This \$265 million transaction for the sale of the Company's capital markets business includes commitments for the Company and Charles Schwab & Co., Inc. sale of the Company's capital markets business and for severance and excess real estate associated with this transaction. Achievement of these expectations is subject to risks and uncertainties that could cause actual results to differ materially from the expressed expectations. Important factors that may cause such differences include, but are not limited to, the extent of the workforce reduction associated with exiting the capital markets business and the scope of severance payments, the impact of evolving real estate market conditions on sublease rates for the Company's excess office space, and the final valuation of certain assets and liabilities associated with the transaction.
