three firm wells plus options to drill five additional wells off the coast of Malaysia. Murphy has now exercised its option to extend the contract for the additional five wells. All eight wells will have a dayrate in the low \$50,000's and should take until January/February 2004 to complete. Contract opportunities for additional work following completion of the Murphy contract are being pursued.

The RICHMOND is currently drilling one well for Spinnaker Exploration Company, L.L.C. ("Spinnaker") which is expected to be completed during the first half of September 2003. Immediately upon completion of the Spinnaker contract, the rig will commence a two-well plus one option well contract for Union Oil Company of California ("Unocal"). The Unocal contract provides for a dayrate of \$24,000 with the two firm wells expected to take around 50 days to complete.

The ATWOOD SOUTHERN CROSS has been relocated to Egypt where it is currently stacked while waiting for its next contract opportunity. Contract opportunities for additional work are being pursued in the Mediterranean Area, as well as in other areas of the world.

Additional information with respect to the Company's Contract Status Summary August 21, 2003 is attached hereto as Exhibit 99.1 which is being furnished in accordance with Rule 101 (e)(1) under Regulation FD and should not be deemed to be filed.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors: the Company's dependence on the oil and gas industry; the risks involved in the construction of a rig; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism; risks associated with a possible disruption in operations due to war; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's annual report on Form 10-K for the year ended September 30, 2002, filed with the Securities and Exchange Commission.

SIGNATURES
