Compensation and Other Programs

Fees. Non-employee directors were paid an annual retainer of \$40,000 \$20,000 in cash and \$20,000 in shares of Dominion stock. From January to April, they also received \$1,200 in cash per Board or committee meeting attended. For the remainder of the year they received \$1,500 in cash per Board or committee meeting attended. Each committee chairman was paid an additional \$5,000 annual retainer.

Deferred Cash Compensation Plan. Directors may elect to defer their cash fees under this plan until they reach retirement or a specified age. The deferred fees are credited to either an interest bearing account or a Dominion common stock equivalent account. Interest or dividend equivalents accrue until distributions are made. A director will be paid in cash or stock according to the election made.

Stock Compensation Plan. The stock portion of the directors' retainer is paid under this plan. Directors have the option to defer receipt of the stock. If a director elects this option, the shares are held in trust until the director's retirement and the dividends on those shares are reinvested. However, the director retains all voting and other rights as a shareholder.

Stock Accumulation Plan. Upon election to the Board, a non-employee director receives a one-time award under this plan. The award is in Stock Units, which are equivalent in value to Dominion common stock. The award amount is determined by multiplying the director's annual cash retainer by 17, then dividing the result by the average price of Dominion common stock on the last trading days of the three months before the director's election to the Board. The Stock Units awarded to a director are credited to a book account. A separate account is credited with additional Stock Units equal in value to dividends on all Stock Units held in the director's account. A director must have 17 years of service to receive all of the Stock Units awarded and accumulated under this plan. Reduced distributions may be made at the discretion of the Board or where a director has at least 10 years of service.

Charitable Contribution Program. This program was discontinued, therefore directors elected to the Board after January 28, 2000 do not participate. Dominion had offered its directors participation in a Directors' Charitable Contribution Program. The Program is funded by life insurance policies purchased by Dominion on the directors. The directors derive no financial or tax benefits from the Program, because all insurance proceeds and charitable tax deductions accrue solely to Dominion. However, upon the death of a director, the company will donate an aggregate of \$50,000 per year for ten years to one or more qualifying charitable organizations recommended by that director.

Matching Gifts Program. Directors may give up to \$1,000 per year to 501(c)(3) organizations of their choice and Dominion will match their donations on a 1-to-1 basis, with a maximum of \$5,000 of matching funds per director per year. If their donation is to an organization on whose board they serve or for which they volunteer more than 50 hours of work during a year, Dominion will match the donation on a 2-to-1 basis.

The Audit Committee and Auditors

Audit Committee Report

Our Committee operates under a written charter adopted by the Board in 2001. We are currently in the process of amending our charter to comply with the soon to be effective requirements of the Sarbanes-Oxley Act of 2002 and the Securities and Exchange Commission. We also plan to incorporate many of the proposed Audit Committee rule revisions published by the New York Stock Exchange, although it is unclear at this point when and whether these proposals will be adopted.

Since the 2002 annual meeting, our committee has increased the frequency of its review and oversight of Dominion's financial reporting process, and has been addressing the new requirements as they have taken effect. We have updated our meeting schedule and agendas to include discussions and reviews of Dominion's disclosure controls and procedures, new charter requirements, new auditor independence requirements, changes under consideration for Dominion's code of ethics and other issues.

We review and discuss the following with management and the independent auditors:

quarterly* and year-end results, financial statements and reports prior to public disclosure;

management's disclosure committee and Dominion's disclosure controls and procedures, including internal controls;

risk management policies and procedures, including reports from the Board's Risk Oversight Committee regarding Dominion's trading activities; and

Dominion's compliance program for employees.

We also meet with the internal and independent auditors, with and without management present, to discuss the plans for, and scope and results of, their examinations, Dominion's internal controls and the overall quality of Dominion's financial reporting.

Management has represented that Dominion's consolidated financial statements were prepared in accordance with generally accepted accounting principles. We reviewed and discussed the audited consolidated financial statements with management and the independent auditors. In accordance with the requirements established by the Statement on Auditing Standards No. 61, *Communication with Audit Committees* (as amended by Auditing Standards 89 and 90), this discussion included a review of significant accounting estimates and controls, and the quality of Dominion's accounting practices.

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form DEF 14A

We have received written disclosures and a letter from our independent auditors required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees* and have discussed with our independent auditors the issue of their independence from Dominion, including any non-audit services performed by them.

2002 Consolidated Financial Statements

Relying on these reviews and discussions, we recommended to the Board of Directors, and the Board approved, that the audited financial statements be included in Dominion's Annual Report on Form 10-K for the year ended December 31, 2002, for filing with the Securities and Exchange Commission.

Independent Auditors for 2003

Our Committee discussed with management and reviewed with the independent auditors their plans and proposed fees for auditing the 2003 consolidated financial statements of Dominion and its subsidiaries. Based on our discussion and review, we have retained and the Board has designated Deloitte & Touche LLP, independent certified public accountants, as Dominion's independent auditors for 2003. We also approved the fees for such services.

We also discussed the use of Deloitte & Touche for non-audit services in 2003, and have established certain specific services, subject to fee limits, for which Dominion may retain the firm. We determined that such services do not impair Deloitte & Touche's independence, and that it is more economical or efficient to use them in such areas. Retaining Deloitte & Touche for any other specific non-audit services will require prior approval by our Committee or Chairman. Furthermore, where appropriate, we have decided that Dominion will continue to seek competitive bids for non-audit services.

Organization, Compensation & Nominating Committee Report

Compensation Philosophy

Toward the end of 2002, our Committee took the opportunity to re-evaluate our entire executive compensation program in light of the significant changes and volatility within the stock market generally and our industry sector specifically. In October, our Committee secured the services of a compensation consultant to report directly to us. In order to provide an entirely fresh perspective, we selected a consultant that was different from the consultant that the Committee and management have used for the past several years. We asked our new consultant to analyze our practices as compared to our peers and to include in their analysis all executive benefits plans, programs, agreements and arrangements.

As a result of this review, we have determined that we must, over time, re-balance our executive compensation program to provide the appropriate mix of base salary, annual and long-term incentives that will attract and retain a superior management team under any economic circumstance. In doing so, we maintain our belief that aligning our officers' financial success with the financial success of our shareholders is vitally important. We will continue to place a substantial portion of our executives' annual pay at risk and tied to the achievement of financial performance measures. We also will continue to place a strong emphasis on stock ownership, but will move away from stock option grants and toward other forms of equity compensation for our long-term program.

2002 Compensation

Our 2002 executive compensation program consisted of three basic components:

Base Salary

Annual Incentives

Long-Term Incentives

Base Salary

As reported last year, our Committee did not increase our executives' base salaries for 2002. However, we continue to target executive base salaries between the median and 75th percentile of base salaries of similar positions at a peer group of diversified energy companies and other businesses with which we compete on a national basis. We believe maintaining this target supports our philosophy, is in keeping with market data and contributes to our effort to re-balance our executive compensation program.

Executive Officers. No increases were made to executive base salaries in 2002, with the exception of increases related to promotions.

Chief Executive Officer. Mr. Capps' base salary did not change from 2001 to 2002.

Annual Incentives

Under the annual incentive program, if goals are achieved or exceeded, the executive's total cash compensation for the year is targeted to be between the median and 75th percentile of total cash compensation for similar positions at companies in our executive labor market.

Under this program our Committee establishes target awards for each executive officer. These target awards are expressed as a percentage of the individual executive's base salary (for example, 40% x base salary). The target award is the amount of cash that will be paid, at year-end, if the executive achieves 100% of the goals established at the beginning of the year. We also establish a threshold or minimum acceptable level of financial performance. If this threshold is not met, no executive receives an annual bonus. Actual bonuses, if any, are based on a pre-established formula and may exceed 100% of the target award.

Executive Officers. For Dominion's executive officers, four performance criteria were established for the 2002 annual incentive plan: corporate earnings per share; business unit earnings per share; operating goals and goals resulting from process improvements under the Six Sigma discipline. Each executive's goals were weighted according to his or her responsibilities.

Table of Contents

Our Committee established and approved the goals at the beginning of 2002. At year-end, we compared the company's actual financial performance with the consolidated and business unit earnings per share goals. For 2002, these goals were substantially achieved. Earnings per share for the business segments are reported in the Management Discussion and Analysis of Operations section of our 2002 Annual Report to Shareholders.

Annual bonuses paid to the named executives are detailed in the Summary Compensation Table on p. 14.

Chief Executive Officer. At the beginning of 2002, we approved consolidated earnings per share and Six Sigma goals for Mr. Capps. Because our goals for 2002 were achieved, we approved an annual cash bonus of \$1,300,000 for Mr. Capps.

Long-Term Incentives

We continue to believe that our long-term incentive programs play a critical part in our compensation practices and philosophy. We do not plan to grant stock options in the foreseeable future, but will look to other forms of equity compensation to comprise the long-term incentive component as we work toward re-balancing our entire compensation program. We believe that equity compensation remains the strongest form of long-term incentives and underscores commitment to Dominion's shareholders while rewarding performance.

Executive Officers. In 2002 our Committee made a grant of stock options to Mr. Radtke to bring his overall compensation in line with other senior management. No other grants of options or restricted stock were made to the named executive officers.

Chief Executive Officer. Mr. Capps received no restricted stock or stock option grants during 2002.

Stock Ownership

Our Committee reconfirmed stock ownership guidelines for our executives (outlined below). We believe these guidelines and management's internal policies emphasize stock ownership and retention that align management with the interests of our shareholders. While the enactment of Sarbanes-Oxley Act has eliminated some of the tools we had provided to assist executives in meeting the guidelines, we continue to encourage our executive officers to accumulate shares to meet the guidelines within five years.

Dominion Resources, Inc.

Stock Ownership Guidelines

| <u>Position</u> | <u>Share Ownership</u> |
|--|------------------------|
| Chairman, Chief Executive Officer | 145,000 |
| Executive Vice President CEO Operating Companies | 35,000 |
| Senior Vice President | 20,000 |
| Vice President | 10,000 |

Deductibility of Compensation

Under Section 162(m) of the Internal Revenue Code, Dominion may not deduct certain forms of compensation in excess of \$1 million paid to our CEO or any of the four other most highly compensated executive officers. However, certain performance-based compensation is specifically exempt from the deduction limit.

It is our intent to provide competitive executive compensation while maximizing the company's tax deduction. However, we reserve the right to approve, and in some cases have approved, non-deductible compensation if we believe it is in the company's best interest.

Dominion Pension Plan. Benefits under the Pension Plan are based on:

highest average base salary over a five-year period during the ten years preceding retirement;

years of credited service;

age at retirement; and

the offset of Social Security benefits.

Dominion provides a Special Retirement Account (SRA) feature to the Pension Plan. This account is credited with two percent of an employee's base salary earned each year. Account balances are credited with earnings based on the 30-year Treasury rate and may be taken as a lump sum or an annuity at retirement. The above table includes the effect of SRA earnings converted to an annual annuity.

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form DEF 14A

In addition, certain officers, if they reach a specified age while still employed, will be credited with additional years of service. For Messrs. Capps, Farrell, Chewning, Roach and O Hanlon, credited years of service at age 60 would be 30 years. Other retirement agreements and arrangements for the named executives are described in Other Executive Agreements and Arrangements.

Dominion Benefit Restoration Plan. The Pension Plan pays a benefit that is calculated on average base salary over a five-year period. In some years our executives' base salaries were set below the competitive market median in order to more closely link annual pay to company performance through the incentive programs. Under this Restoration Plan, we calculate a market-based adjustment to base salary in those years when base salary was below the market median. The difference between the benefit calculated on the market-based salary and the benefit provided by the Retirement Plan is paid to the executive under the Restoration Plan.

In 2002, a market-based adjustment to Dominion's executive base salaries was not necessary.

Also, the Internal Revenue Code imposes certain limits related to Retirement Plan benefits. Any resulting reduction in an executive's Retirement Plan benefit will be compensated for under the Restoration Plan.

Executive Supplemental Retirement Plan. The Supplemental Plan provides an annual retirement benefit equal to 25 percent of a participant's final cash compensation (base salary plus target annual bonus). To retire with full benefits under the Supplemental Plan, an executive must be 55 years old and have been employed by Dominion for at least five years. Benefits under the plan are provided either as a lump sum cash payment at retirement or as a monthly annuity paid out, typically, over 10 years. Certain executive officers receive this benefit for their lifetime. Based on 2002 cash compensation, the estimated annual benefit under this plan for certain executives named in the Summary Compensation Table on page 14 are: Mr. Capps: \$575,000; Mr. O Hanlon: \$180,000; Mr. Chewning: \$204,250; Mr. Farrell: \$261,250; Mr. Radtke: \$171,000; Mr. Sanderlin: \$140,250; and Mr. Roach: \$261,250

Other Executive Agreements and Arrangements

Companies that are in a rapidly changing industry such as ours require the expertise and loyalty of exceptional executives. Not only is the business itself competitive, but so is the demand for such executives. In order to secure the continued services and focus of key management executives, Dominion has entered into agreements with them, including those named in the Summary Compensation Table on page 14.

Employment Agreement Chief Executive Officer. The Board determined that it was in Dominion's best interest to enter into a new employment agreement with Mr. Capps to induce him to remain as an employee of the company and to continue on as CEO and President until

Executive Compensation continued

the Annual Meeting of Shareholders in 2005. As a result, in September of 2002, Mr. Capps and Dominion entered into an agreement providing for his employment as CEO and President until the 2005 Annual Meeting. During his employment, the new agreement provides for the following: (1) an annual base salary of at least \$1,000,000, (2) incentive compensation awards based on performance and (3) continued eligibility for all employee benefit and incentive plans provided by Dominion to its senior management. When his employment ends (whether or not before the end of the term of the agreement), Mr. Capps will: (1) receive a retirement benefit calculated on the highest base salary rate during his employment, (2) receive a Supplemental Retirement Plan benefit payable for life, determined by computing incentive pay as the unreduced percentage of salary mid-point for a given year, (3) become fully vested in outstanding restricted stock, and (4) receive a payment of \$950,000 plus an amount equal to the present value of his salary and annual cash incentives for the period between the Annual Meetings of Shareholders for 2004 and 2005 to the extent not otherwise paid. In addition, any outstanding stock options become fully exercisable for the remaining term of the grant if the termination occurs in connection with a change in control*. During the term of the agreement, Dominion may terminate Mr. Capps for cause only. Mr. Capps also receives age and service credit and continued benefit plan coverage through the end of the contract period in the event of termination for cause or resignation for cause.

Dominion has entered into employment continuity agreements with executives named in the Summary Compensation Table (but not Mr. Capps), which provide benefits in the event of a change in control*. Each agreement has a three-year term and is automatically extended for an additional year, unless cancelled by Dominion.

The agreements provide for the continuation of salary and benefits for a maximum period of three years after either (1) a change in control, (2) termination without cause following a change in control or, (3) a reduction of responsibilities, salary and incentives following a change in control (if the executive gives 60 days notice). Payment of this benefit will be made in either a lump sum or installments over three years. In addition, the agreements indemnify the executives for potential penalties related to the Internal Revenue Code and fees associated with the enforcement of the agreements. If an executive is terminated for cause, the agreements are not effective.

Dominion has also entered into letter agreements with Messrs. Chewning and Farrell. Upon retirement, each of them will receive a payment of 12 months base salary for their agreement not to compete with any activities of Dominion nor solicit any Dominion employees for a period of two years. The agreements also provide for enhanced retirement benefits under certain of Dominion's benefit plans.

Mr. Radtke has enhanced retirement benefits under the terms of his letter of employment.

Messrs. Roach and O'Hanlon resigned their respective officer positions with Dominion effective December 1, 2002, and retired effective February 1, 2003. In accordance with their retirement agreements, each received accelerated vesting and extended expiration dates on options held, as well as other enhanced retirement and miscellaneous benefits. They both signed a general release for any claims against the company. Mr. Roach also received reimbursement for certain relocation expenses, a lump sum payment equal to 12 months salary in accordance with his employment agreements, and an additional lump sum severance payment. Mr. Roach will be restricted from competing with any activities of Dominion or soliciting any employees of Dominion for a period of two years following termination of his employment.

Executive Stock Purchase Programs. At the end of 1999, Dominion's Board approved stock ownership target levels for executives of Dominion and its subsidiaries. The Board also approved Stock Purchase and Loan Programs intended to encourage and facilitate executives

ownership of common stock through the availability of loans guaranteed by Dominion. Officers borrowed money from an independent bank to purchase stock, for which they are personally liable and which Dominion has guaranteed. Because of new restrictions on company loans or guarantees to executives under the Sarbanes-Oxley Act of 2002, Dominion has ceased its programs involving the company guaranty of a third party loan to executives for the purpose of acquiring company stock.

** A change in control shall be deemed to have occurred if (i) any person or group becomes a beneficial owner of 20 percent or more of the combined voting power of Dominion voting stock or (ii) as a direct or indirect result of, or in connection with, a cash tender or exchange offer, merger or other business combination, sale of assets, or contested election, the Directors constituting the Dominion Board before any such transactions cease to represent a majority of Dominion or its successor s Board within two years after the last of such transactions.*

During 2001, Dominion's OCN Committee reconfirmed the stock ownership guidelines for executives, and approved the implementation of the Executive Stock Purchase Tool Kit. The Tool Kit consists of a variety of programs to encourage ownership of Dominion stock by executives who could not participate in the Executive Stock Purchase and Loan programs. Executives who participate in one or more of the Tool Kit programs to achieve their stock ownership target levels receive bonus shares for up to ten percent of the value of their investment in Dominion stock. The Tool Kit previously included the availability of loans guaranteed by Dominion, but this alternative has been omitted for the reasons discussed above.

As of December 31, 2002, our officers had borrowed an aggregate of \$70.4 million under these programs for which they are personally liable and which Dominion has guaranteed.

Section 16(a) Beneficial Ownership Reporting Compliance

Our directors and officers report their Dominion stock transactions to the SEC, including an initial report of ownership on Form 3. Due to administrative oversight, the Form 3 for Mr. Johnson was filed late. Mr. Johnson was elected as an executive officer of Dominion effective December 1, 2002.

Certain Relationships and Related Transactions

Two of Dominion's directors, Dr. Simmons and Dr. Brown, have adult, financially-independent children who are employees of Dominion's service company. Dominion and its subsidiaries have approximately 17,000 full-time employees, and the company is a significant employer in Richmond, Virginia where both of the children are employed. Both are in non-officer, professional positions that they are qualified for based on their education and experience. Both are paid within the current market rate for their positions, and are eligible only for company benefits available to all other employees in similar positions. The Board has determined that these employment relationships do not affect either director's independence. Dominion and the individual directors have determined that neither director has a material interest in his child's employment.

An executive officer, Mary C. Doswell, has a brother who serves as an executive officer of a large banking institution that has an ongoing business relationship with Dominion. The company has paid the banking institution, which has over \$18 billion in assets, approximately \$5 million in fees during 2002, including fees for underwriting services. Ms. Doswell was not involved in any way in Dominion's decision to use this particular banking institution for the services provided. The amounts paid were consistent with market rates for such services.
