

EASTERN CO
Form 10-Q
July 29, 2011

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934 FOR THE QUARTERLY PERIOD ENDED July 2, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934 FOR THE TRANSITION PERIOD FROM _____ to _____

Commission File Number: 0599

THE EASTERN COMPANY
(Exact name of registrant as specified in its charter)

Connecticut
(State or other jurisdiction of
incorporation or organization)

06-0330020
(I.R.S. Employer
Identification No.)

112 Bridge Street, Naugatuck, Connecticut
(Address of principal executive offices)

06770
(Zip Code)

(203) 729-2255
(Registrant's telephone number, including area code)

Not applicable
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was

Edgar Filing: EASTERN CO - Form 10-Q

required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding as of July 28, 2011
Common Stock, No par value	6,168,237

THE EASTERN COMPANY
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
 July 2, 2011

Note A – Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by generally accepted accounting principles in the United States for complete financial statements. Refer to the Company's consolidated financial statements and notes thereto included in its Form 10-K for the year ended January 1, 2011 for additional information.

The accompanying condensed consolidated financial statements are unaudited. However, in the opinion of management, all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for interim periods have been reflected therein. All intercompany accounts and transactions are eliminated. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year.

The condensed consolidated balance sheet as of January 1, 2011 has been derived from the audited consolidated balance sheet at that date.

Note B – Earnings Per Share

The denominators used in the earnings per share computations follow:

	Six Months Ended		Three Months Ended	
	July 2, 2011	July 3, 2010	July 2, 2011	July 3, 2010
Basic:				
Weighted average shares outstanding	6,164,798	6,069,977	6,166,883	6,074,700
Diluted:				
Weighted average shares outstanding	6,164,798	6,069,977	6,166,883	6,074,700
Dilutive stock options	50,984	107,870	51,609	90,669
Denominator for diluted earnings per share	6,215,782	6,177,847	6,218,492	6,165,369

Note C – Inventories

The components of inventories follow:

	July 2, 2011	January 1, 2011
Raw material and component parts	\$ 8,236,341	\$ 8,090,149
Work in process	5,395,233	5,298,939

	\$ 3,907,445	\$ 3,763,846	\$ 2,248,947	\$ 2,207,650

Note E – Recent Accounting Pronouncements

In January 2010, the FASB issued new accounting guidance which requires new disclosures regarding transfers in and out of Level 1 and Level 2 fair value measurements, as well as requiring presentation on a gross basis of information about purchases, sales, issuances and settlements in Level 3 fair value measurements. The guidance also clarifies existing disclosures regarding level of disaggregation, inputs and valuation techniques. The new guidance was effective for interim and annual reporting periods beginning after December 15, 2009. Disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements were effective for fiscal years beginning after December 15, 2010. As this guidance requires only additional disclosure, there was no impact on the consolidated financial statements of the Company upon adoption.

In December 2010, the FASB issued authoritative guidance which updates the guidance regarding Intangibles—Goodwill & Other. The amendments affect all entities that have recognized goodwill and have one or more reporting units whose carrying amount for purposes of performing Step 1 of the goodwill impairment test is zero or negative. The amendments modify Step 1 so that for those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with existing guidance, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The Company adopted this guidance effective January 2, 2011 and it had no impact on the consolidated financial statements of the Company.

In December 2010, the FASB issued authoritative guidance which updates the guidance regarding business combinations. The objective of this new guidance is to address diversity in practice about the interpretation of the pro

forma revenue and earnings disclosure requirements for business combinations. The amendments in this guidance specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring

-7-

pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The amendments affect any public entity that enters into business combinations that are material on an individual or aggregate basis. The Company adopted this guidance effective January 2, 2011 and it had no impact on the consolidated financial statements of the Company.

In June 2011, the FASB issued authoritative guidance aimed at increasing the prominence of items reported in other comprehensive income in the financial statements. This guidance requires companies to present comprehensive income in a single statement below net income or in a separate statement of comprehensive income immediately following the income statement. Companies will no longer be allowed to present comprehensive income on the statement of changes in shareholders' equity. In both options, companies must present the components of net income, total net income, the components of other comprehensive income, total other comprehensive income and total comprehensive income. This update does not change which items are reported in other comprehensive income or the requirement to report reclassifications of items from other comprehensive income to net income. This guidance will become effective for fiscal years and interim periods beginning after December 15, 2011 and will require retrospective application for all periods presented. The adoption of this guidance may impact the presentation of the consolidated financial statements of the Company, but it will not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income.

The Company has implemented all new accounting pronouncements that are in effect and that could impact its consolidated financial statements and does not believe that there are any other new accounting pronouncements that have been issued, but are not yet effective, that might have a material impact on the consolidated financial statements of the Company.

Note F – Debt

On January 29, 2010, the Company signed a secured Loan Agreement with People's United Bank ("People's") which included a \$5,000,000 term portion and a \$10,000,000 revolving credit portion. The term portion of the loan requires quarterly payments of \$178,571 for a period of seven (7) years, maturing on January 31, 2017. The revolving credit portion has a quarterly commitment fee of one quarter of one percent (0.25%). There was no balance outstanding on the revolving credit portion at any time during the life of the Loan Agreement.

Interest on the term portion of the Loan Agreement is fixed at 4.98%. The interest rate on the revolving credit portion of the Loan Agreement varies based on the LIBOR rate or People's Prime rate plus a margin spread of 2.25%, with a floor rate of 4.0%.

Note G – Goodwill

The following is a roll-forward of goodwill from year-end 2010 to the end of the second quarter 2011:

	Industrial Hardware Segment	Security Products Segment	Metal Products Segment	Total
B e g i n n i n g balance	\$ 2,100,174	\$ 11,833,816	\$ —	13,933,990
F o r e i g n exchange	41,153	—	—	41,153

Ending balance	\$	2,141,327	\$	11,833,816	\$	—	\$	13,975,143
----------------	----	-----------	----	------------	----	---	----	------------

Note H – Intangibles

Patents are recorded at cost and are amortized using the straight-line method over the lives of the patents. Technology and licenses are recorded at cost and are generally amortized on a straight-line basis over periods ranging from 5 to 17 years. Non-compete agreements and customer relationships are being amortized using the

-8-

Edgar Filing: EASTERN CO - Form 10-Q

straight-line method over a period of 5 years. Trademarks are not amortized as their lives are deemed to be indefinite.

The gross carrying amount and accumulated amortization of amortizable intangible assets:

	Industrial Hardware Segment	Security Products Segment	Metal Products Segment	Total	Weighted-Average Amortization Period (Years)
2011 Gross Amount:					
Patents and developed technology	\$ 2,795,548	\$ 1,034,947	\$ 26,382	\$ 3,856,877	16.0

-9-

Note I – Retirement Benefit Plans

The Company has non-contributory defined benefit pension plans covering certain U.S. employees. Plan benefits are generally based upon age at retirement, years of service and, for its salaried plan, the level of compensation. The Company also sponsors unfunded nonqualified supplemental retirement plans that provide certain current and former officers with benefits in excess of limits imposed by federal tax law.

The Company also provides health care and life insurance for retired salaried employees in the United States who meet specific eligibility requirements.

Significant disclosures relating to these benefit plans for the second quarter and first six months of fiscal 2011 and 2010 follow:

	Pension Benefits			
	Six Months Ended		Three Months Ended	
	July 2, 2011	July 3, 2010	July 2, 2011	July 3, 2010

Amortization of prior service cost	(11,944)	(11,950)	(5,972)	(5,975)
Amortization of the net loss	-	(5,300)	-	(2,650)
Net periodic benefit cost	\$ 70,014	\$ 75,600	\$ 35,007	\$ 37,800

The Company's funding policy with respect to its qualified plans is to contribute at least the minimum amount required by applicable laws and regulations. In 2011, the Company is required to contribute \$2,301,000 into its pension plans and \$151,000 into its postretirement plan. As of July 2, 2011, the Company has made contributions totaling \$985,000 into its pension plans and \$58,000 to its postretirement plan and will make the remaining contributions as required during the remainder of the year.

The Company has a contributory savings plan under Section 401(k) of the Internal Revenue Code covering substantially all U.S. non-union employees. The plan allows participants to make voluntary contributions of up to 100% of their annual compensation on a pretax basis, subject to IRS limitations. The plan provides for contributions by the Company at its discretion. The Company made contributions of \$45,026 and \$93,157 in the second quarter and first six months of 2011, respectively and \$43,522 and \$85,480 in the second quarter and first six months of 2010, respectively.

-10-

Note J – Stock Based Compensation and Stock Options

The Company has stock option plans for officers, other key employees, and non-employee directors. As of July 2, 2011 two plans have shares reserved for future issuance, the 1995 and 2010 plans. Incentive stock options granted under the 1995 and 2010 plans must have exercise prices that are not less than 100% of the fair market value of the stock on the dates the options are granted. Restricted stock awards may also be granted to participants under the 2010 plan with restrictions determined by the Compensation Committee of the Company's Board of Directors. Under the 1995 and 2010 plans, nonqualified stock options granted to participants will have exercise prices determined by the Compensation Committee of the Company's Board of Directors. No options or restricted stock were granted in the first six months of 2011 or 2010.

As of July 2, 2011, there were 500,000 shares available for future grant under the above noted 2010 plan and there were no shares available for grant under the 1995 plan. As of July 2, 2011, there were 570,500 shares of common stock reserved under all option plans for future issuance.

	Six Months Ended July 2, 2011		Year Ended January 1, 2011	
	Shares	Weighted - Average Exercise Price	Shares	Weighted - Average Exercise Price
Outstanding at beginning of period	80,000	\$ 12.471	221,750	\$ 10.581
Granted	—	—	—	—
Exercised	(9,500)	9.578	(141,750)	9.514
Outstanding at end of period	70,500	12.861	80,000	12.471

Options Outstanding and Exercisable

Range of Exercise Prices	Outstanding as of July 2, 2011	Weighted- Average Remaining Contractual Life	Weighted- Average Exercise Price
\$10.20	15,000	2.1	\$10.200
\$13.58	55,500	3.5	13.580
	70,500	3.2	12.861

At July 2, 2011, outstanding and exercisable options had an intrinsic value of \$229,770. The total intrinsic value of stock options exercised in the first six months of 2011 was \$86,515. For the six month periods ended July 2, 2011 and July 3, 2010, the Company recognized tax benefits of \$16,453 and \$19,370, respectively, resulting from the disqualification of incentive stock options that were exercised and sold prior to the required holding period.

Note K – Income Taxes

The Company files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for years before 2007 and non-U.S. income tax examinations by tax authorities prior

to 2004. The Company is currently under audit by the State of New York for the 2007, 2008 and 2009 tax years. The Company does not expect any material changes to its financial statements as a result of this audit.

The total amount of unrecognized tax benefits could increase or decrease within the next twelve months for a number of reasons, including the closure of federal, state and foreign tax years by expiration of the statute of limitations and the recognition and measurement considerations under FASB Accounting Standards Codification (“ASC”) 740. There have been no significant changes to the amount of unrecognized tax benefits during the three or six months ended July 2, 2011. The Company believes that it is reasonably possible that the total amount of unrecognized tax benefits will not increase or decrease significantly over the next twelve months.

-11-

Note L - Financial Instruments and Fair Value Measurements

Financial Risk Management Objectives and Policies

The Company is exposed primarily to credit, interest rate and currency exchange rate risks which arise in the normal course of business.

Credit Risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Company, as and when they become due. The primary credit risk for the Company is its receivable accounts with customers. The Company has established credit limits for customers and monitors their balances to mitigate the risk of loss. At July 2, 2011 and January 1, 2011, there were no significant concentrations of credit risk. No one customer represented more than 10% of the Company's net trade receivables at July 2, 2011 and January 1, 2011. The maximum exposure to credit risk is primarily represented by the carrying amount of the Company's accounts receivable.

Interest Rate Risk

On July 2, 2011, the Company has no exposure to the risk of changes in market interest rates as the interest rate on the outstanding debt is fixed at 4.98%.

Fair Value Measurements

Assets and liabilities that require fair value measurement are recorded at fair value using market and income valuation approaches and considering the Company's and counterparty's credit risk. The Company uses the market approach and the income approach to value assets and liabilities as appropriate. There are no assets or liabilities requiring fair value measurements on July 2, 2011 or January 1, 2011.

ITEM 2 – MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion is intended to highlight significant changes in the Company's financial position and results of operations for the twenty-six weeks ended July 2, 2011. The interim financial statements and this Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Consolidated Financial Statements and Notes thereto for the fiscal year ended January 1, 2011 and the related Management's Discussion and Analysis of Financial Condition and Results of Operations, both of which are contained in the Company's Annual Report on Form 10-K for the fiscal year ended January 1, 2011.

Certain statements set forth in this discussion and analysis of financial condition and results of operations are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. They use such words as "may," "will," "expect," "believe," "plan" and other similar terminology. These statements reflect management's current expectations regarding future events and operating performance and speak only as of the date of this release. These forward-looking statements involve a number of risks and uncertainties, and actual future results and trends may differ materially depending on a variety of factors, including changing customer preferences, lack of success of new products, loss of customers, competition, increased raw material prices, problems associated with foreign sourcing of parts and products, changes within our industry segments and in the overall economy, litigation and

legislation. In addition, terrorist threats and the possible responses by the U.S. government, the effects on consumer demand, the financial markets, the travel industry, the trucking industry and other conditions increase the uncertainty inherent in forward-looking statements. Forward-looking statements reflect the expectations of the Company at the time they are made, and investors should rely on them only as expressions of opinion about what may happen in the future and only at the time they are made. The Company undertakes no obligation to update any forward-looking statement. Although the Company believes it has an appropriate business strategy and the resources necessary for its operations, future revenue and margin trends cannot be reliably predicted and the Company may alter its business strategies to address changing conditions.

-12-

In addition, the Company makes estimates and assumptions that may materially affect reported amounts and disclosures. These relate to valuation allowances for accounts receivable and for excess and obsolete inventories, accruals for pensions and other postretirement benefits (including forecasted future cost increases and returns on plan assets), provisions for depreciation (estimating useful lives), uncertain tax positions, and, on occasion, accruals for contingent losses.

Overview

Sales in the second quarter of 2011 increased 9% compared to the second quarter of 2010, as a result of continued improvement in economic conditions in several of the markets we serve. In the second quarter of 2011 Industrial Hardware sales increased 6%, Security Products sales increased 9% and Metal Products sales increased 15% compared to the prior year period. The increase in the Industrial Hardware segment was primarily due to an increase in sales of lightweight composite panels used in an interactive electronic board product. The increase in the Security Products segment was primarily the result of increased sales volume of existing products to the many markets that use our lock and commercial laundry products. The increase in the Metals Products segment was primarily a result of continued strong demand for our mine roof products to both the U.S. and Canadian coal mining markets.

Gross margin as a percentage of sales for the three months ended July 2, 2011 decreased slightly to 20% compared to 21% in the comparable period a year ago. This decrease was the result generally of increased manufacturing costs that could not be currently recovered by price increases as well as the mix of products sold.

Sales in the first six months of 2011 increased 8% compared to the prior year period as a result of improvement in the general economy. Sales increased in the first six months of 2011 by 4% in the Industrial Hardware segment, by 12% in the Security Products segment, and by 11% in the Metal Products segment compared to the prior year period. The increase in the Industrial Hardware segment was primarily due to an increase in sales of lightweight composite panels used in an interactive electronic board product. The increase in the Security Products segment was primarily the result of increased sales volume of existing products to the many markets that use our lock and commercial laundry products. The increase in the Metals Products segment was primarily a result of continued strong demand for our mine roof products to both the U.S. and Canadian coal mining markets.

Gross margin as a percentage of sales for the six months ended July 2, 2011 was 19% compared to 20% in the comparable period a year ago. This decrease was the result generally of increased manufacturing costs that could not be currently recovered by price increases as well as the mix of products sold.

Raw material prices have increased compared to the prior year periods. The Company, through price increases, is recovering these additional costs from our customers, wherever possible. The Company expects that raw material prices will continue to increase as worldwide economic conditions improve, which may have a negative impact on future operating margins if not recovered by price increases. Currently, there is no indication that the Company will be unable to obtain supplies of all the raw materials that it requires.

Cash flow from operations in the first six months of 2011 decreased compared to the same period in 2010. This decrease is primarily due to the changes in working capital associated with the higher sales volume in 2011. The Company has not found it necessary to utilize its revolving line of credit since the revolving line of credit was established. Cash on hand, cash flow from operations, along with the result of controlling discretionary expenditures, should enable the Company to meet all its existing obligations and continue its quarterly dividend payments.

-13-

A more detailed analysis of the Company's results of operations and financial condition follows:

Results of Operations

The following table shows, for the periods indicated, selected line items from the condensed consolidated statements of operations as a percentage of net sales, by segment:

	Three Months Ended July 2, 2011			
	Industrial Hardware	Security Products	Metal Products	Total
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of products sold	79.0%	75.9%	90.9%	80.4%
Gross margin	21.0%	24.1%	9.1%	19.6%

-15-

Industrial Hardware Segment

Net sales in the Industrial Hardware segment were up 6% in the second quarter of 2011 and up 4% in the first six months compared to the prior year periods. The higher sales in both the second quarter and six month period reflected an increase in sales of existing products, primarily lightweight composite panels used in an interactive electronic board product in 2011 compared to the same periods in 2010, selective price increases to customers and the introduction of new products. All of the new products were developed internally and included a rotary latch and a vent line of products for the Class 8 truck market, several lock and latch assemblies for the distributor markets and a spacer for the military market.

Cost of products sold for the Industrial Hardware segment increased 11% in the second quarter and 8% in the first half of 2011 compared to the prior year periods. The increases are primarily due to increased costs for payroll and payroll related charges, raw materials and purchased parts. In addition, 2011 includes the costs associated with the start-up and operation of our new lightweight composite panel facility in Ontario, Canada, which began manufacturing and shipping product during the second quarter of 2011.

Gross margin as a percent of net sales decreased to 21% in the second quarter of 2011 from 25% in the 2010 quarter. Gross margin in the first half of 2011 decreased to 21% from 24% in the prior year period. The decrease in gross margin for the 2011 periods reflects the lower volume of military business in 2011, the mix of products produced and the cost associated with the start-up of our new composite panel facility in Ontario.

Selling and administrative expenses decreased 5% for the second quarter and 2% for the first half of 2011 compared to the prior year periods, primarily due to decreased expenses for sales commissions, payroll and payroll related charges.

Security Products Segment

Net sales in the Security Products segment increased 9% in the second quarter and 12% in the first half of 2011 compared to the 2010 periods. The increase in sales in both the second quarter and six months of 2011 in the Security Products segment is a combination of increased sales of existing products, selective price increases to customers and sales of new products. The increase in sales of existing products in 2011 in the Security Products segment resulted from sales to the many markets served by this segment, including: distributors, computer, storage, enclosure and commercial laundry. Sales of new products included new lock products for the storage and enclosure markets.

Cost of products sold for the Security Products segment increased 10% in the second quarter and 12% in the first half of 2011 compared to the same periods in 2010. The increases in the second quarter and first half of 2011 were primarily the result of increased costs for raw materials, purchased parts, engineering and payroll and payroll related charges.

Gross margin as a percentage of sales in the second quarter decreased slightly to 24% in 2011 from 25% in the prior year period and also decreased slightly in the first half to 23% from 24% in the prior year period. The decreases in both the second quarter and first half of 2011 were primarily the result of the increased costs that were not recovered through price increases to customers and the mix of products sold as compared to the prior year period.

Selling and administrative expenses increased 2% in the second quarter and 6% in the first half of 2011 as compared to the 2010 periods. The increases in the 2011 periods were primarily due to travel expenses, payroll and payroll related charges, and commission payments resulting from the higher sales volume in 2011.

Metal Products Segment

Net sales in the Metal Products segment were up 15% in the second quarter and up 11% in the first half of 2011 as compared to the prior year periods. Sales of mining products were up 13% in the second quarter and up 10% in the first half of 2011 compared to the prior year periods. The increase in sales of mining products was driven by continued strong demand in both the U.S. and Canadian coal mining markets compared to the prior year periods. Sales of contract castings increased 34% in the second quarter and 3% in the first half of 2011 from the prior year levels. The increase in sales of contract casting was primarily the result of increased demand resulting from the strengthening economy. There were no sales of new products in 2011 in the Metal Products segment.

Cost of products sold increased 12% in the second quarter and 9% in the first half of 2011 compared to the same periods in 2010. The increases in both 2011 periods are primarily attributable to the product mix, manufacturing costs associated with the higher volume of sales in 2011, and increases in raw material costs.

Gross margin as a percentage of net sales increased from 7% to 9% in the second quarter of 2011 as compared to the 2010 period and increased from 8% to 10% for the first half of 2011 compared to the 2010 period. The increases in both the second quarter and first half of 2011 as compared to the prior year periods are due to the mix of products produced, elimination of products with unacceptable profit margins, price increases to customers, and improvement in manufacturing processes in the 2011 period resulting from the capital expenditure program in 2010.

Selling and administrative expenses were up 25% in the second quarter and 8% in the first half of 2011 compared to the same periods in 2010. The increases were related to an increase in payroll and payroll related charges in 2011.

Other Items

Interest expense decreased 22% in the second quarter and 13% in the first six months of 2011 compared to the prior year period primarily due to the decreased level of debt.

Other income was not material to the financial statements.

Income taxes reflected the change in the earnings level. The effective tax rates in both the second quarter and first six months of 2011 were 34% compared to 36% in the same periods of 2010. The decrease in the effective tax rate over both periods is the result of the mix of U.S. and foreign income, as well as a change in the mix of U.S. earnings in states with lower income tax rates.

Liquidity and Sources of Capital

The Company used \$400,000 in its operations during the first six months of 2011 compared to having provided \$5.0 million during the same period in 2010. The decrease in cash flows in the quarter was primarily the result of the associated timing differences in the collections of accounts receivable, payments of liabilities, and changes in inventories. Cash flow from operations coupled with cash on hand at the beginning of the year was sufficient to fund capital expenditures, debt service, and dividend payments. The Company has not utilized its revolving line of credit since the revolving line of credit was established on January 29, 2010.

Additions to property, plant and equipment were \$1.8 million for the first six months of 2011 compared to \$1.9 million for the same period in 2010. Total capital expenditures for 2011 are expected to be approximately \$4 - \$5 million. As of July 2, 2011, there is approximately \$650,000 of outstanding commitments for these capital

expenditures.

-17-

The following table shows key financial ratios at the end of each period:

	Second Quarter 2011	Second Quarter 2010	Year End 2010
Current ratio	5.4	4.8	4.9
Average days' sales in accounts receivable	51	46	47
Inventory turnover	3.9	3.8	3.7
Total debt to shareholders' equity	5.4%	6.8%	6.4%

The following table shows important liquidity measures as of the balance sheet date for each period below (in millions):

	Second Quarter 2011	Second Quarter 2010	Year End 2010
Cash and cash equivalents	\$ 8.4	\$ 12.3	\$ 12.2
Working capital	49.8	46.4	48.3
Net cash (used)/provided by operating activities	(0.4)	5.0	9.5
Change in working capital impact on net cash (used)/provided by operating activities	(4.8)	0.5	(0.8)
Net cash used in investing activities	(1.8)	(1.9)	(4.7)
Net cash used in financing activities	(1.5)	(7.6)	(9.4)

The \$5.4 million decrease in net cash provided by operating activities from the second quarter of 2010 compared to the second quarter of 2011 was primarily related to the changes in working capital, and was anticipated given the higher sales volume in the first six months of 2011.

Total inventories as of July 2, 2011 were \$28.7 million, compared to \$28.2 million at year end 2010 and \$26.4 million at the end of the second quarter of 2010. Accounts receivable increased to \$19.7 million from \$16.4 million at year end 2010 and \$16.6 million at the end of the second quarter of fiscal 2010. The increases are related to higher revenues in the first six months of the current year.

Cash on hand, cash flow from operating activities and funds available under the revolving credit portion of the Company's Loan Agreement are expected to be sufficient to cover future foreseeable working capital requirements.

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk from what was reported in the 2010 Annual Report on Form 10-K.

ITEM 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures:

As of the end of the quarter ended July 2, 2011, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer (the "CEO") and Chief Financial Officer (the "CFO"), of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 240.13a-15. As defined in Exchange Act Rules 240.13a-15(e) and 240.15d-15(e), "the term disclosure controls and procedures means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act (15 U.S.C. 78a et seq.) is recorded, processed, summarized and reported, within the time

-18-

periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.” Based upon that evaluation, the CEO and CFO concluded that the Company’s current disclosure controls and procedures were effective as of the July 2, 2011 evaluation date.

The Company believes that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. The Company’s disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives, and the CEO and CFO have concluded that these controls and procedures are effective at the “reasonable assurance” level.

Changes in Internal Controls:

During the period covered by this report, there have been no significant changes in the Company’s internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, the Company’s internal controls.

PART II – OTHER INFORMATION

ITEM 1 – LEGAL PROCEEDINGS

During the fourth quarter of 2010, the Company was contacted by the State of Illinois regarding potential ground contamination at our plant in Wheeling, Illinois. The Company enlisted into a voluntary remediation program in Illinois and has engaged an environmental clean-up company to perform testing and develop a remediation plan, if needed. No estimate for the cost of remediation was available when this Form 10-Q was filed with the SEC.

During 2008, the U.S. Environmental Protection Agency identified the Company as a potentially responsible party in connection with a site in Cleveland, Ohio based on the ownership of the site by a division of the Company in the 1960’s. According to the Agency, the current occupant of the site filed bankruptcy, leaving behind plating operations which required remedial action. The Company declined to participate in the remedial action, and intends to defend against any efforts of the Agency to impose any liability against the Company for environmental conditions on this site which may have occurred in the years since its ownership.

There are no other legal proceedings, other than ordinary routine litigation incidental to the Company’s business, to which either the Company or any of its subsidiaries is a party or to which any of their property is the subject.

ITEM 1A – RISK FACTORS

There have been no material changes in risk factors from what was reported in the 2010 Annual Report on Form 10-K.

ITEM 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There have been no sales of unregistered securities by the Company or purchases of registered equity securities by the Company during the period covered by this report.

-19-

ITEM 3 – DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4 – (REMOVED AND RESERVED)

ITEM 5 – OTHER INFORMATION

None
