, the Index Sponsor also calculates the IIV per Share throughout each Business Day.

The Managing Owner pays the Index Sponsor a licensing fee and an index services fee out of the Management Fee for performing its duties.

Marketing Agent

The Managing Owner, on behalf of the Fund, has appointed Deutsche Bank Securities Inc., or the Marketing Agent, to assist the Managing Owner by providing support to educate institutional investors about the Deutsche Bank indices and to complete governmental or institutional due diligence questionnaires or requests for proposals related to the Deutsche Bank indices.

Table of Contents

The Managing Owner pays the Marketing Agent a marketing services fee out of the Management Fee.

The Marketing Agent will not open or maintain customer accounts or handle orders for the Fund. The Marketing Agent has no responsibility for the performance of the Fund or the decisions made or actions taken by the Managing Owner.

800 Number for Investors

Investors may contact the Managing Owner toll free in the U.S. at (800) 983-0903.

Limitation of Liabilities

Your investment in the Fund is part of the assets of the Fund, and it will therefore be subject to the risks of the Fund's trading only. You cannot lose more than your investment in the Fund, and you will not be subject to the losses or liabilities of any other fund of the Trust in which you have not invested. We have received an opinion of counsel that the Fund is entitled to the benefits of the limitation on inter-series liability provided under the Delaware Statutory Trust Act. Each Share, when purchased in accordance with the Fifth Amended and Restated Declaration of Trust and Trust Agreement of the Trust, as amended from time-to-time, or the Trust Declaration, shall, except as otherwise provided by law, be fully-paid and non-assessable.

The debts, liabilities, obligations, claims and expenses of the Fund will be enforceable against the assets of the Fund only, and not against the assets of the Trust generally or the assets of any other fund of the Trust, and, unless otherwise provided in the Trust Declaration, none of the debts, liabilities, obligations and expenses incurred, contracted for or otherwise existing with respect to the Trust generally or any other series thereof will be enforceable against the assets of the Fund, as the case may be.

Creation and Redemption of Shares

The Fund creates and redeems Shares from time-to-time, but only in one or more Baskets. A Basket is a block of 200,000 Shares. Baskets may be created or redeemed only by Authorized Participants. Except when aggregated in Baskets, the Shares are not redeemable securities. Authorized Participants pay a transaction fee of \$500 in connection with each order to create or redeem a Basket. Authorized Participants may sell the

Shares included in the Baskets they purchase from the Fund to other investors.

See [Creation and Redemption of Shares](#) for more details.

The Offering

Unless otherwise agreed to by the Managing Owner and the Authorized Participant as provided in the next sentence, the Fund issues Shares in Baskets to Authorized Participants continuously on the creation order settlement date as of 2:45 p.m., Eastern time, on the business day immediately following the date on which a valid order to create a Basket is accepted by the Fund, at the NAV of 200,000 Shares as of the closing time of the NYSE Arca or the last to close of the exchanges on which the Fund's futures contracts are traded, whichever is later, on the date that a valid order to create a Basket is accepted by the Fund. Upon submission of a creation order, the Authorized Participant may request the Managing Owner to agree to a creation order settlement date up to 3 business days after the creation order date.

Authorized Participants

Baskets may be created or redeemed only by Authorized Participants. Each Authorized Participant must (1) be a registered broker-dealer or other securities market participant such as a bank or other financial institution which is not required to register as a broker-dealer to engage in securities transactions, (2) be a participant in DTC, and (3) have entered into an agreement with the Fund and the Managing Owner, or a Participant Agreement. The Participant Agreement sets forth the procedures for the creation and redemption of Baskets and for the delivery of cash required for such creations or redemptions. A list of the current Authorized Participants can be obtained from the Administrator. See [Creation and Redemption of Shares](#) for more details.

NAV

NAV, in respect of the Fund, means the total assets of the Fund including, but not limited to, all cash and cash equivalents or other debt securities less total liabilities of the Fund, each determined on the basis of generally accepted accounting principles in the United States, consistently applied under the accrual method of accounting.

Table of Contents

NAV per Share is the NAV of the Fund divided by the number of its outstanding Shares.

See Description of the Shares; The Fund; Certain Material Terms of the Trust Declaration-NAV for more details.

Clearance and Settlement

The Shares are evidenced by global certificates that the Fund issues to DTC. The Shares are available only in book-entry form. Shareholders may hold their Shares through DTC, if they are participants in DTC, or indirectly through entities that are participants in DTC.

Segregated Accounts/Treasury Income, Money Market Income and T-Bill ETF Income

The proceeds of the continuous offering of the Shares are deposited in cash in a segregated account in the name of the Fund at the Custodian (or another eligible financial institution, as applicable) in accordance with CFTC investor protection and segregation requirements. The Fund is credited with 100% of the interest earned on its average net assets on deposit with the Custodian or such other financial institution each week. The Managing Owner expects to invest non-margin assets in United States government securities (which include any security issued or guaranteed as to principal or interest by the United States), or any certificate of deposit for any of the foregoing, including United States Treasury bonds, United States Treasury securities and issues of agencies of the United States government, and certain cash and cash equivalent items such as money market mutual funds (affiliated or otherwise), T-Bill ETFs (affiliated or otherwise), certificates of deposit (under nine months) and time deposits or other instruments permitted by applicable rules and regulations for cash management purposes. The Fund is expected to earn Treasury Income equal to 0.49% per annum, based upon the yield of 3-month United States Treasury Securities as of January 31, 2017, or a maximum of \$0.12 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn Money Market Income equal to 0.45% per annum as of January 31, 2017, or a maximum of \$0.11 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn T-Bill ETF Income equal to 0.56% per annum as of January 31, 2017, or a maximum of \$0.14 per annum per Share at \$25.00 as the NAV per Share. Because the Fund invests

a portion of its assets in Treasury Securities, the money market mutual funds and T-Bill ETFs, its expected income from each of its holdings will be approximately \$0.09, \$0.01 and \$0.03, respectively, for an aggregate amount of approximately \$0.13 per Share at \$25.00 as the NAV per Share. This income is used by the Fund to pay its expenses. See Fees and Expenses on page 14 for more details.

[Remainder of page left blank intentionally.]

Table of Contents**Fees and Expenses**

Management Fee	The Fund pays the Managing Owner a Management Fee, monthly in arrears, in an amount equal to 0.85% per annum of its daily NAV. The Management Fee is paid in consideration of the Managing Owner's commodity futures trading advisory services.
Organization and Offering Expenses	The Fund may, for cash management purposes, invest in money market mutual funds and/or T-Bill ETFs that are managed by affiliates of the Managing Owner. The indirect portion of the management fee that the Fund may incur through such investments are in addition to the Management Fee paid to the Managing Owner. The Managing Owner has contractually agreed to waive the fees that it receives in an amount equal to the indirect management fees that the Fund incurs through its investments in affiliated money market mutual funds and/or affiliated T-Bill ETFs through June 20, 2018. Expenses incurred in connection with organizing the Fund and the initial offering of the Shares were paid by the Predecessor Managing Owner. Expenses incurred in connection with the continuous offering of Shares from commencement of the Fund's trading operations up to and excluding February 23, 2015 were also paid by the Predecessor Managing Owner. Expenses incurred in connection with the continuous offering of Shares on and after February 23, 2015 are paid by the Managing Owner.
Brokerage Commissions and Fees	The Fund pays to the Commodity Broker all brokerage commissions, including applicable exchange fees, NFA fees, give-up fees, pit brokerage fees and other transaction related fees and expenses charged in connection with its trading activities. On average, total charges paid to the Commodity Broker are expected to be less than \$7.00 per round-turn trade, although the Commodity Broker's brokerage commissions and trading fees are determined on a contract-by-contract basis. The Managing Owner estimates the brokerage commissions and fees will be approximately 0.04% of the NAV of the Fund in any year, although the actual amount of brokerage commissions and fees in any year or any part of any year may be greater.
Routine Operational, Administrative and Other Ordinary Expenses	The Managing Owner pays all of the routine operational, administrative and other ordinary expenses of the Fund, including, but not limited to, computer services, the fees and expenses of the Trustee, license and service fees paid to Deutsche Bank Securities Inc., or DBSI, as Marketing Agent and Index Sponsor, legal and accounting fees and expenses, tax preparation expenses, filing fees, and printing, mailing and duplication costs.
Non-Recurring Fees and Expenses	The Fund pays all of the non-recurring and unusual fees and expenses (referred to as extraordinary fees and expenses in the Trust Declaration), if any, of itself. Non-recurring and unusual fees and expenses are fees and expenses which are non-recurring and unusual in nature, such as legal claims and liabilities, litigation costs or indemnification or other unanticipated expenses. Such non-recurring and unusual fees and expenses, by their nature, are unpredictable in terms of timing and amount.
Management Fee and Expenses to be Paid First out of Treasury Income, Money Market Income and/or T-Bill ETF Income	The Management Fee and the brokerage commissions and fees of the Fund are paid first out of Treasury Income from the Fund's holdings of United States Treasury Securities, Money Market Income from the Fund's holdings of money market mutual funds (affiliated or otherwise) and T-Bill ETF Income from the Fund's holdings of T-Bill ETFs (affiliated or otherwise), as applicable, on deposit with the Commodity Broker as margin, the Custodian, or otherwise. If the sum of the Treasury Income, the Money Market Income and the T-Bill ETF Income is not sufficient to cover the fees and expenses of the Fund during any period, the excess of such fees and expenses over such Treasury Income, Money Market Income and T-Bill ETF Income, as applicable, will be paid out of income from futures trading, if any, or from sales of the Fund's United States Treasury Securities and/or holdings in money market mutual funds and/or holdings in T-Bill ETFs. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs, as applicable, for margin and/or cash management purposes only.
Selling Commission	Retail investors may purchase and sell Shares through traditional brokerage accounts. Investors are expected to be charged a customary commission by their brokers in connection with purchases of Shares that will vary from investor to investor. Investors are encouraged to review the terms of their brokerage accounts for applicable charges.

Table of Contents

Breakeven Amounts

The estimated amount of all fees and expenses which are anticipated to be incurred by a new investor in Shares during the first twelve months of investment is 0.89% per annum of the NAV of the Fund, plus the amount of any commissions charged by the investor's broker.

The Fund will be successful only if its annual returns from futures trading, plus its annual Treasury Income, Money Market Income and T-Bill ETF Income exceed such fees and expenses of approximately 0.89% per annum. The Fund is expected to earn Treasury Income equal to 0.49% per annum, based upon the yield of 3-month United States Treasury Securities as of January 31, 2017, or a maximum of \$0.12 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn Money Market Income equal to 0.45% per annum as of January 31, 2017, or a maximum of \$0.11 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn T-Bill ETF Income equal to 0.56% per annum as of January 31, 2017, or a maximum of \$0.14 per annum per Share at \$25.00 as the NAV per Share. Because the Fund invests a portion of its assets in Treasury Securities, the money market mutual funds and T-Bill ETFs, its expected income from each of its holdings will be approximately \$0.09, \$0.01 and \$0.03, respectively, for an aggregate amount of approximately \$0.13 per Share at \$25.00 as the NAV per Share. Therefore, based upon the difference between the sum of the Treasury Income plus the Money Market Income plus the T-Bill ETF Income, on the one hand, and the annual fees and expenses, on the other hand, the Fund will be required to earn approximately 0.39% per annum, or \$0.10 per annum per Share at \$25.00 as the NAV per Share, in order for an investor to break-even on an investment during the first twelve months of an investment. Actual Treasury Income, Money Market Income and T-Bill ETF Income could be higher or lower than the current levels. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only.

Distributions

The Fund will make distributions at the discretion of the Managing Owner. To the extent that the Fund's actual and projected Treasury Income, the Fund's actual

and projected Money Market Income and the Fund's actual and projected T-Bill ETF Income, as applicable, exceeds the actual and projected fees and expenses of the Fund, the Managing Owner expects periodically to make distributions of the amount of such excess. The Managing Owner currently does not expect to make distributions with respect to the Fund's capital gains. Depending on the Fund's performance for the taxable year and your own tax situation for such year, your income tax liability for the taxable year for your allocable share of the Fund's net ordinary income or loss and capital gain or loss may exceed any distributions you receive with respect to such year.

Fiscal Year

The fiscal year of the Fund ends on December 31 of each year.

U.S. Federal Income Tax Considerations

Subject to the discussion below in Material U.S. Federal Income Tax Considerations, the Fund will be classified as a partnership for U.S. federal income tax purposes. Accordingly, the Fund will generally not incur U.S. federal income tax liability; rather, each beneficial owner of Shares will be required to take into account its allocable share of the Fund's income, gain, loss, deduction and other items for the Fund's taxable year

ending with or within the owner's taxable year.

Additionally, please refer to the Material U.S. Federal Income Tax Considerations section below for information on the potential U.S. federal income tax consequences of the purchase, ownership and disposition of Shares.

Breakeven Table

The Breakeven Table on the following page indicates the approximate percentage and dollar returns required for the value of an initial \$25.00 investment in a Share to equal the amount originally invested twelve months after issuance.

The Breakeven Table, as presented, is an approximation only. The capitalization of the Fund does not directly affect the level of its charges as a percentage of its NAV, other than brokerage commissions.

[Remainder of page left blank intentionally.]

Table of Contents**BREAKEVEN TABLE**

Expense ¹	Dollar Amount and Percentage of Expenses For the Fund DBA ⁹	
	\$	%
Management Fee ²	\$ 0.21	0.85%
Organization and Offering Expense Reimbursement ³	\$ 0.00	0.00%
Brokerage Commissions and Fees ⁴	\$ 0.01	0.04%
Routine Operational, Administrative and Other Ordinary Expenses ^{5,6}	\$ 0.00	0.00%
Treasury Income, Money Market Income and T-Bill ETF Income. ⁷	\$ (0.13)	(0.50)%
12-Month Breakeven ⁸	\$ 0.10	0.39%

1. The breakeven analysis assumes that the Shares have a constant month-end Fund NAV and is based on \$25.00 as the NAV per Share. As a historical matter, the initial offering price of the Shares was \$25 per Share. Since the inception of the Fund, the Managing Owner has consistently used an assumed NAV per Share of \$25 as a matter of ongoing practice for purposes of the break-even analysis in order to enable investors and potential investors to compare on a consistent basis the break-even point of this Fund with the other futures-based ETFs for which the Managing Owner serves as the commodity pool operator. The Managing Owner, in its discretion, may change the assumed NAV per Share in the future. See Charges on page 68 for an explanation of the expenses included in the Breakeven Table. The Managing Owner will pay a marketing services fee to the Marketing Agent and an index services fee to the Index Sponsor. Because the marketing services fee and the index services fee are not paid by the Fund, these fees are not included in the breakeven analysis.

2. From the Management Fee, the Managing Owner is responsible for paying the fees and expenses of the Administrator, Invesco Distributors, the Index Sponsor and the Marketing Agent.

The Fund may, for cash management purposes, invest in money market mutual funds and/or T-Bill ETFs that are managed by affiliates of the Managing Owner. The indirect portion of the management fee that the Fund may incur through such investments are in addition to the Management Fee paid to the Managing Owner. The Managing Owner has contractually agreed to waive the fees that it receives in an amount equal to the indirect management fees that the Fund incurs through its investments in affiliated money market mutual funds and/or affiliated T-Bill ETFs through June 20, 2018, or the Affiliated Management Fee Waiver.

As of the date of this prospectus, the Affiliated Management Fee Waiver is approximately less than \$0.01 per Share per annum.

3. The Predecessor Managing Owner was responsible for paying the organization and offering expenses up to and excluding February 23, 2015. The Managing Owner is responsible for paying the continuous offering costs of the Fund from and including February 23, 2015.

4. The actual amount of brokerage commissions and trading fees to be incurred will vary based upon the trading frequency of the Fund and the specific futures contracts traded.

5. The Managing Owner is responsible for paying all routine operational, administrative and other ordinary expenses of the Fund.

6. In connection with orders to create and redeem Baskets, Authorized Participants pay a transaction fee in the amount of \$500 per order. Because these transaction fees are de minimis in amount, are charged on a transaction-by-transaction basis (and not on a Basket-by-Basket basis), and are borne by the Authorized Participants, they have not been included in the Breakeven Table.

Table of Contents

7. Interest income currently is estimated to be earned at a rate of 0.49%, based upon the yield on 3-month United States Treasury Securities as of January 31, 2017, or the Treasury Income. Dividend income currently is estimated to be earned at a rate of 0.45% from the Fund's holdings of money market mutual funds (affiliated or otherwise) as of January 31, 2017, or the Money Market Income. Dividend income currently is estimated to be earned at a rate of 0.56% from the Fund's holdings of T-Bill ETFs (affiliated or otherwise) as of January 31, 2017, or the T-Bill ETF Income. Actual Treasury Income, Money Market Income and T-Bill ETF Income, as applicable, could be higher or lower than the current levels. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only.

8. You may pay customary brokerage commissions in connection with purchases of the Shares. Because such brokerage commission rates are set by your broker, they will vary from investor to investor and have not been included in the Breakeven Table. Investors are encouraged to review the terms of their brokerage accounts for applicable charges.

9. The Fund is subject to (i) a Management Fee of 0.85% per annum and (ii) estimated brokerage commissions and fees of 0.04% per annum. The Fund is subject to fees and expenses in the aggregate amount of approximately 0.89% per annum. The Fund will be successful only if its annual returns from the underlying futures contracts, including annual Treasury Income, Money Market Income and T-Bill ETF Income exceed approximately 0.89% per annum. The Fund is expected to earn Treasury Income equal to 0.49% per annum, based upon the yield of 3-month United States Treasury Securities as of January 31, 2017, or a maximum of \$0.12 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn Money Market Income equal to 0.45% per annum as of January 31, 2017, or a maximum of \$0.11 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn T-Bill ETF Income equal to 0.56% per annum as of January 31, 2017, or a maximum of \$0.14 per annum per Share at \$25.00 as the NAV per Share. Because the Fund invests a portion of its assets in Treasury Securities, the money market mutual funds and T-Bill ETFs, its expected income from each of its holdings will be approximately \$0.09, \$0.01 and \$0.03, respectively, for an aggregate amount of approximately \$0.13 per Share at \$25.00 as the NAV per Share. Therefore, based upon the difference between the sum of the Treasury Income plus the Money Market Income plus the T-Bill ETF Income, on the one hand, and the annual fees and expenses, on the other hand, the Fund will be required to earn approximately 0.39% per annum, or \$0.10 per annum per Share at \$25.00 as the NAV per Share, in order for an investor to break-even on an investment during the first twelve months of an investment. The 12-Month Breakeven disclosed above is rounded to the nearest cent. Actual Treasury Income, Money Market Income and T-Bill ETF Income, as applicable, could be higher or lower than the current levels. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only.

Incorporation by Reference of Certain Documents

The Securities and Exchange Commission, or the SEC, allows us to incorporate by reference into this Prospectus the information that we file with it, meaning we can disclose important information to you by referring you to those documents already on file with the SEC.

The information we incorporate by reference is an important part of this Prospectus, and later information that we file with the SEC will automatically update and supersede some of this information. We incorporate by reference the documents listed below, and any future filings we make with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, or the Exchange Act, including those filed prior to the effectiveness of the Registration Statement containing this Prospectus.

This filing incorporates by reference the following documents, which we have previously filed and may subsequently file with the SEC, in response to certain disclosures:

The Annual Report on Form 10-K for the fiscal year ended December 31, 2015, filed on February 29, 2016;

The Quarterly Reports on Form 10-Q for the quarterly periods ended on March 31, 2016, June 30, 2016 and September 30, 2016, filed May 10, 2016, August 9, 2016 and November 8, 2016, respectively;

The Quarterly Reports on behalf of the Trust on Form 10-Q for the quarterly periods ended on March 31, 2016 and June 30, 2016, filed November 21, 2016;

The Current Reports on Form 8-K, filed April 22, 2016 and June 20, 2016;

All other reports filed pursuant to Section 13(a) or 15(d) of the Exchange Act since December 31, 2015, except for information furnished under Form 8-K, which is not deemed filed and not incorporated herein by reference;
Any documents filed pursuant to the Exchange Act subsequent to the date of this Registration Statement and prior to its effectiveness shall be deemed incorporated by reference into the Prospectus; and

Any documents filed under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act subsequent to the date of this Prospectus and prior to the termination of the offering made under this Prospectus.

Any statement contained in a document that is incorporated by reference will be modified or superseded for all purposes to the extent that a statement contained in this Prospectus (or in any other document that is subsequently filed with the SEC and incorporated by reference) modifies or is contrary to that previous statement. Any statement so modified or superseded will not be deemed a part of this Prospectus except as so modified or superseded.

We will provide to you a copy of the filings that have been incorporated by reference in this Prospectus upon your request, at no cost. Any request may be made by writing or calling us at the following address or telephone number:

The information and other content contained on or linked from our website is not incorporated by reference in this Prospectus and should not be considered a part of this Prospectus.

We file annual, quarterly, current reports and other information with the SEC. You may read and copy these materials at the SEC's Public Reference Room at 100 F Street, N.E., Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet site at <http://www.sec.gov> that contains reports, proxy and information statements and other information regarding the Fund.

Table of Contents

Reports to Shareholders

The Managing Owner will furnish you with an annual report of the Fund within 90 calendar days after the end of the Fund's fiscal year as required by the rules and regulations of the CFTC, including, but not limited to, an annual audited financial statement certified by independent registered public accountants and any other reports required by any other governmental authority that has jurisdiction over the activities of the Fund. You also will be provided with appropriate information to permit you to file your U.S. federal and state income tax returns (on a timely basis) with respect to your Shares. Monthly account statements conforming to CFTC and NFA requirements are posted on the Managing Owner's website at <http://www.invescopowershares.com>. Additional reports may be posted on the Managing Owner's website in the discretion of the Managing Owner or as required by regulatory authorities.

Cautionary Note Regarding Forward-Looking Statements

This Prospectus includes forward-looking statements that reflect the Managing Owner's current expectations about the future results, performance, prospects and opportunities of the Fund. The Managing Owner has tried to identify these forward-looking statements by using words such as may, will, expect, anticipate, believe, intend, should, estimate or the negative of those terms or similar expressions. The forward-looking statements are based on information currently available to the Managing Owner and are subject to a number of risks, uncertainties and other factors, both known, such as those described in Risk Factors in this Summary, in The Risks You Face and elsewhere in this Prospectus, and unknown, that could cause the actual results, performance, prospects or opportunities of the Fund to differ materially from those expressed in, or implied by, these forward-looking statements.

You should not place undue reliance on any forward-looking statements. Except as expressly required by the federal securities laws, the Managing Owner undertakes no obligation to publicly update or revise any forward-looking statements or the risks, uncertainties or other factors described in this Prospectus, as a result of new information, future events or changed circumstances or for any other reason after the date of this Prospectus.

THE SHARES ARE SPECULATIVE AND INVOLVE A HIGH DEGREE OF RISK.

Table of Contents

THE RISKS YOU FACE

You could lose money investing in the Shares. You should consider carefully the risks described below before making an investment decision. You should also refer to the other information included in this Prospectus.

- (1) ***The Value of the Shares Relates Directly to the Value of the Futures Contracts and Other Assets Held by the Fund and Fluctuations in the Price of These Assets Could Materially Adversely Affect an Investment in the Shares.***

The Shares are designed to reflect as closely as possible the changes, positive or negative, in the level of its Index, over time, through its portfolio of exchange traded futures contracts on its Index Commodities. The value of the Shares relates directly to the value of its portfolio, less the liabilities (including estimated accrued but unpaid expenses) of the Fund. The price of the Index Commodities may fluctuate widely. Several factors may affect the prices of the Index Commodities, including, but not limited to:

Global supply and demand of each of the Index Commodities, which may be influenced by such factors as forward selling by the various commodities producers, purchases made by the commodities producers to unwind their hedge positions and production and cost levels in the major markets of each of the Index Commodities;

Domestic and foreign interest rates and investors' expectations concerning interest rates;

Domestic and foreign inflation rates and investors' expectations concerning inflation rates;

Investment and trading activities of mutual funds, hedge funds and commodity funds; and

Global or regional political, economic or financial events and situations.

- (2) ***NAV May Not Always Correspond to Market Price and, as a Result, Baskets May be Created or Redeemed at a Value that Differs from the Market Price of the Shares.***

The NAV per Shares will change as fluctuations occur in the market value of its portfolio. Investors should be aware that the public trading price of a Basket may be different from the NAV of a Basket (i.e., 200,000 Shares may trade at a premium over, or a discount to, NAV of a Basket) and similarly the public trading price per Share may be different from the NAV per Share. Consequently, an Authorized Participant may be able to create or redeem a Basket at a discount or a premium to the public trading price per Share. This price difference may be due, in large part, to the fact that supply and demand forces at work in the secondary trading market for Shares are closely related, but not identical, to the same forces influencing the prices of the Index Commodities, trading individually or in the aggregate at any point in time. Investors also should note that the size of the Fund in terms of total assets held may change substantially over time and from time-to-time as Baskets are created and redeemed.

Authorized Participants or their clients or customers may have an opportunity to realize a profit if they can purchase a Basket at a discount to the public trading price of the Shares or can redeem a Basket at a premium over the public trading price of such Shares. The Managing Owner expects that the exploitation of such arbitrage opportunities by Authorized Participants and their clients and customers will tend to cause the public trading price to track NAV per Share closely over time.

The value of a Share may be influenced by non-concurrent trading hours between the NYSE Arca and the various futures exchanges on which the Index Commodities are traded. While the Shares trade on the NYSE Arca from 9:30 a.m. to 4:00 p.m. Eastern Standard Time, the trading hours for the futures exchanges on which each of the Index Commodities trade may not necessarily coincide during all of this time. For example, while the Shares trade on the NYSE Arca until 4:00 p.m. Eastern Standard Time, liquidity in the global corn market will be reduced after the close of the CBOT at 2:15 p.m. Eastern Standard Time. As a result, during periods when the NYSE Arca is open and the futures exchanges on which the Index Commodities are traded are closed, trading spreads and the resulting premium or discount on the Shares may widen and, therefore, increase the difference between the price of the Shares and the NAV of such Shares.

Table of Contents**(3) *Regulatory and Exchange Position Limits and Other Rules May Restrict the Creation of Baskets and the Operation of the Fund.***

CFTC and commodity exchange rules impose speculative position limits on market participants, including the Fund, trading in certain commodities. These position limits prohibit any person from holding a position of more than a specific number of such futures contracts.

In the aggregate, the Index is composed of 11 Index Commodities, which are all subject to speculative position limits imposed by the CFTC and/or the rules of the futures exchanges on which the futures contracts for the applicable Index Commodities are traded. The purposes of speculative position limits are to diminish, eliminate or prevent sudden or unreasonable fluctuations or unwarranted changes in the prices of futures contracts. Currently, speculative position limits (i) for corn, oats, wheat, soybean, soybean oil and cotton are determined by the CFTC and (ii) for all other commodities are determined by the futures exchanges. On November 5, 2013, the CFTC proposed for public comment new position limits and aggregation regulations, both of which are currently pending and have not yet been adopted. In addition, the CFTC proposed regulations that would expand the available exemptions from the aggregation requirements that apply to accounts of related parties. In December 2016, the CFTC re-proposed the rules on position limits with respect to 25 physical delivery commodity futures and options contracts, as well as to swaps that are economically equivalent to such contracts (the Position Limit Rules). The re-proposed position limits would apply with respect to contracts traded on all U.S. and certain foreign exchanges on an aggregate basis. In addition, under Position Limit Rules the CFTC also proposed amendments to the requirement of U.S. futures exchanges to establish corresponding speculative position limits. The re-proposed Position Limit Rules are based on the position limit rules previously proposed in 2013 by the CFTC. In December 2016, the CFTC also adopted final regulations requiring that all accounts owned or managed by an entity that is responsible for such accounts' trading decisions, their principals and their affiliates would be aggregated for position limit purposes (the Aggregation Rules). The re-proposed Position Limit Rules were published in the Federal Register on December 30, 2016, and the final Aggregation Rules were published in the Federal Register on

December 16, 2016 and became effective on February 14, 2017.

The CFTC's Aggregation Rules require that a trader aggregate all positions in accounts which the trader owns or over which the trader controls trading. However, a trader is not required to aggregate positions in multiple accounts or commodity pools if that trader (or its applicable divisions/subsidiaries) qualifies as an independent account controller under the Aggregation Rules and avails itself of the independent account controller exemption under the Aggregation Rules. Failure to comply with the requirements of the independent account controller exemption, if applicable, could lead to the Managing Owner being required to aggregate positions in multiple accounts or commodity pools for purposes of the CFTC's position limits regulations, or an enforcement proceeding against the Managing Owner, and could adversely affect the Fund.

Generally, speculative position limits in the physical delivery markets are set at a stricter level during the spot month, the month when the futures contract matures and becomes deliverable, versus the limits set for all other months. If the Managing Owner determines that the Fund's trading may be approaching any of these speculative position limits, the Fund may reduce its trading in that commodity or trade in other commodities or instruments that the Index Sponsor determines comply with the rules and goals of the Index. Below is a chart that sets forth certain relevant information, including current speculative position limits for each Affected Index Commodity that any person may hold, separately or in combination, net long or net short, for the purchase or sale of any commodity futures contract or, on a futures-equivalent basis, options thereon. Speculative position limit levels remain subject to change by the CFTC or the relevant exchanges. Depending on the outcome of any future CFTC or futures exchange rulemaking, as applicable, the rules concerning position limits may be amended in a manner that is detrimental to the Fund.

Exchanges may also establish accountability levels applicable to futures contracts. An exchange may order a person who holds or controls aggregate positions in excess of specified position accountability levels not to further increase the positions, to comply with any prospective limit which exceeds the size of the position owned or controlled, or to reduce any open position which exceeds position accountability levels if the exchange determines that such action is necessary to maintain

Table of Contents

an orderly market. Under current regulations, subject to any relevant exemptions, traders, such as the Fund, may not exceed speculative position limits, either individually or in the aggregate with other persons with whom they are under common control or ownership.

Under the proposed regulations, the CFTC would require certain persons to aggregate exchange listed futures and economically equivalent swap positions owned or controlled by such persons.

		4,575	Single Month

¹ **Legend:**

CBOT means the Board of Trade of the City of Chicago Inc., a part of the CME Group, or its successor.

ICE-US means ICE Futures U.S., Inc., or its successor.

KCB means the Board of Trade of Kansas City, Missouri, a part of the CME Group, or its successor.

CME means the Chicago Mercantile Exchange, Inc., or its successor.

² Subject to any additional limitations on an exchange-by-exchange basis, as applicable.

Because the Fund is currently subject to position limits and may be subject to new and expanded position limits, the Fund's ability to issue new Baskets, or the Fund's ability to reinvest income in additional futures contracts corresponding to the Affected Index Commodities, may be impaired or limited to the extent these activities would cause the Fund to exceed its applicable position limits. Limiting the size of the Fund to stay within these position limits may affect the

correlation between the price of the Shares, as traded on the NYSE Arca, and the NAV of the Shares. Additionally, the Fund on any given date may not have an effective registration statement with the SEC with sufficient Shares available which may limit the Fund's ability to create new Baskets. The inability to create additional Baskets could result in Shares trading at a premium or discount to NAV of the Fund.

Table of Contents**(4) *The Fund's Performance May Not Always Replicate Exactly the Changes in the Level of its Index.***

It is possible that the Fund's performance may not fully replicate the changes in levels of the Index due to disruptions in the markets for the relevant Index Commodities, the imposition of speculative position limits (as discussed in "The Risks You Face" (3) Regulatory and Exchange Position Limits and Other Rules May Restrict the Creation of Baskets and the Operation of the Fund), or due to other extraordinary circumstances. As the Fund approaches or reaches position limits with respect to certain futures contracts comprising the Index, the Fund may commence investing in other futures contracts based on commodities that comprise the Index and in futures contracts based on commodities other than commodities that comprise the Index that, in the commercially reasonable judgment of the Managing Owner, tend to exhibit trading prices that correlate with a futures contract that comprises the Index. In addition, the Fund is not able to replicate exactly the changes in levels of the Index because the total return generated by the Fund is reduced by expenses and transaction costs, including those incurred in connection with the Fund's trading activities, and increased by, as applicable, Treasury Income, Money Market Income and T-Bill ETF Income, held for margin and cash management purposes. Tracking the Index requires trading of the Fund's portfolio with a view to tracking the Index over time and is dependent upon the skills of the Managing Owner and its trading principals, among other factors.

(5) *The Fund Is Not Actively Managed and Tracks its Index During Periods in Which the Index Is Flat or Declining as Well as When the Index Is Rising.*

The Fund is not actively managed by traditional methods. Therefore, if positions in any one or more of its Index Commodities are declining in value, the Fund will not close out such positions, except in connection with a change in the composition or weighting of the Index. The Managing Owner seeks to cause the NAV of the Fund to track the Index during periods in which the Index is flat or declining as well as when the Index is rising.

(6) *The NYSE Arca May Halt Trading in the Shares Which Would Adversely Impact Your Ability to Sell Shares.*

The Shares are listed for trading on the NYSE Arca under the market symbol DBA. Trading in

Shares may be halted due to market conditions or, in light of NYSE Arca rules and procedures, for reasons that, in the view of the NYSE Arca, make trading in Shares inadvisable. In addition, trading is subject to trading halts caused by extraordinary market volatility pursuant to "circuit breaker" rules that require trading to be halted for a specified period based on a specified market decline. There can be no assurance that the requirements necessary to maintain the listing of the Shares will continue to be met or will remain unchanged. The Fund will be terminated if the Shares are delisted.

(7) *The Lack of Active Trading Markets for the Shares May Result in Losses on Your Investment at the Time of Disposition of Your Shares.*

Although the Shares are listed and traded on the NYSE Arca, there can be no guarantee that an active trading market for the Shares will be maintained. If you need to sell your Shares at a time when no active market for them exists, the price you receive for your Shares, assuming that you are able to sell them, likely will be lower than the price you would receive if an active market did exist.

(8) *The Shares Could Decrease in Value if Unanticipated Operational or Trading Problems Arise.*

The mechanisms and procedures governing the creation, redemption and offering of the Shares have been developed specifically for this securities product. Consequently, there may be unanticipated problems or issues with respect to the mechanics of the operations of the Fund and

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

the trading of the Shares that could have a material adverse effect on an investment in the Shares. In addition, although the Fund is not actively managed by traditional methods, to the extent that unanticipated operational or trading problems or issues arise, the Managing Owner's past experience and qualifications may not be suitable for solving these problems or issues.

- (9) *As the Managing Owner and its Principals have a Limited History of Operating an Exchange-Traded Fund that Invests in a Broad Range of Commodity Futures Contracts, their Experience May be Relatively Inadequate or Unsuitable to Manage the Fund.*

The Managing Owner manages a number of exchange-traded funds that use financial futures as part of their investment strategy and, only for a

Table of Contents

limited time, has actively managed an exchange-traded fund related to a broad-based futures index. The past performance of these funds is no indication of the Managing Owner's ability to manage exchange-traded investment vehicles that track a commodities index such as the Fund. There can be no assurance that the Managing Owner will be able to cause the NAV per Share to closely track the changes in the Index levels. If the experience of the Managing Owner and its principals is not relatively adequate or suitable to manage investment vehicles such as the Fund, the operations of the Fund may be adversely affected.

(10) You May Not Rely on Past Performance or Index Results in Deciding Whether to Buy Shares.

Although past performance is not necessarily indicative of future results, the Fund's performance history might (or might not) provide you with more information on which to evaluate an investment in the Fund. Likewise, the Index has a history which might (or might not) be indicative of the future Index results, or of the future performance of the Fund. Therefore, you will have to make your decision to invest in the Fund without relying on the Fund's past performance history or the Index's closing level history.

(11) Fewer Representative Commodities May Result In Greater Index Volatility.

The Index is concentrated in terms of the number of commodities represented. The Fund is concentrated in approximately 11 commodities. You should be aware that other commodities indexes are more diversified in terms of both the number and variety of commodities included. Concentration in fewer commodities may result in a greater degree of volatility in the Index and the NAV of the Fund which tracks the Index under specific market conditions and over time.

(12) Price Volatility May Possibly Cause the Total Loss of Your Investment.

Futures contracts have a high degree of price variability and are subject to occasional rapid and substantial changes. Consequently, you could lose all or substantially all of your investment in the Fund.

(13) Unusually Long Peak-to-Valley Drawdown Periods With Respect To the Index May Be Reflected in Equally Long Peak-to-Valley Drawdown Periods with Respect to the Performance of the Shares.

Although past Index levels are not necessarily indicative of future Index levels, the peak-to-valley drawdown periods that the Index has experienced have been unusually long and have lasted for multi-year drawdown periods. Please see the chart on page 36 for information regarding worst peak-to-valley drawdown periods with respect to the Index.

Because it is expected that the Fund's performance will track the change of its underlying Index, the Fund would suffer a continuous drawdown during the period that the Index suffers such a drawdown period, and in turn, the value of your Shares will also suffer.

(14) Fees and Commissions are Charged Regardless of Profitability and May Result in Depletion of Assets.

The Fund is directly subject to the fees and expenses described herein which are payable irrespective of profitability. Such fees and expenses include asset-based fees of 0.85% per annum. Additional charges include brokerage fees of approximately 0.04% per annum in the aggregate and selling commissions. For the avoidance of doubt, selling commissions are not included in the Fund's breakeven calculation. The Fund is expected to earn Treasury Income equal to 0.49% per annum, based upon the yield of 3-month United States Treasury Securities as of

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

January 31, 2017, or a maximum of \$0.12 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn Money Market Income equal to 0.45% per annum as of January 31, 2017, or a maximum of \$0.11 per annum per Share at \$25.00 as the NAV per Share. The Fund is also expected to earn T-Bill ETF Income equal to 0.56% per annum as of January 31, 2017, or a maximum of \$0.14 per annum per Share at \$25.00 as the NAV per Share. Because the sum of the Fund's current Treasury Income and/or Money Market Income and/or T-Bill ETF Income does not exceed its fees and expenses, the Fund will need to have a positive performance that exceeds the difference between the sum of the Fund's Treasury Income, and/or Money Market Income and/or T-Bill ETF Income and its fees and expenses in order to break-even. If the aggregate of the Fund's performance from its holding of futures contracts plus its Treasury

Table of Contents

Income and/or Money Market Income and/or T-Bill ETF Income (earned from its margin and cash management function) do not exceed the Fund's fees and expenses described herein, then, the expenses of the Fund could, over time, result in losses to your investment therein. You may never achieve profits, significant or otherwise.

(15) *You Cannot Be Assured of the Managing Owner's Continued Services, Which Discontinuance May Be Detrimental to the Fund.*

You cannot be assured that the Managing Owner will be willing or able to continue to service the Fund for any length of time. If the Managing Owner discontinues its activities on behalf of the Fund, the Fund may be adversely affected.

(16) *Possible Illiquid Markets May Exacerbate Losses.*

Futures positions cannot always be liquidated at the desired price. It is difficult to execute a trade at a specific price when there is a relatively small volume of buy and sell orders in a market. A market disruption, such as when foreign governments may take or be subject to political actions which disrupt the markets in their currency or major exports, can also make it difficult to liquidate a position.

There can be no assurance that market illiquidity will not cause losses for the Fund. The large size of the positions which the Fund may acquire increases the risk of illiquidity by both making its positions more difficult to liquidate and increasing the losses incurred while trying to do so.

(17) *You May Be Adversely Affected by Redemption Orders that Are Subject To Postponement, Suspension or Rejection Under Certain Circumstances.*

The Fund may, in its discretion, suspend the right of redemption or postpone the redemption settlement date, for (1) any period during which an emergency exists as a result of which the redemption distribution is not reasonably practicable, or (2) such other period as the Managing Owner determines to be necessary for the protection of the Shareholders. In addition, the Fund will reject a redemption order if the order is not in proper form as described in the Participant Agreement or if the fulfillment of the order, in the opinion of its counsel, might be unlawful. Any such postponement, suspension or rejection could adversely affect a redeeming Authorized Participant. For example, the resulting

delay may adversely affect the value of the Authorized Participant's redemption proceeds if the NAV of the Fund declines during the period of delay. The Fund disclaims any liability for any loss or damage that may result from any such suspension or postponement.

(18) *Because the Futures Contracts Have No Intrinsic Value, the Positive Performance of Your Investment Is Wholly Dependent Upon an Equal and Offsetting Loss.*

Futures trading is a risk transfer economic activity. For every gain there is an equal and offsetting loss rather than an opportunity to participate over time in general economic growth. Unlike most alternative investments, an investment in the Shares does not involve acquiring any asset with intrinsic value. Overall stock and bond prices could rise significantly and the economy as a whole prosper while the Shares trade unprofitably.

(19)

Failure of Commodity Futures Markets to Exhibit Low to Negative Correlation to General Financial Markets Will Reduce Benefits of Diversification and May Exacerbate Losses to Your Portfolio.

Historically, commodity futures returns have tended to exhibit low to negative correlation with the returns of other assets such as stocks and bonds. Although commodity futures trading can provide a diversification benefit to investor portfolios because of its low to negative correlation with other financial assets, the fact that the Index is not 100% negatively correlated with financial assets such as stocks and bonds means that the Fund cannot be expected to be automatically profitable during unfavorable periods for the stock or bond market, or vice-versa. If the Shares perform in a manner that correlates with the general financial markets or do not perform successfully, you will obtain no diversification benefits by investing in the Shares and the Shares may produce no gains to offset your losses from other investments.

(20) Shareholders Will Not Have the Protections Associated With Ownership of Shares in an Investment Company Registered Under the Investment Company Act of 1940.

The Fund is not registered as an investment company under the Investment Company Act of 1940, and is not required to register under such Act.

Table of Contents

Consequently, Shareholders will not have the regulatory protections provided to the investors in registered and regulated investment companies.

(21) Trading on Commodity Exchanges Outside the United States is Not Subject to U.S. Regulation.

A portion of the Fund's trading is expected to be conducted on commodity exchanges outside the United States. Trading on such exchanges is not regulated by any United States governmental agency and may involve certain risks not applicable to trading on United States exchanges, including different or diminished investor protections. In trading contracts denominated in currencies other than U.S. dollars, Shares are subject to the risk of adverse exchange-rate movements between the dollar and the functional currencies of such contracts. *Investors could incur substantial losses from trading on foreign exchanges which such investors would not have otherwise been subject had the Fund's trading been limited to U.S. markets.*

(22) Various Actual and Potential Conflicts of Interest May Be Detrimental to Shareholders.

The Fund is subject to actual and potential conflicts of interest involving the Managing Owner, various commodity futures brokers, Authorized Participants and Invesco Distributors. The Managing Owner and its principals, all of whom are engaged in other investment activities, are not required to devote substantially all of their time to the business of the Fund, which also presents the potential for numerous conflicts of interest with the Fund. As a result of these and other relationships, parties involved with the Fund have a financial incentive to act in a manner other than in the best interests of the Fund and the Shareholders. For example, by investing in affiliated money market mutual funds and/or T-Bill ETFs for cash management purposes, the Managing Owner may select affiliated money market mutual funds and/or T-Bill ETFs that may pay dividends that are lower than non-affiliated money market mutual funds and/or T-Bill ETFs. The Managing Owner has not established any formal procedure to resolve conflicts of interest. Consequently, investors are dependent on the good faith of the respective parties subject to such conflicts to resolve them equitably. Although the Managing Owner attempts to monitor these conflicts, it is extremely difficult, if not impossible, for the Managing Owner to ensure that these conflicts do not, in fact, result in adverse consequences to the Shareholders.

The Fund may be subject to certain conflicts with respect to the Commodity Broker, including, but not limited to, conflicts that result from receiving greater amounts of compensation from other clients, or purchasing opposite or competing positions on behalf of third party accounts traded through the Commodity Broker.

Because the Managing Owner and Invesco Distributors are affiliates, the Managing Owner has a disincentive to replace Invesco Distributors. Furthermore, the Managing Owner did not conduct an arm's length negotiation with respect to Invesco Distributors.

(23) Shareholders Will Be Subject to Taxation on Their Allocable Share of the Fund's Taxable Income, Whether or Not They Receive Cash Distributions.

Shareholders will be subject to U.S. federal income taxation and, in some cases, state, local, or foreign income taxation on their allocable share of the Fund's taxable income, whether or not they receive cash distributions from the Fund. Shareholders may not receive cash distributions equal to their share of the Fund's taxable income or even the tax liability that results from such income.

(24) Items of Income, Gain, Loss and Deduction With Respect to Shares could be Reallocated if the IRS does not Accept the Assumptions or Conventions Used by the Fund in Allocating Such Items.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

U.S. federal income tax rules applicable to partnerships are complex and often difficult to apply to publicly traded partnerships. The Fund will apply certain assumptions and conventions in an attempt to comply with applicable rules and to report items of income, gain, loss and deduction to Shareholders in a manner that reflects the Shareholders' beneficial interest in such tax items, but these assumptions and conventions may not be in compliance with all aspects of the applicable tax requirements. It is possible that the United States Internal Revenue Service, or the IRS, will successfully assert that the conventions and assumptions used by the Fund do not satisfy the technical requirements of the Internal Revenue Code of 1986, as amended, or the Code, and/or Treasury Regulations and could require that items of income, gain, loss and deduction be adjusted or reallocated in a manner that adversely affects one or more Shareholders.

Table of Contents

- (25) *The Current Treatment of Long-Term Capital Gains Under Current U.S. Federal Income Tax Law May Be Adversely Affected, Changed or Repealed in the Future.*

Under current law, long-term capital gains are taxed to non-corporate investors at reduced U.S. federal income tax rates. This tax treatment may be adversely affected, changed or repealed by future changes in, or the expiration of, tax laws at any time.

PROSPECTIVE INVESTORS ARE STRONGLY URGED TO CONSULT THEIR OWN TAX ADVISORS AND COUNSEL WITH RESPECT TO THE POSSIBLE TAX CONSEQUENCES TO THEM OF AN INVESTMENT IN THE SHARES; SUCH TAX CONSEQUENCES MAY DIFFER WITH RESPECT TO DIFFERENT INVESTORS.

- (26) *Failure of Futures Commission Merchants or Commodity Brokers to Segregate Assets May Increase Losses; Despite Segregation of Assets, the Fund Remains at Risk of Significant Losses Because the Fund May Only Receive a Pro-Rata Share of the Assets, or No Assets at All.*

The Commodity Exchange Act requires a clearing broker to segregate all funds received from customers from such broker's proprietary assets. If the Commodity Broker fails to do so, the assets of the Fund might not be fully protected in the event of the Commodity Broker's bankruptcy. Furthermore, in the event of the Commodity Broker's bankruptcy, the Fund could be limited to recovering either a pro rata share of all available funds segregated on behalf of the Commodity Broker's combined customer accounts or the Fund may not recover any assets at all, even though certain property specifically traceable to the Fund was held by the Commodity Broker. The Commodity Broker may, from time-to-time, have been the subject of certain regulatory and private causes of action. Such material actions, if any, are described under The Commodity Broker.

In the event of a bankruptcy or insolvency of any exchange or a clearing house, the Fund could experience a loss of the funds deposited through its Commodity Broker as margin with the exchange or clearing house, a loss of any unrealized profits on its open positions on the exchange, and the loss of profits on its closed positions on the exchange.

- (27) *The Effect of Market Disruptions and Government Intervention Are Unpredictable and May Have an Adverse Effect on the Value of Your Shares.*

The global financial markets have in the past few years gone through pervasive and fundamental disruptions that have led to extensive and unprecedented governmental intervention. Such intervention has in certain cases been implemented on an emergency basis, suddenly and substantially eliminating market participants' ability to continue to implement certain strategies or manage the risk of their outstanding positions. In addition—as one would expect given the complexities of the financial markets and the limited time frame within which governments have felt compelled to take action—these interventions have typically been unclear in scope and application, resulting in confusion and uncertainty which in itself has been materially detrimental to the efficient functioning of the markets as well as previously successful investment strategies.

The Fund may incur major losses in the event of disrupted markets and other extraordinary events in which historical pricing relationships become materially distorted. The risk of loss from pricing distortions is compounded by the fact that in disrupted markets many positions become illiquid, making it difficult or impossible to close out positions against which the markets are moving. The financing available to market participants from their banks, dealers and other counterparties is typically reduced in disrupted markets. Such a reduction may result in substantial losses to the affected market participants. Market disruptions may from time-to-time cause dramatic losses, and such events can result in otherwise historically low-risk strategies performing with unprecedented volatility and risk.

- (28)

Regulatory Changes or Actions, Including the Implementation of the Dodd-Frank Act, May Alter the Operations and Profitability of the Fund.

The regulation of commodity interest transactions in the United States is a rapidly changing area of law and is subject to ongoing modification by governmental and judicial action. Considerable regulatory attention has been focused on non-traditional investment pools that are publicly distributed in the United States. The Dodd-Frank Act regulates markets, market participants and financial instruments that previously have been unregulated and substantially alters the regulation of many other

Table of Contents

markets, market participants and financial instruments. It is difficult to predict the impact of the Dodd-Frank Act on the Fund, the Managing Owner, and the markets in which the Fund invests, the NAV of the Fund or the market price of the Shares. The Dodd-Frank Act and the implementing regulation adopted by regulators could result in the Fund's investment strategy becoming non-viable or non-economic to implement. Therefore, the Dodd-Frank Act and regulations adopted pursuant to the Dodd-Frank Act could have a material adverse impact on the profit potential of the Fund and in turn the value of your Shares.

(29) *Lack of Independent Advisers Representing Investors.*

The Managing Owner has consulted with counsel, accountants and other advisers regarding the formation and operation of the Fund. No counsel has been appointed to represent you in connection with the Fund's continuous offering of Shares. Accordingly, you should consult your own legal, tax and financial advisers regarding the desirability of an investment in the Shares.

(30) *Possibility of Termination of the Fund May Adversely Affect Your Portfolio.*

The Managing Owner may withdraw from the Trust upon 120 days' notice, which would cause the Fund to terminate unless a substitute managing owner were obtained. Owners of 50% of the Shares have the power to terminate the Fund. If it is so exercised, investors who may wish to continue to invest in a vehicle that tracks the Fund's Index will have to find another vehicle, and may not be able to find another vehicle that offers the same features as the Fund. See Description of the Shares; The Fund; Certain Material Terms of the Trust Declaration Termination Events for a summary of termination events. Such detrimental developments could cause you to liquidate your investments and upset the overall maturity and timing of your investment portfolio. If the registrations with the CFTC or memberships in the NFA of the Managing Owner or the Commodity Broker were revoked or suspended, such entity would no longer be able to provide services to the Fund.

(31) *Shareholders Do Not Have the Rights Enjoyed by Investors in Certain Other Vehicles.*

As interests in separate series of a Delaware statutory trust, the Shares have none of the statutory rights normally associated with the ownership of

shares of a corporation (including, for example, the right to bring oppression or derivative actions). In addition, the Shares have limited voting and distribution rights (for example, Shareholders do not have the right to elect directors and the Fund is not required to pay regular distributions, although the Fund may pay distributions in the discretion of the Managing Owner).

(32) *An Investment in Shares May Be Adversely Affected by Competition From Other Methods of Investing in Commodities.*

The Fund constitutes a relatively new type of investment vehicle. The Fund competes with other financial vehicles, including mutual funds, and other investment companies, ETFs, other index tracking commodity pools, actively traded commodity pools, hedge funds, traditional debt and equity securities issued by companies in the commodities industry, other securities backed by or linked to such commodities, and direct investments in the underlying commodities or commodity futures contracts. Market and financial conditions, and other conditions beyond the Managing Owner's control, may make it more attractive to invest in other financial vehicles or to invest in such commodities directly, which could limit the market for the Shares and therefore reduce the liquidity of the Shares.

(33) *Competing Claims Over Ownership of Intellectual Property Rights Related to the Fund Could Adversely Affect the Fund and an Investment in Shares.*

While the Managing Owner believes that all intellectual property rights needed to operate the Fund are either owned by or licensed to the Managing Owner or have been obtained, third parties may allege or assert ownership of intellectual property rights which may be related to the design, structure and operations of the Fund. To the extent any claims of such ownership are brought or any proceedings are instituted to assert such claims, the negotiation, litigation or settlement of such claims, or the ultimate disposition of such claims in a court of law if a suit is brought, may adversely affect the Fund and an investment in the Shares, for example, resulting in expenses or damages or the termination of the Fund.

Table of Contents**(34) *Backwardation or Contango in the Market Prices of the Index Commodities Will Affect the Value of Your Shares.***

As the futures contracts that underlie the Index near expiration, they are replaced by contracts that have a later expiration. Thus, for example, a contract purchased and held in August of the current year may specify an October of that year expiration. As that contract nears expiration, it may be replaced by selling the October of the current year contract and purchasing the contract expiring in December of that year. This process is referred to as rolling. Historically, the prices certain Index Commodities may have been higher for contracts with shorter-term expirations than for contracts with longer-term expirations, which is referred to as backwardation. In these circumstances, absent other factors, the sale of the October contract would take place at a price that is higher than the price at which the December contract is purchased, thereby creating a gain in connection with rolling. While the prices of certain Index Commodities may have historically exhibited consistent periods of backwardation, backwardation will likely not exist in these markets at all times. The absence of backwardation in such Index Commodities will adversely affect the value of the Index and, accordingly, decrease the value of your Shares.

Conversely, certain of the Index Commodities historically exhibit contango markets rather than backwardation. Contango markets are those in which the prices of contracts are higher in the distant delivery months than in the nearer delivery months due to the costs of long-term storage of a physical commodity prior to delivery or other factors. Although certain of the Index Commodities may have historically exhibited consistent periods of contango, contango will likely not exist in these markets at all times. Contango in certain of the Index Commodities will adversely affect the value of the Index and, accordingly, decrease the value of your Shares.

Although the roll method of the Index may minimize the roll losses due to contango and may maximize the roll benefits due to backwardation, there can be no assurance that this outcome will occur.

(35) *The Value of the Shares Will be Adversely Affected if the Fund is Required to Indemnify the Trustee or the Managing Owner.*

Under the Trust Declaration, the Trustee and the Managing Owner have the right to be indemnified for any liability or expense either incurs without gross negligence or willful misconduct. That means the Managing Owner may require the assets of the Fund to be sold in order to cover losses or liability suffered by it or by the Trustee. Any sale of that kind would reduce the NAV of the Fund and, consequently, the value of the Shares.

(36) *The NAV Calculation of the Fund May Be Overstated or Understated Due to the Valuation Method Employed When a Settlement Price is not Available on the Date of NAV Calculation.*

Calculating the NAV of the Fund includes, in part, any unrealized profits or losses on open commodity futures contracts. Under normal circumstances, the NAV of the Fund reflects the settlement price of open commodity futures contracts on the date when the NAV is being calculated. However, if a commodity futures contract traded on an exchange (both U.S. and, to the extent it becomes applicable, non-U.S. exchanges) could not be liquidated on such day (due to the operation of daily limits or other rules of the exchange upon which that position is traded or otherwise), the Managing Owner may value such futures contract pursuant to policies the Managing Owner has adopted, which are consistent with normal industry standards. In such a situation, there is a risk that the calculation of the NAV of the Fund on such day will not accurately reflect the realizable market value of such commodity futures contract. For example, daily limits are generally triggered in the event of a significant change in market price of a commodity futures contract. Therefore, as a result of the daily limit, the current settlement price is unavailable. Because the Managing Owner may value such futures contract pursuant to policies the Managing Owner has adopted, which are consistent with normal industry standards, there is a risk that the resulting calculation of the NAV of the Fund could be under or overstated, perhaps to a significant degree.

Table of Contents

(37) Although the Shares are Limited Liability Investments, Certain Circumstances such as Bankruptcy of the Fund or Indemnification of the Fund by the Shareholders will Increase a Shareholder's Liability.

The Shares are limited liability investments; investors may not lose more than the amount that they invest plus any profits recognized on their investment. However, Shareholders could be required, as a matter of bankruptcy law, to return to the estate of the Fund any distribution they received at a time when the Fund was in fact insolvent or in violation of its Trust Declaration. In addition, although the Managing Owner is not aware of this provision ever having been invoked in the case of any public futures fund, Shareholders agree in the Trust Declaration that they will indemnify the Fund for any harm suffered by it as a result of

Shareholders' actions unrelated to the business of the Fund, or

taxes imposed on the Shares by the states or municipalities in which such investors reside.

(38) An Insolvency Resulting From Another Series in the Trust or the Trust Itself May Have a Material Adverse Effect On the Fund.

This Fund is a series or a part of a Delaware statutory trust. Pursuant to Delaware law, the organization of the Trust provides that the assets and liabilities of this Fund is separate from the assets and liabilities of all other series of the Trust (e.g., the Sectors Funds), as well as the larger Trust itself. Though such organization may, under state law, protect the assets of the Fund in an insolvency action brought by the creditors of one or more of the Sectors Funds, or series of the Trust, this may be insufficient to protect the assets of the Fund from such creditors in an insolvency action in Federal court, or in a court in a foreign jurisdiction. Accordingly, an insolvency resulting from one or more of the Sectors Funds in the Trust or the Trust itself may have a material adverse effect on the Fund. The material risks associated with the Sectors Funds have not been included in this disclosure document.

(39) The Fund may Potentially Lose Money on its Holdings of Money Market Mutual Funds.

The Funds may invest in government money market funds for which the applicable board of directors/trustees has not chosen to rely on the ability to impose fees on shareholder redemptions (liquidity fees) or temporarily to suspend redemption privileges (gates) if the government money market fund's weekly liquid assets fall below a certain threshold. Although such government money market funds seek to preserve the value of an investment at \$1.00 per share, there is no guarantee that they will be able to do so and the Funds may lose money by investing in a government money market fund for cash management or other purposes. An investment in a government money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The share price of a government money market fund can fall below the \$1.00 share price. The Funds cannot rely on or expect a government money market fund's adviser or its affiliates to enter into support agreements or take other actions to maintain the government money market fund's \$1.00 share price. The credit quality of a government money market fund's holdings can change rapidly in certain markets, and the default of a single holding could have an adverse impact on the government money market fund's share price. Due to fluctuations in interest rates, the market value of securities held by a government money market fund may vary. A government money market fund's share price can also be negatively affected during periods of high redemption pressures and/or illiquid markets.

(40) Due to the Increased use of Technologies, Intentional and Unintentional Cyber Attacks Pose Operational and Information Security Risks.

With the increased use of technologies such as the Internet and the dependence on computer systems to perform necessary business functions, the Fund is susceptible to operational and information security risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to gaining unauthorized access to digital systems for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites.

Table of Contents

Cyber security failures or breaches of the Fund's third party service providers (including, but not limited to, Index Sponsor, the Administrator and transfer agent) or the issuers of the money market mutual funds and T-Bill ETFs in which the Fund invests, have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, the inability of Fund shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, and/or additional compliance costs. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. The Fund and its shareholders could be negatively impacted as a result. While the Managing Owner has established business continuity plans and systems to prevent such cyber attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by Fund's third party service providers. Cyber attacks may also cause disruptions to the futures exchanges and clearinghouses through which the Fund invests in exchange-traded futures contracts, resulting in disruptions to the Fund's investment objectives and resulting in financial losses.

(41) The Fund is Subject to Extensive Regulatory Reporting and Compliance.

The Fund is subject to changing regulation of corporate governance and public disclosure that have increased the Fund's risk of noncompliance.

Because the Shares are publicly traded, the Fund is subject to certain rules and regulations of federal, state and financial market exchange entities charged with the protection of investors and the oversight of companies whose securities are publicly traded. These entities, including the Public Company Accounting Oversight Board, the SEC, the CFTC and NYSE-ARCA, have in recent years issued new requirements and regulations, most notably the Sarbanes-Oxley Act of 2002. From time to time, since the adoption of the Sarbanes-Oxley Act of 2002, these authorities have continued to develop additional regulations or interpretations of existing regulations. The Fund's ongoing efforts to comply with these regulations and interpretations have resulted in, and are likely to continue resulting in, a diversion of management's time and attention from focusing on Fund management to compliance related activities.

The Fund is responsible for establishing and maintaining adequate internal control over financial reporting. The Fund's internal control system is designed to provide reasonable assurance to its management regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective may provide only reasonable assurance with respect to financial statement preparation and presentation.

(42) Current Discussions between the SEC and PricewaterhouseCoopers LLP regarding PricewaterhouseCoopers LLP's Independence Could Have Potentially Adverse Consequences for the Fund.

PricewaterhouseCoopers LLP informed the Fund that it has identified an issue related to its independence under Rule 2-01(c)(1)(ii)(A) of Regulation S-X (referred to as the Loan Rule). The Loan Rule prohibits accounting firms, such as PricewaterhouseCoopers LLP, from being deemed independent if they have certain financial relationships with their audit clients or certain affiliates of those clients. The Fund is required under various securities laws to have its financial statements audited by an independent accounting firm.

The Loan Rule specifically provides that an accounting firm would not be independent if it receives, or certain of its affiliates or covered persons receive a loan from a lender that is a record or beneficial owner of more than ten percent of an audit client's equity securities (referred to as a more than ten percent owner). For purposes of the Loan Rule, audit clients include the Fund as well as all registered investment companies advised by the Managing Owner and its affiliates, including other subsidiaries of the Managing Owner's parent company, Invesco Ltd. (collectively, the Invesco Fund Complex). PricewaterhouseCoopers LLP informed the Fund it has, and that certain of its affiliates or covered persons have, relationships with lenders who hold, as record owner, more than ten percent of the shares of certain funds within the Invesco Fund Complex. These relationships call into question PricewaterhouseCoopers LLP's independence under the Loan Rule with respect to those funds, as well as all other funds in the Invesco Fund Complex, which may implicate the Loan Rule.

Table of Contents

On June 20, 2016, the SEC Staff issued a no-action letter to another mutual fund complex (see Fidelity Management & Research Company et al., No-Action Letter) related to the audit independence issue described above. In that letter, the SEC confirmed that it would not recommend enforcement action against a fund that relied on audit services performed by an audit firm that was not in compliance with the Loan Rule in certain specified circumstances. In October 2016, in connection with its annual communication, PricewaterhouseCoopers LLP communicated, as contemplated by the no-action letter, that it believes that it remains objective and impartial and that a reasonable investor possessing all the facts would conclude that PricewaterhouseCoopers LLP is able to exhibit the requisite objectivity and impartiality to report on the Fund's financial statements as the independent registered public accounting firm. PricewaterhouseCoopers LLP also represented that it has complied with PCAOB Rule 3526(b)(1) and (2), which are conditions to the Funds relying on the no-action letter, and affirmed that it is an independent accountant within the meaning of PCAOB Rule 3520. Therefore, the Managing Owner, the Fund and PricewaterhouseCoopers LLP concluded that PricewaterhouseCoopers LLP could continue to serve as the Fund's independent registered public accounting firm. The Invesco Fund Complex relied upon the no-action letter in reaching this conclusion.

If in the future the independence of PricewaterhouseCoopers LLP is called into question under the Loan Rule by circumstances that are not addressed in the SEC's no-action letter, the Fund will need to take other action in order for the Fund's filings with the SEC containing financial statements to be deemed compliant with applicable securities laws. Such additional actions could result in additional costs, impair the ability of the Fund to issue new shares or have other material adverse effects on the Fund. In addition, the SEC has indicated that the no-action relief will expire 18 months from its issuance, after which the Invesco Funds will no longer be able to rely on the letter unless its term is extended or made permanent by the SEC Staff.

INVESTMENT OBJECTIVE

The Fund seeks to track changes, whether positive or negative, in the level of the DBIQ Diversified Agriculture Index Excess Return, or the Index, over time, plus the excess, if any, of the sum of the Fund's Treasury Income, Money Market

Income and T-Bill ETF Income over the expenses of the Fund. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only.

The Shares are designed for investors who want a cost-effective and convenient way to invest in commodity futures on U.S. and non-U.S. markets.

Advantages of investing in the Fund include:

Ease and Flexibility of Investment. The Shares trade on the NYSE Arca and provide institutional and retail investors with indirect access to commodity futures markets. The Shares may be bought and sold on the NYSE Arca like other exchange-listed securities. Retail investors may purchase and sell Shares through traditional brokerage accounts.

Margin. Shares are eligible for margin accounts.

Diversification. The Shares may help to diversify a portfolio because historically the Index has tended to exhibit low to negative correlation with both equities and conventional bonds and positive correlation to inflation.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Optimum Yield . A portion of the Index utilizes an Optimum Yield methodology, which seeks to minimize the effects of negative roll yield that may be experienced by conventional commodities indexes.

Transparency. The Shares provide a more direct investment in commodities than mutual funds or exchange-traded funds that invest in commodity-linked notes or otherwise gain indirect exposure to commodities, which may have implicit imbedded costs, credit risk and other potentially opaque features.

Investing in the Fund does not insulate Shareholders from certain risks, including price volatility.

The Fund pursues its investment objective by investing in a portfolio of exchange-traded futures on the commodities comprising the Index.

Table of Contents

The Index, which is comprised of one or more underlying commodities, or Index Commodities, is intended to reflect the agricultural sector. The Index Commodities consist of Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs.

If the Managing Owner determines in its commercially reasonable judgment that it has become impracticable or inefficient for any reason for the Fund to gain full or partial exposure to any Index Commodity by investing in a specific futures contract that comprises the Index, the Fund may invest in a futures contract referencing the particular Index Commodity other than the specific contract that comprises the Index or, in the alternative, invest in other futures contracts not based on the particular Index Commodity if, in the commercially reasonable judgment of the Managing Owner, such futures contracts tend to exhibit trading prices that correlate with a futures contract that comprises the Index.

The Fund will make distributions at the discretion of the Managing Owner. To the extent that the Fund's actual and projected Treasury Income, the Fund's actual and projected Money Market Income and the Fund's actual and projected T-Bill ETF Income exceeds the actual and projected fees and expenses of the Fund, the Managing Owner expects periodically to make distributions of the amount of such excess. The Fund currently does not expect to make distributions with respect to capital gains. Depending on the Fund's performance for the taxable year and your own tax situation for such year, your income tax liability for the taxable year for your allocable share of the Fund's net ordinary income or loss and capital gain or loss may exceed any distributions you receive with respect to such year.

The sponsor of the Index, or the Index Sponsor, is Deutsche Bank Securities Inc.

Under the Trust Declaration, Wilmington Trust Company, the Trustee of the Fund, has delegated to the Managing Owner the exclusive management and control of all aspects of the business of the Fund. The Trustee will have no duty or liability to supervise or monitor the performance of the Managing Owner, nor will the Trustee have any liability for the acts or omissions of the Managing Owner.

The Shares are intended to provide investment results that generally correspond to the changes, positive or negative, in the levels of the Fund's Index over time.

The value of the Shares is expected to fluctuate in relation to changes in the value of its portfolio. The market price of the Shares may not be identical to the NAV per Share, but these two valuations are expected to be very close. See "The Risks You Face (2) NAV May Not Always Correspond to Market Price and, as a Result, Baskets may be Created or Redeemed at a Value that Differs from the Market Price of the Shares."

The Index Sponsor calculates and publishes the closing level of the Index daily. The Managing Owner publishes the NAV of the Fund and the NAV per Share daily. Additionally, the Index Sponsor calculates and publishes the intra-day Index level, and the Index Sponsor calculates, and the Managing Owner publishes, the IIV per Share (quoted in U.S. dollars) once every fifteen seconds throughout each trading day.

All of the foregoing information is published as follows:

The intra-day level of the Index (symbol: DBAGIX) and the IIV per Share (symbol: DBA.IV) (each quoted in U.S. dollars) are published once every fifteen seconds throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The current trading price per Share (symbol: DBA) (quoted in U.S. dollars) is published continuously as trades occur throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The most recent end-of-day Index closing level (symbol: DBLCDBAE) is published as of the close of business for the NYSE Arca each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published as of the close of business on Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto. In addition, the most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published the following morning on the consolidated tape.

Table of Contents

All of the foregoing information with respect to the Index, including the Index's history, is also published at <https://index.db.com>.

Any adjustments made to the Index will be published on both <https://index.db.com> and at <http://www.invescopowershares.com>, or any successor(s) thereto.

The Index Sponsor obtains information for inclusion in, or for use in the calculation of, the Index from sources the Index Sponsor considers reliable. None of the Index Sponsor, the Managing Owner, the Fund or any of their respective affiliates accepts responsibility for or guarantees the accuracy and/or completeness of the Index or any data included in the Index.

The IIV per Share is based on the prior day's final NAV, adjusted four times per minute throughout the trading day to reflect the continuous price changes of the Fund's futures positions, which provides a continuously updated estimated NAV per Share. The final NAV of the Fund and the final NAV per Share is calculated as of the closing time of the NYSE Arca or the last to close of the exchanges on which the Fund's futures contracts are traded, whichever is later, and posted in the same manner. Although a time gap may exist between the close of the NYSE Arca and the close of the exchanges on which the Fund's futures contracts are traded, there is no effect on the NAV calculations as a result.

There can be no assurance that the Fund will achieve its investment objective or avoid substantial losses.

Role of Managing Owner

The Managing Owner serves as the commodity pool operator and commodity trading advisor of the Fund.

Specifically, the Managing Owner:

selects the Trustee, Commodity Broker, Administrator, Index Sponsor, Custodian, Transfer Agent, Marketing Agent, distributor and auditor;

negotiates various agreements and fees;

performs such other services as the Managing Owner believes that the Fund may from time-to-time require; and
monitors the performance results of the Fund's portfolio and reallocates assets within such portfolio with a view to causing the performance of the Fund's portfolio to track its Index over time.

The Managing Owner is registered as a commodity pool operator, commodity trading advisor and swap firm with the CFTC and is a member of the NFA.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The principal office of the Managing Owner is located at c/o Invesco PowerShares Capital Management LLC, 3500 Lacey Road, Suite 700, Downers Grove, IL 60515. The telephone number of the Managing Owner is (800) 983-0903.

* The Worst Peak-to-Valley Drawdown from February 2008 – November 2016 reflects the total return of the Fund, including the \$0.45 per Share distribution made to Shareholders of record as of December 17, 2008. Prior to October 19, 2009, the Fund tracked the Deutsche Bank Liquid Commodity Index-Optimum Yield Agriculture Excess Return . From October 19, 2009, the Fund tracked the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return .

PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS.**Footnotes to Performance Information**

1. Aggregate Gross Capital Subscriptions is the aggregate of all amounts ever contributed to the pool, including investors who subsequently redeemed their investments.

2. NAV is the NAV of the pool as of January 31, 2017.

3. NAV per Share is the NAV of the pool divided by the total number of Shares outstanding with respect to the pool as of January 31, 2017.
4. Worst Monthly Drawdown is the largest single month loss sustained during the last five years and year to date (if applicable). Drawdown as used in this section of the Prospectus means losses experienced by the pool over the specified period and is calculated on a rate of return basis, i.e., dividing net performance by beginning equity. Drawdown is measured on the basis of monthly returns only, and does not reflect intra-month figures. Month is the month of the Worst Monthly Drawdown.
5. Worst Peak-to-Valley Drawdown is the largest percentage decline in the NAV per Share during the most recent five calendar years (and to the extent applicable, for a period beyond the most recent five calendar years if the starting date of the peak value extends beyond this period). This need not be a continuous decline, but can be a series of positive and negative returns where the negative returns are larger than the positive returns. Worst Peak-to-Valley Drawdown represents the greatest percentage decline from any month-end NAV per Share that occurs without such month-end NAV per Share being equaled or exceeded as of a subsequent month-end. For example, if the NAV per Share of pool declined by \$1 in each of January and February, increased by \$1 in March and declined again by \$2 in April, a peak-to-valley drawdown analysis conducted as of the end of April would consider that drawdown to be still continuing and to be \$3 in amount, whereas if the NAV per Share had increased by \$2 in March, the January-February drawdown would have ended as of the end of February at the \$2 level.

Table of Contents

6. Compound Rate of Return of the pool is calculated by multiplying on a compound basis each of the monthly rates of return set forth in the chart above and not by adding or averaging such monthly rates of return. For periods of less than one year, the results are year-to-date.

7. The Fund tracked the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return up to and including December 31, 2010. The Fund has tracked the DBIQ Diversified Agriculture Index Excess Return since December 31, 2010. The only difference between the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return and the DBIQ Diversified Agriculture Index Excess Return is a name change.

THE FUND'S PERFORMANCE INFORMATION FROM INCEPTION UP TO AND EXCLUDING FEBRUARY 23, 2015 IS A REFLECTION OF THE PERFORMANCE ASSOCIATED WITH DB COMMODITY SERVICES LLC, WHICH SERVED AS THE PREDECESSOR MANAGING OWNER. ALL THE PERFORMANCE INFORMATION ON AND AFTER FEBRUARY 23, 2015 REFLECTS THE PERFORMANCE ASSOCIATED WITH THE MANAGING OWNER.

Table of Contents**DESCRIPTION OF THE DBIQ DIVERSIFIED AGRICULTURE INDEX EXCESS RETURN**

The PowerShares DB Agriculture Fund (the Fund) is not sponsored or endorsed by Deutsche Bank AG, Deutsche Bank Securities Inc. or any subsidiary or affiliate of Deutsche Bank AG or Deutsche Bank Securities Inc. (collectively, Deutsche Bank). The DBIQ Diversified Agriculture Index Excess Return (the DB Index) is the exclusive property of Deutsche Bank Securities Inc. DBIQ is a service mark of Deutsche Bank AG and has been licensed for use for certain purposes by Deutsche Bank Securities Inc. Neither Deutsche Bank nor any other party involved in, or related to, making or compiling the DB Index makes any representation or warranty, express or implied, concerning the DB Index, the Fund or the advisability of investing in securities generally. Neither Deutsche Bank nor any other party involved in, or related to, making or compiling the DB Index has any obligation to take the needs of Invesco PowerShares Capital Management LLC, the sponsor of the Fund, or its clients into consideration in determining, composing or calculating the DB Index. Neither Deutsche Bank nor any other party involved in, or related to, making or compiling the DB Index is responsible for or has participated in the determination of the timing of, prices at, quantities or valuation of the Fund. Neither Deutsche Bank nor any other party involved in, or related to, making or compiling the DB Index has any obligation or liability in connection with the administration or trading of the Fund.

NEITHER DEUTSCHE BANK NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING THE DB INDEX, WARRANTS OR GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE DB INDEX OR ANY DATA INCLUDED THEREIN AND SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE DB INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL DEUTSCHE BANK OR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING THE DB INDEX HAVE ANY LIABILITY FOR DIRECT, INDIRECT, PUNITIVE, SPECIAL, CONSEQUENTIAL OR ANY OTHER DAMAGES OR LOSSES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY THEREOF. EXCEPT AS EXPRESSLY PROVIDED TO THE CONTRARY, THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN DEUTSCHE BANK AND INVESCO POWERSHARES CAPITAL MANAGEMENT LLC.

No purchaser, seller or holder of the shares of this Fund, or any other person or entity, should use or refer to any Deutsche Bank trade name, trademark or service mark to sponsor, endorse, market or promote this Fund without first contacting Deutsche Bank to determine whether Deutsche Bank's permission is required. Under no circumstances may any person or entity claim any affiliation with Deutsche Bank without the written permission of Deutsche Bank.

General

Each of the DBIQ Optimum Yield Index Excess Return, or DBIQ-OYER, and the DBIQ Index Excess Return, or DBIQ ER (DBIQ-OYER and DBIQ ER, collectively, DBIQ or DBIQ ER), is intended to reflect the changes in market value, over time, positive or negative, in certain sectors of commodities, or an index. The Index is calculated on an excess return, or unfunded basis. The Index is rolled on both an Optimum Yield and non-Optimum Yield basis. The Optimum Yield rolling methodology is aimed at potentially maximizing the roll benefits in backwardated markets and minimizing the losses from rolling in contangoed markets. The non-Optimum Yield portion of the Index is rolled to the next to expire futures contract as provided below under Contract Selection (Non-OY Single Commodity Indexes only). The Index is comprised of one or more underlying commodities, or Index Commodities. Each Index Commodity is assigned a weight, or Index Base Weight, which is intended to reflect the proportion of such Index Commodity relative to the Index.

Table of Contents

DBIQ Diversified Agriculture Index Excess Return , or the Index, is intended to reflect the agricultural sector.

The Index has been calculated back to a base date, or Base Date. On the Base Date of January 18, 1989, the closing level of the Index, or Closing Level, was 100.

The sponsor of the Index is Deutsche Bank Securities Inc., or Index Sponsor. The Index Sponsor may from time-to-time subcontract the provision of the calculation and other services described below to one or more third parties.

Table of Contents**Overview of DBIO Diversified Agriculture Index Excess Return**

Index Commodity	Exchange (Contract Symbol)¹	Base Date	Index Base Weight
Corn ²	CBOT (C)	January 18, 1989	12.50%

¹Connotes the exchanges on which the underlying futures contracts are traded with respect to each Single Commodity Index.

²Connotes Single Commodity Index rolled on Optimum Yield™ basis.

³Connotes non-OY Single Commodity Index.

Legend:

CBOT means the Board of Trade of the City of Chicago Inc., or its successor.

CME means the Chicago Mercantile Exchange, Inc., or its successor.

ICE-US means ICE Futures U.S., Inc., or its successor.

KCB mean the Board of Trade of Kansas City, Missouri, Inc., a part of the CME Group, or its successor.

[Remainder of page left blank intentionally.]

Table of Contents

Composition of the Index

The Index is composed of notional amounts of each of the underlying Index Commodities. The notional amount of each Index Commodity included in the Index is intended to reflect the changes in market value of each such Index Commodity within the Index. The Closing Level of the Index is calculated on each Index Business Day (as defined below) by the Index Sponsor based on the closing price of the futures contracts for each of the underlying Index Commodities and the notional amounts of such Index Commodities.

The Index is rebalanced annually in November to ensure that each of the Index Commodities is weighted in the same proportion that such Index Commodities were weighted on the Base Date.

The composition of the Index may be adjusted in the event that the Index Sponsor is not able to calculate the closing prices of the Index Commodities.

The Index includes provisions for the replacement of futures contracts as they approach maturity. This replacement takes place over a period of time in order to lessen the impact on the market for the futures contracts being replaced. With respect to each Index Commodity, the Fund employs a rule-based approach when it rolls from one futures contract to another. The Index is comprised of OY Single Commodity Indexes and non-OY Single Commodity Indexes. The Index Commodities that underlie the OY Single Commodity Indexes are Corn, Soybeans, Wheat, Kansas City Wheat and Sugar. The Index Commodities that underlie the non-OY Single Commodity Indexes are Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs. The OY Single Commodity Indexes are rolled to the futures contract which generates the best possible implied roll yield. The futures contract with a delivery month within the next thirteen months which generates the best possible implied roll yield will be included in each OY Single Commodity Index. As a result, each OY Single Commodity Index is able to potentially maximize the roll benefits in backwarddated markets and minimize the losses from rolling in contangoed markets.

Each of the non-OY Single Commodity Indexes rolls only to the next to expire futures contract as provided below under Contract Selection (Non-OY Single Commodity Indexes only) .

In general, as a futures contract approaches its expiration date, its price will move towards the spot price in a contangoed market. Assuming the spot price does not change, this would result in the futures contract price decreasing and a negative implied roll yield. The opposite is true in a backwarddated market. Rolling in a contangoed market will tend to cause a drag on an Index Commodity's contribution to the Fund's return while rolling in a backwarddated market will tend to cause a push on an Index Commodity's contribution to the Fund's return.

The Index is calculated in USD on both an excess return (unfunded) and total return (funded) basis.

The futures contract price for each Index Commodity will be the exchange closing price for such Index Commodity on which the NYMEX is open for business, or Index Business Days. If a weekday is not an Exchange Business Day (as defined in the following sentence) but is an Index Business Day, the exchange closing price from the previous Index Business Day will be used for each Index Commodity. Exchange Business Day means, in respect of an Index Commodity, a day that is a trading day for such Index Commodity on the relevant exchange (unless either an Index disruption event or force majeure event has occurred).

Contract Selection (OY Single Commodity Indexes only)

On the first Index Business Day, or Verification Date, of each month, each Index Commodity futures contract will be tested in order to determine whether to continue including it in the applicable OY Single Commodity Index. If the Index Commodity futures contract requires delivery of the underlying commodity in the next month, known as the Delivery Month, a new Index Commodity futures contract will be selected for inclusion in such OY Single Commodity Index. For example, if the first Index Business Day is May 1 of the current year, and the Delivery Month of the Index Commodity futures contract currently in such OY Single Commodity Index is June of the current year, a new Index Commodity futures contract with a later Delivery Month will be selected.

For each underlying Index Commodity of an OY Single Commodity Index, the new Index Commodity futures contract selected will be the Index Commodity futures contract with the best possible implied roll yield based on the closing price for

Table of Contents

each eligible Index Commodity futures contract. Eligible Index Commodity futures contracts are any Index Commodity futures contracts having a Delivery Month (i) no sooner than the month after the Delivery Month of the Index Commodity futures contract currently in such OY Single Commodity Index, and (ii) no later than the 13th month after the Verification Date. For example, if the first Index Business Day is May 1 of the current year and the Delivery Month of an Index Commodity futures contract currently in an OY Single Commodity Index is therefore June of the current year, the Delivery Month of an eligible new Index Commodity futures contract must be between July of the current year and June of the following year. The implied roll yield is then calculated and the futures contract on the Index Commodity with the best possible implied roll yield is then selected. If two futures contracts have the same implied roll yield, the futures contract with the minimum number of months prior to the Delivery Month is selected.

After selection of the replacement futures contract, each OY Single Commodity Index will roll such replacement futures contract as provided in the sub-paragraph Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes.

[Remainder of page left blank intentionally.]

Table of Contents**Contract Selection (Non-OY Single Commodity Indexes only)**

On the first Index Business Day of each month, each non-OY Single Commodity Index will select a new futures contract to replace the old futures contract as provided in the following schedule.

Contract	Exchange (Symbol)	Month and Letter Codes											
		Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Cocoa	ICE-US (CC)	H	K	K	N	N	U	U	Z	Z	Z	H	H

October	V
November	X
December	Z

After selection of the replacement futures contract, each non-OY Single Commodity Index will roll such replacement futures contract as provided in the sub-paragraph Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes.

[Remainder of page left blank intentionally.]

Table of Contents

Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes

After the futures contract selection with respect to both OY Single Commodity Indexes and non-OY Single Commodity Indexes, the monthly roll for each Index Commodity subject to a roll in that particular month unwinds the old futures contract and enters a position in the new futures contract. This takes place between the 2nd and 6th Index Business Day of the month.

On each day during the roll period, new notional holdings are calculated. The calculations for the old Index Commodities that are leaving the Index and the new Index Commodities are then calculated.

On all days that are not monthly index roll days, the notional holdings of each Index Commodity future remains constant.

The Index is re-weighted on an annual basis on the 6th Index Business Day of each November.

The calculation of the Index is expressed as the weighted average return of the Index Commodities.

Change in the Methodology of the Index

The Index Sponsor employs the methodology described above and its application of such methodology shall be conclusive and binding. While the Index Sponsor currently employs the above described methodology to calculate the Index, no assurance can be given that fiscal, market, regulatory, juridical or financial circumstances (including, but not limited to, any changes to or any suspension or termination of or any other events affecting any Index Commodity or a futures contract) will not arise that would, in the view of the Index Sponsor, necessitate a modification of or change to such methodology and in such circumstances the Index Sponsor may make any such modification or change as it determines appropriate. The Index Sponsor may also make modifications to the terms of the Index in any manner that it may deem necessary or desirable, including (without limitation) to correct any manifest or proven error or to cure, correct or supplement any defective provision of the Index. The Index Sponsor will publish notice of any such modification or change and the effective date thereof as set forth below.

Publication of Closing Levels and Adjustments

In order to calculate each indicative Index level, the Index Sponsor polls Reuters every 15 seconds to determine the real time price of each underlying futures contract with respect to each Index Commodity of the Index. The Index Sponsor then applies a set of rules to these values to create the indicative level of the Index. These rules are consistent with the rules which the Index Sponsor applies at the end of each trading day to calculate the closing level of the Index.

The IIV per Share is based on the prior day's final NAV, adjusted four times per minute throughout the trading day to reflect the continuous price changes of the Fund's futures positions, which provides a continuously updated estimated NAV per Share.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The Index Sponsor calculates and publishes the closing level of the Index daily. The Managing Owner publishes the NAV of the Fund and the NAV per Share daily. Additionally, the Index Sponsor calculates and publishes the intra-day Index level, and the Index Sponsor calculates, and the Managing Owner publishes, the IIV per Share (quoted in U.S. dollars) once every fifteen seconds throughout each trading day.

All of the foregoing information is published as follows:

The intra-day level of the Index (symbol: DBAGIX) and the IIV per Share (symbol: DBA.IV) (each quoted in U.S. dollars) are published once every fifteen seconds throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The current trading price per Share (symbol: DBA) (quoted in U.S. dollars) is published continuously as trades occur throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The most recent end-of-day Index closing level (symbol: DBLCDBAE) is published as of the close of business for the NYSE Arca each trading day on the consolidated tape, Reuters and/or

Table of Contents

Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto.

The most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published as of the close of business on Reuters and/or Bloomberg and on the Managing Owner's website at <http://www.invescopowershares.com>, or any successor thereto. In addition, the most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published the following morning on the consolidated tape.

All of the foregoing information with respect to the Index, including the Index's history, is also published at <https://index.db.com>.

The Index Sponsor obtains information for inclusion in, or for use in the calculation of, the Index from sources the Index Sponsor considers reliable. None of the Index Sponsor, the Managing Owner, the Fund or any of their respective affiliates accepts responsibility for or guarantees the accuracy and/or completeness of the Index or any data included in the Index.

Any adjustments made to the Index will be published on both <https://index.db.com> and at <http://www.invescopowershares.com>, or any successor(s) thereto.

Interruption of Index Calculation

Calculation of the Index may not be possible or feasible under certain events or circumstances, including, without limitation, a systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance, that is beyond the reasonable control of the Index Sponsor and that the Index Sponsor determines affects the Index or any Index Commodity. Upon the occurrence of such force majeure events, the Index Sponsor may, in its discretion, elect one (or more) of the following options:

make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any closing level on any such appropriate Index Business Day; and/or

defer publication of the information relating to the Index until the next Index Business Day on which it determines that no force majeure event exists; and/or
permanently cancel publication of the information relating to the Index.

Additionally, calculation of the Index may also be disrupted by an event that would require the Index Sponsor to calculate the closing price in respect of the relevant Index Commodity on an alternative basis were such event to occur or exist on a day that is a trading day for such Index Commodity on the relevant exchange. If such an Index disruption event in relation to an Index Commodity as described in the prior sentence occurs and continues for a period of five successive trading days for such Index Commodity on the relevant exchange, the Index Sponsor will, in its discretion, either

continue to calculate the relevant closing price for a further period of five successive trading days for such Index Commodity on the relevant exchange; or

if such period extends beyond the five successive trading days, the Index Sponsor may elect to replace the exchange traded instrument with respect to a specific Index Commodity and shall make all necessary adjustments to the methodology and calculation of the Index as it deems appropriate.

Historical Closing Levels

Set out below are the Closing Levels and related data with respect to the Index as of January 31, 2017.

With respect to each of the Closing Levels Tables, historic daily Index Closing Levels have been calculated with respect to the Index since the Base Date of the Index.

The Base Date for the Index is January 18, 1989.

The Base Date was selected by the Index Sponsor based on the availability of price data with respect to the relevant underlying futures contracts on the Index Commodities.

Since June 2006, the historic data with respect to the closing prices of futures contracts on Feeder Cattle (FC), Cotton #2 (CT), Coffee (KC), Cocoa (CC), Live Cattle (LC), Lean Hogs (LH), Corn (C), Wheat (W), Soybeans (S), Sugar #11 (SB) and Kansas City Wheat (KW) originated from Reuters. Prior to June 2006, the closing prices of futures contracts on Feeder Cattle (FC), Cotton #2 (CT), Coffee (KC), Cocoa (CC), Live Cattle (LC), Lean

Table of Contents

Hogs (LH), Corn (C), Wheat (W), Soybeans (S), Sugar #11 (SB) and Kansas City Wheat (KW) were obtained from publicly available information from Logical Information Machines (<http://www.lim.com>), Bloomberg, and Reuters. The Index Sponsor has not independently verified the information extracted from these sources. The Index calculation methodology and commodity future selection are the same prior to and following June 2006.

Complete price histories regarding certain futures contracts on the Index Commodities were not available (e.g., due to lack of trading on specific days). In the event that prices on such futures contracts on the Index Commodities were unavailable during a contract selection day, such futures contracts were excluded from the futures contract selection process. The Index Sponsor believes that the incomplete price histories should not have a material impact on the calculation of the Index.

The Index Closing Level is equal to the weighted sum of the market value of the commodity futures contracts of all the respective Index Commodities that comprise the Index. The market value of the commodity futures contracts of an Index Commodity is equal to the number of commodity futures contracts of an Index Commodity held multiplied by the commodity futures contracts closing price of an Index Commodity.

The weight of each Index Commodity of the Index is linked to the number of commodity futures contracts held of such Index Commodity and the price of commodity futures contracts of the Index Commodity. The weight of an Index Commodity is defined as the market value of the commodity futures contracts of the Index Commodity divided by the sum of all market values of all commodity futures contracts of the Index Commodities that comprise an Index multiplied by 100%.

The Index Commodities Weights Tables reflect the range of the weightings with respect to each of the Index Commodities used to calculate the Index.

The Index rules stipulate the holding in each Index Commodity futures contract. Holdings in each Index Commodity change during the Index rebalancing periods as determined by the Optimum Yield roll rules and the non-Optimum Yield roll rules, as applicable.

Cautionary Statement-Statistical Information

Various statistical information is presented on the following pages, relating to the Closing Levels of

the Index, on an annual and cumulative basis, including certain comparisons of the Index to other commodities indices. In reviewing such information, prospective investors should consider that:

Changes in Closing Levels of the Index during any particular period or market cycle may be volatile.

Index	Worst Peak-to-Valley Drawdown and Time Period	Worst Monthly Drawdown and Month and Year
--------------	--	--

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

DBIQ Diversified Agriculture Index Excess Return	(14.37)%
(53.39)% 5/97 4/02	10/08

For example, the Worst Peak-to-Valley Drawdown of the Index represents the greatest percentage decline from any month-end Closing Level, without such Closing Level being equaled or exceeded as of a subsequent month-end, which occurred during the above-listed time period.

The Worst Monthly Drawdown of the Index occurred during the above-listed month and year.

See Volatility of the Index on page 49.

Neither the fees charged by the Fund nor the execution costs associated with establishing futures positions in the Index Commodities are incorporated into the Closing Levels of the Index. Accordingly, such Index Levels have not been reduced by the costs associated with an actual investment, such as the Fund, with an investment objective of tracking the Index.

The Index was established in September 2009 and is independently calculated by the Index Sponsor. The Index calculation methodology and commodity futures contracts selection is the same before and after September 2009, as described above. Accordingly, the Closing Levels of the Index, terms of the Index methodology and Index Commodities, reflect an element of hindsight at the time the Index was established. See The Risks You Face (10) You May Not Rely on Past Performance or Index Results in Deciding Whether to Buy Shares and (11) Fewer Representative Commodities May Result In Greater Index Volatility.

Table of Contents

WHILE THE FUND'S OBJECTIVE IS NOT TO GENERATE PROFIT THROUGH ACTIVE PORTFOLIO MANAGEMENT, BUT IS TO TRACK THE INDEX, BECAUSE THE INDEX WAS ESTABLISHED IN SEPTEMBER 2009, CERTAIN INFORMATION RELATING TO INDEX CLOSING LEVELS MAY BE CONSIDERED TO BE HYPOTHETICAL. HYPOTHETICAL INFORMATION MAY HAVE CERTAIN INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW.

NO REPRESENTATION IS BEING MADE THAT THE INDEX WILL OR IS LIKELY TO ACHIEVE ANNUAL OR CUMULATIVE CLOSING LEVELS CONSISTENT WITH OR SIMILAR TO THOSE SET FORTH HEREIN. SIMILARLY, NO REPRESENTATION IS BEING MADE THAT THE FUND WILL GENERATE PROFITS OR LOSSES SIMILAR TO THE FUND'S PAST PERFORMANCE OR THE HISTORICAL ANNUAL OR CUMULATIVE CHANGES IN THE INDEX CLOSING LEVELS. IN FACT, THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY INVESTMENT METHODOLOGIES, WHETHER ACTIVE OR PASSIVE.

ONE OF THE LIMITATIONS OF HYPOTHETICAL INFORMATION IS THAT IT IS GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. TO THE EXTENT THAT INFORMATION PRESENTED HEREIN RELATES TO THE PERIOD SINCE THE BASE DATE THROUGH INCEPTION WITH RESPECT TO THE INDEX (SEPTEMBER 2009), THE INDEX'S CLOSING LEVELS REFLECT THE APPLICATION OF THE INDEX'S METHODOLOGY, AND SELECTION OF INDEX COMMODITIES, IN HINDSIGHT.

NO HYPOTHETICAL RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THERE ARE NUMEROUS FACTORS, INCLUDING THOSE DESCRIBED UNDER "THE RISKS YOU FACE" HEREIN, RELATED TO THE COMMODITIES MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF THE FUND'S EFFORTS TO TRACK ITS INDEX OVER TIME WHICH CANNOT BE, AND HAVE NOT BEEN, ACCOUNTED FOR IN THE PREPARATION OF SUCH INDEX INFORMATION SET FORTH ON

THE FOLLOWING PAGES, ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL PERFORMANCE RESULTS FOR THE FUND. FURTHERMORE, THE INDEX INFORMATION DOES NOT INVOLVE FINANCIAL RISK OR ACCOUNT FOR THE IMPACT OF FEES AND COSTS ASSOCIATED WITH THE FUND.

THE MANAGING OWNER AND ITS TRADING PRINCIPALS HAVE LIMITED EXPERIENCE MANAGING THE DAY-TO-DAY OPERATIONS FOR THE FUND AND HAVE ONLY MANAGED AN EXCHANGE-TRADED FUND THAT RELATES TO A BROAD-BASED COMMODITY INDEX FOR A SHORT PERIOD. BECAUSE THERE ARE LIMITED PERFORMANCE RESULTS OF THE MANAGING OWNER THAT ARE COMPARABLE TO THE INDEX CLOSING LEVELS SET FORTH HEREIN, PROSPECTIVE INVESTORS SHOULD BE PARTICULARLY WARY OF PLACING UNDUE RELIANCE ON THE ANNUAL OR CUMULATIVE INDEX RESULTS. FOR THE AVOIDANCE OF DOUBT, NONE OF THE PERFORMANCE RELATED INFORMATION THAT IS COVERED HEREIN UP TO AND EXCLUDING THE CLOSING DATE CAN BE ATTRIBUTED TO THE MANAGING OWNER.

THE PREDECESSOR MANAGING OWNER, AN INDIRECT WHOLLY OWNED SUBSIDIARY OF DEUTSCHE BANK AG, COMMENCED OPERATIONS IN JANUARY 2006. AS THE PREDECESSOR MANAGING OWNER, THE PREDECESSOR MANAGING OWNER AND ITS TRADING PRINCIPALS MANAGED THE DAY-TO-DAY OPERATIONS FOR THE FUND FROM INCEPTION UP TO AND EXCLUDING THE CLOSING DATE. BECAUSE THERE ARE LIMITED TRADING RESULTS TO COMPARE TO THE INDEX CLOSING LEVELS SET FORTH HEREIN, PROSPECTIVE INVESTORS SHOULD BE PARTICULARLY WARY OF PLACING UNDUE RELIANCE ON THE ANNUAL OR CUMULATIVE INDEX RESULTS. IN RESPECT OF ANY PERIOD, FOR THE AVOIDANCE OF DOUBT, NONE OF THE PERFORMANCE RELATED INFORMATION THAT IS COVERED HEREIN ON AND AFTER THE CLOSING DATE CAN BE ATTRIBUTED TO THE PREDECESSOR MANAGING OWNER.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

THE FUND'S PERFORMANCE INFORMATION FROM INCEPTION UP TO AND EXCLUDING THE CLOSING DATE IS A

Table of Contents

REFLECTION OF THE PERFORMANCE ASSOCIATED WITH THE PREDECESSOR MANAGING OWNER. THE MANAGING OWNER HAS SERVED AS MANAGING OWNER OF THE FUND SINCE THE CLOSING DATE, AND THE FUND'S PERFORMANCE INFORMATION SINCE THE CLOSING DATE IS A REFLECTION OF THE PERFORMANCE ASSOCIATED WITH THE MANAGING OWNER. PAST PERFORMANCE OF THE FUND IS NOT NECESSARILY INDICATIVE OF FUTURE PERFORMANCE.

2016	11.20%
2017 ¹	10.67%

¹As of January 31, 2017. Past Index levels are not necessarily indicative of future Index levels.

²Volatility, for these purposes, means the following:

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Daily Volatility: The relative rate at which the price of the Index moves up and down, found by calculating the annualized standard deviation of the daily change in price.

Monthly Return Volatility: The relative rate at which the price of the Index moves up and down, found by calculating the annualized standard deviation of the monthly change in price.

Average Annual Volatility: The average of yearly volatilities for a given sample period. The yearly volatility is the relative rate at which the price of the Index moves up and down, found by calculating the annualized standard deviation of the daily change in price for each business day in the given year.

³As of January 18, 1989. Past Index levels are not necessarily indicative of future Index levels.

The Fund tracked the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return up to and including December 31, 2010. The Fund has tracked the DBIQ Diversified Agriculture Index Excess Return since December 31, 2010. The only difference between the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return and the DBIQ Diversified Agriculture Index Excess Return is a name change.

NEITHER THE PAST PERFORMANCE OF THE FUND NOR THE PRIOR INDEX LEVELS AND CHANGES, POSITIVE AND NEGATIVE, SHOULD BE TAKEN AS AN INDICATION OF THE FUND'S FUTURE PERFORMANCE.

WHILE THE FUND'S OBJECTIVE IS NOT TO GENERATE PROFIT THROUGH ACTIVE PORTFOLIO MANAGEMENT, BUT IS TO TRACK THE INDEX, BECAUSE THE INDEX WAS ESTABLISHED IN SEPTEMBER 2009, CERTAIN INFORMATION RELATING TO INDEX CLOSING LEVELS MAY BE CONSIDERED TO BE HYPOTHETICAL. HYPOTHETICAL INFORMATION MAY HAVE CERTAIN INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW.

WITH RESPECT TO INDEX DATA, NO REPRESENTATION IS BEING MADE THAT THE INDEX WILL OR IS LIKELY TO ACHIEVE ANNUAL OR CUMULATIVE CLOSING LEVELS CONSISTENT WITH OR SIMILAR TO THOSE SET FORTH HEREIN. SIMILARLY, NO REPRESENTATION IS BEING MADE THAT THE FUND WILL GENERATE PROFITS OR LOSSES SIMILAR TO THE FUND'S PAST PERFORMANCE OR THE HISTORICAL ANNUAL OR CUMULATIVE CHANGES IN THE INDEX CLOSING LEVELS. IN FACT, THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY INVESTMENT METHODOLOGIES, WHETHER ACTIVE OR PASSIVE.

WITH RESPECT TO INDEX DATA, ONE OF THE LIMITATIONS OF HYPOTHETICAL INFORMATION IS THAT IT IS GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. TO THE EXTENT THAT INFORMATION PRESENTED HEREIN RELATES TO THE PERIOD JANUARY 1989 THROUGH AUGUST 2009, THE INDEX CLOSING LEVELS REFLECT THE APPLICATION OF THE INDEX'S METHODOLOGY, AND SELECTION OF INDEX COMMODITIES, IN HINDSIGHT.

NO HYPOTHETICAL RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THERE ARE NUMEROUS FACTORS, INCLUDING THOSE DESCRIBED UNDER "THE RISKS YOU FACE" SET

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

FORTH HEREIN, RELATED TO THE COMMODITIES MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF THE FUND'S EFFORTS TO TRACK ITS INDEX OVER TIME WHICH CANNOT BE, AND HAVE NOT BEEN, ACCOUNTED FOR IN THE PREPARATION OF SUCH INDEX INFORMATION SET FORTH ON THE FOLLOWING PAGES, ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL PERFORMANCE RESULTS FOR THE FUND. FURTHERMORE, THE INDEX INFORMATION DOES NOT INVOLVE FINANCIAL RISK OR ACCOUNT FOR THE IMPACT OF FEES AND COSTS ASSOCIATED WITH THE FUND.

Table of Contents

THE MANAGING OWNER AND ITS TRADING PRINCIPALS HAVE LIMITED EXPERIENCE MANAGING THE DAY-TO-DAY OPERATIONS FOR THE FUND AND HAVE ONLY MANAGED AN EXCHANGE-TRADED FUND THAT RELATES TO A BROAD-BASED COMMODITY INDEX FOR A SHORT PERIOD. BECAUSE THERE ARE LIMITED PERFORMANCE RESULTS OF THE MANAGING OWNER THAT ARE COMPARABLE TO THE INDEX CLOSING LEVELS SET FORTH HEREIN, PROSPECTIVE INVESTORS SHOULD BE PARTICULARLY WARY OF PLACING UNDUE RELIANCE ON THE ANNUAL OR CUMULATIVE INDEX RESULTS. FOR THE AVOIDANCE OF DOUBT, NONE OF THE PERFORMANCE RELATED INFORMATION THAT IS COVERED HEREIN UP TO AND EXCLUDING THE CLOSING DATE CAN BE ATTRIBUTED TO THE MANAGING OWNER.

THE PREDECESSOR MANAGING OWNER, AN INDIRECT WHOLLY OWNED SUBSIDIARY OF DEUTSCHE BANK AG, COMMENCED OPERATIONS IN JANUARY 2006. AS THE PREDECESSOR MANAGING OWNER, THE PREDECESSOR MANAGING OWNER AND ITS TRADING PRINCIPALS MANAGED THE DAY-TO-DAY OPERATIONS FOR THE FUND FROM INCEPTION UP TO AND EXCLUDING THE CLOSING DATE. BECAUSE THERE ARE LIMITED TRADING RESULTS TO COMPARE TO THE INDEX CLOSING LEVELS SET FORTH HEREIN, PROSPECTIVE INVESTORS SHOULD BE PARTICULARLY WARY OF PLACING UNDUE RELIANCE ON THE ANNUAL OR CUMULATIVE INDEX RESULTS. IN RESPECT OF ANY PERIOD, FOR THE AVOIDANCE OF DOUBT, NONE OF THE PERFORMANCE RELATED INFORMATION THAT IS COVERED HEREIN ON AND AFTER THE CLOSING DATE CAN BE ATTRIBUTED TO THE PREDECESSOR MANAGING OWNER.

THE FUND'S PERFORMANCE INFORMATION FROM INCEPTION UP TO AND EXCLUDING THE CLOSING DATE IS A REFLECTION OF THE PERFORMANCE ASSOCIATED WITH THE PREDECESSOR MANAGING OWNER. THE MANAGING OWNER HAS SERVED AS MANAGING OWNER OF THE FUND SINCE THE CLOSING DATE, AND THE FUND'S PERFORMANCE INFORMATION SINCE THE CLOSING DATE IS A REFLECTION OF THE PERFORMANCE ASSOCIATED WITH THE MANAGING OWNER. PAST PERFORMANCE OF THE FUND IS NOT NECESSARILY INDICATIVE OF FUTURE PERFORMANCE.

The Fund tracked the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return up to and including December 31, 2010. The Fund has tracked the DBIQ Diversified Agriculture Index Excess Return since December 31, 2010. The only difference between the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return and the DBIQ Diversified Agriculture Index Excess Return is a name change.

See accompanying Notes and Legends.

Table of Contents**NOTES AND LEGENDS:**

1. High reflects the highest closing level of the Index during the applicable year.
 2. Low reflects the lowest closing level of the Index during the applicable year.
 3. Annual Index Changes reflect the change to the Index level on an annual basis as of December 31 of each applicable year.
 4. Index Changes Since Inception reflects the change of the Index level since inception on a compounded annual basis as of December 31 of each applicable year.
 5. Closing levels as of inception on January 18, 1989.
 6. Closing levels as of January 31, 2017.
 7. The DBIQ Diversified Agriculture Index Excess Return and DBIQ Diversified Agriculture Index Total Return reflect the change in market value of C (Corn), S (Soybeans), W (Wheat), KW (Kansas City Wheat), and SB (Sugar), on an optimum yield basis, and CC (Cocoa), KC (Coffee), LC (Live Cattle), FC (Feeder Cattle), LH (Lean Hogs), and CT (Cotton), on a non-optimum yield basis.
 8. DBIQ Diversified Agriculture TR is DBIQ Diversified Agriculture Index Total Return . DBIQ Diversified Agriculture ER is DBIQ Diversified Agriculture Index Excess Return , which is the DBIQ Diversified Agriculture Index Total Return calculated on an unfunded basis. S&P Agriculture Total Return is the S&P GSCI Agriculture Index Total Return, which is a subcomponent of the S&P GSCI Commodity Index representing agricultural commodities.
 9. Annualized Changes to Index Level reflect the change to the applicable index level on an annual basis as of December 31 of each applicable year. If the Fund's Treasury Income, Money Market Income and T-Bill ETF Income, were to exceed the Fund's fees and expenses, the total return on an investment in the Fund is expected to outperform the Index and the Managing Owner expects to periodically to make distributions of the amount of such excess. If the Fund's Treasury Income, Money Market Income and T-Bill ETF Income, do not exceed the Fund's fees and expenses, the total return on an investment in the Fund is expected to underperform the Index. The market price of the Shares is expected to track the Index closely. The total return on an investment in the Fund over any period is the sum of the capital appreciation or depreciation of the Shares over the period, plus the amount of Treasury Income, Money Market Income and T-Bill Income and any distributions during the period. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs, as applicable, for margin and/or cash management purposes only.
 10. Average rolling 3 month daily volatility. The daily volatility reflects the relative rate at which the price of the applicable index moves up and down, which is found by calculating the annualized standard deviation of the daily change in price. In turn, an average of this value is calculated on a 3 month rolling basis.
 11. Sharpe Ratio compares the annualized rate of return minus the annualized risk-free rate of return to the annualized variability often referred to as the standard deviation of the monthly rates of return. A Sharpe Ratio of 1:1 or higher indicates that, according to the measures used in calculating the ratio, the rate of return achieved by a particular strategy has equaled or exceeded the risks assumed by such strategy. The risk-free rate of return that was used in these calculations was assumed to be 3.1%.
 12. % of months with positive change during the period from inception to January 31, 2017.
 13. Average monthly positive change during the period from inception to January 31, 2017.
 14. Average monthly negative change during the period from inception to January 31, 2017.
 15. Annualized Index Levels reflect the change to the level of the applicable index on an annual basis as of December 31 of each the applicable time period (e.g., 1 year, 3, 5 or 7, 10 or 15 years, as applicable).
- * Prior to October 19, 2009, the Fund tracked the Deutsche Bank Liquid Commodity Index-Optimum Yield Agriculture Excess Return . From October 19, 2009, the Fund tracked the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return .

WHILE THE FUND'S OBJECTIVE IS NOT TO GENERATE PROFIT THROUGH ACTIVE PORTFOLIO MANAGEMENT, BUT IS TO TRACK THE INDEX, BECAUSE THE INDEX WAS ESTABLISHED IN SEPTEMBER 2009, CERTAIN INFORMATION RELATING TO INDEX CLOSING LEVELS MAY BE CONSIDERED TO BE HYPOTHETICAL. HYPOTHETICAL INFORMATION MAY HAVE CERTAIN INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW.

WITH RESPECT TO INDEX DATA, NO REPRESENTATION IS BEING MADE THAT THE INDEX WILL OR IS LIKELY TO ACHIEVE ANNUAL OR CUMULATIVE CLOSING LEVELS CONSISTENT WITH OR SIMILAR TO THOSE SET FORTH HEREIN. SIMILARLY, NO REPRESENTATION IS BEING MADE THAT THE FUND WILL GENERATE PROFITS OR LOSSES SIMILAR TO THE FUND'S PAST PERFORMANCE OR THE HISTORICAL ANNUAL OR CUMULATIVE CHANGES IN THE INDEX CLOSING LEVELS. IN FACT, THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY INVESTMENT METHODOLOGIES, WHETHER ACTIVE OR PASSIVE.

Table of Contents

WITH RESPECT TO INDEX DATA, ONE OF THE LIMITATIONS OF HYPOTHETICAL INFORMATION IS THAT IT IS GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. TO THE EXTENT THAT INFORMATION PRESENTED HEREIN RELATES TO THE PERIOD JANUARY 1989 THROUGH AUGUST 2009, THE INDEX CLOSING LEVELS REFLECT THE APPLICATION OF THE INDEX'S METHODOLOGY, AND SELECTION OF INDEX COMMODITIES, IN HINDSIGHT.

NO HYPOTHETICAL RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THERE ARE NUMEROUS FACTORS, INCLUDING THOSE DESCRIBED UNDER "THE RISKS YOU FACE" SET FORTH HEREIN, RELATED TO THE COMMODITIES MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF THE FUND'S EFFORTS TO TRACK ITS INDEX OVER TIME WHICH CANNOT BE, AND HAVE NOT BEEN, ACCOUNTED FOR IN THE PREPARATION OF SUCH INDEX INFORMATION SET FORTH ON THE FOLLOWING PAGES, ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL PERFORMANCE RESULTS FOR THE FUND. FURTHERMORE, THE INDEX INFORMATION DOES NOT INVOLVE FINANCIAL RISK OR ACCOUNT FOR THE IMPACT OF FEES AND COSTS ASSOCIATED WITH THE FUND.

THE MANAGING OWNER AND ITS TRADING PRINCIPALS HAVE LIMITED EXPERIENCE MANAGING THE DAY-TO-DAY OPERATIONS FOR THE FUND AND HAVE ONLY MANAGED AN EXCHANGE-TRADED FUND THAT RELATES TO A BROAD-BASED COMMODITY INDEX FOR A SHORT PERIOD. BECAUSE THERE ARE LIMITED PERFORMANCE RESULTS OF THE MANAGING OWNER THAT ARE COMPARABLE TO THE INDEX CLOSING LEVELS SET FORTH HEREIN, PROSPECTIVE INVESTORS SHOULD BE PARTICULARLY WARY OF PLACING UNDUE RELIANCE ON THE ANNUAL OR CUMULATIVE INDEX RESULTS. FOR THE AVOIDANCE OF DOUBT, NONE OF THE PERFORMANCE RELATED INFORMATION THAT IS COVERED HEREIN UP TO AND EXCLUDING THE CLOSING DATE CAN BE ATTRIBUTED TO THE MANAGING OWNER.

THE PREDECESSOR MANAGING OWNER, AN INDIRECT WHOLLY OWNED SUBSIDIARY OF DEUTSCHE BANK AG, COMMENCED OPERATIONS IN JANUARY 2006. AS THE PREDECESSOR MANAGING OWNER, THE PREDECESSOR MANAGING OWNER AND ITS TRADING PRINCIPALS MANAGED THE DAY-TO-DAY OPERATIONS FOR THE FUND FROM INCEPTION UP TO AND EXCLUDING THE CLOSING DATE. BECAUSE THERE ARE LIMITED TRADING RESULTS TO COMPARE TO THE INDEX CLOSING LEVELS SET FORTH HEREIN, PROSPECTIVE INVESTORS SHOULD BE PARTICULARLY WARY OF PLACING UNDUE RELIANCE ON THE ANNUAL OR CUMULATIVE INDEX RESULTS. IN RESPECT OF ANY PERIOD, FOR THE AVOIDANCE OF DOUBT, NONE OF THE PERFORMANCE RELATED INFORMATION THAT IS COVERED HEREIN ON AND AFTER THE CLOSING DATE CAN BE ATTRIBUTED TO THE PREDECESSOR MANAGING OWNER.

THE FUND'S PERFORMANCE INFORMATION FROM INCEPTION UP TO AND EXCLUDING THE CLOSING DATE IS A REFLECTION OF THE PERFORMANCE ASSOCIATED WITH THE PREDECESSOR MANAGING OWNER. THE MANAGING OWNER HAS SERVED AS MANAGING OWNER OF THE FUND SINCE THE CLOSING DATE, AND THE FUND'S PERFORMANCE INFORMATION SINCE THE CLOSING DATE IS A REFLECTION OF THE PERFORMANCE ASSOCIATED WITH THE MANAGING OWNER. PAST PERFORMANCE OF THE FUND IS NOT NECESSARILY INDICATIVE OF FUTURE PERFORMANCE.

The Fund tracked the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return up to and including December 31, 2010. The Fund has tracked the DBIQ Diversified Agriculture Index Excess Return since December 31, 2010. The only difference between the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return and the DBIQ Diversified Agriculture Index Excess Return is a name change.

PowerShares DB Agriculture Fund (the "Fund") is not sponsored or endorsed by Deutsche Bank AG, Deutsche Bank Securities Inc. or any subsidiary or affiliate of Deutsche Bank AG or Deutsche Bank Securities Inc. (collectively, "Deutsche Bank"). The DBIQ Diversified Agriculture Index Excess Return (the "DB Index") is the exclusive property of Deutsche Bank Securities Inc. DBIQ is a service mark of Deutsche Bank AG.

Table of Contents

USE OF PROCEEDS

Proceeds of the offering of the Shares are used by the Fund to engage in the trading of exchange-traded futures on its Index Commodities with a view to tracking the changes, positive or negative, in the level of the Index over time, less the expenses of the operations of the Fund. The Fund holds a portfolio of futures contracts on the Index Commodities and United States Treasury Securities for deposit with the Fund's Commodity Broker as margin and United States Treasury Securities, cash and money market mutual funds (affiliated or otherwise) on deposit with the Custodian (for cash management purposes). Additionally, the Fund gains an exposure to United States Treasury Securities with a maximum remaining maturity of up to 12 months through its holdings of T-Bill ETFs (affiliated or otherwise). Such holdings of T-Bill ETFs are also on deposit with the Custodian (for cash management purposes) and may be held by the Fund's Commodity Broker as margin, to the extent permissible under CFTC rules. Approximately 11% of the Fund's NAV is required to be posted as collateral with respect to its holdings of futures contracts on the Index Commodities as of January 31, 2017. Collateral requirements are initially set by the applicable futures exchanges. The Commodity Broker applies an additional collateral requirement based on a number of factors, including, but not limited to, volatility, concentration, percentage of open interest, and position size with respect to the futures contracts on the Index Commodities. For purposes of calculating the approximate percentage of the Fund's NAV that was posted as collateral, the Fund's aggregate assets under management reflected the sum of the Fund's holdings of Treasury Securities, money market mutual funds, T-Bill ETFs, cash and the value of the futures contracts on the Index Commodities that have been marked to market as of January 31, 2017.

The Fund trades exchange-traded futures contracts on the commodities comprising the DBIQ Diversified Agriculture Index Excess Return, or the Index, with a view to tracking the Index over time. The Index, which is comprised of one or more underlying commodities, or Index Commodities, is intended to reflect the agricultural sector. The Index Commodities consist of Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs.

To the extent that the Fund trades in futures contracts on United States exchanges, the assets deposited by the Fund with its Commodity Broker as

margin must be segregated pursuant to the regulations of the CFTC. Such segregated funds may be invested only in a limited range of instruments principally U.S. government obligations.

To the extent, if any, that the Fund trades in futures on markets other than regulated United States futures exchanges, funds deposited to margin positions held on such exchanges are invested in bank deposits or in instruments of a credit standing generally comparable to those authorized by the CFTC for investment of customer segregated funds, although applicable CFTC rules prohibit funds employed in trading on foreign exchanges from being deposited in customer segregated fund accounts.

Although the following percentages may vary substantially over time, as of the date of this Prospectus, the Fund estimates that approximately 11% of the NAV of the Fund will be required to be maintained in segregated accounts in the name of the Fund with the Commodity Broker in the form of United States Treasury bills, cash, money market mutual funds and T-Bill ETFs. Such funds are segregated pursuant to CFTC rules.

In addition, approximately 89% of the NAV of the Fund will not be required to margin positions. Such assets may be used for cash management purposes and may be maintained in United States bank accounts opened in the name of the Fund and may be held in United States Treasury Securities, money market mutual funds (affiliated or otherwise), T-Bill ETFs (affiliated or otherwise) (or other securities approved by the CFTC for investment of customer funds), and such assets will be held by the Custodian.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

The Managing Owner, a registered commodity pool operator, commodity trading advisor, and swap firm, is responsible for the cash management activities of the Fund, including investing in United States Treasury Securities, United States Government Agencies issues, money market mutual funds (affiliated or otherwise) and T-Bill ETFs (affiliated or otherwise), as applicable, for cash management purposes.

In addition, assets of the Fund not required to margin positions may be used for cash management purposes and may be maintained in United States bank accounts opened in the name of the Fund and may be held in United States Treasury Securities, money market mutual funds (affiliated or otherwise), and T-Bill ETFs (affiliated or otherwise), as

Table of Contents

applicable, (or other securities approved by the CFTC for investment of customer funds) and such assets will be held by the Custodian.

The Fund receives 100% of its Treasury Income, Money Market Income and T-Bill ETF Income.

CHARGES

See Summary Breakeven Amounts and Summary Breakeven Table for additional breakeven related information.

Management Fee

The Fund pays the Managing Owner a Management Fee, monthly in arrears, in an amount equal to 0.85% per annum of its daily NAV. The Management Fee is paid in consideration of the Managing Owner's commodity futures trading advisory services.

The Fund may, for cash management purposes, invest in money market mutual funds and/or T-Bill ETFs that are managed by affiliates of the Managing Owner. The indirect portion of the management fee that the Fund may incur through such investments are in addition to the Management Fee paid to the Managing Owner. The Managing Owner has contractually agreed to waive the fees that it receives in an amount equal to the indirect management fees that the Fund incurs through its investments in affiliated money market mutual funds and/or affiliated T-Bill ETFs through June 20, 2018.

Organization and Offering Expenses

Expenses incurred in connection with organizing the Fund and the initial offering of the Shares were paid by DB Commodity Services LLC, referred to as either the Predecessor Managing Owner or DBCS. Expenses incurred in connection with the continuous offering of Shares from commencement of the Fund's trading operations up to and excluding February 23, 2015 were also paid by the Predecessor Managing Owner. Expenses incurred in connection with the continuous offering of Shares on and after February 23, 2015 are paid by the Managing Owner. The Managing Owner aggregates the organization and offering expenses related to the Fund and other commodity and currency pools within the PowerShares DB fund suite, and allocates the costs associated to each Fund. The Managing Owner expects that, as of the date of this Prospectus, the expenses incurred in connection with the continuous offering of Shares of the PowerShares DB fund suite

may be approximately 0.05% of the average of the Fund's NAV during the life of the currently effective registration statement, provided that this amount may vary substantially depending upon the costs associated with the registration of additional shares, the total assets of the Fund, and any other related continuous offering costs.

Organization and offering expenses relating to the Fund means those expenses incurred in connection with its formation, the qualification and registration of the Shares and in offering, distributing and processing the Shares under applicable federal law, and any other expenses actually incurred and, directly or indirectly, related to the organization of the Fund or the continuous offering of the Shares, including, but not limited to, expenses such as:

initial and ongoing registration fees, filing fees and taxes;

costs of preparing, printing (including typesetting), amending, supplementing, mailing and distributing the Registration Statement, the exhibits thereto and the Prospectus;

the costs of qualifying, printing (including typesetting), amending, supplementing, mailing and distributing sales materials used in connection with the offering and issuance of the Shares;

travel, telegraph, telephone and other expenses in connection with the offering and issuance of the Shares; and

accounting, auditing and legal fees (including disbursements related thereto) incurred in connection therewith.

The Managing Owner will not allocate to the Fund the indirect expenses of the Managing Owner.

The pro-rated amount of the original organization and offering expenses for the Fund offered pursuant to this Prospectus was approximately \$520,833 and was paid by the Predecessor Managing Owner.

Brokerage Commissions and Fees

The Fund pays to the Commodity Broker all brokerage commissions, including applicable exchange fees, NFA fees, give-up fees, pit brokerage fees and other transaction related fees and expenses

Table of Contents

charged in connection with its trading activities. On average, total charges paid to the Commodity Broker are expected to be less than \$7.00 per round-turn trade, although the Commodity Broker's brokerage commissions and trading fees are determined on a contract-by-contract basis. A round-turn trade is a completed transaction involving both a purchase and a liquidating sale, or a sale followed by a covering purchase. The Managing Owner estimates the brokerage commissions and fees will be approximately 0.04% of the NAV of the Fund in any year, although the actual amount of brokerage commissions and fees in any year or any part of any year may be greater.

Routine Operational, Administrative and Other Ordinary Expenses

The Managing Owner pays all of the routine operational, administrative and other ordinary expenses of the Fund, generally, as determined by the Managing Owner, including, but not limited to, computer services, the fees and expenses of the Trustee, license and services fees paid to DBSI as Marketing Agent and Index Sponsor, legal and accounting fees and expenses, tax preparation expenses, filing fees, and printing, mailing and duplication costs. For the avoidance of doubt, the Fund does not reimburse the Managing Owner for the routine operational, administrative and other ordinary expenses of the Fund. The Managing Owner aggregates the routine operational, administrative and other ordinary expenses related to the Fund and other commodity and currency pools within the PowerShares DB fund suite, and allocates the costs associated to each Fund. The Managing Owner expects that all of the routine operational, administrative and other ordinary expenses of the PowerShares DB fund suite will be approximately 0.36% per annum of the average of the Fund's NAV.

Non-Recurring Fees and Expenses

The Fund pays all non-recurring and unusual fees and expenses (referred to as extraordinary fees and expenses in the Trust Declaration), if any, of itself, as determined by the Managing Owner. Non-recurring and unusual fees and expenses are fees and expenses which are non-recurring and unusual in nature, such as legal claims and liabilities and litigation costs or indemnification or other unanticipated expenses. Non-recurring and unusual fees and expenses will also include material expenses which are not currently anticipated obligations of the Fund or of managed futures funds in general. Routine

operational, administrative and other ordinary expenses will not be deemed non-recurring and unusual expenses.

Management Fee and Expenses to be Paid First out of Treasury Income, Money Market Income and/or T-Bill ETF Income

The Management Fee and the brokerage commissions and fees of the Fund are paid first out of Treasury Income from the Fund's holdings of United States Treasury Securities, Money Market Income from the Fund's holdings of money market mutual funds (affiliated or otherwise) and T-Bill ETF Income from the Fund's holdings of T-Bill ETFs (affiliated or otherwise), as applicable, on deposit with the Commodity Broker as margin, the Custodian, or otherwise. If the sum of the Treasury Income, the Money Market Income and the T-Bill ETF Income, as applicable, is not sufficient to cover the fees and expenses of the Fund during any period, the excess of such fees and expenses over such Treasury Income, Money Market Income and T-Bill ETF Income, as applicable, will be paid out of income from futures trading, if any, or from sales of the Fund's United States Treasury Securities and/or holdings in money market mutual funds and/or holdings in T-Bill ETFs. For the avoidance of doubt, the Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only.

Selling Commission

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Retail investors may purchase and sell Shares through traditional brokerage accounts. Investors are expected to be charged a customary commission by their brokers in connection with purchases of Shares that will vary from investor to investor. Investors are encouraged to review the terms of their brokerage accounts for applicable charges. Also, the excess, if any, of the price at which an Authorized Participant sells a Share over the price paid by such Authorized Participant in connection with the creation of such Share in a Basket will be deemed to be underwriting compensation by the Financial Industry Regulatory Authority, or FINRA, Corporate Financing Department.

WHO MAY SUBSCRIBE

Baskets may be created or redeemed only by Authorized Participants. Each Authorized Participant must (1) be a registered broker-dealer or other

Table of Contents

securities market participant such as a bank or other financial institution which is not required to register as a broker-dealer to engage in securities transactions, (2) be a participant in DTC, and (3) have entered into an agreement with the Fund and the Managing Owner, or a Participant Agreement. The Participant Agreement sets forth the procedures for the creation and redemption of Baskets and for the delivery of cash required for such creations or redemptions. A list of the current Authorized Participants can be obtained from the Administrator. See [Creation and Redemption of Shares](#) for more details.

CREATION AND REDEMPTION OF SHARES

The Fund creates and redeems Shares from time-to-time, but only in one or more Baskets. A Basket is a block of 200,000 Shares. Baskets may be created or redeemed only by Authorized Participants. Except when aggregated in Baskets, the Shares are not redeemable securities. Authorized Participants pay a transaction fee of \$500 in connection with each order to create or redeem a Basket. Authorized Participants may sell the Shares included in the Baskets they purchase from the Fund to other investors.

Authorized Participants are the only persons that may place orders to create and redeem Baskets. Authorized Participants must be (1) registered broker-dealers or other securities market participants, such as banks and other financial institutions, which are not required to register as broker-dealers to engage in securities transactions, and (2) participants in DTC. To become an Authorized Participant, a person must enter into a Participant Agreement with the Fund and the Managing Owner. The Participant Agreement sets forth the procedures for the creation and redemption of Baskets and for the payment of cash required for such creations and redemptions. The Managing Owner may delegate its duties and obligations under the Participant Agreement to Invesco Distributors, the Administrator or the Transfer Agent without consent from any Shareholder or Authorized Participant. The Participant Agreement and the related procedures attached thereto may be amended by the Managing Owner without the consent of any Shareholder or Authorized Participant. To compensate the Transfer Agent for services in processing the creation and redemption of Baskets, an Authorized Participant is required to pay a transaction fee of \$500 per order to create or redeem Baskets. Authorized Participants who purchase Baskets from the Fund receive no fees,

commissions or other form of compensation or inducement of any kind from either the Managing Owner or the Fund, and no such person has any obligation or responsibility to the Managing Owner or the Fund to effect any sale or resale of Shares.

Authorized Participants are cautioned that some of their activities will result in their being deemed participants in a distribution in a manner which would render them statutory underwriters and subject them to the prospectus delivery and liability provisions of the Securities Act of 1933, or the Securities Act, as described in [Plan of Distribution](#).

Each Authorized Participant must be registered as a broker-dealer under the Exchange Act and regulated by FINRA, or exempt from being, or otherwise not be required to be, so regulated or registered, and qualified to act as a broker or dealer in the states or other jurisdictions where the nature of its business so requires. Certain Authorized Participants may be regulated under federal and state banking laws and regulations. Each Authorized Participant will have its own set of rules and procedures, internal controls and information barriers as it determines is appropriate in light of its own regulatory regime.

Authorized Participants may act for their own accounts or as agents for broker-dealers, custodians and other securities market participants that wish to create or redeem Baskets.

Persons interested in purchasing Baskets should contact the Managing Owner or the Administrator to obtain the contact information for the Authorized Participants. Shareholders who are not Authorized Participants will only be able to redeem their Shares through an Authorized

Participant.

Under the Participant Agreements, the Managing Owner has agreed to indemnify the Authorized Participants and certain parties related to the Authorized Participants against certain liabilities as a result of:

any breach by the Managing Owner, the Trust, or any of their respective agents or employees, of any provision of the Participant Agreement, including any representations, warranties and covenants by any of them or the Trust therein or in the Officers' Certificate (as defined in the Participant Agreement);

Table of Contents

any failure on the part of the Managing Owner to perform any obligation of the Managing Owner set forth in the Participant Agreement;

any failure by the Managing Owner to comply with applicable laws and regulations in connection with the Participant Agreement, except that the Managing Owner will not be required to indemnify a Managing Owner Indemnified Party (as defined in the Participant Agreement) to the extent that such failure was caused by the reasonable reliance on instructions given or representations made by one or more Managing Owner Indemnified Parties or the negligence or willful malfeasance of any Managing Owner Indemnified Party;

any untrue statement or alleged untrue statement of a material fact contained in the Registration Statement, of which this Prospectus is a part of, or arising out of or based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, except those statements in the Registration Statement based on information furnished in writing by or on behalf of the Authorized Participant expressly for use in the Registration Statement;

any untrue statement or alleged untrue statement of a material fact contained in a Prospectus or arising out of or based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, except those statements in this Prospectus based on information furnished in writing by or on behalf of the Authorized Participant expressly for use in such Prospectus.

As provided in the Participant Agreements, in the absence of gross negligence, bad faith or willful misconduct, neither the Managing Owner nor an Authorized Participant will be liable to each other or to any other person, including any party claiming by, through or on behalf of the Authorized Participant, for any losses, liabilities, damages, costs or expenses arising out of any mistake or error in data or other

information provided to any of them by each other or any other person or out of any interruption or delay in the electronic means of communications used by them.

The following description of the procedures for the creation and redemption of Baskets is only a summary and an investor should refer to the relevant provisions of the Trust Declaration and the form of Participant Agreement for more detail. The Trust Declaration and the form of Participant Agreement are filed as exhibits to the registration statement of which this Prospectus is a part.

Creation Procedures

On any business day, an Authorized Participant may place an order with the Transfer Agent to create one or more Baskets. For purposes of processing both creation and redemption orders, a business day means any day other than a day when banks in New York City are required or permitted to be closed. Creation orders must be placed by 10:00 a.m., Eastern time. The day on which the Transfer Agent receives a valid creation order is the creation order date. The day on which a creation order is settled is the creation order settlement date. As provided below, the creation order settlement date may occur up to 3 business days after the creation order date. By placing a creation order, and prior to delivery of such Baskets, an Authorized Participant's DTC account is charged the non-refundable transaction fee due for the creation order.

Unless otherwise agreed to by the Managing Owner and the Authorized Participant as provided in the next sentence, Baskets are issued on the creation order settlement date as of 2:45 p.m., Eastern time, on the business day immediately following the creation order date at the applicable NAV per Share as of the closing time of the NYSE Arca or the last to close of the exchanges on which its futures contracts are traded, whichever is later, on the creation order date, but only if the required payment has been timely received. Upon submission of a creation order, the Authorized Participant may request the Managing Owner to agree to a creation order settlement date up to 3 business days after the creation

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

order date. By placing a creation order, and prior to receipt of the Baskets, an Authorized Participant's DTC account is charged the non-refundable transaction fee due for the creation order.

Table of Contents

Determination of Required Payment

The total payment required to create each Basket is the NAV of 200,000 Shares as of the closing time of the NYSE Arca or the last to close of the exchanges on which its futures contracts are traded, whichever is later, on the creation order date.

Because orders to purchase Baskets must be placed by 10:00 a.m., Eastern time, but the total payment required to create a Basket will not be determined until 4:00 p.m., Eastern time, on the date the creation order is received, Authorized Participants will not know the total amount of the payment required to create a Basket at the time they submit the purchase order for the Basket. The NAV of the Fund and the total amount of the payment required to create a Basket could rise or fall substantially between the time a creation order is submitted and the time the amount of the purchase price in respect thereof is determined.

Rejection of Creation Orders

The Managing Owner or the Transfer Agent may reject a creation order if:

The Managing Owner or the Transfer Agent determines that the creation order is not in proper form;

The Managing Owner believes that the acceptance or receipt of the creation order would have adverse tax consequences to the Fund or its Shareholders; or

Circumstances outside the control of the Managing Owner or the Transfer Agent make it, for all practical purposes, not feasible to process creations of Baskets.

The Managing Owner will not be liable for the rejection of any creation order.

Redemption Procedures

The procedures by which an Authorized Participant can redeem one or more Baskets mirror the procedures for the creation of Baskets. On any business day, an Authorized Participant may place an order with the Transfer Agent to redeem one or more Baskets. Redemption orders must be placed by 10:00 a.m., Eastern time. The day on which the Managing Owner receives a valid redemption order is the redemption order date. The day on which a

redemption order is settled is the redemption order settlement date. As provided below, the redemption order settlement date may occur up to 3 business days after the redemption order date. The redemption procedures allow Authorized Participants to redeem Baskets. Individual Shareholders may not redeem directly from the Fund. Instead, individual Shareholders may only redeem Shares in integral multiples of 200,000 and only through an Authorized Participant.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Unless otherwise agreed to by the Managing Owner and the Authorized Participant as provided in the next sentence, by placing a redemption order, an Authorized Participant agrees to deliver the Baskets to be redeemed through DTC's book-entry system to the Fund not later than the redemption order settlement date as of 2:45 p.m., Eastern time, on the business day immediately following the redemption order date. Upon submission of a redemption order, the Authorized Participant may request the Managing Owner to agree to a redemption order settlement date up to 3 business days after the redemption order date. By placing a redemption order, and prior to receipt of the redemption proceeds, an Authorized Participant's DTC account is charged the non-refundable transaction fee due for the redemption order.

Determination of Redemption Proceeds

The redemption proceeds from the Fund consist of the cash redemption amount. The cash redemption amount is equal to the NAV of the number of Basket(s) requested in the Authorized Participant's redemption order as of the closing time of the NYSE Arca or the last to close of the exchanges on which its futures contracts are traded, whichever is later, on the redemption order date. The Managing Owner will distribute the cash redemption amount at 2:45 p.m., Eastern time, on the redemption order settlement date through DTC to the account of the Authorized Participant as recorded on DTC's book-entry system.

Delivery of Redemption Proceeds

The redemption proceeds due from the Fund are delivered to the Authorized Participant at 2:45 p.m., Eastern time, on the redemption order settlement date if, by such time, the Fund's DTC account has been credited with the Baskets to be redeemed. If the Fund's DTC account has not been credited with all of the Baskets to be redeemed by such time, the redemption distribution is delivered to the extent of whole Baskets received. Any remainder of the redemption distribution is delivered on the next business day to the extent of remaining whole

Table of Contents

Baskets received if the Transfer Agent receives the fee applicable to the extension of the redemption distribution date which the Managing Owner may, from time-to-time, determine and the remaining Baskets to be redeemed are credited to the Fund's DTC account by 2:45 p.m., Eastern time, on such next business day. Any further outstanding amount of the redemption order will be cancelled. The Managing Owner is also authorized to deliver the redemption distribution notwithstanding that the Baskets to be redeemed are not credited to the Fund's DTC account by 2:45 p.m., Eastern time, on the redemption order settlement date if the Authorized Participant has collateralized its obligation to deliver the Baskets through DTC's book-entry system on such terms as the Managing Owner may determine from time-to-time.

Suspension, Postponement or Rejection of Redemption Orders

In respect of the Fund, the Managing Owner may, in its discretion, suspend the right of redemption, or postpone the redemption order settlement date, for (1) any period during which an emergency exists as a result of which the redemption distribution is not reasonably practicable, or (2) such other period as the Managing Owner determines to be necessary for the protection of the Shareholders. The Managing Owner will not be liable to any person or in any way for any loss or damages that may result from any such suspension or postponement.

The Managing Owner or the Transfer Agent may reject a redemption order if the order is not in proper form as described in the Participant Agreement. The Managing Owner or the Transfer Agent will reject a redemption order if the acceptance or receipt of the order, in the opinion of its counsel, might be unlawful.

Creation and Redemption Transaction Fee

To compensate the Transfer Agent for services in processing the creation and redemption of Baskets, an Authorized Participant is required to pay a transaction fee of \$500 per order to create or redeem Baskets. An order may include multiple Baskets. The transaction fee may be reduced, increased or otherwise changed by the Managing Owner. The Managing Owner will notify DTC of any agreement to change the transaction fee and will not implement any increase in the fee for the redemption of Baskets until 30 days after the date of the notice.

Monthly account statements conforming to CFTC and NFA requirements are posted on the Managing Owner's website at <http://www.invescopowershares.com>. Additional reports may be posted on the Managing Owner's website in the discretion of the Managing Owner or as required by regulatory authorities.

THE COMMODITY BROKER

A variety of executing brokers executes futures transactions on behalf of the Fund. Such executing brokers give-up all such transactions to Morgan Stanley & Co. LLC, a Delaware limited liability company, which serves as the Fund's clearing broker, or Commodity Broker. In its capacity as clearing broker, the Commodity Broker may execute or receive transactions executed by others and clears all of the Fund's futures transactions and performs certain administrative and custodial services for the Fund. Morgan Stanley & Co. LLC is also registered with the

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Commodity Futures Trading Commission as a futures commission merchant and is a member of the National Futures Association in such capacity.

On June 1, 2011, Morgan Stanley & Co. Incorporated converted from a Delaware corporation to a Delaware limited liability company. As a result of that conversion, Morgan Stanley & Co. Incorporated is now named Morgan Stanley & Co. LLC (MS&Co. or the Company).

MS&Co. is a wholly-owned, indirect subsidiary of Morgan Stanley, a Delaware holding company. Morgan Stanley files periodic reports with the Securities and Exchange Commission as required by the Exchange Act, which include current descriptions of material litigation and material proceedings and investigations, if any, by governmental and/or regulatory agencies or self-regulatory organizations concerning Morgan Stanley and its subsidiaries, including MS&Co. As a consolidated subsidiary of Morgan Stanley, MS&Co. does not file its own periodic reports with the SEC that contain descriptions of material litigation, proceedings and investigations. As a result, we refer you to the Legal Proceedings section of Morgan Stanley's SEC 10-K filings for 2016, 2015, 2014, 2013, and 2012.

In addition to the matters described in those filings, in the normal course of business, each of Morgan Stanley and MS&Co. has been named, from time to time, as a defendant in various legal actions, including arbitrations, class actions, and other litigation, arising in connection with its activities as a global diversified financial services institution.

Table of Contents

Certain of the legal actions include claims for substantial compensatory and/or punitive damages or claims for indeterminate amounts of damages. Each of Morgan Stanley and MS&Co. is also involved, from time to time, in investigations and proceedings by governmental and/or regulatory agencies or self-regulatory organizations, certain of which may result in adverse judgments, fines or penalties. The number of these investigations and proceedings has increased in recent years with regard to many financial services institutions, including Morgan Stanley and MS&Co.

MS&Co. is a Delaware limited liability company with its main business office located at 1585 Broadway, New York, New York 10036. Among other registrations and memberships, MS&Co. is registered as a futures commission merchant and is a member of the National Futures Association.

Regulatory and Governmental Matters.

In the normal course of business, Morgan Stanley receives subpoenas and requests for information from certain federal and state regulatory and governmental entities, including among others various members of the RMBS Working Group of the Financial Fraud Enforcement Task Force, such as the United States Department of Justice, Civil Division and several state Attorney General's Offices, concerning the origination, financing, purchase, securitization and servicing of subprime and non-subprime residential mortgages and related matters such as residential mortgage backed securities (RMBS), collateralized debt obligations (CDOs), structured investment vehicles (SIVs) and credit default swaps backed by or referencing mortgage pass-through certificates. These matters, some of which are in advanced stages, include, but are not limited to, investigations related to MS&Co.'s due diligence on the loans that it purchased for securitization, MS&Co.'s communications with ratings agencies, MS&Co.'s disclosures to investors, and MS&Co.'s handling of servicing and foreclosure related issues.

On February 25, 2015, MS&Co. reached an agreement in principle with the United States Department of Justice, Civil Division and the United States Attorney's Office for the Northern District of California, Civil Division (collectively, the Civil Division) to pay \$2.6 billion to resolve certain claims that the Civil Division indicated it intended to bring against MS&Co. That settlement was finalized on February 10, 2016.

On April 1, 2016, the California Attorney General's Office filed an action against MS&Co. and certain affiliates in California state court styled *California v. Morgan Stanley, et al.*, on behalf of California investors, including the California Public Employees' Retirement System and the California Teachers' Retirement System. The complaint alleges that MS&Co. made misrepresentations and omissions regarding residential mortgage-backed securities and notes issued by the Cheyne SIV, and asserts violations of the California False Claims Act and other state laws and seeks treble damages, civil penalties, disgorgement, and injunctive relief.

In October 2014, the Illinois Attorney General's Office (ILAG) sent a letter to MS&Co. alleging that MS&Co. knowingly made misrepresentations related to RMBS purchased by certain pension funds affiliated with the State of Illinois and demanding that MS&Co. pay ILAG approximately \$88 million. MS&Co. and ILAG reached an agreement to resolve the matter on February 10, 2016.

On January 13, 2015, the New York Attorney General's Office (NYAG), which is also a member of the RMBS Working Group, indicated that it intends to file a lawsuit related to approximately 30 subprime securitizations sponsored by MS&Co. NYAG indicated that the lawsuit would allege that MS&Co. misrepresented or omitted material information related to the due diligence, underwriting and valuation of the loans in the securitizations and the properties securing them and indicated that its lawsuit would be brought under the Martin Act. MS&Co. and NYAG reached an agreement to resolve the matter on February 10, 2016.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

On June 5, 2012, MS&Co. consented to and became the subject of an Order Instituting Proceedings Pursuant to Sections 6(c) and 6(d) of the Commodity Exchange Act, as amended, Making Findings and Imposing Remedial Sanctions by The Commodity Futures Trading Commission (CFTC) to resolve allegations related to the failure of a salesperson to comply with exchange rules that prohibit off-exchange futures transactions unless there is an Exchange for Related Position (EFRP). Specifically, the CFTC found that from April 2008 through October 2009, MS&Co. violated Section 4c(a) of the Commodity Exchange Act and Commission Regulation 1.38 by executing, processing and reporting numerous off-exchange futures trades to the Chicago Mercantile Exchange (CME) and Chicago Board of Trade (CBOT) as EFRPs in violation of CME and CBOT rules because

Table of Contents

those trades lacked the corresponding and related cash, OTC swap, OTC option, or other OTC derivative position. In addition, the CFTC found that MS&Co. violated CFTC Regulation 166.3 by failing to supervise the handling of the trades at issue and failing to have adequate policies and procedures designed to detect and deter the violations of the Act and Regulations. Without admitting or denying the underlying allegations and without adjudication of any issue of law or fact, MS&Co. accepted and consented to entry of findings and the imposition of a cease and desist order, a fine of \$5,000,000, and undertakings related to public statements, cooperation and payment of the fine. MS&Co. entered into corresponding and related settlements with the CME and CBOT in which the CME found that MS&Co. violated CME Rules 432.Q and 538 and fined MS&Co. \$750,000 and CBOT found that MS&Co. violated CBOT Rules 432.Q and 538 and fined MS&Co. \$1,000,000.

On July 23, 2014, the U.S. Securities and Exchange Commission (SEC) approved a settlement by MS&Co. and certain affiliates to resolve an investigation related to certain subprime RMBS transactions sponsored and underwritten by those entities in 2007. Pursuant to the settlement, MS&Co. and certain affiliates were charged with violating Sections 17(a)(2) and 17(a)(3) of the Securities Act, agreed to pay disgorgement and penalties in an amount of \$275 million and neither admitted nor denied the SEC's findings.

On April 21, 2015, the Chicago Board Options Exchange, Incorporated (CBOE) and the CBOE Futures Exchange, LLC (CFE) filed statements of charges against MS&Co. in connection with trading by one of MS&Co.'s former traders of EEM options contracts that allegedly disrupted the final settlement price of the November 2012 VXEM futures. CBOE alleged that MS&Co. violated CBOE Rules 4.1, 4.2 and 4.7, Sections 9(a) and 10(b) of the Securities Exchange Act of 1934, and Rule 10b-5 thereunder. CFE alleged that MS&Co. violated CFE Rules 608, 609 and 620. Both matters are ongoing.

On June 18, 2015, MS&Co. entered into a settlement with the SEC and paid a fine of \$500,000 as part of the MCDC Initiative to resolve allegations that MS&Co. failed to form a reasonable basis through adequate due diligence for believing the truthfulness of the assertions by issuers and/or obligors regarding their compliance with previous continuing disclosure undertakings pursuant to Rule

15c2-12 in connection with offerings in which MS&Co. acted as senior or sole underwriter.

On August 6, 2015, MS&Co. consented to and became the subject of an order by the CFTC to resolve allegations that MS&Co. violated CFTC Regulation 22.9(a) by failing to hold sufficient US Dollars in cleared swap segregated accounts in the United States to meet all US Dollar obligations to cleared swaps customers. Specifically, the CFTC found that while MS&Co. at all times held sufficient funds in segregation to cover its obligations to its customers, on certain days during 2013 and 2014, it held currencies, such as euros, instead of US dollars, to meet its US dollar obligations. In addition, the CFTC found that MS&Co. violated Regulation 166.3 by failing to have in place adequate procedures to ensure that it complied with Regulation 22.9(a). Without admitting or denying the findings or conclusions and without adjudication of any issue of law or fact, MS&Co. accepted and consented to the entry of findings, the imposition of a cease and desist order, a civil monetary penalty of \$300,000, and undertakings related to public statements, cooperation, and payment of the monetary penalty.

Civil Litigation

On December 23, 2009, the Federal Home Loan Bank of Seattle filed a complaint against MS&Co. and another defendant in the Superior Court of the State of Washington, styled *Federal Home Loan Bank of Seattle v. Morgan Stanley & Co. Inc., et al.* The amended complaint, filed on September 28, 2010, alleges that defendants made untrue statements and material omissions in the sale to plaintiff of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly sold to plaintiff by MS&Co. was approximately \$233 million. The complaint raises claims under the Washington State Securities Act and seeks, among other things, to rescind the plaintiff's purchase of such certificates. By orders dated June 23, 2011 and July 18, 2011, the court denied defendants' omnibus motion to dismiss plaintiff's amended complaint and on August 15, 2011, the court denied MS&Co.'s individual motion to dismiss the amended complaint. On March 7, 2013, the court granted defendants' motion to strike plaintiff's demand for a jury trial. The defendants' joint

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

motions for partial summary judgment were denied on November 9, 2015. At March 25, 2016, the current unpaid balance of the mortgage pass-through certificates at issue in this action was approximately \$45 million, and the

Table of Contents

certificates had not yet incurred actual losses. Based on currently available information, MS&Co. believes it could incur a loss in this action up to the difference between the \$45 million unpaid balance of these certificates (plus any losses incurred) and their fair market value at the time of a judgment against MS&Co., plus pre- and post-judgment interest, fees and costs. MS&Co. may be entitled to be indemnified for some of these losses and to an offset for interest received by the plaintiff prior to a judgment.

On March 15, 2010, the Federal Home Loan Bank of San Francisco filed a complaint against MS&Co. and other defendants in the Superior Court of the State of California styled *Federal Home Loan Bank of San Francisco v. Deutsche Bank Securities Inc. et al.* An amended complaint, filed on June 10, 2010, alleges that defendants made untrue statements and material omissions in connection with the sale to plaintiff of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The amount of certificates allegedly sold to plaintiff by MS&Co. was approximately \$276 million. The complaint raises claims under both the federal securities laws and California law and seeks, among other things, to rescind the plaintiff's purchase of such certificates. On August 11, 2011, plaintiff's federal securities law claims were dismissed with prejudice. On February 9, 2012, defendants' demurrers with respect to all other claims were overruled. On December 20, 2013, plaintiff's negligent misrepresentation claims were dismissed with prejudice. At March 25, 2016, the current unpaid balance of the mortgage pass-through certificates at issue in these cases was approximately \$56 million, and the certificates had incurred actual losses of approximately \$1 million. Based on currently available information, MS&Co. believes it could incur a loss for this action up to the difference between the \$56 million unpaid balance of these certificates (plus any losses incurred) and their fair market value at the time of a judgment against MS&Co., or upon sale, plus pre- and post-judgment interest, fees and costs. MS&Co. may be entitled to be indemnified for some of these losses and to an offset for interest received by the plaintiff prior to a judgment.

On July 15, 2010, China Development Industrial Bank (CDIB) filed a complaint against MS&Co., styled *China Development Industrial Bank v. Morgan Stanley & Co. Incorporated et al.*, which is pending in the Supreme Court of the State of New York, New York County (Supreme Court of NY). The complaint relates to a \$275 million credit default

swap referencing the super senior portion of the STACK 2006-1 CDO. The complaint asserts claims for common law fraud, fraudulent inducement and fraudulent concealment and alleges that MS&Co. misrepresented the risks of the STACK 2006-1 CDO to CDIB, and that MS&Co. knew that the assets backing the CDO were of poor quality when it entered into the credit default swap with CDIB. The complaint seeks compensatory damages related to the approximately \$228 million that CDIB alleges it has already lost under the credit default swap, rescission of CDIB's obligation to pay an additional \$12 million, punitive damages, equitable relief, fees and costs. On February 28, 2011, the court denied MS&Co.'s motion to dismiss the complaint. Based on currently available information, MS&Co. believes it could incur a loss of up to approximately \$240 million plus pre- and post-judgment interest, fees and costs.

On October 15, 2010, the Federal Home Loan Bank of Chicago filed a complaint against MS&Co. and other defendants in the Circuit Court of the State of Illinois, styled *Federal Home Loan Bank of Chicago v. Bank of America Funding Corporation et al.* A corrected amended complaint was filed on April 8, 2011. The corrected amended complaint alleges that defendants made untrue statements and material omissions in the sale to plaintiff of a number of mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans and asserts claims under Illinois law. The total amount of certificates allegedly sold to plaintiff by MS&Co. at issue in the action was approximately \$203 million. The complaint seeks, among other things, to rescind the plaintiff's purchase of such certificates. The defendants filed a motion to dismiss the corrected amended complaint on May 27, 2011, which was denied on September 19, 2012. On December 13, 2013, the court entered an order dismissing all claims related to one of the securitizations at issue. After that dismissal, the remaining amount of certificates allegedly issued by MS&Co. or sold to plaintiff by MS&Co. was approximately \$78 million. At March 25, 2016, the current unpaid balance of the mortgage pass-through certificates at issue in this action was approximately \$50 million, and the certificates had not yet incurred actual losses. Based on currently available information, MS&Co. believes it could incur a loss in this action up to the difference between the \$50 million unpaid balance of these certificates (plus any losses incurred) and their fair market value at the time of a judgment against MS&Co., plus pre- and post-judgment interest, fees and costs. MS&Co. may

Table of Contents

be entitled to be indemnified for some of these losses and to an offset for interest received by the plaintiff prior to a judgment.

On April 20, 2011, the Federal Home Loan Bank of Boston filed a complaint against MS&Co. and other defendants in the Superior Court of the Commonwealth of Massachusetts styled *Federal Home Loan Bank of Boston v. Ally Financial, Inc. F/K/A GMAC LLC et al.* An amended complaint was filed on June 29, 2012 and alleges that defendants made untrue statements and material omissions in the sale to plaintiff of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly issued by MS&Co. or sold to plaintiff by MS&Co. was approximately \$385 million. The amended complaint raises claims under the Massachusetts Uniform Securities Act, the Massachusetts Consumer Protection Act and common law and seeks, among other things, to rescind the plaintiff's purchase of such certificates. On May 26, 2011, defendants removed the case to the United States District Court for the District of Massachusetts. The defendants' motions to dismiss the amended complaint were granted in part and denied in part on September 30, 2013. On November 25, 2013, July 16, 2014, and May 19, 2015, respectively, the plaintiff voluntarily dismissed its claims against MS&Co. with respect to three of the securitizations at issue. After these voluntary dismissals, the remaining amount of certificates allegedly issued by MS&Co. or sold to plaintiff by MS&Co. was approximately \$332 million. At March 25, 2016, the current unpaid balance of the mortgage pass-through certificates at issue in this action was approximately \$54 million, and the certificates had not yet incurred actual losses. Based on currently available information, MS&Co. believes it could incur a loss in this action up to the difference between the \$54 million unpaid balance of these certificates (plus any losses incurred) and their fair market value at the time of a judgment against MS&Co., or upon sale, plus pre- and post-judgment interest, fees and costs. MS&Co. may be entitled to be indemnified for some of these losses and to an offset for interest received by the plaintiff prior to a judgment.

On May 3, 2013, plaintiffs in *Deutsche Zentral-Genossenschaftsbank AG et al. v. Morgan Stanley et al.* filed a complaint against MS&Co., certain affiliates, and other defendants in the Supreme Court of NY. The complaint alleges that defendants made material misrepresentations and omissions in the sale

to plaintiffs of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly sponsored, underwritten and/or sold by MS&Co. to plaintiff currently at issue in this action was approximately \$644 million. The complaint alleges causes of action against MS&Co. for common law fraud, fraudulent concealment, aiding and abetting fraud, negligent misrepresentation, and rescission and seeks, among other things, compensatory and punitive damages. On June 10, 2014, the court granted in part and denied in part MS&Co.'s motion to dismiss the complaint. MS&Co. perfected its appeal from that decision on June 12, 2015. At March 25, 2016, the current unpaid balance of the mortgage pass-through certificates at issue in this action was approximately \$263 million, and the certificates had incurred actual losses of approximately \$84 million. Based on currently available information, MS&Co. believes it could incur a loss in this action up to the difference between the \$263 million unpaid balance of these certificates (plus any losses incurred) and their fair market value at the time of a judgment against MS&Co., or upon sale, plus pre- and post-judgment interest, fees and costs. MS&Co. may be entitled to be indemnified for some of these losses.

On May 17, 2013, plaintiff in *IKB International S.A. in Liquidation, et al. v. Morgan Stanley, et al.* filed a complaint against MS&Co. and certain affiliates in the Supreme Court of NY. The complaint alleges that defendants made material misrepresentations and omissions in the sale to plaintiff of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly sponsored, underwritten and/or sold by MS&Co. to plaintiff was approximately \$132 million. The complaint alleges causes of action against MS&Co. for common law fraud, fraudulent concealment, aiding and abetting fraud, and negligent misrepresentation, and seeks, among other things, compensatory and punitive damages. On October 29, 2014, the court granted in part and denied in part MS&Co.'s motion to dismiss. All claims regarding four certificates were dismissed. After these dismissals, the remaining amount of certificates allegedly issued by MS&Co. or sold to plaintiff by MS&Co. was approximately \$116 million. On August 26, 2015, MS&Co. perfected its appeal from the court's October 29, 2014 decision. At March 25, 2016, the current unpaid balance of the mortgage pass-through certificates at issue in this action was approximately \$28 million, and the certificates had

Table of Contents

incurred actual losses of \$58 million. Based on currently available information, MS&Co. believes it could incur a loss in this action up to the difference between the \$28 million unpaid balance of these certificates (plus any losses incurred) and their fair market value at the time of a judgment against MS&Co., or upon sale, plus pre- and post-judgment interest, fees and costs. MS&Co. may be entitled to be indemnified for some of these losses and to an offset for interest received by the plaintiff prior to a judgment.

Settled Civil Litigation

On August 25, 2008, MS&Co. and two ratings agencies were named as defendants in a purported class action related to securities issued by a structured investment vehicle called Cheyne Finance PLC and Cheyne Finance LLC (together, the Cheyne SIV). The case was styled *Abu Dhabi Commercial Bank, et al. v. Morgan Stanley & Co. Inc., et al.* The complaint alleged, among other things, that the ratings assigned to the securities issued by the Cheyne SIV were false and misleading, including because the ratings did not accurately reflect the risks associated with the subprime residential mortgage backed securities held by the Cheyne SIV. The plaintiffs asserted allegations of aiding and abetting fraud and negligent misrepresentation relating to approximately \$852 million of securities issued by the Cheyne SIV. On April 24, 2013, the parties reached an agreement to settle the case, and on April 26, 2013, the court dismissed the action with prejudice.

On March 15, 2010, the Federal Home Loan Bank of San Francisco filed a complaint against MS&Co. and other defendants in the Superior Court of the State of California styled *Federal Home Loan Bank of San Francisco v. Credit Suisse Securities (USA) LLC, et al.* An amended complaint filed on June 10, 2010 alleged that defendants made untrue statements and material omissions in connection with the sale to plaintiff of a number of mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The amount of certificates allegedly sold to plaintiff by MS&Co. was approximately \$704 million. The complaint raised claims under both the federal securities laws and California law and sought, among other things, to rescind the plaintiff's purchase of such certificates. On January 26, 2015, as a result of a settlement with certain other defendants, the plaintiff requested and the court subsequently entered a dismissal with

prejudice of certain of the plaintiff's claims, including all remaining claims against MS&Co.

On July 9, 2010 and February 11, 2011, Cambridge Place Investment Management Inc. filed two separate complaints against MS&Co. and/or its affiliates and other defendants in the Superior Court of the Commonwealth of Massachusetts, both styled *Cambridge Place Investment Management Inc. v. Morgan Stanley & Co., Inc., et al.* The complaints asserted claims on behalf of certain clients of plaintiff's affiliates and allege that defendants made untrue statements and material omissions in the sale of a number of mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly issued by MS&Co. and/or its affiliates or sold to plaintiff's affiliates' clients by MS&Co. and/or its affiliates in the two matters was approximately \$263 million. On February 11, 2014, the parties entered into an agreement to settle the litigation. On February 20, 2014, the court dismissed the action.

On October 25, 2010, MS&Co., certain affiliates and Pinnacle Performance Limited, a special purpose vehicle (SPV), were named as defendants in a purported class action in the United States District Court for the Southern District of New York (SDNY), styled *Ge Dandong, et al. v. Pinnacle Performance Ltd., et al.* On January 31, 2014, the plaintiffs in the action, which related to securities issued by the SPV in Singapore, filed a second amended complaint, which asserted common law claims of fraud, aiding and abetting fraud, fraudulent inducement, aiding and abetting fraudulent inducement, and breach of the implied covenant of good faith and fair dealing. On July 17, 2014, the parties reached an agreement to settle the litigation, which received final court approval on July 2, 2015.

On July 5, 2011, Allstate Insurance Company and certain of its affiliated entities filed a complaint against MS&Co. in the Supreme Court of NY, styled *Allstate Insurance Company, et al. v. Morgan Stanley, et al.* An amended complaint was filed on September 9, 2011, and alleges that the defendants made untrue statements and material omissions in the sale to the plaintiffs of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly issued and/or sold to the plaintiffs by

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

MS&Co. was approximately \$104 million. The complaint raised common law claims of fraud, fraudulent inducement, aiding and abetting fraud, and negligent misrepresentation and seeks,

Table of Contents

among other things, compensatory and/or recessionary damages associated with the plaintiffs' purchases of such certificates. On March 15, 2013, the court denied in substantial part the defendants' motion to dismiss the amended complaint, which order MS&Co. appealed on April 11, 2013. On May 3, 2013, MS&Co. filed its answer to the amended complaint. On January 16, 2015, the parties reached an agreement to settle the litigation.

On July 18, 2011, the Western and Southern Life Insurance Company and certain affiliated companies filed a complaint against MS&Co. and other defendants in the Court of Common Pleas in Ohio, styled *Western and Southern Life Insurance Company, et al. v. Morgan Stanley Mortgage Capital Inc., et al.* An amended complaint was filed on April 2, 2012 and alleges that defendants made untrue statements and material omissions in the sale to plaintiffs of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The amount of the certificates allegedly sold to plaintiffs by MS&Co. was approximately \$153 million. On June 8, 2015, the parties reached an agreement to settle the litigation.

On September 2, 2011, the Federal Housing Finance Agency (FHFA), as conservator for Fannie Mae and Freddie Mac, filed 17 complaints against numerous financial services companies, including MS&Co. and certain affiliates. A complaint against MS&Co. and certain affiliates and other defendants was filed in the Supreme Court of NY, styled *Federal Housing Finance Agency, as Conservator v. Morgan Stanley et al.* The complaint alleges that defendants made untrue statements and material omissions in connection with the sale to Fannie Mae and Freddie Mac of residential mortgage pass-through certificates with an original unpaid balance of approximately \$11 billion. The complaint raised claims under federal and state securities laws and common law and seeks, among other things, rescission and compensatory and punitive damages. On February 7, 2014, the parties entered into an agreement to settle the litigation. On February 20, 2014, the court dismissed the action.

On April 25, 2012, Metropolitan Life Insurance Company and certain affiliates filed a complaint against MS&Co. and certain affiliates in the Supreme Court of NY, styled *Metropolitan Life Insurance Company, et al. v. Morgan Stanley, et al.* An amended complaint was filed on June 29, 2012, and alleges that the defendants made untrue statements and material omissions in the sale to the plaintiffs of

certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly sponsored, underwritten, and/or sold by MS&Co. was approximately \$758 million. The amended complaint raised common law claims of fraud, fraudulent inducement, and aiding and abetting fraud and seeks, among other things, rescission, compensatory, and/or rescissionary damages, as well as punitive damages, associated with the plaintiffs' purchases of such certificates. On April 11, 2014, the parties entered into a settlement agreement.

On April 25, 2012, The Prudential Insurance Company of America and certain affiliates filed a complaint against MS&Co. and certain affiliates in the Superior Court of the State of New Jersey, styled *The Prudential Insurance Company of America, et al. v. Morgan Stanley, et al.* On October 16, 2012, plaintiffs filed an amended complaint. The amended complaint alleged that defendants made untrue statements and material omissions in connection with the sale to plaintiffs of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly sponsored, underwritten and/or sold by MS&Co. was approximately \$1.073 billion. The amended complaint raises claims under the New Jersey Uniform Securities Law, as well as common law claims of negligent misrepresentation, fraud, fraudulent inducement, equitable fraud, aiding and abetting fraud, and violations of the New Jersey RICO statute, and includes a claim for treble damages. On January 8, 2016, the parties reached an agreement to settle the litigation.

In re Morgan Stanley Mortgage Pass-Through Certificates Litigation, which had been pending in the SDNY, was a putative class action involving allegations that, among other things, the registration statements and offering documents related to the offerings of certain mortgage pass-through certificates in 2006 and 2007 contained false and misleading information concerning the pools of residential loans that backed these securitizations. On December 18, 2014, the parties' agreement to settle the litigation received final court approval, and on December 19, 2014, the court entered an order dismissing the action.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

On November 4, 2011, the Federal Deposit Insurance Corporation (FDIC), as receiver for Franklin Bank S.S.B, filed two complaints against MS&Co. in the District Court of the State of Texas. Each was styled *Federal Deposit Insurance*

Table of Contents

Corporation as Receiver for Franklin Bank, S.S.B v. Morgan Stanley & Company LLC F/K/A Morgan Stanley & Co. Inc. and alleged that MS&Co. made untrue statements and material omissions in connection with the sale to plaintiff of mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The amount of certificates allegedly underwritten and sold to plaintiff by MS&Co. in these cases was approximately \$67 million and \$35 million, respectively. On July 2, 2015, the parties reached an agreement to settle the litigation.

On February 14, 2013, Bank Hapoalim B.M. filed a complaint against MS&Co. and certain affiliates in the Supreme Court of NY, styled *Bank Hapoalim B.M. v. Morgan Stanley et al.* The complaint alleges that defendants made material misrepresentations and omissions in the sale to plaintiff of certain mortgage pass-through certificates backed by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly sponsored, underwritten and/or sold by MS&Co. to plaintiff was approximately \$141 million. On July 28, 2015, the parties reached an agreement to settle the litigation, and on August 12, 2015, the plaintiff filed a stipulation of discontinuance with prejudice.

On September 23, 2013, the plaintiff in *National Credit Union Administration Board v. Morgan Stanley & Co. Inc., et al.* filed a complaint against MS&Co. and certain affiliates in the SDNY. The complaint alleged that defendants made untrue statements of material fact or omitted to state material facts in the sale to the plaintiff of certain mortgage pass-through certificates issued by securitization trusts containing residential mortgage loans. The total amount of certificates allegedly sponsored, underwritten and/or sold by MS&Co. to plaintiffs in the matter was approximately \$417 million. The complaint alleged violations of federal and various state securities laws and sought, among other things, rescissory and compensatory damages. On November 23, 2015, the parties reached an agreement to settle the matter.

On September 16, 2014, the Virginia Attorney General's Office filed a civil lawsuit, styled Commonwealth of Virginia ex rel. Integra REC LLC v. Barclays Capital Inc., et al., against MS&Co. and several other defendants in the Circuit Court of the City of Richmond related to RMBS. The lawsuit alleged that MS&Co. and the other defendants knowingly made misrepresentations and omissions

related to the loans backing RMBS purchased by the Virginia Retirement System. The complaint asserts claims under the Virginia Fraud Against Taxpayers Act, as well as common law claims of actual and constructive fraud, and seeks, among other things, treble damages and civil penalties. On January 6, 2016, the parties reached an agreement to settle the litigation. An order dismissing the action with prejudice was entered on January 28, 2016.

Additional or replacement Commodity Brokers may be appointed in respect of the Fund in the future.

CONFLICTS OF INTEREST

General

The Managing Owner has not established formal procedures to resolve all potential conflicts of interest. Consequently, investors may be dependent on the good faith of the respective parties subject to such conflicts to resolve them equitably. Although the Managing Owner attempts to monitor these conflicts, it is extremely difficult, if not impossible, for the Managing Owner to ensure that these conflicts do not, in fact, result

in adverse consequences to the Fund.

Prospective investors should be aware that the Managing Owner presently intends to assert that Shareholders have, by subscribing for Shares, consented to the following conflicts of interest in the event of any proceeding alleging that such conflicts violated any duty owed by the Managing Owner to investors.

The Managing Owner

The Managing Owner has a conflict of interest in allocating its own limited resources among different clients and potential future business ventures, to each of which it owes fiduciary duties. Additionally, certain of the professional staff of the Managing Owner may also service other affiliates of the Managing Owner and their respective clients. The Managing Owner may, from time-to-time, have conflicting demands in respect of its obligations to the Fund and to other commodity pools and accounts. It is possible that current or future pools that the Managing Owner may become involved with may generate larger fees, resulting in increased payments to employees. Although the Managing Owner and its professional staff cannot and will not devote all of its

Table of Contents

or their respective time or resources to the management of the business and affairs of the Fund, the Managing Owner intends to devote, and to cause its professional staff to devote, sufficient time and resources to manage properly the business and affairs of the Fund consistent with its or their respective fiduciary duties to the Fund and others.

The Managing Owner has a conflict of interest in the selection of affiliated money market mutual funds and/or T-Bill ETFs in which the Fund may invest a portion of its cash for cash management purposes. The Managing Owner may choose to invest a portion of the Fund's cash in an affiliated money market mutual fund and/or T-Bill ETF despite the fact that non-affiliated money market mutual funds or T-Bill ETFs may pay a higher dividend and/or make a bigger distribution of capital gains.

There is an absence of arm's length negotiation with respect to some of the terms of this offering, and there has been no independent due diligence conducted with respect to this offering.

Invesco Distributors

Because the Managing Owner and Invesco Distributors are affiliates, the Managing Owner has a disincentive to replace Invesco Distributors. Furthermore, the Managing Owner did not conduct an arm's length negotiation with respect to Invesco Distributors.

The Commodity Broker

Shareholders should understand that the Commodity Broker receives a round-turn brokerage fee from the Fund for serving as the Fund's commodity broker. A round-turn trade is a completed transaction involving both a purchase and a liquidating sale, or a sale followed by a covering purchase.

The Commodity Broker may act from time-to-time as a commodity broker for other accounts with which it is affiliated or in which it or one of its affiliates has a financial interest. The compensation received by the Commodity Broker from such accounts may be more or less than the compensation received for brokerage services provided to the Fund. Customers of the Commodity Broker who maintain commodity trading accounts may pay commissions at negotiated rates which are greater or less than the rate paid by the Fund. In addition, various accounts traded through the Commodity Broker (and over which their

personnel may have discretionary trading authority) may take positions in the futures markets opposite to those of the Fund or may compete with the Fund for the same positions. The Commodity Broker may have a conflict of interest in its execution of trades for the Fund and for other customers. The Managing Owner will, however, not retain any commodity broker for the Fund which the Managing Owner has reason to believe would knowingly or deliberately favor any other customer over the Fund with respect to the execution of commodity trades.

The Commodity Broker will benefit from executing orders for other clients, whereas the Fund may be harmed to the extent that the Commodity Broker has fewer resources to allocate to the Fund's accounts due to the existence of such other clients.

Edgar Filing: POWERSHARES DB AGRICULTURE FUND - Form 424B3

Certain officers or employees of the Commodity Broker may be members of United States commodities exchanges and/or serve on the governing bodies and standing committees of such exchanges, their clearing houses and/or various other industry organizations. In such capacities, these officers or employees may have a fiduciary duty to the exchanges, their clearing houses and/or such various other industry organizations which could compel such employees to act in the best interests of these entities, perhaps to the detriment of the Fund.

Deutsche Bank Securities Inc., which serves as the Fund's Index Sponsor and Marketing Agent, also serves as an executing commodity broker. Therefore, Deutsche Bank Securities Inc., in its capacity as an executing commodity broker, is also subject a number of the same conflicts that are described above with respect to the Commodity Broker.

The Index Sponsor and the Marketing Agent

Deutsche Bank Securities Inc., in its capacity as the Fund's Index Sponsor and Marketing Agent, has a conflict of interest in allocating its own limited resources among different clients and potential future business ventures. Additionally, certain of the professional staff of Deutsche Bank Securities Inc. may also service other affiliates of Deutsche Bank Securities Inc. and their respective clients. Deutsche Bank Securities Inc., in its capacity as the Fund's Index Sponsor and Marketing Agent may, from time-to-time, have conflicting demands in respect of its obligations to the Fund and to other clients. It is possible that current or future pools that Deutsche Bank Securities Inc. may become involved with in its capacity as the Fund's Index Sponsor and Marketing

Table of Contents

Agent may generate larger fees, resulting in possibly increased payments to employees.

Proprietary Trading/Other Clients

The Managing Owner will not trade proprietary accounts.

Because the principals of the Managing Owner may trade for their own proprietary accounts (subject to certain internal Invesco Ltd. employee trading policies and procedures) at the same time that they are managing the account of the Fund, prospective investors should be aware that the activities of the principals of the Managing Owner, subject to their fiduciary duties, may, from time-to-time, result in taking positions in their personal trading accounts which are opposite to those held by the Fund, may trade ahead of the Fund, may compete with the Fund for positions in the marketplace and may give preferential treatment to these proprietary accounts. Records of the Managing Owner principals' personal trading accounts will not be available for inspection by Shareholders.

The Commodity Broker, its principals and its affiliates may trade in the commodity and foreign exchange markets for their proprietary accounts and for the accounts of their clients, and in doing so may take positions opposite to those held by the Fund, may trade ahead of the Fund, may compete with the Fund for positions in the marketplace and may give preferential treatment to these proprietary and non-proprietary accounts. Such trading may create conflicts of interest in respect of their obligations to the Fund. Records of proprietary trading and trading on behalf of other clients will not be available for inspection by Shareholders.

DESCRIPTION OF THE SHARES; THE FUND; CERTAIN MATERIAL TERMS OF THE TRUST DECLARATION

The following summary describes in brief the Shares and certain aspects of the operation of the Trust, the Fund and the respective responsibilities of the Trustee and the Managing Owner concerning the Trust and the material terms of the Trust Declaration. Prospective investors should carefully review the Form of Trust Declaration filed as an exhibit to the registration statement of which this Prospectus is a part and consult with their own advisers concerning the implications to such prospective subscribers of investing in a series of a Delaware statutory trust. Capitalized terms used in

this section and not otherwise defined shall have such meanings assigned to them under the Trust Declaration.

Description of the Shares

The Fund issues common units of beneficial interest, or Shares, which represent units of fractional undivided beneficial interest in and ownership of the Fund. The Shares are listed on the NYSE Arca under the symbol DBA.

The Shares may be purchased from the Fund or redeemed on a continuous basis, but only by Authorized Participants and only in blocks of 200,000 Shares, or Baskets. Individual Shares may not be purchased from the Fund or redeemed. Shareholders that are not Authorized Participants may not purchase from the Fund or redeem Shares or Baskets.

Principal Office; Location of Records

The Trust was organized under the Delaware Statutory Trust Act in seven separate series as a Delaware statutory trust rather than as separate statutory trusts in order to achieve certain administrative efficiencies. The interests of investors are not adversely affected by the choice of form of organization. As of the date of this Prospectus, the Trust consists of the following seven series PowerShares DB Energy Fund, PowerShares DB Oil Fund, PowerShares DB Precious Metals Fund, PowerShares DB Gold Fund, PowerShares DB Silver Fund, PowerShares DB Base Metals Fund and PowerShares DB Agriculture Fund. This Prospectus is for the Fund only and not for the first 6 funds listed in the prior sentence, or the Sectors Funds. The Sectors Funds, which are series of the Trust, are not being offered by this Prospectus. Information regarding both the Fund and the Sectors Funds (and any other additional series of the Trust, as applicable) is available at <http://www.invescopowershares.com>. The Trust is managed by the Managing Owner, whose office is located at 3500 Lacey Road, Suite 700, Downers Grove, IL 60515, telephone: (800) 983-0903.

The books and records of the Fund are maintained as follows: all marketing materials are maintained at the offices of Invesco Distributors, Inc., 11 Greenway Plaza, Suite 1000, Houston, Texas 77046-1173, telephone number (800) 983-0903; Basket creation and redemption books and records, certain financial books and records (including Fund accounting records, ledgers with respect to assets,

Table of Contents

liabilities, capital, income and expenses, the registrar, transfer journals and related details) and trading and related documents received from futures commission merchants are maintained by The Bank of New York Mellon, 2 Hanson Place, Brooklyn, New York 11217, telephone number (718) 315-7500. All other books and records of the Fund (including minute books and other general corporate records, trading records and related reports and other items received from the Fund's Commodity Brokers) are maintained at the Fund's principal office, c/o Invesco PowerShares Capital Management LLC, 3500 Lacey Road, Suite 700, Downers Grove, IL 60515; telephone number (800) 983-0903.

The books and records of the Fund are located at the foregoing addresses, and available for inspection and copying (upon payment of reasonable reproduction costs) by Shareholders or their representatives for any purposes reasonably related to a Shareholder's interest as a beneficial owner of the Fund during regular business hours as provided in the Trust Declaration. The Managing Owner will maintain and preserve the books and records of the Fund for a period of not less than six years.

The Fund

Solely for the purposes of this sub-section, the term "Fund" or "Funds" refers to all the series of the Trust (including the DBA Fund). The term "DBA Fund" refers to the series that is offered pursuant to this Prospectus. The term "Non-DBA Funds" refers to all the remaining series of the Trust, excluding the DBA Fund.

The Trust was formed and is operated in a manner such that the Funds are liable only for obligations attributable to the applicable Funds and the Shareholders are not subject to the losses or liabilities of any of the other Funds. For example, if any creditor or Shareholder in a Non-DBA Fund asserted against the DBA Fund a valid claim with respect to its indebtedness or Shares, the creditor or Shareholder of the Non-DBA Fund would only be able to recover money from that particular Non-DBA Fund and its assets. Accordingly, the debts, liabilities, obligations and expenses, or collectively, Claims, incurred, contracted for or otherwise existing solely with respect to a particular Non-DBA Fund are enforceable only against the assets of that Non-DBA Fund and not against the DBA Fund or any other Non-DBA Fund or the Trust generally or any of their respective assets. The assets of any particular Fund include only those funds and other assets that are

paid to, held by or distributed to such Fund, including, without limitation, funds delivered to the Trust for the purchase of Shares in such Fund. This limitation on liability is referred to as the "Inter-Series Limitation on Liability." The Inter-Series Limitation on Liability is expressly provided for under the Delaware Statutory Trust Act, which provides that if certain conditions (as set forth in Section 3804(a)) are met, then the debts of any particular series will be enforceable only against the assets of such series and not against the assets of any other Fund or the Trust generally. For the avoidance of doubt, the Inter-Series Limitation on Liability applies to all series of the Trust, including those that are not being offered through this Prospectus.

In furtherance of the Inter-Series Limitation on Liability, every party providing services to the Trust, any Fund or the Managing Owner on behalf of the Trust or any Fund has acknowledged and consented in writing to the Inter-Series Limitation on Liability with respect to such party's Claims.

No special custody arrangements are applicable to any Fund, and the existence of a trustee should not be taken as an indication of any additional level of management or supervision over any Fund. To the greatest extent permissible under Delaware law, the Trustee acts in an entirely passive role, delegating all authority over the operation of the Trust, and each Fund to the Managing Owner.

Although Shares in the DBA Fund need not carry any voting rights, the Trust Declaration gives Shareholders of the DBA Fund voting rights in respect of the business and affairs of the DBA Fund comparable to those typically extended to limited partners in publicly-offered futures funds.

The Trustee

Wilmington Trust Company, a Delaware trust company, is the sole Trustee of the Trust and the Fund. The Trustee's principal offices are located at Rodney Square North, 1100 North Market Street, Wilmington, Delaware 19890-0001. The Trustee is unaffiliated with the Managing Owner. The Trustee's duties and liabilities with respect to the offering of the Shares and the management of the Trust and the Fund are limited to its express obligations under the Trust Declaration.

The rights and duties of the Trustee, the Managing Owner and the Shareholders are governed by the provisions of the Delaware Statutory Trust Act and by the Trust Declaration.

Table of Contents

The Trustee serves as the sole trustee of the Trust in the State of Delaware. The Trustee accepts service of legal process on the Trust and the Fund in the State of Delaware and will make certain filings under the Delaware Statutory Trust Act. The Trustee does not owe any other duties to the Trust, the Managing Owner or the Shareholders. The Trustee is permitted to resign upon at least sixty (60) days notice to the Trust, *provided*, that any such resignation will not be effective until a successor Trustee is appointed by the Managing Owner. The Trust Declaration provides that the Trustee is compensated by the Fund, as appropriate, and is indemnified by the Fund, as appropriate, against any expenses it incurs relating to or arising out of the formation, operation or termination of the Fund, as appropriate, or the performance of its duties pursuant to the Trust Declaration, except to the extent that such expenses result from the gross negligence or willful misconduct of the Trustee. The Managing Owner has the discretion to replace the Trustee.

Only the Managing Owner has signed the registration statement of which this Prospectus is a part, and only the assets of the Trust and the Managing Owner are subject to issuer liability under the federal securities laws for the information contained in this Prospectus and under federal securities laws with respect to the issuance and sale of the Shares. Under such laws, neither the Trustee, either in its capacity as Trustee or in its individual capacity, nor any director, officer or controlling person of the Trustee is, or has any liability as, the issuer or a director, officer or controlling person of the issuer of the Shares. The Trustee's liability in connection with the issuance and sale of the Shares is limited solely to the express obligations of the Trustee set forth in the Trust Declaration.

Under the Trust Declaration, the Trustee has delegated to the Managing Owner the exclusive management and control of all aspects of the business of the Fund and the Trust. The Trustee has no duty or liability to supervise or monitor the performance of the Managing Owner, nor does the Trustee have any liability for the acts or omissions of the Managing Owner. The Shareholders have no voice in the day-to-day management of the business and operations of the Fund and the Trust, other than certain limited voting rights as set forth in the Trust Declaration. In the course of its management of the business and affairs of the Fund and the Trust, the Managing Owner may, in its sole and absolute discretion, appoint an affiliate or affiliates of the Managing Owner as additional managing owners (except where

the Managing Owner has been notified by the Shareholders that it is to be replaced as the managing owner) and retain such persons, including affiliates of the Managing Owner, as it deems necessary for the efficient operation of the Fund or the Trust, as appropriate.

Because the Trustee has delegated substantially all of its authority over the operation of the Fund and the Trust to the Managing Owner, the Trustee itself is not registered in any capacity with the CFTC.

Performance information with respect to the offered pool starts on page 36.

The Managing Owner

Background and Principals

Invesco PowerShares Capital Management LLC, a Delaware limited liability company, is the Managing Owner of the Trust and the Fund. The Managing Owner serves as both commodity pool operator and commodity trading advisor of the Trust and the Fund. The Managing Owner has been registered with the CFTC as a commodity pool operator since January 1, 2013, commodity trading advisor since October 1, 2014 and a swap firm since September 8, 2015 and has been a member of the NFA since January 1, 2013. Its principal place of business is 3500 Lacey Road, Downers Grove, Illinois 60515, telephone number (800) 983-0903. The Managing Owner is an affiliate of Invesco Ltd. *The registration of the Managing Owner with the CFTC and its membership in the NFA must not be taken as an indication that either the CFTC or the NFA has recommended or approved the Managing Owner, the Trust or the Fund.*

In its capacity as a commodity pool operator, the Managing Owner is an organization which operates or solicits funds for commodity pools; that is, an enterprise in which funds contributed by a number of persons are combined for the purpose of trading futures contracts. In its capacity as a commodity trading advisor, the Managing Owner is an organization which, for compensation or profit, advises others as to the value of or the advisability of buying or selling futures contracts.

After consideration of the exchange-traded fund, or ETF, market generally and its goals specifically, DB Commodity Services LLC, referred to as either DBCS or the Predecessor Managing Owner, made the determination that it would be in DBCS' best interest to cease managing products in the U.S.

Table of Contents

commodities ETF space. After consideration of the ETF market generally and its goals specifically, the Managing Owner made the determination that it wanted to expand its presence in the U.S. commodities ETF space by becoming the new managing owner of the Fund. The Managing Owner also intends to launch other commodities-based ETF products in the U.S. in order to respond to developments in the market and investor preferences. The change of managing owner was effected by DBCS selling and transferring to the Managing Owner the general units of the Fund owned by DBCS, and by the substitution of the Managing Owner for DBCS as managing owner of the Trust and the Fund, which became effective as of February 23, 2015.

Principals

The following principals serve in the below capacities on behalf of the Managing Owner:

Name	Capacity
Daniel Draper	Chief Executive Officer, Board of Managers
Peter Hubbard
