Grupo Radio Centro Reports Second Quarter  
and First Half 2004 Results

---

Mexico City, July 19, 2004 - Grupo Radio Centro, S.A. de C.V. (NYSE: RC, BMV: RCENTRO-A) (the "Company"), Mexico's leading radio broadcasting company, announced today its results of operations for the second quarter and first half ended June 30, 2004. All figures were prepared in accordance with generally accepted accounting principles in Mexico and have been restated in constant pesos as of June 30, 2004.

For the second quarter of 2004, broadcasting revenue was Ps. 116,660,000, representing a decrease of 56.2% compared to Ps. 266,292,000 reported for the same period of 2003. This decrease was mainly attributable to higher advertising expenditures from political parties during 2003, in connection with the congressional elections that were held in July 2003, as well as lower broadcasting revenue due to the fact that the Company no longer received news services from Infored during the second quarter of 2004.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) during the second quarter of 2004 were Ps. 88,547,000, representing a decrease of 35.1% compared to Ps. 136,411,000 reported for the same period of 2003. This decrease was mainly attributable to lower costs from the production of the news program by Infored, which was produced for the Company until the end of the first quarter of 2004.

For the second quarter ended June 30, 2004, the Company reported broadcasting

income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) of Ps. 28,113,000, representing a decrease of 78.4% compared to a broadcasting income of Ps. 129,881,000 reported for the same period in 2003. This decline was mainly attributable to the decrease in broadcasting revenue.

### Grupo Radio Centro, S.A. de C.V. Second Quarter and First Half 2004 Results

Depreciation and amortization for the second quarter 2004 amounted to Ps. 23,233,000, an 18.0% decrease compared to Ps. 28,324,000 reported for the same period of 2003. This reduction was mainly due to the goodwill write-off in connection with a Company subsidiary during the second quarter 2003.

For the second quarter of 2004, the Company's corporate, general and administrative expenses were Ps. 4,703,000, compared to Ps. 17,914,000 reported for the same period of 2003. This 73.7% decrease was due to lower fees, since there were no payments made to Infored related to the production of news programming during the second quarter of 2004.

Primarily as a result of the decrease in broadcasting income, the Company reported operating income of Ps. 177,000 for the second quarter of 2004 compared to operating income of Ps. 83,643,000 reported for the same period of 2003.

The Company's comprehensive financing cost was Ps. 14,538,000, an increase of 100.2% compared to a comprehensive financing cost of Ps. 7,263,000 reported for the same period of 2003. This unfavorable change was primarily attributable to an increase in foreign exchange loss, net, from Ps. 219,000 in the second quarter 2003 to Ps. 7,062,000 for the same period of 2004 related to the contingent liability in connection with the arbitration proceeding decision, which was announced in March 2004.

During the period ended June 30, 2004, other expenses, net, were Ps. 11,382,000, compared to Ps. 17,972,000 reported for the same period in 2003. This 36.7% decrease was mainly attributed to lower legal expenses in 2004 compared to the same period of 2003.

The Company reported a loss before provisions for income tax and employee profit sharing of Ps. 25,743,000, compared to a gain before provisions for income tax and employee profit sharing of Ps. 58,408,000 reported for the second quarter 2003.

The Company recorded a reduction in provisions for income tax and employee profit sharing for the second quarter of 2004 of Ps. 2,738,000 compared to a provision of Ps. 2,138,000 for the same period of 2003.

As a result of the foregoing, the Company's net loss for the second quarter 2004 was Ps. 23,005,000, compared to net income of Ps. 56,270,000 reported for same period of 2003.

### First Half Results

For the six months ended June 30, 2004, broadcasting revenue was Ps. 233,300,000, a 49.6% decrease compared to Ps. 462,490,000 reported for the same period of 2003. This decrease was mainly attributable to higher advertising expenditures from political parties during 2003, in connection with the congressional elections held in July 2003, as well as lower broadcasting revenue due to the fact that the Company no longer received news services from Infored since the end of the first quarter of 2004.

Grupo Radio Centro, S.A. de C.V.  
Second Quarter and First Half 2004 Results

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) were Ps. 201,119,000, a 20.3% decrease compared to Ps. 252,261,000 reported for the first half of 2003. This decrease in broadcasting expenses was primarily attributable to lower costs from the production of news programming, which Infored produced for the Company until the end of the first quarter of 2004.

Broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) was Ps. 32,181,000, representing a decrease of 84.7% compared to Ps. 210,229,000 reported for the first half of 2003. This decrease was mainly attributable to the decrease in broadcasting revenue mainly from political advertising for the first half of 2004 compared to the same period of 2003.

Depreciation and amortization was Ps. 46,602,000, a decrease of 19.4% compared to Ps. 57,797,000 reported for the first half of 2003. This decrease was mainly due to the goodwill write-off in connection with a Company subsidiary during the first half of 2003.

The Company's corporate, general and administrative expenses during the first half of 2004 were Ps. 12,031,000, a decrease of 59.4% compared to Ps. 29,636,000 reported for the same period of 2003. This decrease was mainly due to lower fees paid to Infored, which ceased production of news services for the Company at the end of the first quarter of 2004.

As a result of the decrease in broadcasting income, the Company reported an operating loss of Ps. 26,452,000 for the first half of 2004, compared to operating income of Ps. 122,796,000 reported for the same period of 2003.

The Company's comprehensive financing cost was Ps. 17,960,000; a reduction of 11.7% compared to a comprehensive financing cost of Ps. 20,337,000 for the first half of 2003. This favorable change is mainly attributable to a reduction in the foreign exchange loss, net, to Ps. 5,401,000 from Ps. 7,413,000 for the first half of 2003.

Other expenses, net, for the first half of 2004 were Ps. 21,629,000, a 39.7% decrease compared to Ps. 35,843,000 reported for the same period of 2003. This decrease is attributable to severance payments made during the first quarter of 2003 in connection with personnel reductions, as well as lower legal expenses in 2004, compared to the same period of 2003.

For the first half of 2004, the Company reported a loss before provisions for income tax and employee profit sharing of Ps. 66,041,000, compared to income before provisions for income tax and employee profit sharing of Ps. 66,616,000 reported for the same period in 2003. During the first half of 2004, the Company recorded a reduction in provisions for income tax and employee profit sharing of Ps. 2,738,000 compared to a provision for income tax and employee profit sharing of Ps. 2,138,000 for the same period in 2003.

As a result of the foregoing, the Company had a net loss of Ps. 63,303,000 for the first half of 2004 compared to net income of Ps. 64,478,000 for the first half of 2003.
