QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For quarterly period ended September 30, 2010

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 333-52040

INTERNATIONAL ENERGY, INC.

(Exact name of registrant as specified in its charter)

Nevada

(State or other jurisdiction of
incorporation or organization)

98-0195748

(I.R.S. Employer
Identification Number)

1200 G Street, NW, Suite 800

Washington, District of Columbia

(Address of principal executive offices)

20005

(Zip Code)

(800) 676-1006

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in 12b-2 of the Exchange Act.)

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 42,249,166 shares of common stock, par value \$0.001, were outstanding on November 1, 2010.

INTERNATIONAL ENERGY, INC.

(A Development Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2010

(Expressed in U.S. dollars)

(Unaudited)

Note 1. Organization and Description of Business

International Energy, Inc. (the Company) was incorporated under the laws of the State of Nevada on November 6, 1998, under the name e.Deal.net, Inc., with an authorized capital of 100,000,000 shares of common stock, par value of \$0.001 per share, and 1,000,000 preferred stock, par value of \$0.01. On June 20, 2005, the Company amended its Articles of Incorporation to effect a change of name to International Energy, Inc.

On June 9, 2005, the Company incorporated two wholly-owned subsidiaries; International Energy Corp. and e.Deal Enterprises Corp. Both subsidiaries are incorporated under the laws of the State of Nevada.

The Company was initially incorporated for the purpose of providing a platform for providing automotive information to, and connecting, buyers and sellers of pre-owned automobiles through the Internet. The Company was not successful in its efforts and during 2005, started winding down its online automotive business activities. In November 2006, the Company ceased providing online automotive information through e.Deal Enterprises Corp. The assets and liabilities, the results of operations, and cash flows related to e.Deal Enterprises Corp. were not classified as discontinued operations as the amounts were not significant.

Through International Energy Corp., the Company was involved in the investigation, acquisition and exploration for petroleum and natural gas in various parts of the United States and Canada. From November 2006 through August 31, 2007, the Company focused solely on petroleum and natural gas exploration. The Company acquired exploration rights under land leases located in the State of Utah. The Company's proposed exploration program was unable to

exploit these leases due to a lack of adequate drilling rigs and equipment as well as qualified personnel. The Company determined that its primary focus should remain on energy and therefore, beginning in September 2007, the Company redirected its focus from oil and gas exploration to the acquisition, development and commercialization of alternative renewable energy technologies. The assets and liabilities, the results of operations, and cash flows related to petroleum and natural gas exploration were not classified as discontinued operations as the amounts were not significant.

On September 17, 2007, the Company commenced the development and acquisition of alternative renewable energy technologies through its wholly owned subsidiary, International Energy Corp., by entering into a research agreement with The Regents of the University of California (UOC) (the UOC Research Agreement) in the area of algal biochemistry and photosynthesis aiming to develop protocols for the growth of microalgal cultures and for the generation of long chain liquid hydrocarbons. The contract was for a period of two years, ending on September 16, 2009. The Company could negotiate with UOC for a license at commercially reasonable royalty rates and license fees to commercialize the related products. The Company had the right to apply for a patent on any invention made through the research. The Company agreed to pay a total of \$238,680 to UOC for the support of the research, payable in equal installments of \$29,835 each on a quarterly basis.

The Company reviewed research outcomes from the UOC Research Agreement, which expired on September 16, 2009, and determined that it was not in the Company's best interest to advance its research and development. Accordingly, the Company did not renew the UOC Research Agreement. The Company is undertaking efforts to identify new commercial opportunities.

Note 2. Going Concern Uncertainties

The Company is a development stage company, has not generated any revenues, has an accumulated deficit of \$3,019,091 as of September 30, 2010 and does not have positive cash flows from operating activities. The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America, which contemplates continuation of the Company as a going concern, which is dependent upon the Company's ability to establish itself as a profitable business.

The Company faces all the risks common to companies that are in the development stage, including under-capitalization and uncertainty of funding sources, high initial expenditure levels, uncertain revenue streams, and difficulties in managing growth. Additionally, the Company has expended a significant amount of cash in developing its technologies. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management recognizes that in order to meet the Company's capital requirements, and continue to operate, additional financing will be necessary. The Company expects to raise additional funds through private or public equity investments in order to support existing operations and expand the range and scope of its business operations. The Company will seek access to private or public equity but there is no assurance that such additional funds will be available for the Company to finance its operations on acceptable terms, if at all. Furthermore, there is no assurance that the net proceeds received from any successful financing arrangement will be sufficient to cover cash requirements of the Company's operations. If the Company is unable to raise additional capital or generate positive cash flow, it is unlikely that the Company will be able to continue as a going concern.

The Company's consolidated financial statements do not give effect to any adjustments which will be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying consolidated financial statements.

Note 3. Presentation of Interim Information

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (of a normal recurring nature) considered necessary for a fair presentation of the financial statements have been included. Operating results for the three and six months ended September 30, 2010 are not necessarily indicative of the results that may be expected for the year ended March 31, 2011 or any other interim period. For further information, refer to the financial statements and notes thereto included in the Company's 2010 Annual Report on Form 10-K for the year ended March 31, 2010 filed with

the Securities and Exchange Commission.

Note 4. Summary of Significant Accounting Policies

Estimates

The preparation of the Company's consolidated financial statements requires management to make estimates and use assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. These estimates and assumptions are affected by management's application of accounting policies. Critical accounting policies for the Company include accounting for research and development costs and accounting for stock-based compensation. On an on-going basis, the Company evaluates its estimates. Actual results and outcomes may differ materially from these estimates and assumptions.

Research and Development

Research and development costs represent costs incurred to develop the Company's technology, including salaries and benefits for research and development personnel, allocated overhead and facility occupancy costs, supplies,

equipment purchase and repair and other costs. Research and development costs are expensed when incurred, except for nonrefundable advance payments for future research and development activities, which are capitalized and recognized as expense as the related services are performed.

The Company did not incur any research and development expense during the three months ended September 30, 2010 and 2009. During the six months ended September 30, 2010 and 2009, the Company incurred \$0 and \$29,835 on research and development activities. From inception (November 6, 1998) to September 30, 2010 the Company incurred \$255,498 on research and development activities.

Fair Value of Financial Instruments

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair value.

The Company measures fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Company utilizes a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1. Valuations based on quoted prices in active markets for identical assets or liabilities that an entity has the ability to access. The Company has no assets or liabilities valued with Level 1 inputs.

Level 2. Valuations based on quoted prices for similar assets or liabilities, quoted prices for identical assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities. The Company has no assets or liabilities valued with Level 2 inputs.

Level 3. Valuations based on inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Liabilities valued with Level 3 inputs are described in Note 9. Warrants.

The carrying value of cash and cash equivalents, accounts payable, and accrued liabilities approximate their fair value because of the short-term nature of these instruments. The fair value of the Company's Series B Warrants was \$0 at

September 30, 2010, since they all expired on April 17, 2010 (see Note 9. Warrants). Management is of the opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments.

Stock-based Compensation

The Company measures all stock-based compensation awards using a fair value method on the date of grant and recognizes such expense in its consolidated financial statements over the requisite service period. The Company uses the Black-Scholes pricing model to determine the fair value of stock-based compensation awards on the date of grant. The Black-Scholes pricing model requires management to make assumptions regarding the warrant and option lives, expected volatility, and risk free interest rates. See Note 8. Stock Options and Note 9. Warrants for additional information on the Company's stock-based compensation plans.

Recently Adopted Accounting Pronouncements

The Company reviews new accounting standards as issued. Although some of these accounting standards issued or effective after the end of the Company's previous fiscal year may be applicable to the Company, it has not identified any standards that it believes merit further discussion. The Company believes that none of the new standards will have a significant impact on its consolidated financial statements.

Note 5. Net Income (Loss) Per Share

Basic net income (loss) per share is computed by dividing the net income (loss) by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed by dividing the net income (loss) by the weighted average number of common and dilutive common equivalent shares outstanding during the period. All per share and per share information are adjusted retroactively to reflect stock splits and changes in par value, when applicable.

During the three months ended September 30, 2010 and the six months ended September 30, 2010 and 2009, the Company recorded a net loss. Therefore, the issuance of shares of common stock from the exercise of stock options or warrants would be anti-dilutive. Excluded from the computation of diluted net loss per share for the three and six months ended September 30, 2010, because their effect would be antidilutive, are stock options to acquire 100,000 shares of common stock with a weighted-average exercise price of \$0.62 per share. Excluded from the computation of diluted net loss per share for the six months ended September 30, 2009, because their effect would be anti-dilutive, are stock options and warrants to acquire 10,933,334 shares of common stock with a weighted-average exercise price of \$0.26 per share.

During the three months ended September 30, 2009, stock options and warrants to purchase 2,983,334 shares of common stock with a weighted-average exercise price of \$0.60 per share were not included in the diluted earnings per share computation as the effects would have been anti-dilutive.

For purposes of earnings per share computations, shares of common stock that are issuable at the end of a reporting period are included as outstanding.

Following is the computation of basic and diluted net income (loss) per share for the three and six months ended September 30, 2010 and 2009:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2010	2009	2010	2009
Basic Net Income (Loss) Per Share Computation				
Numerator: net income (loss)	\$ (56,031)	\$ 5,844	\$ (115,041)	\$ (245,950)
Denominator:	42,249,166	42,249,166	42,249,166	42,249,166

Weighted average number of common shares outstanding				
Basic net income (loss) per share	\$ (0.00)	\$ 0.00	\$ (0.00)	\$ (0.01)
Dilutive Net Income (Loss) Per Share Computation				
Numerator: net income (loss)	\$ (56,031)	\$ 5,844	\$ (115,041)	\$ (245,950)
Denominator:				
Weighted average number of common shares outstanding	42,249,166	42,249,166	42,249,166	42,249,166
Effect of dilutive securities:				
Stock options	-	4,213,051	-	-
Total shares	42,249,166	46,462,217	42,249,166	42,249,166
Diluted net income (loss) per share	\$ (0.00)	\$ 0.00	\$ (0.00)	\$ (0.01)

Note 6. UOC Research Agreement

On September 17, 2007, the Company, through its wholly owned subsidiary, International Energy Corp., entered into the UOC Research Agreement in the area of algal biochemistry and photosynthesis aiming to develop protocols for the growth of microalgal cultures and for the generation of long chain liquid hydrocarbons. The contract was for a period of two years, ending on September 16, 2009. The Company could negotiate with UOC for a license at commercially reasonable royalty rates and license fees to commercialize the related products. The Company had the right to apply for a patent on any invention made through the research. The Company agreed to pay a total of \$238,680 to UOC for the support of the research, payable in equal installments of \$29,835 each on a quarterly basis.

As of September 30, 2010, the Company has paid \$238,680 pursuant to the UOC Research Agreement, \$5,000 for the right to evaluate the technology underlying the UOC Research Agreement, license fees and potential patent rights, and \$10,958 for reimbursement of other out-of-pocket costs. Of the total \$254,638 paid to UOC, none is included in research and development expense for the three months ended September 30, 2010 and 2009 and \$0 and \$29,835 is included in research and development expense for the six months ended September 30, 2010 and 2009, respectively.

Note 7. Capital Stock

Preferred Stock

At September 30, 2010, there were 1,000,000 shares of preferred stock (par value of \$0.01 per share) authorized, of which no shares were issued and outstanding. The Board of Directors has the authority to divide the preferred stock into series and to fix and determine the relative rights and preferences of the shares of any such series so established to the full extent permitted by the laws of the State of Nevada and the Articles of Incorporation. Holders of the preferred stock are entitled to one vote for each share held of record. Holders of the preferred stock vote with holders of the common stock as one class.

Common Stock

On April 17, 2008, the Company completed a \$2,400,000 self directed private placement (the 2008 Private Placement). The 2008 Private Placement consisted of the sale of 4,000,000 units (the "Units") at a price of \$0.60 per Unit. Each Unit consisted of one share (collectively Unit Shares) of the Company's common stock and one Series B Warrant to purchase a share of common stock at \$0.60 per share for a period of two years from the date of issuance.

In connection with the 2008 Private Placement, the Company agreed to file a registration statement for the purpose of registering the Unit Shares and the shares issuable upon the exercise of the Series B Warrants, for resale by the Investors. On July 17, 2009, the Company received a Notice of Effectiveness from the Securities and Exchange Commission (the SEC) registering the Unit Shares and additional shares held by certain selling stockholders in private transactions.

The number of shares issuable upon exercise of the Series B Warrants and the exercise price of the Series B Warrants were adjustable in the event of stock splits, combinations and reclassifications, but not in the event of the issuance by the Company of additional securities, unless such issuance was at a price per share which was less than the then applicable exercise price of the Series B Warrants (Dilutive Issuance), in which event then the exercise price would have been reduced and only reduced to equal the lower issuance price and the number of shares issuable upon exercise thereof would have increased such that the aggregate exercise price payable thereunder, after taking into account the decrease in the exercise price, would have been equal to the aggregate exercise price prior to such adjustment. The potential adjustment to the Series B Warrants exercise price and number of underlying shares of common stock resulted in a settlement amount that did not equal the difference between the fair value of a fixed number of the Company's common stock and a fixed exercise price. Accordingly, the Series B Warrants were not considered indexed to the Company's own stock and therefore needed to be accounted for as a derivative. The Series B Warrants all expired on April 17, 2010, none of which were exercised. As of their expiration date, the Company had not sold any shares of common stock or common stock equivalents that would result in an adjustment

to the exercise price or number of shares of common stock underlying the Series B Warrants. See Note 9. Warrants.

In connection with the 2008 Private Placement, the Company paid a commission of 100,000 Units (the Commission Units) to one registered broker dealer. The Commission Units did not have any registration rights but otherwise had the same terms and conditions as the Units.

At the time of grant, the fair value of the Series B Warrants as calculated using the Black-Scholes model was \$5,330,000. The proceeds from the 2008 Private Placement allocated to the warrants were \$1,066,000.

Note 8. Stock Options

On September 30, 2002, the stockholders of the Company approved its 2002 Incentive Stock Plan (the 2002 Plan), which has 20,000,000 shares reserved for issuance thereunder, all of which were registered under Form S-8 on August 24, 2005. The 2002 Plan provides shares available for options granted to employees, directors and others. The options granted to employees under the Company s 2002 Plan generally vest over one to five years or as otherwise determined by the plan administrator. Options to purchase shares expire no later than ten years after the date of grant.

The Company measures all stock-based compensation awards using a fair value method on the date of grant and recognizes such expense in its financial statements over the requisite service period. The grant date fair value of stock options is based on the price of a share of the Company s common stock on the date of grant. In determining the grant date fair value of stock options, the Company uses the Black-Scholes option pricing model which requires management to make assumptions regarding the option lives, expected volatility, and risk free interest rates, all of which impact the fair value of the option and, ultimately, the expense that will be recognized over the life of the option.

The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for a bond with a similar term. The Company does not anticipate declaring dividends in the foreseeable future. Volatility is calculated based on the historical weekly closing stock prices for the same period as the expected life of the option. The Company uses the simplified method for determining the expected term of its plain vanilla stock options. The Company recognizes compensation expense for only the portion of stock options that are expected to vest. Therefore, the Company applies an estimated forfeiture rate that is derived from historical employee termination data and adjusted for expected future employee turnover rates. To date, the Company has experienced minimal forfeitures, which did not impact the fair value of the stock option grants. If the actual number of forfeitures differs from those estimated by the Company, additional adjustments to compensation expense may be required in future periods.

The following table sets forth the share-based compensation cost resulting from stock option grants, including those previously granted and vesting over time, which was recorded in the Company's Statements of Operations for the three and six months ended September 30, 2010 and 2009:

		Three Months Ended September 30,			Six Months Ended September 30,	
		2010	2009		2010	2009
Director and management fees	\$	3,375\$	5,971	\$	6,904\$	12,250
Total	\$	3,375\$	5,971	\$	6,904\$	12,250

A summary of the Company's stock option activity for the six months ended September 30, 2010 and related information follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at March 31, 2010	8,050,000	\$ 0.14		
Cancellations	(7,950,000)	0.13		
Outstanding at September 30, 2010	100,000	\$ 0.62	8.0 years	\$ -
Exercisable at September 30, 2010	30,000	\$ 0.69	8.0 years	\$ -
Available for grant at September 30, 2010	19,850,000			

The aggregate intrinsic value in the table above represents the total pretax intrinsic value for all in-the-money options (i.e. the difference between the Company's closing stock price on the last trading day of its second quarter of fiscal year 2011 and the exercise price, multiplied by the number of shares) that would have been received by the option holders had all option holders exercised their options on September 30, 2010. The intrinsic value of the options changes based on the fair market value of the Company's common stock.

During the three months ended September 30, 2010, the Company cancelled 7,950,000 stock options granted on June 10, 2005 at an exercise price of \$0.13 per share. These stock options were fully vested on their cancellation date and the related stock-based compensation expense was already previously recorded.

As of September 30, 2010, the Company had \$16,103 of total unrecognized compensation expense related to unvested stock options which is expected to be recognized over a period of 3.25 years.

The following table summarizes information about stock options outstanding and exercisable at September 30, 2010:

Exercise Prices	Stock Options Outstanding			Stock Options Exercisable		
	Number of Options Outstanding	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number of Options Exercisable	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price
\$0.40	50,000	8.0	\$ 0.40	10,000	8.0	\$ 0.40
0.83	50,000	8.0	0.83	20,000	8.0	0.83
\$0.40-\$0.83	100,000	8.0	\$ 0.62	30,000	8.0	\$ 0.69

The Company does not repurchase shares to fulfill the requirements of options that are exercised. Further, the Company issues new shares when options are exercised.

Note 9. Warrants

On April 17, 2008, the Company completed the 2008 Private Placement (see Note 7. Capital Stock). Pursuant to the 2008 Private Placement and payment of a commission to a broker dealer, the Company issued 4,100,000 Series B Warrants, each to purchase a share of common stock at \$0.60 per share, expiring on April 17, 2010.

On April 17, 2010, the remaining 2,883,334 Series B Warrants expired unexercised. As of September 30, 2010, there were no Series B Warrants outstanding.

Warrant Liability

On April 1, 2009, the Company adopted guidance which is now part of ASC 815-40, *Contracts in Entity's Own Equity* (ASC 815-40). The Company determined that its Series B Warrants contained a Dilutive Issuance provision (see Note 7. Capital Stock: Common Stock). As a result, the Company reclassified 2,883,334 of its Series B Warrants to warrant liability, resulting in a cumulative adjustment to accumulated deficit as of April 1, 2009 of \$684,032.

The Company's Series B Warrants were considered derivative financial liabilities and were therefore required to be adjusted to fair value each quarter. In determining the fair value of its warrant liability, the Company utilized level 3 inputs in a three-tier hierarchy. Level 3 valuations are based on inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Please refer to Note 4. Summary of Significant Accounting Policies.

At March 31, 2010, the Company determined that the fair value of the 2,883,334 outstanding Series B Warrants was \$0, substantially due to the shortness of their remaining term. Since all 2,883,334 Series B Warrants expired on April 17, 2010, their fair value at September 30, 2010 was \$0. Accordingly, the Company did not record a non-cash gain or loss during the three or six months ended September 30, 2010. The Company recorded a non-cash gain related to the Series B Warrants of \$91,074 during the three months ended September 30, 2009 and a non-cash loss of \$11,868 during the six months ended September 30, 2009.

Note 10. Termination of Oil and Gas Joint Venture

On June 13, 2005, the Company entered into a Joint Venture Agreement with Reserve Oil and Gas, Inc. for the purpose of purchasing oil and gas leases, drilling, completing oil and gas wells and the resale of acquired leases. The Company paid cash \$112,000 to purchase four leases totaling 312.7 acres in Sevier County, Utah. The Company abandoned the properties and wrote off the cost of \$112,000 on March 31, 2007. On June 11, 2007, the Company terminated the Joint Venture Agreement with Reserve Oil and Gas, Inc.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Report on Form 10-Q contains forward-looking statements which involve assumptions and describe our future plans, strategies, and expectations, and are generally identifiable by use of the words may, will, should, expect, anticipate, estimate, believe, intend, or project or the negative of these words or other variations on these words or comparable terminology. These statements are expressed in good faith and based upon a reasonable basis when made, but there can be no assurance that these expectations will be achieved or accomplished.

Such forward-looking statements include statements regarding, among other things, (a) the potential markets for our technologies, our potential profitability, and cash flows (b) our growth strategies (c) expectations from our ongoing sponsored research and development activities (d) anticipated trends in the technology industry, (e) our future financing plans and (f) our anticipated needs for working capital. This information may involve known and unknown risks, uncertainties, and other factors that may cause our actual results, performance, or achievements to be materially different from the future results, performance, or achievements expressed or implied by any forward-looking statements. These statements may be found under Management's Discussion and Analysis of Financial Condition and Results of Operations as well as in this Form 10-Q generally. Actual events or results may differ materially from those discussed in forward-looking statements as a result of various and matters described in this Form 10-Q generally. In light of these risks and uncertainties, there can be no assurance that the forward-looking statements contained in this filing will in fact occur. In addition to the information expressly required to be included in this filing, we will provide such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

Although forward-looking statements in this report reflect the good faith judgment of our management, forward-looking statements are inherently subject to known and unknown risks, business, economic and other risks and uncertainties that may cause actual results to be materially different from those discussed in these forward-looking statements. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We assume no obligation to update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this report, other than as may be required by applicable law or regulation. Readers are urged to carefully review and consider the various disclosures made by us in our reports filed with the Securities and Exchange Commission which attempt to advise interested parties of the risks and factors that may affect our business, financial condition, results of operation and cash flows. If one or more of these risks or uncertainties materialize, or if the underlying assumptions prove incorrect, our actual results may vary materially from those expected or projected.

The following Management's Discussion and Analysis (MD&A) is intended to help the reader understand our consolidated results of operations and financial condition. The MD&A is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and the accompanying notes to the consolidated financial statements included in this Form 10-Q.

Our discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosures. We review our estimates on an ongoing basis.

Overview

We were incorporated under the laws of the State of Nevada on November 6, 1998, under the name e.Deal.net, Inc., On June 20, 2005, we amended our Articles of Incorporation to effect a change of name to International Energy, Inc.

On June 9, 2005, we incorporated two wholly owned subsidiaries; International Energy Corp. and e.Deal Enterprises Corp. Both subsidiaries are incorporated under the laws of the State of Nevada.

International Energy Corp., through a research agreement (the UOC Research Agreement) with The Regents of the University of California (UOC) was developing leading edge technologies for the production of biofuels derived directly from the photosynthesis of green microalgae, which can accumulate up to 30% of their biomass in the form of valuable biofuels. We were seeking to develop biofuels from the conversion of water and carbon dioxide into useful long-chain liquid hydrocarbons from the photosynthesis of unicellular microalgae. We have reviewed research outcomes from the UOC Research Agreement, which expired on September 16, 2009 and determined that it is not in our best interest to advance our research and development. Accordingly, we did not renew the UOC Research Agreement. We are undertaking efforts to identify new commercial opportunities.

We do not expect to generate any revenues for the foreseeable future and expect to continue incurring losses.

Because we are a smaller reporting company, we are not required to make certain disclosures otherwise required to be made in a Form 10-Q.

UOC Research Agreement

On September 17, 2007, our wholly owned subsidiary, International Energy Corp., entered into the UOC Research Agreement. The contract was for a period of two years, ending on September 16, 2009. We could negotiate with UOC for a license at commercially reasonable royalty rates and license fees to commercialize the related products. We had the right to apply for a patent on any invention made through the research. We agreed to pay a total of \$238,680 to UOC for the support of the research, payable in equal installments of \$29,835 each on a quarterly basis.

As of September 30, 2010, we have paid \$238,680 pursuant to the UOC Research Agreement, \$5,000 for the right to evaluate the technology underlying the UOC Research Agreement, license fees and potential patent rights, and \$10,958 for reimbursement of other out-of-pocket costs. Of the total \$254,638 paid to UOC, none is included in research and development expense for the three months ended September 30, 2010 and 2009 and \$0 and \$29,835 is included in research and development expense for the six months ended September 30, 2010 and 2009, respectively.

Results of Operations

Operating Expenses

A summary of our operating expenses for the three and six months ended September 30, 2010 and 2009 was as follows:

	Three Months Ended September 30,		Increase / (Decrease)	Percentage Change
	2010	2009		
Operating expenses				
Investor relations	\$ 1,125	\$ 6,825	(5,700)	(84)%
Director and management fees	12,575	13,471	(896)	(7)
Research and development	-	-	-	*
Professional fees	22,707	30,124	(7,417)	(25)
Salaries and benefits	4,357	24,902	(20,545)	(83)
Other operating expenses	15,029	10,001	5,028	50
Total operating expenses	\$ 55,793	\$ 85,323	(29,530)	(35)%

* Not meaningful

	Six Months Ended		Increase / (Decrease)	Percentage Change
	2010	September 30, 2009		
Operating expenses				
Investor relations	\$ 2,250\$	13,933\$	(11,683)	(84)%
Director and management fees	23,604	27,250	(3,646)	(13)
Research and development	-	29,835	(29,835)	*
Professional fees	59,181	88,309	(29,128)	(33)
Salaries and benefits	10,002	53,302	(43,300)	(81)
Other operating expenses	19,766	21,531	(1,765)	(8)
Total operating expenses	\$ 114,803\$	234,160\$	(119,357)	(51)%

* Not meaningful

Investor relations

Investor relations costs represent fees paid to publicize our technology within our industry and the investment community with the purpose of increasing company recognition and name branding.

Effective April 15, 2009, we entered into a one-year Shareholder Communication Services Agreement (the Shareholder Communications Agreement) with a third party consultant to provide shareholder communication and related administrative services. In accordance with the terms of the Shareholder Communications Agreement, we pay the third party consultant \$375 per month. The Shareholder Communications Agreement was renewed (with the same terms) for another one-year term, expiring April 15, 2011. Accordingly, we incurred \$1,125 during both of the three month periods ended September 30, 2010 and 2009 pursuant to the Shareholder Communications Agreement. We incurred \$2,250 and \$2,063 during the six months ended September 30, 2010 and 2009 pursuant to the Shareholder Communications Agreement.

Effective October 1, 2008, we entered into a one-year Market Access Services Agreement (the Market Agreement) with an investor relations firm. Pursuant to the terms of the Market Agreement, we paid \$1,900 per month for investor and public relations, corporate branding and corporate image services. The Market Agreement was not renewed. We incurred \$0 and \$5,700 during the three months ended September 30, 2010 and 2009 pursuant to the Market Agreement. We incurred \$0 and \$11,400 during the six months ended September 30, 2010 and 2009 pursuant to the Market Agreement.

Director and management fees

Non-employee directors receive \$2,500 per quarter for their services as directors.

Director fees for both of the three month periods ended September 30, 2010 and 2009 include fees earned of \$7,500. Additionally, the Company recorded stock compensation expense of \$3,375 and \$5,971 for the three months ended September 30, 2010 and 2009, respectively, for stock options previously granted and vesting over time.

Director fees for both of the six month periods ended September 30, 2010 and 2009 include fees earned of \$15,000. Additionally, the Company recorded stock compensation expense of \$6,904 and \$12,250 for the six months ended September 30, 2010 and 2009, respectively, for stock options previously granted and vesting over time.

Effective August 27, 2010, Mr. Charles Bell resigned as a member of our Board of the Directors (Board) and from all executive officer positions held with us. In order to fill the vacancies created by the resignation of Mr. Bell, on August 30, 2010, the Board appointed Mr. Amit S. Dang a director and as our Interim President and Chief Executive Officer (Principal Executive Officer), Chief Financial Officer (Principal Accounting Officer) and Secretary.

We entered into an Executive Services Agreement with Mr. Dang, dated August 30, 2010 (the Agreement) pursuant to which Mr. Dang will provide us with executive services. We may terminate the Agreement at any time,

for or without cause, upon written notice to Mr. Dang. Mr. Dang is being paid \$1,700 per month for his services. Mr. Dang will not be devoting his full time and attention to our affairs.

During the three months ended September 30, 2010, we incurred \$1,700 pursuant to the Agreement.

Research and development

Research and development represent costs incurred to develop our technology pursuant to our former research agreement with UOC. The UOC Research Agreement included salaries and benefits for research and development personnel, allocated overhead and facility occupancy costs, supplies, equipment purchase and repair and other costs.

Research and development expense for the six months ended September 30, 2009 is comprised entirely of payments made pursuant to the UOC Research Agreement.

Professional fees

Professional fees substantially consist of accounting, audit, tax and legal fees, and Securities and Exchange Commission (the SEC) related filing costs.

Professional fees were \$22,707 during the three months ended September 30, 2010, a decrease of \$7,417, from \$30,124 for the same period of the prior year. The decrease is substantially due to decreases in accounting related fees of approximately \$6,800 and Edgar filing fees of approximately \$4,000. The decrease in accounting related fees and SEC related filing costs from the prior year is the result of us filing amendments to our Form S-1 and related correspondence in the prior year. Offsetting these decreases in professional fees is an increase in legal fees of approximately \$3,300.

Professional fees were \$59,181 during the six months ended September 30, 2010, a decrease of \$29,128, from \$88,309 for the same period of the prior year. The decrease is substantially due to decreases in accounting related fees of approximately \$13,400, legal fees of approximately \$11,200, and SEC related filing costs of approximately \$3,900. The decrease in these costs from the prior year is the result of us filing amendments to our Form S-1 and a response to an SEC comment letter in the prior year as well as an increase in the utilization of legal counsel during the prior year

for the preparation and review of the required filings with the SEC and related correspondence.

Salaries and benefits

Salaries and benefits for the three and six months ended September 30, 2010 and 2009 consists entirely of amounts paid to and on behalf of Mr. Charles Bell, our former President, Chief Executive Officer, Chief Financial Officer and one of our directors. Until September 1, 2009, Mr. Bell's annual compensation was \$100,000. Effective September 1, 2009, Mr. Bell no longer devoted his full time efforts to the Company. However, he still retained all aforementioned executive officer positions and remained one of our directors. Because Mr. Bell's hours were curtailed his annual compensation was reduced to \$18,000, effective September 1, 2009. Effective August 27, 2010, Mr. Bell resigned as a member of our Board and from all executive officer positions held with us. In order to fill the vacancies created by the resignation of Mr. Bell, on August 30, 2010, the Board appointed Mr. Dang a director and as our Interim President and Chief Executive Officer (Principal Executive Officer), Chief Financial Officer (Principal Accounting Officer) and Secretary. Compensation provided to Mr. Dang is included in Director and management fees as discussed in the same titled section above.

Other operating expenses

Other operating expenses include travel and entertainment, rent, telephone, office supplies, postage and printing, information technology related fees and other administrative costs.

Other operating expenses were \$15,029 during the three months ended September 30, 2010, an increase of \$5,028, from \$10,001 for the same period in 2009, partially due to an increase in travel and entertainment related expense of

approximately \$9,700 offset by a decrease in rent of approximately \$3,400. During the current year, we were attempting to identify new commercial opportunities, which required significant travel. The decrease in rent is substantially due to the reduction of the size of the corporate office space that we lease in Washington, DC. Effective August 1, 2009, rent for this facility was reduced from \$1,100 per month to \$219 per month, plus variable charges. We are continuing our efforts to identify new commercial opportunities,

Other operating expenses were \$19,766 during the six months ended September 30, 2010, a decrease of \$1,765, from \$21,531 for the same period in 2009, partially due to a decrease in rent of approximately \$7,200 offset by an increase in travel and entertainment related expense of approximately \$6,400. The decrease in rent is substantially due to the reduction of the size of the corporate office space that we lease in Washington, DC. Effective August 1, 2009, rent for this facility was reduced from \$1,100 per month to \$219 per month, plus variable charges. During the prior year, we were attempting to identify new commercial opportunities, which required significant travel.

Other Income (Expense)

A summary of our other income (expense) for the six months ended September 30, 2010 and 2009 was as follows:

	Three Months Ended September 30,			Six Months Ended September 30,		
	2010	2009	Change	2010	2009	Change
Other income (expense)						
Change in fair value of warrant liability	\$ -	\$ 91,074	\$ (91,074)	\$ -	\$ (11,868)	\$ 11,868
Foreign exchange gain (loss)	(238)	93	(331)	(238)	78	(316)
Total other income (expense)	\$ (238)	\$ 91,167	\$ (91,405)	\$ (238)	\$ (11,790)	\$ 11,552

Change in fair value of warrant liability

On April 1, 2009, we adopted guidance which is now part of ASC 815-40, *Contracts in Entity's Own Equity* (ASC 815-40). We determined that our Series B Warrants contained a Dilutive Issuance provision (see Note 7. Capital Stock and Note 9. Warrants in the notes to the consolidated financial statements contained in this Form 10-Q). As a result, we reclassified 2,883,334 of our Series B Warrants to warrant liability, resulting in a cumulative adjustment to accumulated deficit as of April 1, 2009 of \$684,032.

Our Series B Warrants were considered derivative liabilities and were therefore required to be adjusted to fair value each quarter. We valued our warrant liability using a Black-Scholes model. Our stock price, remaining term of the Series B Warrants and the volatility of our stock all impacted the fair value of our Series B Warrants.

At March 31, 2010, we determined that the fair value of the 2,883,334 outstanding Series B Warrants was \$0, substantially due to the shortness of their remaining term. Since all 2,883,334 Series B Warrants expired on April 17, 2010, their fair value at September 30, 2010 was \$0. Accordingly, we did not record a non-cash gain or loss during the three and six months ended September 30, 2010. We recorded a non-cash gain related to the Series B Warrants of \$91,074 during the three months ended September 30, 2009 and a non-cash loss of \$11,868 during the six months ended September 30, 2009.

Liquidity and Capital Resources

The accompanying consolidated financial statements have been prepared assuming we will continue as a going concern. We have incurred cumulative losses of \$3,019,091 through September 30, 2010 and do not have positive cash flows from operating activities. Due to the "start up" nature of our business, we expect to incur losses as we continue development of our technologies and expand. We face all the risks common to development stage companies, including under capitalization and uncertainty of funding sources, high initial expenditure levels, uncertain revenue streams, and difficulties in managing growth. These conditions raise substantial doubt about our ability to continue as a going concern. Management recognizes that in order to meet our capital requirements, and

continue to operate, additional financing will be necessary. We expect to raise additional funds through private or public equity investments in order to expand the range and scope of our business operations. We will seek access to private or public equity but there is no assurance that such additional funds will be available for us to finance our operations on acceptable terms, if at all. If we are unable to raise additional capital or generate positive cash flow, it is unlikely that we will be able to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Our principal source of liquidity is cash in the bank. Our future funding requirements will depend on numerous factors, including: the time and investment required to invest in our business activities; to recruit and train qualified management personnel; and our ability to compete against other, better capitalized corporations in similar businesses.

At September 30, 2010, we had cash and cash equivalents of \$807,696. We have financed our operations primarily from funds received pursuant to the 2008 Private Placement completed in April 2008, raising gross proceeds of \$2,400,000 and cash received from the exercise of warrants. Please refer to Note 7. Capital Stock in the notes to the consolidated financial statements contained in this Form 10-Q.

Net cash used in operating activities was \$105,364 for the six months ended September 30, 2010, compared to net cash used of \$245,909 for the same period in 2009. The decrease in cash used in operating activities of \$140,545 was substantially due to decreases in amounts paid for investor relations, research and development, professional fees, salaries and benefits, and rent. Please refer to Results of Operations above for discussion regarding the decreases in these expenses.

Other Contractual Obligations

As of September 30, 2010, our contractual obligations consist of future minimum lease payments of \$2,400 pursuant to our corporate office lease in Washington, DC and our business office lease in Detroit, MI. In addition, we have future minimum payments \$2,400 pursuant to the Shareholder Communications Services Agreement, as discussed above.

Off Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act), as of the end of the period covered by this quarterly report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of September 30, 2010 that our disclosure controls and procedures were effective such that the information required to be disclosed in our United States Securities and Exchange Commission (the SEC) reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
