Chairman's Letter

Dear Shareholder:

I am pleased to report that over the three-month period ended October 31, 2005, the Nuveen Senior Income Fund continued to provide you with attractive monthly income and the opportunity for enhanced diversification within your investment portfolio.

As you'll see from the accompanying portfolio managers' comments, we continued to take steps during this period that we believed would help your Fund perform well over the long-term. For more than 100 years, Nuveen has specialized in offering quality investments to those seeking to accumulate and preserve wealth. Our mission continues to be to assist you and your financial advisor by offering the investment services and products that can help you secure your financial objectives. We thank you for choosing Nuveen Investments as a partner as you work toward that goal.

Sincerely,

TIMOTHY R. SCHWERTFEGER
Chairman of the Board

Portfolio Managers' Comments

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

The Fund's investment portfolio is managed by Gunther Stein and Lenny Mason of Symphony Asset Management, LLC, an affiliate of Nuveen Investments. Gunther and Lenny have more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high-yield debt. Here Gunther and Lenny talk about their management strategy and the performance of the Fund for the period ended October 31, 2005.

WHAT WERE YOUR PRIMARY STRATEGIES AND FOCUSES FOR MANAGING THE FUND DURING THE 3-MONTH REPORTING PERIOD?

We continued to employ a value-oriented investment management strategy for NSL. Our purchase and sale decisions were based on a range of factors, including an assessment of each company's credit fundamentals, cash flow and asset quality. Generally, we continued to use the robust new issue calendar to upgrade the portfolio and buy companies we believed were defensive in nature. We did not believe that this three-month period was the appropriate time to be reaching for yield or become involved with what we considered to be marginal credits.

We also avoided the vast majority of second lien loans as we do not believe the risk/return profile is currently attractive for most of these loans.

OVER THIS PERIOD, HOW DID THE FUND PERFORM?

Total returns for the Fund, as well as for a comparative index, are presented in the accompanying table.

TOTAL RETURNS ON NET ASSET VALUE*
For periods ended 10/31/05

	3-Mo.	1-Year	5-Year
NSL	1.22%	6.00%	6.65%
CSFB Leveraged Loan Index(1)	1.50%	5.87%	5.17%

*Three-month returns are cumulative; 1-yr and 5-yr returns are annualized.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

Over this three-month period, the Fund modestly underperformed the return of the CSFB Leveraged Loan Index.

One reason for the difference between the Fund's return and the CSFB Index over this period is that the Fund does not necessarily hold loans in the same sectors and in the same proportion as the CSFB index. This means that the Fund should not be expected to closely track the index over short periods of time. However, we do believe that a comparison with the CSFB Index does provide some value as a comparative measure for assessing the Fund's performance over longer time periods.

In addition to composition differences, the Fund's performance relative to the index during this three-month period also was affected by the Fund's use of financial leverage. Leveraging can provide opportunities for additional income for common shareholders, but the strategy does add volatility to a Fund's net

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

asset value and share price. During periods of rising interest rates, as was the case during this three-month period, the extent of the leverage benefit may be reduced.

The return of NSL over the period benefited from the strong overall performance of loans issued by Norwood Promotional Products and Federal Mogul. While there were no holdings that had a material, detrimental impact on the Fund's return over the three-month period, its holdings of Primedia, Euramax and Movie Gallery loans all lost value over this period.

WHAT ABOUT DIVIDENDS AND SHARE PRICES?

The Fund uses financial leverage in an effort to enhance the income available to pay common share dividends. While leveraging exposes the Fund to greater share price and net asset value volatility, the Fund's managers believe that the potential benefits of this strategy outweigh the risks. The extent of the leverage benefit is tied in part to the short-term rates the Fund pays its Taxable Auction Preferred shareholders. As shorter-term rates rise, the amount of this benefit tends to be reduced.

Over this three-month period, NSL maintained a steady monthly dividend of \$0.51 per share.

The Fund seeks to pay stable dividends at rates that reflect its past results and projected future performance. During certain periods, the Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If the Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if the Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. The Fund will, over time, pay all of its net investment income as dividends to shareholders. As of October 31, 2005, NSL had a positive UNII balance for both financial statement and tax purposes.

As of October 31, 2005, NSL was trading at a -4.74% discount to its net asset value, compared with an average premium of +0.37% for the entire three-month reporting period.

- (1) The CSFB Leveraged Loan Index, which consists of approximately \$150 billion of tradable term loans with at least one year to maturity and rated BBB or lower.

=====

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Senior Loans in which the Fund invests generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate ("LIBOR"), or (ii) the prime rate offered by one or more major United States banks.

The Fund did not have any unfunded loan commitments at October 31, 2005.

Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.

* Senior Loans in the Fund's portfolio generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans in the Fund's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Fund's portfolio may be substantially less than the stated maturities shown.

** Ratings below Baa by Moody's Investor Service, Inc. or BBB by Standard & Poor's Group are considered to be below investment grade.

144A Securities are exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.

TBD Senior Loan purchased on a when-issued or delayed delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore a weighted average coupon rate is not available prior to settlement. At settlement, if still unknown, the borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

(PIK) In lieu of cash payment, interest accrued on "Payment in Kind" investment increases principal outstanding.

FINANCIAL STATEMENTS (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The fund (the "Fund") covered in this report and its corresponding Common share New York Stock Exchange symbol is Nuveen Senior Income Fund (NSL). The Fund is registered under the Investment Company Act of 1940, as amended, as a closed-end management investment company.

The Fund seeks to provide a high level of current income by investing primarily in senior loans whose interest rates float or adjust periodically based on a benchmark interest rate index.

Effective January 1, 2005, Nuveen Institutional Advisory Corp. ("NIAC"), the Funds' previous Adviser, and its affiliate, Nuveen Advisory Corp. ("NAC"), were merged into Nuveen Asset Management ("NAM"), each wholly owned subsidiaries of Nuveen Investments, Inc. ("Nuveen"). As a result of the merger, NAM is now the Adviser to all funds previously advised by either NIAC or NAC.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of senior loans, bonds and other securities in the Fund's investment portfolio are generally provided by one or more independent pricing services approved by the Fund's Board of Trustees. The pricing services typically value exchange-listed securities at the last sales price on that day; and value senior loans, bonds and other securities traded in the over-the-counter market at the mean of the highest bona fide bid and lowest bona fide asked prices when current quotations are readily available. The pricing services or, in the absence of a pricing service for a particular investment, the Board of Trustees of the Fund, or its designee, may establish fair market value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustees' designee. High-grade short-term investments are valued at amortized cost, which approximates market value.

The senior loans in which the Fund invests are not listed on an organized exchange and the secondary market for such investments may be less liquid relative to markets for other fixed income securities. Consequently, the value of senior loans, determined as described above, may differ significantly from the value that would have been determined had there been an active market for

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

that loan.

Investment Transactions

Investment transactions are recorded on a trade date basis. Trade date for senior loans purchased in the "primary market" is considered the date on which the loan allocations are determined. Trade date for senior loans purchased in the "secondary market" is the date on which the transaction is entered into. Realized gains and losses from investment transactions are determined on the specific identification method. Investments purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Fund maintains liquid assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At October 31, 2005, the Fund had outstanding when-issued and delayed delivery purchase commitments of \$5,522,500.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also includes paydown gains and losses on senior loans. Fee income consists

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

primarily of amendment fees. Amendment fees are earned as compensation for evaluating and accepting changes to the original loan agreement and are recognized when received.

Income Taxes

The Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

The Fund declares monthly income distributions to Common shareholders. Net realized capital gains from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Taxable Auctioned Preferred Shares

The Fund has issued and outstanding 1,840 shares of Series TH, Taxable Auctioned Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every 28

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The Fund has also effected financial leverage by borrowing, as described in footnote 8.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on the Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. FUND SHARES

Transactions in Common shares were as follows:

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, and timing differences in recognizing certain gains and losses on investment transactions.

At October 31, 2005, the cost of investments was \$410,273,823.

The net unrealized depreciation of investments at October 31, 2005, aggregated \$7,459,475 of which \$4,919,445 related to appreciated investments and \$12,378,920 related to depreciated investments.

The tax components of undistributed net ordinary income and net realized gains at July 31, 2005, the Fund's last fiscal year end, were as follows:

```

-----
Undistributed net ordinary income *                $3,141,702
Undistributed net long-term capital gains           --
=====
  
```

* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any. Undistributed net ordinary income (on a tax basis) has not been reduced for the dividend declared on July 1, 2005, paid on August 1, 2005.

The tax character of distributions paid during the fiscal year ended July 31, 2005, the Fund's last fiscal year end, was designated for purposes of the dividends paid deduction as follows:

2004

```

-----
Distributions from net ordinary income **          $18,143,299
Distributions from net long-term capital gains     --
=====
  
```

** Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

At July 31, 2005, the Fund's last fiscal year end, the Fund had unused capital loss carryforwards of \$25,621,182 available for federal income tax purposes to

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

be applied against future capital gains, if any. If not applied, \$14,916,928 of the carryforward will expire in the year 2010 and \$10,704,254 will expire in 2011.

5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within the Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for the Fund is based upon the average daily Managed Assets as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE
For the first \$1 billion	.6500%
For the next \$1 billion	.6375
For the next \$3 billion	.6250
For the next \$5 billion	.6000
For Managed Assets over \$10 billion	.5750

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion(2)	.1400

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into a Sub-Advisory Agreement with Symphony Asset Management, LLC ("Symphony"), an indirect wholly owned subsidiary of Nuveen, under which Symphony manages the investment portfolio of the Fund. Symphony is compensated for its services to

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

the Fund from the management fee paid to the Adviser.

The Fund pays no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds.

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

For the first ten years of the Fund's operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING OCTOBER 31,		YEAR ENDING OCTOBER 31,	
1999*	.45%	2005	.35%
2000	.45	2006	.25
2001	.45	2007	.15
2002	.45	2008	.10
2003	.45	2009	.05
2004	.45		

* From the commencement of operations.

The Adviser has not agreed to reimburse the Fund for any portion of its fees and expenses beyond October 31, 2009.

6. COMMITMENTS

Pursuant to the terms of certain of the variable rate senior loan agreements, the Fund may have unfunded senior loan commitments. The Fund will maintain with its custodian, cash, liquid securities and/or liquid senior loans having an aggregate value at least equal to the amount of unfunded senior loan commitments. At October 31, 2005, there were no such unfunded senior loan commitments.

7. SENIOR LOAN PARTICIPATION COMMITMENTS

With respect to the senior loans held in the Fund's portfolio, the Fund may: 1) invest in assignments; 2) act as a participant in primary lending syndicates; or 3) invest in participations. If the Fund purchases a participation of a senior loan interest, the Fund would typically enter into a contractual agreement with the lender or other third party selling the participation, rather than directly with the Borrower. As such, the Fund not only assumes the credit risk of the Borrower, but also that of the Selling Participant or other persons interpositioned between the Fund and the Borrower.

The Fund had the following participation commitments outstanding at October 31, 2005:

COUNTERPARTY	COMMITMENT AMOUNT	MARKET VALUE
--------------	-------------------	--------------

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

Bear, Stearns & Co., Inc.	\$2,000,000	\$1,967,500
Morgan Stanley	1,640,000	1,613,350

8. BORROWINGS

In accordance with the Fund's current investment policies, the Fund may utilize financial leverage for investment purposes in an amount currently anticipated to represent approximately 40% of the Fund's total assets, and in no event exceeding 50% of the Fund's total assets.

The Fund has entered into a commercial paper program (\$110 million maximum) with Bank One's conduit financing agency, Falcon Asset Securitization Corp. ("Falcon"), whose sole purpose is the issuance of high grade commercial paper. Falcon uses the proceeds to make advances to the Fund and to many other borrowers who comprise Falcon's total borrowing base. For the three months ended October 31, 2005, the average daily balance of borrowings under the commercial paper program agreement was \$103 million. The average annualized interest rate for funding and program usage fees on such borrowings was 3.71%.

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

The Fund has also entered into a \$110 million liquidity facility. If the facility is utilized, interest on the borrowings would be charged a variable interest rate. An unused commitment fee of .095% on 102% of the unused portion of the \$110 million facility is charged. There were no borrowings under the revolving credit agreement during the three months ended October 31, 2005.

9. SUBSEQUENT EVENT - DISTRIBUTIONS TO COMMON SHAREHOLDERS

Reinvest Automatically
EASILY AND CONVENIENTLY

NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN EXCHANGE-TRADED
CLOSED-END FUNDS
DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.
