Edgar Filing: Stereotaxis, Inc. - Form 8-K

Item 8.01. Other Events.

On October 12, 2005, Biosense Webster, Inc., a Johnson & Johnson company, announced that it had received clearance by the U.S. Food and Drug Administration (FDA) for devices that aid electroanatomical mapping. The CARTO RMT Navigation System, NAVISTAR® RMT Steerable Tip Diagnostic Catheter, and REFSTAR RMT Catheter with the QWIKPATCH® External Reference Patch products were all designed to integrate with the NIOBE® Magnetic Navigation System designed by Stereotaxis, Inc. (Nasdaq: STXS). The clearance of these Biosense Webster products by the FDA provides electrophysiologists additional tools and maneuvering capabilities when using the NIOBE® Magnetic Navigation System to allow doctors to steer a catheter remotely.

The above referenced products, none of which are ablation catheters, are the first to be commercialized in the United States pursuant to Stereotaxis' strategic alliance with Biosense.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
