PROSPECTUS SUPPLEMENT

(To Prospectus Dated January 11, 2018)

\$400,000,000

Owens Corning

4.400% Senior Notes due 2048

We are offering \$400,000,000 aggregate principal amount of 4.400% Senior Notes due 2048, which we refer to in this prospectus supplement as the notes. Interest on the notes is payable semi-annually in arrears on January 30 and July 30 each year, beginning on July 30, 2018. The notes will mature on January 30, 2048. We may redeem the notes at any time and from time to time prior to maturity, in whole or in part, for cash at the applicable redemption price, plus accrued and unpaid interest to, but not including, the redemption date as described under Description of the Notes Optional Redemption. If we undergo a Change of Control Repurchase Event (as defined herein), holders may require us to repurchase the notes in whole or in part for cash at a price equal to 101% of the principal amount of the notes to be purchased, plus any accrued and unpaid interest to, but not including, the repurchase date. See Description of the Notes Change of Control. The notes will be issued only in denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000.

We intend to use the net proceeds from this offering to finance our proposed acquisition of all the capital stock of Parry 1 Holding AB, which we refer to as Paroc Target, the owner of Paroc Group Oy, which we refer to as Paroc, and, if the Paroc Acquisition is not completed, then for general corporate purposes including, but not limited to, the repayment of debt. We refer to the proposed acquisition of Paroc Target as the Paroc Acquisition. Our current estimate of completing the Paroc Acquisition is in February 2018; however, there can be no assurance that certain required antitrust approval for the Paroc Acquisition will be obtained or that the required closing conditions for the Paroc Acquisition will be satisfied by any particular time or at all. See Use of Proceeds.

The notes will be our senior unsecured obligations and will rank equally in right of payment with our other existing and future senior unsecured indebtedness. The notes will be effectively subordinated to our existing and future secured indebtedness to the extent of the assets securing that indebtedness. The notes will be fully and unconditionally guaranteed by each of our current and future domestic subsidiaries that is a borrower or guarantor under our Credit Agreement (as defined herein). The guarantees will be unsecured and will rank equally in right of payment with all other existing and future senior unsecured indebtedness of the guarantors. The guarantees will be effectively subordinated to existing and future secured debt of the guarantors to the extent of the assets securing that indebtedness.

The notes are a new issue of securities with no established trading market. We do not intend to list the notes on any securities exchange or include the notes in any automated quotation system.

Investing in the notes involves risks that are described or referred to in the section titled Risk Factors beginning on page S-5 of this prospectus supplement. You should consider carefully such risks before investing in the notes.

RISK FACTORS

An investment in the notes involves risk. Prior to making a decision about investing in our securities, and in consultation with your own financial, tax and legal advisors, you should carefully consider the following risk factors, as well as the risk factors incorporated by reference in this prospectus supplement from our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 under the heading Risk Factors and other filings we may make from time to time with the SEC. You should also refer to the other information in this prospectus supplement and the accompanying prospectus, including our financial statements and the related notes incorporated by reference in this prospectus supplement. Additional risks and uncertainties that are not yet identified may also materially harm our business, operating results and financial condition and could result in a complete loss of your investment.

Risks Relating to the Notes

The notes will be effectively subordinated to all of our existing and future secured debt, to the existing and future secured debt of our subsidiary guarantors, and to the existing and future debt of our subsidiaries that do not guarantee the notes.

The notes are not secured by any of our assets or the assets of our subsidiary guarantors. As a result, the indebtedness represented by the notes will effectively be subordinated to any secured indebtedness we or our subsidiary guarantors may incur, to the extent of the value of the assets securing such indebtedness. The terms of the indenture permit us and the subsidiary guarantors to incur secured debt, subject to certain limitations. In the event of any distribution or payment of our assets in any dissolution, winding up, liquidation, reorganization, or bankruptcy proceeding, any secured creditors would have a superior claim to their collateral. In the event of the dissolution, winding up, liquidation, reorganization, or bankruptcy proceeding of a subsidiary that is not a guarantor, creditors of that subsidiary would generally have the right to be paid in full before any distribution is made to us or the holders of the notes. If any of the foregoing occurs, we cannot assure you that there will be sufficient assets to pay amounts due on the notes.

The indenture does not restrict our ability or the ability of our subsidiaries to incur other unsecured indebtedness. As of September 30, 2017:

our consolidated senior secured indebtedness, including capital leases, totaled approximately \$164 million;

our consolidated senior unsecured indebtedness totaled approximately \$2,372 million; and

our subsidiaries guaranteeing the notes had indebtedness, including subsidiary guarantees of the Company's indebtedness, of approximately \$2,391 million, of which approximately \$13 million was secured.

As of and for the nine months ended September 30, 2017, and the fiscal year ended December 31, 2016, including eliminations for investments in subsidiaries and intercompany transactions between and among our non-guarantor subsidiaries, our non-guarantor subsidiaries had (i) net sales of approximately \$1,653 million and \$2,046 million and net earnings attributable to Owens Corning of approximately \$113 million and \$251 million, respectively, (ii) total assets of approximately \$3,444 million and \$2,660 million, respectively, and (iii) indebtedness of approximately \$153 million and \$19 million, respectively. For a presentation of the financial information required by Rule 3-10 of Regulation S-X for our subsidiaries guaranteeing the notes and our non-guarantor subsidiaries, see Note 18 to

Table of Contents

The notes are obligations of Owens Corning and our operations are conducted through, and substantially all of our consolidated assets are held by, our subsidiaries.

The notes are obligations of Owens Corning and are jointly and severally and fully and unconditionally guaranteed by each of our existing and future domestic subsidiaries that is a borrower or a guarantor under our senior revolving credit facility, which we refer to as our Credit Agreement, but are not otherwise guaranteed. Each of the guarantees may be released upon the occurrence of certain customary circumstances described in Description of the Notes The Subsidiary Guarantees. Our ability to service our debt, including the notes, depends on the results of operations of our subsidiaries and upon the ability of such subsidiaries to provide us with cash, whether in the form of dividends, loans or otherwise, to pay amounts due on our obligations, including the notes. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to make payments on the notes or to make any funds available for that purpose. In addition, dividends, loans or other distributions to us from such subsidiaries may be subject to contractual and other restrictions and are subject to other business considerations.

Servicing our debt requires a significant amount of cash, and we may not have sufficient cash flow from our business to pay our substantial debt.

Our ability to make scheduled payments of the principal of, to pay interest on or to refinance our indebtedness, including the notes, depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. Our business may not continue to generate cash flow from operations in the future sufficient to service our debt. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring debt or obtaining additional equity capital on terms that may be onerous or unfavorable to us. Our ability to refinance our indebtedness will depend on the capital markets and our financial condition at such time and we may not be able to refinance any of our indebtedness or incur new indebtedness on commercially reasonable terms to us or at all.

We may be unable to repurchase the notes if we experience a change of control and a related downgrade in the credit rating of the notes.

Under certain circumstances, we are required, under the terms of the notes, to offer to purchase all of the outstanding notes at 101% of their principal amount if we experience a change of control and a related downgrade in the credit rating of the notes. Our failure to repay holders tendering notes upon a change of control and related downgrade will result in an event of default under the notes. If a change in control and a related downgrade were to occur, we cannot assure you that we would have sufficient funds to purchase the notes, or any other securities that we would be required to offer to purchase, particularly if that change of control event triggers a similar repurchase requirement for, or results in the acceleration of, other indebtedness. All of our currently outstanding senior notes also are subject to similar change of control repurchase requirements. In addition, our Credit Agreement currently provides that certain change of control events will constitute a default and could result in the acceleration of our indebtedness. We may require additional financing from third parties to fund any such purchases, but we cannot assure you that we would be able to obtain such financing.

The change of control provision may not protect you in the event we complete a highly leveraged transaction, reorganization, restructuring, merger or other similar transaction, unless such transaction constitutes a change of control repurchase event. Such a transaction may not involve a change of the magnitude required under the definition of change of control or may not result in a ratings downgrade to trigger our obligation to repurchase the notes. Except as described under Description of the Notes Change of Control, the notes do not contain provisions that permit the holders of the notes to require us to repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

You may not be able to sell your notes if a public market for the notes does not develop.

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any securities exchange or to include the notes in any automated quotation system. We have been

advised by the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. Accordingly, there can be no assurance that a trading market for the notes will develop or be maintained. If the notes are traded, they may trade at a discount from their offering price, depending on prevailing interest rates, the market for similar securities, our performance and other factors. To the extent that an active trading market does not develop, you may not be able to resell your notes at their fair market value or at all.

A court may use fraudulent conveyance considerations to avoid or subordinate the subsidiary guarantees.

Various applicable fraudulent conveyance laws have been enacted for the protection of creditors. A court may use fraudulent conveyance laws to subordinate or avoid the subsidiary guarantees of the notes issued by any of our subsidiary guarantors. It is also possible that under certain circumstances a court could hold that the direct obligations of a subsidiary guaranteeing the notes could be superior to the obligations under that guarantee. A court could avoid or subordinate the guarantee of the notes by any of our subsidiaries in favor of that subsidiary's other debts or liabilities to the extent that the court determined either of the following were true at the time the subsidiary issued the guarantee:

that subsidiary incurred the guarantee with the intent to hinder, delay or defraud any of its present or future creditors or that subsidiary contemplated insolvency with a design to favor one or more creditors to the total or partial exclusion of others;

that subsidiary did not receive fair consideration or reasonable equivalent value for issuing the guarantee and, at the time it issued the guarantee, that subsidiary:

was insolvent or rendered insolvent by reason of the issuance of the guarantee;

was engaged or about to engage in a business or transaction for which the remaining assets of that subsidiary constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they matured.

The measure of insolvency for purposes of the foregoing will vary depending upon the law of the relevant jurisdiction. Generally, however, an entity would be considered insolvent for purposes of the foregoing if the sum of its debts, including contingent liabilities, were greater than the fair saleable value of all of its assets at a fair valuation, or if the present fair saleable value of its assets were less than the amount that would be required to pay its probable liability on its existing debt, including contingent liabilities, as they become absolute and matured.

Among other things, a legal challenge of a subsidiary's guarantee of the notes on fraudulent conveyance grounds may focus on the benefits, if any, realized by that subsidiary as a result of our issuance of the notes. To the extent a subsidiary's guarantee of the notes is avoided as a result of fraudulent conveyance or is held unenforceable for any other reason, the note holders would cease to have any claim in respect of that guarantee.

The terms of the indenture and the notes provide only limited protection against significant events that could adversely impact your investment in the notes.

As described under Description of the Notes Change of Control, upon the occurrence of a Change of Control Repurchase Event, holders are entitled to require us to repurchase their notes. However, the definition of the term Change of Control Repurchase Event is limited and does not cover a variety of transactions (such as acquisitions by us or recapitalizations) that could negatively impact the value of your notes. As such, if we were to enter into a significant corporate transaction that would negatively impact the value of the notes, but which would not constitute a Change of Control Repurchase Event, you would not have any rights to require us to repurchase the notes prior to their maturity.

S-7

Table of Contents

Furthermore, the indenture for the notes does not:

require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flow or liquidity;

limit our ability to incur indebtedness or other obligations that are equal in right of payment to the notes or prohibit us from incurring secured debt to which the notes would be effectively subordinated and which could affect our credit ratings;

restrict our subsidiaries' ability to issue securities or otherwise incur indebtedness or other obligations that would be senior to our equity interests in our subsidiaries and therefore rank effectively senior to the notes with respect to the assets of our subsidiaries;

restrict our ability to repurchase or prepay any other of our securities or other indebtedness; or

restrict our ability to make investments or to repurchase, or pay dividends or make other payments in respect of, our common stock or other securities ranking junior to the notes.

As a result of the foregoing, when evaluating the terms of the notes, you should be aware that the terms of the indenture and the notes do not restrict our ability to engage in, or to otherwise be a party to, a variety of corporate transactions, circumstances and events that could have an adverse impact on your investment in the notes.

Redemption may adversely affect your return on the notes.

The notes will be redeemable, in whole at any time or in part from time to time, at our option. See Description of the Notes Optional Redemption. If prevailing interest rates are lower at the time of redemption, you may not be able to reinvest the redemption proceeds in a comparable security at an interest rate as high as the interest rate of the notes being redeemed.

An increase in market interest rates could result in a decrease in the value of the notes.

In general, as market interest rates rise, notes bearing interest at a fixed rate decline in value because the premium, if any, over market interest rates will decline. Consequently, if you purchase the notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

Changes in our credit ratings may adversely affect your investment in the notes, and may not reflect all risks of an investment in the notes.

The credit ratings of our indebtedness are an assessment by rating agencies of our ability to pay our debts when due. These ratings are not recommendations to purchase, hold or sell the notes, inasmuch as the ratings do not comment as to market price or suitability for a particular investor, are limited in scope, and do not address all material risks relating to an investment in the notes, but rather reflect only the view of each rating agency at the time the rating is issued. The ratings are based on current information furnished to the rating agencies by us and information obtained

by the rating agencies from other sources. An explanation of the significance of such rating may be obtained from such rating agency. There can be no assurance that such credit ratings will remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in each rating agency's judgments, circumstances so warrant. Actual or anticipated changes or downgrades in our credit ratings, including any announcement that our ratings are under review for a downgrade, could affect the market value and liquidity of the notes and increase our borrowing costs.

The completion of the Paroc Acquisition is subject to a number of conditions, including certain governmental and regulatory conditions that may not be satisfied, and the Paroc Acquisition may not be completed on a timely basis, or at all. Failure to complete the Paroc Acquisition for any reason, whether or not the fault of the Company, could have material and adverse effects on us.

We have entered into an agreement to acquire all of the capital stock of Paroc Target. Completion of the Paroc Acquisition is conditioned upon the satisfaction or waiver of customary closing conditions including: (1) the receipt of certain antitrust approval which has not been obtained or received as of the date hereof, and (2) there being no material breach of certain fundamental warranties. Our current estimate of completing the Paroc Acquisition is in February 2018; however, there can be no assurance that certain required antitrust approval for the Paroc Acquisition will be obtained or that the required closing conditions for the Paroc Acquisition will be satisfied by any particular time or at all.

If the Paroc Acquisition is not completed on a timely basis, or at all, our and Paroc's respective ongoing businesses may be adversely affected. Additionally, in the event the Paroc Acquisition is not completed, we will be subject to a number of risks without realizing any of the benefits of having completed the Paroc Acquisition, including, but not limited to: (i) the payment of certain fees and costs relating to the Paroc Acquisition, such as legal, accounting, debt financing source, and financial advisor, (ii) the potential decline in the market price of our shares of common stock, (iii) the loss of time and resources and (iv) potential litigation that may arise as a result of the failed Paroc Acquisition.

The notes are not subject to mandatory redemption in the event that the Paroc Acquisition is not completed on the contemplated timeline or at all.

USE OF PROCEEDS

We estimate the net proceeds to us from the sale of the notes will be approximately \$389 million, after deducting the underwriting discount and other expenses of the offering payable by us.

We intend to use the net proceeds from this offering to finance the Paroc Acquisition and, if the Paroc Acquisition is not completed, then for general corporate purposes including, but not limited to, the repayment of debt. Our current estimate of closing the Paroc Acquisition is in February 2018; however, there can be no assurance that certain required antitrust approval for the Paroc Acquisition will be obtained or that the required closing conditions for the Paroc Acquisition will be satisfied by any particular time or at all.

DESCRIPTION OF THE NOTES

The notes will be issued under an indenture dated as of June 2, 2009, among us, the Guarantors (as defined below) and Wells Fargo Bank, National Association, as trustee, as amended and as supplemented to reflect the terms of the notes. We refer to such indenture, as amended or supplemented from time to time, as the indenture. The following description of the particular terms of the notes supplements, and to the extent inconsistent therewith replaces, the section entitled Description of Debt Securities included in the accompanying prospectus. You should read the accompanying prospectus and this prospectus supplement together for a more complete description of the indenture and the notes. This description and the section entitled Description of Debt Securities in the accompanying prospectus are summaries and may not include all of the information that is important to you, and are subject to and are qualified in their entirety by, the provisions of the indenture. Capitalized terms used in this Description of the Notes have the meanings specified under Certain Definition in this prospectus supplement or in the indenture and are generally summarized in this description or under Description of Debt Securities Certain Definitions in the accompanying prospectus. References to Owens Corning, we, us and our in this Description of the Notes refer only to Owens Corning and not any of its subsidiaries.

General

The Notes

The notes:

will be our general senior unsecured obligations;

will rank equal in right of payment with our existing and future senior unsecured indebtedness;

will be effectively subordinated to our senior secured indebtedness to the extent of the value of the collateral securing such indebtedness; and

will be fully and unconditionally guaranteed by the Guarantors.

The Guarantors

The notes will be guaranteed by each of our current and future Domestic Subsidiaries that is a borrower or guarantor under our Credit Agreement (each a Guarantor and, collectively, the Guarantors). See Subsidiary Guarantees below for more information.

Principal, Maturity and Interest

In this offering, we will issue \$400,000,000 in aggregate principal amount of our 4.400% Senior Notes due 2048 (the notes). The notes will mature on January 30, 2048. We may issue additional notes from time to time after this offering. See Issuance of Additional Notes.

Edgar Filing: Owens Corning - Form 424B5

Interest on the notes will accrue at a rate per annum of 4.400% from the issue date or from the most recent interest payment date to which interest has been paid or provided for, to, but excluding, the relevant interest payment date. Interest on the notes will be payable semi-annually in arrears on January 30 and July 30 of each year, commencing July 30, 2018 to holders of record at the close of business on January 15 or July 15 immediately preceding the interest payment date. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

If any interest payment date, maturity date or redemption date falls on a day that is not a business day, the payment will be made on the next business day with the same force and effect as if made on the relevant interest payment date, maturity date or redemption date. Unless we default on a payment, no interest will accrue for that period from and after the applicable interest payment date, maturity date or redemption date.

S-13

Table of Contents

The notes will be issued in book-entry form only in denominations of \$2,000 and in integral multiples of \$1,000 in excess of \$2,000.

No Sinking Fund

The notes will not be entitled to any sinking fund.

Payment on the Notes

If a holder of notes has given wire transfer instructions to us, we will, directly or through the paying agent, pay all principal, interest and premium, if any, on that holder's notes in accordance with those instructions. All other payments on the notes will be made at the office or agency of the paying agent and registrar unless we elect to make interest payments by check mailed to the note holders at their address set forth in the register of holders.

The trustee will initially act as paying agent and registrar. We may change the paying agent or registrar without prior notice to the holders of the notes, and we or any of our Subsidiaries may act as paying agent or registrar.

Issuance of Additional Notes

We may from time to time, without the consent of, or notice to, the holders of the notes, reopen the series of debt securities of which the notes are a part and issue additional notes having the same ranking and the same interest rate, maturity and other terms as the notes, except for the public offering price and the issue date and, if applicable, the initial interest payment date. Any additional notes having similar terms, together with the notes, will constitute a single series of debt securities under the indenture and will have the same CUSIP number provided they are fungible for U.S. federal income tax purposes. No such additional notes may be issued if an event of default has occurred and is continuing with respect to the series of debt securities of which such notes are a part. Unless the context otherwise requires, for all purposes of the indenture and this Description of the Notes, references to the notes include any additional notes of the same series actually issued.

In addition, we may issue from time to time other series of debt securities under the indenture consisting of debentures, other series of notes or other evidences of indebtedness, but such other securities will be separate from and independent of the notes. The indenture does not limit the amount of debt securities or any other debt (whether secured or unsecured or whether senior or subordinated) which we or our Subsidiaries may incur.

Payment and Paying Agents

We will maintain in the place of payment for the notes an office or agency where the notes may be presented or surrendered for payment or for registration of transfer or exchange and where holders may serve us with notices and demands in respect of the notes and the indenture. The transferor of any note shall provide or cause to be provided to the trustee all information necessary to allow the trustee to comply with any applicable tax reporting obligations, including without limitation any cost basis reporting obligations under Internal Revenue Code Section 6045. The trustee may rely on information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

We will give prompt written notice to the trustee of the location, and any change in the location, of such office or agency. If we fail to maintain any required office or agency or fail to furnish the trustee with the address of such office or agency, presentations, surrenders, notices and demands may be made or served at the corporate trust office of the trustee. We have appointed the trustee as our agent to receive all presentations, surrenders, notices and demands with

respect to the notes.

Subsidiary Guarantees

The notes will be guaranteed by each of our current and future Domestic Subsidiaries that is a borrower or a guarantor under the Credit Agreement. The Subsidiary Guarantees will be joint and several obligations of the Guarantors. The obligations of each Guarantor under its Subsidiary Guarantee will be limited as necessary to prevent that guarantee from constituting a fraudulent conveyance under applicable law. See Risk Factors A court may use fraudulent conveyance considerations to avoid or subordinate the subsidiary guarantees.

A Guarantor may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person) another Person, other than Owens Corning or another Guarantor, unless immediately after giving effect to that transaction, no Default or Event of Default exists.

The guarantee of a Guarantor will be released:

- 1) in connection with any sale or other disposition of all of the Capital Stock of such Guarantor to a Person that is not (either before or after giving effect to such transaction) Owens Corning or a Subsidiary of Owens Corning;
- 2) in connection with any sale or other disposition of all or substantially all of the assets of such Guarantor (including by way of merger or consolidation) to a Person that is not (either before or after giving effect to such transaction) Owens Corning or a Subsidiary of Owens Corning;
- 3) upon the release of such Guarantor's guarantee of the Credit Agreement; or
- 4) upon legal defeasance or satisfaction and discharge of the indenture as provided below under the section titled Discharge, Legal Defeasance and Covenant Defeasance.

We shall notify the trustee and the holders of the Subsidiary Guarantee of any Guarantor that is released. The trustee shall execute and deliver an appropriate instrument confirming the release of any such Guarantor upon our request as provided in the indenture.

Optional Redemption

The notes will be redeemable, in whole at any time or in part from time to time, at our option. If we elect to redeem the notes at any time prior to July 30, 2047 (six months prior to their maturity), we will pay a redemption price equal to the greater of (i) 100% of the principal amount of the notes to be redeemed, and (ii) as determined by the Quotation Agent (as defined below), the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed (excluding any portion of such payments of interest accrued as of the redemption date), discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below), plus 25 basis points, plus, in each case, accrued and unpaid interest thereon to, but not including, the redemption date. If the notes are redeemed on or after July 30, 2047 (six months prior to their maturity), the redemption price will equal 100% of the aggregate principal amount of the notes being redeemed, plus accrued and unpaid interest thereon to, but not including, the redemption date. Calculation of the redemption price will be made by us or on our behalf by such person as we shall designate; *provided* that such

calculation or the correctness thereof shall not be a duty or obligation of the trustee.

Notice of any redemption will be mailed by first class mail or otherwise delivered in accordance with applicable DTC procedures at least 30 days, but not more than 60 days, before the redemption date to each registered holder of notes to be redeemed. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or portion thereof called for redemption.

We are not required (i) to register, transfer or exchange notes during the period from the opening of business 15 days before the day a notice of redemption relating to the notes selected for redemption is sent to the close of business on the day that notice is sent, or (ii) to register, transfer or exchange any such note so selected for redemption, except for the unredeemed portion of any note being redeemed in part.

Table of Contents

Selection and Notice

If less than all of the notes are to be redeemed at any time, and if the notes are global notes held by DTC, the applicable operational procedures of DTC for selection of notes for redemption will apply. If the notes are not global notes held by DTC, the trustee will select notes for redemption on a pro rata basis unless otherwise required by law or applicable stock exchange requirements.

No notes of \$2,000 can be redeemed in part. Notices of redemption will be mailed by first class mail or otherwise delivered in accordance with applicable DTC procedures at least 30 but not more than 60 days before the redemption date to each holder of notes to be redeemed at its registered address, except that redemption notices may be mailed or sent more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the indenture. Notices of redemption may not be conditional.

If any note is to be redeemed in part only, the notice of redemption that relates to that note will state the portion of the principal amount of that note that is to be redeemed. A new note in principal amount equal to the unredeemed portion of the original note will be issued in the name of the holder of notes upon cancellation of the original note (or cause to be transferred by book entry). Notes called for redemption become due on the date fixed for redemption.

Change of Control

If a Change of Control Repurchase Event occurs with respect to the notes, unless we have exercised our option to redeem the notes by giving notice of such redemption to the holders thereof, each holder of notes will have the right to require us to repurchase all or any part (equal to \$2,000 or integral multiples of \$1,000 in excess of \$2,000) of that holder's notes pursuant to a Change of Control Offer. In the Change of Control Offer, we will offer a Change of Control Payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest on the notes repurchased to, but not including, the repurchase date, subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date (the Change of Control Payment). Within 30 days following any Change of Control Repurchase Event, we will mail or deliver in accordance with DTC procedures a notice to each holder and the trustee:

- 1) describing the transaction or transactions that constitute the Change of Control Repurchase Event;
- 2) offering to repurchase notes on the date specified in the notice (the Change of Control Payment Date), which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed or sent; and
- 3) stating the instructions determined by us, consistent with this covenant, that a holder must follow in order to have its notes purchased.

We will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Repurchase Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control Repurchase Event provisions of the indenture, we will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control Repurchase Event provisions of the notes or the indenture by virtue of such compliance.

On the Change of Control Payment Date, we will, to the extent lawful:

- 1) accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;
- 2) deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and
- 3) deliver or cause to be delivered to the trustee the notes properly accepted together with an Officers Certificate stating the aggregate principal amount of notes or portions of notes being purchased by us.

S-16

Table of Contents

The paying agent will promptly mail to each holder of notes properly tendered the Change of Control Payment for such notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each holder a new note equal in principal amount to any unpurchased portion of the notes surrendered, if any. We will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

We will not be required to make a Change of Control Offer upon a Change of Control Repurchase Event if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements applicable to a Change of Control Offer made by us and purchases all notes properly tendered and not withdrawn under the Change of Control Offer.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of our properties or assets and our Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase our notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our assets and our Subsidiaries taken as a whole to another Person or group may be uncertain.

Covenant Modification

The indenture contains a covenant (Section 4.10 of the indenture), which, subject to certain exceptions, requires that we preserve and keep in full force and effect (i) our corporate existence and the entity existence of each of our Subsidiaries in accordance with our and our Subsidiaries' respective organizational documents and (ii) our and each of our Subsidiaries' rights, licenses and franchises; provided that we are not required to preserve any such right, license, franchise or entity existence if the Board of Directors (as defined in the indenture) shall determine that the preservation thereof is no longer desirable in the conduct of our and our Subsidiaries' business, taken as a whole, and that the loss thereof is not adverse in any material respect to the holders of securities issued under the indenture.

The indenture also contains a covenant (Section 4.07 of the indenture), which requires that the Company and each Subsidiary Guarantor file with the Trustee copies of the annual reports and of the information, documents, and other reports which the Company and each Subsidiary Guarantor is required to file with the Commission pursuant to Section 13 or Section 15(d) of the Exchange Act.

In a previous supplement to the indenture, we modified Section 4.10 of the indenture as it applies to the notes so that the determination regarding the preservation of any right, license, franchise or entity existence by us or any of our Subsidiaries will need to be made by Owens Corning, but not specifically by our Board of Directors. In a previous supplement to the indenture, we modified Section 4.07 of the indenture as it applies to the notes so that, if the Company is not subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, so long as any notes are outstanding, the Company is required to furnish to the Trustee and the holders of the notes certain consolidated financial statements.

Discharge, Legal Defeasance and Covenant Defeasance

We may be discharged from all of our obligations with respect to the outstanding notes, discharged from our obligations with respect to the notes (except as otherwise specified in the indenture) or released from our obligation to comply with the provisions of the indenture with respect to the notes as described under Description of Debt Securities Discharge, Legal Defeasance and Covenant Defeasance in the accompanying prospectus.

The Trustee under the Indenture

We maintain ordinary banking relationships and, from time to time, obtain credit facilities and lines of credit with a number of banks, including the trustee, Wells Fargo Bank, National Association, and its affiliates. Wells Fargo Bank,

S-17

National Association, acts as the administrative agent for our Credit Agreement. Wells Fargo Securities, LLC, one of the joint book-running managers in this offering, is an affiliate of the trustee. Neither the trustee nor any paying agent shall be responsible for monitoring our rating status, making any request upon any Rating Agency, or determining whether any Ratings Downgrade or Change of Control Repurchase Event has occurred.

Governing Law; Jury Trial Waiver

The indenture is, and any notes will be, governed by and construed in accordance with the laws of the State of New York. The indenture provides that the Company, the Guarantors and the Trustee, and each holder of a Note by its acceptance thereof, irrevocably waives, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to the Indenture, the Notes, the Subsidiary Guarantees, or any transaction contemplated thereby.

Book-Entry, Delivery and Form

Global Notes

We will issue the notes in the form of one or more global notes in definitive, fully registered, book-entry form. The global notes will be deposited with, or on behalf of, DTC and registered in the name of Cede & Co., as nominee of DTC (including Euroclear Bank, S.A./N.V. and Clearstream Banking, *société anonyme*).

DTC

Beneficial interests in the global notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities of its participants and to facilitate the clearance and settlement of securities transactions, such as transfers and pledges, among its participants in such securities through electronic computerized book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of which own DTC. Access to DTC's book-entry system is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

We have provided the description of the current operations and procedures of DTC in this prospectus supplement solely as a matter of convenience. These operations and procedures are solely within the control of DTC and are subject to change by DTC from time to time. None of us, the underwriters or the trustee takes any responsibility for these operations or procedures, and you are urged to contact DTC or its participants directly to discuss these matters.

We expect that under the current procedures established by DTC:

Edgar Filing: Owens Corning - Form 424B5

upon deposit of the global notes with DTC or its custodian, DTC will credit on its book-entry registration and transfer system the accounts of direct participants designated by the underwriters with portions of the principal amounts of the global notes; and

ownership of the notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC or its nominee, with respect to interests of direct participants, and the records of direct and indirect participants, with respect to interests of persons other than participants.

S-18

Table of Contents

The laws of some jurisdictions may require that purchasers of securities take physical delivery of those securities in definitive form. Accordingly, the ability to transfer interests in the notes represented by a global note to those persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person having an interest in notes represented by a global note to pledge or transfer those interests to persons or entities that do not participate in DTC's system, or otherwise to take actions in respect of such interest, may be affected by the lack of a physical definitive security in respect of such interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or that nominee will be considered the sole owner or holder of the notes represented by that global note for all purposes under the indenture and under the notes. Except as provided below, owners of beneficial interests in a global note will not be entitled to have notes represented by that global note registered in their names, will not receive or be entitled to receive physical delivery of certificated notes and will not be considered the owners or holders thereof under the indenture or under the notes for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee, or receive notices. Accordingly, each holder owning a beneficial interest in a global note must rely on the procedures of DTC and, if that holder is not a direct or indirect participant, on the procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of notes under the indenture or a global note.

Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of notes by DTC or for maintaining, supervising or reviewing any records of DTC relating to the notes. Neither we nor the Trustee has any responsibility or liability for any act or omission of DTC.

Payments on the notes represented by the global notes will be made to DTC or its nominee, as the case may be, as the registered owner thereof. We expect that DTC or its nominee, upon receipt of any payment on the notes represented by a global note, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the global note as shown in the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in the global note held through such participants will be governed by standing instructions and customary practice as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. The participants will be responsible for those payments.

Clearstream, Luxembourg

Clearstream, Luxembourg is incorporated under the laws of Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations (Clearstream Participants) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream Participants among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a registered bank in Luxembourg, Clearstream, Luxembourg is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector, also known as Commission de Surveillance du *Secteur Financier*. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream, Luxembourg is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly. Distributions with respect to interests in the notes held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures.

Euroclear

Euroclear was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery

against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (Euroclear Operator). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly. Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the terms and conditions governing use of Euroclear and the related operating procedures of Euroclear, and applicable Belgian law, which are referred to collectively as the Terms and Conditions. The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants and has no records of or relationship with persons holding through Euroclear Participants.

Euroclear advises that investors that acquire, hold and transfer interests in the notes by book-entry through accounts with the Euroclear Operator or any other securities intermediary are subject to the laws and contractual provisions governing their relationship with their intermediary, as well as the laws and contractual provisions governing the relationship between such an intermediary and each other intermediary, if any, standing between themselves and the global securities.

Purchases of global securities under the DTC system must be made by or through direct participants, which will receive a credit for the global securities on DTC's records. The ownership interest of each actual purchaser of each security (Beneficial Owner) is in turn to be recorded on the direct and indirect participants' records and Clearstream, Luxembourg and Euroclear will credit on their book-entry registration and transfer systems the number of notes sold to certain non-U.S. persons to the account of institutions that have accounts with Euroclear, Clearstream, Luxembourg or their respective nominee participants. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participant or indirect participant through which the Beneficial Owner entered into the transaction.

Title to book-entry interests in the notes will pass by book-entry registration of the transfer within the records of Clearstream, Luxembourg, Euroclear or DTC, as the case may be, in accordance with their respective procedures. Book-entry interests in the notes may be transferred within Clearstream, Luxembourg and within Euroclear and between Clearstream, Luxembourg and Euroclear in accordance with procedures established for these purposes by Clearstream, Luxembourg and Euroclear. Book-entry interests in the notes may be transferred within DTC in accordance with procedures established for this purpose by DTC. Transfers of book-entry interests in the notes among Clearstream, Luxembourg and Euroclear and DTC may be effected in accordance with procedures established for this purpose by Clearstream, Luxembourg, Euroclear and DTC.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream, Luxembourg Participants or Euroclear Participants, on the other, will be effected through DTC in accordance with DTC's rules; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within the established deadlines of such system.

Edgar Filing: Owens Corning - Form 424B5

Due to time-zone differences, credits of the notes received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in such notes settled during such processing will be reported to the relevant Clearstream Participant or Euroclear Participants on such business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of the notes by or through a Clearstream Participant or a Euroclear Participant to a DTC participant will be received with value on the DTC settlement date, but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of DTC, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be changed or discontinued at any time. Neither we nor the Indenture Trustee will have any responsibility for the performance by DTC, Clearstream and Euroclear or their direct participants or indirect participants under the rules and procedures governing DTC, Clearstream or Euroclear, as the case may be.

Certificated Notes

We will issue certificated notes in registered form to each person that DTC identifies as the beneficial owner of the notes represented by a global note upon surrender by DTC of the global note if:

DTC notifies us that it is no longer willing or able to act as a depository for such global note or ceases to be a clearing agency registered under the Exchange Act and we have not appointed a successor depository within 90 days of that notice or becoming aware that DTC is no longer so registered;

an event of default has occurred and is continuing, and DTC requests the issuance of certificated notes; or

we determine not to have the notes represented by a global note.

Neither we nor the trustee will be liable for any delay by DTC, its nominee or any direct or indirect participant in identifying the beneficial owners of the notes. We and the trustee may conclusively rely on, and will be protected in relying on, instructions from DTC or its nominee for all purposes, including with respect to the registration and delivery, and the respective principal amounts, of the certificated notes to be issued. In connection with any proposed exchange of a certificated note for a global note, we or DTC shall be required to provide or cause to be provided to the trustee all information necessary to allow the trustee to comply with any applicable tax reporting obligations, including without limitation any cost basis reporting obligations under Internal Revenue Code Section 6045. The trustee may rely on information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a general discussion of the material U.S. federal income tax consequences of the acquisition, ownership, and disposition of the notes to beneficial owners of the notes. This discussion is based upon the Internal Revenue Code of 1986, as amended (the Code), the U.S. Treasury regulations promulgated thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change or differing interpretation, possibly on a retroactive basis, which may result in U.S. federal income tax consequences different from those set forth below. No ruling from the Internal Revenue Service (IRS) or opinion of counsel has been or will be sought with respect to the matters discussed below. There can be no assurance that the IRS will not take a different position concerning the U.S. federal income tax consequences of the acquisition, ownership or disposition of the notes.

This discussion applies only to beneficial owners of notes that acquire the notes upon their initial issuance at their initial issue price, which will equal the first price at which a substantial amount of the notes are sold for money to the public (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers), and hold the notes as capital assets within the meaning of section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that might be important to particular holders in light of their individual circumstances or the U.S. federal income tax consequences applicable to holders that may be subject to special tax rules, such as banks and other financial institutions, insurance companies, real estate investment trusts, regulated investment companies, tax-exempt entities, plans, cooperatives, partnerships (or entities or arrangements classified as partnerships for U.S. federal income tax purposes or investors therein), S corporations or other pass-through entities or investors in such entities, brokers or dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting, persons liable for U.S. federal alternative minimum tax, U.S. holders whose functional currency is not the U.S. dollar, certain former citizens or residents of the United States, persons holding the notes as part of a hedging, conversion transaction, a straddle or other risk reduction transaction, persons deemed to sell the notes under the constructive sale provisions of the Code, controlled foreign corporations or passive investment companies (within the meaning of the Code). The discussion does not address any non-U.S., U.S. federal non-income, state or local tax consequences of the acquisition, ownership or disposition of the notes to beneficial owners of the notes.

As used in this prospectus supplement, the term U.S. Holder means a beneficial owner of a note who is, or is treated as, for U.S. federal income tax purposes:

a citizen or individual resident of the United States;

a corporation created or organized in or under the laws of the United States, any State within the United States, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust, if (i) it is subject to the supervision of a court within the United States and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of the trust, or (ii) a valid election is in place under applicable U.S. Treasury regulations to treat such trust as a United States

person.

The term **Non-U.S. Holder** means any beneficial owner of a note that is neither a U.S. Holder nor a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes. For the purposes of this prospectus supplement, U.S. Holders and Non-U.S. Holders are referred to collectively as **Holders**.

If a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes is a beneficial owner of a note, the tax treatment of a partner in such partnership will generally depend upon the status of the partner and the activities of the partnership. Such entities and partners of such entities should consult their tax advisors about the U.S. federal income and other tax consequences of the acquisition, ownership, and disposition of a note.

S-25

Table of Contents

This discussion is for general information only and is not tax advice. Holders should consult their tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the consequences to them of acquiring, owning or disposing of notes under U.S. federal non-income, non-U.S., state, or local tax laws and tax treaties, and the possible effects of changes in tax laws.

Change of Control Premium

In certain circumstances, we may be obligated to pay a change of control premium on the notes (as described above under Description of the Notes Change of Control). Treasury regulations provide special rules for contingent payment debt instruments which, if applicable, could cause the timing, amount and character of a holder's income, gain or loss with respect to the notes to be different from the consequences discussed below. Under the applicable Treasury regulations, however, for purposes of determining whether a debt instrument is a contingent payment debt instrument, remote or incidental contingencies (determined as of the date the notes are issued) are ignored. We believe the possibility of making additional payments on the notes is remote and/or incidental. Therefore, we do not intend to treat the notes as contingent payment debt instruments. Our treatment will be binding on all Holders, except a Holder that discloses its differing treatment in a statement attached to its timely filed U.S. federal income tax return for the taxable year during which the note was acquired. Our treatment is not binding on the IRS, however, which may take a contrary position and treat the notes as contingent payment debt instruments. The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

U.S. Federal Income Taxation of U.S. Holders***Interest***

A U.S. Holder generally must include payments of stated interest on the notes as ordinary income at the time such interest is received or accrued, in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes. If, however, the stated principal amount of the notes exceeds the issue price thereof by more than a de minimis amount (as set forth in the applicable Treasury regulations), a U.S. Holder (regardless of its method of tax accounting) will be required to include such excess in income as original issue discount as it accrues generally in accordance with a constant yield method (unless otherwise accelerated) before the receipt of cash payments attributable to this income. It is anticipated, and this discussion assumes, that the notes will be issued at par or at a discount that is less than de minimis for U.S. federal income tax purposes.

Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of the Notes

Upon the sale, exchange, redemption, retirement or other taxable disposition of notes, a U.S. Holder generally will recognize gain or loss for U.S. federal income tax purposes equal to the difference, if any, between (i) the amount realized upon the sale, exchange, redemption, retirement or other taxable disposition of the notes, other than amounts attributable to accrued but unpaid interest which would be treated as interest described above in Interest (which will be taxed as ordinary interest income to the extent such interest has not been previously included in income), and (ii) the U.S. Holder's adjusted U.S. federal income tax basis in the notes. The amount realized by a U.S. Holder is the sum of cash plus the fair market value of all other property received on such sale, exchange, redemption, retirement or other taxable disposition. A U.S. Holder's adjusted U.S. federal income tax basis in the notes generally will be its cost for the notes, decreased by the amount of any payments, other than qualified stated interest payments, received with respect to such notes.

The gain or loss a U.S. Holder recognizes on the sale, exchange, redemption, retirement or other taxable disposition of the notes generally will be capital gain or loss. Such gain or loss generally will be long-term capital gain or loss if a

U.S. Holder has held the notes for more than 12 consecutive months. For non-corporate taxpayers, long-term capital gains are currently taxed at lower rates than ordinary income. The deductibility of capital losses is subject to limitations. A U.S. Holder should consult its tax advisor regarding the deductibility of capital losses in its particular circumstances.

S-26

Table of Contents

Tax on Net Investment Income

Certain U.S. Holders that are individuals, estates or trusts are subject to a 3.8% additional tax on the lesser of (i) their net investment income and (ii) the excess of the U.S. Holder's modified adjusted gross income over a certain threshold (which in the case of individuals is between \$125,000 and \$250,000, depending on the individual's circumstances). A U.S. Holder's net investment income generally will include its gross interest income and its net gains from the disposition of a note, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). You are urged to consult your tax advisors regarding the applicability of this additional tax.

Backup Withholding and Information Reporting

In general, a U.S. Holder that is not an exempt recipient (such as corporations and tax exempt organizations that properly establish their exemption) will be subject to U.S. federal backup withholding tax at the applicable rate (currently 24%) with respect to payments of interest on the notes and the proceeds of a sale, exchange, redemption, retirement or other taxable disposition of the notes, unless the U.S. Holder provides its taxpayer identification number to the paying agent and certifies, under penalties of perjury, that it is not subject to backup withholding on an IRS Form W-9 and otherwise complies with the applicable requirements of the backup withholding rules. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder may be allowed as a credit against such U.S. Holder's U.S. federal income tax liability and may entitle such U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner. In addition, payments on the notes made to, and the proceeds of a sale or other taxable disposition by, a U.S. Holder that is not an exempt recipient generally will be subject to information reporting requirements.

U.S. Federal Income Taxation of Non-U.S. Holders

Payments of Interest

Subject to the discussions below under Backup Withholding and Information Reporting and FATCA, a Non-U.S. Holder generally will be exempt from U.S. federal income tax and withholding tax on interest paid on the notes under the portfolio interest exemption so long as:

the Non-U.S. Holder does not conduct a trade or business within the United States to which the interest income is effectively connected (or, if an applicable income tax treaty so requires, is not attributable to the Non-U.S. Holder's permanent establishment or fixed base within the United States);

the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 881(c)(3)(B) of the Code and the Treasury regulations thereunder; and

either (i) the Non-U.S. Holder certifies under penalties of perjury on a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E (as applicable), or applicable successor form, that it is not a United States person (as defined in the Code), and provides its name and address, and U.S. taxpayer identification number, if any; (ii) a securities clearing organization, bank or other financial institution that holds customers' securities in the

ordinary course of its trade or business and holds the notes on behalf of the Non-U.S. Holder certifies under penalties of perjury that the certification referred to in clause (i) has been received from the Non-U.S. Holder and furnishes to us a copy thereof; or (iii) the Non-U.S. Holder holds its notes directly through a qualified intermediary provided that such qualified intermediary has entered into a withholding agreement with the IRS and certain other conditions are satisfied.

S-27

Table of Contents

A Non-U.S. Holder that does not qualify for exemption from withholding as described above generally will be subject to withholding of U.S. federal income tax at a rate of 30% on payments of interest on the notes. A Non-U.S. Holder may be entitled to the benefits of an income tax treaty under which interest on the notes is subject to a reduced rate of U.S. withholding tax or is exempt from U.S. withholding tax, provided the Non-U.S. Holder furnishes us a properly completed and executed IRS Form W-8BEN or IRS Form W-8BEN-E (as applicable), or applicable successor form, establishing the reduction or exemption under the benefit of an applicable income tax treaty and the Non-U.S. Holder complies with any other applicable procedures. Alternatively, a Non-U.S. Holder may be exempt from U.S. withholding tax if it provides a properly executed IRS Form W-8ECI, or applicable successor form, certifying that interest paid on the note is not subject to withholding tax because the interest is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States (as discussed below under *Effectively Connected Income*).

Sale, Exchange, Retirement, Redemption or Other Taxable Disposition of the Notes

Subject to the discussions below under *Backup Withholding and Information Reporting* and *FATCA*, generally, any gain recognized by a Non-U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of a note (other than amounts attributable to accrued and unpaid interest, which will be treated as described under

Payments of Interest above and will be taxed as ordinary interest income to the extent such interest has not been previously included in income) will be exempt from U.S. federal income and withholding tax, unless:

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if an applicable income tax treaty so requires, is attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder in the United States); or

the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year, and certain other requirements are met.

If a Non-U.S. Holder is described in the first bullet point, see *Effectively Connected Income* below. If a Non-U.S. Holder is described in the second bullet point, the Non-U.S. Holder generally will be subject to U.S. federal income tax at a rate of 30% on the amount by which the Non-U.S. Holder's capital gains allocable to U.S. sources, including gain from such disposition, exceed any capital losses allocable to U.S. sources, except as otherwise required by an applicable income tax treaty.

Effectively Connected Income

If interest, gain or other income recognized by a Non-U.S. Holder on a note is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if an applicable income tax treaty so requires, such interest, gain or other income is attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder in the United States), the Non-U.S. Holder will not be subject to the withholding tax discussed above if the Non-U.S. Holder provides us with a properly completed and executed IRS Form W-8ECI, or applicable successor form, but the Non-U.S. Holder generally will be subject to U.S. federal income tax on a net-income basis on such interest, gain or other income as if it were a United States person (as defined in the Code). In addition to such U.S. federal income tax, if the Non-U.S. Holder is a corporation, it may be subject to an additional branch profits tax equal to 30% (or a lower applicable income tax treaty rate) of such Non-U.S. Holder's earnings and profits for the taxable year, subject to adjustments, that are effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States.

Backup Withholding and Information Reporting

We must report annually to the IRS and to a Non-U.S. Holder the amount of interest, and proceeds from the sale, exchange, redemption, retirement or other taxable disposition paid to a Non-U.S. Holder and the tax withheld from those payments. These reporting requirements apply regardless of whether U.S. withholding tax on such payments was reduced or eliminated by any applicable income tax treaty or otherwise. Copies of the information returns reporting those payments and the amounts withheld may also be made available to the tax authorities in the country where a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or agreement.

S-28

Table of Contents

Under some circumstances, U.S. Treasury regulations may require backup withholding and additional information reporting on payments on the notes. Such backup withholding and additional information reporting generally will not apply to payments on the notes made by us or our paying agent to a Non-U.S. Holder if the certification described above under **Payments of Interest** is timely received from the Non-U.S. Holder.

Backup withholding is not an additional tax. A Non-U.S. Holder may obtain a refund or credit against its U.S. federal income tax liability of any amounts withheld under the backup withholding rules, provided the required information is furnished to the IRS in a timely matter.

Non-U.S. Holders should consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedures for obtaining such an exemption, if available.

FATCA

Pursuant to the Foreign Account Tax Compliance Act which is codified as Sections 1471 through 1474 of the Code and any current or future Treasury regulations or official interpretations thereof and any agreements entered into pursuant to Section 1471(b)(1) of the Code (**FATCA**), foreign financial institutions (which term includes most non-U.S. hedge funds, private equity funds, mutual funds and other investment vehicles) and certain other foreign entities generally must comply with information reporting rules with respect to their U.S. account holders and investors or confront a withholding tax on certain U.S.-source payments made to them (whether received as a beneficial owner or as an intermediary for another party). A foreign financial institution that does not comply with the FATCA reporting requirements will be subject to a 30% U.S. withholding tax on certain U.S. source payments, including interest (and original issue discount), dividends and other fixed or determinable annual or periodical gain, profits, and income, and on the gross proceeds from a disposition of property of a type which can produce U.S.-source interest or dividends (**Withholdable Payments**), including amounts paid to a foreign financial institution on behalf of a Holder. FATCA also generally imposes a withholding tax of 30% on **Withholdable Payments** made to certain nonfinancial foreign entities unless such entity provides the withholding agent with a certification that it does not have any substantial U.S. owners or a certification identifying the direct and indirect substantial United States owners (as defined in the Code) of the entity. Under certain circumstances, a Holder may be eligible for refunds or credits of such taxes. Under the applicable Treasury regulations, these withholding and reporting requirements generally apply to U.S.-source interest payments, although withholding has been deferred on payments of gross proceeds from a disposition of the notes until January 1, 2019. If we (or an applicable withholding agent) determine withholding is appropriate with respect to the notes, we (or such agent) will withhold tax at the applicable statutory rate, and such withheld amount will be treated as a payment of cash to the Holder and will reduce the amount of cash to which such Holder would otherwise be entitled, and we will not pay any additional amounts to Non-U.S. Holders in respect of such withholding. Foreign financial institutions and non-financial foreign entities located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. Prospective investors are urged to consult with their tax advisors regarding the possible implications of FATCA on their investment in the notes.

The material U.S. federal income tax consequences set forth above are included for general information only and may not be applicable depending upon a Holder's particular situation. Prospective purchasers of the notes should consult their tax advisors with respect to the tax consequences to them of the acquisition, ownership and disposition of the notes, including the tax consequences under state, local, U.S. federal non-income, non-U.S. and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws and the consequences of the newly enacted Tax Cuts and Jobs Act.

If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We and the guarantors have agreed to indemnify the several underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The representatives have advised us that the underwriters propose initially to offer the notes to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at such price less a concession not in excess of 0.500% of the principal amount of the notes, and those dealers may reallow, a concession not in excess of 0.350% of the principal amount of the notes. New Issue of Notes

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any securities exchange or for inclusion of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

No Sales of Similar Securities

We and the guarantors have agreed that we and the guarantors will not, from the date of this prospectus supplement through and including the date of closing of this offering, without first obtaining the prior written consent of the representatives, directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any debt securities or securities exchangeable for or convertible into debt securities, except for the notes sold to the underwriters pursuant to the underwriting agreement.

Short Positions

In connection with the offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in the offering. The underwriters must close out any short position by purchasing notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. Certain affiliates of the underwriters participate in our May 5, 2017 Receivables Securitization Facility, and are lenders under our Credit Agreement, our October 27, 2017 Term Loan Agreement and our October 27, 2017 364-Day Loan Agreement. In addition, an affiliate of Wells Fargo Securities, LLC acts as administrative agent under the Credit Agreement. the Credit Agreement. An affiliate of J.P. Morgan Securities LLC acts as administrative agent under the October 27, 2017 Term Loan Agreement and the October 27, 2017 364-Day Loan Agreement. J.P. Morgan Securities LLC acted as one of our financial advisors in connection with the Paroc Acquisition. The trustee, Wells Fargo Bank, National Association, is an affiliate of Wells Fargo Securities, LLC.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, those underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Prohibition of Sales to European Economic Area Retail Investors

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the Insurance Mediation Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the Prospectus Directive). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the PRIIPs Regulation) for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

- (c) Interest on indebtedness excludes interest income, gain or loss on extinguishment of debt, and interest associated with uncertain tax positions, which is included in Income tax expense in the Consolidated Statements of Earnings.

Table of Contents**DESCRIPTION OF COMMON STOCK**

The following summary description of our common stock is based on the provisions of the General Corporation Law of the State of Delaware, or the DGCL, and our amended and restated certificate of incorporation, or our certificate of incorporation, and our amended and restated bylaws, or our bylaws. This description is only a summary and does not purport to be complete, therefore it is subject to and is qualified in its entirety by reference to the terms of our certificate of incorporation and bylaws, which are incorporated by reference into the registration statement of which this prospectus is a part.

Authorized Capital Stock

The Company's authorized capital stock consists of 400,000,000 shares of common stock, par value \$0.01 per share (common stock), and 10,000,000 shares of preferred stock, par value \$0.01 per share (preferred stock). We may issue preferred stock in one or more series with rights and preferences as authorized by resolution by our board of directors. The issuance of any shares of any series of preferred stock in future financings, acquisitions or otherwise may result in dilution of voting power and relative equity interest of the holders of shares of our common stock and will subject our common stock to the prior dividend and liquidation rights of the outstanding shares of each series of preferred stock. As of the date of this prospectus, no shares of preferred stock have been issued or are outstanding.

Common Stock

Voting. The holders of common stock are entitled to one vote for each outstanding share of common stock owned by that stockholder on every matter properly submitted to the stockholders for their vote, subject only to any exclusive voting rights which may vest in holders of the preferred stock under the provisions of any series of the preferred stock established by our board of directors. Generally, all matters to be voted on by stockholders must be approved by a majority in voting power of the stock having voting power present in person or represented by proxy. However, questions governed expressly by provisions of the certificate of incorporation, bylaws, applicable stock exchange rules or applicable law require approval as set forth in the applicable governing document, stock exchange rule or law. The election of directors is by majority vote in uncontested director elections, and there is no cumulative voting for the election of directors. Certain provisions of our certificate of incorporation require a 75% vote of our outstanding common stock to be altered, amended or repealed.

Dividend Rights. Subject to the rights of the holders of any outstanding shares of preferred stock and any restrictions that may be imposed under our credit agreement governing our senior revolving credit facility or other contractual restrictions, the holders of common stock will be entitled to such dividends and other distributions of cash or any other right or property as may be declared by the board of directors out of the assets or funds legally available for such dividends or distributions. If there is any preferred stock outstanding at such time, dividends on the preferred stock must be paid in full or declared and set aside for payment before dividends may be paid to the holders of common stock. Under our credit agreement, we may not declare a cash dividend if a default or event of default thereunder exists or would come to exist at the time of declaration or if a dividend declaration violates the provisions of our formation documents or other material agreements.

Liquidation Rights. In the event of any voluntary or involuntary liquidation, dissolution or winding up of our affairs, holders of common stock would be entitled to share ratably, based upon the number of shares held, in assets that are legally available for distribution to stockholders after payment of all of our debts and liabilities and the liquidation preference of any outstanding preferred stock.

Conversion, Redemption and Preemptive Rights. Our common stock has no conversion rights nor are there any redemption or sinking fund provisions with respect to our common stock. Our certificate of incorporation

Table of Contents

does not provide that holders of common stock any preference or preemptive right to subscribe for or purchase additional common stock or securities of Owens Corning.

Listing. Our common stock is listed on the New York Stock Exchange under the symbol OC.

Provisions of Our Certificate of Incorporation and Bylaws that May Have an Anti-Takeover Effect

Our certificate of incorporation and bylaws contain several provisions that could have the effect of delaying, deterring or preventing the acquisition of control of Owens Corning by means of tender offer, open market purchases, a proxy contest or otherwise. Set forth below is a description of those provisions.

Number of Directors; Filling Vacancies. Our bylaws provide that the exact number of directors shall be fixed from time to time by our board of directors. Although our bylaws provide that any director may be removed from office at any time, with or without cause, by the affirmative vote of a majority in voting power of the then-outstanding voting stock, the bylaws also provide that vacant directorships may be filled by the board of directors.

Special Meetings of Stockholders; Stockholders Cannot Act by Written Consent. Our bylaws provide that a special meeting of stockholders may be called only by our board of directors pursuant to a resolution approved by a majority of the whole board of directors, except as may otherwise be required by law. Stockholders are not permitted to call, or to require that the board of directors call, a special meeting of stockholders. Our certificate of incorporation requires that any action required or permitted to be taken by our stockholders must be effected at a duly called annual or special meeting of stockholders and may not be effected by any consent in writing by our stockholders.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. Our bylaws establish advance notice procedures with regard to stockholder proposals and the nomination, other than by or at the direction of the board of directors or a committee thereof, of candidates for election as directors.

Certain Effect of Authorized but Unissued Stock. Unissued and unreserved shares of common stock or preferred stock may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital and for facilitating corporate acquisitions. One of the effects of unissued and unreserved shares of capital stock may be to enable our board of directors to render more difficult or discourage an attempt to obtain control of Owens Corning by means of a merger, tender offer, proxy contest or otherwise, and thereby to protect the continuity of our management. If, in the due exercise of its fiduciary obligations, for example, our board of directors determines that a takeover proposal was not in our best interests, such shares could be issued by our board of directors without stockholder approval in one or more private transactions or other transactions that might prevent or render more difficult or costly the completion of the takeover transaction by diluting the voting or other rights of the proposed acquirer or insurgent stockholder group, by creating a substantial voting block in institutional or other hands that might undertake to support the position of the incumbent board of directors, by effecting an acquisition that might complicate or preclude the takeover, or otherwise.

Section 203 of the General Corporation Law of the State of Delaware

We are subject to Section 203 of the DGCL, which, subject to certain exceptions, prohibits a Delaware corporation from engaging in any business combination (as defined below) with any interested stockholder (as defined below) for a period of three years following the date that such stockholder became an interested stockholder, unless:

Edgar Filing: Owens Corning - Form 424B5

prior to such date, the corporation's board of directors approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;

on consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation

Table of Contents

outstanding at the time the transaction commenced, excluding those shares owned by (i) directors who are also officers and (ii) employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

on or subsequent to such date, the business combination is approved by the corporation's board of directors and by the affirmative vote (and not by written consent) of at least 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 of the DGCL defines "business combination" to include: (i) any merger or consolidation involving the corporation and the interested stockholder; (ii) any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder; (iii) subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder; (iv) any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or (v) the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation. In general, Section 203 of the DGCL defines an "interested stockholder" as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by such entity or person.

DESCRIPTION OF DEBT SECURITIES

We will issue the debt securities in one or more series. Debt securities will be issued under the indenture dated as of June 2, 2009, as amended and supplemented from time to time (the indenture), among us, the Subsidiary Guarantors (as defined below) and Wells Fargo Bank, National Association, as trustee. We have summarized below the material provisions of the indenture. However, because this is only a summary and does not purport to be complete, it is subject to and is qualified in its entirety by reference to the indenture, which is incorporated by reference into the registration statement of which this prospectus is a part. Definitions of certain terms used in this Description of Debt Securities may be found below under Certain Definitions. In this Description of Debt Securities, Owens Corning, us, our and similar words refer solely to Owens Corning (and any successor, as permitted by the indenture) and not any of its subsidiaries.

General

The debt securities will be our general obligations and will rank on a parity with our other unsecured and unsubordinated indebtedness. The debt securities will be effectively subordinated to our senior secured indebtedness to the extent of the value of the collateral securing such indebtedness.

The debt securities will be fully and unconditionally guaranteed as described below by each of our current and future U.S. subsidiaries that is a borrower or a guarantor under the Credit Agreement (each a Subsidiary Guarantor and, collectively, the Subsidiary Guarantors). Each guarantee of the debt securities by a Subsidiary Guarantor will be a general obligation of such Subsidiary Guarantor and will rank on a parity with the other unsecured and unsubordinated indebtedness of such Subsidiary Guarantor. Each guarantee will be effectively subordinated to any secured indebtedness of the Subsidiary Guarantor, to the extent of the value of the collateral securing such indebtedness.

We may issue the debt securities in one or more series, as authorized from time to time by our board of directors, any committee of our board of directors or any duly authorized officer. The indenture does not limit our ability to incur additional indebtedness, nor does it afford holders of the debt securities protection in the event of a highly leveraged or similar transaction involving Owens Corning. However, the indenture provides, subject to significant exceptions, that neither we nor any of the Subsidiary Guarantors may subject certain of our property or assets to any lien (other than specified permitted liens) unless the debt securities are secured equally and ratably with or prior to that other secured indebtedness. See Certain Covenants below. Reference is made to the applicable prospectus supplement for information with respect to any additions to, or modifications or deletions of, the covenants or events of default described below.

We will desc
