GAMCO INVESTORS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015
(Unaudited)

A. Significant Accounting Policies

Basis of Presentation

Unless we have indicated otherwise, or the context otherwise requires, references in this report to “GAMCO Investors, Inc.,” “GAMCO,” “the Company,” “GBL,” “we,” “us” and “our” or similar terms are to GAMCO Investors, Inc., its predecessors and its subsidiaries.

The unaudited interim condensed consolidated financial statements of GAMCO included herein have been prepared in conformity with generally accepted accounting principles (“GAAP”) in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by U.S. GAAP in the United States for complete financial statements. In the opinion of management, the unaudited interim condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of financial position, results of operations and cash flows of GAMCO for the interim periods presented and are not necessarily indicative of a full year’s results.

The condensed consolidated financial statements include the accounts of GAMCO and its subsidiaries. Intercompany accounts and transactions are eliminated.

These condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2014 from which the accompanying condensed consolidated financial statements were derived.

Use of Estimates

The preparation of the condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported on the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Recent Accounting Developments

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers,” which supersedes the revenue recognition requirements in the Accounting Standards Codification (“Codification”) Topic 605, Revenue Recognition, and most industry-specific guidance throughout the industry topics of the Codification. The core principle of the new ASU No. 2014-09 is for companies to recognize revenue from the transfer of goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard provides a five-step approach to be applied to all contracts with customers and also requires expanded disclosures about revenue recognition. The ASU is effective for annual reporting periods beginning after December 15, 2016, including interim periods and is to be retrospectively applied. Early adoption is not permitted. The Company is currently evaluating this guidance and the impact it will have on its consolidated financial statements.

In June 2014, the FASB issued an accounting update clarifying that entities should treat performance targets that could be met after the requisite service period of a share-based payment award as performance conditions that affect

vesting. Therefore, an entity would not record compensation expense (measured as of the grant date) for an award where transfer to the employee is contingent upon satisfaction of the performance target until it becomes probable that the performance target will be met. The guidance is effective for the Company beginning January 1, 2016. Early adoption is permitted. This guidance is not expected to have a material impact on the Company's consolidated financial statements.

In February 2015, the FASB issued an accounting update amending the consolidation requirements under GAAP. This guidance is effective for the Company beginning January 1, 2016. Early adoption is permitted. The Company is continuing to analyze the impact, if any, that this update may have on its consolidated financial statements.

In May 2015, the FASB issued new guidance amending the current disclosure requirement for investments in certain entities that calculate net asset value per share. The guidance requires investments for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy. Instead, those investment amounts shall be provided as a separate item to permit reconciliation of the fair value of investments included in the fair value hierarchy to the line items presented in the statement of financial position. This new guidance will be effective for the Company's first quarter of 2016. The Company is currently evaluating the potential impact on its condensed consolidated financial statements and related disclosures.

Management determines the appropriate classification of debt and equity securities at the time of purchase and reevaluates such designation as of the date of each consolidated statement of financial condition. Investments in United States Treasury Bills and Notes with maturities of greater than three months at the time of purchase are classified as investments in securities, and those with maturities of three months or less at the time of purchase are classified as cash equivalents. The portion of investments in securities held for resale in anticipation of short-term market movements are classified as trading securities. Trading securities are stated at fair value, with any unrealized gains or losses reported in current period earnings. Available for sale ("AFS") investments are stated at fair value, with any unrealized gains or losses, net of taxes, reported as a component of equity except for losses deemed to be other than temporary ("OTT") which are recorded as realized losses in the condensed consolidated statements of income.

The following table identifies all reclassifications out of accumulated other comprehensive income ("AOCI") into income for the three and six months ended June 30, 2015 and 2014 (in thousands):

Amount Reclassified from AOCI	Affected Line Items in the Statements Of Income	Reason for Reclassification from AOCI

The Company recognizes all derivatives as either assets or liabilities measured at fair value and includes them in either investments in securities or securities sold, not yet purchased on the condensed consolidated statements of financial condition. From time to time, the Company and/or the partnerships and offshore funds that the Company consolidates will enter into hedging transactions to manage their exposure to foreign currencies and equity prices related to their proprietary investments. At June 30, 2015, December 31, 2014 and June 30, 2014, we held derivative contracts on 288,000 equity shares, 3.8 million equity shares and 1.9 million equity shares, respectively, that are included in investments in securities or securities sold, not yet purchased on the condensed consolidated statements of financial condition. We had two, one and one foreign exchange contracts outstanding at June 30, 2015, December 31, 2014 and June 30, 2014, respectively, that are included in receivable from brokers or payable to brokers on the condensed consolidated statements of financial condition. Aside from one foreign exchange contract, these

transactions are not designated as hedges for accounting purposes, and therefore changes in fair values of these derivatives are included in net gain/(loss) from investments on the condensed consolidated statements of income. The one foreign exchange contract that is designated as a hedge was for a short of British Pounds to hedge the long investment that we have in our London Stock Exchange listed Gabelli Value Plus+ Trust Ltd. closed-end fund which is denominated in British Pounds. As the underlying investment that is being hedged is an available for sale security, the portion of the change in value of the closed-end fund that is currency related is recorded in net gain/(loss) from investments on the condensed consolidated statements of income and not in accumulated comprehensive income.

The Company is a party to enforceable master netting arrangements for swaps entered into as part of the investment strategy of the Company's proprietary portfolio. They are typically not used as hedging instruments. These swaps, while settled on a net basis with the counterparties, major U.S. financial institutions, are shown gross in assets and liabilities on the condensed consolidated statements of financial condition. The swaps have a firm contract end date and are closed out and settled when each contract expires.

D. Investments in Partnerships, Offshore Funds and Variable Interest Entities (“VIEs”)

The Company is general partner or co-general partner of various affiliated entities in which the Company has investments totaling \$95.4 million, \$94.2 million and \$93.0 million at June 30, 2015, December 31, 2014 and June 30, 2014, respectively, and whose underlying assets consist primarily of marketable securities (the “affiliated entities”). We also have investments in unaffiliated entities of \$13.6 million, \$13.4 million and \$14.9 million at June 30, 2015, December 31, 2014 and June 30, 2014, respectively (the “unaffiliated entities”). On a quarterly basis, we evaluate each entity for the appropriate accounting treatment and disclosure. Certain of the affiliated entities, and none of the unaffiliated entities, are consolidated.

For those entities where consolidation is not deemed to be appropriate, we report them in our condensed consolidated statement of financial condition under the caption “Investments in partnerships”. This caption includes those investments, in both affiliated and unaffiliated entities, which the Company accounts for under the equity method of accounting, as well as certain investments that the feeder funds hold that are carried at fair value, as described in Note C. The Company reflects the equity in earnings of these equity method investees and the change in fair value of the consolidated feeder funds (“CFFs”) under the caption Net gain/(loss) from investments on the condensed consolidated statements of income.

The following table highlights the number of entities, including voting interest entities (“VOEs”), that we consolidate as well as under which accounting guidance they are consolidated, including CFFs, which retain their specialized investment company accounting in consolidation, partnerships and offshore funds.

At and for the six months ended June 30, 2015, the one CFF VIE is consolidated, as the Company has been determined to be the primary beneficiary because it has an equity interest and absorbs the majority of the expected losses and/or expected gains. At and for the six months ended June 30, 2015, the one CFF VOE and one Partnership VOE are consolidated because the unaffiliated partners or shareholders lack substantive kick-out rights, and the Company, as either the general partner or investment manager, is deemed to have control. During the three months ended June 30, 2015, it was determined that an additional Partnership VOE should be consolidated when the Partnership was created on April 1, 2015 without unaffiliated capital and an Offshore Fund VIE should be consolidated as the last unaffiliated investor withdrew during the second quarter. Additionally, during the three months ended March 31, 2015, an Offshore Fund VOE was deconsolidated as the Company's ownership percentage fell below 50%, a CFF VOE was deconsolidated when it was closed and a different CFF VOE was consolidated as the last unaffiliated investor withdrew on March 31, 2015.

At and for the six months ended June 30, 2014 and at December 31, 2014, one CFF VIE is consolidated, as the Company has been determined to be the primary beneficiary because it has an equity interest and absorbs the majority of the expected losses and/or expected gains. At and for the six months ended June 30, 2014 and at December 31, 2014, two CFF VOEs, one Partnership VOE and one Offshore Fund VOE are consolidated because the unaffiliated partners or shareholders lack substantive rights, and the Company, as either the general partner or investment manager, is deemed to have control.

Variable Interest Entities

We sponsor a number of investment vehicles where we are the general partner or investment manager. Certain of these vehicles are VIEs, but we are not the primary beneficiary, in all but two cases, because we do not absorb a majority of the entities' expected losses and/or expected returns, and they are, therefore, not consolidated. We consolidate the two VIEs where we are the primary beneficiary. The Company has not provided any financial or other support to those VIEs where we are not the primary beneficiary. The total net assets of these non-consolidated VIEs at June 30, 2015, December 31, 2014 and June 30, 2014 were \$68.0 million, \$71.6 million and \$74.4 million, respectively. On June 30, 2015, the maximum exposure to loss as a result of our involvement with the non-consolidated VIEs is limited to the investment in one VIE of \$9.8 million and the deferred carried interest that we have in another of \$41,000 which was included in investments in partnerships on the condensed consolidated statements of financial condition. On December 31, 2014 and June 30, 2014, our maximum exposure to loss as a result of our involvement with the non-consolidated VIEs is limited to the investment in two VIEs of \$10.6 million and \$8.9 million, respectively, and the deferred carried interest that we have in another of \$43,000 and \$47,000, respectively, which was included in investments in partnerships on the condensed consolidated statements of financial condition. Additionally, as the general partner or investment manager to these VIEs the Company earns fees in relation to these roles, which given a decline in AUMs of the VIEs would result in lower fee revenues earned by the Company which would be reflected on the condensed consolidated statement of income, condensed consolidated statement of financial condition and condensed consolidated statement of cash flows.

The assets of these VIEs may only be used to satisfy obligations of the VIEs. The following table presents the balances related to the VIEs that are consolidated and are included on the condensed consolidated statements of financial condition as well as GAMCO's net interest in the VIEs. There are two VIEs consolidated at June 30, 2015 and one VIE consolidated at December 31, 2014 and June 30, 2014:

E. Income Taxes

The effective tax rate ("ETR") for the three months ended June 30, 2015 and June 30, 2014 was 37.0% and 36.9%, respectively. The effective tax rate for the six months ended June 30, 2015 was 37.5% compared to 35.7% for the prior year six month period. During the six month period ended June 30, 2014 we benefitted from the donation of appreciated securities used to fund our shareholder designated charitable contribution program.

5.875% Senior notes

On May 31, 2011, the Company issued 10-year, \$100 million senior notes. The notes mature on June 1, 2021 and bear interest at 5.875% per annum, payable semi-annually on June 1 and December 1 of each year and commenced on December 1, 2011. Upon the occurrence of a change of control triggering event, as defined in the indenture, the Company would be required to offer to repurchase the notes at 101% of their principal amount.

Zero coupon Subordinated debentures due December 31, 2015

On December 31, 2010, the Company issued \$86.4 million in par value of five year zero coupon subordinated debentures due December 31, 2015 (“Debentures”) to its shareholders of record on December 15, 2010 through the declaration of a special dividend of \$3.20 per share. The Debentures have a par value of \$100 and are callable at the option of the Company, in whole or in part, at any time or from time to time, at a redemption price equal to 100% of the principal amount of the Debentures to be redeemed. During the three month period ended June 30, 2015 and June 30, 2014 the Company repurchased 36,269 Debentures and 5,717 Debentures, respectively, having a face value of \$3.6 million and \$572,000, respectively. The redemptions were accounted for as extinguishments of debt and resulted in losses of \$154,000 and \$69,000, respectively, which were included in net gain from investments on the condensed consolidated statements of income. During the six month periods ended June 30, 2015 and June 30, 2014, the Company repurchased 62,226 Debentures and 6,133 Debentures, respectively, having a face value of \$6.2 million and \$613,000, respectively. The redemptions were accounted for as extinguishments of debt and resulted in losses of \$310,000 and \$74,000, respectively. The debt is being accreted to its face value using the effective rate on the date of issuance of 7.45%. At June 30, 2015, December 31, 2014 and June 30, 2014, the debt was recorded at its accreted value of \$6.6 million, \$12.2 million and \$11.8 million, respectively.

The fair value of the Company’s debt, which is a Level 2 valuation, is estimated based on either quoted market prices for the same or similar issues or on the current rates offered to the Company for debt of the same remaining maturities or using market standard models. Inputs in these standard models include credit rating, maturity and interest rate.

On May 4, 2015, the Securities and Exchange Commission (“SEC”) declared effective the “shelf” registration statement filed by the Company. The “shelf” provides the Company with the flexibility of issuing any combination of senior and subordinated debt securities, convertible securities and common and preferred securities up to a total amount of \$500 million and replaced the existing shelf registration which expired in May 2015. As of June 30, 2015, \$500 million is available on the shelf.

H. Stockholders’ Equity

Shares outstanding were 25.7 million, 25.9 million and 25.9 million on June 30, 2015, December 31, 2014 and June 30, 2014, respectively.

Voting Rights

The holders of Class A Common stock (“Class A Stock”) and Class B Common stock (“Class B Stock”) have identical rights except that (i) holders of Class A Stock are entitled to one vote per share, while holders of Class B Stock are entitled to ten votes per share on all matters to be voted on by shareholders in general, and (ii) holders of Class A Stock are not eligible to vote on matters relating exclusively to Class B Stock and vice versa.

Stock Award and Incentive Plan

The Company maintains two Plans approved by the shareholders, which are designed to provide incentives which will attract and retain individuals key to the success of GBL through direct or indirect ownership of our common stock. Benefits under the Plans may be granted in any one or a combination of stock options, stock appreciation rights, restricted stock, restricted stock units, stock awards, dividend equivalents and other stock or cash based awards. A maximum of 3.5 million shares of Class A Stock have been reserved for issuance under the Plans by a committee of the Board of Directors responsible for administering the Plans (“Compensation Committee”). Under the Plans, the committee may grant RSAs and either incentive or nonqualified stock options with a term not to exceed ten years from the grant date and at an exercise price that the committee may determine.

On December 23, 2014, September 15, 2014 and January 9, 2014, the Company approved the granting of 73,000 RSA shares, 83,500 RSA shares and 2,100 RSA shares, respectively, at a grant date fair value of \$87.99 per share, \$73.41 per share and \$81.99 per share, respectively. As of June 30, 2015, December 31, 2014 and June 30, 2014, there were 704,050 RSA shares, 710,750 RSA shares and 564,250 RSA shares outstanding, respectively, that were previously issued at an average weighted grant price of \$67.39, \$67.45 and \$63.93, respectively. All grants of the RSA shares were recommended by the Company's Chairman, who did not receive a RSA, and approved by the Compensation Committee. This expense, net of estimated forfeitures, is recognized over the vesting period for these awards which is either (1) 30% over three years from the date of grant and 70% over five years from the date of grant or (2) 30% over three years from the date of grant and 10% each year over years four through ten from the date of grant. During the vesting period, dividends to RSA holders are held for them until the RSA vesting dates and are forfeited if the grantee is no longer employed by the Company on the vesting dates. Dividends declared on these RSAs, less estimated forfeitures, are charged to retained earnings on the declaration date.

For the three months ended June 30, 2015 and June 30, 2014, we recognized stock-based compensation expense of \$2.3 million and \$1.7 million, respectively. For the six months ended June 30, 2015 and June 30, 2014, we recognized stock-based compensation expense of \$4.5 million and \$3.4 million, respectively. Actual and projected stock-based compensation expense for RSA shares and options for the years ended December 31, 2015 through December 31, 2024 (based on awards currently issued or granted) is as follows (in thousands):

The total compensation cost related to non-vested options not yet recognized is approximately \$27.2 million as of June 30, 2015. For the three months ended June 30, 2015 and June 30, 2014, proceeds from the exercise of 26,000 stock options and 20,000 stock options, respectively, were \$1.2 million and \$0.8 million, respectively, resulting in a tax benefit to GAMCO of \$102,000 and \$175,000, respectively. For the six months ended June 30, 2015 and June 30, 2014, proceeds from the exercise of 26,000 stock options and 40,000 stock options, respectively, were \$1.2 million and \$1.6 million, respectively, resulting in a tax benefit to GAMCO of \$102,000 and \$349,000, respectively.

Stock Repurchase Program

In March 1999, GAMCO's Board of Directors established the Stock Repurchase Program to grant management the authority to repurchase shares of our Class A Common Stock. On February 5, 2013, our Board of Directors authorized an incremental 500,000 shares to be added to the current buyback authorization. For the three months ended June 30, 2015 and June 30, 2014, the Company repurchased 108,088 shares and 103,528 shares, respectively, at an average price per share of \$72.34 and \$77.76, respectively. For the six months ended June 30, 2015 and June 30, 2014, the Company repurchased 149,481 shares and 224,720 shares, respectively, at an average price per share of \$73.68 and \$78.75, respectively. From the inception of the program through June 30, 2015, 9,275,506 shares have been repurchased at an average price of \$44.40 per share. At June 30, 2015, the total shares available under the program to be repurchased in the future were 359,302.

I. Goodwill and Identifiable Intangible Assets

At June 30, 2015, \$3.5 million of goodwill is reflected within other assets on the condensed consolidated statements of financial condition with \$3.3 million related to a 94%-owned subsidiary, Gabelli Securities, Inc. and \$0.2 million related to G.distributors, LLC. The Company assesses the recoverability of goodwill at least annually, or more often should events warrant, using a qualitative assessment of whether it is more likely than not that an impairment has occurred to determine if a quantitative analysis is required. There were no indicators of impairment for the three months ended June 30, 2015 or June 30, 2014, and as such there was no impairment analysis performed or charge

recorded.

As a result of becoming the advisor to the Gabelli Enterprise Mergers and Acquisitions Fund and the associated consideration paid, the Company maintains an identifiable intangible asset of \$1.9 million within other assets on the condensed consolidated statements of financial condition at June 30, 2015, December 31, 2014 and June 30, 2014. The investment advisory agreement is subject to annual renewal by the fund's Board of Directors, which the Company expects to be renewed, and the Company does not expect to incur additional expense as a result, which is consistent with other investment advisory agreements entered into by the Company. The advisory contract is next up for renewal in February 2016. The Company assesses the recoverability of this intangible asset at least annually, or more often should events warrant. There were no indicators of impairment for the three months ended June 30, 2015 or June 30, 2014, and as such there was no impairment analysis performed or charge recorded.

J. Commitments and Contingencies

From time to time, the Company may be named in legal actions and proceedings. These actions may seek substantial or indeterminate compensatory as well as punitive damages or injunctive relief. The Company is also subject to governmental or regulatory examinations or investigations. The examinations or investigations could result in adverse judgments, settlements, fines, injunctions, restitutions or other relief. For any such matters, the condensed consolidated financial statements include the necessary provisions for losses that the Company believes are probable and estimable. Furthermore, the Company evaluates whether there exist losses which may be reasonably possible and will, if material, make the necessary disclosures. However, management believes such amounts, both those that are probable and those that are reasonably possible, are not material to the Company's financial condition, operations or cash flows at June 30, 2015.

The Company indemnifies the clearing brokers of G.research, Inc., our broker-dealer subsidiary, for losses they may sustain from the customer accounts that trade on margin introduced by it. At June 30, 2015, the total amount of customer balances subject to indemnification (i.e. unsecured margin debits) was immaterial. The Company also has entered into arrangements with various other third parties many of which provide for indemnification of the third parties against losses, costs, claims and liabilities arising from the performance of obligations under the agreements. The Company has had no claims or payments pursuant to these or prior agreements and believes the likelihood of a claim being made is remote. The Company's estimate of the value of such agreements is de minimis, and therefore an accrual has not been made on the condensed consolidated financial statements.

K. Subsequent Events

From July 1, 2015 to August 5, 2015, the Company repurchased 44,800 shares at \$68.23 per share. On August 4, 2015, the Board of Directors increased the authorization under the Stock Repurchase Program by an additional 500,000 shares. As a result, there are 814,502 shares available to be repurchased under this existing buyback plan at August 5, 2015.

On August 4, 2015, the Board of Directors declared its regular quarterly dividend of \$0.07 per share to all of its shareholders, payable on September 29, 2015 to shareholders of record on September 15, 2015.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (INCLUDING QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK)

Overview

GAMCO, through the Gabelli brand, well known for its Private Market Value (PMV) with a Catalyst™ investment approach, is a widely-recognized provider of investment advisory services to open- and closed-end funds, institutional and private wealth management investors, and investment partnerships, principally in the United States. Through G.research, Inc. ("G.research"), we provide institutional research and brokerage services to institutional clients and investment partnerships. Through G.distributors, LLC ("G.distributors"), we provide mutual fund distribution. We generally manage assets on a fully discretionary basis and invest in a variety of U.S. and international securities through various investment styles. Our revenues are based primarily on the Company's levels of assets under management and fees associated with our various investment products.

Our revenues are highly correlated to the level of assets under management and fees associated with our various investment products, rather than our own corporate assets. Assets under management, which are directly influenced by the level and changes of the overall equity markets, can also fluctuate through acquisitions, the creation of new products, the addition of new accounts or the loss of existing accounts. Since various equity products have different fees, changes in our business mix may also affect revenues. At times, the performance of our equity products may differ markedly from popular market indices, and this can also impact our revenues. General stock market trends will have the greatest impact on our level of assets under management and hence, on revenues.

We conduct our investment advisory business principally through the following subsidiaries: GAMCO Asset Management Inc. (Institutional and Private Wealth Management), Gabelli Funds, LLC (Funds) and Gabelli Securities, Inc. (Investment Partnerships). We also act as an underwriter and provide institutional research through G.research, one of our broker-dealer subsidiaries. The distribution of our open-end funds is conducted through G.distributors, our other broker-dealer subsidiary.

Assets under management ("AUM") were \$45.4 billion as of June 30, 2015, a decrease of 2.4% from AUM of \$46.5 billion at March 31, 2015 and 8.0% from the June 30, 2014 AUM of \$49.4 billion. The second quarter 2015 decrease in AUM of \$1.1 billion which consisted of net cash outflows of \$882 million, recurring distributions, net of reinvestments, from open-end and closed-end funds of \$132 million and \$112 million of market depreciation. Average total AUM was \$46.4 billion in the 2015 quarter versus \$48.1 billion in the prior year period, a decrease of 3.5%. Average AUM in our open-end equity funds, a key driver to our investment advisory fees, was \$16.5 billion in the second quarter of 2015, falling 7.3% from the 2014 quarter average AUM of \$17.8 billion.

In addition to management fees, we earn incentive fees for certain institutional client assets, certain assets attributable to preferred issues of our closed-end funds, to our GDL Fund (NYSE: GDL) and investment partnership assets. As of June 30, 2015, assets under management with incentive based fees were \$4.9 billion, a decrease of \$0.3 billion, or 5.8%, from the \$5.2 billion at March 31, 2015 but 6.5% higher than the \$4.6 billion on June 30, 2014.

On May 12, 2015, a Form 10 was filed for the potential restructuring that will enable the Company to further increase its market focus. While this may involve a split-up of certain facets of our business, there are numerous regulatory related and other issues that may preclude pursuit of any alternative. Management does not plan to give periodic updates on the Company's progress.

Overview

Net income attributable to shareholders of GAMCO for the quarter was \$24.1 million, or \$0.95 per fully diluted share, versus \$29.0 million, or \$1.13 per fully diluted share, in the prior year's quarter. The quarter to quarter comparison was impacted by lower revenues, lower income from firm investments and increased stock compensation costs.

Revenues

Investment advisory and incentive fees for the second quarter 2015 were \$87.3 million, 3.2% lower than the 2014 comparative figure of \$90.2 million. Open-end fund revenues decreased by 7.9% to \$39.7 million from \$43.1 million in the second quarter of 2014 driven by a 7.4% decrease in average open-end equity AUM. Our closed-end fund revenues rose 3.3% to \$15.5 million in the second quarter 2015 from \$15.0 million in 2014 due to a 2.5% increase in non-performance fee based average AUM. Institutional and private wealth management account revenues, excluding incentive fees, which are generally based on beginning of quarter AUM, decreased \$0.1 million to \$29.9 million from

\$30.0 million in second quarter 2014. Incentive fees decreased \$0.3 million, on a quarter to quarter basis, to \$0.2 million in the 2015 quarter from \$0.5 million in the prior year period. Investment partnership revenues were \$2.0 million, an increase of 25.0% from \$1.6 million in second quarter 2014 due to an increase in average AUM resulting from a combination of market performance and net inflows.

Open-end fund distribution fees and other income were \$13.4 million for the second quarter 2015, a decrease of \$2.4 million or 15.2% from \$15.8 million in the prior year period, primarily due to lower average AUM in open-end equity funds that generate distribution fees and decreased level of sales of load shares of open-end funds.

Our institutional research revenues were \$2.0 million in the second quarter 2015 compared to \$2.4 million reported in the prior year period.

Expenses

Compensation costs, which are largely variable, were \$43.4 million or 1.4% lower than prior year compensation costs of \$44.0 million. The quarter over quarter decrease was comprised of a \$1.5 million decrease in variable compensation related to the decreased levels of AUM partially offset by a \$0.6 million increase in stock compensation expense recognized for RSAs issued in 2014 and a \$0.3 million increase in fixed compensation.

Management fee expense, which is wholly variable and based on pretax income, decreased to \$4.2 million in the second quarter of 2015 from \$5.1 million in the 2014 period.

Distribution costs were \$13.1 million, a decrease of \$1.9 million or 12.7% from \$15.0 million in the prior year's period. The decline in distribution costs was driven by lower AUM, largely from the direct to intermediary channel, which resulted in reduced payments to third parties for distribution of \$1.3 million and lower amortization of advanced commissions of \$0.5 million.

Other operating expenses were \$7.0 million in the second quarter of 2015, an increase of \$0.5 million, or 7.7%, from \$6.5 million in the second quarter of 2014. The current year quarter includes approximately \$0.6 million in costs associated with the possible restructuring that the Company is exploring. Excluding these costs in the current quarter other operating expenses were decreased \$0.1, or 1.5% to \$6.4 million in the second quarter of 2015 from \$6.5 million in the prior year quarter.

Operating income for the second quarter of 2015 was \$34.9 million, a decrease of \$2.6 million, or 6.9%, from the \$37.5 million in the second quarter of 2014. Operating income, as a percentage of revenues, was 34.0% in the 2015 quarter as compared to 34.7% in the 2014 quarter.

Other

Total other income, was \$3.2 million for the second quarter 2015 versus \$8.9 million in the prior year's quarter. Realized and unrealized gains in our trading portfolio were \$3.9 million in the 2015 quarter versus \$9.6 million in the 2014 quarter. Interest and dividend income was unchanged at \$1.3 million for the second quarter 2015. Interest expense remained the same at \$2.0 million in the second quarters of 2015 and 2014.

The effective tax rates ("ETR") for the three months ended June 30, 2015 and June 30, 2014 were 37.0% and 36.9%, respectively.

Diluted	\$ 1.93	\$ 2.22

Overview

Net income attributable to shareholders of GAMCO for the first six months of 2015 was \$48.9 million or \$1.93 per fully diluted share versus \$56.9 million or \$2.22 per fully diluted share in the prior year's first six months. The period to period comparison was impacted by lower revenues, lower income from firm investments and increased stock compensation costs.

Revenues

Investment advisory and incentive fees for the six months ended June 30, 2015 were \$175.4 million, 1.5% below the comparable 2014 figure of \$178.0 million. Open-end fund revenues decreased by 4.4% to \$80.2 million from \$83.9 million in first half 2014 driven by a 4.1% decrease in average open-end equity AUM. Our closed-end fund revenues rose 2.4% to \$30.3 million in the first half of 2015 from \$29.6 million in 2014 due to a 2.3% increase in non-performance fee based average AUM. Institutional and private wealth management account revenues, excluding incentive fees, which are generally based on beginning of quarter AUM, decreased \$0.4 million, or 0.7%, to \$60.0 million from \$60.4 million in first half of 2014. During the first half of 2015 and the first half of 2014 we earned \$0.8 million in incentive fees. Investment partnership revenues were \$4.1 million, an increase of 28.1% from \$3.2 million for the six months ended June 30, 2014 due to an increase in average AUM resulting from net inflows.

Open-end fund distribution fees and other income were \$27.1 million for the first six months of 2015, a decrease of \$3.5 million or 11.4% from \$30.6 million in the prior year period, primarily due to lower average AUM in open-end equity funds that generate distribution fees and decreased level of sales of load shares of open-end funds.

Our institutional research revenues were \$4.1 million in the first half of 2015 versus \$4.2 million in the prior year period.

32

Expenses

Compensation costs, which are largely variable, remained the same at \$87.9 million. The \$1.8 million decrease in variable compensation related to the decreased levels of AUM was entirely offset by a \$1.1 million increase in stock compensation expense recognized for RSAs issued in 2014 and a \$0.7 million increase in fixed compensation.

Management fee expense, which is wholly variable and based on pretax income, decreased to \$8.7 million for the six months ended June 30, 2015 from \$9.9 million in the 2014 period.

Distribution costs were \$27.4 million, a decrease of \$1.6 million or 5.5% from \$29.0 million in the prior year's period. The decline in distribution costs was driven by lower AUM, largely from the direct to intermediary channel, which resulted in reduced payments to third parties for distribution of \$1.5 million and lower amortization of advanced commissions of \$1.1 million partially offset by \$1.0 million of expenses in the current period for launching of our first London stock exchange listed closed-end fund.

Other operating expenses were \$13.7 million in the first six months of 2015, an increase of \$1.8 million, or 15.1%, from \$11.9 million in the first half of 2014. The current year period includes approximately \$1.5 million in costs associated with the possible restructuring that the Company is exploring while the prior year period benefitted from additional insurance reimbursements of \$0.4 million for legal and regulatory costs previously incurred and expensed as compared to the current year period. Excluding these costs in the current period and the reimbursements in the prior period other operating expenses decreased \$0.1 million, or 0.8%, to \$12.2 million in the first six months of 2015 from \$12.3 million in the first half of 2014.

Operating income for the first six months of 2015 was \$68.9 million, a decrease of \$5.1 million, or 6.9%, from the \$74.0 million in the first half of 2014. Operating income, as a percentage of revenues, was 33.4% in the 2015 period as compared to 34.8% in the 2014 period.

Other

Total other income, net of interest expense, was \$9.2 million for the first six months of 2015 versus \$15.0 million in the prior year's quarter. Realized and unrealized gains in our trading portfolio were \$10.8 million in the 2015 period versus \$16.6 million in the 2014 period. The 2014 period included \$4.1 million in gains related to sales and donations of one AFS security. There are no similar gains in the 2015 period. Interest and dividend income were \$2.3 million in the 2015 period versus \$2.5 million in the 2014 period. Interest expense remained the same at \$4.0 million in the first halves of 2015 and 2014.

The effective tax rate for the six months ended June 30, 2015 was 37.5% as compared to the prior year period's effective rate of 35.7%. During the 2014 period the ETR benefitted from the donation of appreciated securities used to fund our shareholder designated charitable contribution program.

LIQUIDITY AND CAPITAL RESOURCES

Our principal assets are highly liquid in nature and consist of cash and cash equivalents, short-term investments, securities held for investment purposes, investments in funds, and investment partnerships. Cash and cash equivalents are comprised primarily of 100% U.S. Treasury money market funds managed by GAMCO. Although investments in partnerships and offshore funds are subject to restrictions as to the timing of distributions, the underlying investments of such partnerships or funds are, for the most part, liquid, and the valuations of these products reflect that underlying liquidity.

Cash and liquidity requirements have historically been met through cash generated by operating income and our borrowing capacity. We filed a registration statement with the SEC in 2015 which, among other things, provides us opportunistic flexibility to sell any combination of senior and subordinate debt securities, convertible debt securities, equity securities (including common and preferred stock), and other securities up to a total amount of \$500 million. The shelf is available through May 4, 2018, at which time it may be renewed.

At June 30, 2015, we had total cash and cash equivalents of \$372.3 million, an increase of \$74.1 million from December 31, 2014. Cash and cash equivalents of \$0.1 million and investments in securities of \$9.5 million held by consolidated investment partnerships and offshore funds may not be readily available for the Company to access. Total debt outstanding at June 30, 2015 was \$106.6 million, consisting of \$6.6 million in Debentures (face value of \$6.9 million) and \$100 million of 5.875% senior notes due 2021.

For the six months ended June 30, 2015, cash provided by operating activities was \$134.0 million, an increase of \$34.6 million from cash provided in the prior year period of \$99.4 million. Cash was provided through a decrease of \$22.6 million in other assets, a \$11.7 million decrease in net contributions and distributions to/from partnerships, a \$2.3 million increase to accrued expenses and other liabilities, a decrease of \$4.8 million in trading securities, a \$33.6 million increase in payables to brokers and \$2.7 from other sources. Reducing cash was an increase in investment advisory fees receivables collected of \$10.4 million, a decrease in compensation payable of \$5.3 million, a decrease in net income of \$8.5 million and an increase in receivable from brokers of \$18.9. Cash used in investing activities, related to purchases and proceeds from sales of available for sale securities, was \$40.3 million in the first six months of 2015. Cash used in financing activities in the first six months of 2015 was \$19.7 million including \$3.5 million paid in dividends, \$11.0 million paid for the purchase of treasury stock and \$6.2 million for the repurchase of zero coupon subordinated debentures partially offset by \$1.2 million in proceeds from the exercise of stock options.

For the six months ended June 30, 2014, cash provided by operating activities was \$99.4 million. Cash provided by investing activities, related to purchases and proceeds from sales of available for sale securities, was \$1.7 million in the first six months of 2014. Cash used in financing activities in the first six months of 2014 was \$4.1 million.

Based upon our current level of operations and anticipated growth, we expect that our current cash balances plus cash flows from operating activities and our borrowing capacity will be sufficient to finance our working capital needs for the foreseeable future. We have no material commitments for capital expenditures.

We have two broker-dealers, G.research and G.distributors, which are subject to certain net capital requirements. Both broker-dealers compute their net capital under the alternative method permitted, which requires minimum net capital of the greater of \$250,000 or 2% of the aggregate debit items in the reserve formula for those broker-dealers

subject to Rule 15c3-3 promulgated under the Securities Exchange Act of 1934. The requirement was \$250,000 for each broker-dealer at June 30, 2015. At June 30, 2015, G.research had net capital, as defined, of approximately \$7.3 million, exceeding the regulatory requirement by approximately \$7.1 million, and G.distributors had net capital, as defined, of approximately \$4.1 million, exceeding the regulatory requirement by approximately \$3.9 million. Net capital requirements for our affiliated broker-dealers may increase in accordance with rules and regulations to the extent they engage in other business activities.

Market Risk

Our primary market risk exposure is to changes in equity prices and interest rates. Since over 90% of our AUM are equities, our financial results are subject to equity-market risk as revenues from our investment management services are sensitive to stock market dynamics. In addition, returns from our proprietary investment portfolio are exposed to interest rate and equity market risk.

The Company's Chief Investment Officer oversees the proprietary investment portfolios and allocations of proprietary capital among the various strategies. The Chief Investment Officer and the Board of Directors review the proprietary investment portfolios throughout the year. Additionally, the Company monitors its proprietary investment portfolios to ensure that they are in compliance with the Company's guidelines.

Equity Price Risk

The Company earns substantially all of its revenue as advisory and distribution fees from our affiliated open-end and closed-end funds, Institutional and Private Wealth Management assets, and Investment Partnership assets. Such fees represent a percentage of AUM, and substantially all of these assets are in equity investments. Accordingly, since revenues are proportionate to the value of those investments, a substantial increase or decrease in equity markets overall will have a corresponding effect on the Company's revenues.

With respect to our proprietary investment activities, included in investments in securities of \$144.0 million and investments in sponsored registered investment companies of \$126.3 million at June 30, 2015 were investments in United States Treasury Bills and Notes of \$7.0 million, open-end funds and closed-end funds, largely invested in equity products, of \$131.2 million, a selection of common and preferred stocks totaling \$131.3 million, and other investments of approximately \$0.8 million. In addition, we may alter our investment holdings from time to time in response to changes in market risks and other factors considered appropriate by management. Of the approximately \$131.2 million invested in common and preferred stocks at June 30, 2015, \$37.4 million represented our investment in Westwood Holdings Group Inc., and \$68.4 million was invested by the Company in risk arbitrage opportunities in connection with mergers, consolidations, acquisitions, tender offers or other similar transactions. Risk arbitrage generally involves announced deals with agreed upon terms and conditions, including pricing, which typically involve less market risk than common stocks held in a trading portfolio. The principal risk associated with risk arbitrage transactions is the inability of the companies involved to complete the transaction. Securities sold, not yet purchased are stated at fair value and are subject to market risks resulting from changes in price and volatility. At June 30, 2015, the fair value of securities sold, not yet purchased was \$9.8 million. Investments in partnerships totaled \$109.0 million at June 30, 2015, \$63.1 million of which consisted of investment partnerships and offshore funds which invest in risk arbitrage opportunities.

The following table provides a sensitivity analysis for our investments in equity securities and partnerships and affiliates which invest primarily in equity securities, excluding arbitrage products for which the principal exposure is to deal closure and not overall market conditions, as of June 30, 2015 and December 31, 2014. The sensitivity analysis assumes a 10% increase or decrease in the value of these investments (in thousands):

	Fair Value assuming 10% decrease in equity prices	Fair Value assuming 10% increase in equity prices
(unaudited)		

At June 30, 2015:

Equity price sensitive investments, at fair value \$248,116 \$223,304 \$272,928

At December 31, 2014:

Equity price sensitive investments, at fair value \$243,720 \$219,348 \$268,092

Interest Rate Risk

Our exposure to interest rate risk results, principally, from our investment of excess cash in a sponsored money market fund that holds U.S. Government securities. These investments are primarily short term in nature, and the carrying value of these investments generally approximates fair value. Based on June 30, 2015, cash and cash equivalent balance of \$372.3 million, a 1% increase in interest rates would increase our interest income by \$3.7 million annually. Given that our current return on these cash equivalent investments in this low interest rate environment is approximately 0.0% annually, an analysis of a 1% decrease is not meaningful.

Currency Risk

We operate offices outside the United States in London, Shanghai and Tokyo from which we perform sales, marketing and research activities. In connection with these offices, we transact business in multiple currencies, primarily British Pounds and Japanese Yen. We are a net payer of foreign currencies and therefore benefit from a strengthening U.S. dollar and are adversely affected when the U.S. dollar weakens relative to the foreign currencies. We project our future currency needs on a net basis and may from time to time purchase foreign currencies or enter into foreign exchange forward contracts as a way to minimize our foreign exchange risk. Historically these amounts have not been material. In addition, we may use foreign exchange forward contracts to offset the foreign exchange risk on investments held in foreign denominated funds, including the Gabelli Value Plus+ Trust Ltd. which is denominated in British Pounds. In May 2015, we entered into a foreign exchange forward contract to hedge the full value of our Gabelli Value Plus+ Trust Ltd. investment. Absent such hedging strategies, a hypothetical 10% change in the U.S. dollar to British Pound exchange rate would have increased or decreased the value of the investment we had in this fund on June 30, 2015 by \$4.3 million. Because this investment is classified as an AFS security, the net unrealized change on this investment due to currency fluctuation prior to the inception of the hedge would be included in other comprehensive income and after the inception would be included in net gain/(loss) from investments on the condensed consolidated statements of income. Changes in fair value of the related designated hedge are also included in net gain/(loss) from investments on the condensed consolidated statements of income.

Critical Accounting Policies and Estimates

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from those estimates. See Note A and the Company's Critical Accounting Policies in Management's Discussion and Analysis of Financial Condition and Results of Operations in GAMCO's 2014 Annual Report on Form 10-K filed with the SEC on March 6, 2015 for details on Critical Accounting Policies.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of its business, GAMCO is exposed to risk of loss due to fluctuations in the securities market and general economy. Management is responsible for identifying, assessing and managing market and other risks.

Our exposure to pricing risk in equity securities is directly related to our role as financial intermediary and advisor for AUM in our affiliated open-end and closed-end funds, institutional and private wealth management accounts, and investment partnerships as well as our proprietary investment and trading activities. At June 30, 2015, we had equity investments, including open-end funds largely invested in equity products, of \$268.6 million. Investments in open-end funds and closed-end funds, \$131.2 million, usually generate lower market risk through the diversification of financial instruments within their portfolios. In addition, we may alter our investment holdings from time to time in response to changes in market risks and other factors considered appropriate by management. We also hold

investments in partnerships which invest primarily in equity securities and which are subject to changes in equity prices. Investments in partnerships totaled \$109.0 million, of which \$63.1 million were invested in partnerships which invest in risk arbitrage. Risk arbitrage is primarily dependent upon deal closure rather than the overall market environment. The equity investment portfolio is at fair value and will move in line with the equity markets. The trading portfolio changes are recorded as net gain from investments in the condensed consolidated statements of income while the available for sale portfolio changes are recorded in accumulated other comprehensive income in the condensed consolidated statements of financial condition.

Item 4. Controls and Procedures

We evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2015. Disclosure controls and procedures as defined under the Exchange Act Rule 13a-15(e), are designed to ensure that the information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time period specified in SEC rules and regulations. Disclosure controls and procedures include, without limitation, controls and procedures accumulated and communicated to our management, including our Chief Executive Officer (“CEO”) and Co-Chief Accounting Officers (“CAOs”), to allow timely decisions regarding required disclosure. Our CEO and CAOs participated in this evaluation and concluded that, as of the date of June 30, 2015, our disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting as defined by Rule 13a-15(f) that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Forward-Looking Information

Our disclosure and analysis in this report contain some forward-looking statements. Forward-looking statements give our current expectations or forecasts of future events. You can identify these statements because they do not relate strictly to historical or current facts. They use words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” and other words and terms of similar meaning. They also appear in any discussion of future operating or financial performance. In particular, these include statements relating to future actions, future performance of our products, expenses, the outcome of any legal proceedings, and financial results. Although we believe that we are basing our expectations and beliefs on reasonable assumptions within the bounds of what we currently know about our business and operations, there can be no assurance that our actual results will not differ materially from what we expect or believe. Some of the factors that could cause our actual results to differ from our expectations or beliefs include, without limitation: the adverse effect from a decline in the securities markets; a decline in the performance of our products; a general downturn in the economy; changes in government policy or regulation; changes in our ability to attract or retain key employees; and unforeseen costs and other effects related to legal proceedings or investigations of governmental and self-regulatory organizations. We also direct your attention to any more specific discussions of risk contained in our Form 10-Q and other public filings. We are providing these statements as permitted by the Private Litigation Reform Act of 1995. We do not undertake to update publicly any forward-looking statements if we subsequently learn that we are unlikely to achieve our expectations or if we receive any additional information relating to the subject matters of our forward-looking statements.

Part II: Other Information

Item 1. Legal Proceedings

From time to time, the Company may be named in legal actions and proceedings. These actions may seek substantial or indeterminate compensatory as well as punitive damages or injunctive relief. The Company is also subject to governmental or regulatory examinations or investigations. The examinations or investigations could result in adverse judgments, settlements, fines, injunctions, restitutions or other relief. For any such matters, the condensed consolidated financial statements include the necessary provisions for losses that the Company believes are probable and estimable. Furthermore, the Company evaluates whether there exist losses which may be reasonably possible and will, if material, make the necessary disclosures. However, management believes such amounts, both those that are probable and those that are reasonably possible, are not material to the Company’s financial condition, operations or cash flows at June 30, 2015.
