UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 0-15057

P.A.M. TRANSPORTATION SERVICES, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

71-0633135
(I.R.S. Employer Identification no.)

297 West Henri De Tonti, Tontitown, Arkansas 72770

Edgar Filing: PAM TRANSPORTATION SERVICES INC - Form 10-Q

(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (479) 361-9111

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to the filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Edgar Filing: PAM TRANSPORTATION SERVICES INC - Form 10-Q

| Class | Outstanding at October 25, 2017 |
|-------------------------------|---------------------------------|

P.A.M. TRANSPORTATION SERVICES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (unaudited)

September 30, 2017

NOTE A: BASIS OF PRESENTATION

Unless the context otherwise requires, all references in this Quarterly Report on Form 10-Q to “P.A.M.,” the “Company,” “we,” “our,” or “us” mean P.A.M. Transportation Services, Inc. and its subsidiaries.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In management’s opinion, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation have been included. The consolidated balance sheet at December 31, 2016 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Operating results for the nine-month period ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. For further information, refer to the consolidated financial statements and the footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2016.

NOTE B: RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board, (“FASB”), issued Accounting Standards Update, (“ASU”) No. 2014-09, (“ASU 2014-09”), *Revenue from Contracts with Customers*. The objective of ASU 2014-09 and subsequent amendments is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle of ASU 2014-09 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the new guidance, an entity will (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the contract’s performance obligations; and (5) recognize revenue when (or as) the entity satisfies a performance obligation. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB Accounting Standards Codification, (“ASC”). The new guidance, as amended, is effective for annual reporting periods (including interim periods within those periods) beginning after December 15, 2017 for public companies. Early adoption is not permitted prior to annual periods beginning after

December 31, 2016. Entities have the option of using either a full retrospective or modified approach to adopt ASU 2014-09.

The Company has performed an analysis of the effects of adopting this guidance. The analysis included the following items:

- identifying what constitutes a contract within the Company's business practices,
- identifying performance obligations within our contracts,
- determining transaction prices,
- allocating the transaction price to performance obligations,
- determination of when performance obligations are satisfied and revenue is earned,
- disaggregation of revenue by source within segments, and
- principal versus agent considerations.

Based upon our evaluation, the adoption of ASU No. 2014-09 and subsequent amendments will result in additional note disclosures regarding the nature of the Company's contracts with customers and the Company's significant judgments regarding the application of these standards. However, the adoption of this guidance is not expected to have a significant impact on the Company's financial condition, results of operations, or cash flows.

In January 2016, the FASB issued ASU 2016-01, ("ASU 2016-01"), *Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. The updated guidance enhances the reporting model for financial instruments, which includes amendments to address aspects of recognition, measurement, presentation and disclosure. ASU 2016-01 is effective for annual and interim periods beginning after December 15, 2017. With certain exceptions, early adoption is not permitted.

Table of Contents

The Company has performed a preliminary analysis of the effects of adopting this guidance. This analysis consisted of the following items:

categorize securities as either equity securities or debt securities,
determine which securities held by the Company have readily determinable fair values,
determine that the exit price notion will be used when measuring the fair value of financial instruments for disclosure purposes,
consider the need for a valuation allowance related to a deferred tax asset on available-for-sale securities in combination with the Company's other deferred tax assets.

Based upon this evaluation, the adoption of this guidance is not expected to have a significant impact on the Company's financial condition or cash flows, but it is expected to have a significant impact on the Company's results of operations through the recognition of changes in market value each reporting period rather than recognizing them through comprehensive income.

In February 2016, the FASB issued ASU No. 2016-02, ("ASU 2016-02"), *Leases (Topic 842)*. This update seeks to increase the transparency and comparability among entities by requiring public entities to recognize lease assets and lease liabilities on the balance sheet and disclose key information about leasing arrangements. To satisfy the standard's objective, a lessee will recognize a right-of-use asset representing its right to use the underlying asset for the lease term and a lease liability for the obligation to make lease payments. Both the right-of-use asset and lease liability will initially be measured at the present value of the lease payments, with subsequent measurement dependent on the classification of the lease as either a finance or an operating lease. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election by class of underlying asset to not recognize lease assets and lease liabilities. If a lessee makes this election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. Accounting by lessors will remain mostly unchanged from current U.S. GAAP.

In transition, lessees and lessors will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The modified retrospective approach includes a number of optional practical expedients that companies may elect to apply. These practical expedients relate to the identification and classification of leases that commenced before the effective date, initial direct costs for leases that commenced before the effective date, and the ability to use hindsight in evaluating lessee options to extend or terminate a lease or to purchase the underlying asset. The transition guidance also provides specific guidance for sale and leaseback transactions, build-to-suit leases, leveraged leases, and amounts previously recognized in accordance with the business combinations guidance for leases. The new standard is effective for public companies for annual periods beginning after December 15, 2018, and interim periods within those years, with early adoption permitted. The Company has evaluated the new guidance and does not expect it to have a material impact on its financial condition, results of operations, or cash flows since the Company's current leases will expire prior to the effective date of this guidance.

In March 2016, the FASB issued ASU No. 2016-09, (“ASU 2016-09”), *Compensation – Stock Compensation (Topic 718)*. ASU 2016-09 identifies areas for simplification involving several aspects of accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liability, an option to recognize gross stock compensation expense with actual forfeitures recognized as they occur, as well as certain classifications on the statement of cash flows. ASU 2016-09 is effective for annual and interim periods beginning after December 15, 2017, with early adoption permitted. The adoption of this guidance on January 1, 2017, did not have a significant impact on the Company’s financial condition, results of operations, or cash flows.

In June 2016, the FASB issued ASU No. 2016-13, (“ASU 2016-13”), *Accounting for Credit Losses (Topic 326)*. ASU 2016-13 requires the use of an “expected loss” model on certain types of financial instruments. The standard also amends the impairment model for available-for-sale debt securities and requires estimated credit losses to be recorded as allowances instead of reductions to amortized cost of the securities. ASU 2016-13 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2019, with early adoption permitted. The Company is evaluating the new guidance, but does not expect it to have a material impact on its financial condition, results of operations, or cash flows.

In August 2016, the FASB issued ASU No. 2016-15, (“ASU 2016-15”), *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 amends the guidance in ASC 230, Statement of Cash Flows, and clarifies how entities should classify certain cash receipts and cash payments on the statement of cash flows with the objective of reducing the existing diversity in practice related to eight specific cash flow issues. The amendments in this update are effective for annual periods beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. The Company has evaluated the effects of adopting ASU 2016-15 and does not expect it to have a material impact on its financial condition, results of operations, or cash flows.

Table of Contents

In November 2016, the FASB issued ASU No. 2016-18, (“ASU 2016-18”), *Statement of Cash Flows (Topic 230)*. ASU 2016-18 requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. This standard is intended to reduce diversity in practice in how restricted cash or restricted cash equivalents are presented and classified in the statement of cash flows. ASU No. 2016-18 is effective for fiscal years and interim periods, beginning after December 15, 2017, with early adoption permitted. The standard requires application using a retrospective transition method. The adoption of ASU No. 2016-18 will change the presentation and classification of restricted cash and restricted cash equivalents in our consolidated statements of cash flows but is not expected to have a material impact on our financial condition, results of operations, or cash flows.

In May 2017, the FASB issued ASU No. 2017-09, (“ASU 2017-09”), *Compensation – Stock Compensation (Topic 718)* which provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. ASU 2017-09 is effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years, and early adoption is permitted, including in an interim period. ASU 2017-09 is to be applied on a prospective basis to an award modified on or after the adoption date. The Company has evaluated the effects of adopting ASU 2017-09 and does not expect it to have a material impact on its financial condition, results of operations, or cash flows.

With the exception of the new standards discussed above, there have been no recent accounting pronouncements or changes in accounting pronouncements during the nine months ended September 30, 2017, as compared to the recent accounting pronouncements described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, that are of significance or potential significance to the Company.

NOTE C: MARKETABLE EQUITY SECURITIES

The Company accounts for its marketable securities in accordance with ASC Topic 320, (“ASC Topic 320”), *Investments-Debt and Equity Securities*. ASC Topic 320 requires companies to classify their investments as trading, available-for-sale, or held-to-maturity. The Company’s investments in marketable securities are classified as available-for-sale and consist of equity securities. Management determines the appropriate classification of these securities at the time of purchase and re-evaluates such designation as of each balance sheet date. There were no reclassifications of marketable securities between trading and available-for-sale categories during the first nine months of 2017 or 2016. The cost of securities sold is based on the specific identification method, and interest and dividends on securities are included in non-operating income (expense).

Marketable equity securities are carried at fair value, with the unrealized gains and losses, net of tax, included as a component of accumulated other comprehensive income in shareholders’ equity. Realized gains and losses and declines in value judged to be other-than-temporary on available-for-sale securities, if any, are included in the determination of net income. A quarterly evaluation is performed in order to judge whether declines in value below cost should be considered temporary and when losses are deemed to be other-than-temporary. Several factors are considered in this evaluation process including the severity and duration of the decline in value, the financial

condition and near-term outlook for the specific issuer and the Company's ability to hold the securities.

For the quarter ended September 30, 2017, the evaluation resulted in an impairment charge of approximately \$15,000 in the Company's non-operating income (expense) in its statement of operations. For the quarter ended September 30, 2016, the evaluation resulted in an impairment charge of approximately \$176,000 in the Company's non-operating income (expense) in its statement of operations.

For the nine-month period ended September 30, 2017, the evaluation resulted in an impairment charge of approximately \$42,000 in the Company's non-operating income (expense) in its statement of operations. For the nine-month period ended September 30, 2016, the evaluation resulted in an impairment charge of approximately \$709,000 in the Company's non-operating income (expense) in its statement of operations.

The following table sets forth market value, cost, and unrealized gains on equity securities as of September 30, 2017 and December 31, 2016.

| | September 30, 2017 | December 31, 2016 |
|-------------------|--------------------------|----------------------|
| | (in thousands) | |
| Fair market value | \$24,994 | \$ 27,621 |
| Cost | 16,175 | 15,569 |
| Unrealized gain | \$8,819 | \$ 12,052 |

Table of Contents

The following table sets forth the gross unrealized gains and losses on the Company's marketable securities as of September 30, 2017 and December 31, 2016.

| | September 30, 2017 | December 31, 2016 |
|-------------------------|--------------------------|----------------------|
| | (in thousands) | |
| Gross unrealized gains | \$9,062 | \$ 12,161 |
| Gross unrealized losses | 243 | 109 |
| Net unrealized gains | \$8,819 | \$ 12,052 |

As of September 30, 2017 and December 31, 2016, the total net unrealized gain, net of deferred income taxes, in accumulated other comprehensive income was approximately \$5,471,000 and \$7,476,000, respectively.

For the nine months ended September 30, 2017, the Company had net unrealized losses in market value on its marketable equity securities of approximately \$2,005,000, net of deferred income taxes. For the year ended December 31, 2016, the Company had net unrealized losses in market value on securities classified as available-for-sale of approximately \$2,166,000, net of deferred income taxes.

At September 30, 2017, the Company's investments' approximate fair value of securities in a loss position and related gross unrealized losses were \$2,414,000 and \$243,000, respectively. At December 31, 2016, the Company's investments' approximate fair value of securities in a loss position and related gross unrealized losses were \$1,340,000 and \$109,000, respectively. As of September 30, 2017 and December 31, 2016, there were no investments that had been in a continuous unrealized loss position for twelve months or longer.

The following table shows the Company's net realized gains during the first nine months of 2017 and 2016 on certain marketable equity securities.

| Three Months Ended September 30, 2017 | September 30, 2016 | Nine Months Ended September 30, 2017 | September 30, 2016 |
|--|-----------------------|---|-----------------------|
|--|-----------------------|---|-----------------------|

Edgar Filing: PAM TRANSPORTATION SERVICES INC - Form 10-Q

| | (in thousands, except per share data) | | | |
|-----------------------------|---------------------------------------|---------|---------|---------|
| Sales proceeds | \$2,928 | \$1,271 | \$6,007 | \$1,550 |
| Cost of securities sold | 405 | 178 | 1,338 | 547 |
| Realized gain | \$2,523 | \$1,093 | \$4,669 | \$1,003 |
| Realized gain, net of taxes | \$1,546 | \$676 | \$2,862 | \$621 |

For the quarter ended September 30, 2017, the Company recognized dividends of approximately \$225,000 in non-operating income in its statements of operations. For the quarter ended September 30, 2016, the Company recognized dividends of approximately \$279,000 in non-operating income in its statements of operations.

For the nine months ended September 30, 2017, the Company recognized dividends of approximately \$718,000 in non-operating income in its statements of operations. For the nine months ended September 30, 2016, the Company recognized dividends of approximately \$781,000 in non-operating income in its statements of operations.

The market value of the Company's equity securities are periodically used as collateral against any outstanding margin account borrowings. As of September 30, 2017 and December 31, 2016, the Company had outstanding borrowings of approximately \$5,707,000 and \$10,358,000, respectively, under its margin account. Margin account borrowings are used for the purchase of marketable equity securities and as a source of short-term liquidity and are included in Accrued expenses and other liabilities on our balance sheets.

NOTE D: STOCK BASED COMPENSATION

The Company maintains a stock incentive plan under which incentive and nonqualified stock options and other stock awards may be granted. On March 2, 2006, the Company's Board of Directors (the "Board") adopted, and shareholders later approved, the 2006 Stock Option Plan (the "2006 Plan"). Under the 2006 Plan, 750,000 shares were reserved for the issuance of stock options to directors, officers, key employees, and others. The option exercise price under the 2006 Plan is the fair market value of the stock on the date the option is granted. The fair market value is determined by the average of the highest and lowest sales prices for a share of the Company's common stock, on its primary exchange, on the same date that the option is granted. On March 13, 2014, the Board adopted, and on May 29, 2014 our shareholders approved, the 2014 Amended and Restated Stock Option and Incentive Plan (the "2014 Plan") which replaced the 2006 Plan. The shares which remained reserved under the 2006 Plan were carried over to the 2014 Plan and are reserved for the issuance of stock awards to directors, officers, key employees, and others. The stock option exercise price and the restricted stock purchase price under the 2014 Plan shall not be less than 85% of the fair market value of the Company's common stock on the date the award is granted. The fair market value is determined by the closing price of the Company's common stock, on its primary exchange, on the same date that the option or award is granted.

Table of Contents

Outstanding nonqualified stock options at September 30, 2017, must be exercised within either five or ten years from the date of grant. Outstanding nonqualified stock options granted to members of the Board vested immediately while outstanding nonqualified stock options issued to employees vest in increments of 20% to 33% each year.

During the first nine months of 2017, 4,298 shares of common stock were granted to non-employee directors under the 2014 Plan and 100,000 shares of common stock were granted to the Company's Chief Executive Officer. The stock awarded to non-employee directors had a grant date fair value of \$16.29 per share, based on the closing price of the Company's stock on the date of grant, and vested immediately. The stock awarded to the Chief Executive Officer had a grant date fair value of \$16.38 per share, based on the closing price of the Company's stock on the date of grant, with 33% of the award vesting on each anniversary of the date of grant for the next three years.

The total grant date fair value of stock and stock options vested during the first nine months of 2017 was approximately \$186,000. Total pre-tax stock-based compensation expense, recognized in Salaries, wages and benefits during the first nine months of 2017 was approximately \$446,000 and includes approximately \$70,000 recognized as a result of the grant of 614 shares to each non-employee director during the first quarter of 2017. The recognition of stock-based compensation expense decreased both diluted and basic earnings per common share by approximately \$0.02 during the third quarter of 2017. The recognition of stock-based compensation expense decreased both diluted and basic earnings per common share by approximately \$0.05 during the nine months ended September 30, 2017. As of September 30, 2017, the Company had stock-based compensation plans with total unvested stock-based compensation expense of approximately \$1,501,000 which is being amortized on a straight-line basis over the remaining vesting period. As a result, the Company expects to recognize approximately \$168,000 in additional compensation expense related to unvested option awards during the remainder of 2017 and to recognize approximately \$644,000, \$552,000, and \$137,000 in additional compensation expense related to unvested option awards during the years 2018, 2019, and 2020, respectively.

The total grant date fair value of stock and stock options vested during the first nine months of 2016 was approximately \$202,000. Total pre-tax stock-based compensation expense, recognized in Salaries, wages and benefits during the third quarter of 2016 was approximately \$56,000. Total pre-tax stock-based compensation expense, recognized in Salaries, wages and benefits during the first nine months of 2016 was approximately \$251,000 and includes approximately \$70,000 recognized as a result of the grant of 325 shares to each non-employee director during the first quarter of 2016. The recognition of stock-based compensation expense decreased basic earnings per common share by approximately \$0.01 during the third quarter ended September 30, 2016. The recognition of stock-based compensation expense decreased diluted and basic earnings per common share by approximately \$0.02 and \$0.03, respectively, during the nine months ended September 30, 2016. As of September 30, 2016, the Company had stock-based compensation plans with total unvested stock-based compensation expense of approximately \$290,000 which is being amortized on a straight-line basis over the remaining vesting period.

Information related to stock option activity for the nine months ended September 30, 2017 is as follows:

| | Shares | Weighted- Average Exercise Price (per share) | Weighted- Average Remaining Contractual Term (in years) | Aggregate Intrinsic Value* |
|-----------------------------------|----------|--|--|----------------------------------|
| Outstanding-January 1, 2017 | 56,131 | \$ 10.85 | | |
| Granted | - | - | | |
| Exercised | (11,000) | 11.13 | | |
| Cancelled/forfeited/expired | - | - | | |
| Outstanding at September 30, 2017 | 45,131 | \$ 10.79 | 3.1 | \$ 593,187 |
| Exercisable at September 30, 2017 | 45,131 | \$ 10.79 | 3.1 | \$ 593,187 |

* The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option. The per share market value of our common stock, as determined by the closing price on September 29, 2017, was \$23.93.

Table of Contents

A summary of the status of the Company's non-vested options and restricted stock as of September 30, 2017 and changes during the nine months ended September 30, 2017, is as follows:

| | Stock Options | | Restricted Stock | |
|----------------------------------|-------------------|--|------------------|---|
| | Number of Options | Weighted-Average Grant Date Fair Value | Number of Shares | Weighted-Average Grant Date Fair Value* |
| Non-vested at January 1, 2017 | 12,800 | \$ 6.06 | 7,050 | \$ 36.35 |
| Granted | - | - | 104,298 | 16.38 |
| Canceled/forfeited/expired | - | - | - | - |
| Vested | (12,800) | 6.06 | (5,548) | 19.56 |
| Non-vested at September 30, 2017 | - | \$ - | 105,800 | \$ 17.54 |

* The weighted-average grant date fair value was based on the closing price of the Company's stock on the date of the grant.

The number, weighted average exercise price, and weighted average remaining contractual life of options outstanding as of September 30, 2017 and the number and weighted average exercise price of options exercisable as of September 30, 2017 are as follows:

| Exercise Price | Shares Under Outstanding | Weighted-Average Remaining Contractual Term (in years) | Shares Under Exercisable |
|----------------|--------------------------|--|--------------------------|
| | Options | Options | Options |
| \$ 10.44 | 15,000 | 0.4 | 15,000 |
| \$ 10.90 | 24,600 | 4.7 | 24,600 |
| \$ 11.22 | 5,531 | 3.2 | 5,531 |
| | 45,131 | 3.1 | 45,131 |

Cash received from option exercises totaled approximately \$122,000 and \$74,000 during the nine months ended September 30, 2017 and September 30, 2016, respectively. The Company issues new shares upon option exercise.

NOTE E: SEGMENT INFORMATION

The Company follows the guidance provided by ASC Topic 280, *Segment Reporting*, in its identification of operating segments. The Company has determined that it has a total of two operating segments whose primary operations can be characterized as either Truckload Services or Brokerage and Logistics Services; however, in accordance with the aggregation criteria provided by FASB ASC Topic 280, the Company has determined that the operations of the two operating segments can be aggregated into a single reporting segment, motor carrier operations. Truckload Services revenues and Brokerage and Logistics Services revenues, each before fuel surcharges, were as follows:

| | Three Months Ended September 30, | | | | Nine Months Ended September 30, | | | |
|--|--|-------|----------|-------|---------------------------------|-------|-----------|-------|
| | 2017 | | 2016 | | 2017 | | 2016 | |
| | Amount | % | Amount | % | Amount | % | Amount | % |
| | (in thousands, except percentage data) | | | | | | | |
| Truckload Services revenue | \$79,736 | 85.3 | \$85,286 | 88.9 | \$244,311 | 87.2 | \$254,262 | 88.1 |
| Brokerage and Logistics Services revenue | 13,721 | 14.7 | 10,640 | 11.1 | 35,846 | 12.8 | 34,234 | 11.9 |
| Total revenues | \$93,457 | 100.0 | \$95,926 | 100.0 | \$280,157 | 100.0 | \$288,496 | 100.0 |

NOTE F: TREASURY STOCK

The Company's stock repurchase program has been extended and expanded several times, most recently in April 2017, when the Board of Directors reauthorized 500,000 shares of common stock for repurchase under the initial September 2011 authorization. During the nine months ended September 30, 2017, the Company repurchased 110,316 shares of its common stock at an aggregate cost of approximately \$1,961,000 under this program.

The Company accounts for Treasury stock using the cost method and as of September 30, 2017, 5,224,376 shares were held in the treasury at an aggregate cost of approximately \$124,796,000.

Table of Contents**NOTE G: ACCUMULATED OTHER COMPREHENSIVE INCOME**

The following table summarizes the changes in accumulated balances of other comprehensive income for the three and nine months ended September 30, 2017:

| | Unrealized gains and losses on available- for-sale securities (in thousands) |
|---|---|
| Balance at June 30, 2017, net of tax of \$3,851 | \$ 6,290 |
| Other comprehensive income before reclassifications, net of tax of \$266 | 437 |
| Amounts reclassified from accumulated other comprehensive income, net of tax of \$(768) | (1,256) |
| Net current-period other comprehensive income | (819) |
| Balance at September 30, 2017, net of tax of \$3,349 | \$ 5,471 |
| Balance at December 31, 2016, net of tax of \$4,576 | \$ 7,476 |
| Other comprehensive income before reclassifications, net of tax benefit of \$169 | 277 |
| Amounts reclassified from accumulated other comprehensive income, net of tax of \$(1,396) | (2,282) |
| Net current-period other comprehensive income | (2,005) |
| Balance at September 30, 2017, net of tax of \$3,349 | \$ 5,471 |

The following table provides details about reclassifications out of accumulated other comprehensive income for the nine months ended September 30, 2017:

| |
|--|
| Amounts Reclassified from Accumulated |
|--|

| Details about Accumulated Other Comprehensive Income Component | Other Comprehensive Income (a) Nine Months Ended | | Statement of Operations Classification |
|--|--|--|--|
| | September 30, 2017 (in thousands) | | |
| Unrealized gains and losses on available-for-sale securities: | | | |
| Prior period unrealized gain (loss) on securities sold | \$ 3,720 | | Non-operating income (expense) |
| Impairment expense | (42) | |)Non-operating income (expense) |
| Total before tax | 3,678 | | Income before income taxes |
| Tax expense | (1,396) | |)Income tax expense |
| Total after tax | \$ 2,282 | | Net income |

(a) Amounts in parentheses indicate debits to profit/loss

NOTE H: EARNINGS PER SHARE

Basic earnings per share is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed by adjusting the weighted average number of shares of common stock outstanding by common stock equivalents attributable to dilutive stock options. The computation of diluted earnings per share does not assume conversion, exercise, or contingent issuance of securities that would have an anti-dilutive effect on earnings per share. The computations of basic and diluted earnings per share were as follows:

| | Three Months Ended | | Nine Months Ended | |
|--|---------------------------------------|--------------------|--------------------|--------------------|
| | September 30, 2017 | September 30, 2016 | September 30, 2017 | September 30, 2016 |
| | (in thousands, except per share data) | | | |
| Net income | \$3,446 | \$3,451 | \$7,338 | \$10,378 |
| Basic weighted average common shares outstanding | 6,326 | 6,439 | 6,368 | 6,703 |
| Dilutive effect of common stock equivalents | 47 | 19 | 45 | 22 |
| Diluted weighted average common shares outstanding | 6,373 | 6,458 | 6,413 | 6,725 |
| Basic earnings per share | \$0.54 | \$0.54 | \$1.15 | \$1.55 |
| Diluted earnings per share | \$0.54 | \$0.53 | \$1.14 | \$1.54 |

As of September 30, 2017 and September 30, 2016, there were no options outstanding to purchase shares of common stock that had an anti-dilutive effect on the computation of diluted earnings per share.

Table of Contents

NOTE I: INCOME TAXES

The Company and its subsidiaries are subject to U.S. and Canadian federal income tax laws as well as the income tax laws of multiple state jurisdictions. The major tax jurisdictions in which the Company operates generally provide for a deficiency assessment statute of limitation period of three years, and as a result, the Company's tax years 2013 and forward remain open to examination in those jurisdictions.

In determining whether a tax asset valuation allowance is necessary, management, in accordance with the provisions of ASC 740-10-30, weighs all available evidence, both positive and negative, to determine whether, based on the weight of that evidence, a valuation allowance is necessary. If negative conditions exist which indicate a valuation allowance might be necessary, consideration is then given to what effect the future reversals of existing taxable temporary differences and the availability of tax strategies might have on future taxable income to determine the amount, if any, of the required valuation allowance. As of September 30, 2017, management determined that the future reversals of existing taxable temporary differences and available tax strategies would generate sufficient future taxable income to realize its tax assets and therefore a valuation allowance was not necessary.

The Company recognizes a tax benefit from an uncertain tax position only if it is more likely than not that the position will be sustained on examination by taxing authorities, based on the technical merits of the position. As of September 30, 2017, an adjustment to the Company's consolidated financial statements for uncertain tax positions has not been required as management believes that the Company's tax positions taken in income tax returns filed or to be filed are supported by clear and unambiguous income tax laws. The Company recognizes interest and penalties related to uncertain income tax positions, if any, in income tax expense. During the nine months ended September 30, 2017 and 2016, the Company has not recognized or accrued any interest or penalties related to uncertain income tax positions.

The Company's effective income tax rates were 38.6% and 38.4% for the three months ended September 30, 2017 and 2016, respectively, and 38.7% and 38.1% for the nine months ended September 30, 2017 and 2016 respectively. Our effective tax rate for the three and nine months ended September 30, 2017 differ from amounts computed by applying the United States federal statutory rates to pre-tax income primarily due to the impact of state income taxes.

NOTE J: FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, marketable equity securities, accounts receivable, trade accounts payable, and borrowings.

The Company follows the guidance for financial assets and liabilities measured on a recurring basis. This guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date and also establishes a fair value hierarchy which requires an entity to maximize

the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Inputs other than Level 1 inputs that are either directly or indirectly observable such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable; or other inputs not directly observable, but derived principally from, or corroborated by, observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity.

The Company utilizes the market approach to measure fair value for its financial assets and liabilities. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

At September 30, 2017, the following items are measured at fair value on a recurring basis:

| | Total | Level 1 | Level 2 | Level 3 |
|------------------------------|----------------|----------|---------|---------|
| | (in thousands) | | | |
| Marketable equity securities | \$24,994 | \$24,994 | - | - |

The Company's investments in marketable securities are recorded at fair value based on quoted market prices. The carrying value of other financial instruments, including cash, accounts receivable, accounts payable, and accrued liabilities approximate fair value due to their short maturities.

Table of Contents

The carrying amount for the line of credit approximates fair value because the line of credit interest rate is adjusted frequently.

For long-term debt other than the lines of credit, the fair values are estimated using discounted cash flow analyses, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements. The carrying value and estimated fair value of this other long-term debt at September 30, 2017 was as follows:

| | Carrying | Estimated |
|----------------|----------------|------------|
| | Value | Fair |
| | (in thousands) | Value |
| Long-term debt | \$ 147,376 | \$ 146,414 |

The Company has not elected the fair value option for any of its financial instruments.

NOTE K: NOTES PAYABLE

During the first nine months of 2017, the Company's subsidiaries entered into installment obligations totaling approximately \$17.6 million for the purpose of purchasing revenue equipment. These obligations are payable in monthly installments.

NOTE L: OFF-BALANCE SHEET ARRANGEMENTS

As of September 30, 2017, the Company's subsidiaries operated revenue equipment under various operating lease arrangements. Revenue equipment held under operating leases is not carried on our balance sheets and the respective lease payments are reflected in our statements of operations as a component of the Rent and purchased transportation category.

Rent expense related to revenue equipment under these leases was as follows:

| | |
|---------------|---------------|
| Three Months | Nine Months |
| Ended | Ended |
| September 30, | September 30, |

| | 2017 | 2016 | 2017 | 2016 |
|---|----------------|----------|----------|----------|
| | (in thousands) | | | |
| Rent expense related to revenue equipment | \$ 1,502 | \$ 2,332 | \$ 4,960 | \$ 7,401 |

Leases for revenue equipment under non-cancellable operating leases expire at various dates through 2017 and 2018. Future minimum lease payments related to non-cancellable leases for revenue equipment at September 30, 2017 are:

| | (in thousands) |
|-------------------------------------|-------------------|
| 2017 | \$ 316 |
| 2018 | 177 |
| Total future minimum lease payments | \$ 493 |

NOTE M: LITIGATION

Other than the lawsuit discussed below, the Company is not a party to any pending legal proceeding which management believes to be material to the financial statements of the Company. The Company maintains liability insurance against risks arising out of the normal course of its business.

We are a defendant in a collective-action lawsuit which was re-filed on December 9, 2016, in the United States District Court for the Western District of Arkansas. The plaintiffs, who are former drivers who worked for the Company during the period of December 6, 2013, through the date of the filing, allege violations under the Fair Labor Standards Act and the Arkansas Minimum Wage Law. The plaintiffs, through their attorneys, have filed causes of action alleging “Failure to pay minimum wage during orientation, failure to pay minimum wage to team drivers after initial orientation, failure to pay minimum wage to solo-drivers after initial orientation, failure to pay for compensable travel time, Comdata card fees, unlawful deductions, and breach of contract.” The plaintiffs are seeking actual and liquidated damages to include court costs and legal fees. The lawsuit is currently under preliminary review. We cannot reasonably estimate, at this time, the possible loss or range of loss, if any, that may arise from this lawsuit. Management has determined that any losses under this claim will not be covered by existing insurance policies.

NOTE N: SUBSEQUENT EVENTS

In October 2017, our Board of Directors authorized the repurchase of up to 400,000 shares of our common stock through a Dutch auction tender offer (the “2017 tender offer”). Subject to certain limitations and legal requirements, the Company could repurchase up to an additional 2% of its outstanding shares which totals 126,060 shares. The 2017 tender offer commenced on October 10, 2017 and expires on November 7, 2017, unless the offer is extended. Through this tender offer, the Company’s shareholders have the opportunity to tender some or all of their shares at a price within the range of \$27.00 to \$30.00 per share.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

FORWARD-LOOKING INFORMATION

Certain information included in this Quarterly Report on Form 10-Q constitutes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may relate to expected future financial and operating results or events, and are thus prospective. Such forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. Potential risks and uncertainties include, but are not limited to, excess capacity in the trucking industry; surplus inventories; recessionary economic cycles and downturns in customers' business cycles; increases or rapid fluctuations in fuel prices, interest rates, fuel taxes, tolls, license and registration fees; the resale value of the Company's used equipment and the price of new equipment; increases in compensation for and difficulty in attracting and retaining qualified drivers and owner-operators; increases in insurance premiums and deductible amounts relating to accident, cargo, workers' compensation, health, and other claims; unanticipated increases in the number or amount of claims for which the Company is self-insured; inability of the Company to continue to secure acceptable financing arrangements; seasonal factors such as harsh weather conditions that increase operating costs; competition from trucking, rail, and intermodal competitors including reductions in rates resulting from competitive bidding; the ability to identify acceptable acquisition candidates, consummate acquisitions, and integrate acquired operations; a significant reduction in or termination of the Company's trucking service by a key customer; and other factors, including risk factors, included from time to time in filings made by the Company with the Securities and Exchange Commission ("SEC"). The Company undertakes no obligation to update or clarify forward-looking statements, whether as a result of new information, future events or otherwise.

CRITICAL ACCOUNTING POLICIES

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, included in our Form 10-K for the fiscal year ended December 31, 2016.

BUSINESS OVERVIEW

The Company's administrative headquarters are in Tontitown, Arkansas. From this location we manage operations conducted through wholly-owned subsidiaries based in various locations around the United States and in Mexico and Canada. The operations of these subsidiaries can generally be classified into either truckload services or brokerage and logistics services. Truckload services include those transportation services in which we utilize company owned trucks or owner-operator owned trucks. Brokerage and logistics services consist of services such as transportation scheduling, routing, mode selection, transloading and other value added services related to the transportation of freight which may or may not involve the usage of company owned or owner-operator owned equipment. Both our truckload operations and our brokerage/logistics operations have similar economic characteristics and are impacted by virtually the same economic factors as discussed elsewhere in this report. All of the Company's operations are in the motor carrier segment.

For both operations, substantially all of our revenue is generated by transporting freight for customers and is predominantly affected by the rates per mile received from our customers, equipment utilization, and our percentage of non-compensated miles. These aspects of our business are carefully managed and efforts are continuously underway to achieve favorable results. Truckload services revenues, excluding fuel surcharges, represented 85.3% and 88.9% of total revenues, excluding fuel surcharges, for the three months ended September 30, 2017 and 2016, respectively. Truckload services revenues, excluding fuel surcharges, represented 87.2% and 88.1% of total revenues, excluding fuel surcharges, for the nine months ended September 30, 2017 and 2016, respectively. The remaining revenues, excluding fuel surcharges, were generated from brokerage and logistics services.

The main factors that impact our profitability on the expense side are costs incurred in transporting freight for our customers. Currently, our most challenging costs include fuel, driver recruitment, training, wage and benefits costs, independent broker costs (which we record as purchased transportation), insurance, maintenance and capital equipment costs.

In discussing our results of operations, we use revenue, before fuel surcharge (and fuel expense, net of fuel surcharge), because management believes that eliminating the impact of this sometimes volatile source of revenue allows a more consistent basis for comparing our results of operations from period to period. During the three months ended September 30, 2017 and 2016, approximately \$15.4 million and \$13.5 million, respectively, of the Company's total revenue was generated from fuel surcharges. During the nine months ended September 30, 2017 and 2016, approximately \$46.8 million and \$36.0 million, respectively, of the Company's total revenue was generated from fuel surcharges. We may also discuss certain changes in our expenses as a percentage of revenue, before fuel surcharge, rather than absolute dollar changes. We do this because we believe the variable cost nature of certain expenses makes a comparison of changes in expenses as a percentage of revenue more meaningful than absolute dollar changes.

Table of Contents**RESULTS OF OPERATIONS – TRUCKLOAD SERVICES**

The following table sets forth, for truckload services, the percentage relationship of expense items to operating revenues, before fuel surcharges, for the periods indicated. Fuel costs are reported net of fuel surcharges.

| | Three Months Ended September 30, 2017 | | Nine Months Ended September 30, 2016 | |
|---|--|--------|---|--------|
| | 2017 | 2016 | 2017 | 2016 |
| | (percentages) | | | |
| Operating revenues, before fuel surcharge | 100.0 | 100.0 | 100.0 | 100.0 |
| Operating expenses: | | | | |
| Salaries, wages and benefits | 30.1 | 32.4 | 30.3 | 32.2 |
| Operating supplies and expenses | 5.1 | 9.0 | 5.1 | 10.0 |
| Rent and purchased transportation | 39.8 | 35.3 | 40.3 | 34.1 |
| Depreciation | 12.7 | 11.9 | 12.8 | 11.4 |
| Insurance and claims | 5.3 | 4.2 | 5.5 | 4.8 |
| Other | 2.8 | 2.2 | 2.6 | 2.3 |
| Loss (gain) on sale or disposal of property | 0.2 | (1.1) | 0.1 | (1.6) |
| Total operating expenses | 96.0 | 93.9 | 96.7 | 93.2 |
| Operating income | 4.0 | 6.1 | 3.3 | 6.8 |
| Non-operating income | 3.2 | 1.3 | 2.1 | 0.5 |
| Interest expense | (1.1) | (1.0) | (1.1) | (1.0) |
| Income before income taxes | 6.1 | 6.4 | 4.3 | 6.3 |

THREE MONTHS ENDED SEPTEMBER 30, 2017 VS. THREE MONTHS ENDED SEPTEMBER 30, 2016

During the third quarter of 2017, truckload services revenue, before fuel surcharges, decreased 6.5% to \$79.7 million as compared to \$85.3 million during the third quarter of 2016. The decrease in revenue was the net result of a 1% increase in our rate per total mile combined with an 8% decrease in the number of miles traveled from 60.8 million miles during the third quarter of 2016 to 56.4 million during the third quarter of 2017. The decrease in miles resulted from decreases in the number of trucks operated, equipment utilization and work days. The average number of trucks operating in the fleet decreased from 1,882 trucks during the third quarter of 2016 to 1,808 trucks during the third quarter of 2017, while the average miles traveled per truck each workday decreased from 505 miles during the third quarter of 2016 to 495 miles during the third quarter of 2017. The decreases in truck count and average daily utilization resulted in a 3.5 million decrease in the total number of miles traveled during the third quarter of 2017 compared to the third quarter of 2016. One less revenue day in the third quarter of 2017 compared to the third quarter of 2016 accounted for an approximate 0.9 million reduction in miles.

Salaries, wages and benefits decreased from 32.4% of revenues, before fuel surcharges, in the third quarter of 2016 to 30.1% of revenues, before fuel surcharges, during the third quarter of 2017. The decrease relates primarily to a decrease in company driver wages paid during the third quarter of 2017 as compared to company driver wages paid during the third quarter of 2016. Our driver pool consists of both company drivers and third-party owner operator drivers. Company drivers are employees of the Company and perform services in company-owned equipment while owner-operator drivers provide services, under contract, using their own equipment. While each group is generally compensated on a per-mile basis, owner-operator payments are classified in the Company's financial statements under Rent and purchased transportation. The decrease in Salaries, wages and benefits primarily resulted from a decrease in the proportion of total miles driven by company drivers during the third quarter of 2017 in comparison to the proportion of total miles driven by company drivers during the third quarter of 2016. This proportional decrease was the result of an increase in the average number of owner-operators under contract from 567 during the third quarter of 2016 to 648 during the third quarter of 2017. Also contributing to the decrease was a decrease in group health insurance claims expensed under the Company's self-insured health plan during the third quarter of 2017 as compared to the third quarter of 2016.

Operating supplies and expenses decreased from 9.0% of revenues, before fuel surcharges, during the third quarter of 2016 to 5.1% of revenues, before fuel surcharges, during the third quarter of 2017. The decrease relates primarily to a decrease in the average surcharge-adjusted fuel price paid per gallon of diesel fuel. The average surcharge-adjusted fuel price paid per gallon of diesel fuel decreased as a result of increased fuel surcharge collections from customers and to an increase in the number of owner-operators in our fleet from 567 during the third quarter of 2016 to 648 during the third quarter of 2017. Fuel surcharge collections can fluctuate significantly from period to period as they are generally based on changes in fuel prices from period to period so that, during periods of rising fuel prices, fuel surcharge collections increase, while fuel surcharge collections decrease during periods of falling fuel prices. Fuel surcharge revenue generated from transportation services performed by owner-operators is reflected as a reduction in net operating supplies and expenses, while fuel surcharges paid to owner-operators for their services is reported along with their base rate of pay in the Rent and purchased transportation category. These categorizations have the effect of reducing our net operating supplies and expenses while increasing the Rent and purchased transportation category, as discussed below. Also contributing to the decrease was a decrease in amounts paid for driver recruiting and driver training schools during the third quarter of 2017 as compared to amounts paid during third quarter of 2016.

Table of Contents

Rent and purchased transportation increased from 35.3% of revenues, before fuel surcharges, during the third quarter of 2016 to 39.8% of revenues, before fuel surcharges, during the third quarter of 2017. The increase was primarily due to an increase in driver lease expense as the average number of owner-operators under contract increased from 567 during the third quarter of 2016 to 648 during the third quarter of 2017. The increase in costs in this category, as it relates to the increase in owner-operators, is partially offset by a decrease in other cost categories, such as repairs and fuel, which are generally borne by the owner-operator. A decrease in amounts paid for equipment leases offset a portion of the increase from owner operators. This decrease resulted from the scheduled expiration of several leases during the third quarter of 2017. The remaining operating leases expire during the fourth quarter 2017 and the first quarter 2018.

Depreciation increased from 11.9% of revenues, before fuel surcharges, during the third quarter of 2016 to 12.7% of revenues, before fuel surcharges, during the third quarter of 2017. The percentage-based increase relates to the interaction of the fixed-cost characteristic of depreciation expense with a decrease in revenues for the periods compared.

Gains and losses on sale or disposal of property decreased from a net gain of 1.1% of revenues, before fuel surcharges, during the third quarter of 2016 to a net loss of 0.2% of revenues, before fuel surcharges, during the third quarter of 2017. The decrease relates primarily to fewer trailers being sold during the third quarter of 2017 as compared to the third quarter of 2016.

Non-operating income increased from 1.3% of revenues, before fuel surcharges, during the third quarter of 2016 to 3.2% of revenues, before fuel surcharges, during the third quarter of 2017. This increase resulted from an increase in gains on sales of marketable equity securities from \$1.1 million during the third quarter of 2016 to \$2.5 million during the third quarter of 2017.

The truckload services division operating ratio, which measures the ratio of operating expenses, net of fuel surcharges, to operating revenues, before fuel surcharges, increased from 93.9% for the third quarter of 2016 to 96.0% for the third quarter of 2017.

NINE MONTHS ENDED SEPTEMBER 30, 2017 VS. NINE MONTHS ENDED SEPTEMBER 30, 2016

For the nine months ended September 30, 2017, truckload services revenue, before fuel surcharges, decreased 3.9% to \$244.3 million as compared to \$254.3 million for the nine months ended September 30, 2016. The decrease was primarily related to a decrease in the average rate charged to customers for our services, to a decrease in the number of trucks operated, and to one less work day in the 2017 period. The average rate charged to customers per total mile during the first nine months of 2017 decreased 2.0% as compared to the average rate charged during the first nine

months of 2016. The average number of trucks operating in the fleet decreased from 1,897 trucks in the 2016 period to 1,869 trucks in the 2017 period and decreased revenue by approximately \$3.7 million during the nine months ended September 30, 2017. The loss of one business day in the first nine months of 2017 compared to the first nine months of 2016 resulted in an approximate \$1.3 million decrease in revenue.

Salaries, wages and benefits decreased from 32.2% of revenues, before fuel surcharges, in the first nine months of 2016 to 30.3% of revenues, before fuel surcharges, during the first nine months of 2017. The decrease relates primarily to a decrease in company driver wages paid during the first nine months of 2017 as compared to company driver wages paid during the first nine months of 2016. Our driver pool consists of both company drivers and third-party owner operator drivers. Company drivers are employees of the Company and perform services in company-owned equipment while owner-operator drivers provide services, under contract, using their own equipment. While each group is generally compensated on a per-mile basis, owner-operator payments are classified in the Company's financial statements under Rent and purchased transportation. The decrease in Salaries, wages and benefits primarily resulted from a decrease in the proportion of total miles driven by company drivers during the first nine months of 2017 in comparison to the proportion of total miles driven by company drivers during the first nine months of 2016. This proportional decrease was the result of an increase in the average number of owner-operators under contract from 546 during the first nine months of 2016 to 650 during the first nine months of 2017. Also contributing to the decrease was a decrease in group health insurance claims expensed under the Company's self-insured health plan during the first nine months of 2017 as compared to the first nine months of 2016.

Operating supplies and expenses decreased from 10.0% of revenues, before fuel surcharges, during the first nine months of 2016 to 5.1% of revenues, before fuel surcharges, during the first nine months of 2017. The decrease relates primarily to a decrease in the average surcharge-adjusted fuel price paid per gallon of diesel fuel. The average surcharge-adjusted fuel price paid per gallon of diesel fuel decreased as a result of increased fuel surcharge collections from customers and to an increase in the number of owner-operators in our fleet from 546 during the first nine months of 2016 to 650 during the first nine months of 2017. Fuel surcharge collections can fluctuate significantly from period to period as they are generally based on changes in fuel prices from period to period so that, during periods of rising fuel prices, fuel surcharge collections increase, while fuel surcharge collections decrease during periods of falling fuel prices. Fuel surcharge revenue generated from transportation services performed by owner-operators is reflected as a reduction in net operating supplies and expenses, while fuel surcharges paid to owner-operators for their services is reported along with their base rate of pay in the Rent and purchased transportation category. These categorizations have the effect of reducing our net operating supplies and expenses while increasing the Rent and purchased transportation category, as discussed below. Also contributing to the decrease was a decrease in amounts paid for driver recruiting and driver training schools during the first nine months of 2017 as compared to amounts paid during first nine months of 2016.

Table of Contents

Rent and purchased transportation increased from 34.1% of revenues, before fuel surcharges, during the first nine months of 2016 to 40.3% of revenues, before fuel surcharges, during the first nine months of 2017. The increase was primarily due to an increase in driver lease expense as the average number of owner-operators under contract increased from 546 during the first nine months of 2016 to 650 during the first nine months of 2017. The increase in costs in this category, as it relates to the increase in owner-operators, is partially offset by a decrease in other cost categories, such as repairs and fuel, which are generally borne by the owner-operator. A decrease in amounts paid for equipment leases offset a portion of the increase from owner operators. This decrease resulted from the scheduled expiration of several leases during the first nine months of 2017. The remaining operating leases expire during the fourth quarter 2017 and the first quarter 2018.

Depreciation increased from 11.4% of revenues, before fuel surcharges, during the first nine months of 2016 to 12.8% of revenues, before fuel surcharges, during the first nine months of 2017. The increase relates primarily to a change in the estimated residual values of certain equipment and to an increase in equipment purchase costs. During the third quarter of 2016, the Company reduced the expected residual values of certain groups of trucks due to a prolonged depressed used truck market. The reduction in expected residual values resulted in additional depreciation expense of approximately \$2.0 million during the first nine months of 2017. The Company's replacement cycle for trucks is between three and five years and its replacement cycle for trailers is seven years. The cost of new trucks and trailers has increased significantly over the previous three to seven-year replacement cycles. Depreciating higher cost equipment over the same length of time will result in an increase in depreciation expense during the respective period.

Gains and losses on sale or disposal of property decreased from a net gain of 1.6% of revenues, before fuel surcharges, during the first nine months of 2016 to a net loss of 0.1% of revenues, before fuel surcharges, during the first nine months of 2017. The decrease relates primarily to fewer trailers being sold during the first nine months of 2017 as compared to the first nine months of 2016.

Non-operating income increased from 0.5% of revenues, before fuel surcharges, during the first nine months of 2016 to 2.1% of revenues, before fuel surcharges, during the first nine months of 2017. This increase resulted from an increase in gains on sales of marketable equity securities from \$1.0 million during the first nine months of 2016 to \$4.7 million during the first nine months of 2017.

The truckload services division operating ratio, which measures the ratio of operating expenses, net of fuel surcharges, to operating revenues, before fuel surcharges, increased from 93.2% for the first nine months of 2016 to 96.7% for the first nine months of 2017.

RESULTS OF OPERATIONS – LOGISTICS AND BROKERAGE SERVICES

The following table sets forth, for logistics and brokerage services, the percentage relationship of expense items to operating revenues, before fuel surcharges, for the periods indicated. Brokerage service operations occur specifically

in certain divisions; however, brokerage operations occur throughout the Company in similar operations having substantially similar economic characteristics.

| | Three Months Ended September 30, 2017 | | Nine Months Ended September 30, 2017 | |
|---|--|--------|---|--------|
| | 2016 | 2016 | 2016 | 2016 |
| | (percentages) | | | |
| Operating revenues, before fuel surcharge | 100.0 | 100.0 | 100.0 | 100.0 |
| Operating expenses: | | | | |
| Salaries, wages and benefits | 4.6 | 5.0 | 4.9 | 4.5 |
| Rent and purchased transportation | 90.1 | 93.4 | 90.6 | 92.2 |
| Other | 1.1 | 0.6 | 1.0 | 0.6 |
| Total operating expenses | 95.8 | 99.0 | 96.5 | 97.3 |
| Operating income | 4.2 | 1.0 | 3.5 | 2.7 |
| Non-operating income | 1.5 | 0.7 | 1.1 | 0.2 |
| Interest expense | (0.5) | (0.5) | (0.6) | (0.5) |
| Income before income taxes | 5.2 | 1.2 | 4.0 | 2.4 |

THREE MONTHS ENDED SEPTEMBER 30, 2017 VS. THREE MONTHS ENDED SEPTEMBER 30, 2016

During the third quarter of 2017, logistics and brokerage services revenue, before fuel surcharges, increased 28.9% to \$13.7 million as compared to \$10.6 million during the third quarter of 2016. The increase relates to an increase in our average rates charged and to an increase in the average length of haul for brokered loads during the third quarter of 2017 as compared to the third quarter of 2016.

Table of Contents

Salaries, wages and benefits decreased from 5.0% of revenues, before fuel surcharges, in the third quarter of 2016 to 4.6% of revenues, before fuel surcharges, during the third quarter of 2017. The decrease relates primarily to an increase in brokerage revenue, partially offset by an increase in the amount paid to employees assigned to the logistics and brokerage division during the third quarter of 2017 as compared to the third quarter of 2016. To a lesser extent, the percentage-based decrease relates to the interaction of expenses with fixed-cost characteristics, such as general and administrative wages, operations wages, and payroll taxes with an increase in revenues for the periods compared.

Rents and purchased transportation decreased from 93.4% of revenues, before fuel surcharges, during the third quarter of 2016 to 90.1% of revenues, before fuel surcharges, during the third quarter of 2017. The decrease results from paying third party carriers a smaller percentage of customer revenue.

The logistics and brokerage services division operating ratio, which measures the ratio of operating expenses, net of fuel surcharges, to operating revenues, before fuel surcharges, improved from 99.0% for the third quarter of 2016 to 95.8% for the third quarter of 2017.

NINE MONTHS ENDED SEPTEMBER 30, 2017 VS. NINE MONTHS ENDED SEPTEMBER 30, 2016

During the first nine months of 2017, logistics and brokerage services revenue, before fuel surcharges, increased 4.7% to \$35.8 million as compared to \$34.2 million during the first nine months of 2016. The increase relates to an increase in our average rates charged and to an increase in the average length of haul for brokered loads during the first nine months of 2017, as compared to the first nine months of 2016.

Salaries, wages and benefits increased from 4.5% of revenues, before fuel surcharges, during the first nine months of 2016 to 4.9% of revenues, before fuel surcharges, during the first nine months of 2017. The increase relates to an increase in the number of employees assigned to the logistics and brokerage division during the first nine months of 2017 as compared to the first nine months of 2016.

Rents and purchased transportation decreased from 92.2% of revenues, before fuel surcharges, during the first nine months of 2016 to 90.6% of revenues, before fuel surcharges during the first nine months of 2017. The decrease results from paying third party carriers a smaller percentage of customer revenue.

The logistics and brokerage services division operating ratio, which measures the ratio of operating expenses, net of fuel surcharges, to operating revenues, before fuel surcharges, improved from 97.3% for the first nine months of 2016 to 96.5% for the first nine months of 2017.

RESULTS OF OPERATIONS – COMBINED SERVICES

THREE MONTHS ENDED SEPTEMBER 30, 2017 VS. THREE MONTHS ENDED SEPTEMBER 30, 2016

Net income for all divisions was approximately \$3.4 million, or 3.7% of revenues, before fuel surcharges for the third quarter of 2017 as compared to net income of \$3.5 million, or 3.6% of revenues, before fuel surcharges for the third quarter of 2016. The decrease in net income resulted in diluted earnings per share of \$0.54 for the third quarter of 2017 as compared to diluted earnings per share of \$0.53 for the third quarter of 2016.

NINE MONTHS ENDED SEPTEMBER 30, 2017 VS. NINE MONTHS ENDED SEPTEMBER 30, 2016

Net income for all divisions was approximately \$7.3 million, or 2.6% of revenues, before fuel surcharges for the first nine months of 2017 as compared to net income of \$10.4 million, or 3.6% of revenues, before fuel surcharges for the first nine months of 2016. The decrease in net income resulted in diluted earnings per share of \$1.14 for the first nine months of 2017 as compared to diluted earnings per share of \$1.54 for the first nine months of 2016.

LIQUIDITY AND CAPITAL RESOURCES

Our business has required, and will continue to require, a significant investment in new revenue equipment. Our primary sources of liquidity have been funds provided by operations, proceeds from the sales of revenue equipment, issuances of equity securities, and borrowings under our lines of credit, installment notes, and our investment margin account.

During the first nine months of 2017, we generated \$49.2 million in cash from operating activities. Investing activities used \$23.6 million in cash in the first nine months of 2017. Financing activities used \$25.5 million in cash in the first nine months of 2017.

Table of Contents

Our primary use of funds is for the purchase of revenue equipment. We typically use installment notes, our existing line of credit on an interim basis, proceeds from the sale or trade of equipment, and cash flows from operations to finance capital expenditures and repay long-term debt. During the first nine months of 2017, we utilized cash on hand, installment notes, and our lines of credit to finance purchases of revenue equipment and other assets of approximately \$38.6 million.

Occasionally, we finance the acquisition of revenue equipment through installment notes with fixed interest rates and terms ranging from 36 to 60 months. During the first nine months of 2017, the Company's subsidiary, P.A.M. Transport, Inc., entered into installment obligations totaling approximately \$17.6 million for the purpose of purchasing revenue equipment. These obligations are payable in monthly installments.

During the remainder of 2017, we expect to purchase approximately 183 new trucks and 443 new trailers while continuing to sell or trade older equipment, which we expect to result in net capital expenditures of approximately \$27.9 million. In addition, on October 10, 2017, we commenced a Dutch auction tender offer to repurchase of up to 400,000 shares of our common stock at a price within the range of \$27.00 to \$30.00 per share. Subject to certain limitations and legal requirements, we could repurchase up to an additional 2% of our outstanding shares, which totals 126,060 shares. The offer will expire on November 7, 2017, unless the offer is extended. Assuming that the maximum of 400,000 shares are tendered in the offer at the maximum purchase price of \$30.00 per share, the aggregate purchase price will be approximately \$12.0 million. Assuming that an additional amount of shares above the maximum 400,000 shares are tendered in the offer at the maximum purchase price of \$30.00 per share and we exercise our right to purchase an additional number of shares up to 2% of our outstanding shares (or approximately 126,060 additional shares), the aggregate purchase price will be approximately \$15.8 million.

Management believes we will be able to finance our near term needs for working capital over the next twelve months, as well as any planned capital expenditures during such period, with cash balances, cash flows from operations, and borrowings believed to be available from financing sources. We will continue to have significant capital requirements over the long-term, which may require us to incur debt or seek additional equity capital. The availability of additional capital will depend upon prevailing market conditions, the market price of our common stock and several other factors over which we have limited control, as well as our financial condition and results of operations. Nevertheless, based on our recent operating results, current cash position, anticipated future cash flows, and sources of financing that we expect will be available to us, we do not expect that we will experience any significant liquidity constraints in the foreseeable future.

We currently intend to retain our future earnings to finance our growth and do not anticipate paying cash dividends in the foreseeable future.

During the first nine months of 2017, we maintained a \$40.0 million revolving line of credit. Amounts outstanding under the line of credit bear interest at LIBOR (determined as of the first day of each month) plus 1.50% (2.74% at

September 30, 2017), are secured by our accounts receivable and mature on July 1, 2019. At September 30, 2017 outstanding advances on the line of credit were approximately \$1.5 million, including approximately \$0.7 million in letters of credit, with availability to borrow \$38.5 million.

Trade accounts receivable increased from \$56.1 million at December 31, 2016 to \$58.6 million at September 30, 2017. The increase relates to a general increase in freight revenues, which flows through the accounts receivable account, at the end of the third quarter of 2017 as compared to the end of the last quarter of 2016.

Other accounts receivable increased from \$5.0 million at December 31, 2016 to \$9.5 million at September 30, 2017 primarily due to the timing of proceeds received from the sale of used equipment. These proceeds are held as restricted cash, and will be used to fund future new equipment purchases.

Prepaid expenses and deposits increased from \$8.8 million at December 31, 2016 to \$9.0 million at September 30, 2017. The increase relates to the annual prepayment of insurance premiums for various policies that renew on September 1st each year. This prepayment will be amortized over the life of the insurance policies, which is generally September 2017 to August 2018. The increase in prepaid expenses was partially offset by the amortization of items that were prepaid as of December 31, 2016.

Marketable equity securities decreased from \$27.6 million at December 31, 2016 to \$25.0 million at September 30, 2017. The \$2.6 million decrease was due to the sale of marketable equity securities with a combined market value of approximately \$6.0 million, to the purchase of marketable equity securities with a combined market value of approximately \$2.0 million, and to a net increase in market value of approximately \$1.4 million during the first nine months of 2017.

Accounts payable increased by approximately \$13.6 million. The majority of the Company's insurance policies renew in September each year and there was approximately \$4.1 million accrued as of September 30, 2017 for premiums related to these renewals. There was an increase of approximately \$6.0 million for new equipment invoices as of September 30, 2017 compared to December 31, 2016. Bank overdrafts, or outstanding checks, increased by approximately \$2.9 million during the first nine months of 2017, and included approximately \$1.7 million of new equipment purchases.

Table of Contents

Long-term debt and current maturities of long term-debt are reviewed on an aggregate basis, as the classification of amounts in each category are typically affected merely by the passage of time. Long-term debt and current maturities of long-term debt, on an aggregate basis, decreased from \$167.2 million at December 31, 2016 to \$148.2 million at September 30, 2017. The decrease was primarily related to the net effect of installment note payments made during the first nine months of 2017 and additional borrowings received during the first nine months of 2017.

Treasury stock increased from \$122.8 million at December 31, 2016 to \$124.8 million at September 30, 2017. The increase relates primarily to the repurchase of 110,316 shares of the Company's common stock under its stock repurchase program during the first nine months of 2017.

NEW ACCOUNTING PRONOUNCEMENTS

See Note B to the condensed consolidated financial statements for a description of the most recent accounting pronouncements and their impact, if any, on the Company.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Our primary market risk exposures include equity price risk, interest rate risk, commodity price risk (the price paid to obtain diesel fuel for our trucks), and foreign currency exchange rate risk. The potential adverse impact of these risks and the general strategies we employ to manage such risks are discussed below.

The following sensitivity analyses do not consider the effects that an adverse change may have on the overall economy nor do they consider additional actions we may take to mitigate our exposure to such changes. Actual results of changes in prices or rates may differ materially from the hypothetical results described below.

Equity Price Risk

We hold certain actively traded marketable equity securities, which subjects the Company to fluctuations in the fair market value of its investment portfolio based on the current market price of such securities. The recorded value of marketable equity securities decreased to \$25.0 million at September 30, 2017 from \$27.6 million at December 31, 2016. A 10% decrease in the market price of our marketable equity securities would cause a corresponding 10% decrease in the carrying amounts of these securities, or approximately \$2.5 million. For additional information with respect to the marketable equity securities, see Note C to our condensed consolidated financial statements.

Interest Rate Risk

Our line of credit bears interest at a floating rate equal to LIBOR plus a fixed percentage. Accordingly, changes in LIBOR, which are affected by changes in interest rates, will affect the interest rate on, and therefore our costs under, the line of credit. Assuming \$1.0 million of variable rate debt was outstanding, a hypothetical 100 basis point increase in LIBOR for a one year period would result in approximately \$10,000 of additional interest expense.

Commodity Price Risk

Prices and availability of all petroleum products are subject to political, economic, and market factors that are generally outside of our control. Accordingly, the price and availability of diesel fuel, as well as other petroleum products, can be unpredictable. Because our operations are dependent upon diesel fuel, significant increases in diesel fuel costs could materially and adversely affect our results of operations and financial condition. Based upon our 2016 fuel consumption, a 10% increase in the average annual price per gallon of diesel fuel would increase our annual fuel expenses by \$3.9 million.

Foreign Currency Exchange Rate Risk

We are exposed to foreign currency exchange rate risk related to the activities of our branch office located in Mexico. Currently, we do not hedge our exchange rate exposure through any currency forward contracts, currency options, or currency swaps as all of our revenues, and substantially all of our expenses and capital expenditures, are transacted in U.S. dollars. However, certain operating expenditures and capital purchases related to our Mexico branch office are incurred in or exposed to fluctuations in the exchange rate between the U.S. dollar and the Mexican peso. Based on 2016 expenditures denominated in pesos, a 10% increase in the exchange rate would increase our annual operating expenses by \$52,000.

Item 4. Controls and Procedures.

Evaluation of disclosure controls and procedures. Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Table of Contents

Based on management's evaluation, our chief executive officer and chief financial officer concluded that, as of September 30, 2017, our disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in internal controls over financial reporting. We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities, and migrating processes.

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The nature of our business routinely results in litigation, primarily involving claims for personal injuries and property damage incurred in the transportation of freight. We believe that all such routine litigation is adequately covered by insurance and that adverse results in one or more of those cases would not have a material adverse effect on our financial condition.

We are a defendant in a collective-action lawsuit which was re-filed on December 9, 2016, in the United States District Court for the Western District of Arkansas. The plaintiffs, who are former drivers who worked for the Company during the period of December 6, 2013, through the date of the filing, allege violations under the Fair Labor Standards Act and the Arkansas Minimum Wage Law. The plaintiffs, through their attorneys, have filed causes of action alleging “Failure to pay minimum wage during orientation, failure to pay minimum wage to team drivers after initial orientation, failure to pay minimum wage to solo-drivers after initial orientation, failure to pay for compensable travel time, Comdata card fees, unlawful deductions, and breach of contract.” The plaintiffs are seeking actual and liquidated damages to include court costs and legal fees. The lawsuit is currently under preliminary review. We cannot reasonably estimate, at this time, the possible loss or range of loss, if any, that may arise from this lawsuit. Management has determined that any losses under this claim will not be covered by existing insurance policies.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The Company’s stock repurchase program has been extended and expanded several times, most recently in April 2017, when the Board of Directors reauthorized 500,000 shares of common stock for repurchase under the initial September 2011 authorization. Since the reauthorization, the Company has repurchased 110,316 shares of its common stock under this repurchase program.

The following table summarizes the Company’s common stock repurchases during the third quarter of 2017 made pursuant to the stock repurchase program. No shares were purchased during the quarter other than through this program, and all purchases were made by or on behalf of the Company and not by any “affiliated purchaser”.

Issuer Purchases of Equity Securities
