MGM MIRAGE AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (*Unaudited*)

NOTE 1 ORGANIZATION AND BASIS OF PRESENTATION

Organization. MGM MIRAGE (the Company) is a Delaware corporation incorporated on January 29, 1986. As of June 30, 2008, approximately 54% of the outstanding shares of the Company's common stock were owned by Tracinda Corporation, a Nevada corporation wholly owned by Kirk Kerkorian. As a result, Tracinda Corporation has the ability to elect the Company's entire Board of Directors and determine the outcome of other matters submitted to the Company's stockholders, such as the approval of significant transactions. MGM MIRAGE acts largely as a holding company and, through wholly-owned subsidiaries, owns and/or operates casino resorts.

The Company owns and operates the following casino resorts in Las Vegas, Nevada: Bellagio, MGM Grand Las Vegas, Mandalay Bay, The Mirage, Luxor, Treasure Island (TI), New York-New York, Excalibur, Monte Carlo, Circus Circus Las Vegas and Slots-A-Fun. Operations at MGM Grand Las Vegas include management of The Signature at MGM Grand Las Vegas, a condominium-hotel consisting of over 1,500 units. Other Nevada operations include Circus Circus Reno, Gold Strike in Jean, and Railroad Pass in Henderson. The Company has a 50% investment in Silver Legacy in Reno, which is adjacent to Circus Circus Reno. The Company also owns Shadow Creek, an exclusive golf course located approximately ten miles north of its Las Vegas Strip resorts, and the Primm Valley Golf Club at the California/Nevada state line.

In April 2007, the Company completed the sale of Buffalo Bill's, Primm Valley, and Whiskey Pete's casino resorts (the Primm Valley Resorts), not including the Primm Valley Golf Club, for net proceeds of approximately \$398 million. In June 2007, the Company completed the sale of the Colorado Belle and Edgewater in Laughlin (the Laughlin Properties), for net proceeds of approximately \$199 million. In February 2007, the Company entered into an agreement to contribute Gold Strike, Nevada Landing (closed in March 2007) and surrounding land to a joint venture. In June 2008, the parties decided not to move forward with the joint venture in light of current market conditions, and in July 2008, the parties terminated the joint venture agreement. See Note 2 for further discussion of these transactions.

The Company is a 50% owner of CityCenter, a mixed-use development on the Las Vegas Strip between Bellagio and Monte Carlo, expected to open in late 2009. CityCenter will feature a 4,000-room casino resort; two 400-room non-gaming boutique hotels, one of which will be managed by luxury hotelier Mandarin Oriental; approximately 425,000 square feet of retail shops, dining and entertainment venues in The Crystals retail complex; and approximately 2.3 million square feet of residential space in approximately 2,700 luxury condominium and condominium-hotel units in multiple towers. The estimated net project budget for CityCenter is \$8.6 billion, after net residential proceeds of \$2.7 billion. The gross project budget consists of \$9.3 billion of construction costs (including capitalized interest), \$1.7 billion of land, \$0.2 billion of preopening expenses, and \$0.1 billion of intangible assets. The other 50% of CityCenter is owned by Infinity World Development Corp., a wholly-owned subsidiary of Dubai World. The Company is managing the development of CityCenter and, upon completion of construction, will manage the operations of CityCenter for a fee. The Company owned 100% of CityCenter until November 2007.

The Company and its local partners own and operate MGM Grand Detroit, which recently opened a new permanent hotel and casino complex in Detroit, Michigan. The interim facility closed on September 30, 2007 and the new casino resort opened on October 2, 2007. The Company also owns and operates two resorts in Mississippi—Beau Rivage in Biloxi, which includes the Fallen Oak golf course, and Gold Strike Tunica.

The Company has 50% interests in three casino resorts outside of Nevada: Grand Victoria, Borgata and MGM Grand Macau (through its 50% ownership of MGM Grand Paradise Limited). Grand Victoria is a riverboat casino in Elgin, Illinois—an affiliate of Hyatt Gaming owns the other 50% of Grand Victoria and also operates the resort. Borgata is located on Renaissance Pointe in the Marina area of Atlantic City, New Jersey. Boyd Gaming Corporation owns the other 50% of Borgata and also operates the resort. MGM Grand Macau opened on December 18, 2007. Pansy Ho Chiu-King owns the other 50% of MGM Grand Paradise Limited.

The Company owns additional land adjacent to Borgata, a portion of which is planned for a wholly-owned development, MGM Grand Atlantic City, preliminarily estimated to cost approximately \$4.5–\$5.0 billion excluding land and associated costs. The proposed resort would include three towers with more than 3,000 rooms and suites,

approximately 4,500 slot machines and 250 table games, extensive retail and convention and meeting facilities, and other typical resort amenities.

Financial statement impact of Hurricane Katrina and Monte Carlo fire. The Company maintains insurance for both property damage and business interruption relating to catastrophic events, such as Hurricane Katrina affecting Beau Rivage in August 2005 and the rooftop fire at Monte Carlo in January 2008. Business interruption coverage covers lost profits and other costs incurred during the closure period and up to six months following re-opening.

Table of Contents

Non-refundable insurance recoveries received in excess of the net book value of damaged assets, clean-up and demolition costs, and post-event costs are recognized as income in the period received or committed based on the Company's estimate of the total claim for property damage (recorded as Property transactions, net) and business interruption (recorded as a reduction of General and administrative expenses) compared to the recoveries received at that time. All post-event costs and expected recoveries are recorded net within General and administrative expenses, except for depreciation of non-damaged assets, which is classified as Depreciation and amortization.

Insurance recoveries are classified in the statement of cash flows based on the coverage to which they relate. Recoveries related to business interruption are classified as operating cash flows and recoveries related to property damage are classified as investing cash flows. However, the Company's insurance policy includes undifferentiated coverage for both property damage and business interruption. Therefore, the Company classifies insurance recoveries as being related to property damage until the full amount of damaged assets and demolition costs are recovered, and classifies additional recoveries up to the amount of post-event costs incurred as being related to business interruption. Insurance recoveries beyond that amount are classified as operating or investing cash flows based on the Company's estimated allocation of the total claim.

The following table shows the income statement impact of the Monte Carlo fire:

Hurricane Katrina. The Company reached final settlement agreements with its insurance carriers related to Hurricane Katrina in late 2007. In total, the Company received insurance recoveries of \$635 million, which exceeded the \$265 million net book value of damaged assets and post-storm costs incurred. The Company recognized the \$370 million of insurance recoveries in income in 2007 and 2006.

Monte Carlo fire. As of June 30, 2008, the Company had received \$50 million of proceeds from its insurance carriers related to the Monte Carlo fire. Through June 30, 2008, the Company recorded a write-down of \$4 million related to the net book value of damaged assets, demolition costs of \$7 million, and operating costs of \$20 million. As

of June 30, 2008, the Company had no receivable or payable from its insurance carriers.

Goodwill and indefinite-lived intangible assets. Goodwill represents the excess of purchase price over fair market value of net assets acquired in business combinations. Goodwill and indefinite-lived intangible assets must be reviewed for impairment at least annually and between annual test dates in certain circumstances. The Company performs its annual impairment tests in the fourth quarter of each fiscal year. Goodwill for relevant reporting units is tested for impairment using a discounted cash flow analysis based on the Company's budgeted future results discounted using the Company's weighted average cost of capital and market indicators of terminal year free cash flow multiples. Indefinite-lived intangible assets consist primarily of license rights and trademarks which are tested for impairment using the relief-from-royalty method.

Fair value measurement. The Company adopted SFAS No. 157, Fair Value Measurements (SFAS 157), on January 1, 2008. SFAS 157 establishes a framework for measuring the fair value of financial assets and liabilities and requires certain disclosures about fair value. The Company's only significant assets and liabilities affected by the adoption of SFAS 157 are:

- 1) Marketable securities held in connection with the Company's deferred compensation and supplemental executive retirement plans, and the plans' corresponding liabilities. As of June 30, 2008, the assets and liabilities related to these plans each totaled \$146 million, measured entirely using Level 1 inputs under SFAS 157, which are observable inputs for identical assets such as quoted prices in an active market.

Table of Contents

- 2) The Company's investment in The M Resort LLC convertible note. As of June 30, 2008, the carrying value of the convertible note was \$155 million, including accrued interest, and the fair value of the embedded call option remained at \$0, measured using Level 2 and Level 3 inputs under SFAS 157. Level 2 inputs are observable inputs for similar assets, including interest rates for similar investments. Level 3 inputs are unobservable inputs, such as estimates of future cash flows.

Basis of presentation. As permitted by the rules and regulations of the Securities and Exchange Commission, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the Company's 2007 annual consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments which include only normal recurring adjustments necessary to present fairly the Company's financial position as of June 30, 2008, the results of its operations for the three and six month periods ended June 30, 2008 and 2007, and its cash flows for the six month periods ended June 30, 2008 and 2007. The results of operations for such periods are not necessarily indicative of the results to be expected for the full year. Certain reclassifications, which have no effect on previously reported net income, have been made to the 2007 financial statements to conform to the 2008 presentation. Substantially all of the prior year reclassifications relate to the classification of meals provided free to employees as a general and administrative expense, while in past periods the cost of these meals was charged to each operating department. The total amount reclassified to general and administrative expenses for the three and six months ended June 30, 2007 was \$27 million and \$54 million, respectively.

NOTE 2 ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

The sale of the Primm Valley Resorts in April 2007 resulted in a pre-tax gain of \$202 million. The sale of the Laughlin Properties in June 2007 resulted in a pre-tax gain of \$64 million. The results of the Laughlin Properties and Primm Valley Resorts are classified as discontinued operations in the accompanying consolidated statements of income for all periods presented. The cash flows of discontinued operations are included with the cash flows of continuing operations in the accompanying consolidated statements of cash flows.

Other information related to discontinued operations is as follows:

For the periods ended June 30,	Three Months		Six Months	
	2008	2007	2008	2007
	<i>(In thousands)</i>			
Net revenues of discontinued operations	\$	\$31,970	\$	\$128,619
Interest allocated to discontinued operations (based on the ratio of net assets of discontinued operations to total consolidated net assets and debt)		1,420		5,844

The assets and liabilities of the Jean Properties were classified as held for sale until June 30, 2008. Such assets and liabilities were reclassified back to assets held for use for all periods presented because they no longer met the criteria for presentation as held for sale. No impairment of the Jean Properties was indicated at the time of the reclassification back to assets held for use. Nevada Landing closed in March 2007 and the carrying values of its building assets were written-off. These amounts are included in Property transactions, net in the accompanying consolidated statements of income for the six months ended June 30, 2007.

CityCenter expects to spend approximately \$1.5 billion in construction costs during the remainder of 2008. During the six months ended June 30, 2008, the Company and Dubai World each made loans of \$500 million to CityCenter to fund near-term construction costs. Subsequent to June 30, 2008, the Company and Dubai World each funded additional near-term construction costs, and each expects to fund additional costs on an as-needed basis. The joint venture is currently negotiating with its lenders to obtain project financing, and anticipates that such financing will include requirements to utilize the project assets as security for the financing. The other potential source of project financing is additional contributions from the Company and Dubai World, which require approval of the joint venture's Board of Directors.

During the three and six months ended June 30, 2008, the Company incurred \$12 million and \$25 million, respectively, of costs reimbursable by CityCenter, primarily employee compensation, residential sales costs, and certain allocated costs. Such costs are recorded as Other operating expenses, and the reimbursement of such costs is recorded as Other revenue, in the accompanying consolidated statements of income.

The Company recorded the following related to its share of profits from The Signature at MGM Grand:

The senior credit facility has a total capacity of \$7 billion, which matures in 2011. The Company has the ability to solicit additional lender commitments to increase the capacity to \$8 billion. The components of the senior credit facility include a term loan facility of \$2.5 billion and a revolving credit facility of \$4.5 billion. At June 30, 2008, the Company had approximately \$1.7 billion of available borrowing capacity under the senior credit facility.

In February 2008, the Company repaid the \$180.4 million of 6.75% senior notes at maturity using borrowings under the senior credit facility. In May 2007, the Company issued \$750 million of 7.5% senior notes due 2016. In June 2007, the Company repaid the \$710 million of 9.75% senior subordinated notes at maturity. In August 2007, the Company repaid the \$200 million of 6.75% senior notes and the \$492.2 million of 10.25% senior subordinated notes at maturity using borrowings under the senior credit facility.

The Company's long-term debt obligations contain customary covenants requiring the Company to maintain certain financial ratios. At June 30, 2008, the Company was required to maintain a maximum leverage ratio (debt to EBITDA, as defined) of 6.5:1 and a minimum coverage ratio (EBITDA to interest charges, as defined) of 2.0:1. At June 30, 2008, the Company's leverage and interest coverage ratios were 3.7:1 and 4.3:1, respectively.

NOTE 5 COMMITMENTS AND CONTINGENCIES

Mashantucket Pequot Tribal Nation. The Company entered into a series of agreements to implement a strategic alliance with the Mashantucket Pequot Tribal Nation (MPTN), which owns and operates Foxwoods Casino Resort in Ledyard, Connecticut. The Company and MPTN have formed a jointly owned company, Unity Gaming, LLC, to acquire or develop future gaming and non-gaming enterprises. The Company will provide a loan of up to \$200 million to finance a portion of MPTN's investment in future joint projects.

Kerzner/Istithmar Joint Venture. In September 2007, the Company entered into a definitive agreement with Kerzner International and Istithmar forming a joint venture to develop a multi-billion dollar integrated resort to be located on the southwest corner of Las Vegas Boulevard and Sahara Avenue. The Company will contribute 40 acres of land, which is being valued at \$20 million per acre, for fifty percent of the equity in the joint venture. Kerzner International and Istithmar will contribute cash totaling \$600 million, of which \$200 million will be distributed to the Company, for the other 50% of the equity.

Guarantees. The Company is party to various guarantee contracts in the normal course of business, which are generally supported by letters of credit issued by financial institutions. The Company's senior credit facility limits the amount of letters of credit that can be issued to \$250 million, and the amount of available borrowings under the senior credit facility is reduced by any outstanding letters of credit. At June 30, 2008, the Company had provided \$85 million of total letters of credit, including \$50 million to support bonds issued by the Economic Development Corporation of the City of Detroit which are recorded as a liability of the Company.

Litigation. The Company is a party to various legal proceedings, most of which relate to routine matters incidental to its business. Management does not believe that the outcome of such proceedings will have a material adverse effect on the Company's financial position or results of operations.

Sales and use tax on complimentary meals. In March 2008, the Nevada Supreme Court ruled, in a case involving another casino company, that food and non-alcoholic beverages purchased for use in providing complimentary meals

to customers and to employees were exempt from sales and use tax. The Company had previously paid use tax on these items and has generally filed for refunds for the periods from January 2001 to February 2008 related to this matter. The amount subject to these refunds, including amounts related to the Mandalay Resort Group properties prior to the Company's 2005 acquisition of Mandalay Resort Group, is approximately \$33 million.

Table of Contents

The Nevada Department of Taxation filed a petition for rehearing, which the Nevada Supreme Court announced in July 2008 it would not grant. As of June 30, 2008, the Company had not recorded income related to this matter since it was still subject to court action, and the Company is currently evaluating the impact of the Nevada Supreme Court decision not to rehear the case. However, the Company is claiming the exemption on sales and use tax returns for periods after February 2008 in light of the Nevada Supreme Court decision.

NOTE 8 STOCKHOLDERS EQUITY

Tender Offer. In February 2008, the Company and a wholly-owned subsidiary of Dubai World completed a joint tender offer to purchase 15 million shares of Company common stock at a price of \$80 per share. The Company purchased 8.5 million shares at a total purchase price of \$680 million.

Stock repurchases. In addition to the tender offer, the Company repurchased 9.7 million shares of common stock at a total cost of \$561 million during the six months ended June 30, 2008. As of June 30, 2008, the Company had completed its December 2007 share repurchase authorization and had not repurchased any shares under a new 20 million share authorization approved by the Company's Board of Directors in May 2008. In the six months ended June 30, 2007, the Company repurchased 2.5 million shares of common stock at a total cost of \$175 million.

NOTE 9 STOCK-BASED COMPENSATION

The Company adopted an omnibus incentive plan in 2005 which allows it to grant stock options, stock appreciation rights (SARs), restricted stock, and other stock-based awards to eligible directors, officers and employees of the Company and its subsidiaries. The plans are administered by the Compensation Committee (the Committee) of the Board of Directors. The Committee has discretion under the omnibus plan regarding which type of awards to grant, the vesting and service requirements, exercise price and other conditions, in all cases subject to certain limits, including:

The omnibus plan allowed for the issuance of up to 20 million shares or share-based awards;

For stock options and SARs, the exercise price of the award must be at least equal to the fair market value of the stock on the date of grant and the maximum term of such an award is 10 years.

Table of Contents

To date, the Committee has only awarded stock options and SARs under the omnibus plan. The Company's practice has been to issue new shares upon the exercise of stock options and SARs. Under the Company's previous plans, the Committee had issued stock options and restricted stock. Stock options and SARs granted under all plans generally have either 7-year or 10-year terms, and in most cases vest in either four or five equal annual installments.

As of June 30, 2008, the aggregate number of share-based awards available for grant under the omnibus plan was 1.6 million. A summary of activity under the Company's share-based payment plans for the six months ended June 30, 2008 is presented below:

Stock options and stock appreciation rights

	Shares (000 s)	Weighted Average Exercise Price
Outstanding at January 1, 2008	26,674	\$31.90
Granted	1,720	60.86
Exercised	(714)	16.09

Outstanding at June 30, 2008	27,495	34.00
Exercisable at June 30, 2008	16,482	23.52

As of June 30, 2008, there was a total of \$115 million of unamortized compensation related to stock options and stock appreciation rights expected to vest, which is expected to be recognized over a weighted-average period of 2.3 years. The following table includes additional information related to stock options and SARs:

Six months ended June 30,	2008	2007
	(In thousands)	
Intrinsic value of stock options and SARs exercised	\$30,555	\$150,479
Income tax benefit from stock options and SARs exercised	10,136	50,224
Proceeds from stock option exercises	11,331	52,898

The Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)) on January 1, 2006 using the modified prospective method. The Company recognizes the fair value of awards granted under the Company's omnibus plan in the income statement based on the fair value of these awards measured at the date of grant using the Black-Scholes model. For awards granted prior to adoption, the unamortized expense is being recognized on an accelerated basis, since this was the method used for disclosure purposes prior to the adoption of SFAS 123(R). For awards granted after adoption, such expense is being recognized on a straight-line basis over the vesting period of the awards. Forfeitures are estimated at the time of grant, with such estimate updated periodically and with actual forfeitures recognized currently to the extent they differ from the estimate.

The following table shows information about compensation cost recognized:

Write-downs and impairments in 2008 primarily related to a damaged marquee sign at Bellagio, assets written off in conjunction with retail store changes at Mandalay Bay, and discontinued capital projects. Demolition costs in 2008 relate largely to room remodel activity.

Write-downs and impairments in 2007 primarily related to the write-off of the carrying value of the building assets of Nevada Landing which closed in March 2007.

NOTE 11 CONSOLIDATING CONDENSED FINANCIAL INFORMATION

The Company's subsidiaries (excluding MGM Grand Detroit, LLC, foreign subsidiaries, and certain minor subsidiaries) have fully and unconditionally guaranteed, on a joint and several basis, payment of the senior credit facility, the senior notes and the senior subordinated notes. Separate condensed financial statement information for the subsidiary guarantors and non-guarantors as of June 30, 2008 and December 31, 2007 and for the three and six month periods ended June 30, 2008 and 2007 is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Results of Operations

Overview

At June 30, 2008, our primary operations consisted of 17 wholly-owned casino resorts and 50% investments in four other casino resorts, including:

Las Vegas, Nevada:	Bellagio, MGM Grand Las Vegas, Mandalay Bay, The Mirage, Luxor, TI, New York-New York, Excalibur, Monte Carlo, Circus Circus Las Vegas and Slots-A-Fun.
Other:	Circus Circus Reno and Silver Legacy (50% owned) in Reno, Nevada; Gold Strike in Jean, Nevada; Railroad Pass in Henderson, Nevada; MGM Grand Detroit; Beau Rivage in Biloxi, Mississippi and Gold Strike Tunica in Tunica, Mississippi; Borgata (50% owned) in Atlantic City, New Jersey; Grand Victoria (50% owned) in Elgin, Illinois; and MGM Grand Macau (50% owned).

MGM Grand Las Vegas includes The Signature at MGM Grand, a condominium hotel consisting of over 1,500 units in three towers which we manage as a hotel. Other operations include the Shadow Creek golf course in North Las Vegas; the Primm Valley Golf Club at the California/Nevada state line; and Fallen Oak golf course in Saucier, Mississippi. In addition, we own 50% of CityCenter Holdings, LLC which is developing CityCenter, a mixed-use development on the Las Vegas Strip between Bellagio and Monte Carlo, expected to open in late 2009. CityCenter will feature a 4,000-room casino resort; two 400-room non-gaming boutique hotels, one of which will be managed by luxury hotelier Mandarin Oriental; approximately 425,000 square feet of retail shops, dining and entertainment venues in The Crystals retail complex; and approximately 2.3 million square feet of residential space in approximately 2,700 luxury condominium and condominium-hotel units in multiple towers. The other 50% of CityCenter is owned by Infinity World Development Corp., a wholly-owned subsidiary of Dubai World. We are managing the development of CityCenter and, upon completion of construction, will manage the operations of CityCenter for a fee. We owned 100% of CityCenter until November 2007.

In April 2007, we sold the Primm Valley Resorts (Whiskey Pete's, Buffalo Bill's and Primm Valley Resort in Primm, Nevada), not including the Primm Valley Golf Club. In June 2007, we sold the Laughlin Properties (Colorado Belle and Edgewater).

We operate in one reporting segment, the operation of casino resorts, which includes offering gaming, hotel, dining, entertainment, retail and other resort amenities. Over half of our net revenue is derived from non-gaming activities, a higher percentage than many of our competitors, as our operating philosophy is to provide a complete resort experience for our guests, including non-gaming amenities which command a premium price based on their quality. Our significant convention and meeting facilities allow us to maximize hotel occupancy and customer volumes during off-peak times such as mid-week or during traditionally slower leisure travel periods, which also leads to better labor utilization. We believe that we own several of the premier casino resorts in the world, and a main focus of our strategy is to continually reinvest in these resorts to maintain that competitive advantage.

As a resort-based company, our operating results are highly dependent on the volume of customers at our resorts, which in turn impacts the price we can charge for our hotel rooms and other amenities. We also generate a significant portion of our operating income from high-end gaming customers, which can cause variability in our results. Key performance indicators related to revenue are:

Casino revenue indicators – table games drop and slots handle (volume indicators); win or hold percentage, which is not fully controllable by us. Our table games win percentage is normally 18% to 22% of table games drop and our slots win percentage is normally 6.5% to 7.5% of slots handle;

Rooms revenue indicators – hotel occupancy (volume indicator); average daily rate (ADR, price indicator); revenue per available room (REVPAR), a summary measure of hotel results combining ADR and occupancy rate.

Most of our revenue is essentially cash-based, through customers wagering with cash or paying for non-gaming services with cash or credit cards. Our resorts generate significant operating cash flow. Our industry is capital intensive and we rely heavily on the ability of our resorts to generate operating cash flow to repay debt financing, fund

maintenance capital expenditures and provide excess cash for future development.

We generate a majority of our net revenues and operating income from our resorts in Las Vegas, Nevada, which exposes us to certain risks outside of our control, such as competition from other recently opened or expanded Las Vegas resorts, and the impact from expansion of gaming in California. We are also exposed to risks related to tourism and the general economy, including national and global economic conditions and terrorist attacks or other global events.

Table of Contents

Our results of operations do not tend to be seasonal in nature, though a variety of factors may affect the results of any interim period, including the timing of major Las Vegas conventions, the amount and timing of marketing and special events for our high-end customers, and the level of play during major holidays, including New Year and Chinese New Year. We market to different customer segments to manage our hotel occupancy, such as targeting large conventions to ensure mid-week occupancy. Our results do not depend on key individual customers, though our success in marketing to customer groups, such as convention customers, or the financial health of customer segments, such as business travelers or high-end gaming customers from a particular country or region, can impact our results.

Financial Results

The following discussion is based on our consolidated financial statements for the three and six months ended June 30, 2008 and 2007. On a consolidated basis, the most important factors and trends contributing to our operating performance for the periods were:

The weakness in the United States economy, particularly the impact on our customers of: 1) the weak housing market; 2) credit concerns and related effect on housing sales and prices; 3) increase in travel costs due to higher oil and gas prices; 4) overall weakness in the employment market; and 5) stock market volatility. Additionally, the convention and conference (group) market segment was impacted by cancellations and reduced attendance, leading to a 9% decrease in group room nights for the six month period. These factors contributed to a 5% decline in Las Vegas Strip REVPAR for the first six months of 2008 and declines in gaming revenue. See Operating Results Detailed Revenue Information.

The closure of Monte Carlo from January 25, 2008 through February 14, 2008 due to a rooftop fire; additionally, a significant portion of Monte Carlo's suites remained out of service through June 30, 2008. While we maintain insurance coverage for both property damage and business interruption, we do not record recovery of lost profits until all contingencies with the insurance claim have been resolved. Monte Carlo earned operating income of \$37 million for the six months ended June 30, 2008, which included \$19 million of insurance recovery income, compared to \$54 million for the six months ended June 30, 2007.

The opening of the permanent casino at MGM Grand Detroit in October 2007, which added significant gaming capacity, a 400 room hotel, and new restaurants and other amenities.

Our net revenue decreased 2% in both the three and six month periods compared to the prior year. Revenues were impacted by the economic and market trends discussed above, and we strategically lowered room prices to maximize occupancy levels. Gaming revenue was also impacted by lower visitor spending. However, spending in restaurants, entertainment venues and other non-gaming areas was not impacted to the same extent. Our regional resorts performed relatively better in the second quarter compared to the first quarter.

Operating income decreased 29% for the second quarter to \$334 million, largely reflecting lower revenues, higher depreciation expense, and prior year profits of \$63 million relating to The Signature at MGM Grand. On a comparable basis, excluding residential profits in the prior year and insurance recoveries in the current year, operating income decreased 21%. During the quarter, we reduced our salaried management positions by over 400 and continued to increase the efficiency of operations at MGM Grand Detroit. We have implemented several cost reduction measures and continuously monitor variable staffing levels. On a year-to-date basis, our operating income decreased 26% to \$675 million and was generally affected by similar trends.

Table of Contents

The decrease in table games revenue in the second quarter resulted from a 7% decrease in total table games volume. The overall table games hold percentage was within our normal range in both periods, and was slightly higher in the current quarter versus the prior year quarter. Slots revenue decreased 2% in the quarter, with a 10% decrease at our Las Vegas Strip resorts. However, slots revenue increased in the high single digits at Beau Rivage and Gold Strike and 18% at MGM Grand Detroit. MGM Grand Detroit continues to gain market share as a result of its upgraded amenities.

Rooms revenue in the second quarter decreased 6%, with a 5% decrease in Las Vegas Strip REVPAR. Average room rates were down 4% at the Company's Las Vegas Strip resorts. Las Vegas Strip occupancy decreased slightly, and the Company had approximately 32,000 fewer rooms available at its Las Vegas Strip resorts, mainly due to the Monte Carlo fire. The following table shows key hotel statistics for our Las Vegas Strip Resorts:

For the periods ended June 30,	Three Months		Six Months	
	2008	2007	2008	2007
Occupancy	97%	98%	95%	97%
Average Daily Rate (ADR)	\$155	\$162	\$160	\$166
Revenue per Available Room (REVPAR)	150	159	152	160

Food and beverage revenue increased 2% and entertainment revenues also performed well, only down 4% despite a difficult comparison as the second quarter of 2007 featured the Oscar de la Hoya-Floyd Mayweather fight. Our Cirque du Soleil production shows generated a combined 3% increase in revenue in the second quarter. We believe our restaurants, nightclubs and Cirque du Soleil production shows continue to attract guests seeking the highest quality. We have continued to introduce new venues, such as the recently opened Brand Steakhouse at Monte Carlo, Tender Steakhouse at Luxor, BLT Burger at The Mirage, and Yellowtail sushi restaurant at Bellagio; as well as soon to open RokVegas nightclub at New York-New York. In addition, the new production show from Cirque du Soleil and Criss Angel, *Believe*, will open in the fall of 2008 at Luxor.

Revenue results for the six month periods were generally similar to those discussed above, with the following items of note:

Table games volume declined 5% for the six months, and the table games hold percentage was near the middle of the normal range in 2008, slightly higher than 2007;

Slots revenue improved in the second quarter in the regional markets; for instance, MGM Grand Detroit's first quarter slots revenue was only up 9% versus 18% in the second quarter;

Though the decrease in Las Vegas Strip REVPAR was essentially the same in the first and second quarters, we were better able to maintain occupancy near prior year levels in the second quarter—a 90 basis points year-over-year decrease in occupancy in the second quarter versus a 260 basis point decline in the first quarter.

Operating Results Details of Certain Charges

Preopening and start-up expenses were \$7 million and \$12 million, respectively, in the 2008 three and six-month periods versus \$14 million and \$28 million, respectively, in 2007. In 2008, preopening and start-up expenses largely consisted of our share of CityCenter's preopening costs. In 2007, preopening and start-up expenses consisted of amounts related to CityCenter, MGM Grand Macau, the permanent facility at MGM Grand Detroit and The Signature at MGM Grand.

Property transactions, net consisted of the following:

Write-downs and impairments in 2008 primarily related to a damaged marquee sign at Bellagio, assets written off in conjunction with retail store changes at Mandalay Bay, and discontinued capital projects. Demolition costs in 2008 relate largely to room remodel activity.

Write-downs and impairments in 2007 primarily related to the write-off of the carrying value of the Nevada Landing building assets due to its closure in March 2007.

Non-operating Results

Net interest expense decreased to \$145 million in the 2008 second quarter from \$183 million in the 2007 period. For the six months, net interest expense decreased to \$295 million from \$367 million. Gross interest cost was lower in the 2008 periods due to a combination of lower market interest rates and the decrease in average debt balances outstanding as a result of the net proceeds of approximately \$3.7 billion from the CityCenter transaction and Dubai World stock sale in November 2007, offset by recent share repurchase activity. Capitalized interest decreased, as we are no longer capitalizing interest on our investment in MGM Grand Macau or the Detroit permanent casino, and capitalization of interest on our CityCenter investment was lower than our former capitalization of interest on CityCenter construction costs when the project was wholly-owned. These items were offset partially by new capitalized interest on MGM Grand Atlantic City construction and related land costs.

Discontinued Operations

We completed the sale of Primm Valley Resorts in April 2007, and the sale of the Laughlin Properties in June 2007. Our combined pre-tax gain on disposal of these resorts was \$264 million.

Liquidity and Capital Resources

Cash Flows Operating Activities

Cash flow provided by operating activities was \$256 million for the six months ended June 30, 2008, a decrease from \$678 million in the prior year period. This decrease was primarily due to the following factors:

The decrease in operating income from \$914 million in 2007 to \$675 million in 2008;

Higher income tax payments as the 2008 period included a significant tax payment, approximately \$302 million, relating to the November 2007 CityCenter transactions.

At June 30, 2008, we held cash and cash equivalents of \$280 million.

Cash Flows Investing Activities

Capital expenditures were \$479 million in the six months ended June 30, 2008. Major items included room remodel activity at several resorts The Mirage, TI and Excalibur; corporate airplanes; the people mover system connecting Bellagio, CityCenter and Monte Carlo as well as Monte Carlo's share of a new parking garage; Monte Carlo repairs resulting from the fire; and the new theater at Luxor for *Believe*.

In 2007, capital expenditures were \$1.8 billion, and included expenditures for CityCenter, the permanent casino in Detroit, Beau Rivage rebuilding costs, room remodel projects, and corporate aircraft.

Cash Flows Financing Activities

In the six months ended June 30, 2008, we borrowed net debt of \$1.8 billion. The increase in net debt was due primarily to the level of capital expenditures and share repurchases. At June 30, 2008, our senior credit facility had an outstanding balance of \$5.3 billion, with available borrowings of \$1.7 billion.

We repurchased 18.2 million shares of our common stock in the six months ended June 30, 2008 at a cost of \$1.2 billion, including shares purchased in a joint tender offer with a wholly-owned subsidiary of Dubai World. By June 30, 2008, we had completed our December 2007 share repurchase authorization and had not repurchased any shares under a new 20 million share authorization approved by our Board of Directors in May 2008.

Other Factors Affecting Liquidity

Long-term Debt Payable in 2008. We repaid a total of \$196 million in senior notes at maturity in August 2008. In addition, holders of our \$150 million 7% debentures due 2036 will have the option to require us to repurchase such debt late in 2008.

Table of Contents

CityCenter. CityCenter expects to spend approximately \$1.5 billion in construction costs during the remainder of 2008. During the six months ended June 30, 2008, we and Dubai World each made loans of \$500 million to CityCenter to fund near-term construction costs. Subsequent to June 30, 2008, we and Dubai World each funded additional near-term construction costs and expect to fund additional costs on an as-needed basis. The joint venture is currently negotiating with its lenders to obtain project financing, and anticipates that such financing will include requirements to utilize the project assets as security for the financing. The other potential source of project financing is additional contributions from us and Dubai World, which require approval of the joint venture's Board of Directors.

MGM Grand Atlantic City Development. In October 2007, we announced plans for a multi-billion dollar resort complex on our 72-acre site in Atlantic City. The new resort, MGM Grand Atlantic City, is preliminarily estimated to cost approximately \$4.5 to \$5.0 billion, not including land and associated costs. The proposed resort would include three towers with more than 3,000 total rooms and suites, approximately 4,500 slot machines and 250 table games, extensive retail and convention and meeting facilities, and other typical resort amenities.

Mashantucket Pequot Tribal Nation. We have entered into a series of agreements to implement a strategic alliance with the Mashantucket Pequot Tribal Nation (MPTN), which owns and operates Foxwoods Casino Resort in Ledyard, Connecticut. Under the strategic alliance, a new casino resort owned and operated by MPTN located adjacent to the existing Foxwoods casino resort carries the MGM Grand brand name. The resort opened in May 2008. We are receiving a branding fee in connection with this agreement. We have also formed a jointly owned company with MPTN, Unity Gaming, LLC, to acquire or develop future gaming and non-gaming enterprises. We will provide a loan of up to \$200 million to finance a portion of MPTN's investment in future joint projects.

Critical Accounting Policies and Estimates

Management's discussion and analysis of our results of operations and liquidity and capital resources are based on our consolidated financial statements. To prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, we must make estimates and assumptions that affect the amounts reported in the consolidated financial statements. We regularly evaluate these estimates and assumptions, particularly in areas we consider to be critical accounting estimates, where changes in the estimates and assumptions could have a material impact on our results of operations, financial position and, generally to a lesser extent, cash flows. Senior management and the Audit Committee of the Board of Directors have reviewed the disclosures included herein about our critical accounting estimates, and have reviewed the processes to determine those estimates.

A complete description of our critical accounting policies and estimates can be found in our Annual Report on Form 10-K for the year ended December 31, 2007. We present below supplemental disclosure within our policies related to impairment of long-lived assets, which is in addition to the discussion included in our Annual Report, to include a discussion of the evaluation of goodwill and indefinite-lived intangible assets for impairment.

Impairment of Long-lived Assets

We review goodwill and indefinite-lived intangible assets for impairment in accordance with Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets. Goodwill represents the excess of purchase price over fair market value of net assets acquired in business combinations. Goodwill and indefinite-lived intangible assets must be reviewed for impairment at least annually and between annual test dates in certain circumstances. The Company performs its annual impairment test for goodwill and indefinite-lived intangible assets in the fourth quarter of each fiscal year.

There are several estimates inherent in evaluating these assets for impairment. In particular, future cash flow estimates are, by their nature, subjective and actual results may differ materially from our estimates. In addition, the determination of terminal year free cash flow multiples, used in the goodwill impairment test, are highly judgmental and dependent in large part on expectations of future market condition.

Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates and foreign currency exchange rates. Our primary exposure to market risk is interest rate risk associated with our variable rate long-term debt. We attempt to limit our exposure to interest rate risk by managing the mix of our long-term fixed rate borrowings and short-term borrowings under our bank credit facilities.

As of June 30, 2008, long-term variable rate borrowings represented approximately 40% of our total borrowings. Assuming a 100 basis-point change in LIBOR at June 30, 2008, our annual interest cost would change by approximately \$53 million.

Forward-looking Statements

(Cautionary Statements Under the Private Securities Litigation Reform Act of 1995)

This Form 10-Q contains some forward-looking statements. Forward-looking statements give our current expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They contain words such as anticipate, estimate, expect, project, intend, plan, may, could, might and other words or phrases of similar meaning in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, new projects, future performance, the outcome of contingencies such as legal proceedings, and future financial results. From time to time, we also provide oral or written forward-looking statements in our Forms 10-K, Annual Reports to Stockholders, Forms 8-K, press releases and other materials we release to the public. Any or all of our forward-looking statements in this Form 10-Q and in any other public statements we make may turn out to be wrong. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties. Many factors mentioned in this Form 10-Q for example, government regulation and the competitive environment will be important in determining our future results. Consequently, no forward-looking statement can be guaranteed. Our actual future results may differ materially.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our Forms 10-K, 10-Q and 8-K reports to the Securities and Exchange Commission. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

You should also be aware that while we from time to time communicate with securities analysts, we do not disclose to them any material non-public information, internal forecasts or other confidential business information. Therefore, you should not assume that we agree with any statement or report issued by any analyst, irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain projections, forecasts or opinions, those reports are not our responsibility.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We incorporate by reference the information appearing under Market Risk in Part I, Item 2 of this Form 10-Q.

Item 4. Controls and Procedures

Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that the design and operation of our disclosure controls and procedures are effective as of June 30, 2008. This conclusion is based on an evaluation conducted under the supervision and with the participation of Company management. Disclosure controls and procedures are those controls and procedures which ensure that information required to be disclosed in this filing is accumulated and communicated to management and is recorded, processed, summarized and reported in a timely manner and in accordance with Securities and Exchange Commission rules and regulations.

During the quarter ended June 30, 2008, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**Part II. OTHER INFORMATION****Item 1. Legal Proceedings***Fair and Accurate Credit Transaction Act Litigation*

On June 22, 2007, the Company was served with a nationwide class action lawsuit filed in federal district court in Nevada (*Lety Ramirez v. MGM MIRAGE, Inc., et al.*) for alleged willful violations of the Fair and Accurate Credit Transactions Act (FACTA). The lawsuit asserted that the Company failed to comply timely with FACTA's directive that merchants who accept credit and/or debit cards not display more than the last 5 digits of the card number or the card expiration date on electronically-generated receipts provided to customers at the point of sale. In June 2008, the action was settled with the individual plaintiff on terms favorable to Company, and on June 30, 2008 the plaintiff filed a voluntary notice of dismissal of the case. No class was certified in this case.

Mandalay Bay Ticket Processing Fee Litigation

On July 14, 2008, the Company was served with a putative class action lawsuit filed in Los Angeles Superior Court in California (*Jeff Feld v. Mandalay Corp. d/b/a Mandalay Bay Resort & Casino*). The action purports to be brought pursuant to California's Consumer Legal Remedies Act on behalf of all California residents who during the previous six years purchased event tickets from our subsidiary, paid a separate processing fee in addition to the ticket price, and did not receive or received inaccurate notice of the processing fee when they purchased the ticket. The plaintiff alleges that our subsidiary advertised event tickets at a specified price and then charged purchasers undisclosed additional fees, specifically a \$5 processing fee, and that the foregoing was unlawful, a breach of contract, an unfair business practice, and a violation of California's Civil Code and Business & Professions Code.

The plaintiff is seeking unspecified monetary damages including restitution, injunctive relief, attorneys' fees and costs. We believe that the plaintiff's claims for relief and for class certification are unjustified, and we intend to vigorously defend our position in this case.

Other

We and our subsidiaries are also defendants in various other lawsuits, most of which relate to routine matters incidental to our business. We do not believe that the outcome of this other pending litigation, considered in the aggregate, will have a material adverse effect on the Company.

Item 1A. Risk Factors

A complete description of certain factors that may affect our future results and risk factors is set forth in our Annual Report on Form 10-K for the year ended December 31, 2007. There have been no material changes to those factors in the six months ended June 30, 2008.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our share repurchases are only conducted under repurchase programs approved by our Board of Directors and publicly announced. During the second quarter we completed our December 2007 share repurchase authorization and did not repurchase any shares under a new 20 million share authorization approved by the Company's Board of Directors in May 2008.
