Forward-Looking Statements

This Economic and Financial Analysis Report contains forward-looking statements related to our business. Such statements are based on management's current expectations, estimates and projections concerning future events and financial trends that may affect our business. Words such as "believe", "anticipate", "plan", "expect", "intend", "goal", "estimate", "forecast", "predict", "project", "guidelines", "should" and other similar expressions are used to indicate predicting statements. However, forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may be beyond our control. In addition, some forward-looking statements are based on assumptions which, depending on future events, may prove not to be accurate. Therefore, actual results may differ significantly from the plans, goals, expectations, projections and intentions expressed or implied in such statements.

The factors that may impact the actual results include, among others, changes in regional, national and international trade and economic policies; inflation; an increased number of defaults by borrowers in loan operations, with a consequent increase in the allowance for losses from loan operations; loss of ability to receive deposits; loss of customers or revenues; our ability to sustain and improve performance; changes in interest rates which may, among other things, adversely affect our margins; competition in the banking industry, financial services, credit card services, insurance, asset management and other related industries; government regulation and fiscal affairs; disputes or adverse legal proceedings or regulations; and credit and other risks involved in lending and investment activities.

As a result, one should not rely excessively on these forward-looking statements. The statements are valid only for the date on which they were drafted. Except as required by applicable law, we do not assume any obligation to update these statements as a result of new information, future developments or any other matters which may arise.

Some numbers included in this Report have been subjected to rounding adjustments.

As a result, some amounts indicated as total amounts in some charts may not be the arithmetic sum

Highlights

17. In August 2015, Bradesco informed the market that it had signed a Purchase Contract of Shares with HSBC Latin America Holdings Limited for the acquisition of 100% of the share capital of HSBC Bank Brasil S.A. – Banco Múltiplo and HSBC Serviços e Participações Ltda. ("HSBC"), for the value of US\$5.2 billion. The price will be adjusted by the equity variation of HSBC as per December, 2014 and will be paid on the date of completion of the operation, which is subject to the approval of the competent regulatory authorities and in compliance with the legal formalities. With the acquisition, Bradesco will assume all operations of HSBC in Brazil, including retail, insurance and asset management, as well as all the branches and clients.

18. In September 2015, Bradesco was selected for the 10th consecutive year, to integrate the Dow Jones Sustainability Index (DJSI), in the portfolios "Dow Jones Sustainability World Index" and "Dow Jones Sustainability Emerging Markets".

19. Major Awards and Acknowledgments in the period:

- Bradesco was considered the most valuable Bank brand in Latin America and obtained 4th place in the general ranking amongst all sectors with a value of US\$5.2 billion (BrandAnalytics / Millward Brown);
- It was a highlight in the 2015 edition of the "Anuário Valor 1000" (Yearbook) integrating the ranking of the largest banks and occupying the 1st place among insurers, with Bradesco Seguros, Bradesco Vida e Previdência and Bradesco Saúde (*Valor Econômico* newspaper); and
- For the 16th time, it was part of the list of "135 Melhores Empresas para Trabalhar no Brasil" ("135 Best Companies to Work For in Brazil"), (*Época* magazine, assessed as Great Place to Work).

Organização Bradesco is fully committed to internationally recognized sustainability and corporate governance initiatives, particularly: Global Compact, PRI (Principles for Responsible Investment), and Equator Principles. We set our guidelines and strategies with a view to incorporating the best sustainability practices into our businesses, considering the context and the potential of each region, thus contributing to the generation of value in the Organization. The driving force behind our engagement is inclusion via education, democratization and presence, innovation, sustainability and continuity of our businesses. Our management process adopts economic and socio-environmental indexes developed in Brazil and abroad, such as the Dow Jones Sustainability Index (DJSI), the Corporate Sustainability Index (ISE, of BM&FBovespa), and the Carbon Efficient Index (ICO2, also of BM&FBovespa), as well as the guidelines and indexes of the Global Reporting Initiative (GRI) and the CDP.

With a broad social and educational program in place for 58 years, Fundação Bradesco operates 40 schools across Brazil. In 2015, an estimated R\$537.311 million budget will benefit approximately 101,609 students enrolled in its schools at the following levels: basic education (from kindergarten to high school and higher secondary technical-professional education), youth and adult education; and preliminary and continuing vocational training, which focuses on creating jobs and income. In addition to being guaranteed free quality education, the approximately 44 thousand students enrolled in the Basic Education system also receive uniforms, school supplies, meals, and medical and dental assistance. With regard to the distance learning system (EaD), it is estimated that 380 thousand students will benefit from it, through its e-learning portal *Escola Virtual* (Virtual School). These students will conclude, at least, one of the various courses offered in its schedule, and another

17 thousand students will benefit from projects and initiatives carried out in partnership with Centers for Digital Inclusion (CDIs), the *Educa+Ação* Program, and from Technology courses (*Educar e Aprender* - Educating and Learning).

Press Release

Summarized Analysis of Adjusted Income

Adjusted Net Profit and Profitability

The return on the Average Adjusted Shareholder's Equity (ROAE) stood at 21.2% in September 2015. Such performance stems from the growth of adjusted net income, which increased by 0.6% quarter-over-quarter and 18.6% comparing the nine months of 2015 with the same period in the previous year. The main events that affected adjusted net income are detailed below.

Adjusted net income reached R\$4,533 million in the third quarter of 2015, up R\$29 million or 0.6% compared to the previous quarter, mainly due to (i) the largest revenues for services provided; (ii) the increment of the "interest" earning portion; (iii) the highest operating result of Insurance, Pension Plans and Capitalization Bonds, net of technical reserves, retained claims and others; (iv) lower expenses with income tax and social contribution, which reflects, in part, the increased use of the tax benefit on the constitution of interest on own capital; and impacted, partly, by higher: (v) cost of the provision for doubtful accounts; and (vi) administrative and staff expenditure.

In the comparison between the nine months of 2015 and the same period in the previous year, the adjusted net profit increased R\$2,084 million or 18.6%, which reflects the highest revenues due to: (i) the interest earning portion, partially due to the effect the margin of intermediation and of the assets and liabilities management (ALM); and (ii) the services provided; being partially offset by: (iii) higher allowance for loan losses expenses; (iv) increased operating expenses, net; (v) higher tax expenses; and (vi) higher personnel and administrative expenses, whose variation was below the index of inflation (IPCA) in the period.

Shareholders' Equity totaled R\$86,233 million in September 2015, up 8.8% over September 2014. Basel III Ratio, calculated based on the Prudential

Consolidated, stood at 14.5%, 11.4% of which was classified as Common Equity / Tier I.

Total Assets registered R\$1.051 trillion in September 2015, a 6.4% increase over September 2014, driven by the increased turnover. Return on Average Assets (ROAA) reached 1.7%.

- Economic and Financial Analysis Report – September 2015

Summarized Analysis of Adjusted Income**Operating Efficiency Ratio (ER)**

The 12-month accumulated ER⁽¹⁾ remained at 37.9%, stable in comparison to the previous quarter, and presented improvement of 2.0 p.p. in comparison to the same period of the previous year, proportionate, largely to: (i) by the increase in earning portion and revenues from fee and commission; and (ii) the strict control of our operating expenses, arising from the actions of our Efficiency Committee and of investments in Information Technology. The ER in the “risk-adjusted” concept, reflecting the impact of the risk associated with loan operations⁽²⁾, reached 46.6%.

In the ER – quarterly, the indicator was partially impacted by: (i) higher administrative expenses, primarily due to the increase of (a) expenses with advertising and (b) outsourced services; (ii) by the increase in staff expenditure, in virtue of the collective convention of 2015; and partially offset by: (iii) the increase of the Fee and Commission Income and the interest earning portion.

(1) $ER = (\text{Personnel Expenses} - \text{Employee Profit Sharing} + \text{Administrative Expenses}) / (\text{Earning Portion} + \text{Fee and Commission Income} + \text{Income from Insurance} + \text{Equity in the Earnings (Losses) of Unconsolidated Companies} + \text{Other Operating Income} - \text{Other Operating Expenses})$. If we considered the ratio between (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to income generation + Insurance Sales Expenses); and (ii) net income generation of related taxes (not considering Insurance Claims and Sales Expenses), our ER accumulated in the last 12 months in the third quarter of 2015 would be 42.2%; and

(2) Including ALL expenses, adjusted for discounts granted, loan recovery and sale of foreclosed assets, among others.

Earning Portion

In the quarterly comparison, the R\$194 million, or 1.4%, increase was, mainly, due to: (i) by the higher result obtained with the "interest" earning portion, to the value of R\$294 million, with emphasis on "Credit Intermediation"; and offset: (ii) by the lower result obtained with the non-interest earning portion, in the amount of R\$100 million.

In the comparison between the nine months of 2015 and the same period in the previous year, earning portion has increased by R\$5,566 million, or 15.8%, primarily due to a higher interest earning portion income, in the amount of R\$5,586 million, particularly in "Credit Intermediation" and "Securities/Other".

Summarized Analysis of Adjusted Income

Expanded Loan Portfolio⁽¹⁾

In September 2015, the expanded loan portfolio of Bradesco totaled R\$474.5 billion, registering in the quarter an increase of 2.4%. In the quarter, (i) the Large Companies accounts showed a growth of 4.5% and (ii) Individual accounts of 1.2%.

In the last 12 months, the portfolio increased by 6.8% primarily represented by: (i) 12.8% in Corporations; and (ii) 5.2% in Individuals.

For Individuals, the products that have the strongest growth in the last 12 months were: (i) real estate financing; and (ii) payroll-deductible loan. While for the Corporate segment, the highlights were: (i) operations abroad; and (ii) export financing, influenced, mainly due to the exchange rate variation in the period.

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in mortgage-backed receivables, and farm loans.

For more information, see Chapter 2 of this Report.

Allowance for Loan Losses (ALL)⁽¹⁾

In the third quarter of 2015, allowance for loan losses totaled R\$3,852 million, registering an increase of 8.5% over the previous quarter due to: (i) the delinquency rate in the period, mainly resulting from the deceleration of economic activity; and (ii) by the effect of the dollar variation on the ALL expenditure, originating from operations abroad. It is important to note that loan operations, as defined by Bacen, increased 3.1% in the quarter.

The worsening of delinquency rates was mitigated by the reinforcement of the loan assignment and monitoring policy and processes, quality of guarantees, as well as the improvement of the credit recovery processes.

In the comparison between the nine months of 2015 and the same period of the previous year, these expenses presented a variation of 17.5%, impacted, mainly by: (i) the effect of the alignment of the

allowance level of certain operations with corporate clients; (ii) the higher delinquency rate in the period; (iii) the increase in credit operations - Bacen concept, which presented an evolution of 9.0% in the last 12 months; and (iv) by the effect of the dollar variation on the ALL expenditure, originating from operations abroad.

(1) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of "excess" ALL. In the third quarter of 2015, includes an ALL Surplus/Deficit Rating, considered as an extraordinary event, totaling R\$3,704 million. This way, the balance of the ALL - Surplus provision went from R\$4,004 million in June 2015 to R\$6,409 million in September 2015.

Delinquency Ratio⁽¹⁾

The total delinquency ratio, which refers to operations that are over 90 days past due, had a slight increase mainly due to the downturn in the economy, which impacted the growth of the loan portfolio, highlighting the retraction of the portfolio of the SMEs segment.

In the quarter, short-term delinquency, including operations past due between 15 and 90 days, had a slight decrease, influenced mainly by Legal Entities.

Coverage Ratios

The following graph presents the performance of the Allowance for Loan Losses (ALL) coverage ratios, with regard to loans past due for more than 60 and 90 days. In September 2015, these ratios stood at comfortable levels, reaching 168.4% and 205.7%, respectively.

The increase of the coverage ratios in the quarter is associated with: (i) the strengthening of the general provision for clients of specific industries; and (ii) the increment of the surplus provision, as a prudential measure, due to the deceleration of the economic activity.

Bradesco monitors the loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses (ALL) required by Bacen, Bradesco has excess of R\$6.4 billion, result of an increase of 60.1% of this amount in the third quarter of 2015, to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

(1) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of “excess” ALL. In September 2015, it includes the ALL Surplus/Deficit Rating, considered as an extraordinary event, totaling R\$3,704 million. Press Release

Summarized Analysis of Adjusted Income

In the comparative study between the third quarter of 2015 and the same period of the previous year, there was an increase of 17.2% in premiums issued, pension contribution and capitalization revenue. In relation to the second quarter of 2015, it showed a reduction of 9.6%, as a result of the growth of 45.3% in the previous quarter, of the "Life and Pension" products.

In the accrued, the production registered an increase of 18.6% over the same period in the previous year, influenced by "Life and Pension Plans" and "Health Bonds" products, which increased 26.0% and 20.7%, respectively.

The net profit of the third quarter of 2015 was 24.5% higher than the results presented in the same period last year, basically due to: (i) the growth of 17.2% in the turnover; (ii) the improvement in the financial and equity results; (iii) the improvement in the index of administrative efficiency, compensated, partly; (iv) by the increase of 0.4 p.p. in the claims ratio index.

The net profit accrued as of September 2015 was 22.5% higher compared to the same period in the previous year, due to: (i) an increase in revenue; (ii) the improvement of the financial and equity results; (iii) the improvement of the administrative efficiency index; and compensated, partly: (iv) by the increase of 1.0 p.p. in the claims ratio index.

The net profit of the third quarter of 2015 was 2.6% higher than the results calculated in the previous quarter, basically, due to: (i) an increase in operating income and equity results; compensated, partly: (ii) by reducing the turnover; and (iii) by the increase of 1.7 p.p. in the claims ratio index.

Minimum Capital Required – Grupo Bradesco Seguros

According to CNSP Resolution No. 321/15, corporations should have adjusted shareholder's equity (ASE) equal to or higher than the minimum capital required (MCR). MCR is equivalent to the highest value between the base capital and the risk capital. For companies regulated by the ANS, Normative Resolution No. 373/15 establishes that corporations should have adjusted shareholder's equity (ASE) equal to or higher than the Solvency Margin.

The capital adjustment and management process is continuously monitored and aims to ensure that Grupo Bradesco Seguros keeps a solid capital base to support the development of activities and cope with the risks in any market situation, in compliance with regulatory requirements and/or Corporate Governance principles. Companies must permanently maintain a capital compatible with the risks for their activities and operations, according to the characteristics and peculiarities of each company belonging to Grupo Bradesco Seguros, represented by adequate capital levels. Grupo Bradesco Seguros permanently observes the limits required by the respective regulatory entities. The Minimum Capital Required in August 2015 was R\$7.872 billion.

Fee and Commission Income

In the first nine months of 2015 fee and commission income totaled R\$18,242 million, presenting an increase of R\$1,992 million, or 12.3%, compared to the same period in the previous year, primarily due to: (i) an increase in the volume of operations, due to continuous investments in technology and service channels; and (ii) the progress in the customer segmentation process, allowing for a more adequate offer of products and services. It must be noted that the incomes that have most contributed to this result derived from: (i) the good performance of the cards activity, as a result of (a) an increased revenue; (b) an increase of the base of cards; and (c) the higher volume of transactions performed; (ii) an increase in the incomes of checking accounts, due to an improvement in the customer segmentation process; (iii) the largest revenue with credit operations, resulting from the increase in the volume of operations of sureties and guarantees in the period; and evolution of revenue with: (iv) fund management; and (v) consortium management; being compensated in part: (vi) by the smaller gains in the capital markets (underwriting / financial advisory services).

In the quarter-over-quarter comparison, an increase of R\$262 million, or 4.3%, was provided, mainly due to the increase of offering of products and services. The revenues that most contributed to this result were those arising from: (i) checking account; (ii) card income; (iii) fund management; and (iv) loan operations.

Summarized Analysis of Adjusted Income

Personnel Expenses

In the comparison between the nine months of 2015 and the same period in the previous year, the increase of R\$569 million, or 5.5%, was primarily due to the variation in the “structural” portion, related to higher expenses with payroll, social charges and benefits, affected by increased wage levels, in accordance with 2014 and 2015 collective agreements.

In the third quarter of 2015, the increase of R\$179 million, or 4.9%, over the previous quarter, is a result of variations in the following expenses:

- “structural” – an increase of R\$223 million, mainly due to the increase of wage levels and restatement of labor obligations, according to the collective convention; and
- “non-structural” – a decrease of R\$44 million, primarily due to lower expenses with provision for labor claims.

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with termination of employment contracts.

Summarized Analysis of Adjusted Income

Administrative Expenses

In the comparison between the nine months of 2015 and the same period in the previous year, the 10.1%, or R\$1,076 million, increase was primarily due to an increase of expenses originated: (i) by the growth in turnover and services in the period; (ii) by contractual adjustments; (iii) by the dollar performance over the past 12 months since it reached 62.1% of recovery against the Brazilian real; and mitigated: (iv) by the optimization of the customer service center.

In the third quarter of 2015, the increase of 7.0%, or R\$274 million, in the administrative expenses over the previous quarter, was mainly due to higher expenses with: (i) advertising and marketing; (ii) outsourced services; (iii) data processing; (iv) depreciation and amortization; and (v) financial system services.

(1) The decrease as of March 2015 is related to (i) the migration of “External ATM Network Points – Bradesco” to “Banco24Horas Network”; (ii) the deactivation of ATMs from “Assisted Banco24Horas Network Points”; and (iii) the decrease of Bradesco Expresso correspondents.

Other Operating Income and Expenses

In the first nine months of 2015, other operating expenses, net, totaled R\$5,122 million, a R\$1,087 million increase over the same period in the previous year, primarily due to: (i) the constitution of tax provisions, in the first semester of 2015, relating to the levy of pension plan contributions and IRPJ/CSLL on credit losses, in the amount of R\$570 million; (ii) higher expenses related to: (a) the constitution of civil provisions; and (b) various losses; (iii) the impact of the creation of a services joint venture (Cateno) in Cielo; and (iv) the amortization of goodwill.

In the third quarter of 2015, other net operating expenses totaled R\$1,604 million, remaining stable

over the previous quarter.

Summarized Analysis of Adjusted Income

Income Tax and Social Contribution

The expenditure with income tax and social contribution, in the quarterly comparison showed a reduction of 9.7%, or R\$227 million, reflecting, in part: (i) the reduction of the taxable result; (ii) by non-use, in the second quarter of 2015, of the full tax benefit, due to the constitution of interim dividends, which resulted in an increased use of the tax benefit on the constitution of interest on own capital in the third quarter of 2015; and (iii) of the quarterly increase of the TJLP, from 6.0% to 6.5%. In the annual comparative, the increase of 9.6%, or R\$589 million, is related: (i) to the greater taxable result in the period, compensated, in part by the: (ii) increased use of the tax benefit on the constitution of interest on own capital in the nine months of 2015, in comparison to the same period of the previous year.

Unrealized Gains

Unrealized gains totaled R\$10,118 million at the end of the third quarter of 2015, a R\$13,255 million decrease over the end of the previous quarter. Such variation is mainly due to the devaluation of: (i) the fixed income securities; and (ii) investments, impacted mainly by the actions of Cielo, which devalued 16.3%.

Economic and Financial Analysis Report – September 2015

Capital Ratios - Basel III

Basel Ratio

In September 2015, the Capital of the Prudential Consolidated stood at R\$93,090 million, against risk-weighted assets totaling R\$643,924 million. The total Basel Ratio of the Prudential Consolidated presented a decrease of 1.5 p.p, from 16.0% in June 2015 to 14.5% in September 2015, and the Principal Capital from 12.8% in June 2015 to 11.4% in September 2015, basically due to: (i) an increase of 6.0% in assets weighted by risk, impacted mainly by the assets of credit risk and market; and (ii) the increase of prudential adjustments, which increased from R\$9,469 million in June 2015, to R\$12,656 million in September 2015, impacted by the growth of the tax credits arising from temporary differences of tax losses and negative basis of social contribution.

Full Impact – Basel III

We included a Basel III simulation, considering the opening of some of the main future adjustments, which include: (i) the application of 100% of the deductions provided in the implementation schedule; (ii) the allocation of resources, obtained via payment of dividends, of our Insurance Group; and (iii) the realization of tax credits arising from tax losses up to December 2018, and (iv) the impact of the acquisition of HSBC, for a rate of 9.1% of Common Equity, which, added to funding obtained via subordinated debt, may amount to an approximate Tier I Basel Ratio of 10.6%, in the end of 2018.

Buffer Capital/Return on the Common Equity at 11%

Bradesco has improved its measurement methodology, and has structured processes for buffer capital, so that it can maintain enough capital available to cope with the risks incurred.

The Governance structure responsible for the evaluations and approvals of capital decided to maintain a minimum buffer capital of approximately 27%, considering the minimum regulatory capital of 11%.

Considering the minimum required Common Equity of 11% according to the full interpretation of Basel III rules, profitability would be 26.9% in the period of 12 months ended in September 2015.

Economic Scenario

The risks present in the international scenario have intensified once again in the third quarter of this year, in particular in relation to the emerging economies (especially China). As a result, the currencies of these countries have suffered significant depreciation against the dollar in the period. After some accommodation of Chinese economic growth in the second quarter, the economy of the country has weakened once again.

In addition to this, the falling stock exchange and the change of the exchange rate regime, announced by the government of the country, have increased the uncertainties in relation to way economic policy is being conducted. With this, there is an increase in the risks of deceleration of China having an impact on the economic activity in other emerging market countries.

At the same time, the North American economy showed some signs of accommodation, in particular, in the creation of new jobs. This deceleration of the labor market, in turn, may postpone the initial monetary standardization by the Federal Reserve (Fed), which allowed some relief from the volatility in international markets in September. Finally, once the impasse of the Greek crisis was resolved, the growth of the GDP in the Euro area stabilized at a level close to 1.5% per annum.

There have been advances in relevant ongoing adjustments of the domestic economy, especially in relation to the external accounts and to combating inflation. However, in the third quarter, the domestic economy continued on the downward trajectory displayed in the first half of the year. Even if the intensity of the retraction has decreased in the last three months, the behavior of economic activity has had an unfavorable impact on the collection of the public sector, and thus on the fiscal results.

However, the actions to guarantee the tax sustainability in the medium term and the progress in the agenda of reforms are more important. Efforts in this direction represent a requirement for the maintenance of economic predictability and to raise the confidence level of families and business people, in order to resume the trend of an actual income and productive investments increase.

The weakening of domestic economic activity highlights the relevance of structural initiatives aimed at promoting future growth. The constant search for excellence in education is Brazil's front line in its struggle to become more competitive and to expedite its efforts to upgrade infrastructure. It is always important to remember that, in the long term, the main source of economic growth is productivity, which becomes an even more relevant topic within a global context characterized by high levels of efficiency.

Investments tend to play an increasingly relevant role in the breakdown of growth over the next few years, which should be favored by the increased share of the capital market in the funding of these projects. At the same time, despite the shift in consumer market expansion levels in some segments, the potential of domestic demand for goods and services has yet to be depleted, and there is still much room for growth.

Bradesco maintains a positive outlook towards Brazil, with favorable perspectives for its operating segments. Credit volume is growing at sustainable and risk-compatible rates, whereas delinquency rates are stabilized at historically controlled levels, in spite of a cyclic elevation due to the retraction of the activity and of the reduction of the employment level this year. The scenario is still very promising for Brazilian banking and insurance sectors in the medium and long term.

Net Earning Portion of Credit Intermediation

The graph above presents a summary of Credit Intermediation activity. The Gross Margin line refers to interest income from loans, deducted from the customer acquisition costs.

The curve relating to the ALL shows delinquency costs, which are represented by Allowance for Loan Losses (ALL) Expenses, plus discounts granted in transactions net of loan recoveries, arising from the sale of foreclosed assets, among others.

In the third quarter of 2015, the curve related to the net margin, which presents the result of the net revenue from credit interest of ALL, had a growth of 1.1% in the quarterly comparison, primarily due to: (i) the increase in the average spread; partially offset by: (ii) the higher delinquency rate in the period, mainly due to downturn in the economic activities; and (iii) due to the dollar exchange rate variation on ALL expenses, originating from operations abroad.

In the comparison between the nine months of 2015 over the same period of the previous year, the net margin recorded a 8.1% growth due to an increase of: (i) the average spread; (ii) the average volume of business; was offset: (iii) by the effect of aligning the level of provision of certain transactions with corporate customers; (iv) the higher delinquency rate in the period; and (v) due to the dollar exchange rate variation on ALL expenses, originating from operations abroad.

The charts below refer to the Loan Portfolio, as defined by Bacen.

Loan Portfolio⁽¹⁾ – By Flow of Maturities⁽²⁾

The loan portfolio by flow of maturities of operations has, as one of its features, a longer profile, mainly due to the representativeness of real estate financing and payroll-deductible loans operations. It must be noted that, due to their guarantees and characteristics, these operations are not only exposed to lower risk, but they also provide favorable conditions to gain customer loyalty.

(1) As defined by Bacen; and

(2) Only performing loans.

Loan Portfolio⁽¹⁾ – Delinquency

The delinquency ratio, comprising the balance of operations in delays for more than 90 days, showed a slight increase, mainly due to the process of deceleration in economic activity, with an impact on the growth rate of the credit portfolio. The reduction of the delinquency ratio in the segment of Large Companies is noteworthy.

In the quarter, short-term delinquency, including operations past due between 15 and 90 days, decreased slightly, primarily influenced by the Corporate segment.

Allowance for Loan Losses (ALL) vs. Delinquency vs. Losses⁽¹⁾

Bradesco monitors the development of its loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses required by Bacen, Bradesco has excess ALL to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

Allowance for Loan Losses totaled R\$28.7 billion in September 2015, representing 7.8% of the total loan portfolio, comprising: (i) generic provision (customer and/or operation rating); (ii) specific provision (non-performing loans); and (iii) excess provision (internal criteria, including provision for guarantees provided).

The increase of the Coverage Ratios in the quarter is associated to: (i) the strengthening of the general provision for clients of specific industries; and (ii) the increment of the surplus provision, as a prudential measure, due to the deceleration of the economic activity.

Provisioning levels are deemed appropriate and sufficient to support possible changes in scenarios, such as higher delinquency levels and/or changes in the loan portfolio profile.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of "excess" ALL. In September 2015, includes the ALL Surplus/Deficit Rating, considered as an extraordinary event, totaling R\$3,704 million. Thus, the balance of the ALL – Surplus provision went from R\$4,004 million in June 2015 to R\$6,409 million in September 2015.

Allowance for Loan Losses (ALL) vs. Delinquency vs. Loss⁽¹⁾

The assertiveness of the provisioning criteria adopted must be mentioned, which is proven by: (i) analyzing historical data on recorded allowances for loan losses; and (ii) effective losses in the subsequent 12-month period. When analyzed in terms of net loss of recovery, for an existing provision of 6.7% of the portfolio⁽¹⁾ in September 2014, the net loss in the subsequent 12 months was 3.0%, that is, the existing provision exceeded over 127% the loss occurred in the subsequent 12 months.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL. In September 2015, includes the ALL Surplus/Deficit Rating, considered as an extraordinary event, totaling R\$3,704 million. Thus, the balance of the ALL – Surplus provision went from R\$4,004 million in June 2015 to R\$6,409 million in September 2015.

Provision for Allowance for Loan Losses ⁽¹⁾

Allowance for loan losses ratios have presented very comfortable levels in relation to loans over 60 and 90 days past due, and reached a 168.4% and a 205.7% coverage, respectively.

The Non-Performing Loans ratio (operations over 60 days past due) presented a slight increase in the quarter-over-quarter comparison and year-over-year comparison, mainly due to the downturn in economic activity and its impact.

(1) As defined by Bacen;

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL. In September 2015, includes the ALL Surplus/Deficit Rating, considered as an extraordinary event, totaling R\$3,704 million; Thus, the balance of the ALL – Surplus provision went from R\$4,004 million in June 2015 to R\$6,409 million in September 2015; and

(3) Loan operations overdue for over 60 days and that do not generate revenue appropriation on accrual accounting.

Loans vs. Funding

To analyze Loan Operations in relation to Funding, the following should be deducted from total customer funding: (i) the amount committed to reserve requirements at Bacen, (ii) the amount of available funds held at customer service network, as well as add (iii) funds from domestic and foreign lines of credit that finance the demand for loans.

Note that the use of funds provides a comfortable margin, which proves that Bradesco is capable of meeting demand for loaning funds through its own funding.

Bradesco presents low dependency on interbank deposits and foreign lines of credit, given its capacity to effectively obtain funding from customers. This is a result of: (i) the outstanding location of its Service Points; (ii) the broad diversity of products offered; and (iii) the market's confidence in the Bradesco brand.

(2) Includes: Financial Bills, in September 2015, totaling R\$74,628 million (June 2015 – R\$60,608 million and September 2014 – R\$49,671 million).

Demand deposits

The reductions of R\$1,858 million, or 7.1%, in the third quarter of 2015 as compared to the previous quarter, and of R\$9,033 million, or 27.1%, as compared to the same period of the previous year, were mostly due to new business opportunities offered to customers, because of interest rate fluctuations in that period.

Savings Deposits

Savings deposits totaled R\$89,616 million in the end of the third quarter of 2015, showing a reduction of 1.5% as compared to the end of the previous quarter.

In the comparison between September 2015 over the same period of the previous year, the increase of R\$2,323 million, or 2.7%, substantially originated by: (i) the increase in deposits by customers; and (ii) the yield of savings deposits reserve.

Bradesco is always increasing its savings accounts base, posting a net growth of 4.1 million new savings accounts over the last 12 months.

Economic and Financial Analysis Report – September 2015

Interest Earning Portion of Credit Intermediation

Time Deposits

At the end of September 2015, the balance of time deposits totaled R\$88,737 million, registering increase in the quarter-over-quarter comparison, of 13.7%, or R\$10,675 million and decrease in the year-over-year comparison, 2.1%, or R\$1,878 million.

This performance was primarily due to the oscillations of the interest rates occurring in the period and to the new investment alternatives available to customers.

Debentures

On September 30, 2015, Bradesco's debentures balance totaled R\$65,744 million, registering decreases both in the quarter-over-quarter comparison, of 1.0% or R\$657 million, and year-over-year comparison, of 1.8% or R\$1,217 million.

Borrowing and On-lending

In September 2015, balance of on-lending achieved R\$69,654 million, an increase of R\$8,285 million, or 13.5%, as compared to the previous quarter, mainly due to: (i) the increase of R\$10,047 million in borrowings and on-lending denominated and/or indexed in foreign currency, mainly due to positive exchange rate of 28.1% in the period; and partially offset by: (ii) the reduction of R\$1,762 million or 4.5%, in the volume of funding raised by borrowings and on-lending in the country, mainly through operations of Finame.

In the comparison between September 2015 over the same period of the previous year, the balance of borrowings and on-lending recorded an increase of R\$13,093 million, or 23.1%, primarily due to: (i) the increase of R\$16,878 million in borrowings and on-lending denominated and/or indexed in foreign currency, whose balance changed from R\$15,289 million in September 2014 to R\$32,167 million in September 2015, primarily due to the positive exchange rate variation of 62.1% in the period; offset by: (ii) the reduction of R\$3,785 million, or 9.2%, in the volume of resources captured by borrowings and on-lending in the country, mainly in the form of Finame and BNDES operations.

Funds from Issuance of Securities

Funds from Issuance of Securities totaled R\$110,987 million, an increase of R\$15,600 million, or 16.4%, over the previous quarter, primarily due to: (i) the increase in the Financial Bills operations, totaling R\$14,020 million; (ii) the increase in operations abroad, totaling R\$1,585 million; (iii) the increase in Real Estate Loan Letters operations, totaling R\$1,565 million; partially offset by: (iv) the reduction in Letters of Credit for Agribusiness operations, totaling R\$1,514 million.

In the comparison between September 2015 over the same period of the previous year, the increase of R\$35,704 million, or 47.4%, was essentially due to: (i) the increased inventory of Financial Bills, from R\$49,671 million in September 2014 to R\$74,628 million in September 2015, primarily due to the new issuances in the period; (ii) the higher volume of Mortgage Bonds, in the amount of R\$7,341 million; and (iii) the higher volume of Letters of Credit for Agribusiness operations, totaling R\$2,462 million; and (iv) the increase of R\$1,155 million in the volume of transactions in securities issued abroad.

Subordinated Debt

Subordinated Debt totaled R\$38,535 million in September 2015 (R\$13,743 million abroad and R\$24,792 million in Brazil), presenting an increase both in the quarter-over-quarter comparison, of 3.0% or R\$1,109 million, and in the year-over-year, of 5.7% or R\$2,071 million, mainly due to exchange variation rate, and partially offset by maturity of debts incurred in the previous periods.

In the comparison between the third quarter of 2015 over the previous quarter, there was a decrease of R\$169 million in the interest earning portion of “Securities/Other”, which includes the assets and liabilities management (ALM). The change observed was primarily due to: (i) a decrease of the average spread in the amount of R\$196 million; and partially offset by: (ii) the increase in the volume of operations, in the amount of R\$27 million.

In the comparison between the nine months of 2015 over the same period of the previous year, the interest earning portion of “Securities/Other”, which includes the assets and liabilities management (ALM), recorded an increase of R\$1,432 million. This result was due to: (i) an increase of R\$1,350 million in the average spread; and (ii) an increase in the volume of operations, resulting in R\$82 million.

Efficiency Ratio

General and Administrative Expenses / Billing

The improvement in the administrative efficiency ratio between the third quarter of 2015 and the same period of previous year is a result of: (i) the benefits generated with cost-cutting measures; and (ii) an increase of 17.2% in billing for the period. There has been a decrease of 0.3 p.p. in the efficiency ratio in the third quarter of 2015 as compared to the previous quarter, primarily due to the reduction of 9.6% in billing.

Because of its solid structure, innovative product policy and the trust it has earned in the market, Bradesco Vida e Previdência accounted for 26.9% of the pension plan and VGBL income. (Source: SUSEP - August/2015).

Net income for the third quarter of 2015 was 6.0% below the result presented in the previous quarter, influenced by the following factors: (i) a growth of 1.4 p.p. in the claims ratio index; (ii) an increase of 1.7 p.p. in the commercialization index; and (iii) a reduction in the financial results.

Net income accrued until September 2015 was up 18.7% over the same period in the previous year, influenced by the following factors: (i) an increase of 26.0% in billing; (ii) a decrease of 2.2 p.p. in the expense ratio; (iii) an improved financial income; partially offset by: (iv) an increase of 2.3 p.p. in the claims ratio; and (v) a decrease in the equity result.

Bradesco Vida e Previdência

In September 2015, technical reserves for Bradesco Vida e Previdência stood at R\$148.3 billion, made up of R\$141.0 billion from "Pension Plans and VGBL" and R\$7.3 billion from "Life, Personal Accidents and Other Lines", resulting an increase of 16.9% over September 2014.

The Pension Plan and VGBL Investment Portfolio accounted for 29.8% of market funds in August 2015 (source: Fenaprevi).

Growth of Participants and Life and Personal Accident Policyholders

In September 2015, the number of Bradesco Vida e Previdência customers was 2.4 million pension plan and VGBL participants, and was up 27.9 million life and personal accident policyholders.

This growth was fueled by the strength of the Bradesco brand and the improvement of selling and management policies.

Note: For comparison purposes, the non-recurring events' effects are not considered.

Net income for the third quarter of 2015 increased 19.8% over the previous quarter, mainly due to: (i) an increase of 5.6% in billing; (ii) a decrease in operating expenses; and (iii) the improvement in the administrative efficiency ratio.

Net income accrued until September 2015 was down 19.7% over the same period of the previous year, mainly due to: (i) the increase in the combined index, which was impacted, in part by: (a) an increase of 2.5 p.p. in the claims ratio; and (b) an increase in the operating expenses related to the constitution of civil contingencies offset by: (ii) an increase of 22.8% in billing; and (iii) an improvement in the financial results.

In September 2015, Bradesco Saúde and Mediservice maintained a strong market position in the corporate segment (source: ANS).

Approximately 123 thousand companies in Brazil have Bradesco Saúde insurance and Mediservice plans.

Of the 100 largest companies in Brazil in terms of billing, 51 are Bradesco Saúde and Mediservice customers (source: *Exame* magazine – "Melhores e Maiores" ranking, July 2015).

Economic and Financial Analysis

Bradesco Capitalização

Bradesco Capitalização ended August 2015 in first place among the capitalization bond private companies, due to its policy of transparency and by adjusting its products based on potential consumer demand consistent with the market changes.

Concerned with providing products that better fit the most varied profiles and budgets of its customers, Bradesco Capitalização has a product portfolio ranging by payment method (lump or monthly), contribution term, periodicity and value of premiums that meet the requirements and expectations of the customers.

Combining a pioneering spirit with a business-minded strategic view, Bradesco Capitalização has launched products onto the market concerned with socio-environmental causes, in which part of the revenue goes to projects with this purpose. In addition to offering customers the possibility of creating a financial reserve, Capitalization Bonds with the socio-environmental profile seek to raise customer's awareness about the importance of this subject and allow them to participate in a noble cause that benefits society.

Bradesco Capitalização currently has partnerships with the following institutions: (i) SOS Mata Atlântica Foundation (which contributes to the preservation of biological and cultural diversity of the Atlantic Forest, stimulating social and environmental citizenship); (ii) Amazonas Sustentável Foundation (which contributes to the sustainable development, environmental preservation and improvement of life quality in communities that benefit from preservation centers in the state of Amazonas); (iii) the Brazilian Cancer Control Institute (which contributes to the prevention, early diagnosis and treatment of breast cancer in Brazil); and (iv) Tamar Project (created to preserve sea turtles).

The portfolio is composed of 21.9 million active bonds. Of this total, 36.2% are represented by "Traditional Bonds", sold at the Branch Network and at Bradesco Dia&Noite service channels. The other 63.8% of the portfolio is represented by "Incentive" bonds (assignment of drawing rights), such as partnerships with Bradesco Vida e Previdência and Bradesco Auto/RE. Given that the purpose of this type of capitalization bond is to add value to the product of a partner company or even to encourage timely payment by its customers. The bonds have reduced maturity and grace terms and lower sale price.

Note: (i) we are considering Atlântica Companhia de Seguros as of the first quarter of 2014; and (ii) in August 2015, we transferred the investment in the IRB – Brasil Resseguro S.A. to Bradesco Seguros.

Net profit in the third quarter of 2015 presented a growth of 19.2% as compared to the previous quarter, primarily due to: (i) the growth of 5.6% in billing; (ii) the decline of 1.0 p.p. in the claims ratio index; (iii) the administrative efficiency ratio maintenance; and (iv) the improvement in the financial results; partially offset by: (v) a decrease in the equity results.

Net profit accrued until September 2015 presented a 25.5% increase over the results calculated in the same period of the previous year, primarily due to: (i) the decrease of 2.9 p.p. in the claims ratio index of 0.7 p.p. in the commercialization ratio; (ii) the improvement in the financial results; partially offset by: (iii) the decrease in the equity results; and (iv) the increase in operating and administrative expenses.

In the Property Insurance field, we maintained the focus on large brokers and clients of the "Corporate" and "Companies" segments, which has provided renewals of the main accounts, either in leadership or through participation in co-insurance. In the "Aeronautical" and "Maritime Cases" insurance, the

The division of "Transport" continues being the priority focus, with fundamental investments to leverage new business.

Despite the strong competition in the field of "Auto/RCF", the insurance company has maintained its fleet of around 1.5 million items, guaranteed by the maintenance of competitiveness. Such a fact originated, mainly, from more refined and segmented pricing. Another important aspect refers to the improvement of current products and the creation of products intended for specific audiences. Among these, we can highlight the launch of the product "*Bradesco Seguro Primeira Proteção Veicular*" (First Car Protection), exclusively for account holders of Bradesco, which assists with *Assistência Dia e Noite* services (Day and Night assistance services), new and used vehicles with up to 15 years of use.

Bradesco

Economic and Financial Analysis

Fee and Commission Income

Card Income

Income from card fees totaled R\$2,448 million in the third quarter of 2015, an increase of R\$75 million, or 3.2% over the previous quarter, basically due to: (i) the increase in the volume of transactions carried out in the period; and (ii) the increase in billing.

In the comparison between the nine months of 2015 over the same period of previous year, the 18.7% growth, or R\$1,105 million, is primarily due to: (i) the increase in transactions effected and (ii) billing in the period; and (iii) the increase of the base of cards.

Fee and Commission Income

Checking Account

The revenues of current accounts presented increments both in the quarterly comparative, of 7.5% or R\$90 million, accrued in the last nine months of 21.4% or R\$629 million, due primarily: (i) to the increase in the volume of business; and (ii) by the expansion of the portfolio of services rendered, with the adhesion of clients for the new segments “Classic” and “Exclusive”.

Loan Operations

In the third quarter of 2015, revenues from loan operations totaled R\$739 million, which represent a R\$41 million or 5.9% increase over the previous quarter, due to the increased volume of operations contracted by Individuals and Corporate segment in the quarter.

In the comparison between the nine months of 2015 and the same period of previous year, the R\$185 million or 9.8% increase was substantially due to a higher income from collaterals, which increased 22.2%, deriving mostly from a 3.3% growth in the volume of “Sureties and Guarantees” operations.

Economic and Financial Analysis

Fee and Commission Income

Fund Management

In the third quarter of 2015, fund management income totaled R\$692 million, presenting an increase of R\$55 million or 8.6% compared to the previous quarter, mainly due to a 0.8% growth in volume of funds and portfolios raised and managed.

In the comparison between the nine months of 2015 over the same period of previous year, the increase of R\$162 million or 9.0%, was basically due to the increase in the volume of funds raised and managed, which grew 6.5% in the period.

Investments in fixed income funds led the segment, with growth of 6.4% in the period.

Economic and Financial Analysis Report – September 2015

Fee and Commission Income

Cash Management Solutions (Payments and Collection)

In the third quarter of 2015, billing and collection income remained stable compared to the previous quarter.

In the comparison between the nine months of 2015 over the same period of previous year, the increase of 0.4%, or R\$6 million, was due to the greater volume of processed documents, up from 1,632 million in the nine months of 2014 to 1,654 million in the nine months of 2015, resulting an increase of 22 million of processed documents for the period.

Consortium Management

In the third quarter of 2015, income from consortium management increased by R\$12 million or 4.7% compared to the previous quarter, because of the sales made in that period. In September 2015, Bradesco had 1,153 thousand active quotas (1,127 thousand active quotas in June 2015), ensuring a leading position in all the segments in which it operates (real estate, auto and trucks/machinery and equipment).

In the comparison between the nine months of 2015 over the same period of previous year, the 19.5% or R\$125 million increase in income from consortium management was mainly driven by: (i) a higher volume of received bids; (ii) the increase in the average ticket; and (iii) the increase in sales of new quotas, ranging from 1,020 thousand active quotas in September 2014, to 1,153 thousand active quotas in September 2015, an increase of 133 thousand net quotas.

Economic and Financial Analysis

Fee and Commission Income

Custody and Brokerage Services

In the third quarter of 2015, total earnings from custody and brokerage services presented an increase of R\$14 million or 10.4% compared to the previous quarter. Such a trend basically resulted, from the largest volumes traded on BM&FBovespa and of the higher number of working days in the quarter.

In the comparison between the nine months of 2015 over the same period of previous year, the increase of R\$29 million or 7.6%, in income from custody and brokerage services, reflected the increase in the average volume of assets under custody in the period.

Underwriting / Financial Advisory Services

The reduction of R\$44 million, or 29.5% in the quarter-over-quarter comparison refers, mainly, to lower activity of the capital market in the third quarter of 2015.

In the comparison between the nine months of 2015 over the same period of the previous year, the reduction of R\$112 million or 21.7% refers, essentially, to the higher volume of business done in 2014, highlighting the Structured Operations and Project Finance.

It is important to note that variations recorded in this income derive from the volatile performance of the capital market.

(1) The reduction, as of March 2015, refers to (i) the migration of “External ATM Network Points – Bradesco” to “Banco24Horas Network”; (ii) the deactivation of ATMs from “Assisted Banco24Horas Network Points” and (iii) to the decrease of the Bradesco Expresso correspondents.

In the third quarter of 2015, total Personnel and Administrative Expenses amounted to R\$7,997 million, with growth of 6.0% or R\$453 million, in comparison with the previous quarter. In the comparison with the nine months of 2015 and the same period of the previous year, total Personnel and Administrative Expenses presented a growth of 7.8% or R\$1,645 million.

Personnel Expenses

In the third quarter of 2015, personnel expenses totaled R\$3,797 million, with variation of 4.9% or R\$179 million compared to the previous quarter.

The R\$223 million increase in structural expenses was largely due to an increase in wage levels and restatement of the labor obligations, according to the collective agreement, whose impact was worth R\$181 million, of which R\$64 million is related to the increase of the recurrent monthly payroll, from September 2015.

The R\$44 million decrease in non-structural expenses is, primarily, due to lower expenses with provision for labor claims, amounting to R\$45 million.

Economic and Financial Analysis

Personnel and Administrative Expenses

Personnel Expenses

In the comparison between the nine months of 2015 over the same period of previous year, the increase of R\$569 million, or 5.5%, was mainly due to the structural portion due to the increase in expenses with payroll, social charges and benefits, impacted by higher salaries, in accordance with the 2014 and 2015 collective agreements.

Personnel and Administrative Expenses

Administrative Expenses

In the third quarter of 2015, the operating expenses totaled R\$4,200 million, presenting an increase of R\$274 million, or 7.0%, compared to the previous quarter, mainly due to higher expenses with: (i) advertising and publicity, to the sum of R\$111 million; (ii) outsourced services, totaling R\$50 million; (iii) data processing, to the sum of R\$38 million; and (iv) depreciation and amortization, to the sum of R\$20 million; and (v) financial system services, to the sum of R\$19 million.

In the comparison between the nine months of 2015 and the same period of previous year, the increase of 10.1% or R\$1,076 million, was due mainly to the increasing expenses with: (i) growth in business and services volumes in the period; (ii) contractual adjustments; (iii) behavior of the dollar in the last 12 months, which reached 62.1% of recovery against the Brazilian real; and mitigated: (iv) by the optimization of the service points.

Economic and Financial Analysis

Operating Coverage Ratio ⁽¹⁾

In the quarter, the coverage ratio over the last 12 months maintained its improvement with a 0.4 p.p. growth, mainly due to an increase in fee and commission income, combined with ongoing cost control efforts, including (a) the initiatives of our Efficiency Committee and (b) measures applied to increase the offer of products and services to the entire client base.

Tax Expenses

The decrease of R\$21 million or 1.6%, in the third quarter of 2015 compared to the previous quarter, was largely due to lower taxable income in the period.

In the comparison between the nine months of 2015 over the same period of previous year, such expenses increased R\$574 million, or 16.8%, due to the increase in expenses with Cofins/ISS/PIS, derived from the increase in taxable income.

Equity in the earnings (losses) of affiliates

Equity in the earnings (losses) of affiliates presented, in the third quarter of 2015, an increase of R\$5 million or 15.2% compared to the previous quarter, and a reduction of R\$79 million or 60.8% in the comparison between the nine months of 2015 and the same period of the previous year, basically due to the equity in the earnings (losses) obtained with the affiliated "IRB – Brasil Resseguros".

Operating Income

Operating income totaled R\$6,781 million in the third quarter of 2015, a R\$171 million or 2.5% decrease from the previous quarter. This performance was, substantially, driven: (i) by the increase in personnel and administrative expenses, to the sum of R\$453 million; (ii) higher allowance for loan losses expenses, in the amount of R\$302 million; partially offset by: (iii) the increase in fee and commission income, in the amount of R\$262 million; (iv) for the highest result with the financial margin, to the sum of R\$194 million; and (v) a higher operating result from Insurance, Pension Plans and Capitalization Bonds, net of variation of technical reserves, retained claims and others, amounting to R\$100 million.

In the comparison between the nine months of 2015 over the same period of previous year, the increase of R\$2,790 million or 15.9%, was mainly driven by: (i) the R\$5,566 million increase net interest income results; (ii) the increase in fees and commission income, totaling R\$1,992 million; offset by: (iii) the increase in personnel and administrative expenses, in the amount of R\$1,645 million; (iv) higher expenses with allowance for loan losses, in the amount of R\$1,632 million; (v) an increase in other operating expenses, net, totaling R\$1,087 million; and (vi) higher tax expenses, totaling R\$574 million.

Non-Operating Income

In the third quarter of 2015, non-operating income posted a loss of R\$92 million, an increase of R\$37 million as compared to the previous quarter, and an increase of R\$100 million in the comparison between the period of nine months of 2015 and the same period of 2014, essentially, due to greater non-operating expenses (such as losses on sale of foreclosed assets/other) in the period.

Investments in Infrastructure, Information Technology and Telecommunications

The constant change in the market and increasing competition requires a more dynamic IT, to monitor the evolution of the business of Bradesco. In this sense, Bradesco counts on a continuous improvement process that provides, among other results, an increase in the speed and quality of deliveries, highlighting the following:

- The new application Bradesco Net Empresa for cell phone, which allows banking transactions to be made, without time restrictions. On the Internet site, the content destined to Legal Entity clients was reformulated, providing improved access for user interaction;
 - In July 2015, Bradesco launched the "Receba Fácil", a pioneer product on the market, which enables product distributors to receive payment at sight, on the act of delivery of goods, by means of an online transfer, using the SMS texting service;
 - In the month of August 2015, Carteira Digital Bradesco Seguros (the Digital Portfolio of Bradesco Seguros) was launched. The application for iOS and Android smartphones offers virtual cards of the following segments of operation: home, auto, capitalization, health and pension, offering the insured, practical, simple and fast access to its products and benefits, without the need to use the physical card;
 - Another launch was the Carteira Digital Stelo, for clients of the Bradesco credit cards. With the solution, on choosing Stelo as the form of payment, there is no need to enter the data from the card to make purchases in e-commerce;
 - The network of capture of transactions of Amex and Elo credit cards, which occurred only
- To facilitate the day-to-day of our customers, withdrawals and balance checks can be made in the Banco24Horas machines, using only biometrics, already available in the entire ATM network;
 - Bradesco inaugurated the Espaço Bradesco Next Móvel, an evolution of the concept with the objective of marking presence in different locations. The new model was developed based on the suggestions and experiences of more than 300 thousand people who used the facility, launched in 2012 at Shopping JK Iguatemi, in São Paulo. Bradesco Next Móvel is an open and inviting site, which allows people to have a differentiated experience in contact with the digital solutions of the Bank; and
 - Bradesco has closed, in the 3rd quarter of 2015, the first stage of the program of open innovation in partnership with startups, the inovaBRA, focused on creating new business models, products and services. As fruits of this edition, we highlight the platform "quero quitar" (I want to settle), with which it is possible to pay debts online, and the learning solution b.quest, an application that leverages the self-development of employees, in a ludic and interactive form, by means of questions and answers about Bradesco and general themes, using the concepts of gamification and social learning.

As a prerequisite for its continuous expansion, Bradesco has invested R\$4,044 million in Infrastructure, Information Technology and Telecommunications in the first nine months of 2015. The total amount invested over recent years, including infrastructure (facilities, restorations, improvements, furniture and fixtures), can be found

under Cielo, was enlarged, and began to be authorized by other credit card companies, providing greater acceptance of these brands on the market;

Risk Management

Risk management activity is highly strategic due to the increasing complexity of services and products and the globalization of Bradesco's business. The dynamism of the market forces Bradesco to engage in the continuous improvement of this activity in pursuit of better practices, which has allowed Bradesco to use its internal market risk models, which were already in force, to calculate regulatory capital, since January 2013.

Bradesco controls corporative risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from every level of the organization, from the business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Bradesco's complex financial products and activity profile.

Detailed information on the risk management process, Capital, as well as the Bradesco's risk exposure, can be found in the Risk Management Report, available on the Investor Relations website: www.bradescori.com.br.

Capital Management

The Capital Management structure aims to provide conditions for capital monitoring and control, contributing to the achievement of goals set in the strategic objectives defined by Bradesco, through adequate capital sufficiency planning. This structure is comprised of Executive Committees and one Non-Statutory Committee, which assist the Board of Directors and Board of Executive Officers in the decision-making process.

In addition to the Committee structure, Bradesco has a department responsible for the capital management centralization, the Capital Management and Internal Capital Adequacy

With the implementation of the capital management structure, an internal process has been established to assess capital adequacy (ICAAP), which provides conditions to assess capital sufficiency in accordance with the base and stress scenarios, in a prospective outlook to identify capital and contingency actions to be taken in the respective scenarios. Capital adequacy and sufficiency information represent essential tools to manage and support the decision-making process.

Additional information on the capital management structure is available in the Risk Management Report – Pillar 3, and in the 2014 Annual Report, on

Assessment Process (ICAAP), subordinate to the Department of Planning, Budget and Control, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and Bradesco's supporting areas.

the Investor Relations website:
www.bradesco.com.br.

The capital plan is devised on an annual basis and approved by the Board of Executive Officers and Board of Directors. It is also aligned with the strategic plan and encompasses a prospective outlook of at least three years. The process of developing this plan considers threats and opportunities, market share and development goals, capital requirement projections based on risks, as well as capital held by Bradesco. Such projections are constantly monitored and controlled by the capital management team.

Additional Information**Basel Ratio**

The implementation of the new capital structure in Brazil began in October 2013. Through the CMN Resolution No. 4,192/13, Bacen provided a new methodology to assess Capital, replacing CMN Resolution No. 3,444/07. Since then, the Capital started being calculated based on CMN Resolution No. 4,192/13, which established that the elaboration must be made based on the "Prudential Consolidated", as of January 2015.

In September 2015, the Capital of the Prudential Consolidated reached the amount of R\$93,090 million, compared to assets weighted by the risk of R\$643,924 million. The total Basel ratio, in the Prudential Consolidated, presented a decrease of 1.5 p.p., from 16.0% in June 2015 to 14.5% in September 2015, and the Principal Capital from 12.8% in June 2015 to 11.4% in September 2015, basically due to: (i) an increase of 6.0% in assets weighted by risk, impacted mainly by the assets of credit risk and market; and (ii) the increase of prudential adjustments, which increased from R\$9,469 million in June 2015, to R\$12,656 million in September 2015, impacted by the growth of the tax credits arising from temporary differences of tax losses and negative basis of social contribution.

Limited Assurance Report about Supplementary Accounting information included within the Economic and Financial Analysis Report

To

The Directors of

Banco Bradesco S.A.

Osasco – SP

We were engaged by Banco Bradesco S.A. ("Bradesco") to report on the supplementary accounting information of Banco Bradesco S.A. as at September 30, 2015 and for the three and nine-month periods ended as at September 30, 2015, in the form of a limited assurance conclusion if, based on our engagement performed, nothing has come to our attention that causes us to believe that the supplementary accounting information included within the Economic and Financial Analysis Report are not presented, in all material respects, in accordance to on the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

Responsibilities of the Management of Bradesco

Management of Bradesco is responsible for preparing and adequately presenting the supplementary accounting information included within the Economic and Financial Analysis Report based on the criteria for the preparation of the supplementary accounting information described below, and for other information contained within this report, as well as the design, implementation and maintenance of internal controls that management determined as necessary to enable for such information to be free from material misstatement, whether due to fraud or error.

Independent Auditor's Responsibility

Our responsibility is to review the supplementary accounting information included within the Economic and Financial Analysis Report prepared by Bradesco and to report thereon in the form of a limited assurance

conclusion based on the evidence obtained. We conducted our engagement in accordance with the NBC TO 3000 - Assurance Engagement Other than Audit and Review (ISAE 3000). That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain a meaningful level of limited assurance about whether we did not become aware of any fact that could lead us to believe that the supplementary accounting information included within the Economic and Financial Analysis Report are not presented, in all material respects, in accordance with the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

The procedures selected were based on our understanding of the supplementary accounting information included within the Economic and Financial Analysis Report, as well as other circumstances of our work and our consideration of other areas that may contain material misstatements.

Limited assurance is less than absolute assurance and reasonable assurance. Procedures to gather information to a limited assurance engagement are more limited than to a reasonable assurance engagement and, therefore, we obtain less assurance than a reasonable assurance engagement; consequently, we do not express neither an audit opinion nor a reasonable assurance over the supplementary accounting information included within the Economic and Financial Analysis Report.

Our conclusion does not contemplate aspects related to any prospective information contained within the Economic and Financial Analysis Report, nor offers any guarantee if the assumptions used by Management to provide a reasonable basis for the projections presented. Therefore, our report does not offer any type of assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

Report on Economic and Financial Analysis – September 2015

Consolidated Financial Statements and Independent Auditors' Report

Management Report

Dear Shareholders,

We hereby present the Consolidated Financial Statements of Banco Bradesco S.A related to the period ended September 30, 2015, in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

Despite pressures on the exchange rate, the prospect of inflation control next year has led the Central Bank to interrupt the cycle of higher interest rates. At the same time, the adjustment of the Brazilian economy follows course, with the challenges, still present, to re-balance the public accounts. With this, the Country searches for basis for sustainable forward development, guided by opportunities for investment and resumption of household consumption.

In the Organization, among the developments that marked the quarter, we highlight the **dissemination, on August 3, of the signature of the Purchase of Shares Agreement with HSBC Latin America Holdings (UK) Limited for the acquisition of 100% of the share capital of HSBC Bank Brasil S.A. – Banco Múltiplo and HSBC Serviços e Participações Ltda., and consequently to assume all the operations of HSBC in Brazil.**

Subject to the approval of the competent regulatory bodies and the fulfillment of the legal formalities, the operation reaffirms the goals of Bradesco to strengthen its presence and activity in the market, thus increasing gains in efficiency and scale,

- **on September 14, once again Bradesco was selected to integrate the Dow Jones Sustainability Index – DJSI**, of the New York Stock Exchange, in the Dow Jones Sustainability World Index and Dow Jones Sustainability Emerging Markets portfolios. The DJSI is composed of actions of a select list of companies with best practices for sustainable development; and

- **since September, Bradesco Clients can withdraw cash and check their balance without the use of the card, in the whole Banco24Horas network**, using biometric authentication.

From January 1 to September 30, 2015, Bradesco recorded a Net Profit of R\$12.837 billion, 15.7% higher in comparison to the same period last year, equivalent to R\$2.55 per share and profitability of 20.4% over the average Shareholders' Equity(*). The annualized return on Average Total Assets was 1.7%.

R\$4.358 billion was destined to the shareholders, in the period, as Interest on Own Capital and Dividends, of which R\$1.707 billion was paid in the form of monthly and intermediaries and R\$2.651 billion provisioned.

The taxes and contributions, including pensions, paid or provisioned, totaled R\$19.225 billion in the first nine months of the year, whereby R\$8.690 billion was related to withheld taxes and collected

besides adding value to its shareholders.

from third parties and R\$10.535 billion was calculated based on the activities developed by Organização Bradesco, equivalent to 82.1% of the Net Profit.

Also important, we highlight the following:

- **on August 6, the launch of the Espaço Bradesco Next Móvel at Shopping Iguatemi, in São Paulo.** The objective of this new configuration, itinerant in form will mark our presence in different localities, taking to the public the experience of the latest technologies and innovations, as well as expanding the conquest of new business;

At the end of the quarter, the realized Capital Stock was R\$43.100 billion. Added to the Equity Reserves of R\$43.133 billion, it resulted in a Shareholders' Equity of R\$86.233 billion, with a growth of 8.8% as compared the same period of 2014, corresponding to the equity value of R\$17.14 per share.

- **on August 31, the inauguration of the new premises of Grupo Bradesco Seguros in Alphaville – São Paulo,** with a modern and sustainable architectural structure, where it will centralize the operations of all its segments. The integration extends further the synergy between the areas, generating gains in productivity and quality, in addition to improving assistance to the Branches and to the clients;

Calculated on the basis of the listing of its shares, the Market Value of Bradesco reached R\$113.288 billion on September 30, 2015, equivalent to 1.3 times the Shareholders' Equity.

The Shareholders' Managed Equity represents 8.3% of the Consolidated Assets, which amounted to R\$1.051 trillion, with a growth of 6.4% in September 2014. Thus, the index of solvency was 14.5% higher, therefore, at the minimum of 11% established by Resolution No. 4,193/13 of the National Monetary Council, in compliance with the Basel Committee. The immobilization index, at the end of the quarter, regarding the Reference Equity in the Prudential Consolidated was of 38.6%, therefore within the maximum limit of 50%.

Consolidated Financial Statements and Independent Auditors' Report

For the activities of Real Estate Credit, in the period from January to September, the Organização Bradesco devoted the sum of R\$10.575 billion in resources for the construction and acquisition of 'own house', comprising 41,713 properties.

Bradesco BBI, the Investment Bank of the Organization, advises clients on issuing shares, merger and acquisition operations, structuring and distribution of debt instruments, including debentures, promissory notes, CRIs, real estate funds, FIDCs and bonds, in Brazil and Abroad, besides structured corporate finance operations and the financing of projects under the modality of Project Finance. In the period from January to September 2015, transactions were made to the volume of R\$1.430 billion.

R\$55.594 billion in Foreign Funding, through public and private issues, Subordinated Debt Overseas, Securitization of Future Financial Flows and Borrowings and On-lendings Overseas, equivalent to US\$13.993 billion.

The consolidated loan operations, in a broader sense, recorded a balance of R\$474.488 billion at the end of the period, an increase of 6.8% in comparison to September 2014, including in this sum:

R\$8.274 billion in Advances on Exchange Contracts, for a total Export Financing portfolio of US\$10.942 billion;

US\$3.388 billion operations in Import Finance in Foreign Currencies;

R\$3.357 billion in Commercial Lease;

R\$21.496 billion in business in the Rural Area;

On September 30, 2015, reaffirming their prominent position in the areas of Insurance, Capitalization and Open Supplementary Pension Plans, Grupo Bradesco Seguros recorded a Net Profit of R\$3.883 billion and a Shareholders' Equity of R\$21.980 billion. The net insurance premiums issued, pension contributions and income from capitalization reached a total of R\$45.482 billion, an increase of 18.6% in comparison to the same period last year.

Bradesco Administradora de Consórcios is leader in the segments of real estate, cars and trucks, tractors, machines and equipment. In the period from January to September 2015, it marketed 300,358 new quotas, resulting in more than 1.153 million active quota holders, with accrued revenues of R\$48.145 billion.

The Customer Service Network of Organização Bradesco, held at the disposal of customers and users present in all the regions of Brazil and in various cities Abroad, at the end of the period, comprised 71,738 points. Simultaneously, provided 31,495 machines of the Rede de Autoatendimento Bradesco (Bradesco ATMs), of which 31,004 operate also on weekends and bank holidays, besides 18,618 machines of the Banco24Horas network (24-Hour ATMs), available to clients for operations of cash withdrawals, issuing statements, checking balances, requesting loans, payments and transfers between accounts. In the vehicle segment, with the presence of Bradesco Financiamentos, it counted on 10,883 retail points:

11,917 ATMs in the Banco24Horas Network, with 450 terminals shared by both networks.

The Organização Bradesco, according to the provision in Instruction No. 381/03, of the Brazilian Securities and Exchange Commission, in the period of January to September 2015, neither contracted from nor had services provided by KPMG Auditores Independentes that were not related to the external audit, at a level greater than 5% of the total fees related to external audit services. Other services provided by the external auditors were the previously-agreed procedures for reviews of, substantial, financial, fiscal and actuarial information. The Bank's policy is in line with the principles of preserving the auditors' independence, which are based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests. It is noteworthy that any eventual services not related to the external audit are submitted prior to the evaluation of the Audit Committee.

students of Basic Education, are ensured free-of-charge education, alimony, medical-dental assistance, school materials and uniform.

In the Municipal District of Osasco, SP, Programa Bradesco Esportes e Educação has Qualification and Specialist Centers to teach the modalities of Women's Volleyball and Basketball. The activities are developed in their own Sports Development Center, in the Fundação Bradesco schools, Sports Centers of the City Hall, and private schools and in a leisure club. Currently, two thousand girls are assisted by this program, from the age of eight, reaffirming the social commitment and valuation of talent and plain exercise of citizenship, with intervention in education, sports and health.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

1) OPERATIONS

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that through its commercial, foreign exchange, consumer financing and housing loan portfolios carries out all the types of banking activities that it is authorized to do so. The Bank is involved in a number of other activities, either directly or indirectly, through its subsidiaries, specifically leasing, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. All these activities are undertaken by the various companies in the Organização Bradesco, working together in an integrated fashion in the market.

2) PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

Bradesco's consolidated financial statements include the financial statements for Banco Bradesco, its foreign branches, subsidiaries and jointly controlled entities, in Brazil and overseas, including SPEs (Special Purpose Entities). They were prepared using accounting practices in compliance with Laws No. 4,595/64 (Brazilian Financial System Law) and No. 6,404/76 (Brazilian Corporate Law), including amendments introduced by Laws No. 11,638/07 and No. 11,941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of the leasing companies included in the consolidated financial statements were prepared using the finance lease method, under which the book value of leased fixed assets less the residual value paid in advance.

In the preparation of these consolidated financial statements, which were drawn up in accordance with the specific procedures laid down by Article 3 of CMN Resolution No. 2,723/00, in effect until March 26, 2015, and other provisions of the Accounting Plan of Financial Institutions – (“Cosif”), having as objective to demonstrate the adequate financial situation and the results of operations of the group of companies of the Organização Bradesco, as well as maintain consistency with the information already disclosed in previous periods. Additionally, intercompany transactions, including investments, assets and liabilities, revenue, expenses and unrealized profit were eliminated and net profit and shareholders' equity attributable to the non-controlling interests were accounted for in a separate line. For jointly controlled investments with other shareholders, assets, liabilities and income and loss were proportionally consolidated in the consolidated

financial statements according to the interest held in the shareholders' equity of each investee. Goodwill on the acquisition of investments in subsidiary/associate companies or jointly controlled entities is presented in the investments and intangible assets lines (Note 14a). The foreign exchange variation from foreign branches and, also, from investments, is presented in the income statement accounts used for changes in the value of the derivative financial instrument and borrowing and on-lending operations in order to offset these results with the hedges of these investments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on October 28, 2015.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

3) SIGNIFICANT ACCOUNTING PRACTICES

a) Functional and presentation currencies

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's income statement in the lines "Derivative Financial Instruments" and "Borrowing and On-lending".

b) Income and expense recognition

The result is calculated according to the regime of competence, which establishes that the revenues and expenses should be included in the calculation of the results for the periods in which they occur, always simultaneously when they are correlated, regardless of being a receipt or payment.

Fixed rate contracts are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the end of the reporting period.

Insurance and coinsurance premiums, net of premiums paid for coinsurance and related commissions, are recorded upon the issue of the related policies/certificates/endorsements and invoices, or upon the

beginning of the exposure to risk in cases in which the risk begins before the issue, and recognized on a straight-line basis over the policies' effective period through the upfront recognition and subsequent reversal through the income statement of the unearned premium reserve and the deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk for which no policy has been issued, are recorded in the income statement at the beginning of the risk exposure, based on estimated figures.

Recognition of health insurance premiums commences with the effectiveness of the corresponding insurance policy, and is recognized in proportion to the portion of the term elapsed.

Income and expenses arising from Mandatory Insurance For Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations are recorded based on information provided by Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recorded based on the information received from other insurers and IRB - Brasil Resseguros S.A. (IRB), respectively.

Reinsurance operations are recorded based on the premium and claims information provided which is subject to the analysis of the re-insurers. The deductions of reinsurance premiums granted are consistent with the recognition of the corresponding insurance premium and/or terms of the reinsurance contract.

Acquisition costs, relative to the insurance commission, are deferred and recognized in profit or loss in proportion to the amount of premium recognized.

Contributions and agency fees are deferred and recognized in the income statement on a straight-line basis over a period of 24 months for health insurance operations, and 12 months for other operations.

Pension plan contributions and life insurance premiums with survival coverage are recognized in the income statement as they are received.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

The revenue of the capitalization plans are recognized in the accounts in the month in which they are issued, according to the types of collection, which may be in monthly payments or in a single payment. Each security has a nominal value, which is restated monetarily by the Reference Rate (TR) + 0.5% interest per month. Technical provisions are recorded when the respective revenues are recognized.

The revenues with prescribed capitalization plans are recognized after the period of prescription, according to the Brazilian legislation, that is up to 20 years for securities and draws not redeemed until November 2003 and of five years after this date. The expenses for placement of capitalization bonds, classified as "Acquisition Costs", are recognized in the income statement as incurred.

c) Cash and cash equivalents

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 5.

d) Interbank investments

Unrestricted repurchase and reverse repurchase agreements are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 6.

e) Securities – Classification

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to fair value with movements recognized in the Income Statement for the period;
- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to fair value with movements recognized in shareholders' equity, net of tax, which will be transferred to the Income Statement only when effectively realized; and
- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recorded at cost, plus income earned recognized in the Income Statement for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 7 (a to c).

f) Derivative financial instruments (assets and liabilities)

Derivate instruments are classified based on the objective for which the underlying instrument was acquired at the date of purchase, taking into consideration its use for possible hedging purposes.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. The gains or losses are recorded in profit-and-loss and shareholders' equity accounts.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the fair value of financial assets and liabilities are designated as hedges when they meet the criteria for hedge accounting and are classified according to their nature:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recorded in the Income Statement; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recorded, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Income Statement.

A breakdown of amounts included as derivative financial instruments, in the balance sheet and off-balance-sheet accounts, is disclosed in Note 7 (d to g).

g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No. 2,682/99, which requires risk ratings to have nine levels, from "AA" (minimum risk) to "H" (maximum risk); and (ii) Management's assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the days-past-due is also considered in the rating of customer risk as per CMN Resolution No. 2,682/99, as follows:

| Past-due period (1) | Customer rating |
|----------------------------|------------------------|
| • from 15 to 30 days | B |
| • from 31 to 60 days | C |

- from 61 to 90 days D
- from 91 to 120 days E
- from 121 to 150 days F
- from 151 to 180 days G
- more than 180 days H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2,682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Income Statement up to the 59th day that they are past due. As from the 60th day, they are recognized in off-balance sheet accounts and are only recognized in the Income Statement when received.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated transactions are held at the same rating as on the date of the renegotiation or classified in a higher risk rating. Renegotiations already written-off against the allowance and that were recorded in off-balance-sheet accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

Bradesco

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 9.

h) Income tax and social contribution (assets and liabilities)

Income tax and social contribution deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recorded in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in leasing depreciation (applicable only for income tax), mark-to-market adjustments on securities, restatement of judicial deposits, among others, are recorded in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recorded based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. For financial companies, equated and of the insurance industry, the social contribution on the profit was calculated until August 2015, considering the rate of 15%. For the period between September 2015 and December 2018, the rate was changed to 20%, according to Law No. 13,169/15, returning to the rate of 15% as from January 2019. For the other companies, the social contribution is calculated considering the rate of 9%.

By virtue of the amendment of the rate, the Organização Bradesco constituted, in September 2015, a supplement to the tax credit of social contribution, considering the annual expectations of achievement and their respective rates in force in each period, according to the technical study conducted.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Changes in the criteria to recognize revenue, costs and expenses included in the net profit for the period, enacted by Law No. 11,638/07 and subsequent amendments were made fiscally by the new regime of the taxation in force instituted by Law No. 12,973/14.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecorded deferred tax assets, are presented in Note 33.

i) Prepaid expenses

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to assets that will generate revenue in subsequent periods are recorded in the Income Statement according to the terms and the amount of expected benefits and directly written-off in the Income Statement when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid by the origination of credit operations to the banking correspondents related to credit operations originated during 2015, Bradesco opted to recognize 2/3 of the total value of compensation, pursuant to the provisions of Bacen Circular No. 3,738/14.

Prepaid expenses are shown in detail in Note 11b.

j) Investments

Investments in unconsolidated companies, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, are accounted for using the equity method.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries and jointly controlled entities are consolidated – the composition of the main companies can be found in Note 2. The composition of unconsolidated companies, as well as other investments, can be found in Note 12.

k) Premises and equipment

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate – 4% per annum; furniture and utensils and machinery and equipment – 10% per annum; transport systems – 20% per annum; and data-processing systems – 20% to 50% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecorded surplus value for real estate and the fixed asset ratios, are presented in Note 13.

l) Intangible assets

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recorded and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Goodwill and other intangible assets and the movement in these balances by class, are presented in Note 14.

m) Impairment

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value. Impairment losses are presented in Note 7c⁽¹⁰⁾.

n) Securities sold under agreements to repurchase

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, calculated on a daily pro-rata basis.

A breakdown of the contracts recorded in deposits and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 15.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

o) Technical provisions relating to insurance, pension plans and capitalization bonds

- Damage, health and group insurance lines, except life insurance with survival coverage:
 - The unearned premium reserve (PPNG) is calculated on a daily pro-rata basis, using premiums net of coinsurance, but including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage less initial contracting costs, except for health and personal insurance. The portion of these reserves corresponding to the estimate for risks in effect but not yet contracted is designated 'PPNG-RVNE';
 - The unearned premium or contribution reserve (PPCNG) is calculated on a daily pro-rata basis based on the portion of health insurance premiums corresponding to the remaining period of coverage, of the currently effective contracts;
 - The mathematical reserve for unvested benefits (PMBaC) is calculated as the difference between the current value of future benefits and the current value of future contributions, on obligations already assumed by Bradesco;
 - The mathematical reserve for unvested benefits (PMBaC) relates to the individual health care plan portfolio and covers the risk related to the cover for the holder's dependents for five years following the death of the holder. It is calculated using a 5.2% annual discount rate, the time holders are expected to remain in the plan up to their death, and the projected costs of the five-year-period cover, excluding payment of premiums;
 - For the health insurance, the mathematical reserve of benefits granted (PMBC) is constituted by the obligations arising from the contractual clauses of remission of installments in cash, regarding the coverage of health assistance and by the premiums through payment of insured persons participating in the

Bradesco Saúde insurance - "GBS Plan", taking as a basis the present value of estimated future expenditure with the costs of health care of dependents of holders already deceased, as provided for in the ANS Normative Resolution No. 75/04, and considering a discount rate of 5.2% per annum;

- For the health insurance, the reserve for claims incurred but not reported (IBNR) is calculated from the final estimate of claims already incurred and still not reported, based on the run-off triangles, monthly that consider the historical development of claims advised in the last 12 months to establish a future projection per period of occurrence;

- For non-life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid' (IBNP) claims less the balance of the reserve for 'unsettled' claims (PSL) on the calculation date. A final estimate of IBNP is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 14 half-year periods to determine a future projection per occurrence period, and considers the estimated claims 'incurred but not sufficient' reported (IBNER), reflecting the changing expectation of the amount provisioned along the regulatory process;

- For other life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 16 half-year periods to determine a future projection per occurrence period;

- The reserve for unsettled claims (PSL) considers all claim notifications received up to the end of the reporting period. The reserve is adjusted for inflation and includes all claims in litigation;

- For non-life insurance, the reserve for unsettled claims (PSL) is determined based on the indemnity payment estimates, considering all administrative and judicial claims existing at the reporting date, net of the expected payments to be received;

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;
- For damage insurance, the reserve for related expenses (PDR) is calculated on a monthly basis to cover the expenses related to indemnity payment, and it covers the expenses allocated individually to each claim, as well as expenses related to claims that have not been itemized, that is, those at the level of the portfolio;
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;
- The reserve for technical surplus (PET) corresponds to the difference between the expected and the observed amounts for events in the period for personal insurance that have a technical surplus participation clause;
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy; and
- Other reserves are recorded for the individual health portfolio to address the differences between the expected present value of future premiums and the expected present value of indemnities and related expenses, using an annual discount rate of 5.2%.

- Pension plans and life insurance with survival coverage:
 - The unearned premium reserve (PPNG) is calculated on a daily prorated basis using net premiums, and is comprised of the portion corresponding to the remaining period of coverage and includes an estimate for risks covered but not yet issued (RVNE);

 - The mathematical reserve for unvested benefits (PMBaC) is recorded for participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the present value of future benefits and the present value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;

 - The mathematical reserve for unvested benefits (PMBaC) related to life insurance and unrestricted benefit pension plans (VGBl and PGBL), as well as the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in specially constituted investment funds (FIE);

 - The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability requested but not yet transferred to the recipient insurer;

 - The mathematical reserve for vested benefits (PMBC) is recognized for participants already receiving benefits and corresponds to the present value of future obligations related to the payment of those on-going benefits;

 - The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared semi-annually using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;

- The reserve for financial surplus (PEF) corresponds to the portion of income from investment of reserves that exceeds the minimum returns due to policyholders of pension plans that have a profit share clause;

- The reserve for incurred and not reported (IBNR) events is constituted for claims incurred but not reported and is based on run-off triangles, which consider the loss development of claims in the previous 96 months to set forth a future projection by occurrence period; and

- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period. The provision is updated for inflation and includes all claims in litigation.

- Capitalization bonds:
 - The mathematical reserve for capitalization bond (PMC) is recorded for each active or suspended capitalization bond over the term set forth in the general conditions of the plan, and is calculated using the capitalization percentage, applicable to each payments made, plus the monthly accrual calculated using the inflation index and the interest rate established in the plan until the bond is redeemed or canceled;

 - The reserve for redemption (PR) comprises the values of matured and early-terminated capitalization bonds and is calculated by updating the balance of bonds whose terms have expired or canceled using the inflation index until the holder receives the redemption payment;

- Reserve for 'draws to be held' (PSR) is recorded to cover premiums for future prize draws, and the balance represents the present value of the draws that have already been funded but have not yet been held. The calculation methodology consists of the accumulation of the prize draw percentage applicable to each payment, as established in the plan, less the amounts related to prize draws that have already occurred. The percentages of payments designated for the prize draws is defined in advance in the actuarial technical note, and is not modified during the term of the bond;

- Reserve for draws payable (PSP) consists of the value of unpaid prize draw amounts, adjusted for inflation for the period between the date of the drawing and its effective settlement; and

- Reserve for administrative expense (PDA) is recorded to cover the cost of maintaining the single payment (PU) capitalization bonds.

Technical provisions shown by account, product and segment, as well as amounts and details of plan assets covering these technical provisions, are shown in Note 20.

p) Provisions, contingent assets and liabilities and legal obligations – tax and social security

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution No. 3,823/09 and CVM Resolution No. 594/09:

- **Contingent Assets:** these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and confirmation of the capacity of the counterparty to pay or the ability of Bradesco to realize the asset via compensation against another liability upon which the gain is considered practically certain. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- Provisions: these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable, it requires a probable outflow of funds to settle the obligation and when the amount can be reliably measured;
- Contingent Liabilities: according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- Legal Obligations – Provision for Tax Risks: results from judicial proceedings, which contest the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 17.

q) Funding expenses

Expenses related to funding transactions involving the issuance of securities reduce the corresponding liability and are recognized in the profit or loss over the term of the transaction. They are presented in Notes 15c and 18.

r) Other assets and liabilities

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

s) Subsequent events

These refer to events occurring between the reporting date and the date the financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 34.

(1) Consistent with the criteria in Bacen Circular Letter No. 3,068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as cash flow hedges in the category Trading Securities;

(2) These refer to investment fund and managed portfolio resources invested in purchase contracts with a commitment to re-sell with Bradesco, whose owners are consolidated subsidiaries, included in the consolidated financial statements;

(3) The investment fund quotas are presented based on the instruments comprising their portfolios and maintaining the classification used in the fund;

(4) In compliance with Article 8 of Bacen Circular Letter No. 3,068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. The mark-to-market of securities, which were transferred from the category "Securities Available for Sale" to the category of "Securities Held to Maturity", in June 2015 and in December 2013, was maintained in the shareholders' equity and will be recognized in the results for the remaining term of these securities, according to Bacen Circular No. 3,068/01;

(5) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;

(6) This column reflects book value after mark-to-market accounting in accordance with item (7), except for securities classified as securities held to maturity, which fair value is less than the original amortized cost by R\$1,567,810 thousand (higher than amortized cost value to the amount of R\$2,336,828 thousand in 2014);

(7) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics. For investment funds, the original amortized cost reflects the fair

value of the respective quotas;

(8) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 7d II);

(9) In March 2015, there was a modification in the calculation method of the market capitalization of debentures, using market parameters (Brazilian Association of Entities of the Financial and Capital Markets – Anbima); and

(10) In the accrued of September 30, 2015, there were no losses through impairment, related to the heading 'Variable Income Securities', classified in the category "Securities Available for Sale", and accrued of September 30, 2014, there were losses through impairment, to the sum of R\$598,087 thousand, related to the heading 'Variable Income Securities', for bonds classified in the category "Securities Available for Sale", regarding the shares of Banco Espírito Santo (BES), due to the corporate restructuring in August 2014.

Notes to the Consolidated Financial Statements

d) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swaps and futures and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

e) Credit Default Swaps (CDS)

On September 30, 2015, Bradesco had credit default swaps (CDS) with the following characteristics: (i) the amount of risk transferred under credit swaps whose underlying assets are “Brazilian government securities” is negative R\$(1,366,629) thousand; and (ii) the risk received in credit swaps whose underlying assets are “derivative with companies” is R\$139,052 thousand, amounting to a total net credit risk value of negative R\$(1,227,577) thousand, with an effect on the calculation of required shareholders’ equity of negative R\$(59,869) thousand. The contracts related to credit derivatives transactions described above are due in 2019. The mark-to-market of the protection rates that remunerates the counterparty that received the risk totaled negative R\$(116) thousand. There were no credit events, as defined in the agreements, during the period.

f) Cash flow hedge

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds, which have a floating interest rate - the Interbank Deposit Rate (DI Cetip), thus converting them to fixed cash flows.

Bradesco has traded DI Future contracts on BM&FBOVESPA since 2009, using them as cash flow hedges totaling R\$21,569,750 thousand (2014 - R\$20,827,421 thousand), having as object of hedge captures linked to DI, totaling R\$21,960,291 thousand (2014 - R\$20,852,335 thousand). The adjustment to market value of these operations recorded in the net worth is R\$223,211 thousand (2014 - R\$173,026 thousand), net of tax effects is R\$133,927 thousand (2014 - R\$103,816 thousand) and the non-effective market value recorded in the results is of R\$2 thousand.

Notes to the Consolidated Financial Statements

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.

g) Hedge against market risk

Bradesco constituted a hedge against market risk, using futures contracts, which generated R\$2,103,707 thousand, for protection against the effects of the exchange rate variation of the firm commitment concerning the purchase and sale of shares agreement (Note 34d), which produced an adjustment to the market value of (R\$2,115,130 thousand). The effect of these operations recorded a revenue of (R\$11,423 thousand).

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.

17) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES – TAX AND SOCIAL SECURITY**a) Contingent assets**

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws No. 2,445/88 and No. 2,449/88, regarding the payment that exceeded the amount due under Supplementary Law No. 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

b) Provisions classified as probable losses and legal obligations – tax and social security

Organização Bradesco is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recorded provisions where, based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, the loss is deemed probable.

Management considers that the provision is sufficient to cover the future losses generated by the respective lawsuits.

Provisions related to legal obligations are maintained until the conclusion of the lawsuit, represented by judicial decisions with no further appeals or due to the statute of limitation.

I - Labor claims

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid "overtime", pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics and not judged, the provision is recorded based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Bradesco _____

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not have a significant impact on Organização Bradesco's financial position.

There are a significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recorded in provisions, taking into consideration the claims where the Bank is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits at the cognizance stage, until the Court issues a final decision on the right under litigation.

III - Legal obligations – provision for tax risks

The Organização Bradesco is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is a good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these legal obligations and the provisions for cases for which the risk of loss is deemed as probable is regularly

monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

The main cases are:

- PIS and COFINS – R\$2,065,189 thousand (R\$1,649,507 thousand in 2014): a request for authorization to calculate and pay PIS and COFINS based on effective billing, as set forth in Article 2 of Supplementary Law No. 70/91, removing from the calculation base the unconstitutional inclusion of other revenues other than those billed;
- INSS Autonomous Brokers – R\$1,723,904 thousand (R\$1,471,067 thousand in 2014): discussing the charging of social security contribution on remunerations paid to third-party service providers, established by Supplementary Law No. 84/96 and subsequent regulations/amendments, at 20.0% with an additional 2.5%, on the grounds that services are not provided to insurance companies but to policyholders, thus being outside the scope of such a contribution as provided for in item I, Article 22 of Law No. 8,212/91, as new wording in Law No. 9,876/99;
- IRPJ/CSLL on losses of credits – R\$2,156,067 thousand (R\$1,881,757 thousand in 2014): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted during collections, regardless of compliance with the terms and conditions provided for in Articles 9 to 14 of Law No. 9,430/96 that only apply to temporary losses;

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- PIS – EC 17/97 - R\$231,455 thousand (R\$318,357 thousand in 2014): for the period from July 1997 to February 1998, request to calculate and pay PIS contributions as established by LC 07/70 (PIS Repique) and not as established by EC 17/97 (PIS on Gross Operating Income);
- PIS – R\$322,505 thousand (R\$317,246 thousand in 2014): we are requesting the authorization to offset overpaid amounts in 1994 and 1995 as PIS contribution, corresponding to the surplus paid over that calculated on the tax base established in the Constitution, i.e., gross operating income, as defined in the income tax legislation (set out in Article 44 of Law No. 4,506/64), which excludes interest income; and
- Pension Contributions – R\$1,059,482 thousand (R\$471,512 thousand in 2014): official notifications related to the pension contributions on financial contributions in private pension plans, considered by the audit as compensatory sums subject to the incidence of such financial contributions and isolated fine for not withholding tax of the IRRF on the related financial contributions.

(2) Includes constitution of tax provision: (i) related to the incidence of pension contributions on financial contributions in private pension plans, in the amount of R\$523,290 thousand; and (ii) IRPJ/CSLL on losses of credits, totaling R\$47,545 thousand; and

(3) Mainly include legal liabilities.

c) Contingent liabilities classified as possible losses

The Organização Bradesco maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recorded as a liability in the financial statements. The main proceedings in this category are the following: a) leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$1,871,554 thousand (R\$1,794,587 thousand in 2014) which relates to the municipal tax demands from municipalities other than those in which the company is located and where, under law, tax is collected; b) 2006-2010 income tax and social contribution, relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$4,814,380 thousand (R\$3,831,988 thousand in 2014); c) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$1,175,066 thousand (R\$550,255 thousand in 2014); d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2010, and differences in depreciation and operating expenses and income, amounting to R\$888,714 thousand (R\$473,869 thousand in 2014); and e) IRPJ and CSLL deficiency note, amounting to R\$411,392 thousand relating to profit of subsidiaries based overseas, for the calendar years of 2008 and 2009.

In the Extraordinary General Meeting of March 10, 2015, a deliberation was taken to increase the Capital Stock by R\$5,000,000 thousand, increasing it from R\$38,100,000 thousand to R\$43,100,000 thousand. This was effected through the capitalization of part of the balance of the account "Profit Reserves - Statutory Reserve", in compliance with the provisions in Article 169 of Law No. 6,404/76, with a stock-split of 20% in shares, by issuing 841,454,808 new nominative-book entry shares, with no nominal value, of which 420,727,426 were common shares and 420,727,382 were preferred shares. These were attributed free-of-charge to the shareholders registered on March 26, 2015 as bonus, in the ratio of two (2) new shares for every ten (10) shares of the same type that they own.

Notes to the Consolidated Financial Statements**b) Interest on shareholders' equity/dividends**

Bradesco's capital remuneration policy aims to distribute interest on shareholders' equity at the maximum amount calculated under current legislation, and this is included, net of Withholding Income Tax, in the calculation for mandatory dividends for the year under the Company's Bylaws.

The Board of Directors' Meeting held on December 22, 2014 approved the Board of Executive Officers' proposal to pay shareholders supplementary interest on shareholders' equity for 2014, for the amount of R\$2,600,300 thousand, at R\$0.590325800 (net of 15% withholding income tax - R\$0.501776930) per common share and R\$0.649358380 (net of 15% withholding income tax - R\$0.551954623) per preferred share, which was paid on March 6, 2015.

The Board of Directors' Meeting held on February 9, 2015 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the period of 2014, totaling R\$630,572 thousand, at R\$0.143153921 per common share and R\$0.157469313 per preferred share, which was paid on March 6, 2015.

The Board of Directors' Meeting held on June 22, 2015 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the first semester of 2015, totaling R\$912,000 thousand, at R\$0.172629101 per common share and R\$0.189892011 per preferred share, which was paid on July 17, 2015.

Interest on shareholders' equity and dividends for the period of nine months ended September 30, 2015, is calculated as follows:

| | R\$ thousand | % (1) |
|---|-------------------|-------|

b) Compensation for Key Management Personnel

Each year, the Annual Shareholders' Meeting approves:

- The annual grand total amount of Management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws; and
- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Organização Bradesco.

For 2015, the maximum amount of R\$349,900 thousand was set for Management compensation and R\$353,000 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which vest in three equal, annual and successive installments, the first of which is in the year following the payment date. This procedure complies with CMN Resolution No. 3,921/10, which sets forth a management compensation policy for financial institutions.

Sensitivity analysis

The Trading Portfolio is also monitored through daily sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule No. 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. In addition, due to our strong presence in the insurance and pension plan market, Bradesco holds a large volume of assets on which price adjustments would also have an offsetting impact on the linked technical provisions.

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. However, the market is highly dynamic which results in continuous changes in these positions. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly seeks to adjust positions to mitigate related risks according to the strategy determined by Senior Management. Therefore, where there are indicators of deterioration in a certain positions, proactive measures are taken to minimize any potential negative impact and maximize the risk/return ratio for the Organization.

Sensitivity analyses were carried out based on scenarios prepared at the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

Scenario 1: Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1.0% variation on prices. For example: for a Real/US dollar exchange rate of R\$4.03 a scenario of R\$4.07 was used, while for a 1-year fixed interest rate of 15.79%, a 15.80% scenario was applied;

Scenario 2: 25.0% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$4.03 a scenario of R\$5.04 was used, while for a 1-year fixed interest rate of 15.79%, a 19.7% scenario was applied. The scenarios for other risk factors also accounted for 25.0% stresses in the respective curves or prices; and

Scenario 3: 50.0% stresses were determined based on market information. For example: for a Real/US dollar quote of R\$4.03 a scenario of R\$6.05 was used, while for a 1-year fixed interest rate of 15.79%, a 23.7% scenario was applied. The scenarios for other risk factors also account for 50.0% stresses in the respective curves or prices.

a) Capital Management

The primary objective of the Capital Management structure is to provide the necessary conditions for a continuous process of capital assessment, monitoring and control, contributing to the achievement of the Organization's strategic objectives. It considers the current business environment and a prospective and consistent vision for capital adequacy planning. This structure is composed of the Statutory, Non-Statutory and Executive Committees that assist the Board of Directors and the Board of Executive Officers in decision making.

The internal process of assessing capital adequacy is carried out so as to ensure that the Organization has a Reference Equity base composition to support the development of activities and provide sufficient protection against risks, whether in normal or in extreme market conditions, as well as meeting managerial and regulatory requirements in relation to capital management.

(1) Includes advances on foreign exchange contracts, leases and other receivables with lending characteristics; and

(2) Primarily includes the surplus of interest in subsidiaries and affiliates (Cielo, Odontoprev and Fleury).

Determination of the fair value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, amounts are estimated based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;
- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Organização Bradesco for new contracts with similar features. These rates are consistent with the market at the reporting date; and
- Time deposits, funds from issuance of securities, borrowing and on lending were calculated by discounting the difference between the cash flows under the contract terms and our prevailing market rates

for the same product at the reporting date.

32) EMPLOYEE BENEFITS

Bradesco and its subsidiaries sponsor a private defined contribution pension for employees and directors, that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE).

Actuarial obligations of the defined contribution plan are fully covered by the plan assets of the corresponding FIE.

In addition to the aforementioned plan, participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in that plan. For the active participants, retirees and pensioners of the defined benefit plan, in extinction, the present value of the actuarial obligations of the plan is completely secured by collateral assets.

Banco Alvorada S.A. (successor from the spin-off of Banco Baneb S.A.) maintains defined contribution and defined benefit retirement plans, through Fundação Baneb de Seguridade Social - Bases (related to the former employees of Baneb).

Banco Bradesco's sponsors both defined benefit and defined contribution retirement plans, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão (Capof), especially to employees originating from Banco BEM S.A.

Bradesco sponsors a defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará (Cabec), exclusively for former employees of Banco BEC S.A.

Expenses related to contributions made in the period of nine months ended September 30, 2015, totaled R\$451,265 thousand (R\$463,322 thousand in 2014).

In addition to this benefit, Bradesco and its subsidiaries offer other benefits to their employees and administrators, including health insurance, dental care, life and personal accident insurance, and professional training. These expenses, including the aforementioned contributions, totaled R\$2,399,159 thousand in the period of nine months ended September 30, 2015 (R\$2,234,143 thousand in 2014).

c) As part of the convergence process with international accounting standards, the Brazilian Accounting Pronouncements Committee (CPC) issued several accounting pronouncements, as well as their interpretations and guidelines, which are applicable to financial institutions only after approval by CMN. The accounting standards which have been approved by CMN include the following:

- Resolution No. 3,566/08 – Impairment of Assets (CPC 01);
- Resolution No. 3,604/08 – Statement of Cash Flows (CPC 03);
- Resolution No. 3,750/09 – Related Party Disclosures (CPC 05);
- Resolution No. 3,823/09 – Provisions, Contingent Liabilities and Contingent Assets (CPC 25);
- Resolution No. 3,973/11 – Subsequent Event (CPC 24);
- Resolution No. 3,989/11 – Share-based Payment (CPC 10);
- Resolution No. 4,007/11 – Accounting Policies, Changes in Estimates and Error Correction (CPC 23);

- Resolution No. 4,144/12 – Conceptual Framework for Preparing and Presenting Financial Statements; and
- Resolution No. 4,424/15 – Employee Benefits (CPC 33 – shall take effect as from January 2016).

Presently, it is not possible to estimate when the CMN will approve the other CPC pronouncements or if they will be applied prospectively or retrospectively.

CMN Resolution No. 3,786/09 and Bacen Circular Letters No. 3,472/09 and No. 3,516/10 establish that financial institutions and other entities authorized by Bacen to operate, which are publicly-held companies or which are required to establish an Audit Committee shall, since December 31, 2010, annually prepare and publish in up to 90 days after the reference date of December 31 their consolidated financial statements, prepared under the International Financial Reporting Standards (IFRS), in compliance with international standards issued by the International Accounting Standards Board (IASB).

As required by CMN Resolution, on March 31, 2015, Bradesco published its consolidated financial statements for December 31, 2013 and 2014 on its website, in accordance with IFRS standards. The net profit and shareholders' equity of the financial statements disclosed in IFRS were not substantially different from those presented in the financial statements prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen). As there were no substantial differences between the two sets of financial statements (GAAPs) in the year ended December 31, 2014, Management expects that the net profit and shareholders' equity for the period of nine months ended September 30, 2015 will also not be materially different in the two GAAPs.

Report on the Review of Interim Consolidated Financial Information

To the Board of Directors and Management of

Banco Bradesco S.A.

Osasco - SP

Introduction

We have reviewed the consolidated statement of financial position of the Economic-Financial Consolidated (*Consolidado Econômico Financeiro* - CONEF) of Banco Bradesco S.A. ("Bradesco"), as at September 30, 2015 and the related consolidated statements of income, changes in shareholders' equity and cash flows for nine-month period then ended, as well as the summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim consolidated financial information of the Economic-Financial Consolidated in accordance with Article 3rd of Resolution 2,723, dated May 31, 2000, of the National Monetary Council (*Conselho Monetário Nacional* – CMN) and supplementary regulations of the Chart of Accounts for Financial Institutions (*Plano Contábil de Instituições Financeiras* – Cosif) described in the explanatory note 2. Our responsibility is to express a conclusion on this interim consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Therefore, we do not express an audit opinion.

Conclusion

Based on our review, we are not aware of any facts that would lead us to believe that the interim consolidated financial information mentioned above were not prepared, in all material aspects, in accordance with the Article 3rd of the Resolution no 2,723, of the National Monetary Council (*Conselho Monetário Nacional* - CMN) and supplementary regulations of the Chart of Accounts for Financial Institutions (*Plano Contabil de Instituições Financeiras* - Cosif), as described in explanatory note 2 to the interim consolidated financial information, based on the evidences obtained.

Emphasis

Basis of preparation of the interim consolidated financial information of the Economic-Financial Consolidated

We draw attention to the explanatory note 2 to the interim consolidated financial information which describes the basis of preparation of the interim consolidated financial information of the Economic-Financial Consolidated. These interim consolidated financial information were prepared in accordance with the Article 3rd of Resolution 2,723, of the CMN. Consequently, the interim consolidated financial information may not be appropriate for other purposes. Our conclusion does not have a qualification related to this matter.

Other matters

We also reviewed the interim statement of value added (DVA) for nine-month period ended as at September 30, 2015, which was prepared under Bradesco's Management responsibility and is being presented as supplementary information. This statement was subject to the same review procedures described above and based on our review, we are not aware of any facts that would lead us to believe it was not prepared, in all material respects, consistently with the interim consolidated financial information.

Consolidated Financial Statements and Independent Auditors' Report

Report on the Review of Consolidated Interim Financial Information

Bradesco has prepared a separate set of stand-alone financial statements for general purposes for the three and nine-month periods ended September 30, 2015, in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Central Bank of Brazil, on which we issued a unqualified limited review report, on October 28, 2015.

Economic and Financial Analysis Report – September 2015

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Management Report

Dear Shareholders,

We hereby present the Individual Financial Statements of Banco Bradesco S.A related to the period ended on September 30, 2015, prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

Despite pressures on the exchange rate, the prospect of inflation control next year has led the Central Bank to interrupt the cycle of higher interest rates. At the same time, the adjustment of the Brazilian economy follows course, with the challenges, still present, to re-balance the public accounts. With this, the Country searches for basis for sustainable forward development, guided by opportunities for investment and recovery of household consumption.

In the Organization, among the developments that marked the quarter, we highlight the **dissemination, on August 3, of the signature of the Purchase of Shares Agreement with HSBC Latin America Holdings (UK) Limited for the acquisition of 100% of the share capital of HSBC Bank Brasil S.A. – Banco Múltiplo and HSBC Serviços e Participações Ltda., and consequently to assume all the operations of HSBC in Brazil.**

Subject to the approval of the competent regulatory bodies and the fulfillment of the legal formalities, the operation reaffirms the goals of Bradesco to strengthen its presence and activity in the market, thus increasing gains in efficiency and scale, besides adding value to its shareholders.

R\$4.358 billion was destined to the shareholders, in the period, as Interest on Own Capital and Dividends, of which R\$1.707 billion was paid in the form of monthly and intermediaries and R\$2.651 billion provisioned.

The taxes and contributions, including pensions, paid or provisioned, totaled R\$9.934 billion in the first nine months, whereby R\$6.963 billion was related to withheld taxes and collected from third parties and R\$2.971 billion calculated based on the activities developed by the Bank equivalent to 23.1% of the Net Profit.

At the end of the quarter, the realized Capital Stock was of R\$43.100 billion. Added to the Equity Reserves of R\$43.133 billion, it resulted in a Shareholders' Equity of R\$86.233 billion, with a growth of 8.8% as compared to the same period of 2014, corresponding to the equity value of R\$17.14 per share.

Calculated on the basis of the listing of its shares, the Market Value of Bradesco reached R\$113.288 billion on September 30, 2015, equivalent to 1.3 times the Shareholders' Equity.

The Shareholders' Managed Equity represents 8.9% of the Total Assets, which amounted to R\$969.653 billion, with a growth of 3.9% in September 2014. Thus, the index of solvency was 14.5% higher, therefore, at the minimum of 11% established by Resolution No. 4,193/13 of the National Monetary Council, in compliance with the Basel Committee. The immobilization index, at the end of the quarter,

Also important, we highlight the following:

The Organização Bradesco, according to the provision in Instruction No. 381/03, of the Brazilian Securities and Exchange Commission, in the period of January to September 2015, neither contracted from nor had services provided by KPMG Auditores Independentes that were not related to the external audit, at a level greater than 5% of the total fees related to external audit services. Other services provided by the external auditors were the previously-agreed procedures for reviews of, substantially, financial, fiscal and actuarial information. The Bank's policy is in line with the principles of preserving the auditors' independence, which are based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests. It is noteworthy that any eventual services not related to the external audit are submitted prior to the evaluation of the Audit Committee.

In the context of People Management, the Organization has emphasized that each year the evolution of training programs of UNIBRAD - Bradesco Corporate University oriented to the training and development of staff, aiming at its qualification so it can always offer to the Bradesco Client excellence in customer service. In the period of January to September 2015, 1,720 courses were given, with 534,277 participations. The assistance benefits, aiming at ensuring the well-being, the improvement in the quality of life and safety of employees and their dependents, covered, at the end of the quarter, 166,827 people.

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

1) OPERATIONS

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that through its commercial, foreign exchange, consumer financing and housing loan portfolios carries out all the types of banking activities that it is authorized to do so.

2) PRESENTATION OF INDIVIDUAL FINANCIAL STATEMENTS

Bradesco's individual financial statements were prepared using accounting practices in compliance with Laws No. 4,595/64 (Brazilian Financial System Law) and No. 6,404/76 (Brazilian Corporate Law), including amendments introduced by Laws No. 11,638/07 and No. 11,941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen) and Brazilian Securities and Exchange Commission (CVM), where applicable.

Bradesco's individual financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's individual financial statements were approved by the Board of Directors on October 28, 2015.

3) SIGNIFICANT ACCOUNTING PRACTICES

a) Functional and presentation currencies

Individual financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil.

b) Income and expense recognition

The result is calculated according to the regime of competence, which establishes that the revenues and expenses should be included in the calculation of the results for the periods in which they occur, always simultaneously when they are correlated, regardless of being a receipt or payment.

Fixed rate contracts are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the end of the reporting period.

c) Cash and cash equivalents

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 4.

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

d) Interbank investments

Unrestricted repurchase and reverse repurchase agreements are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 5.

e) Securities – Classification

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to fair value with movements recognized in the Income Statement for the period;
- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to fair value with movements recognized in shareholders' equity, net of tax, which will be transferred to the Income Statement only when effectively realized; and
- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recorded at cost, plus income earned recognized in the Income Statement for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the individual statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices

are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 6 (a to c).

f) Derivative financial instruments (assets and liabilities)

Derivate instruments are classified in accordance with the aims of Management for which the underlying instrument was acquired at the date of purchase, taking into consideration its use for possible hedging purposes.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. The gains or losses are recorded in profit-and-loss and shareholders' equity accounts.

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the fair value of financial assets and liabilities are designated as hedges when they meet the criteria for hedge accounting and are classified according to their nature:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recorded in the Income Statement; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recorded, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Income Statement.

A breakdown of amounts included as derivative financial instruments, in the balance sheet and off-balance-sheet accounts, is disclosed in Note 6 (d to g).

Notes to the Individual Financial Statements

g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No. 2,682/99, which requires risk ratings to have nine levels, from "AA" (minimum risk) to "H" (maximum risk); and (ii) Management's assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the days-past-due is also considered in the rating of customer risk as per CMN Resolution No. 2,682/99, as follows:

| Past-due period (1) | Customer rating |
|----------------------------|------------------------|
| • from 15 to 30 days | B |
| • from 31 to 60 days | C |
| • from 61 to 90 days | D |
| • from 91 to 120 days | E |
| • from 121 to 150 days | F |
| • from 151 to 180 days | G |
| • more than 180 days | H |

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2,682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Income Statement up to the 59th day that they are past due. As from the 60th day, they are recognized in off-balance sheet accounts and are only recognized in the Income Statement when received.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated transactions are held at the same rating as on the date of the renegotiation or classified in a higher risk rating. Renegotiations already written-off against the allowance and that were recorded in off-balance-sheet accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 8.

Notes to the Individual Financial Statements

Leasing operations

The portfolio of leasing operations consists of contracts firmed with the support of Decree No. 140/84, of the Ministry of Finance, which contains clauses of: (a) non-cancellation; (b) purchase option; and c) post-fixed or fixed restatement and are accounted for in accordance with the standards established by Bacen, as follows:

I- Leasing receivables

Reflect the balance of installments receivable, restated according to the indexes and criteria established by contractual agreement.

II- Unearned revenues from leases and Guaranteed Residual Value (GRV)

Recorded at the contractual amount, conversely to adjusted accounts of unearned Revenues from leasing and residual Value to balance, both submitted through negotiated conditions. The GRV received in advance is recorded in Other Liabilities – Creditors by Anticipation of the Residual Value until the date of contractual termination. The adjustment at present value of the lease payments and the GRV receivable from the financial leasing operations is recognized as excessive/insufficient depreciation on leased assets, in order to reconcile the accounting practices. In operations in arrears equal to or greater than 60 days, the appropriation to the result occurs upon receipt of contractual installments, in accordance with CMN Resolution No. 2,682/99.

III- Fixed assets for leasing operations

It is recorded at acquisition cost, minus the accrued depreciations. The depreciation is calculated using the linear method, with the benefit of a 30% reduction in the normal life cycle of the asset, provisioned in

the current legislation. The main annual rates of depreciation used, as base for this reduction, are the following: vehicles and related, 20%; furniture and utensils, 10%; machinery and equipment, 10%; and other assets, 10% and 20%.

IV- Losses on leases

The losses recorded in the sale of leased assets are deferred and amortized over the remaining normal life cycle of assets, and are shown along with the Leased Fixed Assets (Note 8k).

V- Excessive (insufficient) depreciation

The accounting records of leasing operations are maintained as legal requirements, specific for this type of operation. The procedures adopted and summarized in items "II" to "IV" above differ from the accounting practices provisioned in the Brazilian corporate law, especially concerning the regime of competence in the record of revenue and expenses related to lease contracts. As a result, in accordance with Bacen Circular No. 1,429/89, the present value of outstanding leasing installments was calculated, using the internal rate of return of each contract, recording a leasing revenue or expenditure, conversely to the entries of excessive or insufficient depreciation, respectively, recorded in Permanent Assets, with the objective of adapting the leasing operations to the regime of competence (Note 8k).

h) Income tax and social contribution (assets and liabilities)

Income tax and social contribution deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recorded in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in leasing depreciation (applicable only for income tax), mark-to-market adjustments on securities, restatement of judicial deposits, among others, are recorded in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recorded based on current expectations of realization considering technical studies and analyses carried out by Management.

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. The social contribution on the profit was calculated until August 2015, considering the rate of 15%. For the period between September 2015 and December 2018, the rate was changed to 20%, according to Law No. 13,169/15, returning to the rate of 15% as from January 2019.

By virtue of the amendment of the rate, the Organização Bradesco constituted, in September 2015, a supplement to the tax credit of social contribution, considering the annual expectations of achievement and their respective rates in force in each period, according to the technical study conducted.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Changes in the criteria to recognize revenue, costs and expenses included in the net profit for the period, enacted by Law No. 11,638/07 and subsequent amendments were made fiscally by the new regime of the taxation in force instituted by Law No. 12,973/14.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecorded deferred tax assets, are presented in Note 30.

i) Prepaid expenses

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurring costs relating to assets that will generate revenue in subsequent periods are recorded in the Income Statement according to the terms and the amount of expected benefits and directly written-off in the Income Statement when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid by the origination of credit operations to the banking correspondents related to credit operations originated during 2015, Bradesco opted to recognize 2/3 of the total value of compensation, pursuant to the provisions of Bacen Circular No. 3,738/14.

Prepaid expenses are shown in detail in Note 10b.

j) Investments

Investments in affiliates, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, are accounted for using the equity method.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

The composition of affiliates, as well as other investments, can be found in Note 11.

k) Premises and equipment

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate - 4% per annum; furniture and utensils and machinery and equipment - 10% per annum; transport systems - 20% per annum; and data-processing systems - 20% to 50% per annum, and adjusted for impairment, when applicable.

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

The breakdown of asset costs and their corresponding depreciation are presented in Note 12.

l) Intangible assets

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recorded and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Goodwill and other intangible assets and the movement in these balances by class, are presented in Note 13.

m) Impairment

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, a possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value.

n) Securities sold under agreements to repurchase

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, calculated on a daily pro-rata basis.

A breakdown of the contracts recorded in deposits and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 14.

o) Provisions, contingent assets and liabilities and legal obligations – tax and social security

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution No. 3,823/09 and CVM Resolution No. 594/09:

- **Contingent Assets:** these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and confirmation of the capacity of the counterparty to pay or the ability of Bradesco to realize the asset via compensation against another liability upon which the gain is considered practically certain. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;
- **Provisions:** these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable, it requires a probable outflow of funds to settle the obligation and when the amount can be reliably measured;

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

- **Contingent Liabilities:** according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses that should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- **Legal Obligations – provision for tax risks:** results from judicial proceedings, which contest the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 16.

p) Other assets and liabilities

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

q) Subsequent events

These refer to events occurring between the reporting date and the date the individual financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 31.

- (1) Consistent with the criteria in Bacen Circular Letter No. 3,068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as cash flow hedges in the category Trading Securities;
- (2) These refer to investment fund and managed portfolio resources invested in purchase contracts with a commitment to re-sell with Bradesco, whose owners are consolidated subsidiaries, included in the financial statements;
- (3) The investment fund quotas are presented based on the instruments comprising their portfolios and maintaining the classification used in the fund;
- (4) In compliance with Article 8 of Bacen Circular Letter No. 3,068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. The mark-to-market of securities, which were transferred from the category "Securities Available for Sale" to the category of "Securities Held to Maturity", in June 2015, was maintained in the shareholders' equity and will be recognized in the results for the remaining term of these securities, according to Bacen Circular No. 3,068/01;
- (5) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;
- (6) This column reflects book value after mark-to-market accounting in accordance with item (7), except for securities classified as securities held to maturity, which fair value is lower than the original amortized cost by R\$1,198,632 thousand (R\$7,750 thousand higher than the original amortized cost in 2014);
- (7) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics. For investment funds, the original amortized cost reflects the fair value of the respective quotas;

(8) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 6d II);

(9) In March 2015, there was a modification in the calculation method of the market capitalization of debentures, using market parameters (Brazilian Association of Entities of the Financial and Capital Markets – Anbima); and

(10) In the accrued of September 30, 2015 and 2014, there were no impairment losses related to "Equity Securities", for the bonds classified under "Available-for-sale securities".

d) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the individual statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swaps and futures and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

(1) Comprised of operations carried out on the Chicago and New York Stock Exchanges and over-the-counter markets.

e) Credit Default Swaps (CDS)

On September 30, 2015, Bradesco had credit default swaps (CDS) with the following characteristics: (i) the amount of risk transferred under credit swaps whose underlying assets are “Brazilian government securities” is negative R\$(1,366,629) thousand; and (ii) the risk received in credit swaps whose underlying assets are “derivative with companies” is R\$139,052 thousand, amounting to a total net credit risk value of negative R\$(1,227,577) thousand, with an effect on the calculation of required shareholders’ equity of negative R\$(59,869) thousand. The contracts related to credit derivatives transactions described above are due in 2019. The mark-to-market of the protection rates that remunerates the counterparty that received the risk totaled R\$(116) thousand. There were no credit events, as defined in the agreements, during the period.

f) Cash flow hedge

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds, which have a floating interest rate - the Interbank Deposit Rate (DI Cetip), thus converting them to fixed cash flows.

Bradesco has traded DI Future contracts on BM&FBOVESPA since 2009, using them as cash flow hedges totaling R\$21,569,750 thousand (2014 - R\$20,827,421 thousand), having as object of hedge captures linked to DI, totaling R\$21,960,291 thousand (2014 - R\$20,852,335 thousand). The adjustment to market value of these operations recorded in the net worth is R\$223,211 thousand (2014 - R\$173,026 thousand), net of tax effects is R\$133,927 thousand (2014 - R\$103,816 thousand) and the non-effective market value recorded in the results is of R\$2 thousand.

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements**g) Hedge against market risk**

Bradesco constituted a hedge against market risk, using futures contracts, which generated R\$2,103,707 thousand, for protection against the effects of the exchange rate variation of the firm commitment concerning the purchase and sale of shares agreement (Note 31b), which produced an adjustment to the market value of (R\$2,115,130 thousand). The effect of these operations recorded a revenue of (R\$11,423 thousand).

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.

16) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES – TAX AND SOCIAL SECURITY

a) Contingent assets

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws No. 2,445/88 and No. 2,449/88, regarding the payment that exceeded the amount due under Supplementary Law No. 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

b) Provisions classified as probable losses and legal obligations – tax and social security

Organização Bradesco is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Bradesco

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

Management recorded provisions where, based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, the loss is deemed probable.

Management considers that the provision is sufficient to cover the future losses generated by the respective lawsuits.

Provisions related to legal obligations are maintained until the conclusion of the lawsuit, represented by judicial decisions with no further appeals or due to the statute of limitation.

I - Labor claims

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid "overtime", pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics and not judged, the provision is recorded based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not have a significant impact on Organização Bradesco's financial position.

There are a significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recorded in provisions, taking into consideration the claims where the Bank is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits at the cognizance stage, until the Court issues a final decision on the right under litigation.

III - Legal obligations – provision for tax risks

The Organização Bradesco is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is a good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these legal obligations and the provisions for cases for which the risk of loss is deemed as probable is regularly monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

The main cases are:

- IRPJ/CSLL on losses of credits – R\$1,364,679 thousand (R\$1,266,887 in 2014): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted during collections, regardless of compliance with the terms and conditions provided for in Articles 9 to 14 of Law No. 9,430/96 that only apply to temporary losses;
- PIS – EC 17/97 – R\$204,268 thousand (R\$197,523 in 2014): for the period from July 1997 to February 1998, request to calculate and pay PIS contributions as established by LC 07/70 (PIS Repique) and not as established by EC 17/97 (PIS on Gross Operating Income);
- PIS – R\$322,505 thousand (R\$310,217 thousand in 2014): we are requesting the authorization to offset overpaid amounts in 1994 and 1995 as PIS contribution, corresponding to the surplus paid over that calculated on the tax base established in the Constitution, i.e., gross operating income, as defined in the income tax legislation (set out in Article 44 of Law No. 4,506/64), which excludes interest income; and
- Pension Contributions – R\$968,634 thousand (R\$448,972 thousand in 2014): official notifications related to the pension contributions on financial contributions in private pension plans, considered by the audit as compensatory sums subject to the incidence of such financial contributions and isolated fine for not withholding tax of the IRRF on the related financial contributions.

Bradesco

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements**c) Contingent liabilities classified as possible losses**

The Organização Bradesco maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recorded as a liability in the financial statements. The main proceedings in this category are the following: a) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$974,580 thousand (R\$519,075 thousand in 2014); and b) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2010, expenses of depreciation of leased goods and operating expenses and income, amounting to R\$693,557 thousand (R\$241,456 thousand in 2014).

b) Compensation for Key Management Personnel

Each year, the Annual Shareholders' Meeting approves:

- The annual grand total amount of management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws; and

- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Organização Bradesco.

For 2015, the maximum amount of R\$349.900 thousand was set for Management compensation and R\$353,000 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which vest in three equal, annual and successive installments, the first of which is in the year following the payment date. This procedure complies with CMN Resolution No. 3,921/10, which sets forth a management compensation policy for financial institutions.

Sensitivity analysis

The Trading Portfolio is also monitored through daily sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule No. 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. In addition, due to our strong presence in the insurance and pension plan market, Bradesco holds a large volume of assets on which price adjustments would also have an offsetting impact on the linked technical provisions.

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. However, the market is highly dynamic which results in continuous changes in these positions. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly seeks to adjust positions to mitigate related risks according to the strategy determined by Senior Management. Therefore, where there are indicators of deterioration in a certain positions, proactive measures are taken to minimize any potential negative impact and maximize the risk/return ratio for the Organization.

Sensitivity analyses were carried out based on scenarios prepared at the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

Scenario 1: Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1.0% variation on prices. For example: for a Real/US dollar exchange rate of R\$4.03 a scenario of R\$4.07 was used, while for a 1-year fixed interest rate of 15.79%, a 15.80% scenario was applied;

Scenario 2: 25.0% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$4.03 a scenario of R\$5.04 was used, while for a 1-year fixed interest rate of 15.79%, a 19.7% scenario was applied. The scenarios for other risk factors also accounted for 25.0% stresses in the respective curves or prices; and

Scenario 3: 50.0% stresses were determined based on market information. For example: for a Real/US dollar quote of R\$4.03 a scenario of R\$6.05 was used, while for a 1-year fixed interest rate of 15.79%, a 23.7% scenario was applied; The scenarios for other risk factors also account for 50.0% stresses in the respective curves or prices.

a) Capital Management

The primary objective of the Capital Management structure is to provide the necessary conditions for a continuous process of capital assessment, monitoring and control, contributing to the achievement of the Organization's strategic objectives. It considers the current business environment and a prospective and consistent vision for capital adequacy planning. This structure is composed of the Statutory, Non-Statutory

and Executive Committees that assist the Board of Directors and the Board of Executive Officers in decision making.

The internal process of assessing capital adequacy is carried out so as to ensure that the Organization has a Reference Equity base composition to support the development of activities and provide sufficient protection against risks, whether in normal or in extreme market conditions, as well as meeting managerial and regulatory requirements in relation to capital management.

(2) Includes advances on foreign exchange contracts, leases and other receivables with lending characteristics; and

(3) Primarily includes the surplus of earnings (losses) of subsidiaries and affiliates (Cielo, Odontoprev and Fleury).

Determination of the fair value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, amounts are estimated based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;

- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Organização Bradesco for new contracts with similar features. These rates are consistent with the

market at the reporting date; and

- Time deposits, funds from issuance of securities, borrowing and on lending were calculated by discounting the difference between the cash flows under the contract terms and our prevailing market rates for the same product at the reporting date.

29) EMPLOYEE BENEFITS

Bradesco and its subsidiaries sponsor a private defined contribution pension for employees and directors, that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE).

Actuarial obligations of the defined contribution plan are fully covered by the plan assets of the corresponding FIE.

In addition to the aforementioned plan, participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in that plan. For the active participants, retirees and pensioners of the defined benefit plan, in extinction, the present value of the actuarial obligations of the plan is completely secured by collateral assets.

Bradesco sponsors supplemental defined benefit pension plans and of defined contribution, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão – Capof, especially for employees originating from Banco BEM S.A.

Bradesco sponsors the defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará – Cabec, especially for employees originating from Banco BEC S.A.

Expenses related to contributions made in the period of 2015 totaled – R\$330,196 thousand (R\$349,209 thousand in 2014).

In addition to this benefit, Bradesco offers other benefits to their employees and administrators, including health insurance, dental care, life and personal accident insurance, and professional training. These expenses, including the aforementioned contributions, totaled – R\$1,906,150 thousand in the period of 2015

(R\$1,748.955 thousand in 2014).

31) OTHER INFORMATION

a) As part of the convergence process with international accounting standards, the Brazilian Accounting Pronouncements Committee (CPC) issued several accounting pronouncements, as well as their interpretations and guidelines, which are applicable to financial institutions only after approval by CMN. The accounting standards which have been approved by CMN include the following:

- Resolution No. 3,566/08 – Impairment of Assets (CPC 01);
- Resolution No. 3,604/08 – Statement of Cash Flows (CPC 03);
- Resolution No. 3,750/09 – Related Party Disclosures (CPC 05);
- Resolution No. 3,823/09 – Provisions, Contingent Liabilities and Contingent Assets (CPC 25);
- Resolution No. 3,973/11 – Subsequent Event (CPC 24);
- Resolution No. 3,989/11 – Share-based Payment (CPC 10);
- Resolution No. 4,007/11 – Accounting Policies, Changes in Estimates and Error Correction (CPC 23);
- Resolution No. 4,144/12 – Conceptual Framework for Preparing and Presenting Financial Statements; and
- Resolution No. 4,424/15 – Employee Benefits (CPC 33 – shall take effect as from January 2016).

Bradesco

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Notes to the Individual Financial Statements

Presently, it is not possible to estimate when the CMN will approve the other CPC pronouncements or if they will be applied prospectively or retrospectively.

CMN Resolution No. 3,786/09 and Bacen Circular Letters No. 3,472/09 and No. 3,516/10 establish that financial institutions and other entities authorized by Bacen to operate, which are publicly-held companies or which are required to establish an Audit Committee shall, since December 31, 2010, annually prepare and publish in up to 90 days after the reference date of December 31 their consolidated financial statements, prepared under the International Financial Reporting Standards (IFRS), in compliance with international standards issued by the International Accounting Standards Board (IASB).

As required by CMN Resolution, on March 31, 2015, Bradesco published its consolidated financial statements for December 31, 2013 and 2014 on its website, in accordance with IFRS standards. The net profit and shareholders' equity of the financial statements disclosed in IFRS were not substantially different from those presented in the financial statements prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen). As there were no substantial differences between the two sets of financial statements (GAAPs) in the year ended December 31, 2014, Management expects that the net profit and shareholders' equity for the period of nine months ended September 30, 2015, will also not be materially different in the two GAAPs.

b) On August 3, 2015, Bradesco informed the market that it had signed the Purchase and Sale of Shares Agreement with HSBC Latin America Holdings Limited for the acquisition of 100% of the share capital of HSBC Bank Brasil S.A. - Banco Múltiplo and HSBC Serviços e Participações Ltda. ("HSBC"), for the value of US\$5.2 billion. The price shall be adjusted by the equity variation of HSBC as per 12.31.2014 and will be paid on the date of completion of the operation, which is subject to the approval of the competent regulatory authorities and compliance with the legal formalities. With the acquisition, Bradesco will assume all operations of HSBC in Brazil, including retail, insurance and asset management, as well as all the branches and clients.

c) There were no subsequent events that need to be adjusted or disclosed for the individual financial statements as of September 30, 2015.

Individual Financial Statements, Independent Auditors' Report and Fiscal Council's Report

Independent Auditors' Report on the Interim Financial Information

To the Board of Directors and Shareholders of

Banco Bradesco S.A.

Osasco - SP

Introduction

We have reviewed the statement of financial position of Banco Bradesco S.A. ("Bradesco") as at September 30, 2015 and the related statements of income, changes in shareholders' equity and cash flows for nine-month period then ended, as well as the summary of significant accounting policies and other explanatory notes ("the interim financial information").

Management is responsible for the preparation and fair presentation of this interim financial information in accordance with accounting practices adopted in Brazil, applicable to financial institutions authorized to operate by the Central Bank of Brazil. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review of Interim Financial Information (NBC TR 2410 - *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of

the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Therefore, we do not express an audit opinion.

Conclusion

Based on our review, we are not aware of any facts that would lead us to believe that the interim financial information mentioned above were not prepared, in all material aspects, in accordance with accounting practices adopted in Brazil applicable to financial institutions authorized to operate by the Central Bank of Brazil.

Other matters

Interim statement of value added

We also reviewed the interim statement of value added (DVA) for nine-month period ended as at September 30, 2015, which was prepared under Bradesco's Management responsibility and which presentation is required under the rules issued by the Securities and Exchange Commission of Brazil (CVM). This statement was subject to the same review procedures described above and based on our review, we are not aware of any facts that would lead us to believe it was not prepared, in all material respects, consistently with the interim financial information.
