Exhibit 1

ANNUAL REPORT 2005

TORM

ANNOUNCEMENT NO. 1 - 2006

8 March 2006

## Edgar Filing: AS STEAMSHIP CO TORM - Form 6-K

TORM 2005 result is better than expected. Proposed dividend of DKK 23 (USD 3.6) per share. Expectations for 2006 profit before tax of USD 140- 160 mill.

- Key points
- o Net profit after tax for the year was USD 299 mill. (DKK 1,795 mill.). The Board of directors considers the result to be highly satisfactory. Earnings per share (EPS) rose to USD 8.6 (DKK 51.5) in 2005 from USD 5.4 (DKK 32.2) in 2004.
  - o EBITDA was USD 351 mill. (DKK 2,105 mill.).
  - o Cash flow before financial items was USD (212) mill. (DKK (1,272) mill.). Cash flow from operating activities was USD 261 mill. (DKK 1,566 mill.), whilst cash flow from investing activities was USD (473) mill. (DKK (2,837) mill.).
  - o Shareholders' equity was USD 905 mill. (DKK 5,721 mill.) as at 31 December 2005 equivalent to USD 26.0 per share (DKK 164.2) excluding treasury shares.
  - o The market value of the Company's fleet as at 31 December 2005 exceeded the book value by USD 768 mill. (2004: USD 573 mill.) equivalent to USD 22.0 per share (DKK 139.4) excluding treasury shares.
  - o Return on Invested Capital (RoIC) was 33.8% (2004: 31.0%), whilst Return on Equity (RoE) was 36.9% (2004: 33.1%).
  - o It is anticipated that freight rates in product tank will fall from the exceptionally high freight rates in 2005. This will to some extent be offset by the increase in TORM's product tanker fleet, which is expected to result in an increase of 26% in the number of earning days in 2006 as against 2005. As at 1 March 2006, approximately 36% of the earning days for TORM's product tankers had been hedged for 2006 at satisfactory rates.
  - o Freight rates for the Company's dry bulk carriers are expected to drop in 2006 from the very high freight rates in 2004/2005. As at 1 March 2006, TORM had hedged approximately 69% of the earning days for the Panamax vessels in 2006 at an average rate of USD 18,360/day.
  - o The profit before tax forecast for 2006 is USD 140-160 mill. The comparative figure in 2005 was USD 232 mill. excluding dividends (USD 12.8 mill.) and profit from sale of vessels (USD 54.7 mill.).
  - o A strategy plan for the period until 2008 is approved with focus on a significant increase in earning days especially within product tank.
  - o As a result of the extraordinarily high and very satisfactory operating result, the Board of directors recommends, subject to approval by the Annual General Meeting, that an exceptionally large dividend of DKK 23 (USD 3.6) per share be paid corresponding to a total dividend payment of DKK 837 mill. (USD 132 mill.) and

equivalent to a return of 7.5% based on the share price at the end of 2005.

### SAFE HARBOUR STATEMENT - FORWARD LOOKING STATEMENTS

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of crude oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.
