FUND, INC.

LETTER TO THE SHAREHOLDERS

February 12, 2004

Dear Shareholder

We are pleased to report that in 2003, the New Germany Fund's total return based on net asset value rose 93.1% and its total return based on its share price rose by 102.4%. The Fund's benchmark, the Midcap Market Performance Index, rose 78.6% during the same period. The strong market performance came on the back of an improving global economy and a recovery in business sentiment in Germany.

Germany's second recession in three years came to an end last summer. Current economic data confirm the rise in leading indicators since spring 2003. The compromise on tax reform should lead to an overall relief of some Euro 14 billion for German households, stimulating consumption going forward. While 2003 ended with half-hearted tax cuts, large parts of Chancellor Schroeder's Agenda 2010 proposals found acceptance and passed. Further reforms could lend fundamental support to the German equity market. Moreover, the stabilization of the labor market should strengthen consumer confidence. The pick-up in export demand, particularly from Eastern Europe and Asia, should benefit economic growth in Germany. With inventory at low levels worldwide and demand holding up, the improvement in GDP growth from an imminent inventory rebuild could reach 2% in 2004. It should take several quarters of strong growth to close the output gap, which means that demand pressures on prices are likely to remain subdued for some time to come. The European Central Bank does not seem to be under any pressure to hike rates in the foreseeable future.

The Fund's performance in 2003 has been influenced by several factors, some of which have been somewhat unexpected. In the first quarter the mood in the equity market was still downbeat as the German economic performance lagged the recovery in other markets such as the United States and Asia. Only in the second quarter it became clear that the economy would be close to its trough and the equity market started to rally sharply after more than three years of negative returns. This inflection point was difficult to anticipate, as defensive equity holdings suddenly became the underperformers at the time the market recovered. For example, financial and telecom stocks, which suffered the most during the de-leveraging phase of the bear market, started to rally strongly in the market upturn that followed. Another factor that came somewhat as a surprise was the pronounced strength of the Euro against the US dollar. Several of the cyclical stocks, such as engineering companies are sensitive to exchange rate movements and therefore did not perform as expected.

A large part of the New Germany Fund's outperformance relative to its benchmark occurred in the first and third quarter. In the first quarter the Fund benefited from its defensive exposure in the construction (Bilfinger & Berger, HeidelbergCement), consumer (Puma, Hugo Boss) and pharmaceutical (Stada

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

Arzneimittel, Qiagen) sectors. With the mood in the equities market more upbeat, some of the more defensive holdings were switched into technology related companies (Micronas Semiconductor Holding, Epcos) and restructuring stories (Rheinmetall and MG Technologies), which all performed well in the third quarter and added to the Fund's relative out-performance.

We are continuing to position the New Germany Fund to take advantage of the expected economic recovery, partially helped by the ongoing reform process in Germany as well as our expectation that the global economy will continue its current growth path well into the year 2004. Recently the New Germany Fund has added to its financial sector exposure by adding to holdings such as Hypo Real Estate Holding and Hannover Rueckversicherung.

The Fund continued its open-market purchases of its shares, buying 1,079,300 shares during the fiscal year. The New Germany Fund's discount to net asset value averaged 19.3% during the year ended December 31, 2003.

Sincerely,

/S/Christian Strenger

* MDAX is a total rate of return index of 50 mid-cap issues that rank below the DAX. DAX is the total rate of return index of 30 selected German blue chips stocks traded on the Frankfurt stock exchange.

** NEMAX 50 is comprised of the 50 largest technology issues from the Prime Segment that are ranked below the DAX.

*** MCAPM is a total return index that is composed of various MDAX and TecDAX issues, reflecting the performance of the mid-caps across all sectors of the Prime Segment.

**** TecDax is a total return index that tracks the 30 largest and most liquid issues from the various technology sectors of the Prime Segment beneath the DAX. Index returns assume reinvested dividends and, unlike Fund returns, do not reflect any fees or expenses. It is not possible to invest directly in an index.

 FUND PERFORMANCE ASSUMES REINVESTMENT OF ALL DIVIDENDS AND CAPITAL GAINS.

Investments in mutual funds involve risk. Yields and market values will fluctuate.

This fund is not diversified and primarily focuses its investments in Germany, thereby increasing its vulnerability to developments in that country. Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes and market risks. This may result in greater share price volatility.

Shares of closed-end funds frequently trade at a discount to net asset value. The price of the fund's shares is determined by a number of factors, several of which are beyond the control of the fund. Therefore, the fund cannot predict whether its shares will trade at, below or above net asset value.

INTERVIEW WITH THE CHIEF INVESTMENT OFFICER

QUESTION: In 2003 the Euro/US\$ exchange rate has appreciated by 20%. How much of an issue is the strong Euro for the German economy? Do you think that it could stall the still fragile economic recovery?

ANSWER: Despite the strains a strong Euro imposed on German exports, we would neither expect an abrupt end to the recovery nor a return to a recession.

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

One reason is the fact that many of the large companies have hedged their currency risk exposure well into 2004 and some even into 2005. Also a significant number of German companies have outsourced production to low-cost countries, including those that keep their currency pegged to the US Dollar, a move that allows them to partially offset the currency effect. Also the current rates near \$1.25 to the Euro are near "normal" historic levels (using a fifteen years time period and by adopting the Deutsche Mark/Euro conversion rate) and even a fall to \$1.35 could still be viewed within the historic range. However the challenge could grow if the US Dollar falls to record low levels within a comparatively short period of time. At this point it would seem likely that the European Central Bank will step in with currency interventions.

QUESTION: The mid-cap sector outperformed the large cap segment in 2003. What are some of the key performance drivers for the mid-cap segment?

ANSWER: It is correct that the German mid-cap segment significantly outperformed the large cap segment, not only beating the most optimistic forecasts but also closing the valuation discount of smaller stocks relative to blue chips. In our opinion, we attribute much of the out-performance to the following four factors:

1) Volatility (as measured by the VDAX index) fell from its peak in October 2002 of 58 down to levels consistent with the post-1997 trend of around 21. This negated the liquidity risk of holding less liquid equities.

2) High yield bond spreads have fallen from a peak of almost 1100 basis points to around 400 basis points. Assuming small and mid-cap stocks correlate with the riskier credits, this reflects a material fall in their refinancing rates but also a significantly reduced risk of default in the higher geared asset class.

3) Valuation: While the sell off in equities in the first quarter of 2003 presented large cap investors with a value market, this was amplified in the small/mid-cap sector, which at the time traded on a valuation discount of approximately 14%.

4) The small and mid-cap sectors are undeniably more cyclical in nature than the large-cap sector. In an economic recovery, cyclical stocks tend to outperform.

QUESTION: What does the EU enlargement mean in terms of size and how does it impact Germany?

ANSWER: On May 1st 2004, the European Union will see its biggest enlargement ever in terms of scope and diversity with the addition of 10 new member countries. The accession countries ("AC-10") are: Poland, Hungary, the Czech Republic, Estonia, Latvia, Lithuania, Malta, Slovakia, Slovenia and Cyprus. The biggest three, Poland Hungary and the Czech Republic, account for 80% of the population and 80% of the GDP of the AC-10. The enlargement will increase the EU territory by 23% or 739 million square kilometers and the EU population by 22% or 74 million.

The Western country impacted most by the EU enlargement is likely to be Germany, as it borders with the two biggest accession countries: Poland and the Czech Republic. Germany has also by far the strongest trade links with the AC-10, as 40% of the AC-10's trade with EU countries is conducted with Germany. Also, 7.6% of German exports (worth Euro 50 billion) go to the accession countries and 9.6% of German imports come from there. The growing trade volume is mainly driven by big German corporations, such as Siemens and Volkswagen, which began taking over production facilities in the early 1990s. Lower labor costs for a well-educated workforce have been the main trigger for investments in the accession countries. The gap in hourly labor costs has caused a significant shift of labor-intensive production into the East and has triggered growth in trade. In other areas, such as the services sector, this shift has been less pronounced so far. Overall the accession is expected to give a boost to German economic growth.

REPORT FROM THE INVESTMENT ADVISER AND MANAGER

OUTLOOK FOR THE GERMAN ECONOMY

Since the middle of January, it has been official that in 2003 the German economy stagnated for the second consecutive year. According to the preliminary estimate by the Federal Statistics Office, real Gross Domestic Product ("GDP") in the past year even showed a slight contraction of .1% relative to 2002. In the final quarter of 2003 GDP will probably have risen only by .25%, despite a strong surge in industrial output. However, there is evidence that domestic demand is slowly recovering, benefiting manufacturers of intermediate and capital goods. Indicators, such as the purchasing manager index, as well as the Ifo Business-Climate Index for trade and industry, continue to rise and are signaling an expansion of economic activity. Wolfgang Clement, the German economy and labor minister, believes that the economic recovery in 2004 will outstrip the 1.5% average growth figure recorded in the 1990s and is set to grow by up to 2%. Presenting his ministry's annual economic report in Berlin, Mr. Clement predicted that average unemployment should fall by 100,000 to a total of 4.3 million in 2004. He stressed that the government's immediate policy priority was to implement the labor market and social welfare reforms adopted in December 2003.

Inflationary pressures also remain subdued for now. In 2003, the consumer price index ("CPI") increased by only 1.1% on average, down from 1.4% in 2002. Also these figures tend to overstate the underlying inflation pressure, as the rise in CPI is partly due to the increase in tobacco and energy taxes. This year again, the inflation rate is influenced by government measures. For instance, the reform of the statutory health insurance system and the renewed hike in the tobacco tax will drive inflation upwards. Furthermore, gradually accelerating consumer demand is expected to be reflected in rising prices, though this effect should be more than mitigated by the appreciation of the Euro, which is deflationary by nature.

The appreciation of the Euro has neither had a strong effect on the German economy, nor has it impaired price competitiveness of German companies so far. Despite a decline in exports in the final quarter of 2003, there is no evidence of a sustained fall as orders from abroad continue to rise. Also, focusing solely on the strength of the Euro versus the US Dollar seems a one-sided argument, as large parts of Germany's exports are sold into the Euro-zone or other areas of the world with similar currency strength.

In May 2004, the European Union ("EU") is expected to expand from the 15 current member countries to 25, which offers opportunities but also challenges. The EU estimates additional GDP growth of .5% to .7% for the current member states resulting from this EU enlargement. The overall effect results from three different sources: trade integration, migration (access to an enlarged supply of labor) and mark-up effects (increased competition that depresses prices and boosts demand). The German economy is expected to derive even greater benefits than the rest of the EU, mainly due to its existing business links and proximity.

THE NEW GERMANY FUND, INC.
 NOTES TO FINANCIAL STATEMENTS
 DECEMBER 31, 2003

NOTE 1. ACCOUNTING POLICIES

The New Germany Fund, Inc. (the "Fund") was incorporated in Maryland on January 16, 1990 as a non-diversified, closed-end management investment company. The Fund commenced investment operations on January 30, 1990.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

SECURITY VALUATION: Investments are stated at value. All securities for which market quotations are readily available are valued at the last sales price on the primary exchange on which they are traded prior to the time of valuation. If no sales price is available at that time, and both bid and ask prices are available, the securities are valued at the mean between the last current bid and ask prices; if no quoted asked prices are available, they are valued at the last quoted bid price. All securities for which market quotations are not readily available will be valued as determined in good faith by the Board of Directors of the Fund.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded on the trade date. Cost of securities sold is calculated using the identified cost method. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Such dividend income is recorded net of unrecoverable foreign withholding tax.

FOREIGN CURRENCY TRANSLATION: The books and records of the Fund are maintained in United States dollars.

Assets and liabilities denominated in euros and other foreign currency amounts are translated into United States dollars at the 10:00 A.M. mid-point of the

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

buying and selling spot rates quoted by the Federal Reserve Bank of New York. Purchases and sales of investment securities, income and expenses are reported at the rate of exchange prevailing on the respective dates of such transactions. The resultant gains and losses arising from exchange rate fluctuations are identified separately in the Statement of Operations, except for such amounts attributable to investments which are included in net realized and unrealized gains and losses on investments.

Foreign investments may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among others, the possibility of political and economic developments and the level of governmental supervision and regulation of foreign securities markets.

TAXES: No provision has been made for United States Federal income tax because the Fund intends to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS: The Fund records dividends and distributions to its shareholders on the ex-dividend date. Income and capital gain distributions are determined in accordance with United States Federal income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences primarily relate to investments in passive foreign investment companies, investments in foreign denominated securities and certain securities sold at a loss. These could be temporary or permanent in nature and may result in reclassification of distributions; however, net investment income, net realized gains and net assets are not affected.

At December 31, 2003, the Fund's components of distributable earnings (accumulated losses) on a tax-basis were as follows:

Undistributed ordinary income*	\$ 1,210,857
Capital loss carryforward	\$(196,226,000)
Net unrealized appreciation	\$ 74,657,745

In addition, the tax character of distributions paid to the shareholders by the Fund are summarized as follows:

	YEARS ENDED DECEMBER 31	
	2003	2002

Distributions from ordinary income:	\$663,763	--

*For tax purposes short-term capital gains are considered ordinary income.

During the year ended December 31, 2003, the Fund reclassified permanent book and tax differences as follows:

	INCREASE (DECREASE)

Undistributed net investment income	\$ 152,983
Undistributed net realized gain on investments and foreign currency transactions	(152,983)

NOTE 2. MANAGEMENT AND INVESTMENT

ADVISORY AGREEMENTS

The Fund has a Management Agreement with and related undertaking by (collectively, the "Management Agreement") Deutsche Bank Securities Inc. (the "Manager"), and an Investment Advisory Agreement with Deutsche Asset Management International GmbH (the "Investment Adviser"). The Manager and the Investment Adviser are affiliated companies.

The Management Agreement provides the Manager with a fee, computed weekly and payable monthly, at the annual rates of .65% of the Fund's average weekly net assets up to \$100 million, .55% of such assets in excess of \$100 million and up to \$500 million, and .50% of such assets in excess of \$500 million. The Investment Advisory Agreement provides the Investment Adviser with a fee, computed weekly and payable monthly, at the annual rates of .35% of the Fund's average weekly net assets up to \$100 million and .25% of such assets in excess of \$100 million. Accordingly, for the year ended December 31, 2003, the fee pursuant to the Management and Investment Advisory Agreements was equivalent to an annual effective rate of .92% of the Fund's average net assets.

Pursuant to the Management Agreement, the Manager is the corporate manager and administrator of the Fund and, subject to the supervision of the Board of Directors and pursuant to recommendations made by the Fund's Investment Adviser, determines the suitable securities for investment by the Fund. The Manager also provides office facilities and certain administrative, clerical and bookkeeping services for the Fund. Pursuant to the Investment Advisory Agreement, the Investment Adviser, in accordance with the Fund's stated investment objectives, policies and restrictions, makes recommendations to the Manager with respect to the Fund's investments and, upon instructions given by the Manager as to suitable securities for investment by the Fund, transmits purchase and sale orders and selects brokers and dealers to execute portfolio transactions on behalf of the Fund.

NOTE 3. TRANSACTIONS WITH AFFILIATES

For the year ended December 31, 2003, Deutsche Bank AG, the German parent of the Manager and Investment Adviser, and its affiliates received \$132,320 in brokerage commissions as a result of executing agency transactions in portfolio securities on behalf of the Fund, that the Board determined were effected in compliance with the Fund's Rule 17e-1 procedures.

Certain officers of the Fund are also officers of either the Manager or Deutsche Bank AG.

The Fund pays each Director not affiliated with the Manager retainer fees plus specified amounts for attended board and committee meetings.

NOTE 4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term investments, for the year ended December 31, 2003, were \$142,604,409 and \$143,995,493, respectively.

The cost of investments at December 31, 2003 was \$154,899,016 for United States Federal income tax purposes. Accordingly, as of December 31, 2003, net unrealized appreciation of investments aggregated \$74,657,745, of which \$76,675,581 and \$2,017,836 related to unrealized appreciation and depreciation, respectively.

For United States Federal income tax purposes, the Fund had a capital loss carry forward at December 31, 2003 of approximately \$196,226,000, of which \$107,987,000 and \$88,239,000 will expire in 2009 and 2010, respectively. No

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

capital gains distribution is expected to be paid to shareholders until future net gains have been realized in excess of such carry forward.

NOTE 5. CAPITAL

During the year ended December 31, 2003 and the year ended December 31, 2002, the Fund purchased 1,079,300 and 870,500 of its shares of common stock on the open market at a total cost of \$6,196,319 and \$3,766,021, respectively. The weighted average discount of these purchases comparing the purchase price to the net asset value at the time of purchase was 17.7% and 17.9%, respectively. These shares are held in treasury.

NOTE 6. SUBSEQUENT EVENT

Effective February 17, 2004, the Fund changed the time of calculating its net asset value per share (NAV) to 11:30am, New York time, from the current 5:00pm, New York time.

++ Total investment return based on market value is calculated assuming that shares of the Fund's common stock were purchased at the closing market price as of the beginning of the year, dividends, capital gains and other distributions were reinvested as provided for in the Fund's dividend reinvestment plan and then sold at the closing market price per share on the last day of the year. The computation does not reflect any sales commission investors may incur in purchasing or selling shares of the Fund. The total investment return based on the net asset value is similarly computed except that the Fund's net asset value is substituted for the closing market price.

* The custody credits are attributable to interest earned on U.S. cash balances. The ratio of total expenses after custody credits to average net assets are 1.39%, 1.47%, 1.25%, 1.08% and 1.07% for 2003, 2002, 2001, 2000 and 1999, respectively.

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors and Shareholders of
The New Germany Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The New Germany Fund, Inc. (the "Fund") at December 31, 2003, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

audits, which included confirmation of securities at December 31, 2003 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN (UNAUDITED)

The Fund offers shareholders a Voluntary Cash Purchase Program and Dividend Reinvestment Plan ("Plan") which provides for optional cash purchases and for the automatic reinvestment of dividends and distributions payable by the Fund in additional Fund shares. A more complete description of the Plan is provided in the Plan brochure available from Investors Bank & Trust Company, the plan agent (the "Plan Agent"), Shareholder Services, P.O. Box 9130, Boston, Massachusetts 02117 (telephone 1-800-437-6269). A shareholder should read the Plan brochure carefully before enrolling in the Plan.

Under the Plan, participating shareholders ("Plan Participants") appoint the Plan Agent to receive or invest Fund distributions as described below under "Reinvestment of Fund Shares." In addition, Plan Participants may make optional cash purchases through the Plan Agent as often as once a month as described below under "Voluntary Cash Purchases." There is no charge to Plan Participants for participating in the Plan, although when shares are purchased under the Plan by the Plan Agent on the New York Stock Exchange or otherwise on the open market, each Plan Participant will pay a pro rata share of brokerage commissions incurred in connection with such purchases, as described below under "Reinvestment of Fund Shares" and "Voluntary Cash Purchases."

REINVESTMENT OF FUND SHARES. Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable, at the election of shareholders, either in cash or in Fund shares, or payable only in cash, the Plan Agent shall automatically elect to receive Fund shares for the account of each Plan Participant.

Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable only in cash and the net asset value per share of the Fund's common stock equals or is less than the market price per share on the valuation date (the "Market Parity or Premium"), the Plan Agent shall apply the amount of such dividend or distribution payable to a Plan Participant to the purchase from the Fund of Fund Shares for a Plan Participant's account, except that if the Fund does not offer shares for such purpose because it concludes Securities Act registration would be required and such registration cannot be timely effected or is not otherwise a cost-effective alternative for the Fund, then the Plan Agent shall follow the procedure described in the next paragraph. The number of additional shares to be credited to a Plan Participant's account shall be determined by dividing the dollar amount of the distribution payable to a Plan Participant by the net asset value per share of the Fund's common stock on the valuation date, or if the net asset value per share is less than 95% of the market price per share on such date, then by 95% of the market price per share. The valuation date will be the payable date for such dividend or distribution.

Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable only in cash and the net asset value

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

per share of the Fund's common stock exceeds the market price per share on the valuation date (the "Market Discount"), the Plan Agent shall apply the amount of such dividend or distribution payable to a Plan Participant (less a Plan Participant's pro rata share of brokerage commissions incurred with respect to open-market purchases in connection with the reinvestment of such dividend or distribution) to the purchase on the open market of Fund shares for a Plan Participant's account. The valuation date will be the payable date for such dividend or distribution. Such purchases will be made on or shortly after the valuation date and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws.

The Plan Agent may aggregate a Plan Participant's purchases with the purchases of other Plan Participants, and the average price (including brokerage commissions) of all shares purchased by the Plan Agent shall be the price per share allocable to each Plan Participant.

For all purposes of the Plan, the market price of the Fund's common stock on a payable date shall be the last sales price on the New York Stock Exchange on that date, or, if there is no sale on such Exchange (or, if different, the principal exchange for Fund shares) on that date, then the mean between the closing bid and asked quotations for such stock on such Exchange on such date. The net asset value per share of the Fund's common stock on a valuation date shall be as determined by or on behalf of the Fund.

21

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN (UNAUDITED) (CONTINUED)

The Plan Agent may hold a Plan Participant's shares acquired pursuant to the Plan, together with the shares of other Plan Participants acquired pursuant to this Plan, in non-certificated form in the name of the Plan Agent or that of a nominee. The Plan Agent will forward to each Plan Participant any proxy solicitation material and will vote any shares so held for a Plan Participant only in accordance with the proxy returned by a Plan Participant to the Fund. Upon a Plan Participant's written request, the Plan Agent will deliver to a Plan Participant, without charge, a certificate or certificates for the full shares held by the Plan Agent.

VOLUNTARY CASH PURCHASES. Plan Participants have the option of making investments in Fund shares through the Plan Agent as often as once a month. Plan Participants may invest as little as \$100 in any month and may invest up to \$36,000 annually through the voluntary cash purchase feature of the Plan.

The Plan Agent shall apply such funds (less a Plan Participant's pro rata share of brokerage commissions or other costs, if any) to the purchase on the New York Stock Exchange (or, if different, on the principal exchange for Fund shares) or otherwise on the open market of Fund shares for such Plan Participant's account, regardless of whether there is a Market Parity or Premium or a Market Discount. The Plan Agent will purchase shares for Plan Participants on or about the 15th of each month. Cash payments received by the Plan Agent less than five business days prior to a cash purchase investment date will be held by the Plan Agent until the next month's investment date. Uninvested funds will not bear interest. Plan Participants may withdraw any voluntary cash payment by written notice received by the Plan Agent not less than 48 hours before such payment is to be invested.

ENROLLMENT AND WITHDRAWAL. Both current shareholders and first-time investors in the Fund are eligible to participate in the Plan. Current shareholders may join the Plan by either enrolling their shares with the Plan Agent or by making an

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

initial cash deposit of at least \$250 with the Plan Agent. First-time investors in the Fund may join the Plan by making an initial cash deposit of at least \$250 with the Plan Agent. In order to become a Plan Participant, shareholders must complete and sign the enrollment form included in the Plan brochure and return it, and, if applicable, an initial cash deposit of at least \$250 directly to the Plan Agent if shares are registered in their name. Shareholders who hold Fund shares in the name of a brokerage firm, bank or other nominee should contact such nominee to arrange for it to participate in the Plan on such shareholder's behalf.

If the Plan Participant elects to participate in the Plan by enrolling current shares owned by the Plan Participant with the Plan Agent, participation in the dividend reinvestment feature of the Plan begins with the next dividend or capital gains distribution payable after the Plan Agent receives the Plan Participant's written authorization, provided such authorization is received by the Plan Agent prior to the record date for such dividend or distribution. If such authorization is received after such record date, the Plan Participant's participation in the dividend reinvestment feature of the Plan begins with the following dividend or distribution.

If the Plan Participant elects to participate in the Plan by making an initial cash deposit of at least \$250 with the Plan Agent, participation in the dividend reinvestment feature of the Plan begins with the next dividend or capital gains distribution payable after the Plan Agent receives the Plan Participant's authorization and deposit, and after the Plan Agent purchases shares for the Plan Participant on the New York Stock Exchange (or, if different, on the principal exchange for Fund shares) or otherwise on the open market, provided that the authorization and deposit are received, and the purchases are made by the Plan Agent prior to the record date. If such authorization and deposit are received after the record date, or if the Plan Agent purchases shares for the Plan Participant after the record date, the Plan Participant's participation in the dividend reinvestment feature of the Plan begins with the following dividend or distribution.

A shareholder's written authorization and cash payment must be received by the Plan Agent at least five business days in advance of the next cash purchase investment date (normally the 15th of every month) in order for the Plan Participant to participate in the voluntary cash purchase feature of the Plan in that month.

22

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN (UNAUDITED) (CONTINUED)

Plan Participants may withdraw from the Plan without charge by written notice to the Plan Agent. Plan Participants who choose to withdraw may elect to receive stock certificates representing all of the full shares held by the Plan Agent on their behalf, or to instruct the Plan Agent to sell such full shares and distribute the proceeds, net of brokerage commissions, to such withdrawing Plan Participant. Withdrawing Plan Participants will receive a cash adjustment for the market value of any fractional shares held on their behalf at the time of termination. Withdrawal will be effective immediately with respect to distributions with a record date not less than 10 days later than receipt of such written notice by the Plan Agent.

AMENDMENT AND TERMINATION OF PLAN. The Plan may only be amended or supplemented by the Fund or by the Plan Agent by giving each Plan Participant written notice at least 90 days prior to the effective date of such amendment or supplement, except that such notice period may be shortened when necessary or appropriate in order to comply with applicable law or the rules or policies of the Securities

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

and Exchange Commission or any other regulatory body.

The Plan may be terminated by the Fund or by the Plan Agent by written notice mailed to each Plan Participant. Such termination will be effective with respect to all distributions with a record date at least 90 days after the mailing of such written notice to the Plan Participants.

FEDERAL INCOME TAX IMPLICATIONS OF REINVESTMENT OF FUND SHARES. Reinvestment of Fund shares does not relieve Plan Participants from any income tax which may be payable on dividends or distributions. For U.S. federal income tax purposes, when the Fund issues shares representing an income dividend or a capital gains dividend, a Participant will include in income the fair market value of the shares received as of the payment date, which will be ordinary dividend income or capital gains, as the case may be. The shares will have a tax basis equal to such fair market value, and the holding period for the shares will begin on the day after the date of distribution. If shares are purchased on the open market by the Plan Agent, a Plan Participant will include in income the amount of the cash payment made. The basis of such shares will be the purchase price of the shares, and the holding period for the shares will begin on the day following the date of purchase. State, local and foreign taxes may also be applicable.

23

2003 U.S. TAX INFORMATION (UNAUDITED)

The Fund paid foreign taxes of \$385,664 and earned \$1,351,701 of foreign source income year during the year ended December 31, 2003. Pursuant to section 853 of the Internal Revenue Code, the Fund designates \$0.02 per share as foreign taxes paid and \$0.06 per share as income earned from foreign sources for the year ended December 31, 2003.

For Federal income tax purposes, the Fund designates \$2,806,000, or the maximum amount allowable under tax law, as qualified dividend income.

PRIVACY POLICY AND PRACTICES

We never sell customer lists or information about individual clients (stockholders). We consider privacy fundamental to our client relationships and adhere to the policies and practices described below to protect current and former clients' information. Internal policies are in place to protect confidentiality, while allowing client needs to be served. Only individuals who need to do so in carrying out their job responsibilities may access client information. We maintain physical, electronic and procedural safeguards that comply with federal standards to protect confidentiality. These safeguards extend to all forms of interaction with us, including the Internet.

In the normal course of business, we may obtain information about stockholders whose shares are registered in their names. For purposes of these policies, "clients" means stockholders of the Funds. (We generally do not have knowledge of or collect personal information about stockholders who hold Fund shares in "street name," such as through brokers or banks.) Examples of the nonpublic personal information collected are name, address, Social Security number and transaction and balance information. To be able to serve our clients, certain of this client information may be shared with affiliated and

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

nonaffiliated third party service providers such as transfer agents, custodians, and broker-dealers to assist us in processing transactions and servicing the client's account with us. The organizations described above that receive client information may only use it for the purpose designated by the Funds.

We may also disclose nonpublic personal information about clients to other parties as required or permitted by law. VOLUNTARY CASH PURCHASE PROGRAM
AND DIVIDEND REINVESTMENT PLAN

The Fund offers stockholders a Voluntary Cash Purchase Program and Dividend Reinvestment Plan ("Plan") which provides for optional cash purchases and for the automatic reinvestment of dividends and distributions payable by the Fund in additional Fund shares. Plan participants may invest as little as \$100 in any month and may invest up to \$36,000 annually. The Plan has been amended to allow current shareholders, who are not already participants in the Plan, and first time investors to enroll in the Plan by making an initial cash deposit of at least \$250 with the plan agent. Share purchases are combined to receive a beneficial brokerage fee. A brochure is available by writing or telephoning the plan agent:

ITEM 2. CODE OF ETHICS.

As of the end of the period, December 31, 2003, The New Germany Fund, Inc. has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its President and Treasurer and its Chief Financial Officer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Fund's Board of Directors/Trustees has determined that the Fund has at least one "audit committee financial expert" serving on its audit committee: Mr. Robert H. Wadsworth. This audit committee member is "independent," meaning that he is not an "interested person" of the Fund (as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940) and he does not accept any consulting, advisory, or other compensatory fee from the Fund (except in the capacity as a Board or committee member).

An "audit committee financial expert" is not an "expert" for any purpose, including for purposes of Section 11 of the Securities Act of 1933, as a result of being designated as an "audit committee financial expert." Further, the designation of a person as an "audit committee financial expert" does not mean that the person has any greater duties, obligations, or liability than those imposed on the person without the "audit committee financial expert" designation. Similarly, the designation of a person as an "audit committee financial expert" does not affect the duties, obligations, or liability of any other member of the audit committee or board of directors.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

THE NEW GERMANY FUND, INC.
FORM N-CSR DISCLOSURE RE: AUDIT FEES

The following table shows the amount of fees that PricewaterhouseCoopers, LLP ("PWC"), the Fund's auditor, billed to the Fund during the Fund's last two fiscal years. For engagements with PWC entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that PWC provided to the Fund.

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

Fiscal Year Ended December 31	Audit Fees Billed to Fund	Audit-Related Fees Billed to Fund	Tax Fees Billed to Fund
2003	\$51,164	\$0	\$9,267
2002	\$45,500	\$0	\$12,034

The above "Tax Fees" were billed for professional services rendered for tax compliance.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following table shows the amount of fees billed by PWC to Deutsche Investment Management Americas, Inc. ("DeIM" or the "Adviser"), and any entity controlling, controlled by or under common control with DeIM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two fiscal years.

Fiscal Year Ended December 31	Audit-Related Fees Billed to Adviser and Affiliated Fund Service Providers	Tax Fees Billed to Adviser and Affiliated Fund Service Providers	All Other Fees Billed to Adviser and Affiliated Fund Service Providers
2003	\$538,457	\$0	\$0
2002	\$399,300	\$69,500	\$92,400

The "Audit-Related Fees" were billed for services in connection with the assessment of internal controls, agreed-upon procedures and additional related procedures.

NON-AUDIT SERVICES

The following table shows the amount of fees that PWC billed during the Fund's last two fiscal years for non-audit services. For engagements entered into on or

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

after May 6, 2003, the Audit Committee pre-approved all non-audit services that PWC provided to the Adviser and any Affiliated Fund Service Provider that related directly to the Fund's operations and financial reporting. The Audit Committee requested and received information from PWC about any non-audit services that PWC rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating PWC's independence.

Fiscal Year Ended December 31	Total Non-Audit Fees Billed to Fund (A)	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (engagements related directly to the operations and financial reporting of the Fund) (B)	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (all other engagements) (C)
2003	\$9,267	\$0	\$3,967,000
2002	\$12,034	\$161,900	\$17,092,950

All other engagement fees were billed for services in connection with risk management, tax services and process improvement/integration initiatives for DeIM and other related entities that provide support for the operations of the fund.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS

Not applicable at this time.

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

PROXY VOTING GUIDELINES

The Fund has delegated proxy voting responsibilities to its investment advisor, subject to the Board's general oversight. The Fund has delegated proxy voting to the advisor with the direction that proxies should be voted consistent with the Fund's best economic interests. The advisor has adopted its own Proxy Voting Policies and Procedures ("Policies"), and Proxy Voting Guidelines ("Guidelines") for this purpose. The Policies address, among other things, conflicts of interest that may arise between the interests of the Fund, and the interests of the advisor and its affiliates, including the Fund's principal underwriter. The Guidelines set forth the advisor's general position on various proposals, such as:

- o Shareholder Rights -- The advisor generally votes against proposals that restrict shareholder rights.

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

- o Corporate Governance -- The advisor generally votes for confidential and cumulative voting and against supermajority voting requirements for charter and bylaw amendments.
- o Anti-Takeover Matters -- The advisor generally votes for proposals that require shareholder ratification of poison pills or that request boards to redeem poison pills, and votes "against" the adoption of poison pills if they are submitted for shareholder ratification. The advisor generally votes for fair price proposals.
- o Routine Matters -- The advisor generally votes for the ratification of auditors, procedural matters related to the annual meeting, and changes in company name, and against bundled proposals and adjournment.

The general provisions described above do not apply to investment companies. The advisor generally votes proxies solicited by investment companies in accordance with the recommendations of an independent third-party, except for proxies solicited by or with respect to investment companies for which the advisor or an affiliate serves as investment advisor or principal underwriter ("affiliated investment companies"). The advisor votes affiliated investment company proxies in the same proportion as the vote of the investment company's other shareholders (sometimes called "mirror" or "echo" voting). Master fund proxies solicited from feeder funds are voted in accordance with applicable requirements of the Investment Company Act of 1940.

Although the Guidelines set forth the advisor's general voting positions on various proposals, the advisor may, consistent with the Fund's best interests, determine under some circumstances to vote contrary to those positions.

The Guidelines on a particular issue may or may not reflect the view of individual members of the board, or of a majority of the board. In addition, the Guidelines may reflect a voting position that differs from the actual practices of the public companies within the Deutsche Bank organization or of the investment companies for which the advisor or an affiliate serves as investment advisor or sponsor.

The advisor may consider the views of a portfolio company's management in deciding how to vote a proxy or in establishing general voting positions for the Guidelines, but management's views are not determinative.

As mentioned above, the Policies describe the way in which the advisor resolves conflicts of interest. To resolve conflicts, the advisor, under normal circumstances, votes proxies in accordance with its Guidelines. If the advisor departs from the Guidelines with respect to a particular proxy or if the Guidelines do not specifically address a certain proxy proposal, a proxy voting committee established by the advisor will vote the proxy. Before voting any such proxy, however, the advisor's conflicts review committee will conduct an investigation to determine whether any potential conflicts of interest exist in connection with the particular proxy proposal. If the conflicts review committee determines that the advisor has a material

conflict of interest, or certain individuals on the proxy voting committee should be recused from participating in a particular proxy vote, it will inform the proxy voting committee. If notified that the advisor has a material conflict, or fewer than three voting members are eligible to participate in the proxy vote, typically the advisor will engage an independent third party to vote the proxy or follow the proxy voting recommendations of an independent third

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

party. Under certain circumstances, the advisor may not be able to vote proxies or the advisor may find that the expected economic costs from voting outweigh the benefits associated with voting. For example, the advisor may not vote proxies on certain foreign securities due to local restrictions or customs. The advisor generally does not vote proxies on securities subject to share blocking restrictions.
