TECHNE CORPORATION & SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

A. BASIS OF PRESENTATION:

The unaudited condensed consolidated financial statements of Techne Corporation and subsidiaries (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America and with instructions to Form 10-Q and Article 10 of Regulation S-X. The accompanying unaudited condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

A summary of significant accounting policies followed by the Company is detailed in the Company's Annual Report on Form 10-K for fiscal 2006. The Company follows these policies in preparation of the interim unaudited condensed consolidated financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the Company's Consolidated Financial Statements and Notes thereto for the fiscal year ended June 30, 2006 included in the Company's Annual Report to Shareholders for fiscal 2006.

Recent Accounting Pronouncements:

In May 2005, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 154, Accounting Changes and Error Corrections. The Statement replaces APB Opinion No. 20, Accounting Changes and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements. SFAS No. 154 requires companies to apply voluntary changes in accounting principles retrospectively whenever practicable. The requirement is effective for the Company beginning in fiscal 2007. Adoption of the Statement did not have an impact on the Company's prior consolidated financial statements as it is prospective in nature.

In June 2006, the FASB issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109. FIN 48 requires disclosures of additional quantitative and qualitative information regarding uncertain tax positions taken for tax-return purposes that have not been recognized for financial reporting, along with analysis of significant changes during each period. The Interpretation is effective for the Company in fiscal 2008. The Company is currently evaluating the provisions of FIN 48, but it is not expected to have a material impact on the Company's consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. The Statement establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. SFAS No. 157 applies only to fair value measurements that are already required or permitted by other accounting standards and is effective for the Company in fiscal 2009. The Company is currently evaluating the impact of adopting SFAS No. 157, but it is not expected to have a material impact on the Company's consolidated financial statements.

In September 2006, the Securities and Exchange Commission released Staff Accounting Bulletin 108 (SAB 108). SAB 108 provides interpretative guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. SAB 108 is effective for the Company for fiscal year ending June 30, 2007. The Company is currently evaluating the impact of adopting SAB 108, but it is not expected to have a material impact on the Company's consolidated financial statements.

6

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. The Statement permits entities to choose to measure certain financial instruments at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. SFAS No. 159 is effective for the Company in fiscal 2009. The Company is currently evaluating the impact of adopting SFAS No. 159, but it is not expected to have a material impact on the Company's consolidated financial statements.

Reclassifications:

Certain reclassifications have been made to the prior year consolidated

B. EARNINGS PER SHARE:

Shares used in the earnings per share computations are as follows (in thousands):

	3/31/07	3/31/06	3/31/07	3/31/06
Weighted average common shares outstanding-basic	39,414	39,199	39,393	38,941

	-----	-----	-----	-----
Weighted average common shares outstanding-diluted	39,543	39,425	39,498	39,631
	=====	=====	=====	=====

The dilutive effect of stock options and warrants in the above table excludes all options for which the aggregate exercise proceeds exceeded the average market price for the period. The number of potentially dilutive option shares excluded from the calculation was 7,000 for both the quarter and nine months ended March 31, 2007, and 1,000 for both the quarter and nine months ended March 31, 2006.

The forward contract in the above table refers to the accelerated stock buyback ("ASB") transaction settled in December 2005. In March 2005, the Company repurchased approximately 2.9 million shares of its common stock under an ASB transaction for an initial value of approximately \$100 million (\$34.45 per share). The transaction was completed under a privately negotiated contract with an investment bank. The investment bank borrowed the 2.9 million shares to complete the transaction and purchased the replacement shares in the open market over a nine-month period beginning in March 2005. The ASB agreement was subject to a market price adjustment provision based upon the volume weighted average price during the nine-month period. The Company had the option to settle the ASB agreement in cash or shares of the Company's common stock (forward contract) and, accordingly the contract was classified as equity. The ASB agreement was settled in December 2005 for a cash payment of \$26.0 million, which resulted in a total price paid per share of approximately \$44.67.

C. SEGMENT INFORMATION:

The Company has three reportable operating segments based on the nature of products and geographic location: biotechnology, R&D Systems Europe and hematology. The biotechnology segment consists of R&D Systems' Biotechnology Division, Fortron Bio Science, Inc. and BiosPacific, Inc., which develop, manufacture and sell biotechnology research and diagnostic products world-wide. R&D Systems Europe distributes Biotechnology Division products throughout Europe. The hematology segment develops and manufactures hematology controls and calibrators for sale world-wide.

D. STOCK OPTIONS:

Option activity under the Company's stock option plans during the nine months ended March 31, 2007 was as follows:

	SHARES (in 000's)	WEIGHTED AVG. EXERCISE PRICE	WEIGHTED AVG. CONTRACTUAL LIFE (Yrs.)	AGGREGATE INTRINSIC VALUE
Outstanding at June 30, 2006	421	\$38.89

Exercisable at March 31, 2007	388	\$40.55	4.83	\$6.4 million

The fair value of options granted under the Company's stock option plans were estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions used:

	QUARTER ENDED		NINE MONTHS ENDED	
	3/31/07	3/31/06	3/31/07	3/31/06
Dividend yield	--	--	--	--
Expected annualized volatility	47%	N/A	31%-47%	37%-53%

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

Weighted average fair value of options granted	\$32.88	N/A	\$31.53	\$30.03
--	---------	-----	---------	---------

9

The Company has not paid cash dividends and does not have any plans to do so, therefore an expected dividend yield of zero was used to estimate fair value of options granted. The expected annualized volatility is based on the Company's historical stock price over a period equivalent to the expected life of the option granted. The risk-free interest rate is based on U.S. Treasury constant maturity interest rate with a term consistent with the expected life of the options granted. Separate groups of employees that have similar historical exercise behavior with regard to option exercise timing and forfeiture rates are considered separately in determining option fair value.

The total intrinsic value of options exercised during the quarter and nine months ended March 31, 2007 was \$715,000 and \$969,000, respectively. The total intrinsic value of options exercised during the quarter and nine months ended March 31, 2006 was \$22.8 million and \$28.3 million, respectively. Stock option exercises are satisfied through the issuance of new shares. The total fair value of options vested during the quarter and nine months ended March 31, 2007 was \$164,000 and \$1.5 million, respectively. No options vested during the quarter ended March 31, 2006. The total fair value of options vested during the nine months ended March 31, 2006 was \$1.7 million.

Stock-based compensation cost of \$238,000 and \$1.5 million was included in selling, general and administrative expense for the quarter and nine months ended March 31, 2007, respectively. Stock-based compensation cost of \$140,000 and \$1.5 million was included in selling, general and administrative expense for the quarter and nine months ended March 31, 2006, respectively. Compensation cost is recognized using a straight-line method over the vesting period and is net of estimated forfeitures. As of March 31, 2007, there was \$260,000 of total unrecognized compensation cost related to nonvested stock options that will be expensed over fiscal years 2007 through 2009.

Overall Results

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

Consolidated net earnings increased 17.4% and 15.5% for the quarter and nine months ended March 31, 2007, respectively, compared to the quarter and nine months ended March 31, 2006. The primary reasons for the increase in consolidated net earnings were increased net sales and gross margins. Consolidated net sales for the quarter and nine months ended March 31, 2007, increased 9.8% and 9.6% from the same periods in the prior year. The favorable impact on consolidated net sales of the change from the prior year in exchange rates used to convert R&D Europe results from British pound sterling to U.S. dollars was \$1.9 million and \$4.2 million for the quarter and nine months ended March 31, 2007, respectively. The favorable impact on consolidated net earnings of the change from the prior year in exchange rates was \$601,000 and \$1.3 million for the quarter and nine months ended March 31, 2007, respectively. The Company generated cash of \$63.2 million from operating activities in the first nine months of fiscal 2007 and cash, cash equivalents and available-for-sale investments were \$230.0 million at March 31, 2007 compared to \$186.5 million at June 30, 2006.

Net Sales

Consolidated net sales for the quarter ended March 31, 2007 were \$60.2 million, an increase of \$5.4 million (9.8%) from the quarter ended March 31, 2006. Consolidated net sales for the nine months ended March 31, 2007 were \$165.1 million, an increase of \$14.5 million (9.6%) from the prior-year period.

Biotechnology net sales, which include sales by R&D Systems' Biotechnology Division, Fortron and BiosPacific, increased \$2.5 million (6.9%) and \$8.4 million (8.4%) for the quarter and nine months ended March 31, 2007, respectively. The Biotechnology net sales increase for the quarter and nine months was primarily due to \$1.6 million and \$5.5 million, respectively, in increased U.S. sales volume by the Biotechnology Division. Sales for the quarter and nine months to pharmaceutical/biotechnology customers and academic customers, the two largest end-user groups of the U.S. market, showed the greatest revenue growth over the prior year. Approximately \$1.2 million of the increase in Biotechnology net sales for the first nine months of fiscal 2007 was the result of price increases that were effective January 1, 2006.

R&D Europe net sales increased \$2.9 million (20.1%) and \$6.1 million (15.5%) for the quarter and nine months ended March 31, 2007, respectively. The effect of changes from the prior year in foreign currency exchange rates used to convert British pounds to U.S. dollars increased R&D Europe net sales approximately \$1.9 million and \$4.2 million for the quarter and nine months ended March 31, 2007, respectively. In British pounds, R&D Europe net sales increased 7.2% and 4.9% for the quarter and nine months ended March 31, 2007, respectively, mainly as a result of increased sales volume.

Hematology net sales decreased \$36,000 (1.0%) and \$23,000 (0.2%) for the quarter and nine months ended March 31, 2007 compared to the same prior-year periods.

Gross Margins

Gross margins, as a percentage of net sales, were as follows:

QUARTER ENDED	NINE MONTHS ENDED
-----	-----

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

	3/31/07	3/31/06	3/31/07	3/31/06
Biotechnology	80.4%	78.8%	80.3%	78.2%
R&D Systems Europe	53.8%	49.2%	52.8%	50.0%
Hematology	43.1%	43.2%	42.4%	42.5%
Consolidated gross margin	80.0%	77.9%	79.4%	77.5%

Biotechnology gross margins as a percentage of net sales for the quarter and nine months ended March 31, 2007 of 80.4% and 80.3% increased from the prior year primarily due to changes in product mix. Biotechnology gross margins were also affected by the sale of inventory acquired from Fortron and BiosPacific in fiscal 2006, which was valued at fair market under purchase accounting. Included in cost of sales for the quarters ended March 31, 2007 and 2006 were \$100,000 and \$397,000, respectively, related to the sale of acquired inventory. Included in cost of sales for the nine months ended March 31, 2007 and 2006 were \$455,000 and \$1.3 million, respectively, related to the sale of acquired inventory. As of March 31, 2007, the total acquired inventory value has been expensed.

R&D Europe's gross margin percentages for the quarter and nine months ended March 31, 2007 were greater than the comparable prior-year periods as a result of favorable exchange rates.

The Company values its manufactured protein and antibody inventory based on a two-year forecast. Quantities in excess of the two-year forecast are considered impaired and not included in the inventory value. Sales of previously impaired protein and antibody inventory for the quarters and nine months ended March 31, 2007 and 2006 were not material.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the quarter and nine months ended March 31, 2007, increased \$328,000 (4.7%) and \$1.8 million (8.4%), respectively, from the same periods of last year. Selling, general and administrative expenses are composed of the following (in thousands):

	QUARTER ENDED		NINE MONTHS ENDED	
	3/31/07	3/31/06	3/31/07	3/31/06

The decrease for the quarter ended March 31, 2007 was mainly due to a \$115,000 decrease in profit sharing expense from the same prior-year quarter. The increase for the nine months ended March 31, 2007 was mainly due to a \$528,000 increase in wages and benefits from the same prior-year period as a result of additional sales, marketing and administrative personnel and a \$141,000 increase in profit sharing expense from the prior-year period.

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

The increase in R&D Europe selling, general and administrative expenses of \$233,000 (12.4%) and \$817,000 (14.3%) for the quarter and nine months ended March 31, 2007, respectively, was primarily due to the change in exchange rates from the prior year used to convert from British pound sterling to U.S. dollars. In British pound sterling, R&D Europe selling, general and administrative expenses increased 0.4% and 3.9% for the quarter and nine months ended March 31, 2007, respectively.

Research and Development Expenses

	QUARTER ENDED		NINE MONTHS ENDED	
	3/31/07	3/31/06	3/31/07	3/31/06

Other Non-operating Expense and Income

Other non-operating expense and income consists mainly of foreign currency transaction gains and losses, rental income, building expenses related to rental property, and the Company's share of losses by equity method investees.

13

	QUARTER ENDED		NINE MONTHS ENDED	
	3/31/07	3/31/06	3/31/07	3/31/06
Foreign currency (gains) losses	\$ 42	\$ (87)	\$ 63	\$ (13)
Rental income	(55)	(287)	(595)	(966)
Real estate taxes, depreciation and utilities	519	520	1,578	1,453
Hemerus Medical, LLC losses	119	83	369	247
Nephromics, LLC losses	142	--	265	--
Total other non-operating expense (income)	\$ 767	\$ 229	\$ 1,680	\$ 721

Through February 2006, the Company had a 10% equity interest in Hemerus Medical, LLC (Hemerus). On March 1, 2006, the Company invested an additional \$750,000, increasing its ownership to 15% and on January 19, 2007, the Company invested an additional \$700,000, increasing its ownership to 18%. At March 31, 2007, the Company's net investment in Hemerus was \$3.3 million. The Company accounts for its investment in Hemerus using the equity method of accounting because Hemerus is a limited liability company. The Company has financial exposure to the losses of Hemerus to the extent of its net investment in that entity. Hemerus' success is dependent, in part, upon its

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

ability to raise financing and to receiving Federal Drug Administration (FDA) clearance to market its products. If such financing or FDA clearance is not received, the Company would potentially recognize an impairment loss to the extent of its remaining net investment.

In September 2006, the Company invested \$7.2 million for an 18% equity interest in Nephromics, LLC (Nephromics). The Company accounts for its investment in Nephromics using the equity method of accounting because Nephromics is a limited liability company. At March 31, 2007, the Company's net investment in Nephromics was \$6.9 million. The Company has financial exposure to any losses of Nephromics to the extent of its net investment in that entity.

Income Taxes

Income taxes for the quarter and nine months ended March 31, 2007 were provided at rates of 35.2% and 34.4%, respectively, of earnings before income taxes compared to 34.7% and 34.0% for the quarter and nine months ended March 31, 2006, respectively. The income tax rate for the quarter ended March 31, 2007 increased from the prior year and from prior quarters as a result of changes in state apportionment estimates. U.S. federal taxes have been reduced by the credit for research and development expenditures, the benefit for extraterritorial income through December 2006 and the manufacturer's deduction available under the American Jobs Creation Act of 2004. Foreign income taxes have been provided at rates that approximate the tax rates in the countries in which R&D Europe operates. Without significant business developments, the Company expects income tax rates for the remainder of fiscal 2007 to range from approximately 33.5% to 34.5%.

Liquidity and Capital Resources

At March 31, 2007, cash and cash equivalents and available-for-sale investments were \$230.0 million compared to \$186.5 million at June 30, 2006. The Company believes it can meet its future cash, working capital and capital addition requirements through currently available funds, cash generated from operations and maturities of available-for-sale investments. The Company has an unsecured line of credit of \$750,000. The interest rate on the line of credit is at prime. There were no borrowings on the line in the prior or current fiscal year.

14

Cash Flows From Operating Activities

The Company generated cash of \$63.2 million from operating activities in the first nine months of fiscal 2007 compared to \$56.3 million in the first nine months of fiscal 2006. The increase from the prior year was primarily due to an increase in net earnings in the current year of \$8.3 million, partially offset by an increase in trade accounts receivable and inventories due to increased sales.

Cash Flows From Investing Activities

Capital expenditures for fixed assets for the first nine months of fiscal 2007 and 2006 were \$4.3 million and \$2.8 million, respectively. Included in capital expenditures for the first nine months of fiscal 2007 and 2006 were \$2.6 million and \$1.2 million, respectively, for building renovation and construction. The remaining capital additions in the first nine months of fiscal 2007 and 2006 were for laboratory and computer equipment. Expenditures for laboratory and computer equipment in the fourth quarter of fiscal 2007 are expected to be approximately \$1.0 million. The Company is

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

currently constructing additional laboratory space at its Minneapolis facility. The additional construction cost is estimated at \$5.4 million and is expected to be completed in mid-fiscal 2008. These expenditures are expected to be financed through currently available funds and cash generated from operating activities.

During the nine months ended March 31, 2007, the Company purchased \$34.2 million and had sales or maturities of \$17.7 million of available-for-sale investments. During the nine months ended March 31, 2006, the Company purchased \$73.8 million and had sales or maturities of \$53.4 million of available-for-sale investment. The Company's investment policy is to place excess cash in bonds and other investments with maturities of less than three years. The objective of this policy is to obtain the highest possible return with minimal risk, while keeping the funds accessible.

In September 2006, the Company invested \$7.2 million for an 18% equity interest in Nephromics, LLC and in January 2007, the Company invested an additional \$700,000 in Hemerus Medical, LLC, increasing its ownership percentage to 18%. The investments were financed through cash and equivalents on hand.

The Company acquired Fortron and BiosPacific effective July 1, 2005 for an aggregate purchase price of \$20 million. Cash acquired in the transactions was \$413,000. The net acquisition cost of \$19.6 million was financed through cash and equivalents on hand at July 1, 2005.

Cash Flows From Financing Activities

Cash of \$1.6 million and \$12.4 million was received during the nine months ended March 31, 2007 and 2006, respectively, from the exercise of stock options. The Company also recognized excess tax benefits from stock option exercises of \$329,000 and \$7.9 million for the nine months ended March 31, 2007 and 2006, respectively.

In the first nine months of fiscal 2007 and 2006, the Company purchased 22,400 shares and 22,541 shares of common stock, respectively, for its employee stock bonus plans at a cost of \$1.2 million and \$1.3 million, respectively.

In October 2006, the Company repaid its mortgage debt. The total payment of \$13.8 million included the mortgage principal balance, accrued interest and a 5% prepayment penalty of \$651,000. Cash and equivalents on hand were used to settle the debt.

The Company has never paid cash dividends and has no plans to do so in fiscal 2007.

Critical Accounting Policies

The Company's significant accounting policies are discussed in the Company's Annual Report on Form 10-K for fiscal 2006. The application of certain of these policies require judgments and estimates that can affect the results of operations and financial position of the Company. Judgments and estimates are used for, but not limited to, accounting for the allowance for doubtful accounts, inventory valuation and allowances, impairment of goodwill, intangibles and other long-lived assets, accounting for investments and income taxes. There have been no significant changes in estimates in fiscal 2007 which would require disclosure. There have been no changes to the Company's policies in fiscal 2007.

Recent Accounting Pronouncements

In May 2005, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 154, Accounting Changes and Error Corrections. The Statement replaces APB Opinion No. 20, Accounting Changes and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements. SFAS No. 154 requires companies to apply voluntary changes in accounting principles retrospectively whenever practicable. The requirement is effective for the Company beginning in fiscal 2007. Adoption of the Statement did not have an impact on the Company's prior consolidated financial statements as it is prospective in nature.

In June 2006, the FASB issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109. FIN 48 requires disclosures of additional quantitative and qualitative information regarding uncertain tax positions taken for tax-return purposes that have not been recognized for financial reporting, along with analysis of significant changes during each period. The Interpretation is effective for the Company in fiscal 2008. The Company is currently evaluating the provisions of FIN 48, but it is not expected to have a material impact on the Company's consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. The Statement establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. SFAS No. 157 applies only to fair value measurements that are already required or permitted by other accounting standards and is effective for the Company in fiscal 2009. The Company is currently evaluating the impact of adopting SFAS No. 157, but it is not expected to have a material impact on the Company's consolidated financial statements.

In September 2006, the Securities and Exchange Commission released Staff Accounting Bulletin 108 (SAB 108). SAB 108 provides interpretative guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. SAB 108 is effective for the Company for fiscal year ended June 30, 2007. The Company is currently evaluating the impact of adopting SAB 108, but it is not expected to have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. The Statement permits entities to choose to measure certain financial instruments at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. SFAS No. 159 is effective for the Company in fiscal 2009. The Company is currently evaluating the impact of adopting SFAS No. 159, but it is not expected to have a material impact on the Company's consolidated financial statements.

Forward Looking Information and Cautionary Statements

This filing contains forward-looking statements within the meaning of the Private Litigation Reform Act. Forward-looking statements include those regarding the Company's expectations as to compensation expense resulting from stock option expensing, the effective tax rate, the sufficiency of currently available funds for meeting the Company's needs and capital expenditures. These statements involve risks and uncertainties that may affect the actual results of operations. The following important factors,

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

among others, have affected and, in the future, could affect the Company's actual results: the introduction and acceptance of new biotechnology and hematology products, the levels and particular directions of research by the Company's customers, the impact of the growing number of producers of biotechnology research products and related price competition, the retention of hematology OEM (private label) and proficiency survey business, the impact of currency exchange rate fluctuations, the costs and results of research and product development efforts of the Company and of companies in which the Company has invested or with which it has formed strategic relationships, and the success of financing efforts by companies in which the Company has invested. For additional information concerning such factors, see the Company's Annual Report on Form 10-K as filed with the Securities and Exchange Commission.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At March 31, 2007, the Company had a professionally managed investment portfolio of fixed income securities, excluding those classified as cash and cash equivalents, of \$100.4 million. These securities, like all fixed income instruments, are subject to interest rate risk and will decline in value if market interest rates increase.

The Company operates internationally, and thus is subject to potentially adverse movements in foreign currency rate changes. The Company is exposed to market risk from foreign exchange rate fluctuations of the Euro and the British pound to the U.S. dollar as the financial position and operating results of the Company's U.K. subsidiary and European operations are translated into U.S. dollars for consolidation. At the current level of R&D Europe operating results, a 10% increase or decrease in the average exchange rate used to translate operating results into U.S. dollars would have an approximate \$1.7 million effect on consolidated operating income annually.

The Company's exposure to foreign exchange rate fluctuations also arises from transferring funds from the U.K. subsidiary to the U.S. subsidiary and from transferring funds from the German subsidiary and French sales office to the U.K. subsidiary. At March 31, 2007 and 2006, the Company had \$5.0 million and \$1.1 million, respectively, of dollar denominated intercompany debt at its U.K. subsidiary. At March 31, 2007 and 2006, the U.K. subsidiary had \$732,000 and \$729,000, respectively, of dollar denominated intercompany debt from its European operations. These intercompany balances are revolving in nature and are not deemed to be long-term balances. The Company's U.K. subsidiary recognized net foreign currency losses of 21,000 British pounds (\$42,000) and 36,000 British pounds (\$63,000) for the quarter and nine months ended March 31, 2007, respectively. For the quarter and nine months ended March 31, 2006, the Company's UK subsidiary recognized net foreign currency gains of 50,000 British pounds (\$87,000) and 8,000 British pounds (\$13,000), respectively. The Company does not enter into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes on intercompany foreign currency denominated balance sheet positions.

ITEM 4 - CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
