ECUADOR MINISTRY OF ENVIRONMENT APPROVES MACHALA PORT EIA

Port to ship all copper concentrate from planned Mirador mine

VANCOUVER, CANADA, December 10, 2007 Corriente announces that the Ministry of Environment in Ecuador has approved the Environmental Impact Assessment ("EIA") of the planned port operation in Machala, which is designed to act as a shipping facility for all Corriente copper concentrates to be produced in Ecuador.

Corriente owns a 27 hectare port site on the Santa Rosa Channel in Machala, which is connected to the Mirador project by a 400 km paved highway. Receipt of the EIA is an important part of the overall Mirador project approval process and provides the key access for a Pacific shipping route for copper concentrates.

ABOUT CORRIENTE

Corriente is moving towards construction of a starter operation at its Mirador copper-gold operation. Mirador is one of the few new, sizeable copper projects available for near-term production. Corriente controls a 100% interest in over 50,000 hectares located within the Corriente Copper Belt, Ecuador. The Belt currently contains four copper and copper-gold porphyry deposits: Mirador, Mirador Norte, Panantza and San Carlos. Additional exploration activities are ongoing, as six additional copper and copper-gold exploration targets have been identified in the Corriente Copper Belt to date.
