‡Restricted Security. These investments are in securities not registered under the Securities Act of 1933, as amended, and have certain restrictions on resale which may limit their liquidity. At February 28, 2010, the aggregate amount of the restricted securities was \$75,415 or 0.11% of the Fund's net assets. See Note 5 in "Notes."

†Non income producing security.

=Security is being fair valued in accordance with the Fund's fair valuation policy. At February 28, 2010, the aggregate amount of fair valued securities was \$74,384, which represented 0.11% of the Fund's net assets. See Note 1 in "Notes."

\*Fully or partially on loan.

@Illiquid security. At February 28, 2010, the aggregate amount of illiquid securities was \$418,420, which represented 0.62% of the Fund's net assets. See Note 5 in "Notes."

#Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At February 28, 2010, the aggregate amount of Rule 144A securities was \$16,059,204, which represented 23.78% of the Fund's net assets. See Note 5 in "Notes."

•Variable rate security. The rate shown is the rate as of February 28, 2010.

φStep coupon bond. Coupon increases/decreases periodically based on a predetermined schedule. Stated rate in effect at February 28, 2010.

‡Non income producing security. Security is currently in default.

Step coupon bond. Indicates security that has a zero coupon that remains in effect until a predetermined date at which time the stated interest rate becomes effective.

«Senior Secured Loans generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally: (i) the prime rate offered by one or more United States banks, (ii) the lending rate offered by one or more European banks such as the London Inter-Bank Offered Rate (LIBOR), and (iii) the certificate of deposit rate. Senior Secured Loans may be subject to restrictions on resale. Stated rate in effect at February 28, 2010.

\*\*See Note 4 in "Notes."

©Includes \$7,842,231 of securities loaned.

### Summary of Abbreviations:

PIK – Pay-in-kind

REIT – Real Estate Investment Trust

## Notes

### 1. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and are consistently followed by Delaware Investments® Dividend and Income Fund, Inc. (Fund). This report covers the period of time since the Fund's last fiscal year end.

**Security Valuation** – Equity securities, except those traded on the Nasdaq Stock Market, Inc. (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. Securities traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and the ask prices will be used. Securities listed on a foreign exchange are valued at the last quoted sales price on the valuation date. Short-term debt securities are valued at market value. U.S. government and agency securities are valued at the mean between the bid and ask prices. Other debt securities are valued by an independent pricing service or broker. To the extent current market prices are not available, the pricing service may take into account developments related to the specific security, as well as transactions in comparable securities. Investment companies are valued at net asset value per share. Generally, other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors (Board). In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures or suspension of trading in a security. The Fund may use fair value pricing more frequently for securities traded primarily in non-U.S. markets because, among other things, most foreign markets close well before the Fund values its securities at 4:00 p.m. Eastern time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, government actions or pronouncements, aftermarket trading, or news events may have occurred in the interim. To account for this, the Fund may frequently value foreign securities using fair value prices based on third-party vendor modeling tools (international fair value pricing).

Federal Income Taxes – No provision for federal income taxes has been made as the Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to shareholders. The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years (November 30, 2006 – November 30, 2009), and has concluded that no provision for federal income tax is required in the Fund's financial statements.

---

## Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-Q

**Distributions** – The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains to the extent permitted and, if necessary, a return of capital.

**Repurchase Agreements** – The Fund may invest in a pooled cash account along with other members of the Delaware Investments® Family of Funds pursuant to an exemptive order issued by the Securities and Exchange Commission. The aggregate daily balance of the pooled cash account is invested in repurchase agreements secured by obligations of the U.S. government. The respective collateral is held by the Fund’s custodian bank until the maturity of the respective repurchase agreements. Each repurchase agreement is at least 102% collateralized. However, in the event of default or bankruptcy by the counterparty to the agreement, realization of the collateral may be subject to legal proceedings. At February 28, 2010, the Fund held no investments in repurchase agreements.

**Use of Estimates** – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Other** – Expenses directly attributable to the Fund are charged directly to the Fund. Other expenses common to various funds within the Delaware Investments® Family of Funds are generally allocated amongst such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums on non-convertible bonds are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts (REITs) are recorded as dividend income on the ex-dividend date, subject to reclassification upon notice of the character of such distributions by the issuer.

### 2. Investments

At February 28, 2010, the cost of investments for federal income tax purposes has been estimated since final tax characteristics cannot be determined until fiscal year end. At February 28, 2010, the cost of investments and unrealized appreciation (depreciation) for the Fund was as follows:

Cost of investments	\$ 97,872,026
Aggregate unrealized appreciation	\$ 6,343,500
Aggregate unrealized depreciation	(8,662,705)
Net unrealized depreciation	\$ (2,319,205)

For federal income tax purposes, at November 30, 2009, capital loss carryforwards of \$27,438,402 may be carried forward and applied against future capital gains. Such capital loss carryforwards will expire as follows: \$16,115,503 expires in 2016 and \$11,322,899 expires in 2017.

U.S. GAAP defines fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. A framework for measuring fair value and a three level hierarchy for fair value measurements has been established based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity’s own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The Fund’s investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 – inputs are quoted prices in active markets

Level 2 – inputs are observable, directly or indirectly

Level 3 – inputs are unobservable and reflect assumptions on the part of the reporting entity

The following table summarizes the valuation of the Fund's investments by fair value hierarchy levels as of February 28, 2010:

	Level 1	Level 2	Level 3	Total
Common Stock	\$ 46,184,589	\$ -	\$ 4	\$ 46,184,593
Corporate Debt	146,400	40,845,480	192,531	41,184,411
Investment Companies	17,568	-	-	17,568
Other	166,960	224,294	13,761	405,015
Securities Lending Collateral	6,313,061	1,441,235	6,938	7,761,234
Total	\$ 52,828,578	\$ 42,511,009	\$ 213,234	\$ 95,552,821

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

Corporate

Securities

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-Q

	Common Stock	Debt	Other	Lending Collateral	Total
Balance as of 11/30/09	\$ 43	\$ 74,379	\$ 20,641	\$ 6,938	\$ 102,001
Purchases	-	120,000	-	-	120,000
Net change in unrealized appreciation/depreciation	(39)	(1,848)	(6,880)	-	(8,767)
Balance as of 2/28/10	\$ 4	\$ 192,531	\$ 13,761	\$ 6,938	\$ 213,234
Net change in unrealized appreciation/depreciation from investments still held as of 2/28/10	\$ (39)	\$ (1,848)	\$ (6,880)	\$ -	\$ (8,767)

In January 2010, the Financial Accounting Standard Board issued an Accounting Standards Update, Improving Disclosures about Fair Value Measurements, which introduces new disclosure requirements and clarifies certain existing disclosure requirements around fair value measurements currently presented above. The new disclosures and clarifications of existing disclosures are generally effective for the Fund's year ending November 30, 2011 and interim periods therein. Management is evaluating the impact of this update on its current disclosures.

## Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-Q

### 3. Line of Credit

For the period ended February 28, 2010, the Fund borrowed money pursuant to a \$30,000,000 Credit Agreement with The Bank of New York Mellon (BNY Mellon) that expires on November 15, 2010. Depending on market conditions, the amount borrowed by the Fund pursuant to the Credit Agreement may be reduced or possibly increased in the future.

At February 28, 2010, the par value of loans outstanding was \$20,225,000 at a variable interest rate of 1.38%. During the period ended February 28, 2010, the average daily balance of loans outstanding was \$20,225,000 at a weighted average interest rate of approximately 1.45%. Interest on borrowings is based on a variable short-term rate plus an applicable margin. The commitment fee is computed at a rate of 0.25% per annum on the unused balance. The loan is collateralized by the Fund's portfolio.

### 4. Securities Lending

The Fund, along with other funds in the Delaware Investments® Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with BNY Mellon. With respect to each loan, if the aggregate market value of securities collateral held plus cash collateral received on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is generally invested in the BNY Mellon Securities Lending Overnight Fund (Collective Trust) established by BNY Mellon for the purpose of investment on behalf of clients participating in its securities lending programs. The Collective Trust may only hold cash and high quality assets with a maturity of one business day or less (Cash/Overnight Assets). The Fund also has cash collateral invested in the BNY Mellon SL DBT II Liquidating Fund (Liquidating Fund), which generally holds the portfolio securities of the Fund's previous cash collateral pool other than its Cash/Overnight Assets. The Liquidating Fund invests in fixed income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top three tiers by Standard & Poor's Ratings (S&P) Group or Moody's Investors Service, Inc. (Moody's) or repurchase agreements collateralized by such securities. The Fund will not make additional investments of cash collateral in the Liquidating Fund; the Fund's exposure to the Liquidating Fund is expected to decrease as the Liquidating Fund's assets mature or are sold. Both the Collective Trust and the Liquidating Fund seek to maintain a net asset value per unit of \$1.00, but there can be no assurance that they will always be able to do so. The Fund may incur investment losses as a result of investing securities lending collateral in the Collective Trust and the Liquidating Fund. This could occur if an investment in the Collective Trust or the Liquidating Fund defaulted or if it were necessary to liquidate assets in the Collective Trust or the Liquidating Fund to meet returns on outstanding security loans at a time when their net asset value per unit was less than \$1.00. Under those circumstances, the Fund may not receive an amount from the Collective Trust or the Liquidating Fund that is equal in amount to the collateral the Fund would be required to return to the borrower of the securities and the Fund would be required to make up for this shortfall. In October 2008, BNY Mellon transferred certain distressed securities from the Collective Trust into the Mellon GSL Reinvestment Trust II. The Fund can also accept U.S. government securities and letters of credit (non-cash collateral) in connection with securities loans. In the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends or interest, as applicable, on the securities loaned and is subject to change in value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. With respect to security loans collateralized by non-cash collateral, the Fund receives loan premiums paid by the borrower. With respect to security loans collateralized by cash collateral, the earnings from the collateral investments are shared among the Fund, the security lending agent and the borrower. The Fund records security lending income net of allocations to the security lending agent and the borrower.

At February 28, 2010, the value of securities on loan was \$7,842,231, for which the Fund received collateral, comprised of securities collateral valued at \$115,560, and cash collateral of \$7,931,356. At February 28, 2010, the value of invested collateral was \$7,761,234. Investments purchased with cash collateral are presented on the schedule of investments under the caption "Securities Lending Collateral."

### 5. Credit and Market Risk

The Fund borrows through its line of credit for purposes of leveraging. Leveraging may result in higher degrees of volatility because the Fund's net asset value could be subject to fluctuations in short-term interest rates and changes in market value of portfolio securities attributable of the leverage.

The Fund invests a portion of its assets in high yield fixed income securities, which carry ratings of BB or lower by S&P and/or Ba or lower by Moody's. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund invests in REITs and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct real estate holdings during the period ended February 28, 2010. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

The Fund may invest up to 10% of its net assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Fund's Board has delegated to Delaware Management Company (DMC), a series of Delaware Management Business Trust, the day-to-day functions of determining whether individual securities are liquid for purposes of the Fund's limitation on investments in illiquid assets. Securities eligible for resale pursuant to Rule 144A, which are determined to be liquid, are not subject to the Fund's 10% limit on investments in illiquid securities. Rule 144A and illiquid securities have been identified on the schedule of investments.

### 6. Sale of Delaware Investments to Macquarie Group

On August 18, 2009, Lincoln National Corporation (parent company of Delaware Investments) and Macquarie Group (Macquarie) entered into an agreement

## Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-Q

pursuant to which Delaware Investments, including DMC and Delaware Service Company, Inc. (DSC), would be acquired by Macquarie, an Australia-based global provider of banking, financial, advisory, investment and funds management services (Transaction). The Transaction was completed on January 4, 2010. DMC and DSC are now wholly owned subsidiaries of Macquarie.

The Transaction resulted in a change of control of DMC which, in turn, caused the termination of the investment advisory agreement between DMC and the Fund. On January 4, 2010, the new investment advisory agreement between DMC and the Fund that was approved by the shareholders became effective.

### 7. Subsequent Event

Management has evaluated whether any events or transactions occurred subsequent to February 28, 2010 through April 26, 2010, the date of issuance of the Fund's schedule of investments, and determined that there were no material events or transactions that would require recognition or disclosure in the Fund's schedule of investments.

---

## Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-Q

### Item 2. Controls and Procedures.

The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no significant changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

### Item 3. Exhibits.

File as exhibits as part of this Form a separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), exactly as set forth below:

---
