### REQUIRED VOTES

To carry on the business of the Annual Meeting, a quorum of the stockholders is required. This means that at least a majority of the outstanding shares eligible to vote must be represented at the Annual Meeting, either by proxy or in person. If a quorum is present, the director nominees receiving the most votes will be elected. Other proposals require the favorable vote of a majority of the votes cast. If you withhold your vote for any or all nominees, your vote will not count either "for" or "against" the nominee. A vote to "abstain" on any other proposal will be counted as present for quorum purposes, but it will not be counted as a vote cast "for" such proposal. If you hold your shares of Company common stock through a bank, broker or other holder of record and have not returned a signed proxy card, your broker will have authority to vote your shares but only on those proposals that are considered discretionary under the applicable New York Stock Exchange ("NYSE") rules. If your broker does not have such discretion on any proposals (broker non-votes), your shares will be counted as being present at the Annual Meeting for quorum purposes, but they will not be counted as votes cast on such proposals.

### SOLICITATION OF PROXIES

Again this year the Company has chosen not to retain the services of a third-party solicitor to assist in the distribution of proxy materials and solicitation of proxies. The Company will pay all costs of soliciting proxies and will reimburse brokers, banks and other custodians and nominees for their reasonable expenses for forwarding proxy materials to beneficial owners and obtaining their voting instructions. In addition to this mailing, directors, officers and other employees of the Company may solicit proxies electronically, personally or by mail or telephone.

### BOARD OF DIRECTORS

The business and affairs of the Company are conducted under the direction of its Board of Directors (the "Board"). As of the date of the Annual Meeting, the Board will consist of eleven members, nine of whom are outside (non-employee) directors. The other two members of the present Board, Messrs. R. G. Holder and K. Schlatter, are retiring from the Board effective at the Annual Meeting. The Board is divided into three classes, with one class elected each year for a three-year term.

In addition to the various committee meetings referred to below, the Board held seven meetings in 2001. Each director attended at least 75 percent of the

Annual Committee chairman retainer.....	4,000 (1)
Annual stock option grant (number of underlying shares).....	2,000 (2)

-----  
(1) One half of the retainer is paid in cash and the other half is paid in the Company's phantom stock units that are mandatorily deferred until retirement under the Deferred Compensation Plan for Outside Directors. In addition, a director may choose to defer all or part of the cash portion of the retainer in the Company's phantom stock units. The Company's phantom stock units for each outside director as of January 1, 2002 are indicated in the middle column of the Security Ownership Table appearing on page 8.

(2) Grants of 2,000 non-qualified stock options are awarded in October 2001 upon the commencement of the revised compensation program and annually thereafter in early May to each of the outside directors who are not scheduled to retire before the next year's annual meeting of stockholders. The grants are priced at the fair market value of the Company's common stock on the date of grant and have a ten-year term. They are fully exercisable on the first anniversary of the date of grant.

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), requires the Company's directors and executive officers to file timely reports of holdings and transactions in the Company's common stock (including derivatives thereof) with the SEC. Based on a review of the forms filed on behalf of the Company's directors and executive officers and other information, including written representations that no annual SEC Form 5 report was required, the Company believes that during 2001 and the prior fiscal years all of its directors and executive officers complied with the 1934 Act filing requirements, except for one untimely Form 4 filing relating to one employee stock option grant that was made to Mr. I. Aranguren-Castiello, a director of the Company, in January 2000.

### STOCKHOLDER CUMULATIVE TOTAL RETURN PERFORMANCE GRAPH

The following graph compares cumulative total return to stockholders (stock price appreciation or depreciation plus reinvested dividends) on the Company's common stock with the cumulative total return of the Russell 2000 Index and the S&P Small Cap Basic Materials Index. The Russell 2000 Index is a comprehensive common stock price index representing equity investments in certain smaller companies. The Russell 2000 Index is value weighted and includes only publicly traded common stocks belonging to corporations domiciled in the U.S. and its territories. It measures the performance of the 2,000 smallest companies in the Russell 3000 Index, which comprises approximately 98% of the investable U.S. equity market. The S&P Small Cap Basic Materials Index is one of Standard and Poor's industry specific stock indices that was discontinued as of December 31, 2001. As of that date, the S&P Small Cap Basic Materials Index included the common stock of 33 small companies (which includes the Company) in the following types of industries: Agricultural Products, Aluminum, Chemicals (Diversified and Specialty), Construction (Cement and Aggregates), Containers and Packaging (Paper), Gold and Precious Metals Mining, Iron and Steel, Paper and Forest Products. The graph assumes that:

- as of the market close on December 11, 1997 (the date on which the Company's common stock began trading on the NYSE), you made one-time \$100

investments in the Company's common stock and in market capital base-weighted amounts which were apportioned among all the companies whose equity securities constitute each of the other three named indices, and

- all dividends were automatically reinvested in additional shares of the same class of equity securities constituting such investments at the frequency with which dividends were paid on such securities during the applicable time frame. ### COMPENSATION AND NOMINATING COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation and Nominating Committee of the Board of Directors (the "Committee") is composed entirely of outside, independent directors. The Committee approves compensation policy for the Company and administers the compensation program for the Company's officers.

The Company utilizes the services of an independent consulting firm to provide information on base salary, annual incentive levels and long-term incentives for a broad group of companies and for a group of companies in related industries of similar size and for which compensation information is available (the "Survey Group"). Based on this comparative pay data, and the compensation-related objectives of the Company, the Committee approves a compensation program that it considers appropriate for the Company. A description of that program follows.

#### COMPENSATION PHILOSOPHY

The objectives of the Company's compensation programs, including officers'

## Edgar Filing: CORN PRODUCTS INTERNATIONAL INC - Form DEF 14A

compensation, are to:

- Focus, align and motivate management on the objectives of the Company and enhance shareholder value.
- Permit the Company to attract and retain outstanding and talented executives who are focused on the interests of the Company's shareholders.
- Provide executives with significant opportunity and risk by targeting their base salaries at a discount to market and their incentive opportunities at a premium to market.
- Reinforce pay for performance beliefs by aligning the distribution of compensation programs with results. Adjustments to base salary and the award of incentives are provided based on the achievement of tangible measurable results.

The key components of the Company's compensation program for the officers are base salary, annual incentive compensation, and long-term incentives. The intention is to maintain base salaries for the executives named in the Summary Compensation Table and other officers at 10% less than the 50th percentile of companies in the Survey Group while providing the opportunity to earn increased variable compensation. An officer's salary depends upon level of responsibility, the geographic complexity of the position, individual performance, and time in position. Annual incentive targets are currently established to deliver approximately 20% above the 50th percentile annual total cash compensation (base pay plus annual incentive) of the Survey Group. Annual incentives are payable only after the attainment of predetermined performance targets. Long-term incentive compensation is targeted at the 50th percentile of the Survey Group. Base salary and long and short-term incentives for other management personnel are targeted at the 50th percentile of the Survey Group. Periodically, the Company's compensation practices are compared with market data to assure alignment with market conditions and the Company's compensation philosophy.

### ANNUAL INCENTIVE PROGRAM

The Annual Incentive Program ("AIP") for the officers and other eligible management level employees provides for awards to be determined and paid after the end of the year being measured. Payment of annual incentives is based on the achievement of performance targets that are established at the beginning of each year. Each AIP participant's annual incentive is calculated according to the achievement of corporate, business unit and individual performance results. The Committee approved annual incentive payments based on 2001 results for each of the officers and AIP eligible employees in accordance with this program. Total payments for 2001 for each of the named executive officers are indicated in the Bonus column of the Summary Compensation Table on page 15.

11

### LONG-TERM INCENTIVES

The Company's long-term incentive program for its officers consists of non-qualified stock options, shares of restricted stock and cash. The value is targeted at the 50th percentile long-term incentive compensation of the Survey Group. Non-qualified stock option grants and restricted stock awards are made under the Company's 1998 Stock Incentive Plan while the cash portion is awarded under the Company's Performance Plan, which is described herein. Non-qualified stock options awarded to officers have a ten-year term and vest 50% per year at the end of years one and two.

Other management personnel who are eligible for long-term incentives are

## Edgar Filing: CORN PRODUCTS INTERNATIONAL INC - Form DEF 14A

granted non-qualified stock options and/or awarded restricted stock under the Company's 1998 Stock Incentive Plan. The number of options granted or shares of restricted stock awarded is based on an individual's salary grade and performance. These options also have a ten-year term and vest 50% per year at the end of years one and two while restricted stock awards vest after five years. For outside directors, stock options are awarded pursuant to a grant formula under the outside director's compensation plan as fully described under the Director Compensation and Tenure section on page 6.

During 2001, the Committee awarded a total of 200,000 non-qualified stock options to nine officers and 9,000 restricted stock shares to the Chief Executive Officer. The option award amounts were established utilizing 50th percentile competitive market data of the Survey Group. In addition, 324,300 stock option grants and 10,900 restricted stock awards were made in 2001 to another 148 management level employees and 22,000 stock options were granted to 11 outside directors. The options have an exercise price equal to the fair market value of a share of Company common stock on the grant date.

The total number of non-qualified stock options and restricted stock shares awarded in 2001 was 566,200 or approximately 16% of the shares authorized for distribution under the Company's 1998 Stock Incentive Plan. Option grants for each of the named executive officers are identified in the Option Grants Table on page 16.

The Performance Plan (the "Plan") has been established to provide long-term cash incentives to the Company's officers as a portion of their long-term compensation. The Plan is designed to provide the opportunity to achieve competitive long-term incentives for the attainment of long-term performance targets. Since its inception in 1999, and for each subsequent year thereafter, the Plan measures the Company's three-year cumulative total shareholder return performance against that of a comparator group, the S&P Small-Cap Basic Materials Index.

For 2001, the performance target is again the Company's total shareholder return compared to the total shareholder return of companies in the S&P Small-Cap Basic Materials Index. This index is utilized for comparison because the Company is included in this index. The Company represents an important percentage of this index's total market capitalization and the number of companies in this index makes percentile comparisons meaningful. As previously noted in the Stockholder Cumulative Total Return Performance Graph, the S&P Small-Cap Basic Materials Index was discontinued by Standard & Poors as of December 31, 2001. However, for continuity and consistency of comparison, the Committee has elected to continue to measure the performance of the companies that constituted the S&P Small-Cap Basic Materials Index as of December 31, 2001 for the 2000 and 2001 Performance Plans. The Committee reviews the performance measures under this Plan and may establish new measures as necessary or appropriate.

The Plan provides for contingent long-term cash incentive awards to be earned based on the achievement of predetermined targets for relative stock price performance over a three-year period. Up to 50% of the cash incentive award can be earned in year one (based on the Company performance over the first year and one day of the period). Up to 100% of the cash incentive award can be earned in year two (based on the cumulative Company performance over the first two years of the period). Up to 200% of the cash incentive award can be earned in year three (based on the cumulative Company performance over the entire three-year period). Cash earned and vested for either year one or two cannot exceed the cash incentive that can potentially be earned at the 100% target level for the entire three-year period. Cash amounts vest as they are earned but are not

## Edgar Filing: CORN PRODUCTS INTERNATIONAL INC - Form DEF 14A

payable until after the end of year three. The contingent cash award targets that were awarded to each of the named executive officers in January 2001 are identified in the Long-Term Incentive Plans Table on page 18.

In January 2002 cash payments were made based on the results attained in the 1999 Performance Plan for the Company's cumulative three-year performance. The Company performed at the 69.2 percentile when compared to the S&P Small-Cap Basic Materials Index. The amount of the cash award target that was earned by each of the named executive officers is identified in the Long-Term Incentive Payouts column of the Summary Compensation Table on page 15.

### EXECUTIVE STOCK OWNERSHIP TARGETS

The Committee has established stock ownership targets for the officers. The ownership targets for the officers are based on multiples of each individual's base salary. For purposes of these targets, "Ownership" is defined as Company common stock owned, whether directly or indirectly, restricted stock shares and the stock equivalents of deferred phantom stock unit accounts referred to in footnote 2 to the Security Ownership Table on page 8. "Ownership" excludes unexercised stock options. Officers are expected to attain their ownership targets within three to five years from the time the established targets became applicable. The ownership target for the Chief Executive Officer is five times base salary. At the end of 2001, Mr. Scott owned stock equivalent in value to approximately 6 times his base salary.

### COMPENSATION FOR 2001

In fulfilling its responsibility to oversee the performance of the Chief Executive Officer and other officers, the Board has adopted the following practices:

- At the beginning of each year, the Board, meeting in executive session, reviews the performance of the Company and the performance of the officers.
- In the absence of the Chief Executive Officer, the outside directors review his performance. This includes a review of: leadership in the development and implementation of strategies; leadership pertaining to business execution; the development of a succession plan; and his ability to maintain an organization which represents the highest ethical standards and corporate governance practices.

Actions concerning executive compensation at the beginning of 2001 were based upon the Company's performance in 2000, the individual's performance and the individual's time in position. Concerning the Chief Executive Officer's compensation, the Committee considered the Company's financial performance, a restructuring program initiated to reduce costs and the completion of several accretive acquisitions. The Committee also considered that the Company maintained a strong debt to capitalization ratio after investments for acquisitions and capital expenditures.

Based on the results stated above, the Committee awarded Mr. Schlatter, the Company's then Chief Executive Officer, a special bonus payment of \$210,000. In conjunction with Mr. Schlatter's retirement from the Company effective February 1, 2001, the Committee also approved: the accelerated vesting, to January 31, 2001, of 22,500 non-qualified stock options granted on January 17, 2000 under the 1998 Stock Incentive Plan; cash awards under the 1999 and 2000 cycles of the Performance Plan in the amounts of \$447,760 and \$244,440 to be paid when due in 2002 and 2003, respectively, in accordance with the provisions of the Plan; and certain other miscellaneous emoluments totaling approximately \$25,000.

## Edgar Filing: CORN PRODUCTS INTERNATIONAL INC - Form DEF 14A

Based on the Company's results in 2000, and the Committee's consideration of Mr. Scott's promotion to the Chief Executive Officer's position, the Committee awarded Mr. Scott, a special bonus payment of \$185,000 and approved an annualized increase of 14.5% effective February 1, 2001 for Mr. Scott, adjusting his annual base salary to \$550,000.

The Committee awarded Mr. Scott 9,000 shares of restricted stock and 45,000 non-qualified stock options in January 2001 upon his election to the Chief Executive Officer position and granted him an additional 60,000 non-qualified stock options in October 2001. The amounts of the award and grants were established according to market data and the Company's long-term incentive program described above.

13

In January 2002, the Committee awarded Mr. Scott a bonus of \$500,000 based on the effectiveness of his leadership in his new position as Chief Executive Officer and in recognition for the results of 2001 that were achieved despite a highly competitive environment in the U.S. market and significant economic pressures in the Company's South American and Asian markets. Annual incentive awards paid to the other named executive officers were based on the corporate, business unit and individual performance. These amounts are shown in the Bonus column of the Summary Compensation Table on page 15.

In January 2002, the Committee awarded Mr. Scott \$519,200 which was earned under the 1999 Performance Plan and paid in accordance with the provisions of the Plan as referenced above.

### DEDUCTIBILITY OF EXECUTIVE COMPENSATION

The Committee intends to comply with the requirements of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), with respect to options, annual incentives and long-term incentive plans in order to avoid losing the tax deduction for compensation in excess of \$1,000,000 paid to one or more of the executive officers named on the Summary Compensation Table. The Committee believes that the Company will not lose any tax deductions due to this rule in 2002.

### PENSION PLANS

The Company has a "cash balance" defined benefit pension plan which is a tax-qualified plan within the meaning of Section 401(a) of the Code and which is applicable to its U.S. salaried employees, including the named executive officers. Accounts of participants in the plan accrue monthly interest credits using a rate equal to a specified amount above the interest rate on short-term Treasury notes. The value of a participant's account at retirement is paid out either as a life or a joint and survivor annuity or in an optional form, such as a lump sum. The Company also has a non-qualified supplemental retirement plan, which provides benefits in addition to those payable under the qualified plan. As of January 1, 2002, the actual pension benefit for K. Schlatter and the estimated annual combined benefits at age 65 for each of the other named executive officers under the qualified and supplemental plans in the U.S. are as follows: K. Schlatter, \$334,731; S. C. Scott, \$310,533; J. W. Ripley, \$185,794; M. E. Doane, \$58,388; and R. M. Vandervoort, \$133,817. The Company's Brazilian subsidiary, Corn Products Brasil -- Ingredientes Industriais Ltda., also maintains a defined benefit pension plan in which J. L. Fiamenghi participates. Accounts of participants in the plan accrue monthly interest credits according to the actual investment return gained. The value of a participant's account at retirement is paid out either as a joint and survivor annuity or as a partial lump sum option. There is also a death and disability benefit that is provided based on a formula that takes into account the amount of time between the triggering event and the participant's normal retirement date. As of January 1, 2002, estimated annual benefits at age 60 for J. L. Fiamenghi are \$126,932.

### DEFERRED STOCK UNIT PLAN

## Edgar Filing: CORN PRODUCTS INTERNATIONAL INC - Form DEF 14A

The Company's Deferred Stock Unit Plans allow both the outside directors and certain senior management employees to defer, in the form of the Company's phantom stock units, all or part of their respective Board retainers or their annual bonuses received for services rendered to Bestfoods and its subsidiaries prior to the spin-off. The Company's phantom stock units credited to the accounts of the outside directors and named executive officers as of January 1, 2002 are indicated in the middle column of the Security Ownership Table appearing on page 8.

### SPECIAL AGREEMENTS

The Company has a severance agreement with each of the named executive officers that may require making certain payments and providing certain benefits if the officer's employment is terminated within two years after a change in control of the Company. The agreements provide for the payment of salary and vacation pay accrued through the termination date plus any applicable bonus prorated for the current year. In addition, the terminated officer would receive a lump sum payment equal to three times his or her applicable salary and annual bonus. The agreements also provide for certain continued insurance and other benefits and allowances and accelerated vesting of the terminated officer's then unvested restricted stock awards and stock

18

option grants. Any resulting excise tax paid by the terminated officer would also be reimbursed by the Company.

### CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During 2001, I. Aranguren-Castiello was Chairman of Arancia Corn Products, S.A. de C.V. He also served as its General Director until January 31, 2001 when he resigned from that position. Since 1998, the Company has acquired a 100% interest in Arancia Corn Products from companies controlled by Mr. Aranguren-Castiello and his family through a series of stock purchases which were previously approved by the stockholders of the Company. In connection with these purchases of interests in Arancia Corn Products, a company controlled by Mr. Aranguren-Castiello and his family received an earnout payment of \$3 million for 2001 and is entitled to receive one more earnout payment for 2002. This additional earnout payment will not exceed \$5 million and will not be less than \$3 million. In addition, the Company has agreed to nominate Mr. Aranguren-Castiello, or a qualified nominee designated by his family, to the Board as long as his family continues to hold at least 70.0% of their original holdings of Company common stock received in the initial acquisition and such holdings represent at least 2.5% of the total outstanding shares of the Company's common stock. In connection with his service as Chairman of Arancia Corn Products, Mr. Aranguren-Castiello was paid an annual salary of \$178,285 plus bonuses, based on company and individual performance, as well as pension and other retirement payments of approximately \$1.7 million. He also received certain other benefits that are usual and customary in Mexico, including holiday/vacation pay and incidental expenses. The incidental expenses totaled approximately \$85,000.

During 2001, Arancia Corn Products continued to have numerous transactions with the following companies in Mexico that are or were owned or controlled indirectly by Mr. Aranguren-Castiello and his family under various contractual relationships that predate the Company's acquisition of the Mexican business. Arancia Corn Products sold products and provided steam and other minor services at commercial market rates to Enmex, S.A. de C.V. amounting to \$.8 million. These sales and contractual relationships are planned to continue in 2002 in approximately the same dollar amounts. During 2001, Arancia Corn Products purchased freight and similar services at commercial market rates from

Transportes Minerva, S.A. de C.V. in the amount of \$10.7 million. It also purchased certain goods from Aranal Comercial, S.A. de C.V. in the amount of \$86 thousand. It leased reception and additional office facilities and purchased other services at commercial market rates from Reprocesadora Industrial, S.A. de C.V. and Promociones Inmofisa, S.A. de C.V. in the combined amount of \$.6 million. Other than for Aranal Comercial which has since been sold by Mr. Aranguren-Castiello and his family, all of these purchases and contractual relationships are planned to continue in 2002 in approximately the same dollar amounts.

### MATTERS TO BE ACTED UPON

#### PROPOSAL 1. ELECTION OF DIRECTORS

The terms of the present four Class II directors are expiring at the Annual Meeting. Two of those directors are retiring as of the Annual Meeting and the size of the Board is being contemporaneously reduced from thirteen to eleven members. Two other directors, Messrs. R. J. Almeida and J. M. Ringler, have been reclassified by the Board as Class II directors effective as of the Annual Meeting in accordance with the Company's Amended and Restated Certificate of Incorporation. Mr. Almeida's current term expires at the 2004 annual meeting of stockholders and Mr. Ringler's current term expires at the 2003 annual meeting of stockholders. Therefore, there are four directors who have been nominated by the Board for varying extensions of their current terms to hold office as Class II directors for terms expiring at the 2005 annual meeting of stockholders.

All of the nominees for election have consented to being named in this proxy statement and to serve if elected. If, for any reason, any of the nominees should not be a candidate for election at the Annual Meeting, the proxies will be voted for substitute nominees designated by the Board unless it has reduced its membership prior to the Annual Meeting. The Board does not anticipate that any of the nominees will be unavailable to serve if elected. The nominees and the directors continuing in office will normally hold office until the annual meeting of stockholders in the year indicated on this and the following pages.
